

**Summary of Submissions:**

The tables below summarise the comments received during the advertising period of the proposal, together with the Officer's response to each comment.

<b>Comments Received in Objection:</b>	<b>Officer's Comments:</b>
<p><b><u>Parking</u></b></p> <p>Concerns regarding workers blocking off available street parking for their own private vehicles for extended periods of time.</p>	<p>This matter has been referred to the City's Ranger Services, who can address this matter under the City's Local Laws. The Construction Management Plan indicates that there is on-site parking provided for the workers at 194-196 Carr Place. If this on-site parking is full, the applicant and workers are required to use paid public parking, or use other means of transport such as public transport, to reach the site. There is no provision in the Building Permit or the Development Approval for site workers to block off public parking bays for their private use.</p>

Note: Submissions are considered and assessed by issue rather than by individual submitter.
