

CITY OF VINCENT

AGENDA

Ordinary Council Meeting 17 November 2020

Time:

**Location: E-Meeting and Administration and
Civic Centre
244 Vincent Street, Leederville**

**David MacLennan
Chief Executive Officer**

DISCLAIMER

No responsibility whatsoever is implied or accepted by the City of Vincent (City) for any act, omission, statement or intimation occurring during Council Briefings or Council Meetings. The City disclaims any liability for any loss however caused arising out of reliance by any person or legal entity on any such act, omission, statement or intimation occurring during Council Briefings or Council Meetings. Any person or legal entity who acts or fails to act in reliance upon any statement, act or omission made in a Council Briefing or Council Meeting does so at their own risk.

In particular and without derogating in any way from the broad disclaimer above, in any discussion regarding any planning or development application or application for a licence, any statement or intimation of approval made by an Elected Member or Employee of the City during the course of any meeting is not intended to be and is not to be taken as notice of approval from the City. The City advises that anyone who has any application lodged with the City must obtain and should only rely on WRITTEN CONFIRMATION of the outcome of the application, and any conditions attaching to the decision made by the Council in respect of the application.

Copyright

Any plans or documents contained within this Agenda may be subject to copyright law provisions (Copyright Act 1968, as amended) and that the express permission of the copyright owner(s) should be sought prior to their reproduction. It should be noted that Copyright owners are entitled to take legal action against any persons who infringe their copyright. A reproduction of material that is protected by copyright may represent a copyright infringement.

PROCEDURE FOR PUBLIC QUESTION TIME

The City's Council Briefings, Ordinary Council Meetings, Special Council Meetings and COVID-19 Relief and Recovery Committee Meetings are held in the Council Chamber located upstairs in the City of Vincent Administration and Civic Centre. Physical distancing measures are in place. Meetings are also held electronically (as eMeetings), and live streamed so you can continue to watch our meetings and briefings online at <https://www.vincent.wa.gov.au/council-meetings/livestream>

Questions or statements made at an Ordinary Council Meeting can relate to any matters that affect the City.

Questions or statements made at a Council Briefing, Special Meeting of the Council or a Committee Meeting can only relate to the items on the agenda or the purpose for which the meeting has been called.

Public Questions will be strictly limited to three (3) minutes per person.

The following conditions apply to public questions and statements:

1. Questions and statements can be made in person or by emailing governance@vincent.wa.gov.au with the questions prior to 3pm on the day of a Council Briefing or Meeting or prior to 10am on the day of a Committee Meeting. Please include your full name and suburb in your email.
2. Questions emailed will be read out by the CEO or his delegate during public question time if they relate to an item on the agenda. If they do not relate to an item on the agenda they will be answered outside of the meeting. Statements will not be read out.
3. Shortly after the commencement of the meeting, the Presiding Member will ask members of the public to come forward to address the Council and to give their name and the suburb in which they reside or, where a member of the public is representing the interests of a business, the suburb in which that business is located and Agenda Item number (if known).
4. Questions/statements are to be made politely in good faith and are not to be framed in such a way as to reflect adversely or be defamatory on an Elected Member or City Employee.
5. Where practicable, responses to questions will be provided at the meeting. Where the information is not available or the question cannot be answered, it will be *"taken on notice"* and a written response will be sent by the Chief Executive Officer to the person asking the question. A copy of the reply will be included in the Agenda of the next Ordinary meeting of the Council.
6. It is not intended that public speaking time should be used as a means to obtain information that would not be made available if it was sought from the City's records under Section 5.94 of the *Local Government Act 1995* or the *Freedom of Information Act 1992* (FOI Act). The CEO will advise the member of the public that the information may be sought in accordance with the FOI Act.

RECORDING AND WEBSTREAMING OF COUNCIL MEETINGS

- All Council proceedings are recorded and livestreamed in accordance with the Council Proceedings – Recording and Web Streaming Policy.
- All recordings are retained as part of the City's records in accordance with the State Records Act 2000.
- All livestreams can be accessed at <https://www.vincent.wa.gov.au/council-meetings/livestream>
- All live stream recordings can be accessed on demand at <https://www.vincent.wa.gov.au/council-meetings>
- Images of the public gallery are not included in the webcast, however the voices of people in attendance may be captured and streamed.
- If you have any issues or concerns with the live streaming of meetings, please contact the City's Governance Team on 08 9273 6500.

Order Of Business

1 DECLARATION OF OPENING / ACKNOWLEDGEMENT OF COUNTRY

"The City of Vincent would like to acknowledge the Traditional Owners of the land, the Whadjuk people of the Noongar nation and pay our respects to Elders past, present and emerging".

2 APOLOGIES / MEMBERS ON LEAVE OF ABSENCE

Nil

3 (A) PUBLIC QUESTION TIME AND RECEIVING OF PUBLIC STATEMENTS

(B) RESPONSE TO PREVIOUS PUBLIC QUESTIONS TAKEN ON NOTICE

3.1 Dudley Maier of Highgate

- Options are currently being presented to the community for the lot at 10 Monmouth Street. The only options given are: sell it; leave as it is; and an unspecified 'other'. Why hasn't the city developed a landscape plan for the lot and presented that to the community?

The purpose of the consultation is to get community feedback on the potential sale of this lot. It is not proposed that the City will change the management of the lot if it is not sold – it would remain in its current condition. Therefore the development of a landscape plan is not necessary at this stage.

- The concept plan on the Barlee Street Carpark was confidential in the Briefing Agenda, and has only been made public because of council intervention. The report also did not contain any information about parking utilisation. I'm not sure but I believe we have the Mayor to thank for those being included in this agenda.

Why did the Administration make the concept plan confidential and why didn't they include any parking data until prompted by Council? Why isn't there a parking impact statement included in this report – have the staff actually considered it? By the way there were 36 cars parked there at 6:45 last night – a Monday night.

The attachment at the Council Briefing included an assessment of the market valuation as well as a concept plan. The assessment of the market valuation was considered confidential. Following discussion at the Council Briefing the concept plan and summary/assessment of the market valuation were separated and attached separately. The concept plan could therefore be made public.

The parking data will form part of the consideration by the community and Council when investigating alternative uses for the City's land, however, it did not form part of the consideration for approving the extension of lease.

- Why are changes to documents like the Public Health Plan, and others on tonight's agenda, no longer shown with 'tracked changes' so that the community can see any changes, if any? By the way, I did compare the advertised health plan and the plan on the agenda and the only changes were to add some words about smoking, and adding a couple of points about ultraviolet radiation, and minor changes – nothing substantive!

Minor changes were made to the Public Health Plan in response to the comments received from the community and stakeholders. The changes to the Plan were outlined within the report along with the reasons why the changes were made.

- On 20 September 2018 the City paid Kott Gunning Lawyers a sum of \$60,000 which was described as "settlement of a legal matter". What was the legal matter – was it related to an unfair dismissal claim? Who approved the payment – was it the former CEO?

The legal matter was confidential, payment of the settlement sum was approved by the former CEO.

5. In response to your answer to my question 2 at the last meeting. Can you confirm that transport depot, fuel depot, service station, and corrective institution uses are exempt from a DA in non-residential zones under the Vincent's approach, but would require a DA under the Minister's order?

If a change of use was proposed then these uses would be exempt from development approval. The exemptions extend to use only and not works. Where works are proposed i.e. installation of fuel tanks and associated infrastructure this would require development approval. The City's COVID exemptions were intended to provide flexibility for existing businesses who may need to adapt their operations in response to the pandemic and also endeavour to cut red tape for any new business who may wish to commence in the City within an existing premises.

Item 9.7 Accessible City

The document is OK but is pretty vague – more of a plan for plan.

It has errors. On page 13 it says that South of Vincent there is higher on-street parking demand because of greater commercial land use. The reality is that most properties south of Vincent were developed before cars were a thing. Why is this important – because the suggestion is that residents be charged for parking permits. On page 12 it says that households are moving away from multi-car ownership. Data from the last 3 censuses shows the opposite – the number of zero car households has dropped from 14.2% to 9.4%; household ownership has gone up from 1.38 to 1.52 cars per household; and multi-car households have gone from 40.7% to 46.5%.

One of the opportunities listed on page 20 is the ability to significantly improve road safety outcomes by going to 30kph limits; the Safe Active Streets are at 30kph; documentation about compact roundabouts says they are only safe for cyclists if the speed is less than 30kph; Austroads Safe System principle states that speeds less than 30 kph significantly decrease death and serious injury. Yet Vincent sticks with 40kph!

The data contained on page 13 represents a summary of parking within Vincent at the stated point in time. The development of properties within Vincent before cars is a reality in many areas across Vincent. The proposed action regarding the pricing of residential parking permits was intended to be an investigative exercise. The action to investigate the pricing of parking permits has now been removed from the draft Accessible City Strategy (ACS). The observation which has been made regarding car ownership is correct. In light of this the City will correct the assumption which has been made in the draft ACS.

Noting that the desirable speed of private vehicles for pedestrians and cyclists is 30km/hr. It is recommended that the best way to achieve this long-term change is through various initiatives and treatments of the road. The 40km/h areas are one very positive way of getting to this ideal outcome.

3.2 Sonia Grincer of Leederville

- Questioned the lack of public parking during office hours on the east side of Oxford Street, Newcastle Street and Carr Place.

There is extensive public parking available along the streets identified as well as Frame Court and The Avenue Car Parks. Rangers patrol the Leederville Town Centre each day to ensure the parking restrictions are adhered to and that the required parking turnover is achieved.

- Problem exacerbated by on street seating.

Parklets and on street seating are provided on request by businesses and are seen as important in our town centres to promote vibrancy and enhance pedestrian activity. Businesses must apply for parklets and through this application must provide evidence of support from neighbouring businesses.

- The lack of public parking is affecting businesses in this area.

There is adequate public parking in and around the Leederville Town Centre and there is not a shortfall. The City is not ignoring the needs of business operators and respond to any parking complaints received in addition to maintaining regular patrols in the area.

- What plans are in place to compensate for loss of short term on street parking due to hospitality use?

There are no plans nor is there a requirement to compensate businesses for changes in parking.

- Why did Council abandon its proposal to build multistorey parking on Frame Court?

The Leederville Activity Centre Plan is currently being drafted and will be available for community consultation in 2021. This consultation process will gather feedback on what the community's vision is for Leederville now and into the future. This will address specific spaces in Leederville such as Frame Court as well as specific issues including what parking and other transport infrastructure is required in the future.

3.3 Lisa Fanciulli of Perth

Spoke against the e-parking permits and advised that there is not an issue with the existing parking permit process.

- Residents do not want to have to ask their visitors to register their number plates

Residents will be the account holder and so will manage the registrations on their account. A resident may choose to register the visitor's vehicle before they arrive or once the visitor arrives. Once the registration has been entered and made active that vehicle will be live on the system instantly. The registration can be retained in the system for future visits so it will only need to be entered once. Please note that residents will only need the registration, no other details will be required.

- Will their number plates be logged all over the City?

No

- Asked how the City will ensure data security and privacy?

Data is hosted within Microsoft's Australian Azure data platform which itself is certified to ISO 27001, the same information security standard that the City of Vincent bases its security framework on.

The Licence Plate Recognition technology (LPR) used by Rangers to identify vehicle registrations does not identify the vehicle owner it simply confirms if the registration is active and eligible to park.

3.4 Sally Lake of Highgate

- In the past it has been the tradition that anybody that made a submission was informed the meeting. Queried if the City made a decision to stop advising people who made a submission, or was it an oversight? Queried if the people who made submissions on Items 9.4, 9.5, 9.6, 9.7, 11.2, 11.3 and 12.5 were advised of this meeting.

Response for 9.4:

Respondents for the Public Health Plan community consultation were contacted via e-mail between 12 – 19 October 2020 to thank them for their submission and were provided with a link to the council agenda and report. It is acknowledged that the notice period may have been too short in some instances.

Response for 9.5:

The City acknowledged Vending Vincent Policy consultation submissions upon receipt and advised the anticipated Ordinary Meeting of Council (OMC) would be held in September 2020. Respondents were not further advised of the change of date to the October OMC which was an oversight. The responsible team have put mechanisms in place to ensure notification is provided in the future.

Response for 9.6:

The key stakeholders relating to the new Haynes Reserve including the current tenants of the site were informed of the Council meeting agenda item.

Response for 9.7:

The Accessible City Strategy (ACS) is now going to be released for consultation. Submission providers will be notified of the date of the Council Meeting when the ACS will be tabled for adoption.

Response for 11.2:

Community consultation was customised to suit the Youth audience and their advocates. Consultation process is detailed in the paper. Final review of consultation process and input was conducted with the Children and Young People Advisory Group who were informed of the meeting.

Response for 11.3:

One community comment was received which related to heritage. Comment was unrelated to the policy changes proposed. Community member was advised their feedback had been passed on to the appropriate officer.

Response for 12.5:

All persons submitting a response to the City's EHQ page on the proposed transfer of ANZAC Cottage to the National Trust were informed by email dated 8 October 2020 of the upcoming Council briefing and meeting, a link to the Council Agenda was included in the email. The National Trust of WA, VVAWA and the Friends of ANZAC Cottage (as interested parties) were also notified by email.

3.5 Andrew Main of North Perth – Item 9.7**Question 1**

In the 12 month period it took the City of Fremantle to prepare its integrated transport strategy, drafts of the strategy were regularly provided to a formal Council Committee for its consideration and feedback. As such, the draft strategy was a public document as were the changes made.

In keeping with the City Of Vincent's value of being accountable, will the City make public a copy of the draft Strategy that was initially submitted to the City by its consultants, and indicate the changes made to the strategy as a result of requests by officers and councillors since that time?

The version which has been presented to Council is an evolved version of the original submitted to the City by the consultant. The changes made to this version have provided additional context and ensured that the draft aligns with vision and values of Vincent. Any previous version of the document is not considered to be complete and correctly reflect the intent of the project. This is a working document which has evolved and will continue to evolve following the next round of community consultation.

Question 2

When the city prepares documents of a similar nature to the Accessible City Strategy, feedback received during the consultation process, and the City's response to this feedback, is publicly available.

Formal resident consultation on the strategy took place in May 2019 and there has been engagement by the City with state government agencies. However, a consultation report on feedback received has not been put in the public domain. As such, when will the city make public a report which includes the feedback received from both residents, ratepayers and state government agencies?

A summary of the consultation to date has been included in the draft strategy. Following the advertising of the draft document, a consultation report will be finalised detailing all consultation which has occurred as part of the project.

Question 3

To prepare the strategy, it is clear that there has been a considerable amount of research, as well as field surveys, carried out by the consultants. To aid members of the public and other stakeholders that wish to

provide comment on the strategy, will the city provide the data that has been collected and used to prepare the strategy and the findings and recommendations within it?

The data which is believed to be most relevant has been included in the draft ACS. During the consultation period, stakeholders would be able to express a view on the information which has been included, and whether it provides enough support for the recommendations which have been made.

Question 4

Low traffic neighbourhoods are precincts that have been treated so that through traffic, or 'rat running', is discouraged through the use of measures including modal filtering. Was the consultant asked to consider, or did they provide advice, on the concept of low traffic neighbourhoods? Why was the concept not discussed in the strategy or a recommendation made to implement them in the City?

The issue of rat running was identified through community consultation. This is to be addressed by the draft ACS through Actions 1.2.3, 4.1.1, 4.1.2 and 4.1.4.

Though there is no direct reference to rat running and the reduction of it, the combination of these actions would address the issue and create streets which are safer for pedestrians and active transport users.

Question 5

It is noted that the strategy includes mode share targets for journeys to work. Why doesn't the strategy include mode share targets for all trips, and/or trips to school, shops, recreational facilities, sporting facilities etc? In addition, why doesn't the strategy include targets for cycling trips along key cycling routes, of which data is collected through the 'Super Tuesday' count?

Most commonly, mode share for cities is expressed in terms of journey to work for residents. For the purpose of easy comparisons to the Census and other local government areas, the current journey to work mode share has been calculated. Journey to work is also the most common trip made by a resident/worker in Vincent, as such a shift in this will create the most notable change.

This is not the only mode shift that is required to change and be used as a measurable target.

Additional actions have been created which look to collect data which can be used to calculate different journey mode shift in the future. This includes:

Action 1.2.5: Work with schools to support active travel through resources and programs, including route maps and education programs. Encourage schools to join the Your Move program so that journey to school data can be collected and appropriate mode shift targets created.

Question 6

The draft strategy aims for modal shift in the community but one area where the City has greatest control of modal shift is its own workforce. Why doesn't the strategy explicitly include any actions and targets for modal shift in the City's workforce so that the City can be seen to lead by example? In addition, why aren't similar mode shift targets recommended for elected members given the strong support this would provide for the concept?

The City of Vincent has a program to encourage active transport options for its staff to its various work locations. Council has demonstrated strong support for active transport through its endorsement of a range of projects, strategies and plans including the development of this Accessible City Strategy.

Question 7

There are a number of tables and maps in the draft strategy document which are difficult to read due to their low resolution.

Will the city make all tables and maps separate documents so that they are legible to those that wish to view them?

Those requiring higher resolution versions of tables and maps contained with the Strategy, can contact the Policy & Place Team on 9273 6556 to obtain these.

4 APPLICATIONS FOR LEAVE OF ABSENCE**5 THE RECEIVING OF PETITIONS, DEPUTATIONS AND PRESENTATIONS****6 CONFIRMATION OF MINUTES**

Ordinary Meeting - 20 October 2020

7 ANNOUNCEMENTS BY THE PRESIDING MEMBER (WITHOUT DISCUSSION)**8 DECLARATIONS OF INTEREST**

- 8.1 Cr Joshua Topelberg declared a proximity interest in Item 9.2 No. 305 (lot: 4, d/p: 1602) Fitzgerald Street, West Perth - change of use from warehouse to recreation private (amendment to approved) (unauthorised existing development) as his business is two doors away from the subject property. He is not seeking approval to participate in the debate or to remain in Chambers or vote in the matter.
- 8.2 Mayor Cole declared an impartiality interest in item 11.2 Adoption of Property Management Framework, as she is a social member of the North Perth Bowls Club and her son is a member of the Floreat Athena Football Club.
- 8.3 Cr Alex Castle declared an impartiality interest in item 11.2 Adoption of Property Management Framework, as she is a social member of the North Perth Bowls Club.

9 STRATEGY & DEVELOPMENT**9.1 NO. 67 (LOT: 63, D/P: 672) MARY STREET, HIGHGATE - SINGLE HOUSE****Ward:** South

RECOMMENDATION:

That Council in accordance with the provisions of the City of Vincent Local Planning Scheme No. 2 and the Metropolitan Region Scheme, **APPROVES** the application for a Single House at No. 67 (Lot: 63; D/P: 672) Mary Street, Highgate, in accordance with the plans shown in Attachment 2, subject to the following conditions and the associated advice notes in Attachment 6:

1. Development Plans

This approval is for a Single House as shown on the approved plans dated 12 October 2020.
No other development forms part of this approval;

2. Boundary Walls

The surface finish of boundary walls facing an adjoining property shall be of a good and clean condition, prior to the practical completion of the development, and thereafter maintained, to the satisfaction of the City. The finish of boundary walls is to be fully rendered or face brick; or material as otherwise approved; to the satisfaction of the City;

3. External Fixtures

All external fixtures, such as television antennas (of a non-standard type), radio and other antennae, satellite dishes, solar panels, external hot water heaters, air conditioners, and the like, shall not be visible from the street(s), are designed integrally with the building, and be located so as not to be visually obtrusive;

4. Visual Privacy

Prior to occupancy or use of the development, all privacy screening shown on the approved plans shall be installed and shall be visually impermeable and is to comply in all respects with the requirements of Clause 5.4.1 of the Residential Design Codes (Visual Privacy) deemed to comply provisions, to the satisfaction of the City;

5. Colours and Materials

The colours, materials and finishes of the development shall be in accordance with the details and annotations as indicated on the approved plans which forms part of this approval or as otherwise agreed, to the satisfaction of the City;

6. Fencing

The gate and/or fencing infill panels above the approved solid portions of wall shall be visually permeable in accordance with the Residential Design Codes of WA, to the satisfaction of the City;

7. Landscaping

7.1 A detailed landscape and reticulation plan for the development site and adjoining road verge, to the satisfaction of the City, shall be lodged with and approved by the City prior to lodgement of a Building Permit. The plan shall be drawn to a scale of 1:100 and show the following:

- The location and type of existing and proposed trees and plants;
- Areas to be irrigated or reticulated; and
- The provision of a minimum of 12 percent deep soil area, 3 percent planting areas and 28.74 percent canopy cover at maturity, as defined by the City's Policy No. 7.1.1 – Built Form; and

7.2 All works shown in the plans as identified in Condition 5.1 above shall be undertaken in accordance with the approved plans to the City's satisfaction, prior to occupancy or use of the development and maintained thereafter to the satisfaction of the City at the expense of the owners/occupiers;

8. Stormwater

Stormwater from all roofed and paved areas shall be collected and contained on site. Stormwater must not affect or be allowed to flow onto or into any other property or road reserve;

9. Sight Lines

No walls, letterboxes or fences above 0.75 metres in height to be constructed within 1.0 metre of where the driveway meets the right of way, unless the further approval of the City is obtained;

10. Car Parking and Access

10.1 The layout and dimensions of all driveway(s) and parking area(s) shall be in accordance with AS2890.1;

10.2 All driveways, car parking and manoeuvring area(s) which form part of this approval shall be sealed, drained, paved and line marked in accordance with the approved plans prior to the first occupation of the development and maintained thereafter by the owner/occupier to the satisfaction of the City; and

10.3 No goods or materials being stored, either temporarily or permanently, in the parking or landscape areas or within access driveways. All goods and materials are to be stored within the buildings or storage yards, where provided.

PURPOSE OF REPORT:

To consider an application for development approval for a three storey single house at No. 67 Mary Street, Highgate (subject site).

PROPOSAL:

The application proposes a single house on a vacant lot. The proposed dwelling has a building height of two storeys as viewed from the primary street (Mary Street) and three storeys as viewed from the Right of Way (ROW) to the rear. The proposed development would have pedestrian access from Mary Street and vehicle access from the ROW. The proposed development plans are included as **Attachment 2**.

BACKGROUND:

Landowner:	Minh Truong and Hoang Thu Thi Pham
Applicant:	MNB Residential
Date of Application:	10 June 2020
Zoning:	MRS: Urban

	LPS2: Zone: Residential R Code: R50
Built Form Area:	Residential
Existing Land Use:	Vacant Lot
Proposed Use Class:	Single House – 'P'
Lot Area:	426.2 square metres
Right of Way (ROW):	Kaadadjiny Lane – 3.0 metre width, City of Vincent owned, sealed and drained
Heritage List:	No

The subject site is bound by Mary Street to the north east, a single storey dwelling to the north west and a vacant site to the south east and a 3 metre wide ROW (Kaadadjiny Lane) to the south west. A location plan is included as **Attachment 1**.

The subject site and all adjoining properties are zoned Residential R50 under the City's Local Planning Scheme No. 2 (LPS2). The subject site and all adjoining properties are within the Residential built form area and have a building height limit of two storeys under the City's Policy No. 7.1.1 – Built Form (Built Form Policy).

Summary Assessment

The table below summarises the planning assessment of the proposal against the provisions of LPS2, the City's Policy No. 7.1.1 – Built Form and the State Government's State Planning Policy 7.3 Residential Design Codes (R Codes). In each instance where the proposal requires the discretion of Council, the relevant planning element is discussed in the Detailed Assessment section following from this table.

Planning Element	Use Permissibility/ Deemed-to-Comply	Requires the Discretion of Council
Street Setback		✓
Lot Boundary Setback		✓
Open Space		✓
Building Height		✓
Garage Width		✓
Street Surveillance	✓	
Front Fence	✓	
Sight Lines	✓	
Outdoor Living Areas		✓
Landscaping (R Codes)	✓	
Parking & Access	✓	
Site Works & Retaining Walls		✓
Visual Privacy		✓
Solar Access	✓	
External Fixtures, Utilities & Facilities	✓	
Heritage Management	✓	

Detailed Assessment

The deemed-to-comply assessment of the element that requires the discretion of Council are as follows:

Street Setback	
Deemed-to-Comply Standard	Proposal
R Codes - Clause 5.1.2 Porches may project 1 metre into the primary street setback area where the projection does not exceed 20 percent of the lot frontage.	The porch projects 1 metre into the primary street setback area for 30.7 percent of the lot frontage.

The above elements of the proposal do not meet the specified deemed-to-comply standards and are discussed in the comments section below.

CONSULTATION/ADVERTISING:

Community consultation was undertaken in accordance with the *Planning and Development (Local Planning Scheme) Regulations 2015*, for a period of 14 days commencing on 10 September 2020 and closing on 23 September 2020. Community consultation was undertaken by means of written notifications with 10 letters sent to surrounding landowners, as shown in **Attachment 1** and a notice on the City's website.

At the conclusion of the community consultation period, seven submissions were received, six in objection and one with concern for the proposed development. The key concerns raised in the submissions are summarised as follows:

- Extent and height of development and lot boundary walls;
- Visual privacy impacts to adjoining properties;
- Building footprint of the development; and
- Garage width.

In response to the comments raised during community consultation, the applicant prepared revised plans to improve the built form outcomes of the site and reduce departures to the deemed-to-comply provisions, these changes are summarised in the Design Review Panel section below.

A summary of the submissions received along with Administration's comments on each are provided in **Attachment 5**.

Design Review Panel (DRP):

Referred to DRP: Yes

The submitted development plans were referred to a member of the City's Design Review Panel for comment. The following comments and recommendations were provided:

- The extent of lot boundary setbacks, boundary wall and building height departures contribute to excessive bulk, scale and massing;
- Whilst the house does sit lower than the level at the street boundary, the application should consider a further reduction of the floor level to address concerns relating to building bulk and scale;
- The balcony, dining, family, kitchen and scullery internal spaces are generous in scale and could be reduced in size without affecting the functionality or design intent;
- Consider incorporation of timber columns with masonry base elements to be more consistent with the front façade and supports of the dwelling that occupied the site prior to demolition;
- The garage would visually dominate the ROW streetscape. Consider providing further articulation of the rear façade and introducing face brickwork to the lower section to tie in with side boundary parapet face brickwork; and
- Consider simplification of the roof form.

The applicant submitted amended plans in response to the abovementioned DRP comments and community consultation comments, incorporating the following key changes:

- Provided privacy screening to balcony 1 at the rear;
- Introduced additional post and pier details to the front verandah to reference the established streetscape;
- Increased the garage door setback from the right of way by 0.5 metres;
- Reduced the extent of site works and retaining across the site; and
- Reduced the building height of the proposal.

The changes made by the applicant appropriately address the comments and recommendations made by the Design Review Panel member.

LEGAL/POLICY:

- *Planning and Development Act 2005*;
- *Planning and Development (Local Planning Schemes) Regulations 2015*;
- City of Vincent Local Planning Scheme No. 2;
- State Planning Policy 7.3 – Residential Design Codes Volume 1;
- Policy No. 4.1.5 – Community Consultation;
- Policy No. 7.1.1 – Built Form Policy; and
- Policy No. 7.6.1 – Heritage Management – Development Guidelines for Heritage and Adjacent Properties.

Planning and Development Act 2005

In accordance with Schedule 2, Clause 76(2) of the *Planning and Development (Local Planning Schemes) Regulations 2015* and Part 14 of the *Planning and Development Act 2005*, the applicant will have the right to apply to the State Administrative Tribunal for a review of Council's determination.

Delegation to Determine Applications:

The matter is being referred to Council as the application proposes a height of three storeys or more and does not meet the deemed-to-comply building height.

RISK MANAGEMENT IMPLICATIONS:

There are minimal risks to Council and the City's business function when Council exercises its discretionary power to determine a planning application.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Innovative and Accountable

We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATIONS:

Nil.

FINANCIAL/BUDGET IMPLICATIONS:

Nil.

COMMENTS:*Street Setback*

The application proposes a departure to the street setback deemed to comply standards of the R Codes. The ground floor alignment of the dwelling to the verandah is setback to 5.5 metres, in line with the average street setback. The verandah projects 1 metre into the primary street setback area for 30.7 percent of the lot frontage in lieu of the 20 percent permitted under the R Codes. The setback of the porch satisfies the

relevant design principles and local housing objectives of the R Codes and Built Form Policy for the following reasons:

- The porch remains an open component of the dwelling which contributes to the residential amenity of the occupants and provides additional articulation to the front façade of the dwelling;
- The upper floor of the dwelling is stepped 3 metres behind the ground floor building alignment to provide clear distinction of the ground and upper floors;
- The setback of the first floor to Mary Street is largely in line with the setbacks of the immediate neighbours. The first floor setback is sufficient in this context and would set an appropriate standard for future development which would not compromise the existing or future streetscape;
- The development clearly distinguishes the ground and first floors as viewed from Mary Street, and is well articulated and minimises visual bulk through the following:
 - The setback across both floors is varied, providing depth and reducing the mass and scale of the development;
 - The windows provided on the ground and first floors and the provision of an open balcony reduce impacts of solid blank walls and subsequent bulk as viewed across and along the street;
 - Contrasting materials and colours between the ground and floors break up the impact of bulk and reflect existing streetscape outcomes;
- The development incorporates predominant built form and design features of the streetscape through its colours and materials, setting back of upper floors and pitched roof form. The earthy colour palette of the dwelling references many existing dwellings on Mary Street and the contrasting gable and banding details to the dwelling are consistent with the verandah and gable roof detailing of neighbouring dwellings. The proposed front fence incorporates render and wrought iron details that are also features of the streetscape; and
- The proposal incorporates deep soil zones, planting areas and canopy coverage within the front setback area, including four mature trees as well as the retained mature verge tree. The provision of landscaping assists in ameliorating the bulk and scale of the development as viewed from the street. The landscaping would soften the appearance of the dwelling and contribute to the landscape amenity of the street.

Lot Boundary Setback

The application proposes departures to the lot boundary setback deemed-to-comply standards along the north western boundary on the ground and first floors to the dwelling. The proposed north western boundary setbacks satisfy the relevant design principles and local housing objectives of the R Codes and Built Form Policy for the following reasons:

- A 1 metre setback proposed to the laundry on the ground floor accommodates the clothes drying area for the subject property, and seeks a 0.1 metre departure to the adjoining property. The minor departure does not accentuate building bulk and scale of the subject wall to the boundary;
- The north western elevation incorporates contrasting render and glazing to the north western façade to reduce the bulk and blank walls of the development to the adjoining property;
- The upper floor walls are setback from the line of the boundary walls below to create articulation and visual interest as viewed from adjoining property and the street;
- The proposed development meets the deemed-to-comply standards of the R Codes in relation to solar access for adjoining sites. The reduced setbacks would not result in an undue loss of access to direct sunlight to the adjoining property, and the wall is setback from the boundary to maintain ventilation to adjacent buildings;
- The reduced lot boundary setbacks do not exacerbate impacts of overlooking on the adjacent property as there are no major openings from habitable rooms which have an adverse impact on the neighbouring property in terms of visual privacy. Departures to visual privacy from Balcony 1 and Balcony 2 are acceptable as the cone of vision does not fall to active habitable outdoor spaces or habitable rooms of the adjacent properties and is obscure in nature; and
- The lot boundary setback departures would fall to the side setback area which extends along the side boundary of No. 69 Mary Street and provides pedestrian access to the extensive open space at the rear of the site. One opening is located along the boundary of the neighbouring property but would be screened by a sufficient dividing fence.

The application proposes departures to the lot boundary setback deemed-to-comply standards along the south eastern boundary to the under-croft, ground and first floors to the dwelling. The proposed lot boundary setbacks satisfy the relevant design principles and local housing objectives of the R Codes and Built Form Policy for the following reasons:

- The upper floor walls are setback from the line of the boundary walls below to create articulation and visual interest as viewed from adjoining property and the street. The stepping of portions of development away from the boundary ensures the dwelling does not create actual or perceived vertical massing. The remainder of the south western elevation to the ground floor (hallway) is stepped back to 1.8 metres meeting the deemed to comply provisions;
- The south-east elevation is well articulated and incorporates multiple large openings to break up the impact of building bulk when viewed from the adjoining property and the street. The elevation incorporates contrasting colours and materials including face brick, horizontal banding and render that assists in breaking up the ground and first floor walls when viewed from the adjoining property;
- The bulk length of the upper floor is articulated so as to provide actual and perceived stepping of the dwelling. The south eastern façade demonstrates articulation of the upper floor at the front of the dwelling as well as a chimney element visible from Mary Street to break up the vertical aspect of the dwelling. Building bulk is further alleviated by openings to the balcony, hallway and water closet to reduce the extent of solid walls;
- The south eastern elevation incorporates contrasting materials including render, cladding, timber accents and glazing which would effectively ameliorate the building bulk and reduce the appearance of blank solid walls as viewed from the adjoining property and the street;
- Major openings to the south eastern façade are appropriately screened to alleviate any direct overlooking and subsequent loss of privacy to the adjoining properties. Visual privacy departures to Balcony 1 and Balcony 2 are acceptable as they do not provide a direct line of site to active habitable spaces or habitable rooms of the adjacent properties and instead fall to extensive areas of open space and anticipated future vehicle access points;
- The adjoining vacant property is not located directly to the south which will allow any future development to maintain adequate access to the northern aspect and associated winter sunlight. The proposed development satisfies the R Codes requirements relating to solar access for adjoining sites and the proposed lot boundary setbacks would not have an adverse impact on the adjoining properties' access to direct sunlight or ventilation; and
- The adjoining property to the south is currently vacant and the reduced lot boundary setbacks would not impose bulk and scale on an existing outdoor living area or active space.

Lot Boundary Walls

The application proposes boundary walls to the north western and south eastern lot boundaries. The deemed-to-comply provisions permit a boundary wall length of 24.03 metres, with an average height of 3 metres and a maximum height of 3.5 metres. The initial proposal proposed boundary walls that were three storeys high and exceeded the maximum length permitted.

The City received submissions during the community consultation period raising concerns with development located on the boundary, height of the lot boundary walls and the impact of increased height and bulk of these walls. Following community consultation and DRP comments, the applicant provided amended plans reducing the height and length of the boundary walls. The acceptability of the boundary walls proposed are detailed below.

South East

The boundary wall proposed from the garage to lift portion of the dwelling would have a maximum height of 5 metres and average height of 4.55 metres. The south eastern boundary wall satisfies the relevant design principles and local housing objectives of the R Codes and Built Form Policy for the following reasons:

- The advertised proposal sought greater boundary wall height departures to the verandah to study portion on the south eastern aspect of the dwelling. In response to community consultation comments, the applicant has reduced the boundary wall height to demonstrate compliance;
- The south eastern elevation is well articulated and incorporates contrasting colours and materials including face brick, render, vertical banding and glazing to break up the impact of building bulk when viewed from the adjoining property and the right of way;
- The boundary wall is located to the rear of the site and would not have an adverse impact on the Mary Street streetscape;
- The boundary wall would be finished with face brick consistent with the adjoining dwellings and broader ROW streetscape;
- The stepping back of the ground and first floors and the open courtyard to the boundary ensures adequate ventilation is provided to the adjoining property;

- The adjoining vacant property is not located directly to the south which will allow any future development to maintain adequate access to the northern aspect and associated winter sunlight. The proposed development satisfies the R Codes requirements relating to solar access for adjoining sites and the proposed boundary wall would not have an adverse impact on the adjoining properties' access to direct sunlight or ventilation;
- The boundary wall would not result in any overlooking and subsequent loss of privacy to the adjoining property. The openings on the remaining portion of the south eastern elevation satisfy the R Codes provisions relating to visual privacy and the development would not result in any direct overlooking to the adjoining property; and
- The aggregate boundary wall length to the south eastern lot boundary is 19.7 metres, being less than the 24.03 metres that would otherwise be permitted; and
- Existing boundary walls are located within immediate proximity of the site on Kaadadjiny Lane to No. 47, No. 49 and No. 55 Mary Street, as depicted in Administration's Streetscape Analysis included at **Attachment 4**. The existing boundary walls are constructed to two and three storey scales and are visible from the ROW. The proposed lot boundary walls are consistent with the established and emerging built form of dwellings to Mary Street and Kaadadjiny Lane.

North West

The boundary wall proposed from the scullery to balcony portion on the first floor of the dwelling would have a maximum height of 5.2 metres and average height of 5.0 metres. The verandah to ensuite portion also on the first floor would have a 3.9 maximum height and 3.4 metre average height. The north western boundary walls satisfy the relevant design principles and local housing objectives of the R Codes and Built Form Policy for the following reasons:

- The north western elevation is well articulated and incorporates contrasting colours and materials including face brick, render, vertical banding and glazing to break up the impact of building bulk when viewed from the adjoining property, right of way and Mary Street;
- The proposed wall is located on the north western boundary and does not compromise access to direct sunlight for the subject dwelling or adversely impact the adjoining property with respect to overshadowing;
- The boundary wall does not incorporate major openings and would not result in overlooking to the adjoining site;
- The aggregate boundary wall length to the north western lot boundary is 23.5 metres, being less than the 24.03 metres that would otherwise be permitted;
- The boundary wall abuts the extensive areas of garden and open space of the neighbouring property at No. 69 Mary Street. The open space is well separated from the dwelling to which it relates and does not form the primary outdoor living area of its occupants, which is concentrated towards the middle of the lot, adjacent to the courtyard of the subject property. The extensive open space at the rear of the lot is not likely to be utilised or occupied for extended periods of time, and the boundary wall would not impact the residential amenity of the neighbouring property; and
- Existing boundary walls are located within immediate proximity of the site on Kaadadjiny Lane to No. 47, No. 49 and No. 55 Mary Street, as depicted in Administrations Streetscape Analysis (refer **Attachment 4**). The existing boundary walls are constructed to two and three storey scales and are visible from the right of way. The proposed lot boundary walls are consistent with the established and emerging built form of dwellings to Mary Street and Kaadadjiny Lane.

Open Space

The development proposes 37.2 percent open space in lieu of the 40 percent deemed to comply requirement under the R Codes. The proposal is considered to meet the design principles of the R Codes for the following reasons:

- The development is not considered to result in adverse impacts of building bulk to adjoining properties and the street. The design details such as openings, articulation, roof type and colours and materials is considered to reduce impacts of bulk;
- The outdoor living areas and open space for the site provide contributions to usable and external spaces of the lot as well as sufficient access in and around the site which responds to the natural contours of the site for the needs of the occupants;
- The lot provides sufficient planting zones and deep soil areas which facilitate proposed and future landscaping across the site. The open space and landscaping areas provided offer functional and leisure opportunities;

- Setbacks of the dwelling from the primary street, right of way and side boundaries provide multiple areas of open space to provide an attractive setting for the building and landscaping on the site;
- The applicant proposes dedicated area for external fixtures (i.e. air conditioning units) and clothes drying areas to the side and rear boundaries, screened from adjacent properties and the street. As a result, the proposed outdoor living areas and open space are for the dedicated use of active and/or passive recreation; and
- The open space calculation does not include portions of the dwelling which are accessible and usable more than 0.5 metres above the natural ground level, and unenclosed spaces to Balconies 1, 2 and 3. The balcony spaces contribute to additional areas of outdoor living and amenity for use by the residents.

Building Height

The application proposes a three storey dwelling, a maximum pitched roof height of 9.9 metres and a maximum pitched roof wall height of 7.8 metres in lieu of the two storeys, maximum pitched roof height of 9.0 metres and maximum pitched roof wall height of 6.0 metres set as a deemed-to-comply standard in the Built Form Policy.

The City received submissions during the community consultation period raising concerns with the building height of the proposed dwelling in regards to the interaction of the dwelling with the ROW, and the impact of the building height on lot boundary setbacks and solar access.

The building height proposed satisfies the relevant design principles and local housing objectives of the R Codes and Built Form Policy and is acceptable for the following reasons:

- The natural ground level of the site slopes down by approximately 3.6 metres from the street boundary to the rear of the property. The proposal presents as a two storey dwelling when viewed from Mary Street. The three storey element of the proposal is located away from the street and responds to slope of the site by providing the garage to the ROW as an undercroft level which is cut into the site;
- The location of the three storey building height away from the street would ensure the dwelling does not dominate the established streetscape character. The third storey and maximum height applies only to the rear of the site, and is centrally located on the upper floor of the dwelling to mitigate the imposition of perceived and actual bulk and scale to the northern, eastern and southern properties. The two storey scale of the dwelling as it faces Mary Street satisfies the building height deemed-to-comply standards;
- In response to comments received during community consultation, the applicant reduced the building height to the top of the pitched roof from 10.2 metres to 9.9 metres. The applicant also reduced the wall height departure from 7.9 metres as advertised to 7.8 metres;
- The central location and increased street setback of the upper floor to 8.1 metres creates a tiered built form outcome when viewed from the adjacent properties and Mary Street and reduces the appearance of the upper floor. The incorporation of windows and balconies as well as articulation of the upper floor reduces the appearance of blank walls to the property's side and rear boundaries;
- Development of a three storey appearance to the right of way is a prevalent built form within the established streetscape. The built form of the dwelling, with the garage to the dwelling located on the ground floor with living spaces elevated above is clearly demonstrated in the streetscape analysis included as Attachment 4. Unlike the neighbouring properties, the upper storey elements of the development are stepped away from the street and from the side boundaries. The stepped vertical and horizontal massing of the proposal reduces the actual and perceived bulk of the development;
- The gable roof elements of the dwelling are detailed in a contrasting timber cladding to break up the bulk of the roof and wall heights of the dwelling. The timber detailing on the upper storey in addition to the large windows from Bed 4 and the balcony ensures the upper storey, when viewed from the street, does not present large expanses of solid blank walls. The proposed pitched roof form would be consistent and complementary with the established streetscape character;
- The 3.65 metre slope of the lot from street to the ROW means the proposed dwelling to the rear sits lower than the neighbouring dwellings and verge level, and does not impact on the established Mary Street streetscape character;
- The development proposes departures to the R Codes standards relating to site works and retaining walls but these departures are considered to be appropriate in the context of the sloping site;
- The adjoining vacant property is not located directly to the south which will allow any future development to maintain adequate access to the northern aspect and associated winter sunlight. The proposed development satisfies the R Codes requirements relating to solar access for adjoining sites and the proposed boundary wall would not have an adverse impact on the adjoining properties' access to direct sunlight or ventilation; and
- Site works proposed to the front setback of the dwelling cut into the land rather than fill the land, and as

a result, the dwelling sits below the verge and road level. Articulation to the side boundary setbacks to the ground and upper floors means the overall vertical mass and scale of the development does not take up the whole lot frontage, leaving view vistas along the side boundaries. The combination of the above factors means the overall scale of development is mitigated across the site to limit the imposition of building height that obscures access to views of significance.

Garage Width

The development proposes a 10.1 metre garage width inclusive of garage door and supporting structures. The proposed garage width accounts for 100 percent on the ROW frontage to Kaadadjiny Lane in lieu of the 50 percent permitted under the Built Form Policy.

The City received submissions during the community consultation period raising concerns with the setback and width of the garage width.

The application is considered to meet the local housing objectives and design principles of the Built Form Policy and the Residential Design Codes for the following reasons:

- The subject site provides vehicle access from a right of way rather than Mary Street, consistent with the requirements of the R Codes. The development would not have an adverse impact on the established Mary Street streetscape in relation to vehicle access points or garage doors;
- The applicant has revised the proposal to increase the setback of the garage to Kaadadjiny Lane from 2.3 metres to 4.8 metres, and the setback of the garage door to 5.3 metres. The setback of the garage door would effectively mitigate its dominance on the ROW streetscape;
- Although not the primary frontage for the dwelling, the rear of the site maintains suitable street surveillance to the public realm, via major openings from balcony 1, balcony 2 and the master suite at the rear;
- The materials of the dwelling include contrasting brick, render and concrete on the façade along with a number of openings to the street to help to break up the façade of the dwelling and encourage an active façade and reduce the impact of the garage width;
- The existing ROW contains a number of single and double garages, vehicle access points and outbuildings that face the ROW. It is expected that as the adjoining properties are redeveloped that further garages and vehicle access points would be proposed from the ROW;
- The application proposes meaningful deep soil zones and 4 new trees between the ROW and the dwelling;
- The actual garage door has a width of 6 metres, accounting for only 59.4 percent of the ROW frontage;
- As per Administration's streetscape analysis (Attachment 4), the ROW has limited visual character and the proposed garage is consistent with the current and expected future use of the ROW. The visual impact to the ROW is positive as a result of the contrasting materials and the provision of major openings facing the ROW; and
- The additional width of the garage provide sufficient vehicle manoeuvring for two vehicles for ingress and egress from the site.

Outdoor Living Areas (OLA)

The application proposes that the primary OLA (main courtyard) would be accessible from the ground floor hallway rather than a habitable room of the dwelling as outlined under the R Codes. The application is considered to meet the design principles of the Residential Design Codes for the following reasons:

- Although not able to be directly accessed from a habitable room, the courtyard area is within immediate proximity of the dining and living rooms to the benefit of the dwellings occupants and would be readily accessible for passive and active use;
- The application satisfies the minimum OLA requirements of the R Codes, providing 27.8 square metres which is greater than the 20 square metres required. Ancillary outdoor living spaces are also provided by way of the upper floor balconies and the south eastern courtyard area;
- The outdoor living area provides the minimum 4 metre dimensions in length and width of the spaces;
- The outdoor living area provides an uncovered space with landscaping, providing an accessible area which can be utilised during good weather for active or passive use; other outdoor spaces such as balcony 1 is able to be enjoyed year round;
- The open nature of the courtyard allows for adequate ventilation to the dwelling while allowing for sufficient exposure to sunlight; and
- The proposed dwelling does not compromise the amenity and use of the adjacent properties. The

proposed outdoor living area provided meets the visual privacy deemed-to-comply requirements.

Landscaping

In addition to the deemed-to-comply standards of the R Codes, the application has also been assessed against the landscaping provisions of the Built Form Policy that sets out additional deemed-to-comply standards. The deemed-to-comply landscaping standards set out in the Built Form Policy have not yet been approved by the WAPC and as such, these provisions are given due regard in the assessment of the application. The Built Form Policy requires the provision of 30 percent canopy coverage, 3 percent planting areas and 12 percent deep soil zones. The application proposes 28.74 percent canopy and 14.9 percent planting areas deep soil zones. The departures to the landscaping provisions are acceptable for the following reasons:

- The applicant has proposed to plant 11 Dwarf Magnolia trees as well as a Weeping Peppermint Tree within the lot boundaries. The proposed tree species are capable of providing 3 to 5 metres of canopy each at maturity. Although some overlap of canopy is proposed, this outcome would still represent a departure from the deemed-to-comply standards this is mitigated by the provision of additional shrubs and species as well as planting zones within the boundaries of the proposal which will provide ancillary forms of landscaping to the site;
- The landscaping provided to the dwelling will serve to soften the appearance of the proposed dwelling and reduce the overall impact of the building bulk and scale when viewed from the Mary Street and neighbouring properties. The current provision of landscaping in the proposal is considered to contribute to the reduction of the urban heat island effect, increase urban air quality, provide a greater landscape amenity for the locality and create a sense of open space between the proposed dwelling and neighbouring properties;
- The application proposed planting areas and deep soil zones greater than those required by the Built Form Policy. Additional planting zones allows for the owner/occupier to plant additional landscaping areas in the future;
- The proposed landscaping is respectful of the existing verge tree on Mary Street which are mature in growth, and are listed on the City's significant tree register. The verge tree cannot be removed or illegally trimmed and the landscaping proposed within the front setback does not inhibit future growth of the tree. In their current state, the verge trees will partially obscure the dwelling as viewed from the street;
- The proposed landscaping includes portions of canopy which extends outside of the lot boundaries, contributing to the provision of landscaping within the broader locality; and
- The proposed landscaping to the lot does not inhibit vehicle use of the space, with mature trees located away from the dwelling in proximity to the vehicle access points to maintain sufficient sight lines.

Site Works and Retaining

The application seeks departures to the deemed-to-comply requirements of the R Codes in relation to site works and retaining walls. The application proposes 0.9 metres of fill and 1 metre of retaining to the south eastern boundary, and 1.2 metres of fill and 1.3 metres of retaining to the north western boundary. The retaining wall and site works satisfy the relevant design principles of the R Codes and are acceptable for the following reasons:

- The application proposes cut and fill of the site that respects the natural slope and contours, limiting the amount of retaining required and accounting for the 3.6 metre natural slope from the street to the ROW;
- The proposal respects the levels of the lot at the street alignment and would not impact the existing streetscape. There are no site works proposed within the front setback area of the lot which exceed 0.5 metres. The site works to the dwelling do not exacerbate bulk or scale of development to the street, rather the front of the dwelling is lower than the street level and buildings on neighbouring sides;
- The retaining walls take a stepped approach in line with the natural slope of the site. This reduces the extent of retaining walls on side boundaries, reducing the impact on neighbouring properties, whilst managing the site levels to facilitate a functional dwelling layout;
- In response to comments received during community consultation, the applicant reduced site works and retaining across the site by 0.3 metres which consequently reduced the overall building height and lot boundary walls;
- Retaining walls together with a dividing fence and landscape screening on the ground floor would ensure privacy is maintained for the benefit of the subject and neighbouring properties; and
- The proposed site works and retaining walls would not be visible from the street and would not pose an undue impact on the locality.

Visual Privacy

The application proposes departures to the deemed to comply requirements of the R Codes in relation to visual privacy from the ground floor balcony 1 and upper floor balcony 2 at the rear of the site.

South West

Balcony 1 proposes a 3.1 metre cone of vision setback and balcony 2 proposes a 1.3 metre cone of vision setback to the south eastern lot boundary in lieu of the 7.5 metre deemed-to-comply standard of the R Codes. The application is considered to meet the design principles of the R Codes for the following reasons:

- The adjacent property at No. 65 Mary Street is a vacant lot and the City has not approved any development applications for the site and the cone of vision from balcony 1 and balcony 2 fall to the rear portion of the adjoining property. It is likely that vehicle access for any future development application at the adjoining property would be from the ROW in accordance with the R Codes standards and the affected portion of the site would contain car parking facilities rather than habitable spaces. The cone of vision from the balcony would not result in any adverse overlooking and subsequent loss of privacy to the adjoining property for its future occupants;
- Balcony 2 is an enclosed space which serves as an extension of the master bedroom. The enclosed nature of the balcony in addition to the 2.5 square metre footprint does not meet the definition of 'active habitable space' as per the R Codes. Notwithstanding, the current provisions and definitions of R Codes – Volume 1 does not account for such spaces in the visual privacy assessment, which has recently been resolved as part of R Codes – Volume 2 (Apartments). Imminent review of Volume 1 may seek to resolve the assessment ambiguity for such spaces. As a result, the visual privacy from Balcony 2 is assessed as per the 7.5 metre cone of vision requirements as a worst-case scenario;
- Balconies 1 and 2 are screened for the portion that is parallel to the lot boundary, resulting in a cone of vision which is oblique rather than direct;
- The provision of trees for canopy coverage at the rear of the lot would provide additional landscaping screening to further obscure the cone of vision;
- Balcony 2 is 2.5 square metres in area and can only be accessed from the Master on the upper floor of the dwelling. The space is unlikely to be used for extended periods of the time given the size of the balcony and its access limited to one habitable room; and
- The proposed balconies look primarily in the direction of the ROW and would not allow a view corridor back towards the adjoining property. The proposed balconies are setback from the ROW and would not result in any portion of the cone of vision affecting the adjoining properties on the other side of the ROW.

North East

Balcony 1 proposes a 3.1 metre cone of vision to the north western lot boundary in lieu of the 7.5 metre deemed-to-comply standard of the R Codes.

The City received submissions during the community consultation period raising concerns with the cone of vision from balcony 1 and the perceived loss of privacy.

The application is considered to meet the design principles of the R Codes for the following reasons:

- The cone of vision from balcony 1 would fall to the extensive rear backyard of the dwellings at No. 69 Mary Street. In accordance with the R Codes explanatory guidelines, protection from overlooking is not required for open space other than that defined as outdoor living areas. Protection from overlooking generally is not necessary for extensive areas of garden which are well separated from the dwelling to which they relate. There are no major openings located to the rear of No. 67 Mary Street which would be impacted by the cone of vision. The cone of vision does not fall to habitable rooms or active habitable spaces for the occupants of these adjoining dwellings and does not inhibit the residential amenity and privacy of its occupants;
- Balcony 1 is screened for the portion that is parallel to the lot boundary, resulting in a cone of vision which is oblique rather than direct;
- The proposed balconies look primarily in the direction of the ROW and would not allow a view corridor back towards the adjoining property. The proposed balconies are setback from the ROW and would not result in any portion of the cone of vision affecting the adjoining properties on the other side of the

ROW.

Environmentally Sustainable Design

Clause 5.11 of the Built Form Policy provides local housing objectives for environmentally sustainable design. The applicant was advised of the City's environmentally sustainable design objectives however, at the time of writing this report had not provide a lifecycle assessment report or recognised equivalent to satisfy local housing objective 1.8.6 of the Built Form Policy.

Assessment of the application against the local housing objectives of the policy has identified the following built form and site planning measures implemented to encourage and maintain sustainable design of the dwelling:

- The dwelling incorporates limited stepping of rooms to the internal floor plan of the site, to ensure the dwelling is and remains universally accessible and can be easily modified to accommodate changing family size and circumstances. This ensures the dwelling can evolve over time and remain in place for the future, rather than demolished should living arrangements and needs shift;
- The siting and floor plan of the dwelling is established in line with the existing north east and south westerly orientation of the subject site;
- Open fencing to northern (front) elevation is provided so as to not screen areas of north facing openings and open space for maximum natural light and access to winter sun;
- Upper level windows are provided for access to year round natural light;
- Climate moderation devices in the way of eaves, and cantilevered upper floor to allow for winter solar penetration and summer shading;
- Openable windows for cross ventilation;
- Dwelling incorporates north facing windows and living areas where practicable within the constraints of the block and R Codes to aid in access to light;
- Reduced scale of openings on the western elevation to moderate internal temperatures;
- Living spaces and habitable rooms open to private open spaces for natural and cross ventilation, reducing the reliance on passive heating and cooling devices;
- Stepping of the southern elevation and structures to mitigate overshadowing and ensure sufficient solar access is provided to neighbouring dwellings;
- Dwelling takes a tiered approach, stepping the upper floors away and articulated from the boundaries to reduce actual and perceived scale, shadowing and bulk to neighbouring dwellings. The stepping of development ensures ventilation and light corridors are maintained for the occupants and neighbouring dwellings; and
- The applicant has also revised the dwellings colour and materials from a dark colour palette (grey and black) to earthy and neutral tones which assist with mitigating solar absorptance and urban heat island effect for the broader streetscape.

The development has not provided a Lifecycle Assessment and does not address the relevant local housing objective of the Built Form Policy.

Administration has reviewed the proposal in light of the local housing objectives and is satisfied that the development has incorporated sufficient environmentally sustainable design features to meet the intended built form outcomes of development within the City.

Urban Design Study

Clause 5.12 of the Built Form Policy provides local housing objectives which applications are to consider as part of an urban design study. The applicant's Urban Design Study is included as **Attachment 3** and details the key built form references and details of the streetscape and surrounding area considered within the proposal, including the following:

- Incorporation of face brick detailing to the boundary walls as a feature of the dwelling, as seen in the façade of neighbouring dwellings and front fences within the immediate streetscape;
- Pitched roof form with gable and chimney details to the façade;
- Use of a light colour palette in the rendered finish of the dwelling façade and fixtures;
- Architectural detailing on verandahs, gables roofs and the like of character dwellings along Bulwer Street;
- Render and wrought iron infill complimentary to existing front fences along Mary Street; and
- Landscaping and canopy coverage provided in the front setback area.

Review of the Mary Street streetscape by Administration and the DRP member notes the development has incorporated design features that ensure the development appropriately references and integrates with the surrounding streetscape and its built form context.

Heritage Management for Adjacent Properties

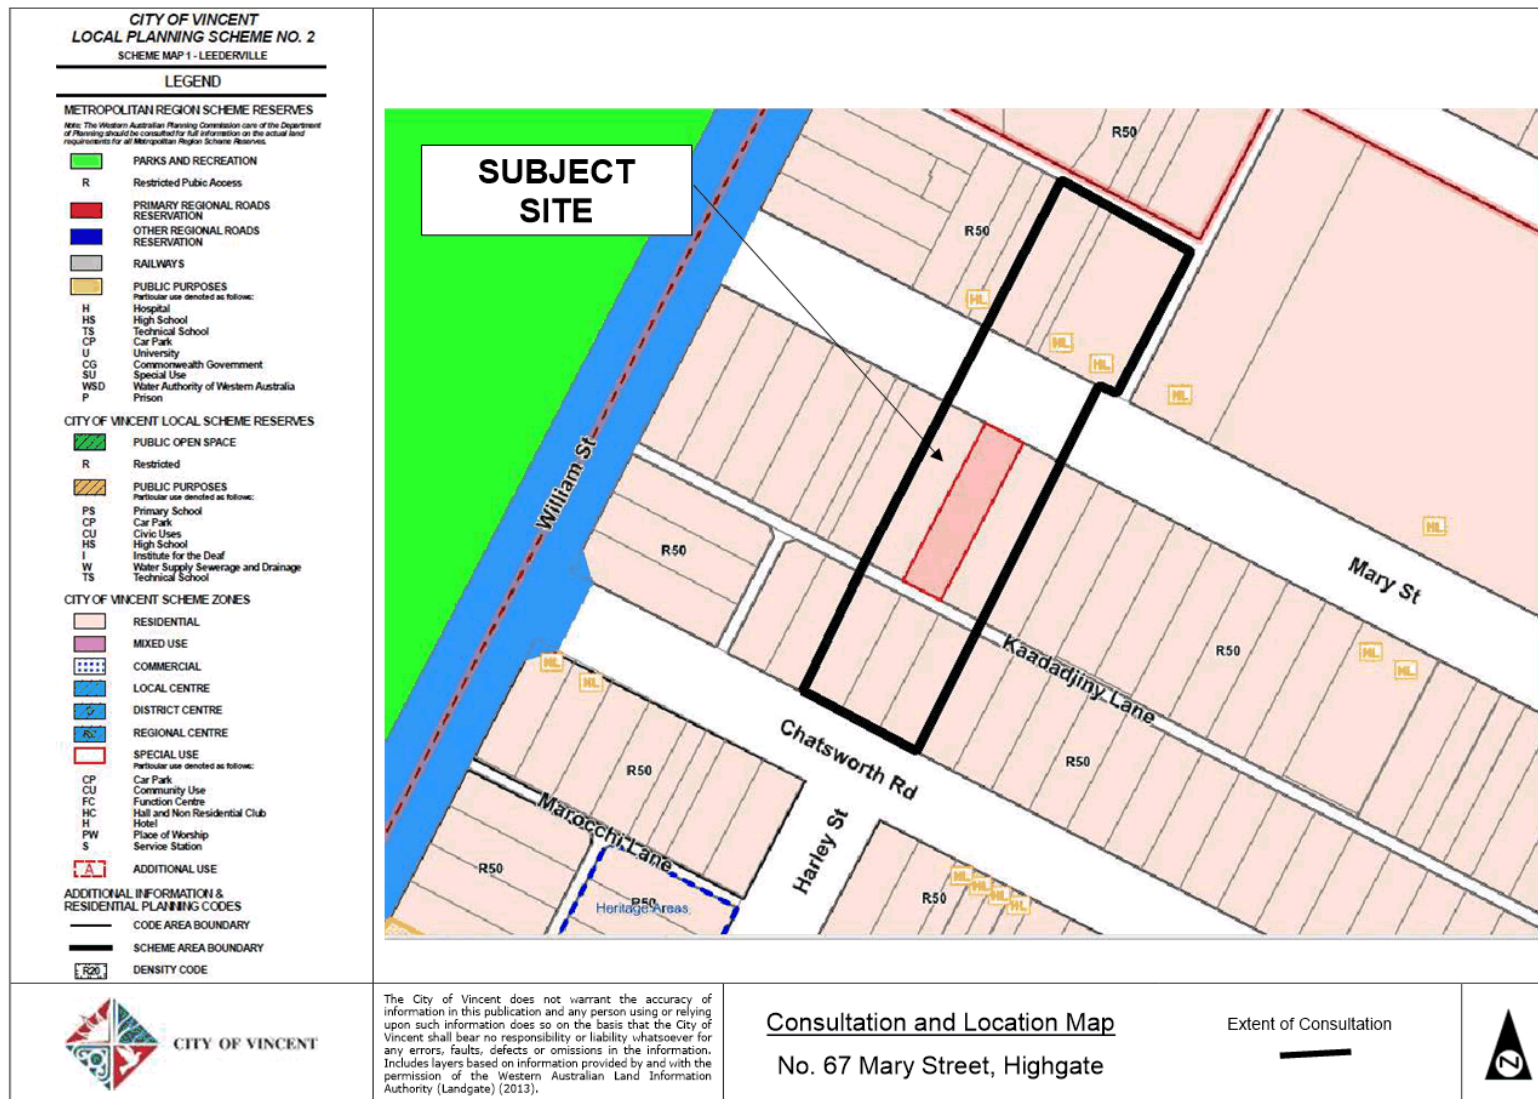

The site is adjacent to a State Heritage Property at Nos. 42 – 64 Mary Street which is inclusive of Sacred Heart Church, Halls and Presbytery Monastery. As per the City's Policy No. 7.6.1 – Heritage Management – Development Guidelines for Heritage and Adjacent Properties, consideration is to be given to the statement of significance for the site which is as follows:

Sacred Heart Group is a notable ecclesiastical and education group esteemed by the district community and the local Parish and School communities. Each of the places is a fine example of its style, with the major buildings being designed by notable architects of their day, renowned for their work for the Catholic Church. The place has associations with the orders of Sisters of Our Lady, Redemptorist Fathers, Christian Brothers and Bishop Gibney and Archbishop Clune.

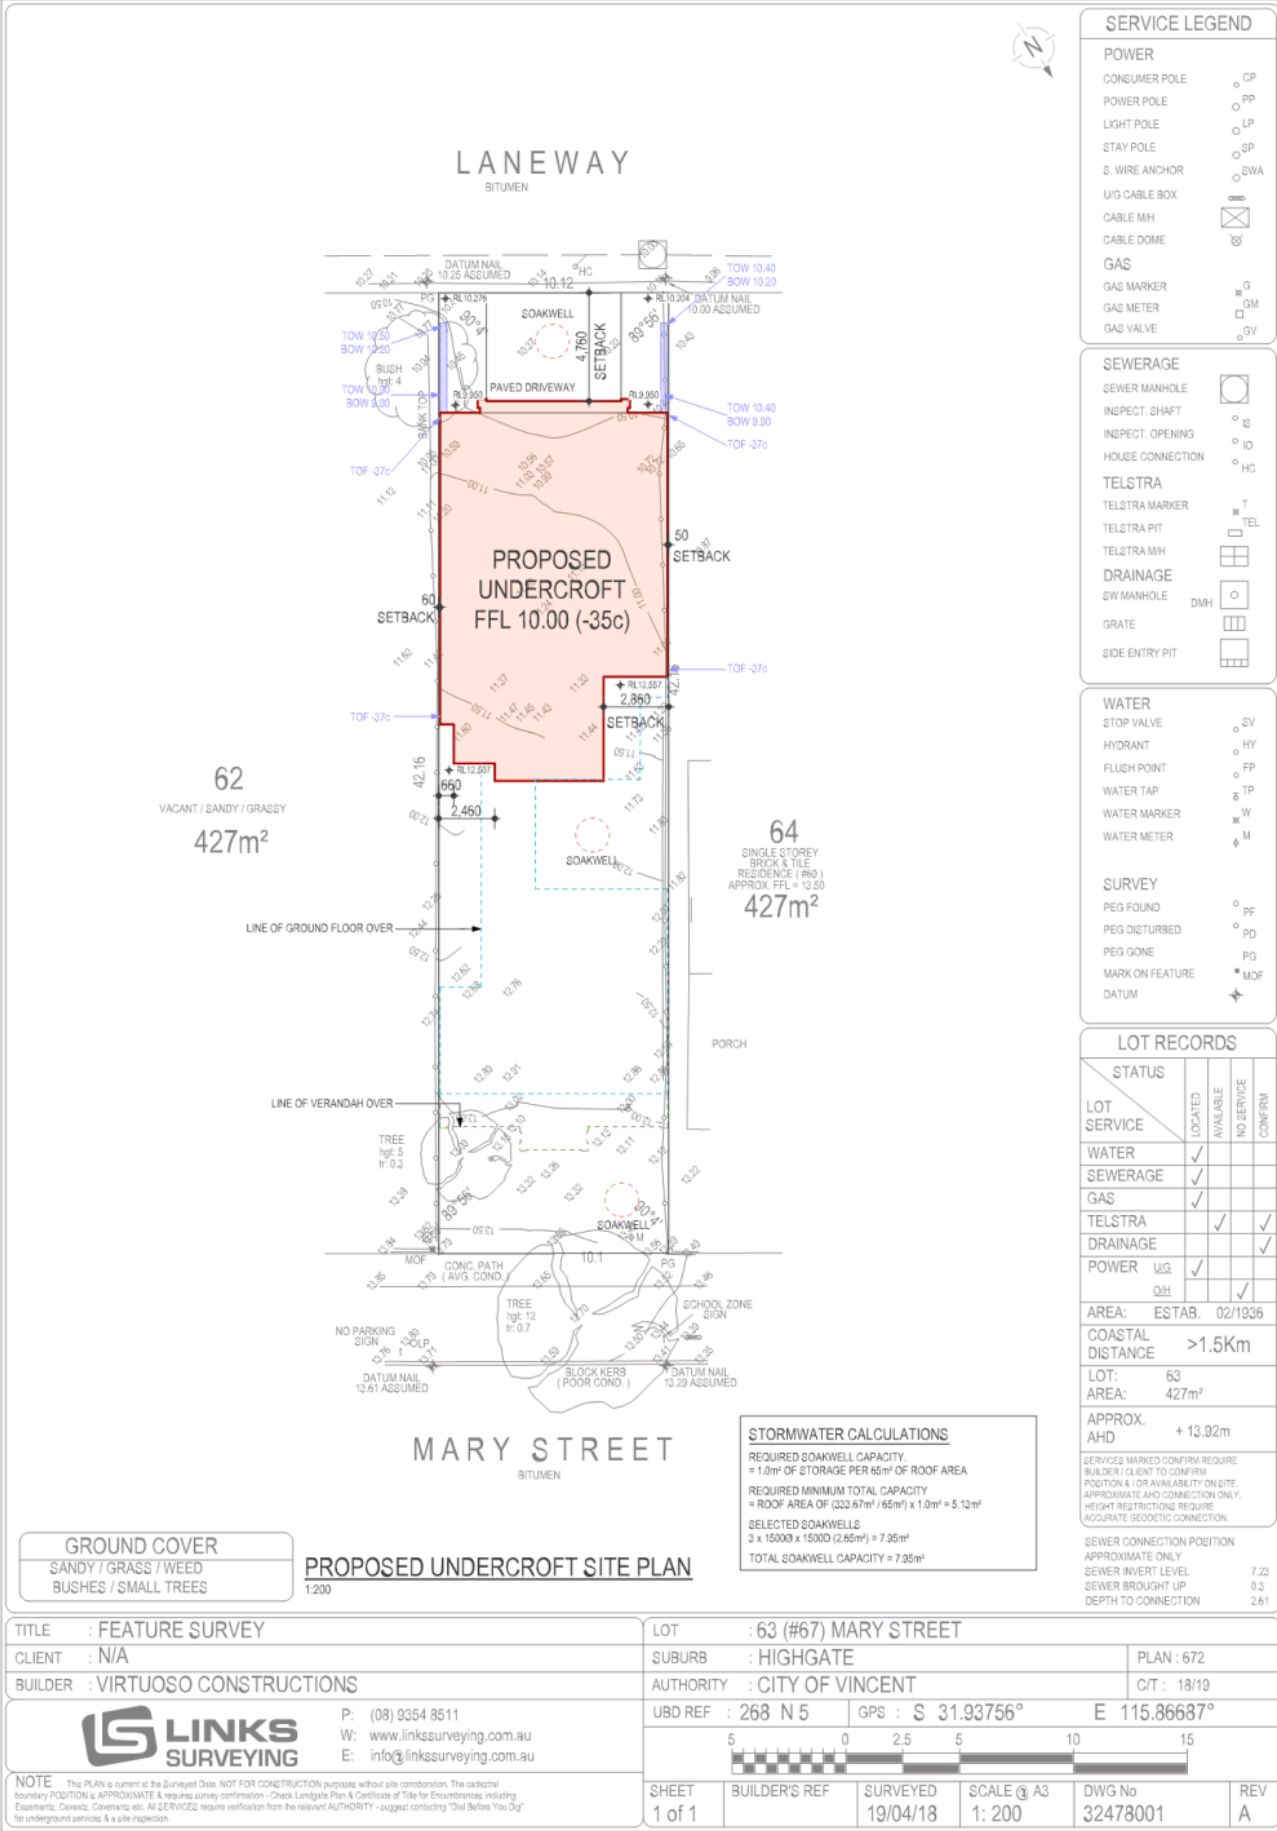

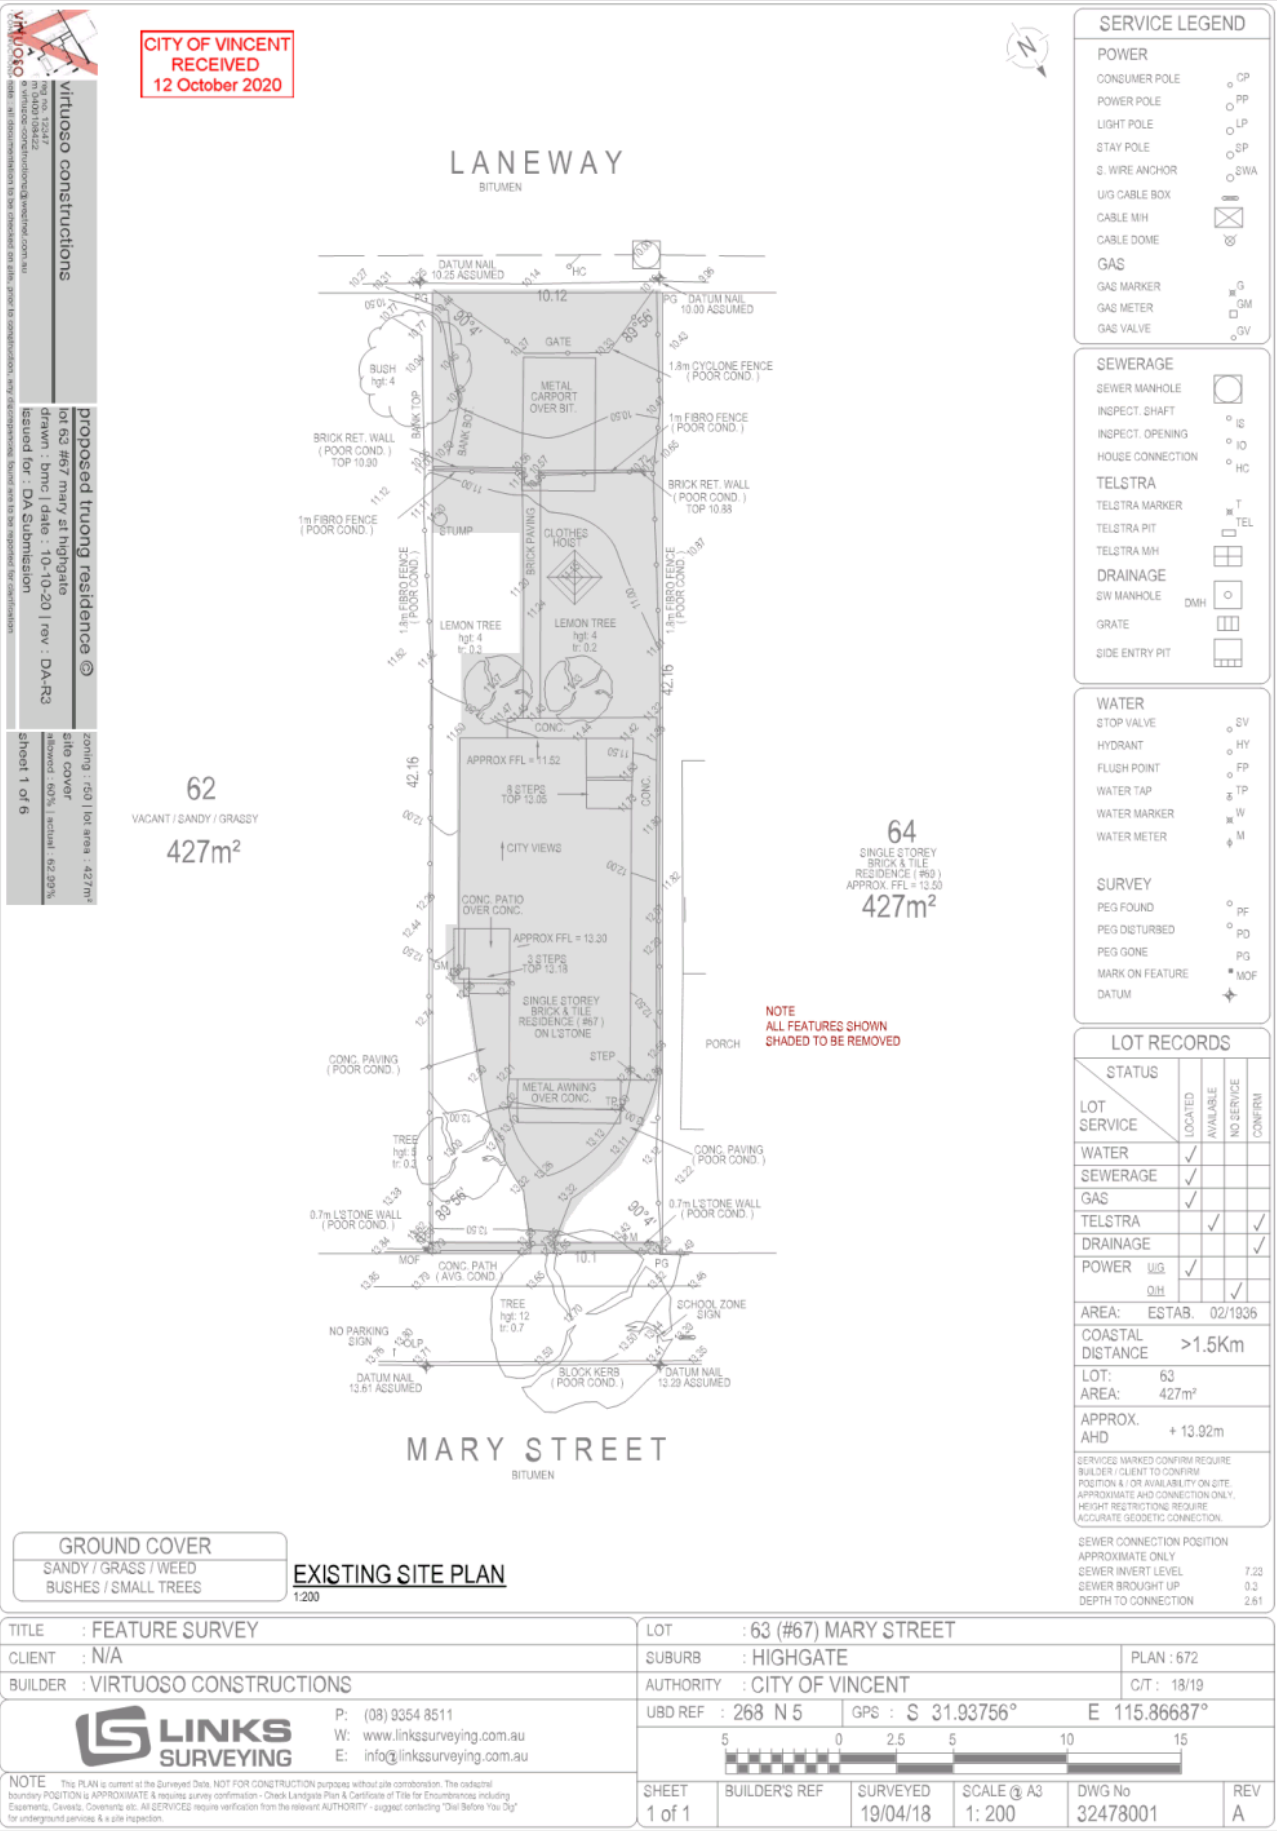

The proposed development is cognisant of the adjacent heritage property for the following reasons:

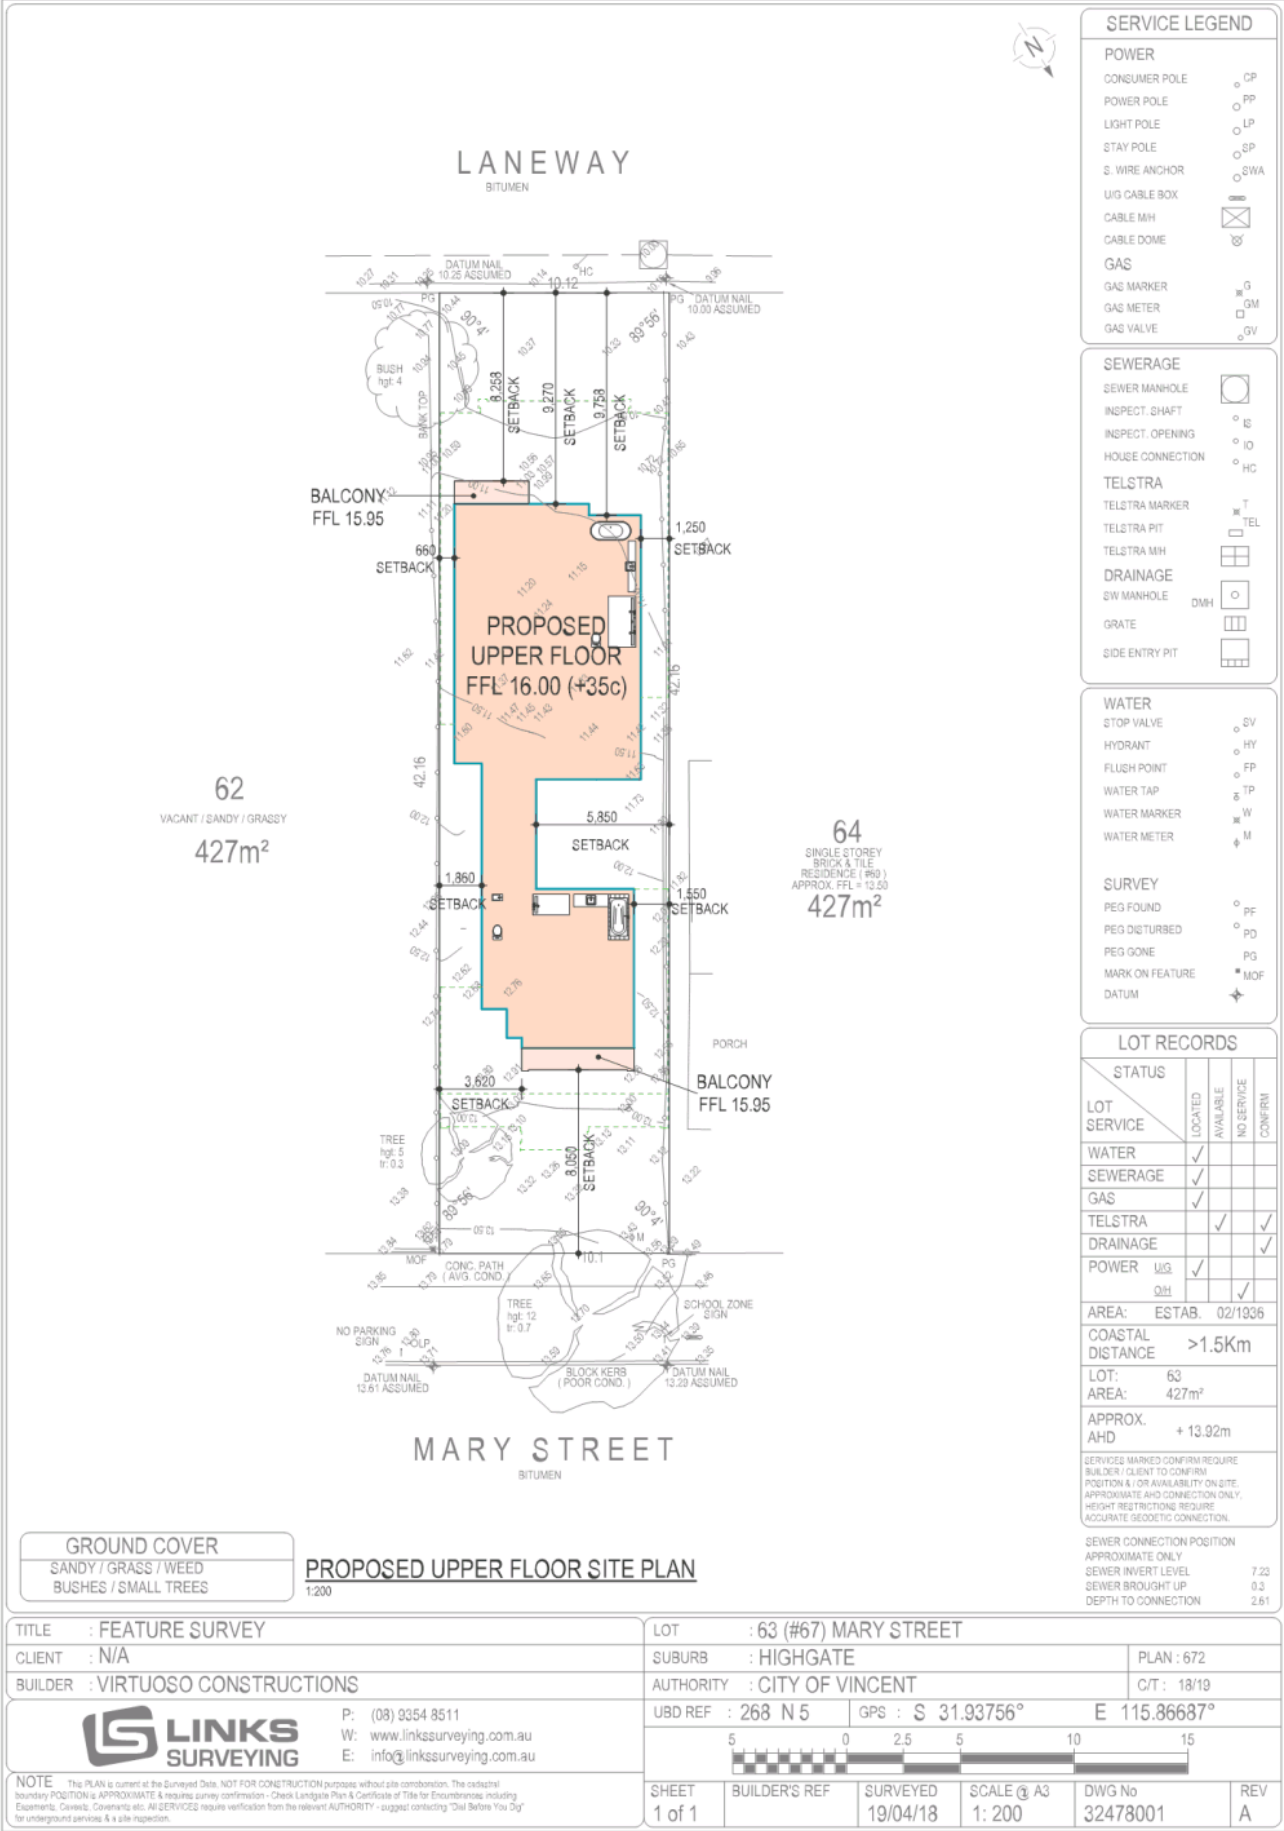

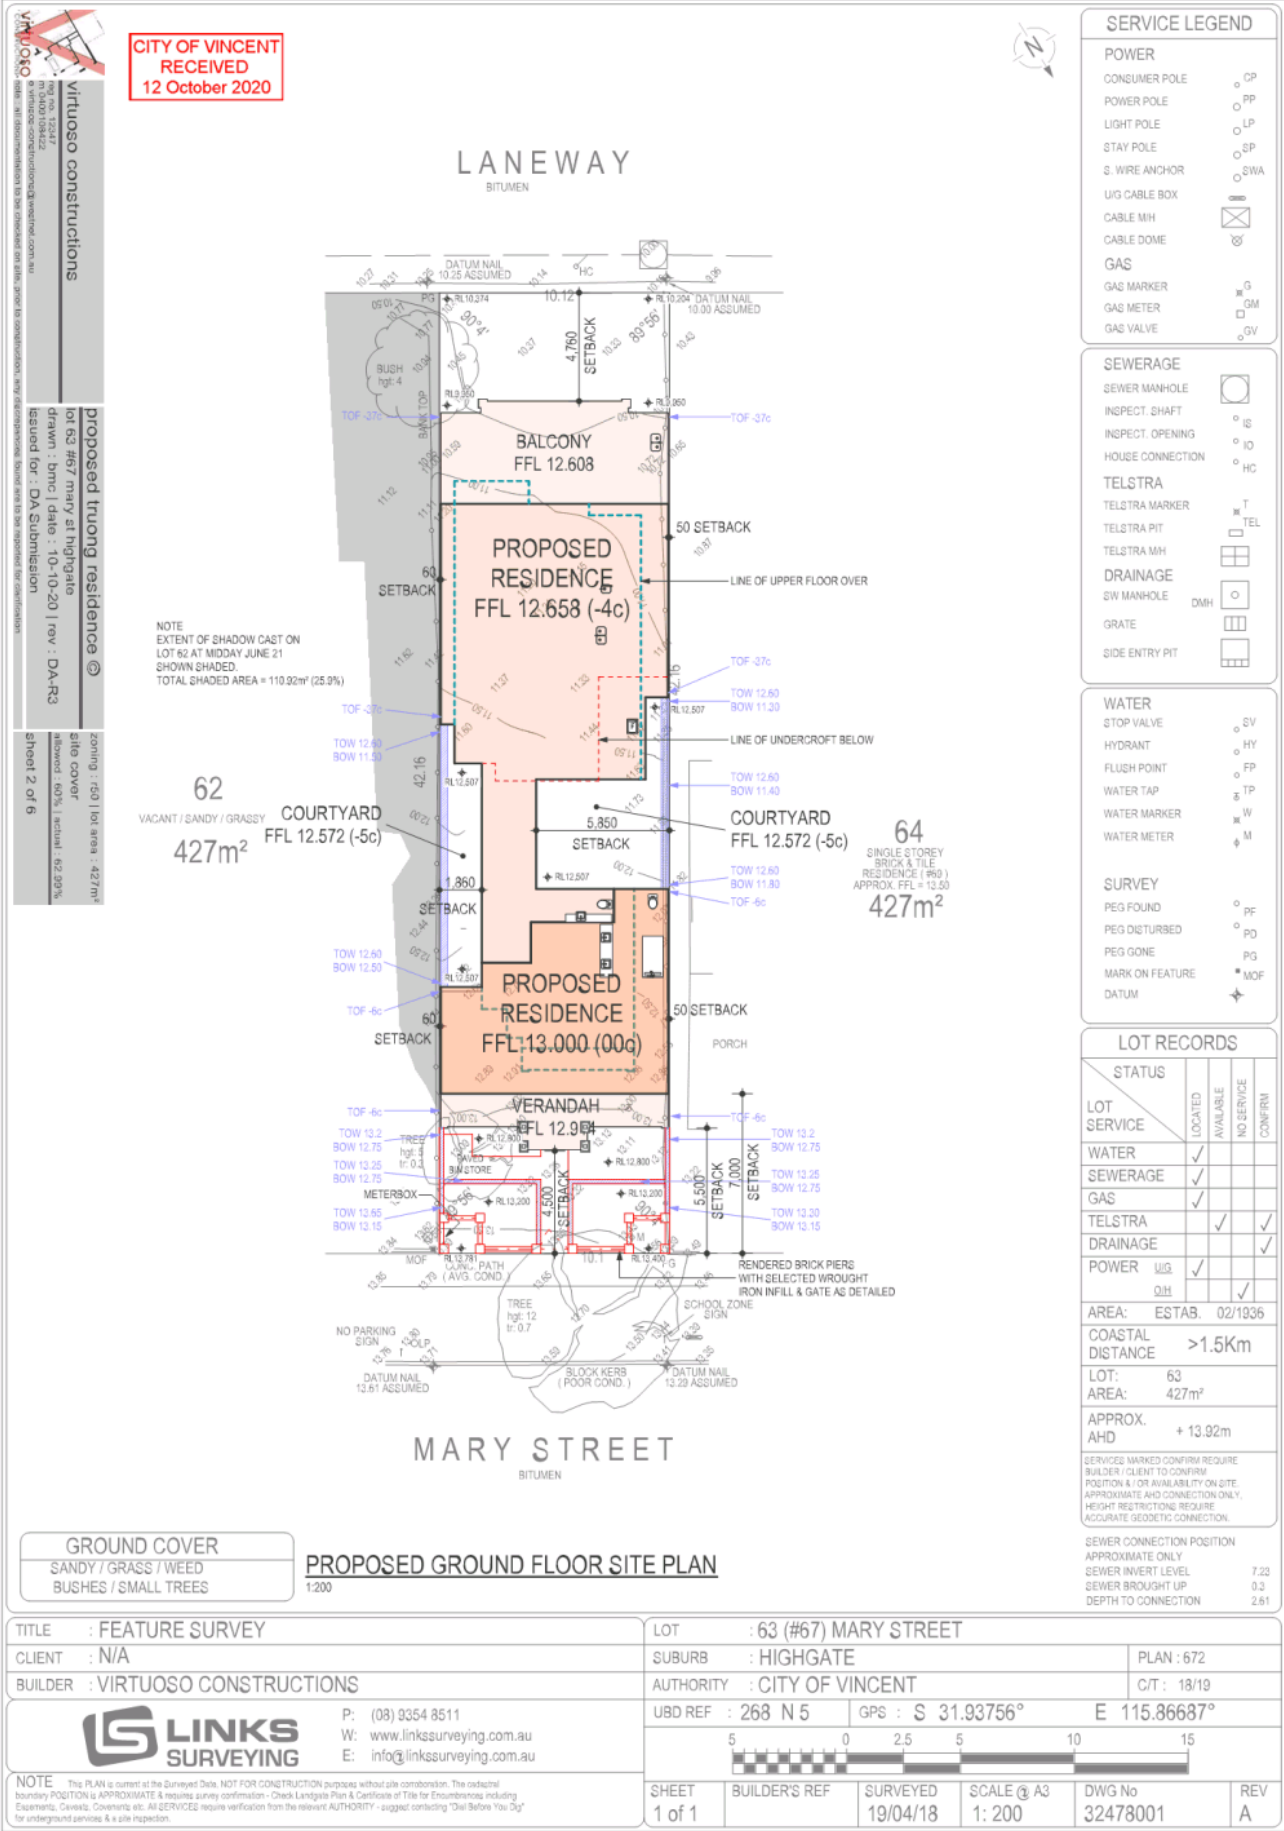

- The colours and materials proposed are reflective of the existing dwelling – pitched roof with tile details, contrasting trims to external finishes and wrought iron fence detailing. The overall form, colours and materials are of a similar finish and provide a level of cohesion and continuity between the proposed dwelling and built form significance of the adjacent heritage site;
- The dwelling is stepped in line with the natural slope of the site and does not appear obtrusive or dominant to the streetscape;
- In line with the Burra Charter, the built form of the dwelling provides a clear differentiation between the original heritage fabric of the heritage site and the proposed dwelling so as to not create obscurity about the heritage premises or mimic the physical significance of the place; and
- The proposed scale and siting of the dwelling from the primary street does not obscure the heritage site in any way.

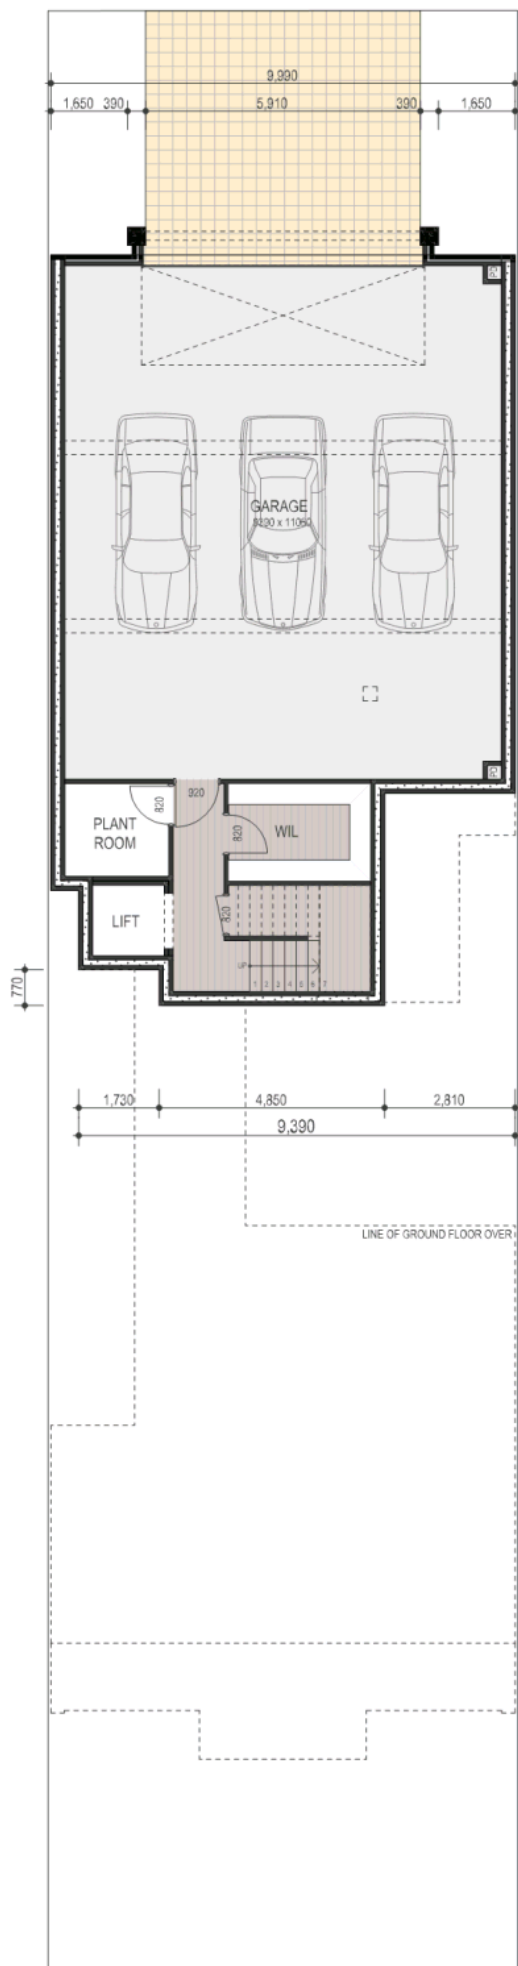

The application was referred to the Department of Planning Lands and Heritage for comment. After review of the proposal, DPLH confirmed no issues or concerns with the proposed location and scope of works to the subject site.

Urban Design Study:

Please outline how each of the following elements have been addressed and attach any relevant or supporting photos, images, diagrams or drawings where applicable.

Description	Applicant comment
1. Context & Character <i>Good design responds to and enhances the distinctive characteristics of a local area, contributing to a sense of place.</i>	
Demonstrate how you have reviewed the natural environment including topography, local flora and fauna.	The natural topography of the lots along Mary street has a very steep fall from front to back. This has meant that there are a number of examples of two storey high parapet walls. The local landscape within property boundaries is mainly comprised of low-level planting, grass and some taller trees. Due to the large street trees being the main feature along Mary street, other planting within the front garden is kept minimal to make this the standout. With regards to the laneway there is very little landscaping there currently to soften the hardscape, however our client is proposing some trees (off the acceptable species list) in order to soften this elevation.
Demonstrate consideration of the site's streetscape character.	In order to be in keeping with the character of the streetscape we have ensured that we have incorporated some heritage features without completely mimicking the older buildings. We believe the design is sympathetic to the surrounding built form
Demonstrate review of the built and natural environment of the local context to a radius of 400m-1000m.	The built form within the radius noted is very mixed. There is a large heritage building on the other side of Mary street for an extensive stretch. There is also a shopping precinct at the far end adjacent to Beaufort Street. At the end closest to our Clients property you have the expansive public open space (Hyde Park) There are a number of properties of all scales from single storey to some which are three storeys like our client is proposing. Many of the smaller single storey properties are not modern properties with the modern properties all being of a much larger scale.

Description	Applicant comment
<p>Demonstrate how the site's context and character influenced the development.</p> <p>Consider the following:</p> <ul style="list-style-type: none"> - History of the local area; - Heritage listed buildings in the area; - High quality contemporary buildings in the area; - Materials, textures, patterns from high quality heritage / character as well as contemporary buildings in the area; and - Movement patterns / laneways. 	<p>The area is very diverse in terms of building character, use and history. There is a mix of uses within the local area with Mary street butting into Beaufort Street, with shops/restaurants and cafes at one end and William Street at the other which runs adjacent to Hyde Park. On the actual street itself, our lot is opposite the Sacred Heart Church and Catholic Primary School (both of which are heritage listed buildings). The design has incorporated some heritage elements in terms of the gables with the timber batten in fill and the weatherboard style cladding. These features have been shown to both the primary and secondary street facades to have cohesion between these two streetscapes. The design has aimed to provide elements that meet the character within the streetscape while using colours and materials that are more common with today's construction. This is so that we are not trying to mimic heritage design but complement it.</p>
<p>Landscape quality <i>Good design recognises that together landscape and buildings operate as an integrated and sustainable system, within a broader ecological context.</i></p>	
<p>Demonstrate review of the existing landscaping of the site and the street including mature trees, species and natural features</p>	<p>The Mary Street landscape is dominated by large mature trees (Moreton Bay Fig) which line both sides of the street and are so large that the canopies meet in the middle. The canopy of these trees also extends into the setbacks of the houses that address it. Within the front setbacks of the houses large portions of the landscaping is made up of small trees and low planting so as not to detract from the large canopy of the street trees.</p>
<p>Demonstrate how the landscape quality of the streetscape and surrounding context has been incorporated into the building and landscape design.</p>	<p>As Mary street is a heavily tree lined street, the landscaping to the front of the home is primarily going to consist of grass and hedge type planting to ensure that we are not incorporating plants that will be fighting with the streetscape canopy. Due to the large mature trees we also need to look to plant species that will thrive amongst a very shaded area. We are also looking to incorporate planting to the balcony areas to soften the façade of the building even more.</p>

Description	Applicant comment
Built Form & Scale <i>Good design provides development with massing and height that is appropriate to its setting and successfully negotiates between existing built form and the intended future character of the local area.</i>	
<p>What is the building massing and height of the streetscape? How has this been incorporated into the design?</p>	<p>There are a number of dwellings within the streetscape that present a two-storey façade to the primary street. The streetscape is very diverse having the state heritage listed building of the church and pastoral care centre across the road, mixed with residential dwellings and finally having some retail/shopping developments at the Beaufort Street End.</p> <p>While this area is designated as being a maximum of two storey development it can be seen within the streetscape that there are a number of other building to a similar scale as to what is being proposed. This is due to the significant fall in topography from the front of the lot to the back. The most relevant is the dwelling one house down from the proposed development at 57 Mary street which is not only two and a half stories high but also contains a brick gable on the boundary and therefore presents more like the height and scale of a full three storey development.</p> <p>The development at 47 Mary street is also of a very similar construction as what our client is proposing with the boundary wall height to the rear extending to the double storey height and the third level being stepped in.</p> <p>The scale is believed to be in line amongst the other newer development within the streetscape in terms of bulk and scale.</p>
<p>How does the development respond and contribute to the built form and scale of the streetscape?</p>	<p>As above in terms of the view from the streetscape (Mary Street) it presents as a two-storey dwelling which is consistent with the scale of many dwellings within the streetscape. While it is built boundary to boundary there are also examples of this, namely 57 Mary Street, where this has been done. At present the neighbouring block to the eastern</p>

Description	Applicant comment
	boundary is vacant, however, our client has been in consultation with them and they are happy with the plan to have a boundary wall in this location that they can build up to with the future development.
Demonstrate how the development encourages an activated and vibrant streetscape environment.	The development aids in activating the primary street by providing a large verandah as well as a balcony to the second floor. These areas provide potential for residents to sit within the front of the home and engage with the passing pedestrians and neighbours. The dwelling has also been designed to have the primary outdoor living area located facing the ROW to the rear of the property. This also activates the secondary street elevation while also providing additional surveillance to this area.
Functionality & Build Quality <i>Good design meets the needs of users efficiently and effectively, balancing functional requirements to deliver optimum benefit and performing well over the full life-cycle.</i>	
Demonstrate how the proposed design complements the use of the building.	It can be seen from aerial photography that the lot is in close proximity to the CBD and therefore the lot has significant city views to the rear of the lot. In order to take best advantage of this the design has been centred around having the primary indoor and outdoor living areas focused to the rear of the lot. The design incorporates a lift which runs over all three floors. This is in order to ensure aging in place can occur.
Sustainability <i>Good design optimises the sustainability of the built environment, delivering positive environmental, social and economic outcomes.</i>	
Demonstrate how the building performance has been optimised using suitable orientation and layout of internal spaces.	Due to the north south orientation of the lot and the orientation of the significant views being to the south these factors have had a great impact on the overall design. In saying this the design has incorporated a neighbour of breeze paths and indentations of landscaping to allow ventilation and light into the home. As far as the social impact it is important for the residents to have the primary outdoor living area and

Description	Applicant comment
	main hub of the home to the rear in order to be able to take advantage of the significant city views which are the main appeal of the lot. The vast kitchen, family, dining leading out onto the extra-large outdoor living area create an excellent hub for entertaining. The house will be painted with light render colours and the roof colour will also be light in order to decrease absorption values
Amenity <i>Good design optimises internal and external amenity for occupants, visitors and neighbours, contributing to living and working environments that are comfortable and productive.</i>	
Demonstrate how the development optimises amenity for occupants, adjoining neighbours and onlookers	Due to the scale of the building and the slope of the land the design has incorporated a lift in order to ensure amenity for the residents is maintained as they age. The design has ensured that the upper level windows and balconies have been designed in such a way to avoid any direct overlooking in order to maintain a high level of privacy for the neighbouring lots. The balconies (especially the ones facing the laneway) Also increase safety to all other neighbouring dwellings as the increase the surveillance over the laneway. While we are proposing a to have a three-storey home it has been ensured that to Mary street it is only of a two-storey height. Therefore, it blends in with the streetscape.
Legibility <i>Good design results in buildings and places that are legible, with clear connections and memorable elements to help people find their way around</i>	
Demonstrate how the design allow users and visitors to navigate through the development.	The design incorporates a street wall with double gates that lead to a front path which is in direct line with the front door. As well as this the verandah that runs the full width of the dwelling has a portion, which is in line with the front door, which projects and has a gable feature which highlights the primary entrance into the home.
Safety <i>Good design optimises safety and security, minimising the risk of personal harm and supporting safe behaviour and use.</i>	
Demonstrate how the layout of buildings on site provides safe and high level of amenity for residents.	The design has spaces within the front setback area as well as to the rear laneway to ensure that there is a high degree of passive

Description	Applicant comment
	surveillance to these areas. This ensures extra levels of safety not only for our clients but also all the occupants of the neighbouring properties. The front of the property has three habitable rooms fronting the street as well as a large open verandah which can be used as an active space due to its size. The layout provides all primary indoor and outdoor living as well as the master suite having views to the laneway which increases surveillance of this area which in many cases can become areas for safety concern.
Community <i>Good design responds to local community needs as well as the wider social context, providing buildings and spaces that support a diverse range of people and facilitate social interaction</i>	
Demonstrate how the development contributes to a sense of community, encouraging social engagement and enabling stronger communities.	As noted above the house design has incorporated a large verandah to the front of the home so it can be used as an active space. Not only this the upper floor also has a small balcony. These areas encourage occupants to spend time within these areas enabling them to engage with neighbours and passers-by.
Aesthetics <i>Good design is the product of a skilled, judicious design process that results in attractive and inviting buildings and places that engage the senses.</i>	
Demonstrate how the surrounding context and character has been incorporated into the design of the development.	As stated above the design has incorporated some heritage features to be in keeping with the heritage style and feel of the area while also being modern. The design is believed to be sympathetic to the heritage of the area while also building a home that suits 2020.

Summary of Submissions:

The tables below summarise the comments received during the advertising period of the proposal, together with the Applicant's response to each comment.

Comments Received in Objection:	Applicant Comment:
<p><u>Visual Privacy</u></p> <ul style="list-style-type: none"> Balcony 1 above the garage would be less than 5 metres from the laneway and would look directly into the rear yards and outdoor living areas of the properties on the opposite side of the laneway. Other properties addressing the laneway have a much greater setback; and Balconies 1 and 2 should be provided with a privacy screen fully obscured up to 1.6 metres high to offer some privacy for adjoining properties on the other side of the laneway. 	<p>The applicant has installed privacy screening to portions of balcony 1 to mitigate the actual and perceived cone of vision to neighbouring properties.</p> <p>Balcony 1 and 2 are setback 7.8 metres and 11.3 metres respectively from the adjoining properties on the other side of the laneway, exceeding the 7.5 metre deemed-to-comply setback that is required under the R Codes.</p> <p>The planting of mature trees to the rear of the site also aid in limiting the cone of vision to side boundaries. The cone of vision from Balcony 2 to the south east is obscure in nature and does not provide a direct line of sight for future development. Balcony 2 can only be accessed from the Master on the upper floor of the dwelling, and as a result is unlikely to be used for extended periods of the time.</p> <p>A streetscape review of the right of way (Kaadadjiny Lane) has identified dwellings, outdoor living spaces and garages to varying setbacks including examples which are setback 1.6 metres from the right of way. The rear setback proposed to the dwelling and balconies exceed the deemed to comply lot boundary and right of way setbacks, and also provide a sufficient setback to satisfy visual privacy requirements.</p>
<p><u>Lot Boundary Walls</u></p> <ul style="list-style-type: none"> Lot boundary walls should not be permitted. A minimum setback of 1.5 metre should be applied from the boundary along the whole fence line. The proposed height of the lot boundary walls excessive and would be too bulky. 	<p>The applicant has revised the height of lot boundary walls proposed reducing both the average and maximum lot boundary wall heights. The dwelling and lot boundary walls are stepped down towards the right of way to reduce the impact on adjoining properties. The finished floor levels and lot boundary wall heights are considered to be appropriate in the context of the significant natural slope of the site. Two separate boundary walls are proposed to each side boundary rather than one large, continuous boundary wall length and the cumulative length of the boundary walls is less than the 24.03 metres permitted under the R Codes. The remaining portions of the development are stepped away from the lot boundary and incorporate colours and materials to provide actual and visual articulation of the dwelling as viewed from the lot boundaries.</p> <p>The R Codes and the City's Built Form Policy provide provisions allowing for development to be constructed up to the lot boundary. The cumulative length of the lot boundary walls proposed meet the deemed-to-comply requirements, with the remaining portions of the dwelling to all storeys setback from the boundary appropriately.</p>

Page 1 of 2

Summary of Submissions:

Comments Received in Objection:	Applicant Comment:
<p><u>Building Height</u></p> <ul style="list-style-type: none"> The building height is excessive and would dominate the surroundings; The design is already intrusive through its height making overlooking worse; The overall bulk and scale of the building is overwhelming and dominating neighbouring properties. 	<p>The orientation of the land results in the built form presenting as two storeys to Mary Street and three storeys to the right of way at the rear. A number of existing dwellings within the immediate streetscape demonstrate development of a three storey built form to the right of way.</p> <p>The extent of fill and excavation on site has been reduced. The proposal takes into account the significant 3.6 metre slope of the site and minimises the extent of fill and excavation to address this. The dwelling responds to the natural contours of the site, and is stepped in line with the natural slope. As a result, the building height is reduced and ensures no direct loss of view of significance from adjoining properties as a result of the proposed height.</p>
<p><u>Site Works and Retaining</u></p> <p>The extent of site works and retaining wall is excessive and contributes to the overall height of the building.</p>	<p>The applicant has revised the extent of site works and retaining to the site, which has further mitigated the overall building height of the dwelling. The site is subject to a significant 3.6 metre slope, and the site works proposed are in response to the natural slope and contours of the site and retaining walls take a stepped approach so as to not exacerbate bulk or scale of development to the street and neighbouring dwellings.</p>
<p><u>Garage Width</u></p> <p>Object to garage setback and width.</p>	<p>The applicant has revised the proposal to increase the setback of the garage to Kaadadjiny Lane from 2.3 metres to 5.3 metres. The revised setback mitigates the imposition of bulk from the garage. The existing ROW contains a number of single and double garages, vehicle access points and outbuildings that face the ROW, and the proposal is consistent with this established built form and ROW outcome.</p>
<p><u>Open Space</u></p> <p>Older buildings within the area are closer to Mary Street and seem to occupy about half a block plus a garage.</p>	<p>The outdoor living areas and open space for the site provide contributions to usable and external spaces of the lot as well as sufficient access in and around the site which responds to the natural contours of the site for the needs of the occupants. The open space calculation does not include portions of the dwelling which are accessible and usable more than 0.5 metres above the natural ground level and unenclosed spaces to Balconies 1, 2 and 3. The balcony spaces contribute to additional areas of open space, outdoor living and amenity for use by the residents.</p>

Note: Submissions are considered and assessed by issue rather than by individual submitter.

Determination Advice Notes:

1. With reference to Condition 2, the owners of the subject land shall obtain the consent of the owners of relevant adjoining properties before entering those properties in order to make good the boundary walls.
2. With reference to Condition 4 Clause 5.4.1 C1.2 Visual Privacy requirements of the R Codes states that *screening devices such as obscure glazing, timber screens, external blinds, window hoods and shutters are to be at least 1.6m in height, at least 75 percent obscure, permanently fixed, made of durable material and restrict view in the direction of the overlooking into any adjoining property.*
3. With reference to Condition 6, visually permeable is defined as *"in reference to a wall, gate, door or fence that the vertical surface has continuous vertical or horizontal gaps of 50mm or greater width occupying not less than one third of the total surface area; continuous vertical or horizontal gaps less than 50mm in width, occupying at least one half of the total surface area in aggregate; or a surface offering equal or lesser obstruction to view; as viewed directly from the street".*
4. With reference to Condition 7, the City encourages landscaping methods and species selection which do not rely on reticulation.
5. With reference to Condition 8, no further consideration shall be given to the disposal of stormwater 'offsite' without the submission of a geotechnical report from a qualified consultant. Should approval to dispose of stormwater 'offsite' be subsequently provided, detailed design drainage plans and associated calculations for the proposed stormwater disposal shall be lodged together with the building permit application working drawings.
6. A security bond for the sum of \$2,000, shall be lodged with the City by the applicant, prior to the issue of a building permit. This bond will be held until all building/development works have been completed and any disturbance of, or damage to the City's infrastructure in the Right of Way and the Verge along Mary Street, including verge trees, has been repaired/reinstated to the satisfaction of the City. An application for the refund of the security bond shall be made in writing. The bond is non-transferable.
7. The movement of all path users, with or without disabilities, within the road reserve, shall not be impeded in any way during the course of the building works. This area shall be maintained in a safe and trafficable condition and a continuous path of travel (minimum width 1.5 metres) shall be maintained for all users at all times during construction works. If the safety of the path is compromised resulting from either construction damage or as a result of a temporary obstruction appropriate warning signs (in accordance with AS1742.3) shall be erected. Should a continuous path not be able to be maintained, an 'approved' temporary pedestrian facility suitable for all path users shall be put in place. If there is a request to erect scaffolding, site fencing etc. or if building materials are required to be stored within the road reserve, once a formal request has been received, the matter will be assessed by the City and if considered appropriate a permit shall be issued by the City. No permit will be issued if the proposed encroachment into the road reserve is deemed to be inappropriate.
8. A Demolition Permit shall be obtained from the City prior to commencement of any demolition works on the site.
9. The verge tree must not be trimmed and cannot be removed. Any works affecting the verge with potential to impact the tree must obtain prior approval from the City.
10. This is a development approval issued under the City of Vincent Local Planning Scheme No. 2 and the Metropolitan Region Scheme only. It is not a building permit or an approval to commence or carry out development under any other law. It is the responsibility of the applicant/owner to obtain any other necessary approvals and to commence and carry out development in accordance with all other laws.

Determination Advice Notes:

11. If the development the subject of this approval is not substantially commenced within a period of two years, or another period specified in the approval after the date of determination, the approval will lapse and be of no further effect.
12. A further two years is added to the date by which the development shall be substantially commenced, pursuant to Schedule 4, Clause 4.2 of the Clause 78H Notice of Exemption from Planning Requirements During State of Emergency signed by the Minister for Planning on 8 April 2020.
13. If an applicant or owner is aggrieved by this determination there is a right of review by the State Administrative Tribunal in accordance with the *Planning and Development Act 2005* Part 14. An application must be made within 28 days of the determination.

RECOMMENDATION:

That Council, in accordance with the provisions of the City of Vincent Local Planning Scheme No. 2 and the Metropolitan Region Scheme, APPROVES the application to amend Development Approval dated 5.2014.124.1 dated 4 June 2014 for Change of Use from Warehouse to Recreation Private (Amendment to Approved) at No. 305 (Lot: 4; D/P: 1602) Fitzgerald Street, West Perth, in accordance with the plans shown in Attachment 2, subject to the following and with the associated determination advice notes included in Attachment 7:

1. All conditions and requirements detailed on development approval 5.2014.124.1 dated 4 June 2014 continue apply to this approval, except as follows:
 - 1.1 Condition 2 is deleted;
 - 1.2 Condition 3 is deleted and replaced with:
 - 1.2.1 The maximum total number of clients shall be limited to twenty (20) at any one time;
 - 1.3 Condition 4 is deleted and replaced with:
 4. Hours of Operation
 - 4.1 Prior to the provision of the amended Noise Management Plan in satisfaction of Condition 8 below, the hours of operation shall be limited to 6:00am to 9:00am and 5:00pm to 8:00pm Monday to Friday and 7:00am to 12:00pm Saturday; and
 - 4.2 Upon provision of the amended Noise Management Plan to the City in satisfaction of Condition 8 below, the hours of operation shall be limited to 5:30am to 8:00pm Monday to Friday and 7:00am to 5:00pm Saturday;
 - 1.4 Condition 8 is added:
 8. Noise Management Plan
 - 8.1 Within 28 days of the issue of this approval, the Applicant must engage a suitably qualified acoustic consultant to:
 - (a) Review the Fibre Active West Noise Management Plan dated 26 October 2020 (NMP) submitted with this application to ascertain whether the measures specified in the NMP are sufficient to ensure noise emissions from activities at the premises will not exceed the assigned levels specified in the *Environmental Protection (Noise) Regulations 1997* (Assigned Levels) at all times during which the

premises operates, namely 5:30am to 8:00pm Monday to Friday and 7:00am to 5:00pm Saturday;

- (b) Consider whether any additional measures are required to ensure noise emissions from activities at the premises will not exceed the Assigned Levels at all times during which the premises operates; and
 - (c) Prepare a report which states whether the measures specified in the NMP will ensure noise emissions from activities at the premises will not exceed the Assigned Levels at any time and identifies any additional measures required to ensure noise emissions from activities at the premises do not exceed the Assigned Levels (Report);
- 8.2 Within 35 days of the issue of this approval, provide a copy of the Report (referred to in Condition 8.1(c)) to the City;
- 8.3 Within 42 days of the issue of this approval, provide an amended noise management plan (amended NMP) to the City which incorporates any additional measures specified in the Report and which:
- (a) provides mitigation measures to ensure noise emissions at the premises do not exceed the Assigned Levels at any time during which the premises is operating, namely 5:30am to 8:00pm Monday to Friday and 7:00am to 5:00pm Saturday;
 - (b) incorporates any additional measures specified in the Report; and
 - (c) a procedure for dealing with complaints and breaches of the amended NMP, to the City's satisfaction; and
- 8.4 All recommended measures in the Report shall be undertaken in accordance with the Report, to the City's satisfaction, prior to the commencement of the hours of operation 5:30am to 6:00am and 9:00am to 8:00pm Monday to Friday and 12:00pm to 5:00pm Saturday as well as the increase of patron numbers to a maximum of 20 during any operating hours, and maintained thereafter to the satisfaction of the City at the expense of the owners/occupiers. The use shall at all times operate in compliance with the amended NMP.

PURPOSE OF REPORT:

To consider an application for development approval for an amendment to a previous approval for a Change of Use from Warehouse to Recreation Private (Unauthorised Existing Development) at No. 305 Fitzgerald Street, West Perth (subject site).

PROPOSAL:

The subject site is located at No. 305 Fitzgerald Street, West Perth, as shown on the location plan as included as **Attachment 1**.

A Recreation Private use (Gym) has operated at the subject site from August 2013 in accordance with the development application approved by Council at the Ordinary Meeting of Council held on 26 March 2013 and amended application approved by Administration under Delegated Authority on 4 June 2014.

The use is a 'CrossFit Gym' which is a structured high-intensity interval training fitness class under the guidance of a coach with activities consisting of a combination of free weight exercises, skipping and rowing.

The amendments proposed as part of this development application are summarised as follows:

Occupancy Numbers

The proposed development application seeks to increase the number of occupants on-site at any given time. The Gym currently operates in accordance with Conditions 2 and 3 of the previous approval that provides the following occupancy numbers:

2. *The maximum total number of employees shall be limited to five (5) at any one time*
3. *The maximum total number of clients shall be limited to fifteen (15) at any one time.*

The application proposes to delete Condition 2 relating to the maximum number of employees and proposes to amend Condition 3 relating to the maximum number of clients, to allow a maximum of 20 clients on-site at any one time.

Operating Hours

The proposed development application seeks an amendment to the previously approved operating hours to broaden the usage of the facility. The use currently operates in accordance with Condition 4 of the previous approval that provides the following operating hours:

2. *The hours of operation shall be limited to 6:00am to 9:00am and 5:00pm to 8:00pm Monday to Friday and 7:00am to 12:00pm Saturday, inclusive and accordingly, the classes shall be scheduled to allow a 15 minute interval between classes to enable sufficient time for patrons to arrive and leave the facility.*

The application proposes to amend Condition 4 relating to the hours of operation to:

- (a) Allow the premises to operate from 5:30am to 8:00pm Monday to Friday;
- (b) Allow the premises to operate from 7:00am to 5:00pm on Saturday; and
- (c) Remove the requirement to have a 15 minute interval between classes.

Advertising Signage

The development application also seeks approval for three unauthorised existing signs on the Fitzgerald Street elevation of the building.

All other aspects of the use remain as per the previous approval.

The proposed development plans are included in **Attachment 2**. The supporting information provided by the applicant is included in **Attachment 3**, comprising a summary of the proposed amendments, Parking Management Plan and Noise Management Plan.

BACKGROUND:

Landowner:	Jedan Holdings Pty Ltd
Applicant:	Bjorn Voon
Date of Application:	4 August 2020
Zoning:	MRS: Urban LPS2: Zone: Commercial R Code: N/A
Built Form Area:	Activity Corridor
Existing Land Use:	Recreation Private
Proposed Use Class:	Recreation Private
Lot Area:	354.5m ²
Right of Way (ROW):	No
Heritage List:	No

The subject site is bound by Fitzgerald Street to the south-east, Eden Street to the north-west and commercial properties to the north and south. On the opposite side of Fitzgerald Street are commercial developments and on the opposite side of Eden Street are residential developments including Single Houses and Grouped Dwellings.

The subject site and adjoining properties along Fitzgerald Street are zoned Commercial under the City's Local Planning Scheme No. 2 (LPS2) and are within the Activity Corridor as prescribed under the City's

Local Planning Policy No. 7.1.1 – Built Form (Built Form Policy). The adjoining properties across Eden Street are zoned Residential R80 under LPS 2 and are within the Residential Built Form Area under the Built Form Policy.

Previous Approvals

At the Ordinary Council Meeting of 26 March 2013 Council approved the proposed change of use from 'Warehouse' to 'Recreation Private'. In accordance with Condition 4 of the approval, the term of approval issued for this application was one year after which time the applicant was required to obtain further development approval.

On 20 March 2014 the applicant lodged a development application seeking approval for the Recreation Private use in perpetuity. Following assessment the application was approved under Delegated Authority on 4 June 2014. Based on the Delegated Authority Register for 2013/2014, the determination was permitted under Delegated Authority. The Delegated Authority Register 2013/2014 did not require amended development applications to be referred back to Council for determination and when advertised the application received less than six written objections.

The Minutes of the 26 March 2013 Ordinary Council Meeting, the 4 June 2014 Delegated Approval Notice and previously approved development plans are included as **Attachment 4**.

Previous Compliance

A compliance investigation commenced in relation to the Gym in May 2020 following a number of complaints that were received in relation to noise, operating hours and vibration impacts from the Gym. The applicant has submitted the proposed development application seeking approval for the change in operation hours and signage in response to the compliance investigation.

The Gym has since altered their morning operating time to start again at 6:00am, in accordance with the previously approved operating hours. The Gym is still however operating a class at 1:00pm Monday to Friday, which is outside the previously approved operating hours. Administration exercised its discretion under Policy No. 4.1.22 – Prosecution and Enforcement to allow the Gym to operate between 9:00am and 5:00pm.

DETAILS:

Summary Assessment

The table below summarises the planning assessment of the proposal against the provisions of LPS2, Policy No. 7.5.2 – Signs and Advertising (Signs and Advertising Policy), Policy No. 7.5.21 – Sound Attenuation (Sound Attenuation Policy) and Policy No. 7.7.1 – Non-Residential Development Parking Requirements (Non-Residential Development Parking Policy). In each instance where the proposal requires the discretion of Council, the relevant planning element is discussed in the Detailed Assessment section following from this table.

Planning Element	Use Permissibility/ Deemed-to-Comply	Previously approved	Requires further Discretion
Land Use		✓	
Parking	✓		
Bicycle Facilities	✓		
Operating Hours	✓		
Advertising Signage			✓
Sound Attenuation			✓

Detailed Assessment

The deemed-to-comply assessment of the element that requires the discretion of Council is as follows:

Advertising Signs	
Deemed-to-Comply Standard	Proposal
Policy No. 7.5.2 – Signs and Advertising	
Two wall signs permitted	Three wall signs proposed.
Sound Attenuation	
Deemed-to-Comply Standard	Proposal
Policy No. 7.5.21 – Sound Attenuation	
Acoustic report required for non-residential uses that propose amplified music	Acoustic report not provided.

The above elements of the proposal that do not meet the specified deemed-to-comply standards are discussed in the comments section below.

CONSULTATION/ADVERTISING:

Community consultation was undertaken in accordance with the *Planning and Development (Local Planning Schemes) Regulations 2015* for a period of 14 days from 4 September 2020 to 17 September 2020. The method of consultation included website notification and 14 letters being mailed to all the owners and occupiers of the properties adjoining the subject site, as shown in **Attachment 1**.

During the community consultation, the City received a total of 98 submissions, including five objections and 93 letters of support. The concerns raised are summarised as follows:

- Dropping of weights, music and yelling of trainers causes excessive noise and vibration which impacts the amenity of adjoining properties;
- Noise issues from the premises have been ongoing for a number of years; and
- The noise management measures proposed have not been verified.

The submissions received during the consultation period are summarised with their relative locations in the table below.

Submissions received during the advertising period	Within 100 metres of subject site	More than 100 metres from subject site	All submissions
SUPPORT	5.1%	89.8%	94.9%
OBJECT	5.1%	0%	5.1%
OTHER (not stated/no opinion)	N/A	N/A	N/A

A summary of submissions and Administration's response is provided in **Attachment 5**. The Applicants response to the summary of submissions is included in **Attachment 6**.

Design Review Panel (DRP):

Referred to DRP: No

The application did not require referral to the DRP given there are no internal or external works proposed, with the exception of advertising signage.

LEGAL/POLICY:

- *Planning and Development Act 2005*;
- *Planning and Development (Local Planning Schemes) Regulations 2015*;
- City of Vincent Local Planning Scheme No. 2;
- Policy No. 4.1.5 – Community Consultation;
- Policy No. 7.5.2 – Signs and Advertising;
- Policy No. 7.5.21 – Sound Attenuation; and
- Policy No. 7.7.1 – Non-Residential Development Parking Requirements.

Planning and Development Act 2005

In accordance with Schedule 2, Clause 76(2) of the *Planning and Development (Local Planning Schemes) Regulations 2015* and Part 14 of the *Planning and Development Act 2005*, the applicant would have the right to apply to the State Administrative Tribunal for a review of Council's determination.

Delegation to Determine Applications:

The application is being referred to Council for determination in accordance with the City's Register of Delegations, Authorisations and Appointments. The application proposes to amend a development approval previously determined by Council that impacts the conditions imposed.

RISK MANAGEMENT IMPLICATIONS:

Low: There are minimal risks to Council and the City's business function when Council exercises its discretionary power to determine a planning application.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Innovative and Accountable

We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATIONS:

The City has considered the application against the Environmentally Sustainable Design Provisions of the City's Policy No. 7.1.1 – Built Form, which is informed by the key sustainability outcomes of the City's Sustainable Environment Strategy 2019-2024.

FINANCIAL/BUDGET IMPLICATIONS:

Nil.

COMMENTS:Car Parking

The following proposed amendments to previous conditions of approval would impact on car parking provisions and are discussed below:

- The proposed deletion of Condition 2 relating to the maximum number of employees permitted on-site at any given time;
- The proposed amendment to Condition 3 relating to the maximum number of clients, to allow a maximum of 20 clients on-site at any one time; and
- The proposed amendment of Condition 4 of the previous development approval to remove the requirement for a 15-minute interval to be provided between classes.

Applicant Justification

The Applicant has provided written justification and a Parking Management Plan in support of the proposed amendments to conditions, as included in **Attachment 3**. The Applicant's justification for the amendments is summarised below:

- The condition relating to the removal of the requirement for intervals between classes is not considered to be valid and applicable given the requirement for an interval is not referenced in any of the City's planning policies;
- Sufficient parking is provided in the locality to accommodate the use. As sufficient parking exists, the interval period is considered unreasonable in the context of class scheduling;

- The site is within close proximity to alternative transport including high frequency bus routes and pedestrian and cycle pathways. The use of these alternative methods would be encouraged by the owner; and
- Classes are not open to the public and must be reserved online, which provides certainty to the numbers attending the class.

Previous Approvals and Policy Requirements

In accordance with the Non-Residential Development Parking Policy, the Gym requires 0.22 car bays per person.

Under the Applicant's justification submitted as included in **Attachment 3**, the Gym proposes a total of 22 people to be on-site at any given time, including 20 clients and two staff, resulting in a requirement for 4.84 car bays to be provided on-site. There are three constructed car-bays on-site accessed from Eden Lane. The proposal results in a car parking shortfall of 1.8 car bays on-site.

Under the 2013 development approval, a car parking shortfall of 2.06 bays was approved, with the requirement for a cash-in-lieu payment of \$7,203. This was based on a total of 11 people being on-site at any one time.

Under the 2014 amended development approval an additional parking shortfall of 1.66 bays was approved with no additional requirement for cash-in-lieu contributions. This was based on a total of 20 people being on-site at any one time.

A total shortfall of 3.72 bays has been previously approved for the Gym under the 2013 and 2014 development approvals.

The City's Non-Residential Development Parking Policy came into effect in March 2018 that applied revised parking requirements for Recreation Private. While occupancy numbers have increased on-site, the revised parking provisions for Recreation Private under the current policy do not result in additional parking requirements for the site.

Based on the current policy and occupancy numbers, the development does not provide a further parking shortfall than that previously approved.

Administration Comments

The removal of Condition 2 relating to a limit on employees permitted on-site at any one time; the amendment to Condition 3 relating to the maximum number of clients increasing by five people; and the removal of the requirement for a 15 minute interval to be provided between classes is suitable for the following reasons:

- Administration did not receive community consultation objections in relation to car parking and the proposed condition modifications. The City received a number of support letters that highlighted car parking within the area is sufficient for members;
- The development does not result in a further shortfall to the previously approved parking shortfall;
- After seven years of operation, the Gym has demonstrated that the parking for the use does not have a detrimental impact on traffic or parking for residents or business in the area. The City has not received any complaints relating to car parking since the use commenced operation;
- The purpose of the Condition requiring intervals between classes was to ensure clients could leave the premises prior to new classes commencing to assist with car parking availability. There are a number of on-street parking options within close proximity of the subject site which can suitably accommodate parking without the need for intervals between classes, including:
 - 16 bays along Eden Street between Bulwer Street and Vincent Street (no time restrictions applicable);
 - 10 bays along Fitzgerald Street between Bulwer Street and Vincent Street (only time restrictions relate to bus lanes. No parking permitted between 6:30am – 9:00am heading south. No parking permitted between 4:30pm – 6:00pm heading north);
 - 36 bays along Bulwer Street between Fitzgerald Street and Vincent Street (2 hour time restriction between 8:00am and 5:30pm);
- The development provides four short term bicycle bays and can provide long term bicycle bays within the premises. End of trip facilities have been provided to accommodate visitors accessing the

development by cycling. There are dedicated cycle lanes on both sides of Bulwer Street and in addition there are footpaths provided on both sides of Fitzgerald Street, Eden Street and Vincent Street;

- The subject site is well serviced by public transport being located on a high frequency bus route along Fitzgerald Street; and
- There is minimal risk removing the condition requiring a number of staff on-site as the Applicant's written justification details that two staff would be expected to be on-site at any given time. It is not expected that the number of staff would substantially increase given the client numbers proposed. It is likely that staff, if driving to work, would park within the on-site bays.

Sufficient on-site parking is provided for staff of the development and there is sufficient alternative transport methods and public parking within the vicinity of the subject site to accommodate any customer parking demand. The amendments as proposed meet the objectives of the Non-Residential Development Parking Policy and are supported.

Signage

The City's Policy No. 7.5.2 – Signs and Advertising (Signs and Advertising Policy) permits a maximum of two wall signs per tenancy. The development application seeks approval for three unauthorised existing wall signs to the Fitzgerald Street elevation.

The City did not receive specific community submissions relating to the proposed advertising signage. The proposal is consistent with the objectives of the Signs and Advertising Policy as follows:

- The signage provided meets the permitted dimensions and area as prescribed in the Signs and Advertising Policy;
- The scale and design of the signage is appropriate to the building and the architectural detailing to which it relates. The additional signage does not result in a proliferation of signage;
- As two of the signs are white in colour and attached to a white wall, the signage does not dominate the streetscape;
- The scale and design of the signage is compatible with the existing surrounding development and the size and colours of the sign are appropriate with the area; and
- The proposal ensures that the signage does not adversely impact the amenity of the surrounding properties, while providing appropriate exposure of the proposed use.

Noise Management

Proposed Amendments

The application seeks approval for additional operating hours to broaden the use of the Gym. The use currently operates in accordance with Condition 4 of the previous approval that provides the following operating hours:

4. *The hours of operation shall be limited to 6:00am to 9:00am and 5:00pm to 8:00pm Monday to Friday and 7:00am to 12:00pm Saturday, inclusive and accordingly, the classes shall be scheduled to allow a 15 minute interval between classes to enable sufficient time for patrons to arrive and leave the facility.*

The additional operating hours to be considered as part of this application are:

- Monday to Friday 5:30am – 6:00am;
- Monday to Friday 9:00am – 5:00pm; and
- Saturday 12:00pm – 5:00pm.

Policy Requirements

The City does not have any Local Planning Policies that outline requirements for operating hours for Recreation Private uses but the City's Sound Attenuation Policy requires development applications for non-residential uses that involve amplified music to be accompanied by an acoustic report.

The previous development applications for the use were approved without any acoustic report or noise management plan in support of the use.

Proposed Noise Mitigation Measures

The applicant has not provided an acoustic report prepared by an Acoustic Consultant/Engineer in support of the proposed additional operating hours and is seeking a variation to the Sound Attenuation Policy.

The Applicant has provided a Noise Management Plan and written justification to address the management of noise generated on site for the additional operating hours proposed. The proposed Noise Management Plan is included in **Attachment 3** and proposes the following measures:

- The use of rubber mats when certain weights may be dropped. The use of mats are for movements where there is a possibility that barbells may be dropped;
- Requirements for barbells and weights to be under control. The noise management plan states the only time weights will be dropped is when a person cannot safely control the weight;
- Implementation of volume control levels for different times of the day;
- Noise mitigation measures for amplified music, voice levels and the opening of roller door for different parts of the day; and
- Contact details of the Gym owner provided to all surrounding properties to assist in quick response to noise matters.

In addition to the Noise Management Plan measures proposed, the use would still be required to comply with the *Environmental Protection (Noise) Regulations 1997* at all times.

Administration Comments

The Noise Management Plan has not been prepared or verified by an acoustic consultant, as such, there is no evidence to confirm the mitigation measures will be effective to control the noise emitted from activities at the venue, or that the activities comply with the *Environmental Protection (Noise) Regulations 1997*. Since July 2020, Administration have consistently recommended the applicant engage the services of a noise specialist/acoustic consultant to provide them certainty around the proposal.

Administration consider the proposed noise management strategies will go some way to mitigating the impact of activities from the Gym, so long as the Gym rules are administered and any breaches of those rules are investigated.

The Noise Management Plan provides a commitment for the applicant to comply with what has been written within the Plan. The Noise Management Plan is a daily tool which would be used to manage the Gym. The Noise Management Plan would also provide more assurance to the adjoining neighbours that the gym would control its activities on a daily basis in an appropriate manner.

It has been identified that additional measures could be included within the Noise Management Plan to better manage the activities of the Gym. Administration recommends a condition of development approval requiring an amended Noise Management Plan be submitted to the satisfaction of the City outlining measures that will be implemented to address any complaints or breaches to the Plan's requirements and the compliance measures that will be undertaken where breaches of these requirements are identified. This requirement would assist to minimise the impact of noise on surrounding residents and tenancies.

The applicant has suggested the measures have been tested with the adjoining properties but not by a technical expert. Administration sought legal advice in relation to whether it would be reasonable to enforce a condition of approval requiring the Noise Management Plan to be reviewed by an acoustic consultant. This requirement would confirm that the management strategies would be effective in protecting the amenity of occupants in the surrounding properties from the impacts of noise and that they would achieve compliance with the assigned levels of the *Environmental Protection (Noise) Regulations 1997* (the Noise Regulations) for all hours of operation.

Legal advice received confirmed that it would be reasonable to require a technical review by an acoustic consultant as the City has received a number of complaints about noise and vibration and as the proposal is also significantly increasing the intensity of the discretionary land use. This is for amenity purposes and is irrespective of the need for the applicant to comply with the Noise Regulations.

The legal advice also confirmed that it is orderly and proper to impose noise management measures through the noise management plan for the entire operation of the land use and not just the operating hours proposed through the amendment.

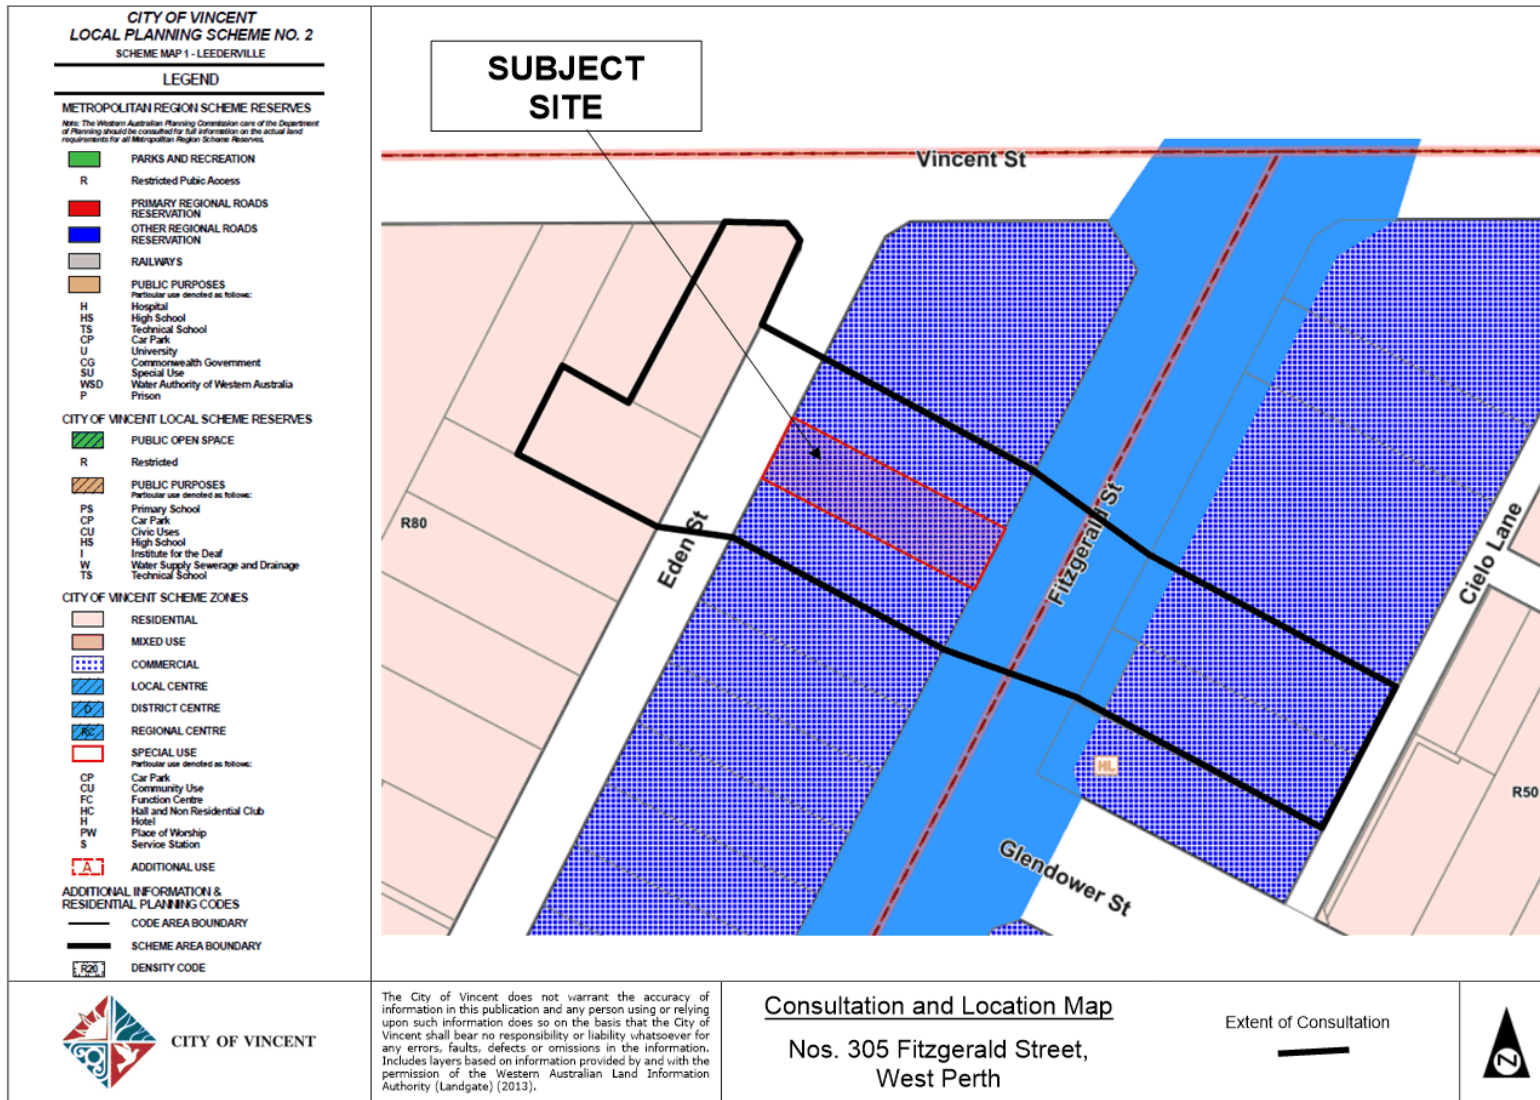

As such, in response to a number of complaints received in relation to noise and vibration, Administration has recommended a condition of approval requiring a technical review to be undertaken by an acoustic consultant that demonstrates that the noise management strategies set out in the Noise Management Plan would be effective in meeting the assigned levels of the Noise Regulations.

The technical review would provide assurance to both the City and neighbouring properties that the measures implemented by the Noise Management Plan would be effective in mitigating the impact of noise to not adversely impact the amenity and comfort of surrounding properties.

An advice note has also been recommended regarding the requirement to have ongoing compliance with the Regulations. The operation is required to comply at all times with all aspects of the Regulations, irrespective of what conditions are imposed on the development approval. Should the City receive a justified complaint regarding unreasonable noise or vibration from the venue, the City's Authorised Officers would investigate and take necessary action according to the Regulations.

If the application is approved by Council the City's Compliance Services team would follow up the compliance with the Noise Management Plan related conditions to ensure they are met within the specified timeframes and that the recommendations as provided within the Noise Management Plan are implemented.

The proposed amendment to the approval is supported, subject to the recommended conditions relating to the Noise Management Plan.

Application for Retrospective Development Approval – Fibre Active (305 Fitzgerald St, West Perth)

Please find attached an application for retrospective development approval to help our community fitness operation continue to contribute to our community and recover from the impacts of COVID-19.

Fibre Active is a family owned business run by Bjorn and Jess. It is focused on the health and well-being of its community members. In addition to providing the local community a facility to get fit, Fibre's mantra extends to social, and environmental well-being.

Many of our members love to train as a mental health break during their busy lives and many of us get on board with healthy living initiatives which have a broader effect improving our health and the environment by carefully choosing the foods we eat.

Being a small facility, we are in tune with our members and the community and do our best to fit in locally. We love to help people reach their goals at all levels and always keep our neighbours in mind in trying to minimise any impact we may have.

In the community, we like to hang out at local coffee shops after classes and enjoy organising social events in nearby locales.

We welcome all feedback from the City of Vincent and the community on how we can continue to positively contribute to our diverse local community.

Our development application is consistent with the City's planning framework and we are available to answer any questions if required.

Yours sincerely

Bjorn and Jess

Applicant Justification

Application for Retrospective Development Approval 305 Fitzgerald Street, WEST PERTH

Application to Retrospectively Amend Existing Development Approval

Retrospective development approval is sought to amend the existing approval for number 305 Fitzgerald Street, West Perth (Lot 4 on Deposited Plan 1602) issued by the City of Vincent on 04 June 2014 (Reference Number: PRO5938 5.2014.124.1) as follows.

1. Delete Condition 2 relating to the maximum number of employees.
2. Amend Condition 3 relating to the maximum number of clients to allow up to 20 clients.
3. Amend Condition 4 relating to the hours of operation to:
 - a. Allow the premises to operate from 05:30 to 20:00 Monday to Friday;
 - b. Allow the premises to operate from 07:00 to 17:00 on Saturday; and
 - c. Remove the requirement to have a 15-minute interval between classes.
4. Seek development approval for one toilet and end of trip facility.
5. Seek development approval for three signs on the Fitzgerald Street elevation:
 - a. One wall sign; and
 - b. Two awning signs.

The application proposes to install an additional layer of rubber mats which have 15mm thickness on top of the existing rubber mats to assist in vibration and noise attenuation.

Background

Subject Site and Context

The subject site is located at number 305 Fitzgerald Street, West Perth (Lot 4 on Deposited Plan 1602). The lot area is 355m² and the site is improved with an existing warehouse which has been converted into a contemporary fitness premises. The warehouse is approximately 219m² in size and has a net lettable area of approximately 205m².

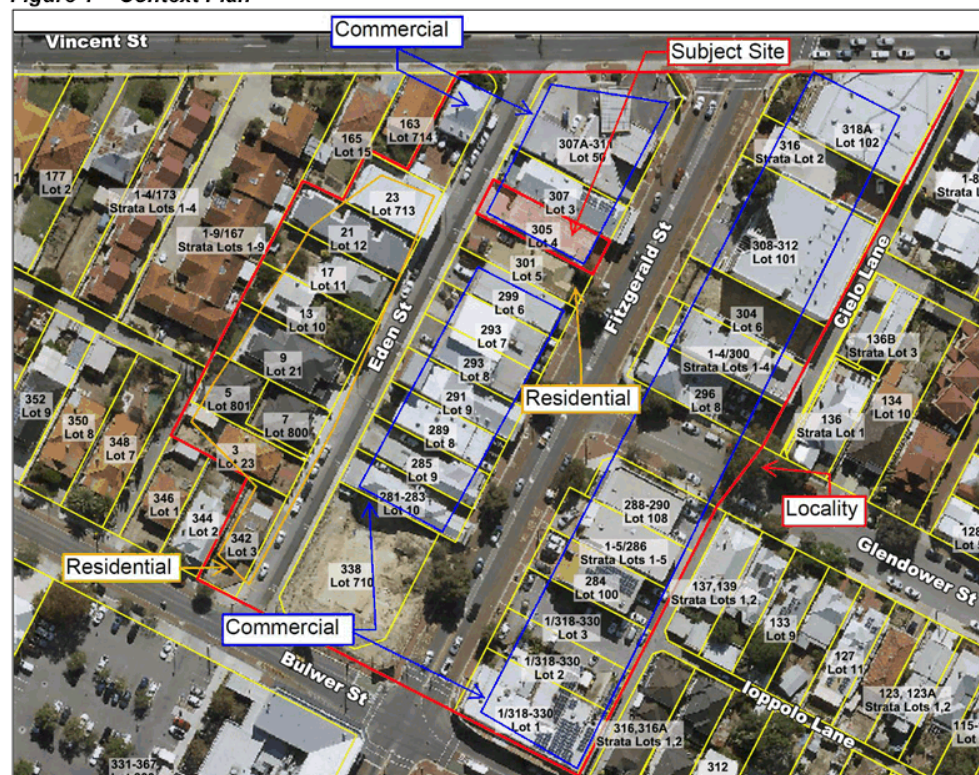

For this application, the locality is described as lots fronting Fitzgerald Street (between Vincent and Bulwer Streets) and lots fronting Eden Street (see **Figure 1**).

The subject site is bounded by Fitzgerald Street to the east and Eden Street to the west which provides vehicular access. The site abuts a shop/cafe to the north and a single dwelling to the south which has recently been converted from an office.

Application for Retrospective Development Approval 305 Fitzgerald Street, WEST PERTH

Figure 1 – Context Plan

Previous Approvals

The subject site was approved as a Recreation Facility by the City of Vincent Council at its 26 March 2013 Ordinary Council Meeting and an extract of the minutes is provided at **Attachment ***. An amended approval was issued by the City on 04 June 2014.

The subject site has been operating as a community fitness facility since approval and in April 2019, the facility was rebranded to Fibre Active.

Local Planning Strategy

The amended development application is consistent with the objectives of the City of Vincent Local Planning Strategy as follows.

Table 1 – Local Planning Strategy Objectives

<i>To promote and safeguard the health, safety and convenience and general welfare of the inhabitants of the City.</i>
The recreation facility provides an avenue for residents to improve physical and mental wellbeing through a community focussed and small-scale fitness operation.
<i>To recognise the historical development of the municipality and its contribution to the identity of the City's residential and commercial centres and associated sense of place</i>

Applicant Justification

Application for Retrospective Development Approval 305 Fitzgerald Street, WEST PERTH

The proposal maintains the existing warehouse and scale of development on Fitzgerald Street.
<i>To co-ordinate and ensure that development is carried out in an efficient and sustainable responsible manner that integrates consideration of economic, social and environmental goals and reduces the City's carbon footprint.</i>
The proposal seeks minimal changes to the building. A new shower is installed to assist with people commuting to and from work and the facility does not have air conditioning systems which require significant energy.
The health and well being of local members improve through training activities and local businesses are stimulated as active community members generally support local shops and businesses.
<i>Improve access into and around the district, and ensure safe and convenient movement of people, including pedestrians, cyclists, public transport users and motorists.</i>
The proposal includes a variety of methods for members to access the facility. Its small-scale community focus results in localised transport.
<i>To assist employment and economic growth by ensuring suitable planning provisions to support a variety retail, commercial, entertainment and tourism developments in key locations, to provide employment self-sufficiency and self-containment.</i>
Fibre Active is a small business which is family owned and operated. Members and coaches live and work in the local community and contribute to the local economic market.

Local Planning Scheme No. 2

Land Use

The applicable land use for the subject application is *Recreation – Private* under the City of Vincent Local Planning Scheme No. 2 (LPS 2) as follows.

recreation – private means premises that are – (a) used for indoor or outdoor leisure, recreation or sport; and (b) not usually open to the public without charge

The existing approval issued in June 2014 described the premises as *Recreational Facilities* which was the appropriate land use nomenclature in former Town Planning Scheme No. 1

recreational facilities means any land or building or part of a building used for: (a) public tennis courts; (b) public or private swimming pools; (c) squash courts or centres; (d) basketball centres; (e) gymnasias; (f) ice and roller skating rinks; (g) physical health studios; and (h) any other similar purpose; in respect of which a charge is made for the use thereof

The use of the premises is not proposed to change and remains consistent with the existing approved use.

Zoning

The subject site is zoned *Commercial* under LPS 2. Surrounding lots in the locality which have access to Fitzgerald Street are also zoned *Commercial*. The wider locality is characterised by medium to high density residential zoned land.

Fitzgerald and Bulwer streets are reserved as *Other Regional Roads* under the *Metropolitan Region Scheme* and are designated State Route 56 and 72, respectively. Other Regional

Applicant Justification

Application for Retrospective Development Approval 305 Fitzgerald Street, WEST PERTH

Roads provide a regional road network to accommodate current and future transport needs on roads and are designed to cater for significant traffic movement.

Figure 2 – Zoning Plan

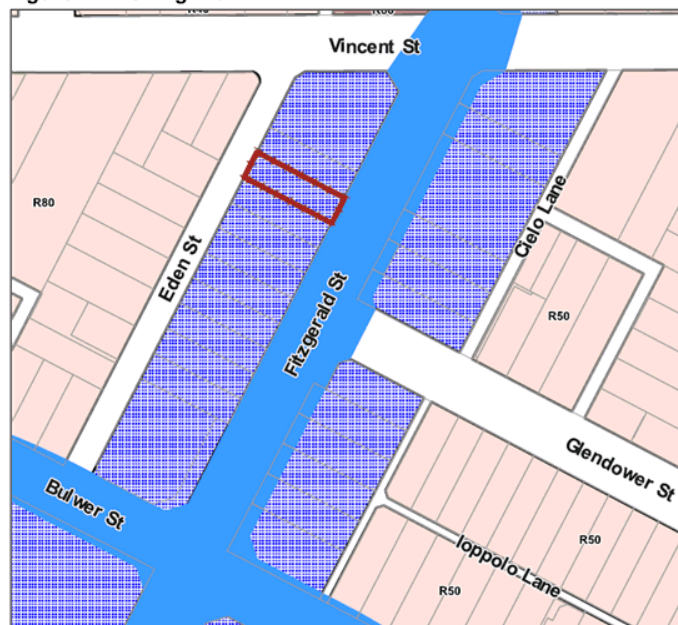

Table 2 - Local Planning Scheme 2 objectives for the Commercial zone

<i>To facilitate a wide range of compatible commercial uses that support sustainable economic development within the City.</i>
A recreation-private facility fits within the commercial context of the locality. The facility provides a positive contribution to nearby hospitality businesses as members regular frequent local shops around classes.
<i>To ensure development design incorporates sustainability principles, with particular regard to waste management and recycling and including but not limited to solar passive design, energy efficiency and water conservation.</i>
The works component of the development installed a shower which caters to members to change before/after a workout.
The facility does not have air conditioning and focuses on fans and the hydration of members to stay cool, and the workouts themselves are sufficient in warming up members during cooler weather.
<i>To maintain compatibility with the general streetscape, for all new buildings in terms of scale, height, style, materials, street alignment and design of facades.</i>
The built form of the building is not proposed to change and is representative of the varied commercial development in the area.
The signage proposed is generally relates to the facility and is generally consistent with signage for a recreation facility.

Applicant Justification

Application for Retrospective Development Approval 305 Fitzgerald Street, WEST PERTH

To ensure that development is not detrimental to the amenity of adjoining owners or residential properties in the locality.

The amendments proposed do not have additional impact on the amenity of the surrounding locality during day-time hours. Measures are proposed to limit any impact on surrounding residential land uses in the small time increase sought from 05:30-06:00 on weekday mornings.

Car and Bicycle Parking

Parking consideration is to be given due regard with Local Planning Policy 7.7.1 – *Non-Residential Development Parking Requirements* (LPP 7.7.1).

Table 1 of LPP 7.7.1 sets out the car parking requirements. The following considerations are applicable:

- The subject site is within an Activity Corridor as defined in LPP 7.7.1.
- The proposed land use is *Recreation – Private*.
- The total number of persons is 22 being made up of
 - The maximum number of clients for any one class is 20.
 - The maximum number of trainers for any one class is two.

The amount of parking required is detailed below.

- Short Term Bicycle Parking – 1 space required
 - $22 \text{ persons} \times 0.019 = 0.418$.
- Long Term Bicycle Parking – 1 space required
 - $22 \text{ persons} \times 0.042 = 0.924$.
- Car parking – 5 spaces required
 - $22 \text{ persons} \times 0.22 = 4.84$.

The subject site provides for three parking bays accessed from Eden Street and 4 bicycle parking bays accessed from Fitzgerald Street. A single unisex shower is provided as appropriate end of trip facilities and the reception desk provides for a secure place for staff members to store personal belongings. Storage spaces are provided in the facility for members to store personal belongings.

This leaves a shortfall of 2 car parking bays which has been addressed in the original approval considered by Council in March 2013.

The original approval by Council considered the proposal to have a 2.058 car bay shortfall (5.058 required and 3 provided) and imposed a cash-in-lieu condition accordingly requiring payment of \$7,203. This amount has been provided to the City who will have expended the funds to improve parking in the locality.

Class Limitation

Contemporary business requires flexibility and adaptability to effectively operate. Planning is must carefully consider these measures against the strategic intent of an area and the amenity of locality.

The current approval limits classes on Monday through to Friday between 06:00-09:00 and 17:00-20:00 and on Saturday between 07:00-12:00. The amended application seeks to allow class times between 05:30-20:00 Monday to Friday and 07:00-17:00 on Saturday.

Applicant Justification

Application for Retrospective Development Approval 305 Fitzgerald Street, WEST PERTH

The operation of a Recreation – Private facility is consistent with LPS 2 and the City's Local Planning Strategy with key matters addressed below.

Noise

The extension to allow operation from 05:30 will consider the following noise mitigation measures:

1. From 05:30-06:00 the roller door facing Eden Street will be closed.
2. No amplified music is to be played.
3. At the start of a class, coaches introduce the workout, and this normally takes around 5 minutes. Workouts include a warmup component which generally requires 10-15 minutes and set up of the workout can take up to 5 minutes. Considering this, any noise emission is likely to remain at low levels during the first part of class before increasing to medium levels inside the premises.

The extension of operating times during the day will not introduce any undue impacts on the commercial nature of the locality. When considering amenity, it is appropriate to consider the commercial nature of the locality and its proximity to its surroundings.

As detailed above, the locality is predominantly commercial in nature and is subject to high volumes of traffic given the other regional road reservation of the road network. It is not considered that additional classes during the day will unduly impact the amenity of the locality.

Access to classes

The premises provided the required cash-in-lieu contribution for parking. Notwithstanding, the additional classes retain the same limit on persons and additional parking is not required.

A parking management plan is provided at **Attachment *** and access to classes is summarised in **Table 3**.

Table 3 – Summary of access to classes

Time (current schedule)	Description	Access
Morning 05:30-06:30 06:30-07:30	Morning classes cater for members who schedule exercise before their working day.	While many members live close and walk/cycle to the gym, parking is generally available in the locality and parking demand is not at peak. On street parking is available on Fitzgerald Street, Eden Street, Bulwer Street, Glendower Street and other local streets.
Mid-Morning 09:00-10:00	Mid-morning classes cater for those with flexibility in the day and/or may be on holidays.	These classes have lower attendance and appropriate parking can generally be provided on site and on surrounding local streets.
Midday 13:00-14:00	Lunch time classes for nearby workers as a healthy break from the working day.	Members walk over from nearby businesses. Limited to no parking for members is required and can be accommodated onsite.

Applicant Justification

Application for Retrospective Development Approval 305 Fitzgerald Street, WEST PERTH

Evening 17:30-18:30 18:30-19:30	Evening classes for members who exercise after work.	<p>Evening classes generally have the highest amount of people using alternative modes of transport (walking/cycling/public transport) to attend classes. At this time of day, local businesses have generally finished work and there is less demand for on street parking.</p> <p>There is also less demand for parking around Hyde Park as daytime visitors return home.</p> <p>Sufficient parking is provided in surrounding streets as detailed above.</p>
--	--	---

Interval between classes

The existing approval requires an interval between classes which is understood to be based on car parking availability. This condition is not considered to be a valid planning condition and is requested to be deleted as follows.

A valid planning condition must:

- be imposed for a planning purpose;
- fairly and reasonably relate to the development for which permission is given; and
- be reasonable, that is, be a condition which a reasonable planning authority, properly advised, might impose.

Considering the above, the condition is not considered valid and applicable for the following reasons

- Purpose
 - The condition is not referenced to any relevant planning policy requiring an interval in land use activities for car parking change over.
 - An interval may serve the purpose of freeing up to three car parking bays on-site, however, as demonstrated in the parking management plan, sufficient parking in the locality exists.
 - The condition does not consider alternative modes of access and transport.
- Relevance
 - It is not considered there is a sufficient nexus between the relatively small-scale operation of the premises and availability of parking in the locality.
 - In general, the availability of parking is only usually impacted with large scale events at surrounding locations such as Hyde Park and Dorrien Gardens.
- Reasonableness
 - As sufficient parking exists, the interval period is considered unreasonable in the context of class scheduling and operation of the premises.

Car parking is generally provided to operate at near capacity, with users having an expectation that it may not be readily available. For example, members understand the time required to commute to the facility and plan appropriately.

Classes are not open to the public and must be reserved online, this provides certainty to the numbers attending a class and will not result in an unprecedented amount of people

Applicant Justification

Application for Retrospective Development Approval 305 Fitzgerald Street, WEST PERTH

attending the facility. Should members of the public seek to join, this is normally by appointment with a coach.

In considering other land uses and the inner-city nature of the locality, it is not appropriate to impose time restrictions on operations. For example, it would not be appropriate to limit the sales of a shop nearby to certain intervals to allowing car parking to regenerate.

Noise Attenuation

The City's Local Planning Policy 7.5.21 – *Sound Attenuation* includes guidelines for the preparation of acoustic reports in support of applications for development approval.

The preparation of an acoustic report is not required in this instance as follows.

1. The locality includes a mix of commercial and residential land uses near significant roads.
2. The proposed change in the operating schedule to allow daytime classes does not unduly impact on the amenity for commercial and residential land uses.
3. The change to allow classes to commence at 05:30 will have additional measures to minimise any noise as detailed earlier in this application.
4. The nearest residential land uses have been developed or converted to residential after the commencement of the operation of the recreation facility and are the agent of change in this instance. Such developments will have been required to be constructed to the appropriate Australian Standard.
5. It is not unreasonable to consider some level of noise in a commercial locality, and the recreation facility has arguably less impact on amenity compared to other commercial land uses which are permissible and which may rely on a high turnover of customers and delivery of goods.
6. The findings of an acoustic report are unlikely able to be implemented at a reasonable cost given the age of the building and of those in the locality.
7. The recreation facility has not been found to exceed relevant noise levels.

In considering the above, an Acoustic Report is not required for the subject application.

Signage

The City's Local Planning Policy 7.5.2 – *Signs and Advertising* (LPP 7.5.2) includes the considerations for signage.

The application proposes retrospective approval for three signs including one wall sign and two awning signs on the Fitzgerald Street wall elevation (**Table 4**). All signs include advertising for the subject premises.

The Fitzgerald Street wall elevation is approximately 59m² in size and is set back 5.2m from the street boundary.

Table 4 – Signage

Sign	Size (dimensions)	Percent of wall (59m ²)
Wall sign	3.6m ² (1.2m x 3m)	6.1%
Awning 1	2.4m ² (0.9m x 2.7m)	4.06%
Awning 2	2.4m ² (0.9m x 2.7m)	4.06%
Total	8.4m²	14.2%

Applicant Justification

Application for Retrospective Development Approval 305 Fitzgerald Street, WEST PERTH

The wall sign has a black background and measurement is taken from the full outline of the sign.

The two awning signs are minimalistic in nature, have a predominant white background which matches the wall facia and have simple black text. The sign measurements in Table 4 include the full dimensions of the awning signs and should the measurements be taken from the black text; the total signage will not exceed 10% of the total area of the building wall.

The signage is consistent with the City's LPP 7.5.2 and can be supported.

Applicant Noise Management Plan

Fibre Active West Perth Noise Management Plan

Date Updated – 26 October 2020

Purpose

The noise management plan has been prepared to assist Fibre Active in continuing to operate whilst maintaining appropriate noise and vibration levels to not unduly impact the amenity of the locality.

Administration

The following measures are introduced to ensure the noise management plan is appropriately implemented:

1. The noise management plan is provided to all coaches.
2. The noise management plan is provided to surrounding properties and the City of Vincent.
3. Tables 1 and 2 of the noise management plan is available at the reception desk in hard copy.
4. The noise management plan is reviewed and updated periodically as necessary.

Programming workouts

Workouts are programmed with a warm-up, discussion and strength building components which take from 15 minutes and up to 30 minutes. This allows for the portion of workouts with the most intense activity to commence from 06:00 during morning classes.

During the class briefing, coaches are to remind patrons of the need to keep noise levels reasonable and to use mats for weights.

Barbells and weights under control

Coaches are to instruct patrons at all times that barbells should only be dropped in a situation where the athlete cannot safely control a lift. There should be no unnecessary dropping of barbells.

Applicant Noise Management Plan

Use of Mats

The use of 40mm mats has been tested with neighbouring properties where owners and occupiers have generally agreed to their use.

The use of mats is for movements where there is a possibility that barbells may be dropped. At all times however, coaches instruct patrons to control barbells.

Mats will be required to supplement barbells in the following circumstances:

- Olympic/power lifting movements where the working weight is not a warm up, generally exceeding 60% of an athlete's 1 repetition maximum.

This requirement captures workouts and weightlifting that are strength based and not done on a timer for example. The purpose is to ensure a warm up can be done and mats are used when greater weight is added.

- Cardio workouts where the barbell weight is equal to or greater than:
 - When using a 15kg barbell, 25kg (two 5kg plates).
 - When using a 20kg barbell, 40kg (two 10kg plates).

This requirement captures cardio workouts where athletes perform various exercises. It is not limited to Olympic or power lifts. The weights included are the minimum weights where it is safe to drop a barbell.

- In both cases above, where the barbell weight has the potential to be dropped from over the shoulder (jerk, press movements for example) two mats are to be used.

Management and Coaching Staff Obligations

Coaches have been instructed to use only the keyboard volume control and to not use the equaliser controls for volume control.

In addition to that, coaches have been instructed to not use the equaliser controls as this can have an impact on the sound levels that have been mentioned in the testing.

A table of the Recommended Volume Control Levels will be printed out and pasted on the wall above the keyboard, control panels and the television to ensure that coaches have immediate reference to the volume control measures.

A meeting of the coaches will be held to ensure that all coaches will know, understand and cooperate with the set sound levels. An email will also be sent out to the coaches so that they have the appropriate material to refer to. All YouTube videos of testing will also be sent out to Coaches.

Recommended Volume Control

In order to satisfy the City of Vincent's Development application the following volume testing was conducted to determine the levels of music to be played at Fibre Active West Perth and recommended Volume Control Levels have been determined to satisfy our obligations for operating at the new proposed times with minimum noise impact to surrounding neighbours.

Applicant Noise Management Plan

The controls in place are:

- Noise Control to be controlled from the keyboard.
- All application volumes have been set to max on Spotify, Online Apps.
- Equaliser has been set to have the best sound quality on with minimum bass levels on.
- Song used for Testing: Prodigy – Firestarter.
- The Bar represents the on screen computer volume control of the iMac. This is the indicator of how loud the volume control is.

The following tests have been conducted to consider volume control.

Table 1 – Volume Control Testing

Level	Description of sound	Applicable times
0 Bar	Zero bar - Zero Noise 05:30 – 06:00	Mon-Fri 05:30 – 06:00
1-2 Bars	Audible Sound Low level sound inside premises <i>Use during warmup/workout</i>	
3 Bars	Audible Sound Above Talking Voice Low level sound inside premises <i>Use during warmup/workout</i>	
4-6 Bars	Audible Sound inside premises. Low level sound outside premises <i>Use during workout</i>	Mon-Fri 09:00 – 17:00 Sat 12:00 – 17:00
>7 Bars	Audible Sound becomes more distinct outside premises.	Not permitted.

The above recommended Volume Control Levels will be included in the updated Noise Management Plan poster that has already been posted on the wall under the television.

Mitigation Measures

The mitigation measures in Table 2 are to be implemented. The measures in Table 2 apply to classes should they be scheduled at the relevant time.

Contact

Fibre Active provides the following contact details to surrounding properties to assist with a quick response to noise mitigation – Bjorn Voon (0450 397 578).

Applicant Noise Management Plan

Table 2 – Mitigation measures as they relate to the increased operating hours

Time	Activity	Mitigation Measures
05:30 – 06:00	Amplified Music	No amplified music.
	Roller Door	Closed.
	Barbell	Weights under control (no unnecessary dropping).
	Voice levels	Controlled voice levels for coaches and members, no yelling.
09:00 – 17:00	Amplified Music	Reasonable level to allow coach to control class. Maximum volume level – 6 bars.
	Roller Door	Open as required.
	Barbell	Barbells not dropped and do not require additional mats. This is for low barbells and strict movements where no dropping is undertaken (for example warm-ups, strict movements, deadlifts etc.). Barbells dropped from shoulder height on 40mm thick mats. Barbells dropped from higher than shoulder height on two 40mm thick mats.
All times of operation	<ul style="list-style-type: none"> • Use bumper plates during heavy lifts. • Reminder that barbells should always be controlled where possible. Control to be demonstrated to coaches as required. • Coaches to consider noise during workouts to ensure reasonableness. • If patrons run on public roads, they are to be reminded to keep voice levels down. 	

Applicant's Parking Management Plan

APPENDIX 2 – PARKING MANAGEMENT PLAN FRAMEWORK

Owner/Applicant Details	
Name:	Bjorn Voon
Address:	<u>305 Fitzgerald Street</u> <u>West Perth, 6004</u>
Phone:	<u>0450397578</u>
Email:	hello@fibreactive.com.au
Applicant Signature:	<i>Bjorn Voon</i>

Property Details	
Lot Number:	<u>305 Fitzgerald Street</u> <u>West Perth, 6004</u>
Address:	<u>305 Fitzgerald Street</u> <u>West Perth, 6004</u>

Parking Allocation:

The following tables outline the parking available for the different users of this development application.

Parking Allocation	
Total Number Car Parking Spaces:	3
Total Number Short Term Bicycle Parking Spaces:	4

Applicant's Parking Management Plan

Development Type	Development Users	Parking Allocation			
		Type / Duration	No. Car spaces	No. Bicycle Spaces	No. Other Spaces
Short term accommodation and residence	No Staff	No Employees (> 3 hours)	1	1	-
	Customers	Visitor	2	3	-
	Other	Residence	-	-	-
	Other	Disabled	-	-	-

Alternative Transport:

The following table outlines the alternative transport options available to users of this development application.

Transport Option	Type & Level of Service
Public Transport	
Train	
Bus	There are bus stops in both directions on Fitzgerald Street. Bus numbers 60, 960 and 990 stop outside the gym and across the road. All buses are around 10 minutes apart on weekdays.
Paths	There are good accessible 5 foot walkways that are around the area.
Facilities	
Cycling	
Paths	City of Vincent is full of wide walk ways.

Page 2 of 4

Applicant's Parking Management Plan

Facilities	4 A bicycle rack has been installed in front of the venue and allows for 4 bicycles to be secured on.
Secure Bicycle Parking	Nil
Lockers	16 Cube Ikea Cubby hole cabinets has been included in the amenities of the building. These are enough for a wallet/mobile phone to be placed in one of the lockers.
Showers/Change Room	1

Figure 1: Designated Cycle Racks

Applicant's Parking Management Plan

Public Parking:

Identify the number of on street and off street public parking in the vicinity in the following table.

	No. Marked Spaces	Location	Parking Restrictions
On Street Parking	8	Fitzgerald Street (front of the gym)	No Stopping 4-6pm - Mon – Fri Mix of 1P and 3P (No signs)
Off Street Parking	76 15	Glendower Street (Half of Street before the Roundabout) Eden Street	Mix of 1P and 3P (No signs)

Parking Management Strategies

The parking management plan together with the strategies listed below are provided to assist guests in understanding the frequent modes of transport that are available in the Perth city and suburbs and for parking of vehicles and cycles on the subject property.:

1. The owner will be responsible for management, operation and maintenance of parking. Attached together with this is our own Parking Management Plan that has been communicated to Coaches, current members and also new members.
2. Car bays will be numbered and parking management and allocation will be advised to guests via on line booking and on check in.
3. There are no staff/employees. Owner and contractors will carry out cleaning and maintenance.
4. The parking management plan and instructions on check-in will be used to ensure efficient use of parking facilities; and
5. Bicycle, public transport and pedestrian modes of transport will be highly promoted to guests. The subject property is within close proximity to the Perth City and to Northbridge.

CITY OF VINCENT
MINUTES

9.1.5 No. 305 (Lot 4; D/P 1602) Fitzgerald Street, North Perth (Proposed Change of Use from Showroom/Warehouse to Recreational Facility (Crossfit Gym))

Ward:	South	Date:	15 March 2013
Precinct:	Hyde Park, P12	File Ref:	PRO5938; 5.2013.3.1
Attachments:	001 – Property Information Report and Development Application Plans 002 – Applicant Submission 003 – Applicant Submission to Council		
Tabled Items:	Nil		
Reporting Officer:	A Dyson, Planning Officer (Statutory)		
Responsible Officer:	C Eldridge, Director Planning Services		

OFFICER RECOMMENDATION:

That the Council;

in accordance with the provisions of the City of Vincent Town Planning Scheme No. 1 and the Metropolitan Region Scheme, **APPROVES** the application submitted by Platform Crossfit, on behalf of the owner, Jedan Holdings Pty Ltd, for Proposed Change of Use from Showroom/Warehouse to Recreational Facility (Crossfit Gym) at No. 305 (Lot 4; D/P: 1602) Fitzgerald Street, North Perth, and as shown on plans stamp-dated 3 January 2013 and amended plans stamp dated 16 January 2013, subject to the following conditions:

1. The maximum gross floor area of the recreational facility shall be limited to 205 square metres, as depicted on the plans;
2. The maximum total number of employees shall be limited to three (3) at any one time;
3. The maximum total number of clients shall be limited to eight (8) at any one time;
4. This approval is valid for a period of one (1) year after which time the applicant will be required to have obtained a further planning approval;
5. The hours of operation shall be limited to 6.00am to 9.00am and 5.00pm to 8.00pm Monday to Friday and 7.00am to 12.00pm Saturday, inclusive and accordingly, the classes shall be scheduled to allow a 15 minute interval between classes to enable sufficient time for patrons to arrive and leave the facility;
6. The doors, windows and adjacent floor areas fronting Fitzgerald Street shall maintain an active and interactive relationship with this street;
7. **WITHIN 28 DAYS OF THE ISSUE OF THE SUBJECT 'APPROVAL TO COMMENCE DEVELOPMENT', a detailed Parking Management Plan for the Recreational facility shall be submitted to and approved by the City. The Management Plan is to detail the following aspects:**
 - 7.1 **Operational Management - to minimise any potential impact on the surrounding locality from patrons parking at the premises and/or surrounding streets; and**

ORDINARY MEETING OF COUNCIL
26 MARCH 2013

55

CITY OF VINCENT

- 7.2 **Communications Strategy - outlining a complaint handling system which provides:**
- 7.2.1 a telephone number and email address to log complaints and enquiries;
- 7.2.2 a procedure how complaints will be handled and associated timeframes for responding to such complaints; and
- 7.2.3 a record of complaints and enquires logged, and the applicant's response, is to be provided on a 6 monthly basis to the City of Vincent for its information; and
8. **WITHIN TWENTY-EIGHT (28) DAYS OF THE ISSUE DATE OF THIS 'APPROVAL TO COMMENCE DEVELOPMENT', the owner(s) or the applicant on behalf of the owner(s) shall comply with the following requirements;**
- 8.1 **Cash in Lieu**
- Pay a cash-in-lieu contribution of \$7,203 for the equivalent value of 2.058 car parking spaces, based on the cost of \$3,500 per bay as set out in the City's 2012/2013 Budget; OR lodge an appropriate assurance bond/bank guarantee of a value of \$7,203 to the satisfaction of the City. This assurance bond/bank guarantee will only be released in the following circumstances:
- 8.1.1 To the City at the date of issue of the Building Permit for the development, or first occupation of the development, whichever occurs first; or
- 8.1.2 To the owner(s)/applicant following receipt by the City of a Statutory Declaration of the prescribed form endorsed by the owner(s)/applicant and stating that they will not proceed with the subject 'Approval to Commence Development'; or
- 8.1.3 To the owner(s)/applicant where the subject 'Approval to Commence Development' did not commence and subsequently expired; and
9. **PRIOR TO THE FIRST OCCUPATION OF THE DEVELOPMENT, the following shall be completed to the satisfaction of the City:**
- 9.1 **Car Parking**
- The car parking area(s) on the subject land shall be sealed, drained, paved and line marked in accordance with the approved plans prior to the first occupation of the development and maintained thereafter by the owner(s)/occupier(s) to the satisfaction of the City; and
10. **the development is to comply with all Building, Health, Engineering and Parks Services conditions and requirements to the satisfaction of the City's Chief Executive Officer.**

MINUTES OF MEETING HELD ON 26 MARCH 2013

(TO BE CONFIRMED ON 9 APRIL 2013)

ORDINARY MEETING OF COUNCIL
26 MARCH 2013

57

CITY OF VINCENT
MINUTES

The proposal is for a change of use from Showroom/Warehouse to a Recreational Facility (Cross fit Gym). The Cross fit gym is essentially a structured fitness class under the guidance of a coach. The activity consists of a combination of free weight exercises, skipping, rowing, plyometric and bodyweight movements conducted at high intensity.

The applicant proposes classes (which operate for 1 hour) to take place between 6-9 am and from 5 -8pm, from Monday to Friday and 7.00am – 12.00pm on Saturday. The maximum employees at any one time proposed will be three (3) persons, with one (1) receptionist and two (2) coaches and classes are proposed to be a maximum of eight (8) people.

The subject property is located adjoining commercial offices within close proximity to the Gull Petrol Station, Bikram Yoga; and residential dwellings are located to the rear.

Town Planning Scheme/Parking and Access Policy Detailed Assessment

Car Parking Calculation

Car Parking	
Car parking requirement (nearest whole number) Proposed Recreation (Internal) (1 car parking bay per 30 square metres of gross floor area – 205.16 square metres) – 6.839 car parking bays	= 7.0 car bays
Apply the adjustment factors. <ul style="list-style-type: none"> 0.85 (The proposed development is within 400 metres of a bus stop) 0.85 (The proposed development is within 400 metres of one or more existing public car parking place(s) with in excess of a total of 75 car parking spaces. 	(0.7225) = 5.058 car bays
Minus the car parking provided on-site	3.0 car bays
Minus the most recently approved on-site car parking shortfall	Nil car bays
Resultant Shortfall	2.058 car bays

If the proposal were to be supported a cash-in-lieu payment of \$7,203 would be required.

CONSULTATION/ADVERTISING:

Required by legislation:	Yes	Required by City of Vincent Policy:	Yes
--------------------------	-----	-------------------------------------	-----

Comments Period:	8 February 2013 – 21 February 2013
Comments Received:	Seven (7) comments were received during the neighbour consultation period with six (6) objections received and one (1) noting concern.

Summary of Comments Received:	Officers Technical Comment:
<p>Issue: Car Parking</p> <p>Note that car parking is a significant problem within the area.</p> <p>Note that there is limited parking for the site for a business of this type, with the tenants likely to occupy the available bays, leaving the clientele to park along Eden Street.</p> <p>Concern that an existing Recreational facility in the area along with other uses including the Service Station/Hyde Park Hotel/Office Building have created parking issues within the area and noted that many of the cars from these facilities park at the rear of the subject tenancy along Eden Street, further limiting parking in the area. Furthermore residential property owners find it difficult to park along Eden Street.</p>	<p>Noted. It is considered that parking within the area is at a premium, however the use provides for a minimal car parking shortfall on site of 2.058 car parking bays, which is not considered of a significant impact and can be accommodated by the utilisation of other transport options to the site. Within walking distance of the premises there is a public car parking as well as opportunities for public transport.</p> <p>Noted. There are three (3) proposed car parking bays for the operators and the clientele for the premises at the rear of the property. It is considered that during the peak hours of operation at 8.00am in the morning and before 6.00pm that parking will be at a premium in the vicinity. However all parking bays within the vicinity are able to be utilised by any of the businesses in the area, subject to time constraints, and the nature of the use is not considered.</p> <p>Noted. Whilst there are a number of other uses to the proposed use in the vicinity, it is considered this section of Fitzgerald Street is of a Commercial zoning and is designed to function as an active area to accommodate various businesses. A by product of this will inevitably be a high utilisation of persons using a vehicle to access the properties. It is therefore considered that any use of the subject premises as a recreational facility will require its clientele to find alternative transport solutions if adequate parking is not available at the different parts of the day the facility operates.</p>

ORDINARY MEETING OF COUNCIL
26 MARCH 2013

59

CITY OF VINCENT
MINUTES

Summary of Comments Received:	Officers Technical Comment:
Issue: Noise Concern regarding noise emanating from the gym.	Dismiss. It is considered that the subdued use of music for the premises is not considered unreasonable for a commercially zoned property. Any concerns relating to the level of noise can be considered according to the Environmental (Noise) Regulations 1997, which provide controls for the level of noise and by the City's Health Services.
Issue: Use Note the prevalence of other Gym and Pilates studios within close proximity to the proposed tenancy.	Dismiss. The City's Town Planning Scheme does not restrict/control the prevalence of a use.

Note: Submissions are considered and assessed by issue rather than by individual submitter for clarity.

The applicant has provided the following response to the objections:

The following are responses to the neighbours' concerns:

"1) Note the prevalence of other Gym and Pilates Studios within close proximity to the proposed tenancy."

"Cross Fit is not your usual gym; it is an instructor lead exercise class with limited class sizes. As far as we are aware there are presently no other Cross Fit Gyms in the City of Vincent. We hope to foster relationships with those businesses around us to refer clients to the Pilates/Yoga business to increase our clients' flexibility and core control as well as help promote local business with our members. In addition we hope to engage our residential neighbours with a 1 month free membership to help them improve their health and fitness."

"2) Note that car parking is a significant problem within the area."

3) Note the limited parking for the site for a business of this type, with the tenants likely to occupy the available bays, leaving the clientele to park along Eden Street.

4) Concern that an existing Recreational facility in the area along with other uses including the Service Station/Hyde Park Hotel/Office Building have created parking issues within the area and noted that many of the cars from these facilities park at the rear of the subject tenancy along Eden Street, further limiting parking in the area. Furthermore residential property owners find it difficult to park along Eden Street."

"We are aware that car parking is currently a problem in this area and that is why we will be asking our members to adhere to the following:

- 1) *If possible use public transport; there are multiple bus routes that stop outside the property that can take people to and from work/home.*
- 2) *Use a bike as a bike rack will be provided.*
- 3) *Prohibit member parking on Eden Street to prevent further congestion on this street.*
- 4) *Offer incentives to those that car pool and catch public transport."*

"4) Concern regarding noise emanating from the gym (music)."

"The purpose of the music in a work out is to help the gym members get through the work out, however this is not to the detriment of being able to hear the coach taking the class as it is imperative that they can be heard above the music for safety and technique correction. Therefore the music will be kept at level that will not cause a disturbance to our neighbours."

ORDINARY MEETING OF COUNCIL
26 MARCH 2013

Design Advisory Committee:

Referred to Design Advisory Committee: No

LEGAL/POLICY:

- City of Vincent Town Planning Scheme No. 1;
- Hyde Park Precinct Policy 3.1.12; and
- Planning and Access Policy 3.7.1.

RISK MANAGEMENT IMPLICATIONS:

Should the Council refuse the application for development approval, the applicant may have the right to have the decision reviewed in accordance with Part 14 of the *Planning and Development Act*.

STRATEGIC IMPLICATIONS:

The City's *Strategic Plan 2011-2016* states:

"Natural and Built Environment"

1.1 Improve and maintain the natural and built environment and infrastructure.

1.1.2 Enhance and maintain the character and heritage of the City."

SUSTAINABILITY IMPLICATIONS:

The City's *Strategic Plan 2011-2016* states:

"Encourage the incorporation of sustainable design principles and features in existing and new development within the City as standard practice."

The following tables outline the applicable sustainability issues for this proposal:

ENVIRONMENTAL	
Issue	Comment
More efficient use of the subject land by utilising an existing building rather than redeveloping the site. The adaptive re-use of this existing space has a lower environmental impact compared to constructing a new building for this purpose.	

SOCIAL	
Issue	Comment
The use of an indoor space for a recreation use will enhance the liveability of the area and provide opportunities for exercise. The proposal also provides for access to a wider range of services to the local community.	

ECONOMIC	
Issue	Comment
Employment opportunities for persons who work in the premises and short term employment opportunities for the fit out of the premises.	

FINANCIAL/BUDGET IMPLICATIONS:

Nil.

ORDINARY MEETING OF COUNCIL
26 MARCH 2013

61

CITY OF VINCENT
MINUTES

COMMENTS & CONCLUSION:

It is considered that the use of the former Warehouse/Showroom premises as a Recreational Facility for a Cross fit Gym would, given the zoning of the property (Commercial), be an appropriate use for the area. Any concerns relating to the existing parking or impact of the business on the area will be controlled by the conditions of approval allowing for a finite number of clients to the business (eight).

The proposed hours of business from 6.00am – 9.00am and 5.00pm to 8.00pm Monday to Friday and Saturdays from 7.00am – 12.00pm, are mainly outside the core business hours of other uses in the vicinity, which will assist in minimising any disruption by way of parking in the area. In addition a condition is recommended to provide intervals between the classes so that clientele can leave the premises prior to new classes commencing, alleviating parking build-up further.

In light of the above, it is recommended the application be supported subject to the conditions listed above.

MINUTES OF MEETING HELD ON 26 MARCH 2013

(TO BE CONFIRMED ON 9 APRIL 2013)

THIS IS NOT A BUILDING PERMIT

Fifth Schedule Clause 42
For Office Use Only
Serial No. 5.2014.124.1**CITY OF VINCENT TOWN PLANNING SCHEME
APPROVAL TO COMMENCE DEVELOPMENT**

LOT: 4 D/P: 1602

STRATA LOT NO.:

PROPERTY ADDRESS: No. 305 Fitzgerald Street, WEST PERTH

OWNER: Jedan Holdings Pty Ltd
C/- Ray White Commercial Perth
PO Box 700
SUBIACO WA 6904

Approval to commence development in accordance with the application for Town Planning Approval dated 11 March 2014, received 17 March 2014 for Proposed Change of Use Renewal from Warehouse to Recreational Facility and the attached plans stamp dated 17 March 2014 was GRANTED in accordance with the provisions of the City of Vincent Town Planning Scheme No. 1 and the Metropolitan Region Scheme, subject to the following conditions:

1. The maximum gross floor area of the recreational facility shall be limited to 205 square metres, as depicted on the plans;
2. The maximum total number of employees shall be limited to five (5) at any one time;
3. The maximum total number of clients shall be limited to fifteen (15) at any one time;
4. The hours of operation shall be limited to 6:00am to 9:00am and 5:00pm to 8:00pm Monday to Friday and 7:00am to 12:00pm Saturday, inclusive and accordingly, the classes shall be scheduled to allow a 15 minute interval between classes to enable sufficient time for patrons to arrive and leave the facility;
5. The doors, windows and adjacent floor areas fronting Fitzgerald Street shall maintain an active and interactive relationship with the street;
6. **WITHIN 28 DAYS OF THE ISSUE OF THE SUBJECT 'APPROVAL TO COMMENCE DEVELOPMENT'**, the owner(s) or the applicant on behalf of the owner(s) shall comply with the following requirements:
 - 6.1 Bicycle Bays
One (1) Class 1 or 2 and Two (2) Class 3 bicycle bays shall be provided. Bicycle bays must be provided at a location convenient to the entrance, publically accessible and within the development and bicycle bays for the clients and employees must be located within the development. The bicycle facilities shall be designed in accordance with AS2890.3.
7. The development is to comply with all Building, Health and Engineering and Parks Services conditions and requirements to the satisfaction of the City's Chief Executive Officer.

- 3 -

ADVICE NOTES:

1. All external fixtures, such as television antennas (of a non-standard type), radio and other antennas, satellite dishes, external hot water heaters, air conditioners, and the like, shall not be visible from the street(s), are designed integrally with the building, and be located so as not to be visually obtrusive from Fitzgerald Street and Eden Street.
2. Any new street/front wall, fence and gate within the Fitzgerald Street setback areas, including along the side boundaries within these street setback areas, shall comply with the City's Policy provisions relating to Street Walls and Fences.
3. All signage that does not comply with the City's Policy No. 7.5.2 relating to Signs and Advertising shall be subject to a separate Planning Application, and all signage shall be subject to a separate Building Permit application, being submitted to and approved by the City prior to the erection of the signage.

NOTES:

THE RELEVANT ENVIRONMENTAL HEALTH, ENGINEERING AND BUILDING REQUIREMENTS APPLICABLE TO THIS DEVELOPMENT IS CONTAINED IN THE ATTACHMENTS.

PLEASE NOTE THAT ANY ADDITIONAL PROPERTY NUMBERING TO THE ABOVEMENTIONED ADDRESS, WHICH IS RESULTANT FROM THIS APPLICATION, IS TO BE ALLOCATED BY THE CITY OF VINCENT AND NO OTHER PARTIES. IT IS RECOMMENDED THAT YOU LIAISE WITH THE CITY'S PLANNING SECTION ON THE ABOVE MATTER, DURING THE BUILDING PERMIT ISSUE STAGE.

PERSON(S), OWNER(S), BUILDER(S) AND DEVELOPER(S) UNDERTAKING DEVELOPMENT/CONSTRUCTION OF ANY KIND ARE HEREBY ADVISED OF A RESPONSIBILITY TO COMPLY WITH THE REQUIREMENTS OF THE DISABILITY DISCRIMINATION ACT 1992. FOR FURTHER INFORMATION ON THIS ACT, ENQUIRIES SHOULD BE DIRECTED TO THE DISABILITY SERVICES COMMISSION ON TELEPHONE NUMBER (08) 9426 9200.

SHOULD THE APPLICANT BE AGGRIEVED BY THE DECISION A RIGHT OF APPEAL MAY EXIST UNDER THE PROVISIONS OF THE TOWN PLANNING SCHEME OR THE METROPOLITAN REGION SCHEME.

This approval is valid for a period of TWO years only. If the development is not substantially commenced within this period, a fresh approval must be obtained before commencing or continuing the development.

DATE OF DECISION: 4 June 2014

ENGINEERING SPECIFIC REQUIREMENTS

The following requirements are also applicable to the above development, in addition to the planning conditions contained in the attached Approval to Commence Development Serial No. 5.2014.124.1:

- (1) The car parking area(s) which form part of this approval shall be sealed, drained, paved and line marked in accordance with the approved plans prior to the first occupation of the development and maintained thereafter by the owner/occupier to the satisfaction of the City.
- (2) **A Road and Verge security bond for the sum of \$850** shall be lodged with the City by the applicant, prior to the issue of a building permit, and will be held until all building/development works have been completed and any disturbance of, or damage to the City's infrastructure, including verge trees, has been repaired/reinstated to the satisfaction of the City's Technical Services Directorate. An application for the refund of the security bond shall be made in writing. The bond is non-transferable.
- (3) All pedestrian access and vehicle driveway/crossover levels shall match into existing verge, footpath and Road levels to the satisfaction of the City's Technical Services Directorate.
- (4) The movement of all path users, with or without disabilities, within the road reserve, shall not be impeded in any way during the course of the building works. This area shall be maintained in a safe and trafficable condition and a continuous path of travel (minimum width 1.5m) shall be maintained for all users **at all times** during construction works. If the safety of the path is compromised resulting from either construction damage or as a result of a temporary obstruction appropriate warning signs (in accordance with AS1742.3) shall be erected. Should a continuous path not be able to be maintained, an 'approved' temporary pedestrian facility suitable for all path users shall be put in place. If a request to erect scaffolding, site fencing etc or if building materials is required to be stored within the road reserve once a formal request has been received, the matter will be assessed by the City and if considered appropriate a permit shall be issued by the City's Ranger Services Section. No permit will be issued if the proposed encroachment into the road reserve is deemed to be inappropriate.
- (5) All storm water produced on the subject land shall be retained on site, by suitable means to the full satisfaction of the City's Technical Services Directorate.
- (6) The City accepts no liability for the relocation of any public utility and/or any other services that may be required as a consequence of this development. The applicant/owner shall ensure that the location of all services is identified prior to submitting an application for a building permit. The cost of relocating any services shall be borne by the applicant/owner.
- (7) A bin store is required to be provided, of sufficient size to accommodate the City's maximum bin requirement, as assessed by the City's Technical Services Directorate.
- (8) Standard 'Visual Truncations', in accordance with the City's Policy 2.2.6 and/or to the satisfaction of the City's Technical Services Directorate are to be provided at the intersection of the road reserve or Right of Way boundary, and all internal vehicle access points to ensure that the safety of pedestrians and other road users is not compromised. Details of all required visual truncations shall be included on the building permit application working drawings.

- 5 -

ENVIRONMENTAL HEALTH SPECIFIC REQUIREMENTS

The following requirements are also applicable to the above development, in addition to the planning conditions contained in the attached Approval to Commence Development Serial No. 5.2014.124.1:

- (1) The proposed development is satisfactory to the Health Services subject to compliance with the following legislation (as amended)-
 - Health Act 1911 (as amended);
 - Local Government Act 1995;
 - Occupational Safety and Health Act/Regulations (dust control, safe work practices – governed by Worksafe WA);
 - City of Vincent Health Local Law 2004;
 - Metropolitan Water Supply, Sewerage & Drainage Board Local Laws 1981;
 - Food Act 2008;
 - FSANZ Food Standards Code;
 - Liquor Control Act 1988;
 - Tobacco Control Act (provision of break-out areas);
 - Health Act (Carbon Monoxide) Regulations;
 - Environmental Protection Act 1986 (Noise and Unauthorised Discharge Emissions);
 - Sewerage (Lighting, Ventilation and Construction) Regulations 1971;
 - Health (Treatment of Sewage and Disposal of Effluent and Liquid Waste) Regulations 1974; and
 - Health (Temporary Sanitary Provisions) Regulations 1997.
- (2) *Should an Applicant be dissatisfied with a particular health services condition/s, a written submission detailing reason/s or alternative proposal can be made to the Manager Health Services as soon as practicable but within 14 days of the date of the Building Licence. Such a submission shall not operate as a stay of the condition/s but the submission will be considered and a written decision will be provided within a reasonable period of time - normally within 14 days after receipt.*
- (3) Health Services to be advised upon alterations during construction being proposed and upon completion of construction so that a preliminary and final inspection can be arranged accordingly.
- (4) If it is intended to use the premises as a "public building" as defined in Section 173 of the *Health Act 1911* (as amended) it is necessary to make application for a Certificate of Approval - Maximum Accommodation Notice from the City's Health Services before commencing use of the building as a "public building". A completed **Form 1** application is to be submitted, along with the designated fee – contact the City's Health Services on 9273 6000 for further details.
- (5) An authorised licensed electrical contractor is to certify that all electrical work of the public building conforms to the relevant provisions of the *Health (Public Buildings) Regulations 1992* (as amended), and the *Electricity (Licensing) Regulations 1991*. Certification is to be submitted in the form of a **Form 5** application/certificate of approval – contact the City's Health Services on 9273 6533 for further details.
- (6) A copy of the City of Vincent Health Services publication entitled- "Public Buildings - Guidelines for Owners, Architects & Builders" can be obtained from the City's Health Services on 9273 6533 or via email-mail@vincent.wa.gov.au.

- 6 -

- (7) Adequate enclosing wall or guard rails shall be provided around the edges of raised or tiered seating and at any change in level which may present a hazard to the public.
- Steps and landings shall be provided with hand rails on each side that is not stepped unless the City of Vincent otherwise approves.
- (8) All public building exits shall be marked with a sign that conforms to AS/NZS 2293.
Exit signs shall be provided as follows:
- (a) Every doorway used as an exit and every passage leading to an exit to be provided with an approved illuminated exit sign placed conspicuously over the doorway or passage;
 - (b) An exit sign that obtains its illumination from a battery charge, battery source or an electrical supply is to be illuminated while the premises are open to or occupied by the public.
 - (c) An illuminated exit sign shall be visible from all floor locations within a public building; and
 - (d) Approved illuminated directional exit signs to be provided in those portions of the public building where the emergency exits are not clearly visible to the public.
- (9) Provide a notice on the external side of any emergency exit which abuts a road, thoroughfare, passageway, lane or right-of-way bearing the words "Emergency Exit" in letters not less than 100mm high and 12mm wide.
- (10) Emergency lighting shall be provided in a public building in accordance with the BCA and AS/NZS 2293 "Emergency Evacuation Lighting in Buildings".
- (11) The premises are to be equipped with lights sufficient to illuminate the exterior exits and passages leading to public thoroughfares. Such lights are to-
- (a) have a minimum horizontal illuminance of one (1) lux;
 - (b) be illuminated at all times when the premises are open to the public.
- (12) Every classroom, lecture theatre, drawing room, laboratory, manual training room, assembly hall or any other teaching area shall be provided with an artificial lighting system capable of providing the illumination recommended in relation to such an area under Australian Standard 1680 "Code of Practice for Interior Lighting and the Visual Environment". Luminaries in gymnasiums, recreation facilities shall be so designed and placed to provide protection against damage from normal activities in such an area.
- (13) All exit doors, barriers and gates in a public building are to open outwards, in the direction of egress, except where automatic sliding doors are provided. Sliding doors shall only be provided where the building can accommodate no more than 50 persons. Sliding doors shall be provided with a manual override button in case of electronic failure. A building with only 1 designated exit shall accommodate no more than 50 persons.
- (14) Except where sliding exit doors are provided exit doors in any public building that is intended to accommodate less than 400 persons shall be fitted with-
- spagnolette central handle bolts;
 - automatic panic bolts; and
 - strap bolts.
- (15) Separate dressing rooms, water closets and hand wash basins to be provided for both male and female performers.

- 7 -

- (16) An electric fan, other than ceiling fans, in any area of a public building to which members of the public have access shall be installed in a permanent position and so that the blades of the fan are-
- not less than 2000mm above floor level; and
 - protected by a robust guard
- (17) A ceiling fan in a public building shall be installed so that the blades are not less than 2400mm above the floor level unless the blades are protected by guards that prevent accidental contact with them.
- (18) Heating devices to be as follows:
- (a) Radiant electrical heater provided in a public area of a public building shall be installed in a fixed position. Every part of the heating element is to be not less than 2100mm from the level of the floor and not less than 600 mm from any ceiling that is made of a combustible material.
- (b) Any oil, fuel or electrical fan type heater shall be fitted with over temperature protection.
- (19) An electricity generator in a public building shall be placed under the control of a competent person;
- (a) Any room in which an electricity generator is installed shall not be used for the storage of combustible materials other than those directly required for the generator;
- (b) The fuel facilities for an electricity generator shall conform to the requirements of Australian Standard AS1940 - "Storage and Handling of Flammable and Combustible Liquids" unless otherwise provided by a written law;
- (c) Any room holding an electricity generator shall be ventilated so that-
- exhaust gases of the plant are conducted to outside air in such a manner as to prevent contamination of any air intake systems of the public building; and
 - explosive concentration of gas or vapour or both cannot occur.
- (d) Where ventilation for a room housing an electricity generator is provided by mechanical means the ventilator shall not be turned off while the electricity generator is operating.
- (e)
- (20) The applicant to provide Certification from the Mechanical Services Consultant or Installation Contractor that the mechanical services, as installed, will ventilate the premises in accordance with Regulation 4 of the *Health (Public Buildings) Regulations 1992* (as amended).
- (21) An Emergency Evacuation plan to be prepared and submitted and endorsed by the Fire Emergency Services Association (FESA) and the City's Health Services prior to opening the premises. The plan is to comply with Australian Standard 3745-1995 - "Emergency Control Organisation and Procedures for Buildings."
- (22) As the public building or place or part of a public building may assemble 5000 people or more a Risk Management Plan is to be developed in accordance with AS/NZS 4360. Furthermore the occupier of the public building shall ensure continual compliance with the Risk Management Plan.
- (23) Applicant must contact the City's Health Services within 28 days from date of Planning Approval to apply for the Registration of the Premises as a Public Building in accordance with the *Health (Public Buildings) Regulations 1992*.

- 8 -

Advisory Notes

- (1) Detailed plans and specifications of the public building to be submitted to the City's Health Services for approval prior to any construction or alterations. The plans to include details of –
- (a) Location of approved exit signs in the Building over all designated exits, directional exit signs where necessary and emergency lighting in accordance with the Building Code of Australia and Australian/New Zealand Standard 2293 – Emergency Evacuation Lighting in Buildings.
 - (b) Areas where normal lighting is dimmed or extinguished shall be provided with permanent effective safety lighting for –
 - Foyers and passages;
 - Floors that are ramped at an inclination steeper than 1 in 12;
 - Main aisles between blocks of fixed seats; and
 - The tread of each step;
 - (c) Provision of approved exit door locks/fittings and the directions in which doors swing (to be in the direction of egress).
 - (d) Provision of hand rails to steps, stairways and any other changes in floor level, which may present a hazard to the public
 - (e) Decorative treatments in the building that are not referred to in the BCA shall be made of non-toxic, fire retardant materials
 - (f) Public Building application incur a fee to vary, alter, construct or amend a Public Building. Contact the City's Health Services to obtain and complete a **Form 1** application, along with payment of the designated fee. Public Building applications will not be progressed until a Form 1 application has been received.
- (2) The applicant to advise of required maximum accommodation numbers (number of patrons permitted at the premises at any one time) for the proposed public building prior to Planning Approval being granted. The factors restricting the maximum accommodation number are as follows;
- Floor Area (calculated at 1 person per 0.85 square metres), in accordance with the *Health (Public Building) Regulations 1992*;
 - Sanitary Provisions (WC's, Hand basins and Urinals), in accordance with the *Health (Public Building) Regulations 1992*;
 - Exit width and designated exit provisions in accordance with the *Health (Public Building) Regulations 1992*;
 - Parking provisions under the City's Town Planning Scheme, No.1 (calculated at 1 person per 1.0 square metre).

NOTE: Due to the discrepancy that exists between the *Health (Public Building) Regulations 1992* (a) 1 person per 0.85 square metres, and the City's Town Planning Scheme No. 1; (b) 1 person 1.0 square metre; CARE must be taken in arriving at, and stipulating the required maximum accommodation number for the premises in your application. E.g. for a premises with a publicly accessible floor area of 500 square metres the maximum accommodation number would be calculated as **575** persons, in accordance with the *Health (Public Building) Regulations 1992*, but only **500** persons in accordance with the City's Town Planning Scheme No. 1. The application needs to be cognisant of the limiting factor (planning requirements) when establishing maximum numbers.

- 9 -

BUILDING SPECIFIC REQUIREMENTS

The following requirements are also applicable to the above development, in addition to the planning conditions contained in the attached Approval to Commence Development Serial No. 5.2014.124.1:

A Person must not do building work unless a Building Permit is in effect for the building work or in accordance with the Building Act 2011 Part 2, Division 1, s9.

The Applicant shall ensure that all works necessary or reasonable to, or resulting from those proposed building works, are carried out in accordance with the valid Building Permit and attached conditions of both the Planning Approval and the Building Permit.

Summary of Submissions:

The tables below summarise the comments received during the advertising period of the proposal, together with the Administration's response to each comment.

Comments Received in Support:	Administration Comment:
<ul style="list-style-type: none"> • Support for the amended operating times. The range in operating times proposed allows for greater flexibility/work life balance for the surrounding residents nearby and members from other areas. The proposal to allow members to train at 5:30am before works is crucial as some residents cannot go to the gym after work; • The gym will lose a number of members if they cannot train at 5:30am; • The midday classes allow office workers a break during the day and a stress relief; • The gym is part of the community and is a social hub and support network for many people providing them with a way to be healthy and fit, both mentally and physically; • The gym has actively been reducing the noise impacts to the surrounding properties including providing thick rubber mats to prevent barbells from making noise when they are dropped and playing no/soft music in the mornings; • Since complaints were received, the coaches and members have been very considerate of noise levels by following the noise management plan to ensure neighbouring residents are not impacted. Members would continue to do this to ensure the gym can still operate; • The gym is located in appropriately zoned commercial strip on a major arterial road, being exactly the kind of location the City should be encouraging for this kind of use. Fitzgerald Street is not a residential area and shouldn't be treated like one - this is a great thriving business that the community should support and prioritise; • Local cafes and businesses benefit from the gym especially on the weekends due to the social aspect of the gym; • The gym is a specialist training centre not seen anywhere else in the surrounding area; • Given that there is a 24 hour service station just two doors down and a yoga studio across the road starting classes at 5:45am and their last class finishes at 9:00pm, the requested variation is consistent with other local businesses nearby; • Never had issues with parking around the gym. Parking near Hyde Park provides additional parking when there is none at the gym. The gym is very conveniently placed with plenty of places to park for free; • Most members walk, cycle or use public transport as they live close or they come from work in the City; 	<p>Comments received in support are noted by Administration.</p>

Summary of Submissions:

Comments Received in Support:	Administration Comment:
<ul style="list-style-type: none"> • Small businesses in the area benefit from the gym (restaurants, cafes, shops, service stations etc). In the post COVID times we must support small businesses where we have the power to do so. Being seen to be doing otherwise is harmful and damaging; • The use is supported by surrounding businesses including Munro's and Circles which frequent the gym; and • Would prefer there not be a 15-minute gap between classes as it would prevent the members from socialising between classes. Members have a bit of chat / catch-up with the people in the previous class. Having the classes directly flow on from each other allows more socialisation and makes the gym more of a community. 	
Comments Received in Objection:	Administration Comment:
<ul style="list-style-type: none"> • Concerns in relation to excessive noise and vibration as a result of weights being dropped and the impact on adjoining properties; • Neighbours have attempted to resolve previous noise complaints with no assistance from the gym owners; • Noise issues have been ongoing since 2014; • A number of tenants at adjoining properties have been lost over the years as a result of the noise and vibration emanating from the gym. This results in loss of rent due to the need to terminate leases; • The Noise Management Plan suggests that 40mm mats are suitable to contain the noise and vibration of heavy weights being dropped from shoulder height and 2 x 40mm mats is suitable to absorb the impact from above head height. The impact of this proposed solution needs to be proven with a controlled demonstration, witnessed by the City in each of the adjoining properties that have expressed concern before the Management Plan should be agreed; • The applicant's submission in relation to the Local Planning Strategy Objectives is misleading in a number of ways. <ul style="list-style-type: none"> - The decision not to alter the existing building has had a detrimental impact on the noise and vibration abatement for the current use and this has been evidenced by ongoing complaints to the current and previous owner / operator of the business. This is not a plus- it is just evidence of the operator avoiding making appropriate modifications to suit the intended occupancy; - The Objectives highlight that the business should be self-contained, which it is not. The business frequently instructs its clients to run laps around Fitzgerald & Eden Streets which has an impact on the local amenity and a sense of the locality being dominated by this one business; 	<p>Following the community consultation period the Applicant submitted an amended Noise Management Plan to address concerns raised by the community consultation submissions as well as the City's concerns.</p> <p>The proposed Noise Management Plan is included in Attachment 3 and proposes the following measures:</p> <ul style="list-style-type: none"> • The use of rubber mats when certain weights may be dropped. The use of mats are for movements where there is a possibility that barbells may be dropped. Administration staff have attended the site and confirmed the use of these mats; • Requirements for barbells and weights to be under control. The noise management plan states the only time weights will be dropped is when a person cannot safely control the weight; • Implementation of volume control levels for different times of the day; • Noise mitigation measures for amplified music, voice levels and the opening of roller door for different parts of the day; • Contact details of the Gym owner provided to all surrounding properties to assist in quick response to noise matters; and • If patrons run on public roads, they are reminded to keep voice levels down. <p>In addition to the Noise Management Plan measures proposed, the use would still be required to comply with the <i>Environmental Protection (Noise) Regulations 1997</i> at all times.</p> <p>Administration consider the proposed noise management strategies will go some way to mitigating the impact of activities from the Gym, so long as the</p>

	restrict operating hours for gyms. The <i>Environmental Protection (Noise) Regulations 1997</i> also do not restrict construction work.
<u>Patron Numbers</u> The premises is not large enough to take the proposed additional 5 patrons and 5 trainers.	In terms of car parking, the development does not result in a further shortfall to the previously approved parking shortfall as a result from the increase in client numbers. After seven years of operation, the Gym has demonstrated that the parking for the use does not have a detrimental impact on traffic or parking for residents or business in the area. The City has not received any complaints relating to car parking since the use commenced operation. Public Building requirements also do not prohibit the occupancy numbers proposed.

Note: Submissions are considered and assessed by issue rather than by individual submitter.

Summary of Submissions:

The tables below summarise the comments received during the advertising period of the proposal, together with the Applicant's response to each comment.

Comments Received in Objection:	Applicant Comment:
<p>Issue: Noise & Vibration</p> <ul style="list-style-type: none"> Concerns in relation to excessive noise and vibration as a result of weights being dropped and the impact on adjoining properties Neighbours have attempted to resolve previous noise complaints with no assistance from the gym owners Noise issues have been ongoing since 2014 A number of tenants at adjoining properties have been lost over the years as a result of the noise and vibration emanating from the gym. This results in loss of rent due to the need to terminate leases The Noise Management Plan suggests that 40mm mats are suitable to contain the noise and vibration of heavy weights being dropped from shoulder height and 2 x 40mm mats is suitable to absorb the impact from above head height. The impact of this proposed solution needs to be proven with a controlled demonstration, witnessed by the City in each of the adjoining properties that have expressed concern before the Management Plan should be agreed The applicant's submission in relation to the Local Planning Strategy Objectives is misleading in a number of ways. <ul style="list-style-type: none"> The decision not to alter the existing building has had a detrimental impact on the noise and vibration abatement for the current use and this has been evidenced by ongoing complaints to the current and previous owner / operator of the business. This is not a plus- it is just evidence of the operator avoiding making appropriate modifications to suit the intended occupancy. The Objectives highlight that the business should be self-contained, which it is not. The business frequently instructs its clients to run laps around Fitzgerald & Eden Streets which has an impact on the local amenity and a sense of the locality being dominated by this one business. The health benefits of gym attendance are not disputed, but the health impact of the constant noise and vibration issues from this business should also be acknowledged as they are detrimental to the health and wellbeing of the surrounding occupants and / or land owners. The fact that there have been consistent noise complaints from all adjoining occupiers - including across the road on Eden Street - over many years, indicates that despite being located adjacent to one of the busiest roads in the locality, the business has been 	<ul style="list-style-type: none"> The updated Noise Management Plan addresses noise and vibration mitigation measures. Fibre Active has worked with neighbours recently to address noise concerns and developed a solution which was agreed to by neighbouring properties. There is no evidence to demonstrate non-compliance with the Noise Regulations since 2014 when the land use was approved by Council. There is no evidence to suggest that vacant tenancies are as a result of Fibre Active. Tenancy vacancy is a common issue across Perth. Fibre Active worked proactively to help the neighbouring property fill a commercial tenancy and has a good relationship with this business. The use of 40mm mats was tested with neighbouring owners and occupiers. This was considered acceptable to both parties. It is not accepted that the assessment with the Local Planning Strategy objectives is misleading or incorrect: <ul style="list-style-type: none"> The existing land use has been approved by Council. It is not reasonable to alter a building for the nature of changes proposed. The operator has not been found to exceed noise levels for commercial land uses in the relevant legislation. The locality being dominated by a business is not a relevant planning consideration. Moreover, this would suggest that vehicles and people visiting other businesses could dominate a locality? The public footpaths are used by patrons of the premises, other businesses including other gyms. People running is not considered to impact amenity. Other businesses attract people in vans, trucks and personal vehicles. The noise management plan implements measures to mitigate noise and vibration. Noise testing by the City of Vincent has confirmed the premises is within prescribed levels for commercial land uses. Some local businesses have moved into the area after the approved land use for the premises and are able to implement their own measures for increased sound abatement. The noise management plan considers mitigation measures for noise and vibration. Point 5 relates to the understanding that there is some level of noise associated with commercial land uses which cannot be refuted.

Why should a gym be any different The instructors train patrols up and down the rear laneway, creating noise and safety issues for other road users. 	<ul style="list-style-type: none"> The Noise Management Plan considers acceptable noise and the operation of the roller door to ensure acceptable noise levels. The Noise Management Plan is aligned to and includes measures to consider the prescribed levels applicable to commercial land uses. Construction work can commence before 07:00 on approval. The Noise Management Plan considers the use of road reserves. The proposal does not consider using public roads and this is not relevant to the subject application.
<p>Issue: Operating hours</p> <ul style="list-style-type: none"> Do not support the extended operating hours due to the noise impacts associated with the gym as detailed above 	<ul style="list-style-type: none"> The updated Noise Management Plan addresses noise impacts. The additional 30minutes of training in the morning will be used for warm up before main workouts commence at the already approved time of 06:00.
<p>Issue: Patron numbers</p> <ul style="list-style-type: none"> The premises is not large enough to take the proposed additional 5 patrons and 5 trainers 	<ul style="list-style-type: none"> The premises does not seek to have additional trainers. The use of the premises and number of patrons is appropriate in the context of the planning framework (parking) and health considerations for buildings.

Note: Submissions are considered and assessed by issue rather than by individual submitter.

Determination Advice Notes:

1. This is a development approval issued under the City of Vincent Local Planning Scheme No. 2 and the Metropolitan Region Scheme only. It is not a building permit or an approval to commence or carry out development under any other law. It is the responsibility of the applicant/owner to obtain any other necessary approvals and to commence and carry out development in accordance with all other laws.
2. If an applicant or owner is aggrieved by this determination there is a right of review by the State Administrative Tribunal in accordance with the *Planning and Development Act 2005* Part 14. An application must be made within 28 days of the determination.
3. Any noise created at the premises must ensure compliance with the provisions within the *Environmental Protection (Noise) Regulations 1997*.

9.3	NOS. 103-105 (LOT: 38; D/P: 28) SUMMERS STREET, PERTH - PROPOSED CHILD CARE PREMISES (AMENDMENT TO APPROVED)

RECOMMENDATION:

That Council, in accordance with the provisions of the City of Vincent Local Planning Scheme No. 2 and the Metropolitan Region Scheme, **APPROVES** the application for Change of Use to Child Care Premises (Amendment to Approved) at Nos. 103-105 (Lot: 38; D/P: 28) Summers Street, Perth, in accordance with the plans shown in Attachment 3 dated 5 October 2020, subject to the following:

1. All conditions and advice notes detailed on development approval 5.2015.586.1 granted on 20 September 2016 continue to apply to this approval, except as follows:

1.1 Condition 1 is amended to read as follows:

1.1 A maximum of 63 children and 15 staff are permitted on site at any one time;

1.2 The Child Care Premises shall only operate between:

- Monday to Friday: 7:00am – 6:30pm; and
- Closed Saturday, Sunday and Public Holidays.

PURPOSE OF REPORT:

To consider an application for an amendment to a previous approval for a change of use from Grouped Dwelling to Community Use (Day Care Centre) at Nos. 103-105 Summers Street, Perth (the subject site).

PROPOSAL:

The application proposes to increase the number of children from the previously approved maximum of 60 to 63. The application does not propose any modifications to the existing building which require further development approval. The proposed development plans are included as **Attachment 3**.

The applicant has sought an increase to the number of permitted children due to the increase in demand for places at the centre due to its success since opening in 2016.

BACKGROUND:

Landowner:	Teresa Mangione
Applicant:	Rowe Group
Date of Application:	5 October 2020
Zoning:	MRS: Urban LPS2: Zone: Residential R Code: R80
Built Form Area:	Residential
Existing Land Use:	Child Care Premises – 'A'
Proposed Use Class:	Child Care Premises – 'A'
Lot Area:	1,013m ²
Right of Way (ROW):	No
Heritage List:	No

The subject site is bound by Summers Street to the north, a single storey grouped dwelling to the west, Norwood Park to the east, a single storey single house to the south east and a two storey commercial development to the south west.

The subject site and adjoining property to the west are zoned Residential R80 under the City's Local Planning Scheme No. 2 (LPS2) and are located within the Residential built form area under the City's Policy No. 7.1.1 – Built Form (Built Form Policy). The adjoining property to the south east is zoned Commercial under LPS2 and is located within the Mixed Use built form area under the Built Form Policy. The adjoining property to the south west is zoned Mixed Use R100 under LPS2 and is located within the Mixed Use built form area under the Built Form Policy.

The subject site and adjoining property to the west have a permitted maximum building height of 4 storeys and the adjoining properties to the south have a maximum building height of 12 storeys under the Built Form Policy.

The subject site is located within the Perth Parking Management Area under the *Perth Parking Management Act 1999*.

The subject site is currently occupied by the Akidamy School of Early Learning in accordance with the conditional approval for a Change of Use from Grouped Dwelling to Community Use (Day Care Centre) granted by Council at its Ordinary Meeting held on the 20 September 2016. The minutes from this meeting, including a copy of the approved plans, are included in **Attachment 2**.

The previous development application was approved under the East Perth Redevelopment Authority Scheme (EPRA Scheme) which has since been rescinded and replaced by LPS2. The EPRA Scheme did not include a land use definition for child care premises and the application was assessed under the land use description of 'community use (day care centre)'. The current application has been assessed as an amendment to the previous approval with the description of the application updated to child care premises which is consistent with the current land use definitions under LPS2.

A location plan is included in **Attachment 1**.

DETAILS:

Summary Assessment

The table below summarises the planning assessment of the proposal against the provisions of LPS2 and the City's policies including Policy No. 7.5.3 – Education and Care Services (Education and Care Services Policy). In each instance where the proposal requires the discretion of Council, the relevant planning element is discussed in the Detailed Assessment section following from this table.

Planning Element	Use Permissibility/ Deemed-to-Comply	Previously approved	Requires further Discretion
Land Use		✓	
Car Parking		✓	
Education and Care Services Policy			✓

Detailed Assessment

The deemed-to-comply assessment of the element that requires the discretion of Council is as follows:

Education and Care Services Policy	
Deemed-to-Comply Standard	Proposal
Policy No. 7.5.3 – Education and Care Services Clause 2.3 – External Play Space 7 square metres of external play space per child which equates to 441 square metres.	411.5 square metres of external play space.

The above element of the proposal does not meet the specified deemed-to-comply standards and is discussed in the comments section below.

CONSULTATION/ADVERTISING:

The application does not require advertising. The application does not propose any departures from the relevant planning framework which could reasonably be considered to have an adverse impact on the adjoining properties or the surrounding streetscape. The land use was approved in 2016 and the proposal to increase the maximum number of children by three would not substantially alter the existing land use. The external built form outcome remains unchanged when viewed from the public realm. In accordance with the City's Policy No. 4.1.5 – Consultation, the proposed amendments would not have a significant impact on the community, or the economy, lifestyle, amenity and/or environment of any member of the community or community group.

Design Review Panel (DRP):

Referred to DRP: No

LEGAL/POLICY:

- *Planning and Development Act 2005*;
- *Planning and Development (Local Planning Schemes) Regulations 2015*;
- City of Vincent Local Planning Scheme No. 2;
- Policy No. 7.5.3 – Education and Care Services; and
- *Perth Parking Management Act*.

Planning and Development Act 2005

The application to amend an approval can be considered in accordance with Schedule 2, Clause 77(1)(b) of the *Planning and Development (Local Planning Schemes) Regulations 2015*. Clause 77(2)(b) allows the application to be made during or after the period within which the development must be substantially commenced. Clause 77(4) provides the local government the ability to approve the application with or without conditions or refuse the application.

In accordance with Schedule 2, Clause 76(2) of the *Planning and Development (Local Planning Schemes) Regulations 2015* and Part 14 of the *Planning and Development Act 2005*, the applicant would have the right to apply to the State Administrative Tribunal for a review of the Council's determination.

Perth Parking Management Act 1999

The subject site is located within the Perth Parking Management Area under the *Perth Parking Management Act 1999*, which provides provisions relating to the maximum amount of car parking which is permitted to be provided in a development but does not provide any minimum requirements. The City's Policy No. 7.7.1 – Non-Residential Development Parking Requirements does not apply to the subject site.

Delegation to Determine Applications:

This matter has been referred to Council in accordance with the City's Delegated Authority Register as the application is an amendment to a development approval that was previously determined by Council.

RISK MANAGEMENT IMPLICATIONS:

There are minimal risks to Council and the City's business function when Council exercises its discretionary power to determine a planning application.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Innovative and Accountable

We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATIONS:

The City has considered the application against the Environmentally Sustainable Design Provisions of the City's Policy No. 7.1.1 – Built Form, which is informed by the key sustainability outcomes of the City's Sustainable Environment Strategy 2019-2024.

FINANCIAL/BUDGET IMPLICATIONS:

Nil.

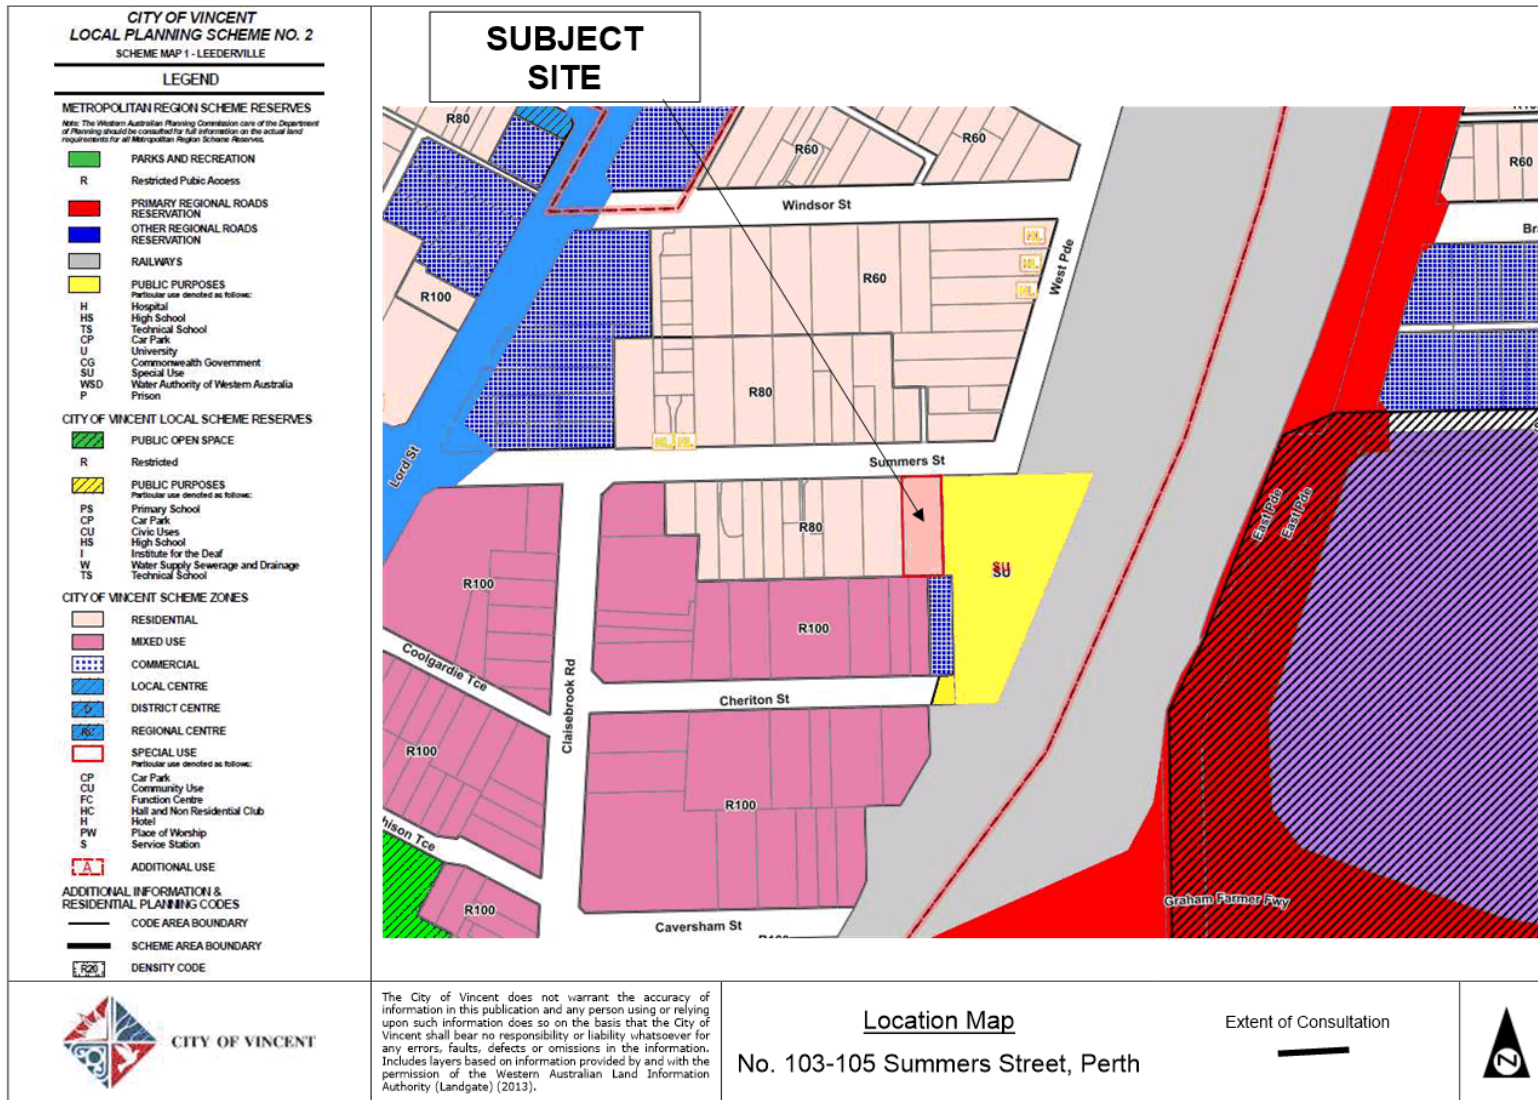

COMMENTS:Child Care Premises External Play Space

The application proposes to increase the maximum number of children from 60 to 63. The City's Education and Care Services Policy requires child care premises to provide 7 square metres of external play space per child which equates to 441 square metres the application proposes 411.5 square metres of external play space.

The departure to the Education and Care Services Policy is consistent with the objectives of the Policy and would not adversely affect the surrounding area for the following reasons:

- The existing external play space provides both covered and uncovered areas allowing it to be used all year round. The play space is established and provides a diverse range of different spaces and activities that can be used by the children;
- The land use has previously been approved by the City and the proposal to increase the maximum number of children by three would not substantially alter the existing land use, the proposal would have a negligible impact on the surrounding area in relation to noise, parking and traffic. The location of the Child Care Premises on the end of Summers Street adjacent to Norwood Park to the east and non-residential land uses to the south further reduces the impact of the development on the surrounding area;
- The Child Care Premises will continue to provide a total of four on-site parking spaces as per the previous approval. The site is located within the Perth Parking Management Plan Area which provides maximum parking requirements rather than minimum parking requirements, the City's Policy No. 7.7.1 – Non-Residential Development Parking Requirements is not applicable to the subject site. Notwithstanding, the increase in children by three would not result in a significant increase in traffic movements to and from the site and the existing parking arrangement would remain sufficient;
- Aside from the parking bays provided on site, the City has recorded a total of 51 parking spaces located along Summers Street between West Parade and Lord Street. A Street parking survey was conducted in November/December 2018 which identified the demand for parking on the street, the average duration of stay and what time of day the spaces were occupied. For Summers Street the survey data stated the following:
 - At peak demand the parking spaces provided reached a capacity of 51 percent or 26 vehicles. This was between the hours of 12:00pm and 2:00pm. As the drop off and pick up times for the Child Care Premises are between the hours of 7:00am-10:00am and 3:00pm-6:00pm, the data suggests that there would be adequate parking available during this time for parents to drop off their children;
 - The average time vehicles were in the street parking bays was for 2 hours with an average total of 33 vehicles. Following this the next highest duration of stay was for four hours and had an average of 10 vehicles. This shows that parking is readily available as users would only be there for a short period of time;
- The Child Care Premises is located 40 metres from the East Perth Train Station and associated car park which provides a practical alternate means of transport;
- The development continues to provide two bike racks on site, however these have been moved with the approval of the City through a Building permit; and
- Based on the City's records, no compliance matters have been raised or investigated in relation to the existing child care premises since it commenced operating in 2016.

The proposed increase of three children would not result in any adverse impact to the adjoining properties or surrounding area. It is recommended that the Council approves this amendment to the previous development approval.

ORDINARY MEETING OF COUNCIL
20 SEPTEMBER 2016

RECOMMENDATION:

That Council, pursuant to its powers under the Local Government (Change of District Boundaries) Order 2007 and the *Local Government (Constitution) Regulations 1998*, Regulation 5(4)(c), allowing the City of Vincent to, in effect, administer the City of Perth Town Planning Scheme as if it were its own Scheme, and in accordance with the provisions of the Metropolitan Region Scheme, **APPROVES** the application for Change of Use from Grouped Dwelling to Community Use (Day Care Centre) at Nos. 103-105 (Lot: 38; D/P: 28) Summers Street, Perth in accordance with plans date stamped 29 July 2016, as shown on Attachment 2, subject to the Determination Advice Notes in Attachment 7 and the following conditions:

1. **Use of the Premises**
 - 1.1 A maximum of 60 children and 15 staff are permitted on site at any one time;
 - 1.2 The Day Care Centre shall only operate between:
 - Monday to Friday: 7:00am – 6:30pm and
 - Closed Saturday, Sunday and Public Holidays;
2. **Boundary Wall**

The owners of the subject land shall finish and maintain the surface of the boundary (parapet) wall facing No. 107 Summers Street to the west and Norwood Park to the east in a good and clean condition. The finish of the wall is to be fully rendered or face brickwork to the satisfaction of the City;
3. **Car Parking and Access**
 - 3.1 A minimum of four car parking bays shall be provided onsite;
 - 3.2 The car park shall only be used by visitors directly associated with the development;

ORDINARY MEETING OF COUNCIL
20 SEPTEMBER 2016

39

CITY OF VINCENT
MINUTES

- 3.3 The staff shall not park in the onsite car park during the hours of 7:00am – 10:00am and 3:00pm to 6:30pm;
 - 3.4 At all times at least 1 car bay shall be available for pick up/drop off;
 - 3.5 The car parking and access areas are to comply with the requirements of AS2890.1;
 - 3.6 Vehicle and pedestrian access points are required to match into existing footpath levels;
 - 3.7 All new crossovers shall be constructed in accordance with the City's Standard Crossover Specifications; and
 - 3.8 Prior to occupancy or use of the development the car parking areas on the subject land shall be sealed, drained, paved and line marked in accordance with the approved plans, completed to the satisfaction of the City and maintained thereafter by the owner(s)/occupier(s);
4. External Fixtures
- All external fixtures shall not be visually obtrusive from Summers Street and neighbouring properties. External fixtures are such things as television antennas (of a non-standard type), radio and other antennas, satellite dishes, external hot water heaters, air conditioners, and the like;
5. Verge Trees
- No verge trees shall be removed. The verge trees shall be retained and protected from any damage including unauthorised pruning;
6. Parking Management Plan
- A Management Plan is to be submitted as part of the application for building permit and shall be approved by the City prior to the commencement of the development, a copy of which is to be provided to all parents and staff, detailing but not limited to, the following:
- 6.1 Drop off and pick up procedure;
 - 6.2 Staff parking;
 - 6.3 Services/delivery vehicle procedure; and
 - 6.4 All points detailed in Condition 3 – Car Parking and Access;
7. Acoustic Report and Noise Management Plan
- 7.1 The recommended measures of the report dated July 2016 shall be implemented and shall include a Noise Management Plan to be submitted and approved by the City prior to the use or occupation of the development and, as a minimum addresses the following:
 - 7.1.2 Operating Hours;
 - 7.1.2 Predicted noise levels from Indoor Child Play and applicable noise management practices to control sound levels;
 - 7.1.3 Predicted noise levels from Outdoor Child Play and applicable noise management practices to control sound levels;
 - 7.1.4 Use and style of amplified music;
 - 7.1.5 Duration and frequency of 'play times' applicable to each and all age groups;
 - 7.1.6 Time and frequency of waste collection and deliveries at the premises; and
 - 7.1.7 Community relations/complaint management procedure;

- 7.2 Certification from an acoustic consultant shall be provided to the City that the recommended measures identified in the acoustic report have been undertaken to the City's satisfaction, prior to occupancy or use of the development;

8. Landscape and Reticulation Plan

- 8.1 A detailed landscape and reticulation plan for the development site and adjoining road verge is to form part of the application for a Building Permit and shall be approved by the City prior to commencement of the development. The plan shall be drawn to a scale of 1:100 and show the following:

- 8.1.1 The location and type of existing and proposed trees and plants with specific emphasis on landscaping forward of the building line;
8.1.2 Areas to be irrigated or reticulated; and
8.1.3 The removal of redundant crossovers;

- 8.2 All works shown in the plans approved with the Building Permit shall be undertaken in accordance with the approved plans to the City's satisfaction, prior to occupancy or use of the development and maintained thereafter to the satisfaction of the City at the expense of the owners/occupiers;

9. Waste Management

- 9.1 A Waste Management Plan is to form part of the application for a Building Permit and shall be approved by the City prior to commencement of the development detailing a bin store to accommodate the City's specified bin requirement; and

- 9.2 Waste management for the development shall thereafter comply with the approved Waste Management Plan;

10. Stormwater

Prior to occupancy or use of the development all storm water collected on the subject land shall be retained onsite, by suitable means to the satisfaction of the City; and

11. Where any of the above conditions have a time limitation for compliance, and the condition is not met in the required time frame, the obligation to comply with the requirements of the condition continues whilst the approved development exists.

Moved Cr Murphy, Seconded Cr Harley

That the recommendation be adopted.

Debate ensued.

PROPOSED AMENDMENT:

Moved Cr Cole, Seconded Cr Topelberg

That the following Conditions 7.3 and 7.4 be inserted as follows:

MOTION AS AMENDED PUT AND CARRIED (6-2)

For: Cr Cole, Cr Harley, Cr Gontaszewski, Cr McDonald, Cr Murphy and Cr Topelberg

Against: Presiding Member Mayor John Carey and Cr Buckels

(Cr Loden was on approved leave of absence for the Meeting.)

COUNCIL DECISION ITEM 9.1.1

That Council, pursuant to its powers under the Local Government (Change of District Boundaries) Order 2007 and the *Local Government (Constitution) Regulations 1998*, Regulation 5(4)(c), allowing the City of Vincent to, in effect, administer the City of Perth Town Planning Scheme as if it were its own Scheme, and in accordance with the provisions of the Metropolitan Region Scheme, APPROVES the application for Change of Use from Grouped Dwelling to Community Use (Day Care Centre) at Nos. 103-105 (Lot: 38; D/P: 28) Summers Street, Perth in accordance with plans date stamped 29 July 2016, as shown on Attachment 2, subject to the Determination Advice Notes in Attachment 7 and the following conditions:

1. Use of the Premises

1.1 A maximum of 60 children and 15 staff are permitted on site at any one time;

1.2 The Day Care Centre shall only operate between:

- Monday to Friday: 7:00am – 6:30pm and
- Closed Saturday, Sunday and Public Holidays;

2. Boundary Wall

The owners of the subject land shall finish and maintain the surface of the boundary (parapet) wall facing No. 107 Summers Street to the west and Norwood Park to the east in a good and clean condition. The finish of the wall is to be fully rendered or face brickwork to the satisfaction of the City;

3. Car Parking and Access

42

CITY OF VINCENT
MINUTES

- 3.1 A minimum of four car parking bays shall be provided onsite;
 - 3.2 The car park shall only be used by visitors directly associated with the development;
 - 3.3 The staff shall not park in the onsite car park during the hours of 7:00am – 10:00am and 3:00pm to 6:30pm;
 - 3.4 At all times at least 1 car bay shall be available for pick up/drop off;
 - 3.5 The car parking and access areas are to comply with the requirements of AS2890.1;
 - 3.6 Vehicle and pedestrian access points are required to match into existing footpath levels;
 - 3.7 All new crossovers shall be constructed in accordance with the City's Standard Crossover Specifications; and
 - 3.8 Prior to occupancy or use of the development the car parking areas on the subject land shall be sealed, drained, paved and line marked in accordance with the approved plans, completed to the satisfaction of the City and maintained thereafter by the owner(s)/occupier(s);
4. External Fixtures

All external fixtures shall not be visually obtrusive from Summers Street and neighbouring properties. External fixtures are such things as television antennas (of a non-standard type), radio and other antennas, satellite dishes, external hot water heaters, air conditioners, and the like;
 5. Verge Trees

No verge trees shall be removed. The verge trees shall be retained and protected from any damage including unauthorised pruning;
 6. Parking Management Plan

A Management Plan is to be submitted as part of the application for building permit and shall be approved by the City prior to the commencement of the development, a copy of which is to be provided to all parents and staff, detailing but not limited to, the following:

 - 6.1 Drop off and pick up procedure;
 - 6.2 Staff parking;
 - 6.3 Services/delivery vehicle procedure; and
 - 6.4 All points detailed in Condition 3 – Car Parking and Access;
 7. Acoustic Report and Noise Management Plan
 - 7.1 The recommended measures of the report dated July 2016 shall be implemented and shall include a Noise Management Plan to be submitted and approved by the City prior to the use or occupation of the development and, as a minimum addresses the following:
 - 7.1.2 Operating Hours;
 - 7.1.2 Predicted noise levels from Indoor Child Play and applicable noise management practices to control sound levels;
 - 7.1.3 Predicted noise levels from Outdoor Child Play and applicable noise management practices to control sound levels;
 - 7.1.4 Use and style of amplified music;

The architectural drawings include:

- 01 NORTH ELEVATION SCALE 1:200**: Shows the front facade with a central entrance labeled "THE AKADAMY". Features include colorbond roof sheeting, new gabled roof with colorbond sheeting, CFC cladding, textured detail & coat paint finish, timber cladding, rendered brick painted, new timber framed awning with colorbond sheeting, living green wall with signage, powder coated aluminum frame to windows, and a concrete floor slab at level to match existing timber framed floor.
- A SECTION A SCALE 1:200**: A cross-section showing the internal layout with rooms labeled VERANDAH, BABIES, PASSAGE, TODDLER 1, and VERANDAH. It details the roof structure, including colorbond roof sheeting, powdercoated aluminum framed roof lights, raking flush plasterboard ceiling & angled bulkhead, and a concrete floor slab.
- 02 EAST ELEVATION SCALE 1:200**: Shows the side profile with features like colorbond roof sheeting, proposed mechanical roof units with aluminum screening, timber & aluminum screen wall, powdercoated aluminum framed sliding panel doors, timber decked terraces, rendered brick painted, new sand finish rendered to existing brick, painted, and a 1800H timber fence to bin store.
- 04 WEST ELEVATION SCALE 1:200**: Shows the rear profile with features such as colorbond roof sheeting, powdercoated aluminum framed roof lights, CFC cladding texture coat paint finish, parapet wall, and existing fence not shown for clarity.
- 03 SOUTH ELEVATION SCALE 1:200**: Shows the back facade with features including colorbond roof sheeting, proposed mechanical roof units with aluminum screening, verandah with CFC lining, powdercoated aluminum frame bi-fold doors, timber decked terraces, rendered brick painted, and a living green wall with signage.
- 00 STREET ELEVATION SCALE 1:200**: Shows the street-facing elevation with features like colorbond roof sheeting, new gabled roof with colorbond sheeting, CFC cladding, textured detail & coat paint finish, timber cladding, rendered brick painted, new timber framed awning with colorbond sheeting, living green wall with signage, and powder coated aluminum frame to windows.

RECOMMENDATION:

That Council, in accordance with the provisions of the City of Vincent Local Planning Scheme No. 2 and the Metropolitan Region Scheme, REFUSES the application for Two Grouped Dwellings at No. 2 (Lot: 119; D/P: 12521) Deague Court, North Perth in accordance with the plans shown in Attachment 2 for the following reasons:

1. The proposed street setback of proposed Lot 1 and Lot 2 does not meet the Local Housing Objectives of Clause 5.1 of the City's Built Form Policy No. 7.1.1 – Built Form and Design Principles of Clause P5.1.2 (P2.1 and P2.2) of State Planning Policy 7.3: Residential Design Codes – Volume 1. The reduced setback and street interface of the dwellings does not preserve or enhance the visual character of the existing streetscape;
2. The proposed open space does not meet the Design Principles of Clause 5.1.4 (P4) of State Planning Policy 7.3: Residential Design Codes – Volume 1. The reduced open space contributes to the reduced street setback, resulting in a development that would not incorporate suitable open space to reflect the existing and/or desired streetscape character or reduce the impacts of building bulk on Deague Court;
3. The proposed setback of the garages of Lot 1 and Lot 2 do not meet the Local Housing Objectives of Clause 5.4 of the City's Built Form Policy No. 7.1.1 – Built Form and Design Principles of Clause P5.2.1 (P1) of State Planning Policy 7.3: Residential Design Codes – Volume 1. The setback of the garages in line with the predominant building line of the dwellings does not preserve or enhances the visual character of the existing streetscape and does not reduce vehicle access points to the street; and
4. As a consequence of the departures sought in relation to street setback, open space and setback of garages, the proposed development is not consistent with the Deemed Provisions in Schedule 2 of the *Planning and Development (Local Planning Schemes) Regulations 2015* as it:
 - 4.1 Is not compatible with its setting Clause 67(m);
 - 4.2 Would have an adverse amenity impact and detrimental impact on the character of the locality Clause 67(n); and
 - 4.3 Would not enhance the amenity and character of the existing neighbourhood and is not compatible with the established area in accordance with the objectives of the Scheme.

PURPOSE OF REPORT:

To consider an application for development approval for two grouped dwellings at No. 2 Deague Court, North Perth.

PROPOSAL:

The application proposes two grouped dwellings in a side by side configuration, with vehicle and pedestrian access achieved from Deague Court. The dwellings are proposed to a building height of two storeys. The proposed development plans have been included as **Attachment 2**.

BACKGROUND:

Landowner:	Quentin Chester
Applicant:	Quentin Chester
Date of Application:	3 June 2020
Zoning:	MRS: Urban LPS2: Residential R Code: R60
Built Form Area:	Residential
Existing Land Use:	Single House
Proposed Use Class:	Grouped Dwelling
Lot Area:	397m ²
Right of Way (ROW):	Not applicable
Heritage List:	Not applicable

The subject site is bound by Deague Court to the south, single and two storey dwellings to the east and north. An unconstructed dedicated road is located to the west of the site, and is currently used in conjunction with Charles Veryard Reserve as an additional portion of public open space. The City does not have plans to construct and formalise this road connection. A location plan is included as **Attachment 1**.

The subject site and the adjoining properties to the north, east and south are zoned Residential R60 under the City's Local Planning Scheme No. 2 (LPS2). Charles Veryard Reserve to the west is reserved Public Open Space under LPS2. The subject site and the adjoining properties to the north, east and south are within the Residential Built Form Area and have a building height limit of three storeys under the City's Policy No. 7.1.1 – Built Form (Built Form Policy).

Ordinary Meeting of Council 20 October 2020

The application was previously presented to Council at its Ordinary Council Meeting on 20 October 2020 for determination, at the request of the applicant Administration recommended that Council refuse the application for the following reasons:

- The proposed street setback of proposed Lot 1 and Lot 2 does not meet the Local Housing Objectives of Clause 5.1 of the City's Built Form Policy No. 7.1.1 – Built Form and Design Principles of Clause P5.1.2 (P2.1 and P2.2) of State Planning Policy 7.3: Residential Design Codes – Volume 1. The reduced setback and street interface of the dwellings does not preserve or enhance the visual character of the existing streetscape;*
- The proposed open space does not meet the Design Principles of Clause 5.1.4 (P4) of State Planning Policy 7.3: Residential Design Codes – Volume 1. The reduced open space contributes to the reduced street setback, resulting in a development that would not incorporate suitable open space to reflect the existing and/or desired streetscape character or reduce the impacts of building bulk on Deague Court;*
- The proposed setback of the garages of Lot 1 and Lot 2 do not meet the Local Housing Objectives of Clause 5.4 of the City's Built Form Policy No. 7.1.1 – Built Form and Design Principles of Clause P5.2.1 (P1) of State Planning Policy 7.3: Residential Design Codes – Volume 1. The setback of the garages in line with the predominant building line of the dwellings does not preserve or enhances the visual character of the existing streetscape and does not reduce vehicle access points to the street; and*
- As a consequence of the departures sought in relation to street setback, open space and setback of garages, the proposed development is not consistent with the Deemed Provisions in Schedule 2 of the Planning and Development (Local Planning Schemes) Regulations 2015 as it:*
 - Is not compatible with its setting Clause 67(m);*

- 4.2 *Would have an adverse amenity impact and detrimental impact on the character of the locality Clause 67(n); and*
- 4.3 *Would not enhance the amenity and character of the existing neighbourhood and is not compatible with the established area in accordance with the objectives of the Scheme.*

After consideration of the application, the following procedural motion was carried by Council:

The application to be deferred to enable the applicant to address the issues related to separation of balconies and impact of the building mass. Report to be presented to Council no later than 17 November 2020 Council Meeting.

The development plans presented to Council on 20 October 2020 that resulted in the deferral are included as **Attachment 5**.

Key Changes

The applicant submitted amended development plans to the City on 26 October 2020, in accordance with Council's procedural motion to defer the item. The amended development plans sought to address the aforementioned deferral reasons cited by Council. The changes undertaken by the applicant to address the reasons for deferral and Administrations recommendation are as follows:

- Increase ground floor setback to 3.3 metres;
- Increase upper floor setback to 2.8 metres;
- Provide 2.5 metre separation of the balconies, articulated 2.2 metres behind the balconies;
- Introduced additional openings from the living rooms to address Deague Court;
- Revised the roof form and pitch of Unit 2;
- Revised the colours and materials of the dwellings;
- Reduced the width of the driveways to the dwellings; and
- Revised the studio doors/openings to portrait style windows

The appropriateness of the grouped dwellings as well as the revisions to the plans are discussed in further detail under relevant headings in the Comments section of this report.

DETAILS:

Summary Assessment

The table below summarises the planning assessment of the proposal against the provisions of LPS2, the City's Policy No. 7.1.1 – Built Form and the State Planning Policy 7.3 Residential Design Codes. In each instance where the proposal requires the discretion of Council, the relevant planning element is discussed in the Detailed Assessment section following from this table.

Planning Element	Use Permissibility/ Deemed-to-Comply	Requires the Discretion of Council
Street Setback		✓
Lot Boundary Setback		✓
Building Height	✓	
Open Space		✓
Street Surveillance	✓	
Setback of Garages and Carports		✓
Outdoor Living Areas		✓
Landscaping (R Codes)	✓	
Visual Privacy	✓	
Car Parking & Vehicle Access	✓	
Solar Access	✓	
Site Works and Retaining Walls	✓	
External Fixtures, Utilities and Facilities	✓	

Detailed Assessment

The deemed-to-comply assessment of the element that requires the discretion of Council is as follows:

Street Setback	
Deemed-to-Comply Standard	Proposal
<p>The primary street setback is to be the average of the five properties adjoining the proposed development: 6.3 metre average setback.</p> <p>Walls on upper floors setback a minimum of 2 metres behind the ground floor predominant building line (excluding any porch or verandah), as determined by the City.</p> <p>Balconies on upper floors setback a minimum of 1 metre behind the ground floor predominant building line (excluding any porch or verandah), as determined by the City.</p> <p>A porch, balcony, verandah, chimney or the equivalent may project not more than 1m into the street setback area.</p>	<p><u>Ground Floor</u> Studio/Garage: 3.3 metres</p> <p><u>Upper Floor</u> Balcony: 2.8 metres Living: 5.0 metres</p> <p>Upper floor projects 0.5 metres forward of ground floor alignment</p> <p>Nil (0 metre) setback of balcony behind ground floor</p> <p>Balcony projects more than 1 metre into front setback</p>
Lot Boundary Setback	
Deemed-to-Comply Standard	Proposal
<p><u>Unit 1 West</u> Balcony – Bath: 3.2 metres Bed 1 – Ensuite (bulk): 5.7 metres</p> <p><u>Unit 2 West</u> Bed 1 – Ensuite (bulk): 2.8 metres</p> <p><i>Lot Boundary Walls</i> Boundary walls to two (2) sides</p> <p>Maximum height: 3.5 metres Average height: 3.0 metres</p>	<p><u>Unit 1 West</u> Balcony – Bath: 1.5 metre Bed 1 – Ensuite (bulk): 2.6 metres</p> <p><u>Unit 2 East</u> Bed 1 – Ensuite (bulk): 2.6 metres</p> <p><i>Lot boundary Walls</i> Lot boundary walls to three (3) sides</p> <p><u>Unit 1 (Entry)</u> Maximum height: 3.4 metres Average height: 3.35 metres</p> <p><u>Unit 2 (Entry)</u> Maximum height: 3.2 metres Average height: 3.1 metres</p>
Open Space	
Deemed-to-Comply Standard	Proposal
40% open space	<p><u>Unit 1</u> 38.4% open space</p> <p><u>Unit 2</u> 38.7% open space</p>
Setback of Garages & Carports	
Deemed-to-Comply Standard	Proposal
Garages are to be setback a minimum of 500mm behind the dwelling alignment (excluding any porch, portico, verandah, balcony or the like)	<u>Unit 1 and Unit 2</u> Garages project forward of dwelling alignment
Outdoor Living Areas	
Deemed-to-Comply Standard	Proposal
Minimum length and width dimension of 4m	<u>Unit 1 and Unit 2</u> 3.4 metre minimum dimension

The above elements of the proposal do not meet the specified deemed-to-comply standards and are discussed in the comments section below.

CONSULTATION/ADVERTISING:

Community consultation was undertaken in accordance with the *Planning and Development (Local Planning Scheme) Regulations 2015*, for a period of 14 days commencing on 31 August 2020 and closing on 14 September 2020. Community consultation was undertaken by means of written notifications with 10 letters sent to surrounding landowners, as shown in **Attachment 1** and a notice on the City's website.

At the conclusion of the community consultation period, 25 submissions were received, 23 were received in support of the proposal from surrounding properties and 2 were received in objection. The key concerns raised in objection to the proposal are summarised as follows:

- Concerns regarding Unit 2 rear facing windows in ensuite overlooking neighbouring dwelling;
- Concerns regarding Unit 2 rear facing master bedroom partially overlooks neighbouring dwelling;
- Oppose ground and upper floor setbacks proposed;
- Concerns regarding privacy to habitable rooms from balconies;
- Consistency of dwellings with original constructions in Deague Court;
- Strongly oppose garage not setback behind dwelling; and
- Issues with parking in the street and how this will be managed with new dwellings and during construction.

A summary of the submissions received along with Administration's comments on each are provided in **Attachment 8**. The applicant's written justification for the proposal, as well as written response to the submissions received are provided as **Attachment 7** and **Attachment 9** respectively. Concerns regarding the Unit 2 rear facing windows were addressed by the applicant in the final plans submitted to the City, as per **Attachment 2**.

Design Review Panel (DRP):

Referred to DRP: Yes

The application was referred to a member of the City's Design Review Panel (DRP) for comments on the initial plans which proposed two dwellings addressing Deague Court as the primary street. The City arranged an onsite meeting with the City officers, the applicant and the DRP member to resolve fundamental built form and site planning issues associated with the proposed garage width, street setback and upper floor overhang. During the onsite meeting, the City and DRP member raised queries with the applicant as to whether alternative site configurations had been contemplated, to alleviate the dominance of the double garages addressing Deague Court and to allow for a northern aspect to outdoor living areas for both dwellings.

Following this meeting the DRP member drafted a preliminary design for a battle axe configuration which was provided to the applicant for review and consideration, which demonstrated opportunities to utilise the northern aspect and locate vehicle access via a shared driveway, screened from the street. The applicant reviewed the battleaxe concept but ultimately decided to maintain a side by side lot configuration with the dwellings addressing Deague Court.

The applicant submitted amended plans following the DRP members initial review, these plans are included in **Attachment 5** and were referred back to the DRP, with the following comments being provided:

- Street setback is not consistent with established setbacks in the streetscape, and the reduced setback has potential to reduce privacy and open space;
- Landscape planning and the space provided requires further review to provide increased canopy coverage;
- The location of the dwelling entry behind the garage and upper floor does not reduce impact of upper storey massing to street frontages, this is inconsistent with the established streetscape, where front setbacks play a major part;
- While some articulation, stepping and shift in material and colour has been provided, it is minimal and does not offset the departures proposed;
- Based on the current design proposed, the location of the garage and front balcony does appear to present a high level of bulk to the street and neighbouring dwellings. The garage placement along with

general massing does not appear to be consistent with adjoining setbacks and is set forward of the adjoining properties further contributing to the bulk of the dwelling. While improved passive surveillance is provided with the studio at the ground level this portion of the building is in line with the garage and does not provide any articulation at the ground level and is effectively viewed as part of the garage form. Further refinement of materials, colours and size of glazing should be considered to define form;

- Due to the placement of stores and bathrooms on the northern end of the dwellings, access to north light has been limited impacts future occupant amenity.

The applicant was provided a copy of the DRP Chair's comments which also included some suggested design modifications, however did not seek to make any modifications to the proposal.

After deferral of the application at Council's Ordinary Meeting in October, the applicant prepared plans (**Attachment 2**) seeking to address Council's deferral reasons, specifically the separation of balconies and impact of the building mass. The City sought comments on the amended proposal from the Design Review Panel member which are summarised as follows:

- Changes in the roof form, materiality and articulation between the two dwellings appears to provide differing built forms, allowing the dwellings to read as being distinct from one another while still being 'related';
- The increased street setback is positive;
- The additional articulation, colours and materials of the dwellings create sufficient and reasonable modulation when viewed from the street;
- The proposal provides a suitable built form outcome within the context of Deague Court. The location does have the benefit of the park adjacent and open aspect to the street, to afford a more flexible approach to street setback;
- The garage doors have been reduced to single doors so no longer dominate the frontage; and
- Single width crossovers and garden areas in front of the studio, as well as articulation of the windows resolves the previous issues regarding the appearance of these rooms as a possible car parking spaces.

LEGAL/POLICY:

- *Planning and Development Act 2005;*
- *Planning and Development (Local Planning Schemes) Regulations 2015;*
- *City of Vincent Local Planning Scheme No. 2;*
- *State Planning Policy 7.3 – Residential Design Codes Volume 1;*
- *Policy No. 4.1.5 – Community Consultation; and*
- *Policy No. 7.1.1 – Built Form Policy.*

Delegation to Determine Applications:

This matter is being presented to Council at the written request of the applicant.

RISK MANAGEMENT IMPLICATIONS:

Low: There are minimal risks to Council and the City's business function when Council exercises its discretionary power to determine a planning application.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Innovative and Accountable

We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATIONS:

This is in keeping with the following key sustainability outcomes of the *City's Sustainable Environment Strategy 2019-2024*.

*Sustainable Energy Use***FINANCIAL/BUDGET IMPLICATIONS:**

Nil.

COMMENTS:Street Setback

The Built Form Policy requires walls on upper floors to be setback 2 metres behind, and balconies to be setback 1 metre behind the ground floor predominant building line. The development proposes a street setback of 3.3 metres to the garage and studio on the ground floor, and 2.8 metres to the balcony on the upper floor, projecting forward of the ground floor predominant building line in lieu of the deemed-to-comply 6.3 metre setback.

The applicant's written justification for the proposed street setback is summarised as follows:

- Work has been done to create a dwelling with an exceedance of interaction between the private domain and the adjacent public open space;
- Deague Court is a streetscape that is undergoing transition as intended under the City's Local Planning Scheme No. 2 to provide infill development. Consideration of the intended higher density and future use of the site and surrounding area should be considered;
- The proposed 3 metre setback is considerate and pragmatic of the intended future R60 use and desired requirements. Development and siting of garage is driven by both infrastructure easements and the previous determinations of Council to minimise visual impact of garages under Clause 5.2.2 of the Residential Design Codes;
- The R Codes Table 1 requires a 2 metre setback, and the application is seeking 3 metres. The required setback does however call for a sound and logical planning outcome where the setbacks are 'stepped' down the street towards the eventual 1 metre.

The applicant has also provided justification with respect to the built form outcome of the dwellings in the form of an urban design study which is included as **Attachment 3**. The study details the built form justification and references provided by the applicant are summarised:

- There is no streetscape to consider as the target radius is under transition. The dominant streetscape is already 'modern contemporary';
- Proximity to Transit Corridor and character of recent adjacent development to Kayle Street means a fair argument is to be made future development will be of a multiple rather than grouped dwelling nature;
- There is a clear development trend that has resulted in two storey side by side development with garages;
- Against a three storey height limit, the height proposed is highly considerable;
- The design is very responsive to an active streetscape offering significant open frontage to the adjacent park, and between public and private spaces; and
- The most significant surrounding context relates to the public open space and established trees. Both have been incorporated by sympathetic timber materials.

The proposed street setback is not considered to satisfy the relevant design principles and local housing objectives of the R Codes and Built Form Policy, and is not acceptable for the following reasons:

- The ground floor setback of both dwellings would be 3 metres from the street boundary, forward of the 6.3 metre average street setback. The first floor balconies of both dwellings would be setback 2.8 metres from the street boundary, 0.5 metres forward of the ground floor setback, limiting actual articulation of the upper floor. The dwellings with protruding upper floor balconies would sit well forward of, and would not be consistent with, the existing dwellings in the streetscape;
- The proposed dwellings do not interpret or demonstrate a connection with the character and identity of existing dwellings within Deague Court. The concealed roof form and appearance of Unit 1 is in contrast to the physical scale and appearance of the established Deague Court streetscape and does not compliment the established streetscape character and identity;
- In response to the deferred application at the 20 October 2020 Council meeting the applicant has prepared amended plans which introduce additional colours and materials (horizontal cladding,

contrasting render colours, amended window sizes and a revised roof form to Unit 2) to the façade of the development. The contrasting cladding and renders to the ground and upper floors of both dwellings creates a level of distinction between Unit 1 and Unit 2 to mitigate the appearance of blank and monotonous facades, however the contrasting colours and materials apply only to those portions within the street setback with this same approach not demonstrated on remainder of the dwelling as viewed from adjacent properties. While the updated facades of the dwelling now express a legible difference between the two dwellings, the colours and materials do not reduce the impact of building bulk of the development on the streetscape with the dwellings remaining well forward of the average street setback;

- The upper floor balconies located forward of the garages on the ground floor results in vertical and horizontal massing of the development within the street setback area forward of neighbouring dwellings, detracting from the established setbacks and built form of neighbouring dwellings and Deague Court;
- Although only a single garage is proposed to each dwelling, the massing of development from the garage and studio creates the appearance of blank facades which project forward of the average street setback accounting for 79 percent of the overall lot frontage, imposing bulk on the street and public realm. While the materiality has improved between the ground and upper floor in the revised plans there has been no physical change to the ground floor form and this still presents as a flat façade;
- The location and projection of the garage partially obscures the entry and porch of the dwelling and as a result the garage presents as the main arrival point and dominant component of the dwelling as viewed from the street;
- Administration has undertaken a streetscape analysis of Deague Court and determined that the area consists of predominantly single and two storey dwellings of a similar built form character, materiality and architectural design. This analysis depicting images of existing dwellings that form the character of the streetscape has been included as **Attachment 6**. Key elements of the streetscape as observed by Administration include:
 - Pitched roof forms;
 - Facebrick of varying colours and earthy tones;
 - Single car garages and carports located behind the predominant building line; and
 - Balcony details projecting forward of the ground floor dwelling alignment;

The development does not incorporate design features such as articulations of walls and stepping of the upper floor behind the predominant ground floor building line to reduce the bulk and scale of the development when viewed from the street. As per the final comments received from the DRP Chair, the proposal does not reflect a development scale, materiality and setback which is compatible within its setting and is unsympathetic to the established and emerging streetscape.

Lot Boundary Setbacks

The application proposes departures to the lot boundary setback deemed-to-comply standards along the western boundary on the ground and first floors to Unit 1. The proposed western boundary setbacks satisfy the relevant design principles and local housing objectives of the R Codes and Built Form Policy for the following reasons:

- The reduced setbacks to the western boundary are to the unconstructed dedicated road and public open space (Charles Veryard Reserve). The reduced setback does not have detrimental to the visual privacy and residential amenity of the neighbouring site, as the western elevation does not abut development of a residential nature;
- The upper floor of the dwelling is stepped back to a 2.6 metre setback from the western boundary, 0.8 metres behind the ground floor. A stepped setback provides articulation and separation between the ground and upper floors. The façade also features major openings and highlight windows to the dining room, kitchen and bedrooms break up the western façade, and mitigate impacts of building bulk as viewed from the public realm; and
- The orientation of the dwelling ensures the reduced setback does not exacerbate overshadowing to neighbouring dwellings. The reduced setback does not compromise access to sunlight and ventilation for the occupants of the dwelling or neighbouring dwellings.

The application proposes departures to the lot boundary setback deemed-to-comply standards of bed 1 to ensuite along the eastern boundary on the first floor of Unit 2. The proposed western boundary setbacks satisfy the relevant design principles and local housing objectives of the R Codes and Built Form Policy for the following reasons:

- The lot boundary setback is to the overall wall length of the dwelling. The eastern elevation of Unit 2 is

stepped at a 1.5 metre to 3.8 metre setback. The eastern elevation is well articulated and incorporates mixed materials such as cladding, render and louvre window treatments to the ground and upper floors to provide visual interest and reduce the appearance of solid, blank walls;

- The reduced eastern setback abuts the bedroom, bathroom and laundries of the neighbouring dwellings. Two openings are existing, these are to the bathroom and laundry which are not habitable rooms. As no major openings to habitable rooms are proposed, there are no implications on visual and privacy amenity for the occupants of the neighbouring dwelling;
- The reduced lot boundary setback does not exacerbate impacts of overlooking on the adjacent property as no major openings from habitable rooms are proposed which fall outside of the lot boundaries. The proposed setback does not result in an adverse impact on the neighbouring property in terms of visual privacy; and
- The development meets the deemed-to-comply requirements in regards to solar access, and the reduced lot boundary setback does not result in unacceptable overshadowing to the adjoining eastern property.

Lot Boundary Setbacks - Lot Boundary Walls

The application proposes boundary walls to the northern, western and eastern boundaries. The deemed-to-comply provisions permit a boundary wall length of 14 metres, with an average height of 3 metres and a maximum height of 3.5 metres up to two lot boundaries. The acceptability of the boundary walls proposed are detailed below.

West – Unit 1

The boundary wall proposed to the entry portion of the dwelling is proposed with an average height of 3.4 metres and a maximum height of 3.35 metres. The western boundary wall satisfies the relevant design principles and local housing objectives of the R Codes and Built Form Policy for the following reasons:

- The proposed boundary wall abuts the unconstructed dedicated road and Charles Veryard Reserve to the west. The wall is located behind the street setback and is not considered to impact the amenity of the adjoining reserve;
- The remainder of the western elevation is setback from the boundary and incorporates varying contrasting render to reduce the bulk of the development to the adjacent property. Openings to the living/dining and activity rooms reduce the portions of blank solid wall to the western elevation;
- The boundary wall is proposed to be constructed and finished with face brick and render, consistent with the finish found in the Deague Court streetscape;
- The property to the rear, No. 7 Hanover Place has a boundary wall with a length of 3.7 metres to the western lot boundary abutting the unconstructed dedicated road. The existing wall is of a finish and scale that is reflective of the wall proposed to Unit 1 which ensures the location and height of the boundary wall is consistent with neighbouring dwellings;
- The proposed wall is located on the western boundary and does not compromise access to direct sunlight for the subject dwelling, or adversely impact adjoining property with respect to overshadowing; and
- The boundary wall does not incorporate major openings and would not result in overlooking to the adjoining site.

East – Unit 2

The boundary wall proposed to the entry portion of the ground floor of the dwelling would have an average height of 3.2 metres and a maximum height of 3.1 metres. The eastern boundary wall satisfies the relevant design principles and local housing objectives of the R Codes and Built Form Policy for the following reasons:

- The proposed boundary wall is located behind the street setback line of the dwelling, and would be partially concealed by the dwelling at No. 4 Deague Court. This would ensure the wall is not prominently located as viewed from the street;
- The proposed boundary wall is of a single storey scale, and varies in height due to the natural contours and slope of the site;
- The boundary wall does not abut the adjoining property's primary outdoor living area or major openings to habitable rooms. The boundary wall also does not incorporate major openings and would not result in overlooking to the adjoining site. As a result the proposed boundary wall does not impact the privacy or

- residential amenity of the neighbouring property;
- The proposed wall is located on the eastern boundary and does not compromise access to direct sunlight for the subject dwelling, or adversely impact the adjoining property with respect to overshadowing; and
- The eastern elevation incorporates contrasting render and glazing to the living/dining and activity rooms to reduce the portions of blank solid wall and perceived bulk of the development to the adjacent property.

Building on the boundary to three Lot Boundaries

The application proposes boundary walls of varying heights and lengths to the northern, western and eastern (side and rear) boundaries. Development to three boundaries would satisfy the relevant design principles and local housing objectives of the R Codes and Built Form Policy for the following reasons:

- The total boundary wall length and locations are acceptable as they are separated into small portions on the ground floor and would be largely concealed by the existing walls of the neighbouring properties;
- The aggregate length of the boundary walls would be below the 14 metres that is permitted and would not present a continuous bulk or mass along the boundaries and from neighbouring dwellings; and
- The boundary wall to the rear of the site is to the stores of Units 1 and 2 and has a height of 2.8 metres which is compliant with the 3 metre average height and 3.5 metre maximum height permitted.

Setback of Garages & Carports

The Built Form Policy requires garages to be setback a minimum of 0.5 metres behind the dwelling alignment (excluding any porch portico verandah or balcony or the like). The proposed garages would have a 3 metre setback from Deague Court and are not stepped behind the dwelling alignment. The setback of the garages to Unit 1 and Unit 2 are not considered to satisfy the relevant design principles and local housing objectives of the R Codes and Built Form Policy, and are not acceptable for the following reasons:

- The reduced setback of the garages is exacerbated by the reduced primary street setback of the dwelling, which results in the overall dwelling projecting forward of the average street setback and adjoining properties. The garage projection is considered incongruent and inconsistent with the established streetscape;
- The garages are proposed to be located in line with the studio of each dwelling, and are not stepped behind the building line so as to reduce actual and perceived appearance of vehicle parking spaces and access to the site;
- The proposed garages are stepped 0.5 metres behind the balcony of the dwellings which is inconsistent with the Built Form Policy which seeks to reduce the impact of the upper floor balconies on the streetscape by setting them back 1 metre behind the ground floor predominant building line. When the dwellings are viewed from the street on approach to the dwelling on the east and west, the reduced setback of the garages in conjunction with the cantilevered balconies exacerbate the vertical massing of the dwellings and does not provide sufficient articulation of the front façade to mitigate the impact of the development on the streetscape;
- The development has not incorporated design features to reduce bulk and scale of the development when viewed from the street. The solid nature of the garage doors to match the colour and or finish of the ground floor façade does not provide articulation and distinction of the garage structures which creates a flat and monotonous ground floor façade in line with the dwelling alignment and contributes to the actual and perceived horizontal building bulk of the front façade at the ground floor level;
- The location and projection of the garages partially obscures the entry and porch of the dwelling and as a result the garage presents as the main arrival point and dominant component of the dwelling as viewed from the street.

Open Space

The R Codes requires developments on lots coded R60 to provide 40 percent open space. The proposed development provides 38.4 percent open space for Unit 1 and 38.7 percent open space for Unit 2. The departures to open space are not considered to meet the design principles of the R Codes for the following reasons:

- The development seeks departures to the street setback standards of the Built Form Policy, resulting in excessive building bulk to the street and neighbouring properties which is exacerbated by reduced open space provision for the site. Reduced open space to the lots, particularly within the street setback area

does not provide sufficient building separation from the public realm resulting in development which is not reflective of the existing and desired streetscape character;

- As a consequence of the site planning, the units would not receive adequate access to natural sunlight as:
 - The boundary walls and minor openings provided to the north limits the dwellings capacity to access northern light and provide circulation around the site;
 - The parapet wall that runs along the length of the shared boundary results in the open space and major opening to habitable rooms of each unit having east or west orientation only. To Unit 1, the useability of these areas would be reduced as a result of the afternoon sun and absence of any shading. To Unit 2, the major openings are screened to prevent overlooking and are shaded due to the orientation;
 - The siting of open space will limit comprehensive passive and active use of the open space and outdoor living areas in the afternoon when the area will largely be shaded by the dwelling;
- The dwellings have been designed with the garage/studio forward of the front door with a pedestrian path alongside, this has provided limited opportunity for future location of external fixtures such as power boards to be provided in an accessible location and will likely result in this being located on the approach to the dwelling within the front setback. Location of external fixtures has not been shown on the development plans as such assessment against clause 5.4.4 External fixtures, utilities and facilities has not been undertaken;
- The site is within a three storey dwelling height area, designing a dwelling to the permitted height could provide greater opportunity for optimising dwelling orientation to the northern aspect and reducing the dwelling footprint to provide increased useable open space areas around the dwelling.

Outdoor Living Areas

The R Codes requires dwellings to be provided with an outdoor living area with a minimum length and width dimension of 4 metres. The application proposes a 3.4 metre width for the outdoor living areas of Unit 1 and Unit 2. The outdoor living areas satisfy the design principles of the R Codes for the following reasons:

- The overall size of the outdoor living areas for the dwellings exceed the 16 square metre deemed to comply requirement, providing 45 square metres of accessible and useable outdoor living spaces;
- The outdoor living areas provided are accessible from a habitable room, the living and dining rooms of the dwelling, meeting the deemed-to-comply requirement and ensuring the space provided is accessible and usable for the occupants of the dwellings;
- The outdoor living areas to each dwelling are uncovered spaces which are shaded by the tree planting proposed (Crepe Myrtle – *Lagerstroemia Indica*). The open nature of the alfresco spaces for adequate ventilation to the dwelling;
- Although the outdoor living area of Unit 1 is located to address Charles Veryard Reserve, the outdoor living area provided is appropriately screened for privacy and acoustics by the proposed street wall;
- The location of the outdoor living areas allows the clothes drying areas to be contained to the rear of the dwellings (screened from public view). The location and scale of the outdoor living are considered to be a better outcome for the dwelling and broader locale than clothes drying and services areas which may appear obtrusive;
- The proposed dwelling does not compromise the amenity and use of the adjacent properties. The proposed outdoor living area provided meets the visual privacy deemed-to-comply requirements.

Environmentally Sustainable Design

Clause 5.11 of the Built Form Policy provides local housing objectives relating to environmentally sustainable design. The applicant was advised of the City's environmentally sustainable design objectives however, elected to not provide a lifecycle assessment report or recognised equivalent to satisfy local housing objective 1.8.6 of the Built Form Policy.

The applicant has provided written justification addressing the remaining environmentally sustainable design local housing objectives (1.8.1 - 1.8.5) which is included in **Attachment 4**, to demonstrate how the development has incorporated features of environmentally sustainable design and satisfied these local housing objectives. The applicant's written justification is summarised as follows:

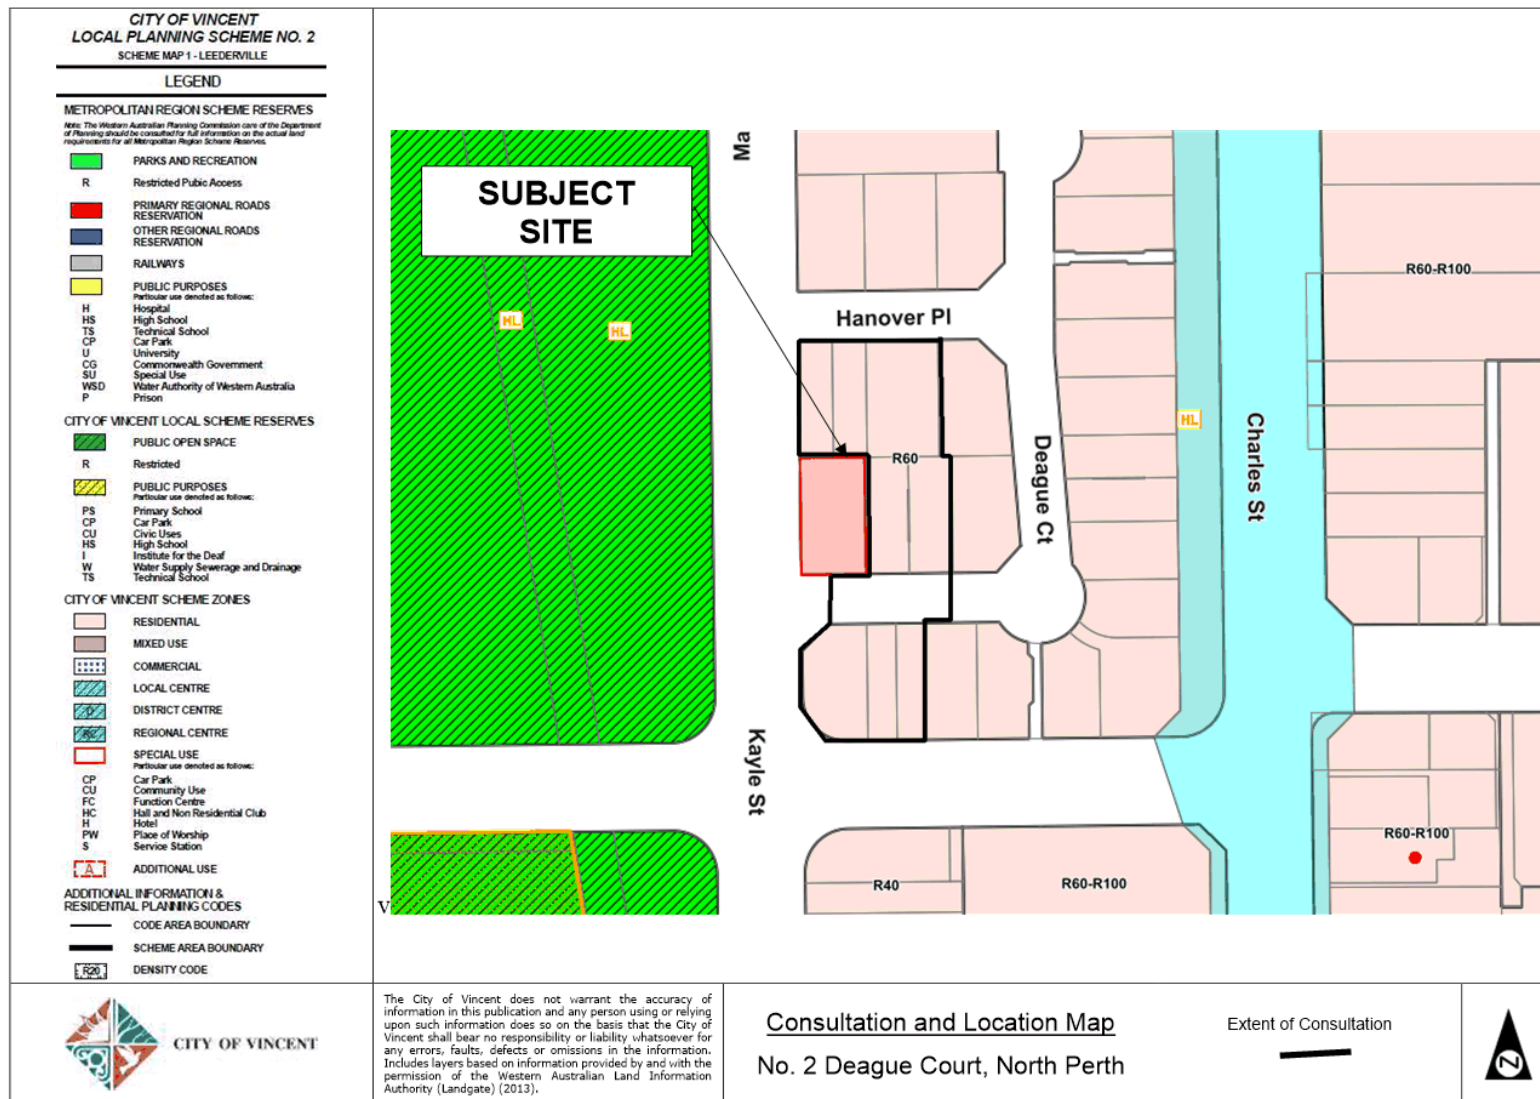

- The dwelling is to be constructed of high thermal performance double brick and concrete materials with high solar mass. West and South exterior cavity walls will be insulated;
- Dwellings have oversize 800mm eaves upper, and an additional 800mm lower overhang eave;
- In response to overshadowing from the north to 25 percent of the block, the site is oriented around open

space light wells open to the north and shaded to the south;

- The south/south western orientation is utilised to take advantage of predominant south western wind direction to allow natural ventilation to the dwellings;
- The side by side construction limits the potential for light and ventilation to unit 2 which has east facing openings only;
- Openable windows and ceiling fans to all living areas and bedrooms in lieu of air-conditioning use;
- Southern aspect oriented around large deep covered balconies that provide a high level of shading to any south glazing into living spaces; and
- No flat roof structures, all roofs have a 26.5 percent pitch.

The development has not provided a Lifecycle Assessment and does not address the relevant local housing objective of the Built Form Policy.

Administration has considered the constraints of the site and the site planning and is satisfied that the initiatives outlined in the applicant's written justification included in **Attachment 4** would meet the objectives of LPS2 specifically, to promote and encourage design that incorporates sustainability principles, including solar passive design, energy efficiency, water conservation, waste management and recycling.

Development Application - Urban Design Study

Please outline how each of the following elements have been addressed and attach any relevant or supporting photos, images, diagrams or drawings where applicable.

Description
1. Context & Character <i>Good design responds to and enhances the distinctive characteristics of a local area, contributing to a sense of place.</i>
<p>Demonstrate how you have reviewed the natural environment including topography, local flora and fauna.</p> <p>Applicant comment: The dominant natural environment is the adjacent park Charles Veryard Reserve and Smiths Lake this is a predominantly grassed and landscaped area utilised for a variety of uses Deague Court itself (aside from the target site) is rather deficient in flora there is no to minimal street trees in place and residents have resisted attempts for them to be installed</p> <p>Target Sight West Elevation : All these trees are able to be retained under THIS proposal</p> 
<p>Demonstrate consideration of the site's streetscape character.</p> <p>Applicant comment: The Deague Hanover Macedonia street subdivision was completed in 1980 to a poor standard at an R25 density anomalous with its intended future high density r60 .</p> <p>Typical Existing Deague Court Dwellings</p>

Additional to the high density R60 zoning the area is in receipt of an increased 3 story height limit .

Under the LPS2 this is an appropriate opportunity for infill development as a bonus it can be done without affecting heritage, character areas or streetscapes worthy of retention.

Under the LPS appendix2 There is no identified streetscape character to consider: This streetscape in the target Radium is under transition and the dominant streetscape already is Modern Contemporary

In the locality there is surrounding already considerable apartments and across Charles st larger character housing but little opportunity for small lot infill

Recent development in Kayle st means it is a concern of residents that future development in the street will be of a Multiple rather than Grouped nature This is unsupported by the residents of Deague and Hanover pl who prefer it to remain Grouped .

- To the east this area is separated from the more traditional by the Charles street High density transit corridor and Charles street itself

-To the South the dominant natural features are Smiths Lake to the south In visual view from lot 119 is an area comprising high density multiple story dwellings

To the North is an area of high density multiple and grouped dwellings and commercially zoned areas.

Deague Court forms the only exception of landholdings adjacent to Charles street to inclusion in the LPS transit corridor- This is only for a technical rather than planning reason

Demonstrate review of the built and natural environment of the local context to a radius of 400m-1000m.

Applicant comment: Dominant Streetscape in radium-

The radium represents a modern development pocket of North Perth.

- To the east this area is separated from the more traditional by the Charles street High density transit corridor and Charles street itself

-To the South the dominant natural features are Smiths Lake to the south In visual view from lot 119 is an area comprising high density multiple story dwellings

To the North is an area of high density multiple and grouped dwellings and commercially zoned areas.

Deague Court forms the only exception of landholdings adjacent to charles street to inclusion in the LPS transit corridor- This is only for a technical rather than planning reason

Under objective 18 of the LPS Built Form policy *where appropriate a range of housing typologies to address the demographics and needs of the communities should be supported*

Around Charles Veryard being a large public open space there is a strong demand for small lot family housing which benefits from proximity to the park

In that it does not impact heritage or character areas presents an appropriate opportunity for Vincent to achieve infill targets

Visible and adjacent to lot 119 there is already a clear development trend supported by Sales and DA patterns that has resulted in two story side by side development of a modern contemporary nature

Housing style in line with my proposal has already become a dominant aspect of the streetscape in radium

Streetscape Study Addendum

<p>Demonstrate how the site's context and character influenced the development.</p> <p>Consider the following:</p> <ul style="list-style-type: none"> - History of the local area; - Heritage listed buildings in the area; - High quality contemporary buildings in the area; - Materials, textures, patterns from high quality heritage / character as well as contemporary buildings in the area; and - Movement patterns / laneways.
<p>Applicant comment: The above consideration of the radium is that this is further supported by the the existing streetscape being precluded from Appendix 2 of the BFP 7.11 There is no heritage issues to consider The radium is particularly modern and high density The proposal facilitates and encourages high quality design with regard to their presentation to the streetscape; and enhances the amenity and character of the residential neighbourhood in a form that is compatible within the area.</p>
<p>Landscape quality</p> <p><i>Good design recognises that together landscape and buildings operate as an integrated and sustainable system, within a broader ecological context.</i></p> <p>Demonstrate review of the existing landscaping of the site and the street including mature trees, species and natural features</p>
<p>Applicant comment: This design is all about parks and trees 5.81 has been a significant factor in the creation of my proposal</p> <div data-bbox="248 875 871 1341" data-label="Image"> </div> <p>Target Site viewed from the west . All these trees are able to be retained under this proposal</p> <p>Any holistic consideration of this proposal needs to give significant weight to LPS 5.81,5.81,5.82,5.83 as the retention of existing trees 5.8.8 ,5.8.5 along my western verge and designing the proposed structure to be sympathetic to these trees and the public open space adjacent</p>
<p>Demonstrate how the landscape quality of the streetscape and surrounding context has been incorporated into the building and landscape design.</p>

<p>Applicant comment:It facilitates and encourages high quality design with regard to the existing the streetscape in increasing the amount of trees in streetscape from 0 to 3 ; and enhances the amenity and character of the residential neighbourhood in a form that is compatible within the area.The above consideration of the radium is that this is further supported by the the existing streetscape being precluded from Appendix 2 of the BFP 7.11 There is no heritage issues to consider</p>
<p>Built Form & Scale <i>Good design provides development with massing and height that is appropriate to its setting and successfully negotiates between existing built form and the intended future character of the local area.</i></p>
<p>What is the building massing and height of the streetscape? How has this been incorporated into the design?</p>
<p>Applicant comment Against a 3 story height limit it is very considerate of height considerable thought has been applied to balance setbacks and mass of a functional structure and learning from neighbouring developments considerable thought has been applied to the use of landscaping to soften the mass. You cant even see the proposed development It facilitates and encourages high quality design with regard to their presentation to the streetscape; and enhances the amenity and character of the residential neighbourhood in a form that is compatible within the area. The above consideration of the radium is that this is further supported by the the existing streetscape being precluded from Appendix 2 of the BFP 7.11 There is no heritage issues to consider</p>
<p>How does the development respond and contribute to the built form and scale of the streetscape?</p>
<p>It facilitates and encourages high quality design with regard to the existing the streetscape; and enhances the amenity and character of the residential neighbourhood in a form that is compatible within the area.The above consideration of the radium is that this is further supported by the the existing streetscape being precluded from Appendix 2 of the BFP 7.11 There is no heritage issues to consider</p>
<p>Demonstrate how the development encourages an activated and vibrant streetscape environment.</p>
<p>Applicant comment The design is very responsive to an active streetscape in offering significant open frontage to the adjacent park where the community congregates. Its a significant part of my lifestyle reflected in the design that I seek to invite interaction between the private and public realms.</p>
<p>Functionality & Build Quality <i>Good design meets the needs of users efficiently and effectively, balancing functional requirements to deliver optimum benefit and performing well over the full life-cycle.</i></p>
<p>Demonstrate how the proposed design complements the use of the building.</p>
<p>Applicant comment::The design incorporates a modest 3 bedroom family home within the block utilising only 60% of the width meaning almost 40% of the width is devoted setbacks The design required to satisfy 5.4.1 Solar access issues has also allowed a high level of function on a minimal floorplate whereby the areas devoted to internal access ways are minimised and none are replicated. Thought has been given to accessibility a level floor plate and with ground floor areas that can function as living areas or accommodation for residents with accessibility issues</p>
<p>Sustainability <i>Good design optimises the sustainability of the built environment, delivering positive environmental, social and economic outcomes.</i></p>
<p>Demonstrate how the building performance has been optimised using suitable orientation and layout of internal spaces.</p>
<p>Applicant comment::The design is very responsive to orientation (particularly solar) in maximising setbacks where possible, aggregating outdoor space adjacent to internal living areas. The accommodation areas are also aggregated furthest 'into' the dwelling and are able to be closed off from the rest of the house to increase energy efficiency and reduce heating and cooling requirements</p>
<p>Amenity <i>Good design optimises internal and external amenity for occupants, visitors and neighbours, contributing to living and working environments that are comfortable and productive.</i></p>

Demonstrate how the development optimises amenity for occupants, adjoining neighbours and onlookers
<p>Applicant comment:</p> <p>To the adjoining east property the design incorporates significant setbacks of 3.4m downstairs and 2.6m upstairs. Glazing is orientated so as to ensure no overlooking on outside areas of the east with the only openings to habitable rooms adjoining a blank external wall devoid of major openings</p> <p>To the North the setbacks mirror the adjoining properties bulk and effort has been made to separate the outside living areas with 'quiet elements' such as stores and drying courtyards being placed adjacent to the neighbouring outside living areas</p> <p>Onlookers is from the adjacent public space and this elevation is smartly hidden behind a screen of trees and further use of timber materials blends the dwelling into its surroundings</p>
<p>Legibility</p> <p><i>Good design results in buildings and places that are legible, with clear connections and memorable elements to help people find their way around.</i></p>
Demonstrate how the design allows users and visitors to navigate through the development.
<p>Applicant comment: Both dwellings orientate the entries to a logical position opening immediately up to the open living plans and direct access to the outside living space both the outside living areas and open living plans are connected by multiple stacker doors further obscuring the threshold between inside and outside</p>
<p>Safety</p> <p><i>Good design optimises safety and security, minimising the risk of personal harm and supporting safe behaviour and use.</i></p>
Demonstrate how the layout of buildings on site provides safe and high level of amenity for residents.
<p>Applicant comment: The design incorporates a very functional design with wide access level floors with no trip points. Space flows logically from living spaces adjacent and welcoming from the public realm into more and more private areas the further the dwelling is navigated</p>
<p>Community</p> <p><i>Good design responds to local community needs as well as the wider social context, providing buildings and spaces that support a diverse range of people and facilitate social interaction.</i></p>
Demonstrate how the development contributes to a sense of community, encouraging social engagement and enabling stronger communities.
<p>Applicant comment: The design has considered a high interaction with the public open space and a high level of interactivity between public and private spaces.</p>
<p>Aesthetics</p> <p><i>Good design is the product of a skilled, judicious design process that results in attractive and inviting buildings and places that engage the senses.</i></p>
Demonstrate how the surrounding context and character has been incorporated into the design of the development.
<p>Applicant comment: The most significant surrounding context to relate to is the public open space and significant established trees along the properties western verge. Both have been incorporated into the design by both sympathetic timber materials and orientation of living areas and building bulk to work with the placement of these trees</p>

Development Application -Environmental Design Study

P1.8.1 Development that considers the whole of life environmental impact of the building and incorporates measures to reduce this impact.

Response - The dwelling is to be constructed of predominate 100 year life materials Double Brick and Concrete Roof Structure 70 year life materials. While of a higher embodied energy the extended life allows this embedded energy to be amortised over a longer life

P1.8.2 Development that optimises thermal performance of the building throughout the year through design elements and material selection.

Response - At this early stages of planning, advice from assessors engaged by the builder is that Cavity Insulation or Air permeability insulation (Blown) is the most effective way to achieve NATHERS assessment at the Building permit stage

The dwelling is to be constructed of high thermal performance double brick and concrete materials with high solar mass. Additionally West and South Exterior cavity walls will be insulated with R2.5 Cavity Insulation, East with R1.5. Ceilings will be R4

South Lower Glazing will be Sun Control Window Film Prestige Exterior Series reducing IR by 90% while allowing 90% visible light transmission.

The dwellings also have oversize 800mm eaves upper with an additional 800mm lower overhang eave

P1.8.3 Development shall incorporate:

(a) Site planning principles that maximise solar passive design opportunities for both summer and winter;

Response - In response to overshadowing from the north dwelling to 25% of the block the site is orientated around open space light wells open to the north and shaded to the south. This allows maximum northern solar east west paths aspects and minimised southern summer solar east west paths

The dwellings also have oversize 800mm eaves upper with an additional 800mm lower overhang eave

(b) Natural ventilation and daylight penetration to reduce energy consumption;

Response- The SSW orientation is utilised to take advantage of predominant SW wind direction to allow natural ventilation to the dwellings. To encourage egress of dominant wind direction roof ventilation is situated to the north west end of the dwellings upper stories as an exit for wind pressure

Response- Daylight Penetration - In response to overshadowing from the north dwelling to 25% of the block the site is orientated around open space light wells open to the north and shaded to the south. This allows maximum northern solar east west paths aspects and minimised southern summer solar east west paths

(c) Daytime areas with north-facing glazing to allow passive solar heating during winter;

Response - There is now 45sqm of North facing glazing and another 60sqm east and west orientated along the light wells to maximise North East and North west daylight penetration

(d) Openable windows and/or ceiling fans to habitable rooms or occupied spaces that allow natural and cross ventilation

Response -Openable windows and Ceiling Fans to all living areas and bedrooms in lieu of aircon use

(e) Recovery and re-use of rainwater, storm water, grey water and/or black water for non-potable water applications;

Underground Rainwater tanks to utilise roof run off.

(f) Shading devices to reduce unwanted solar gain in summer and increase passive solar gain in winter; and

As above in item a) - dwelling is designed around lightwells shaded to the south and open to the north light this maximises north east and North west

The southern aspect is orientated around large deep covered balconies that provide a high level of shading to any South glazing into living spaces.

Ground floor South glazing is to be Sun Control Window Film Prestige Exterior Series reducing IR transmission by 90% while allowing visible light transmission of 90%

(g) Integration of renewable energy and energy storage systems to optimise energy consumption.

4kw 15 panels solar system to the 26.5% pitch on a east west orientation

P1.8.4 Flat roof structures that are not visible from the street or adjacent properties shall have a maximum solar absorptance rating of 0.4.

Response - No flat roof structures all roofs 26.5% pitch

P1.8.5 Pitched roof structures or roof structures that are visible from the street or adjacent properties shall have a maximum solar absorptance rating of 0.5, unless a suitable alternative is identified in the Urban Design Study.

Response - All 26.5% pitch roofs in light coloured colorbond - Solar Absorptance Colour Classification (Volume Two NCC 2019) <0.4

R-Codes and the City of Vincent policy framework

Proposed Development R60 Lot 119 2 Deague Court North Perth

Code	Deemed to Comply	Justification
5.1.2	Street Setbacks	To discuss at briefing
5.31 C1.1	Outdoor Living Area >4m minimum dimension	The rear north neighbouring property presents large solar overshadowing to the back third of lot 119. To ensure under 5.4.2 P2.1 that active habitable spaces receive adequate solar access the proposed development has utilised a long -narrow design to utilise the outdoor living areas adjacent to all active habitable as solar 'light wells ' The proposed outdoor living area are also larger than the 16m required (32sqm) but of dimensions of 3.4mx10m which is a very useable outdoor living area.
5.14 Open Space	37%v40% Deemed to comply	The proposed open space is configured to maximise setbacks from adjoining properties, maximise solar access (5.3.1 P1.1 ,5.4.1) and aggregated together with living areas (5.3.1 P1.1) to the highest possible livability and usability of this open space. Nothing is wasted. Any reconfiguration would be a worse outcome against these design principles
5.2.3	Street Surveillance	Comments from Administration and DRP do not adequately (or at all) acknowledge the 27m of open frontage orientation and surveillance to the adjacent public open space additional to Deague court surveillance. DRP Comments as to the limited use of balconies is subjective and does not consider either their quite usable size or placement adjacent to living areas which is in line with good planning practice Unit 1 entry is highly visible Unit 2 has been accented by architectural feature
5.4.1 C1.1	Visual privacy R60 3m arcs	The proposed development has 3m Bedroom arcs (due to the generous 2.6m upper floor side setback)that only encroach the east property line by a maximum of 40cm. The area in which these arcs intersect is adjacent to a large blank wall on the neighbouring property with only glazed openings to non habitable spaces (Laundry and Bathroom) so do not conflict with 5.4.1 P1.1 
5.32 Landscaping	30% Canopy Coverage	Added two additional Jacaranda mimosifolia in the front setback area to bring canopy coverage over the requirement .

Summary of Submissions:

The tables below summarise the comments received during the advertising period of the proposal, together with the Administration's response to each comment.

Comments Received in Objection:	Officer Technical Comment:
<p><u>Street Setback</u></p> <ul style="list-style-type: none"> • Objection to the proposed 3 metre setback to the ground floor and 2.5 metre setback to the upper floor. • Objection to the upper floor projecting forward of ground floor alignment and agree that a minimum of 2 metres behind the ground floor should be provided. • Objection to the nil setback of balcony behind the ground floor and agree that a minimum of 1 metre behind the ground floor building line should be provided. 	<p>The City acknowledges comments regarding the street setback of the dwelling. As per Administration's report, the proposed setback of the dwelling and upper floor projection would not preserve and enhance the established streetscape; would not provide sufficient articulation of walls to distinguish upper floors from lower storeys and would not implement design and built form mechanisms to minimise the visual bulk of the development as viewed from Deague Court and neighbouring dwellings. Administration is not supportive of the proposed street setback.</p>
<p><u>Dwelling Form</u></p> <p>Does this building comply with the appearance of the other original constructions in the street? Construction of neighbouring dwellings within Deague Court has created an eyesore to the rest of the dwellings.</p>	<p>The application has been referred to a member of the City's Design Review Panel (DRP), to provide the applicant with comments and recommendations as to how the dwellings site planning and design could be revised to preserve and enhance the Deague Court streetscape. In its current form Administration believe the scale, mass and setback of the dwellings would not be complimentary and respectful of the established streetscape or locality. The applicant has reviewed the recommendations of the DRP and elected not to implement the recommended revisions.</p>
<p><u>Visual Privacy</u></p> <ul style="list-style-type: none"> • Concerns regarding the height of balustrade to balconies addressing Deague Court. The low balustrade and location of balconies will present an invasion of privacy to neighbouring dwellings. • Concern regarding Unit 2 rear facing windows from ensuite and master bedroom, and the overlooking to neighbouring dwellings. 	<ul style="list-style-type: none"> • The balconies indicate a balustrade 0.8 metres above the finished floor level, these balconies would be required to meet the requirements of the Building Code of Australia (BCA). The 7.5 metre cone of vision from the balconies falls within the subject lot and adjacent road reserve, and meets the deemed to comply requirements of clause 5.4.1 of the Residential Design Codes (R Codes) – Volume 1. • Openings to the rear of the site, from the master suite and ensuite are compliant with the deemed to comply requirements of clause 5.4.1 of the R Codes – Volume 1 as the master suite cone of vision is contained within the site and the ensuite is not a habitable room. Notwithstanding, the applicant has amended the proposal to demonstrate obscure window treatments to the identified openings.

Summary of Submissions:

Comments Received in Objection:	Officer Technical Comment:
<p><u>Garage Setback</u></p> <p>Strongly object to the garage projecting forward of dwelling alignment, the garage should comply with the minimum of 500mm behind the dwelling alignment.</p>	<p>The reduced setback of the garages is exacerbated by the reduced primary street setback of the dwelling, which results in the overall dwelling projecting forward of the average street setback and adjoining properties. The garages are proposed to be located in line with the studio of each dwelling which would not provide sufficient articulation or visual interest as viewed from the street. Administration is not supportive of the proposed garage setback.</p>
<p><u>Landscaping</u></p> <p>Landscaping should comply with the 30% canopy specified.</p>	<p>The applicant has submitted a revised landscaping plan which now provides for 30% canopy cover at maturity.</p>
<p><u>Parking</u></p> <ul style="list-style-type: none"> • Query what plan has been made for the provision of the visitors and workmen parking at this new proposed development. • Query that if construction proceeds, where will the additional cars be parked if the cul-de-sac is already occupied with other cars in the street. • The proposed plans for 2 Deague Court display a single garage to accommodate only one vehicle, shouldn't the dwelling incorporate a double garage and eliminate the studio, to allow for an extra car to be parked and avoid this extra car parking on the street. 	<ul style="list-style-type: none"> • The development has provided the minimum required on-site car parking spaces in accordance with Clause 5.3.3 of the R Codes – Volume 1. The car parking spaces and manoeuvring areas are designed in accordance with Australian Standard (AS2890.1). The dwellings are located within a 'Location A' area, within 250 metres of a high frequency bus route on Charles Street and are therefore required to provide a minimum of 1 on site car bay for each dwelling. • Any vehicles required to facilitate construction of the dwellings would be required to park in bays and locations in accordance with the City's allocated parking locations. Non-compliance with the street parking provisions and obstructions of private dwellings would be resolved by the City's Rangers.

Note: Submissions are considered and assessed by issue rather than by individual submitter.

Summary of Submissions:

The tables below summarise the comments received during the advertising period of the proposal, together with the Applicant's response to each comment.

Comments Received in Objection:	Applicant Comment:
<u>Street Setback</u> <ul style="list-style-type: none"> Objection to the proposed 3 metre setback to the ground floor and 2.5 metre setback to the upper floor. Objection to the upper floor projecting forward of ground floor alignment and agree that a minimum of 2 metres behind the ground floor should be provided. Objection to the nil setback of balcony behind the ground floor and agree that a minimum of 1 metre behind the ground floor building line should be provided. 	<ul style="list-style-type: none"> The upper floor walls are setback 2.1 meters behind the ground floor dwelling alignment, 3.1 metres behind the Residential Design Codes setbacks and 5.1 metres from the lot boundary.
<u>Dwelling Form</u> <ul style="list-style-type: none"> Does this building comply with the appearance of the other original constructions in the street? Construction of neighbouring dwellings within Deague Court has created an eyesore to the rest of the dwellings. 	<ul style="list-style-type: none"> No comments provided
<u>Visual Privacy</u> <ul style="list-style-type: none"> Concerns regarding the height of balustrade to balconies addressing Deague Court. The low balustrade and location of balconies will present an invasion of privacy to neighbouring dwellings. Concern regarding Unit 2 rear facing windows from ensuite and master bedroom, and the overlooking to neighbouring dwellings. 	<ul style="list-style-type: none"> Landscaping has been implemented within the front setback area to screen development from neighbouring properties and the public domain. A large tree has also been retained within the front setback, which also enable street surveillance. While deemed to comply, the windows have been amended to an obscure window treatment.
<u>Garage Setback</u> <ul style="list-style-type: none"> Strongly object to the garage projecting forward of dwelling alignment, the garage should comply with the minimum of 500mm behind the dwelling alignment. 	<ul style="list-style-type: none"> No comments provided
<u>Landscaping</u> <ul style="list-style-type: none"> Landscaping should comply with the 30% canopy specified. 	<ul style="list-style-type: none"> No comments provided
<u>Parking</u> <ul style="list-style-type: none"> Query what plan has been made for the provision of the visitors and workmen parking at this new proposed development. Query that if construction proceeds, where will the additional cars be parked if the cul-de-sac is already occupied with other cars in the street. The proposed plans for 2 Deague Court display a single garage to accommodate only one vehicle, shouldn't the dwelling incorporate a double garage and eliminate the studio, to allow for an extra car to be parked and avoid this extra car parking on the street. 	<ul style="list-style-type: none"> Issue well considered and applicant hopes to liaise with City of Vincent Ranger Services in implementing effective site access and traffic management of the site during the build.

Note: Submissions are considered and assessed by issue rather than by individual submitter.

9.5 PLACE PLAN MINOR ANNUAL REVIEW**Attachments:**

2. North Perth Town Centre Place Plan (NPTCPP)  
3. Mount Hawthorn Town Centre Place Plan (MHTCPP)  
4. Implementation Framework Progress Update VTCPP  
5. Implementation Framework Progress Update NPTCPP  
6. Implementation Framework Progress Update MHTCPP  
7. Vincent Town Centre Place Plan Review  
8. North Perth Town Centre Place Plan Review  
9. Mount Hawthorn Town Centre Place Plan Review  

RECOMMENDATION:**That Council:**

1. **ENDORSES** the revisions made to the Vincent Town Centre Place Plan, North Perth Town Centre Place Plan, and Mount Hawthorn Town Centre Place Plan, shown in Attachment 7, Attachment 8, and Attachment 9; and
2. **NOTES** the annual review of the Place Plans for 2020 where Administration will finalise the revisions to the Vincent Town Centre Place Plan, North Perth Town Centre Place Plan, and Mount Hawthorn Town Centre Place Plan to be presented for endorsement at 17 November 2020 Ordinary Council Meeting.

PURPOSE OF REPORT:

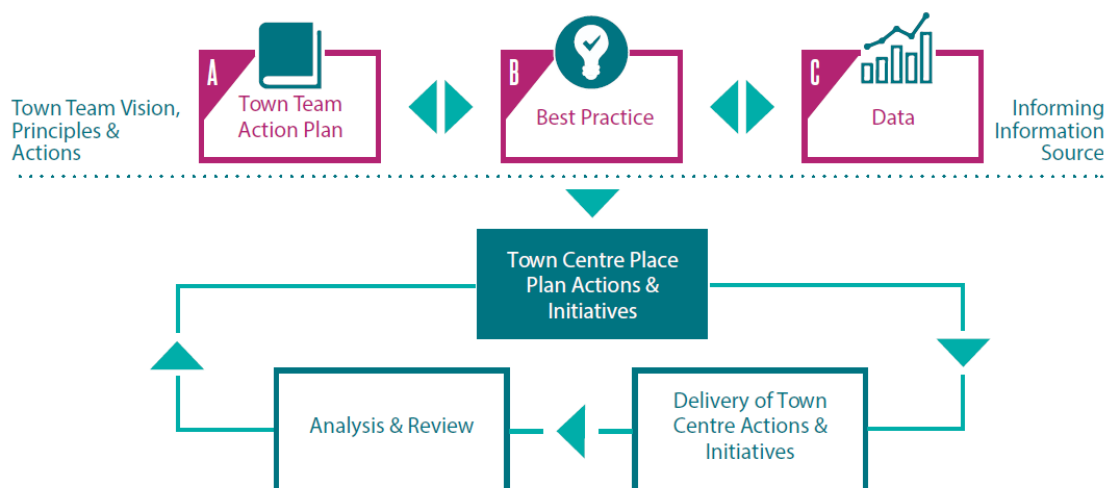

The purpose of this report is to provide Council with an update on the Place Plans implementation over the past 12 months and provide recommended minor amendments to ensure the Place Plans continue to be robust and responsive documents.

BACKGROUND:

On 1 May 2018, Council adopted the first two Town Centre Place Plans, the Vincent Town Centre Place Plan (VTCPP) and the North Perth Town Centre Plan (NPTCPP). Once adopted, Place Plans are scheduled for an annual minor review. With a major review scheduled every four years following Place Plan adoption. Following this schedule, the VTCPP and NPTCPP included as **Attachments 1 and 2** were reviewed and refined at the Ordinary Meeting of Council (OMC) on 25 June 2019.

At the 17 September 2019 OMC, the Mount Hawthorn Town Centre Place Plan (MHTCPP) was adopted and can be viewed as **Attachment 3**. The MHTCPP is now due for the first annual minor review and the VTCPP and NPTCP are due for their second annual minor review.

This minor annual reviews involve a progress assessment of actions within the Place Plans. Feedback was also sought from Council Members and Town Teams. The review has now been completed, in line with the adopted approach to the Place Plan implementation, as shown below.

DETAILS:

Progress of the key action items outlined within the Place Plans is assessed in each Implementation Framework Progress Update included as **Attachments 4, 5 and 6**. These attachments provide an update on each key action item and the associated Place Plan document changes proposed as part of the minor review.

The Progress Updates include changes to:

w

- Project delivery dates as a result of the effects of COVID-19;
- Reflect completed actions; and
- The assignment business unit for certain actions, based on skills sets and capabilities.

These changes are marked up in the reviewed Place Plans, included as **Attachments 7, 8, and 9**.

Informing Documents

The annual review has also involved consideration of the following informing documents that have been prepared or reviewed within the past 12 months:

- Safer Vincent Plan 2019/22;
- Sustainable Environment Strategy 2019 - 2024; and
- City of Vincent Rebound Plan.

Further informing documents are currently under development, or have recently been endorsed, and would be considered as part of the next annual review:

- Accessible City Strategy;
- Economic Development Strategy;
- Leederville Activity Centre Plan;
- Leederville Oval Masterplan;
- Public Health Plan;
- Sports and Recreation Plan; and
- Vincent Wayfinding Strategy.

CONSULTATION/ADVERTISING:

Community consultation of Place Plans occurs at the four year major review. For the annual review, feedback has mainly been sought from Town Teams and the monthly Rebound Roundtable.

LEGAL/POLICY:

Nil

RISK MANAGEMENT IMPLICATIONS

Low: It is low risk for Council to endorse the revised Place Plans which will guide the implementation of key action items within the Town Centres for the next year.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Enhanced Environment

Our urban forest/canopy is maintained and increased.

Accessible City

Our pedestrian and cyclist networks are well designed, connected, accessible and encourage increased use. We have better integrated all modes of transport and increased services through the City.

Connected Community

*An arts culture flourishes and is celebrated in the City of Vincent.
We have enhanced opportunities for our community to build relationships and connections with each other and the City.*

Thriving Places

We are recognised as a City that supports local and small business.

Our town centres and gathering spaces are safe, easy to use and attractive places where pedestrians have priority.

We encourage innovation in business, social enterprise and imaginative uses of space, both public and private.

Sensitive Design

Our planning framework supports quality design, sustainable urban built form and is responsive to our community and local context.

Innovative and Accountable

Our community is aware of what we are doing and how we are meeting our goals.

Our community is satisfied with the service we provide.

We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATIONS:

This is in keeping with the following key sustainability outcomes of the *City's Sustainable Environment Strategy 2019-2024*.

Urban Greening and Biodiversity

FINANCIAL/BUDGET IMPLICATIONS:

Nil.

COMMENTS:

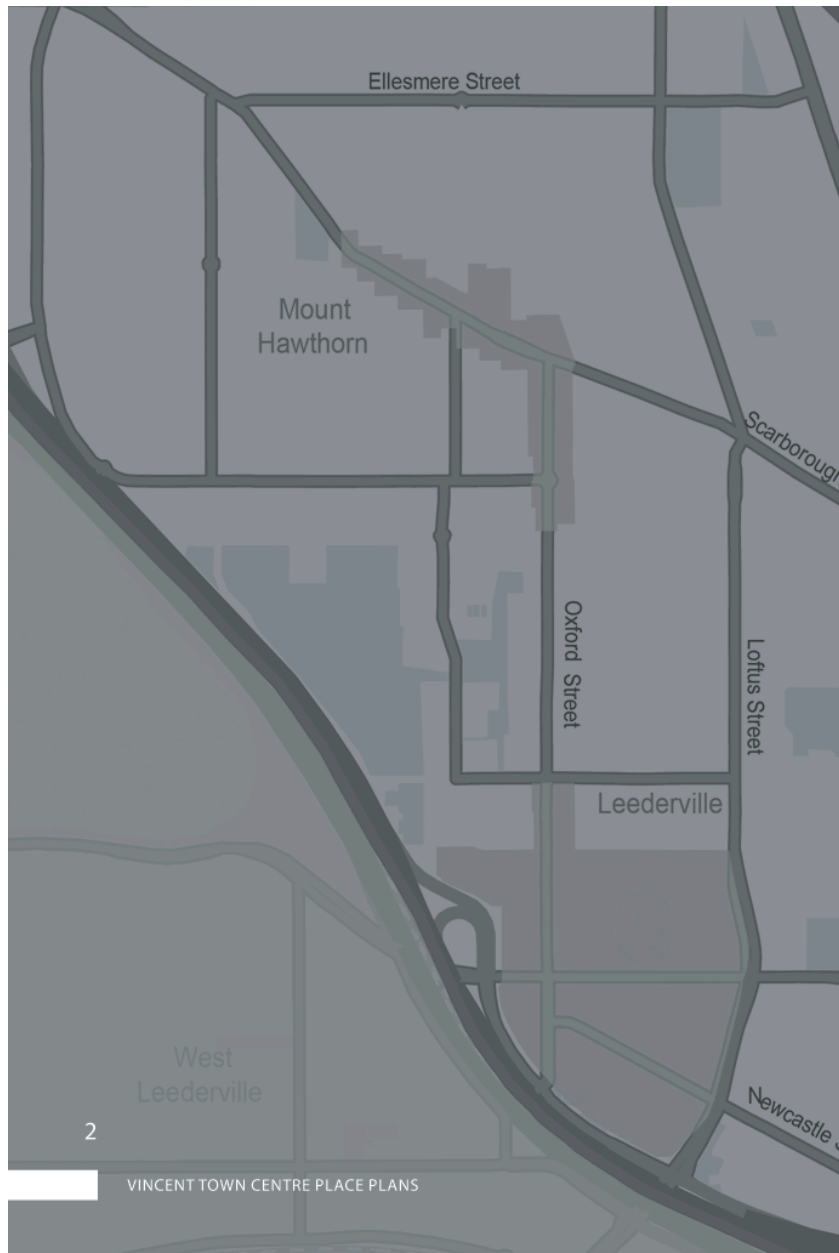

The Place Plans are 'place based' strategic documents that guide the direction of funding and resources to support each of the City's five town centres by unlocking their economic, social and environmental potential.

The preparation, implementation and review of the Place Plans for each Town Centre aligns with Council's adopted approach to Place Management. This approach to Place Management is evolving through the following three-phase process:

- Phase 1: Establish;
- Phase 2: Plan; and
- Phase 3: Manage.

The ongoing review of the Place Plans will ensure that the City's direction keeps pace with emerging trends and community aspirations for the Town Centres.

TOWN CENTRE PLACE PLAN VOLUME SERIES

The City of Vincent Town Centre Place Plans Volume Series has been developed as a set of 'place based' strategic documents to guide the direction of funding and resources in the City's town centres. The documents guide the implementation of all major initiatives in the town centres.

The Town Centre Place Plans (Place Plans) are split into the following volumes:

VOLUME 01 sets out the strategic direction for **all** of the City's town centres and outlines the projects (including associated funding and resources) which are common to all town centres.

VOLUME 02 to 06 include the Place Plans specific to each town centre. Each volume relates to one of the City's five town centres and outlines the funding and resources the City has specifically committed to each individual town centre. Volumes 02 to 06 have been developed as comprehensive, standalone documents which build upon the detailed information relating to all of the town centres in Volume 01.

The Place Plans direct the City's service units to deliver a range of place-based initiatives and enable the City to effectively support and coordinate change.

VINCENT TOWN CENTRE PLACE PLANS

00 INTRODUCTION

The City of Vincent (City) has five major town centres – North Perth, Mt Hawthorn, Leederville, Mt Lawley/ Highgate and Northbridge.

The town centres are classified as District Centres in the State Planning Framework, with the exception of Leederville which is classified as a Secondary Centre. The State and local planning framework identify the town centres as important opportunities for targeted infill development that are expected to redevelop over time to meet changing community needs.

TOWN CENTRE TOWN TEAMS

Each of the town centres has a 'town team'. The town teams are independently formed incorporated bodies that aim to make their respective town centres the best places they can possibly be. The town teams include:

- Mt Hawthorn Hub >> Mount Hawthorn Town Centre;
- Leederville Connect >> Leederville Town Centre;
- North Perth Local >> North Perth Town Centre;
- Beaufort Street Network >> Mount Lawley/Highgate Town Centre; and
- Northbridge Common >> Northbridge Town Centre.

The town teams are not an affiliate of the City but can access funding for community driven initiatives. The town teams are made up of a diverse range of members that include business owners, land owners and local residents. Each town team member brings a different set of skills and life experiences to the table and these collectively shape the direction, composition and identity of the five town teams.

The town teams and the City enjoy a symbiotic relationship. The City engages directly with each town team on a variety of issues that are specific to their respective town centres and the town teams are able to effectively communicate issues, solutions and ideas to the City through their respective Action Plans. The City works collaboratively with the town teams to deliver locally based activities/events, physical improvements and economic and community development initiatives.

INTRODUCTION

VINCENT TOWN CENTRE PLACE PLANS

A PLACE MANAGEMENT APPROACH

The City's Place Management team is responsible for coordinating and influencing the City's service units to deliver great place outcomes. The Place Management team delivers and influences a variety of projects and is responsible for coordinating the delivery of the Place Plans.

The City of Vincent employs a Place Management approach to streamline and improve the management of the wide range of issues, challenges and opportunities that face the City's town centres.

Place Management was established at the City in 2013 and has since evolved through a three phase process. This evolution process is outlined in the **Evolution of Place Management Diagram** below. The implementation of the Place Plans is set to occur during the 'Manage' phase.

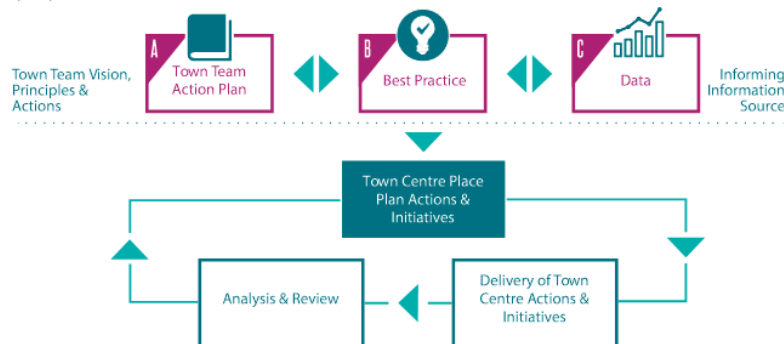

PLACE PLAN PROCESS

The Place Plans capture and build upon existing strategies and plans prepared by the City.

The projects within the Town Centre Place Plans are either existing town centre based projects from other strategies – or – plans or new projects that have been identified by analysing and applying information from the following three sources:

- A.** the content and identified actions within the town team Action Plans;
- B.** best practice; and
- C.** data collected through the Town Centre Performance Measurement Strategy.

The diagram below identifies the process in which Place Plan actions are prepared.

A TOWN TEAM ACTION PLANS

The town team Action Plans provide the opportunity for town teams to influence the strategic direction and management of their town centre. Town team Action Plans are prepared by local people who have a deep knowledge and feel for the place. The Action Plans are critical to the City better understanding the needs and aspirations of the local community. Key actions from the town team Action Plans are assessed by the City and considered for inclusion in the relevant Place Plan.

B BEST PRACTICE

Best practice case studies and current urban trends from both Australia and overseas inform the strategies and actions included in the Place Plans. Similarly, the City is informed and kept up to date with emerging trends and practices through partnerships with local universities. These partnerships bring new strategies and actions to light which are then considered for inclusion in the Place Plans.

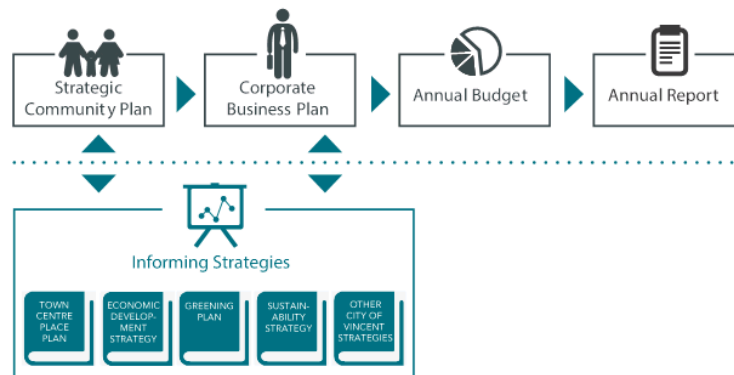

C TOWN CENTRE DATA

The City has prepared a Town Centre Performance Measurement Strategy to help guide the data collected in town centres. This is an internal document that guides the data collection activities of Administration. By collecting and analysing data in a structured and deliberate manner, decision-making becomes better informed. Through the collection of good quality data Administration is able to recommend targeted strategies and interventions.

The collection and analysis of data is a key component in the formulation of actions and strategies within the Place Plans.

PLACE PLAN PURPOSE

The Place Plans form a part of the City's suite of informing strategies. The Integrated Planning and Reporting Framework outlined by the *Local Government (Administration) Regulations 1996* requires the City to adopt a Strategic Community Plan and a Corporate Business Plan. The creation of the Place Plans is identified in the City's Corporate Business Plan, adopted 25 July 2017, and their relationship with the City's future Strategic Community Plan and Corporate Business Plan is illustrated in the diagram below.

STRATEGIC COMMUNITY PLAN 2018–2028

The City of Vincent Strategic Community Plan 2018–2028 includes the vision that:

In 2028, the City of Vincent is a leafy and vibrant 24hr city, which is synonymous with quality design and sustainability. Its diverse population is supported in their innovative endeavours by a Council that says yes!

This vision is underpinned by a number of key priorities including: Enhanced Environment, Accessible City, Connected Community, Thriving Places, Sensitive Design and Innovative & Accountable

All of which directly align with the purpose and objectives of the Town Centre Place Plans.

Our vibrant places and spaces are integral to our identity, economy and appeal. We want to create, enhance and promote great places and spaces for everyone to enjoy.

MONITORING & REVIEW

Each action within the Place Plans is a project and therefore required to be managed appropriately including the use of project schedules and project plans. Major projects will also need to be highlighted in the Corporate Business Plan.

Place Management is responsible for coordinating with the City's service units to work through the action items within the Place Plans and ensure the work is undertaken on time and on budget.

Progress reporting to Council on the implementation of the Place Plans is required annually. Progress reports will be prepared by Place Management with input from applicable service units at the City.

The Place Plans are intended to be iterative documents which evolve over time. The plans will be reviewed as follows:

MINOR REVIEW:

High-level annual review may include but is not limited to:

- including town team priority projects and initiatives which are supported by best practice, data and Council priorities;
- reflecting changes to the Corporate Business Plans and Strategic Community Plan; and
- including priority projects, initiatives and items which may arise in relation to shifts in best practice, in response to specific data acquired and/or external funding opportunities from private organisations, state and/or federal agencies.

MAJOR REVIEW:

A four year review will include major changes to the Place Plan documents including possible structure revisions and graphic design updates. It will also reflect changes to the town team structures and project implementation processes as applicable.

MEASURING PERFORMANCE

The City has access to a range of data that is dispersed across a variety of organisations and information platforms. Current data on hand includes:

- vehicle speeds and volumes;
- development approvals;
- permit approvals ;
- demographic data (via .id);
- limited public transport data provided by the Public Transport Authority;
- parking numbers and restrictions;
- a diverse range of previous engagement results;
- community asset mapping; and
- rates information.

Place Management has prepared a Town Centre Performance Measurement Strategy which outlines the key datasets the City needs to better understand in order to manage and improve the performance of its town centres. These datasets are outlined on the adjacent page.

Gathering and analysing data is critical to informed decision making. The data sets below will provide a thorough understanding of the place and continue to highlight required action that emerges through the review process.

VINCENT TOWN CENTRE PLACE PLANS

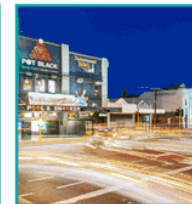

HOW TO READ THIS DOCUMENT!

The Vincent Town Centre Place Plans Volume Series is structured around three Key Focus Areas:

01 ACTIVITY Sets out the actions and projects which assist the City to enhance activity in its town centres so they can reach their activation and economic potential.

02 MOVEMENT Sets out the actions and projects which enhance walkability, improve the use of public transport, deliver parking efficiencies and create more pedestrian and cycle friendly town centres.

03 CHARACTER Sets out the actions and projects which contribute to Vincent's town centres unique sense of place.

The City of Vincent is committed to 'Greening Vincent' by increasing overall canopy cover, creating more liveable and walkable neighbourhoods and fostering biodiversity within the City of Vincent. Major greening projects are identified in:

- the City's Greening Plan Implementation Schedule; and
- the actions in the Place Plan Volume Series that are demarcated with the Vincent Greening Icon below.

GREENING Any action that has a greening component is marked with the City of Vincent's Greening Plan Icon.

IMPLEMENTATION FRAMEWORK Sets out the actions, time frames and the responsible teams for the delivery of all of the identified projects.

Each project is explained using the following three step process:

01 ACTIVITY

THE ACTIVITY FOCUS AREA RELATES TO THOSE PROJECTS AND INITIATIVES THAT HELP TO BRING THE STREETS TO LIFE. IT RELATES TO ACTIVATION, EVENTS, PUBLIC SPACES, MARKETING, THE LOCAL ECONOMY AND FUTURE DEVELOPMENT.

EVENTS AND ACTIVATION

ITEM 1.1 - PUBLIC SPACE ACTIVATION

Many of the public spaces in Vincent's town centres are not well activated.

A carefully curated events program in a town centre can amplify the local economy, connect the community, and raise the profile of the place to the broader public. A range of events that vary in scale and style that are designed for the local demographic should be programmed by either the City, town teams and/or businesses (or together in partnership).

Events and activities must be carefully designed to cater for the range of people who visit Vincent's town centres. Active and engaging public spaces attract people and encourage them to 'linger longer'. The City recognises the value of engaging visitors to stay longer and the Activation Schedule will be developed to facilitate this.

The City needs to prepare an activation program for each of its town centre public spaces.

Prepare and implement **Town Centre Public Space Activation** schedules

EVENTS AND ACTIVATION

ITEM 1.2 - ONLINE HIRE PLATFORM

It is difficult to hire the public space in Vincent's town centres.

The City has recently improved the hiring process for town centre public spaces but there is still room for improvement. Town teams and the local business community are encouraged to hire the town centre public spaces to run events and activities. The hiring process needs to be promoted, simplified and a more user friendly online platform investigated.

Review hire fees and create an improved **Online Hire Platform** and booking system for town centre public spaces

EVENTS AND ACTIVATION

ITEM 1.3 - STREAMLINE EVENT APPROVALS PROCESSES

Events often require multiple approvals from the City, sometimes resulting in a complex and long process.

The City's approval processes need to be refined and streamlined to make it easier for town teams and the community to run events in town centre public spaces.

The City's service units would benefit from an improved understanding of the events approvals processes, as a multidisciplinary approach is needed in order to deliver information and approvals in a timely manner.

User friendly online systems could be implemented to simplify the approvals processes.

Streamline the City's **Event Approvals** processes

EVENTS AND ACTIVATION

ITEM 1.4 - SUPPORT EVENTS

Major events require financial and administrative support from the City of Vincent.

Events are important for the local economy as well as bringing the community together. The City should continue to provide ongoing support for festivals and events in Vincent's town centres.

Provide ongoing support for **Town Team Events & Other Public Events**

CUSTOMER SERVICE

ITEM 1.5 - SERVICE & MAINTENANCE

Vincent's town centres require a high level of service and maintenance.

The City is currently investigating the viability of increasing service and maintenance levels in town centres through prioritisation of specialised town centre works schedules and improvements to reporting.

Clean, curated and attractive public spaces are more inviting, encouraging people to linger longer.

Specialising the maintenance works and frequencies for the town centres will improve the way the City is able to deliver a higher level of ongoing service in each of the town centres.

Improve and monitor the level of **Service & Maintenance** provided in the town centres

TOWN CENTRE TIDY TEAMS will deliver a higher level of maintenance and care to landscaped areas in Vincent town centres.

ACTIVITY

01

13

VINCENT TOWN CENTRE PLACE PLANS

14

VINCENT TOWN CENTRE PLACE PLANS

CUSTOMER SERVICE

ITEM 1.6 - TOWN TEAM GRANT PROGRAM

Town teams require financial support to deliver outcomes for their respective town centres and to make themselves more sustainable entities.

Town teams can access grant funding through the Town Team Grant Program. This funding can be used to facilitate events, activities and/or initiatives that engage the local community, contribute to the local economy or improve the sustainability of the town team.

Manage the **Town Team Grant Program**

MARKETING & BRANDING

ITEM 1.7 - MARKETING & BRANDING

Vincent's town centres do not have strong and cohesive brands or benefit from a coordinated marketing approach.

The town centres are primarily branded through the town team websites, WA Tourism and independent place promoters such as Urban List and Broadsheet Perth. A carefully considered and targeted marketing strategy will further promote each town centre. Further work needs to be undertaken to understand the best approach to marketing, whether it is led by the City of Vincent, the town teams, or both.

Prepare and implement **Town Centre Marketing & Branding Plans**

MARKETING & BRANDING

ITEM 1.8 - DESTINATION MARKETING

The City does not partner with other inner city local governments to promote destination tourism of its town centres.

A partnership between the City and inner city local governments should be developed to better promote key inner city destinations.

Work collaboratively with the Inner Perth Assembly to develop and deliver **Destination Marketing**

BUSINESS SUPPORT

ITEM 1.9 - LOCAL LAWS REVIEW

The Trading in Public Places Local Law 2008 and Local Government Property Local Law 2008 make it difficult for businesses to use and activate the public realm.

Vibrant places have active footpaths that include alfresco dining, goods displays and street performers.

Amendments to the Trading in Public Places and Local Government Property Local Laws will make it easier for businesses to utilise the public space in front of their shopfronts by enabling an online self-administering process that reduces paperwork and approval time frames.

Amend the **Trading in Public Places Local Law 2008 & Local Government Property Local Law 2008**

BUSINESS SUPPORT

ITEM 1.10 - BUSINESS ENGAGEMENT PROGRAM

The City of Vincent does not provide any specific business support measures.

We know the local community love the mix of independent traders in Vincent's town centres. There are a variety of trends affecting businesses, including but not limited to the below:

- the use of technology to consume, engage and experience;
- people want to experience urban environments;
- customers are fashion conscious;
- customers are culturally in tune (music, film, books, theatre, art, etc);
- restaurants and bars provide the experience customers want;
- a transition to online shopping;
- a focus on networking (social media, etc);
- many customers in Vincent are career driven and time poor;
- customers have progressive attitudes and are socially conscious; and
- customers have relatively high incomes (or capacity for high income).

The City of Vincent should create a Business Engagement Program that includes a digital platform that businesses can access to review emerging trends, link into existing training and funding opportunities, obtain business support and be a forum for knowledge exchange.

This Engagement Program will include trends and tips about catering to the local community and could also include networking events.

Implement a **Business Engagement Program**

ACTIVITY

01

15

VINCENT TOWN CENTRE PLACE PLANS

16

VINCENT TOWN CENTRE PLACE PLAN

AFTER-HOURS ACTIVITY

ITEM 1.11 - LIVE MUSIC VENUE PROTECTION

Live music venues are at risk of conflicting with new and nearby residential development.

The City has a number of well-established performance venues which attract visitors from all over Perth to view and listen to a diverse range of music acts.

Current legislation could result in live music venues having to alter the way they function to mitigate their impact on new neighbouring sensitive land uses (residential).

These live music venues contribute significantly to the economy of their respective town centres. They are well known and respected cultural institutions which must be promoted and protected.

Advocate for **Live Music Venue Protection**

DEVELOPMENT OPPORTUNITIES

ITEM 1.12 - CITY OF VINCENT OWNED LAND

The City does not have a strategy outlining how its landholdings in the town centres could be used.

The City should plan for the future of its current and future landholdings. A strategy could be developed to explore the strategic acquisition of land or use of City owned land for a variety of purposes which could include affordable housing, parking improvements, enhanced town centre connections and opportunities for office sites to support day trade activities and consideration of renewable energy opportunities.

Prepare a Strategy for **City of Vincent Owned Land** within the town centres

PLANNING FRAMEWORK

ITEM 1.13 - TOWN CENTRE PLANNING FRAMEWORKS

Vincent's town centres are expected to grow over the coming years in line with population projections and in response to the state planning framework. The town centres are distinctive in their own ways and are places that local people identify with and deeply care about. They require careful management to ensure that future development contributes to their success while preserving and enhancing their uniquely different characters.

Draft Local Planning Strategy Action 1.4.2 – Economy and Employment states that the City should *"Appropriately zone and/or prepare structure plans for planned growth areas to facilitate a mix of compatible residential and commercial development opportunities."*

Further to this, four of Vincent's town centres are identified in State Planning Policy 4.2 – Activity Centres for Perth and Peel (SPP4.2). Leederville is identified as a Secondary Centre and requires the preparation of an Activity Centre Structure Plan, while North Perth (Fitzgerald Street), Mount Hawthorn and Mount Lawley are identified as District Centres and also require the preparation of an Activity Centre Structure Plan but only requiring WAPC approval if the amount of proposed floorspace exceeds 20,000m².

Perth (William Street) is not listed in SPP4.2. However, a place specific planning framework will need to be investigated for this town centre if its growth and development is to be appropriately managed.

Investigate a **Planning Framework** for each of the town centres

ACTIVITY

01

17

VINCENT TOWN CENTRE PLACE PLANS

02 MOVEMENT

THE MOVEMENT FOCUS AREA IS ABOUT CREATING A MORE WALKABLE ENVIRONMENT AND ENCOURAGING GREATER USE OF PUBLIC TRANSPORT. IT'S ABOUT CREATING THE ENVIRONMENT THAT ENCOURAGES CYCLING AS A VIABLE ALTERNATIVE TO DRIVING A CAR.

18

VINCENT TOWN CENTRE PLACE PLANS

RETHINKING MOVEMENT IN THE TOWN CENTRES

ITEM 2.1 - INTEGRATED TRANSPORT PLAN

The City does not currently have a strategic position on how it prefers its residents and visitors to 'get around'.

An Integrated Transport Plan that outlines actions relating to walking, cycling, public transport and cars (including car parking) is required. The Integrated Transport Plan should provide recommendations for additional cycling routes and improved connections to and through the town centres.

The 2016 Census data shows that car ownership in Vincent remains high. Most people still drive to work. A preference for cars impacts on the volume of vehicles moving through the local road network.

Instead of focusing on reducing vehicle congestion, attention should be given to promoting alternate travel methods and the improvement of non-car related infrastructure. Actions to improve and enhance walking, cycling and public transport should be developed and outlined in the Integrated Transport Plan.

Prepare an **Integrated Transport Plan**

RETHINKING MOVEMENT IN THE TOWN CENTRES

ITEM 2.2 - TRANSPORT INFRASTRUCTURE

Public transport is currently not as efficient and convenient as driving a car. There are very few east – west public transport connections between Vincent's town centres.

There are currently three east-west bus routes in the City of Vincent. The No. 15 bus runs between Leederville Town Centre and Charles Street before diverting southward to the City and the No. 402 and 990 connect Glendalough to Mount Hawthorn Town Centre before diverting southward on Loftus Street and Scarborough Beach Roads respectively, before continuing on to the City.

The poor east-west connections result in town centre visitors and workers being left with limited options other than to drive. Public transport bus and train services are all designed to service Perth, which means that a 10 minute east-west drive from Beaufort Street to Leederville can result in a 40 minute train ride. This increase in journey time is a deterrent for people to use public transport.

The CAT Service is a popular and highly effective short range bus service operating primarily in the City of Perth. The CAT Service does not extend into the City if Vincent's town centres but opportunities to extend this service and to improve east-west connections across Vincent should be explored.

Advocate to State Transport Authorities for **Transport Infrastructure Improvements** including improved east-west connections

RETHINKING MOVEMENT IN THE TOWN CENTRES

ITEM 2.3 - TRANSPORT EDUCATION PROGRAM

The impact that car parking has on the functionality and livability of Vincent's town centres seems to be misunderstood.

The high social and physical cost of car parking is often not realised or acknowledged. Developing additional car parking in established town centres can be difficult without large scale redevelopment. Continuing to develop at-grade, free and unrestricted parking to cater for increasing population and demand, is also a threat to the fabric of Vincent's town centres because it encourages driving, increases traffic and undermines public transport, cycling and walking.

The negative effect of too much car parking should be explained through an overall Transport Education Program. The Transport Education Program would need to effectively explain the benefits of improving car parking management processes and utilising alternative transport options.

Implement a **Transport Education Program**

RETHINKING MOVEMENT IN THE TOWN CENTRES

ITEM 2.4 - AFTER-HOURS TRANSPORT OPTIONS

Vincent's town centres can be difficult to access and/or leave via public transport after-hours.

Vincent's town centres are currently difficult to access at night by public transport. If you live nearby walking and cycling are viable options, but cars, ride share and taxis are generally the only other viable means of transport. Leederville and Beaufort Street are well serviced by trains and buses during the day, but service levels fall away significantly in the evening.

Changes need to be made to promote the use of public transport after dark and the City should work closely with ride share companies to encourage them to manage their drivers to minimise their impacts on the movement network.

Advocate for **After-hours Transport Options**

IMPROVING TOWN CENTRE ACCESSIBILITY

ITEM 2.5 - WAYFINDING STRATEGY

Wayfinding in Vincent's town centres is cluttered, unclear and limited.

Wayfinding is a critical component to the legibility and walkability of a place. Wayfinding can help determine how people decide to move through spaces. The decisions people make when moving through places are guided by architecture, urban design, landmarks and views. Those decisions are also supported by signage and tactile interventions (such as textured paving).

Wayfinding in Vincent's town centres has significant room for improvement. An over proliferation of signage and styles competes for attention and can result in confusion.

A Wayfinding Strategy should be prepared to:

- create a comprehensive, clear and consistent visual communication system with concise messaging; and
- only include the information that is relevant to the space, location and navigation path.

Develop a **Wayfinding Strategy**

IMPROVING TOWN CENTRE ACCESSIBILITY

ITEM 2.6 - LANEWAY NAMING

The City's Policy for naming Laneways and Rights of Way is difficult to use and has resulted in laneways being difficult to name.

Wayfinding improvements must encompass the naming of currently unnamed laneways in Vincent's town centres. Policy No. 2.2.8 Laneways and Rights of Way has presented some administrative difficulties and will need to be reviewed to make the naming process more efficient.

Review the naming requirements within the **Laneways and Rights of Way Policy 2.2.8**

IMPROVING TOWN CENTRE ACCESSIBILITY

ITEM 2.7 - BUS NOISE EMISSION IMPROVEMENTS

The noise generated by frequently passing buses is having an impact on the amenity of Vincent's town centres.

Further studies are required to confirm these impacts and assist further advocacy to the Public Transport Authority to invest in improvements to reduce noise emissions from their bus fleet.

Advocate to the Public Transport Authority for **Bus Noise Emission Improvements**

IMPROVING TOWN CENTRE ACCESSIBILITY

ITEM 2.8 - UNDERGROUND POWER

Overhead powerlines in Vincent's town centres are unattractive and stop trees from reaching full maturity.

Mature street trees are a simple yet vital component of the public realm, providing not only a more attractive and comfortable pedestrian environment, but also sensory stimulation with sound, movement and dappled natural light. Street trees enclose the street space with green canopies and provide a connection to the natural world from which urban dwellers can often have perceived disconnect.

Trees cannot reach maturity underneath overhead power lines due to Western Power's separation requirements. An investigation into the costs and benefits of underground power is necessary.

Investigate the costs and benefits of **Underground Power** in Vincent's town centres

UNDERGROUND POWER will contribute to Greening Vincent by allowing trees to mature, increasing canopy coverage and improving walkability.

MOVEMENT

02

21

VINCENT TOWN CENTRE PLACE PLANS

03 CHARACTER

WHAT ARE THOSE SPECIAL ELEMENTS OF A PLACE THAT MAKE IT DISTINCTIVE? IT IS THE BUILDINGS, THE BUSINESSES, THE PEOPLE, THE INSTITUTIONS, THE LOCAL STORIES, THE HISTORY? – IT'S THE TAPESTRY OF PLACES.

VINCENT TOWN CENTRE PLACE PLANS

CREATING PLACES FOR PEOPLE

ITEM 3.1 - HIGH QUALITY GROUND FLOOR DESIGN

The standard of ground floor design needs to be improved in all new developments.

Good ground floor design outcomes are a fundamental component to walkability and are crucial to the saleability of new ground floor tenancies and the long term success of businesses.

The City is committed to enforcing and promoting good, high quality ground floor design outcomes and will advocate to developers and businesses to achieve this.

Advocate for **High Quality Ground Floor Design** to the development industry and business community

NORTH PERTH TOWN CENTRE PLACE PLAN

00 INTRODUCTION

The North Perth Town Centre Place Plan (Place Plan) has been developed as a 'place based' strategic plan to guide the direction of funding and resources in the North Perth Town Centre.

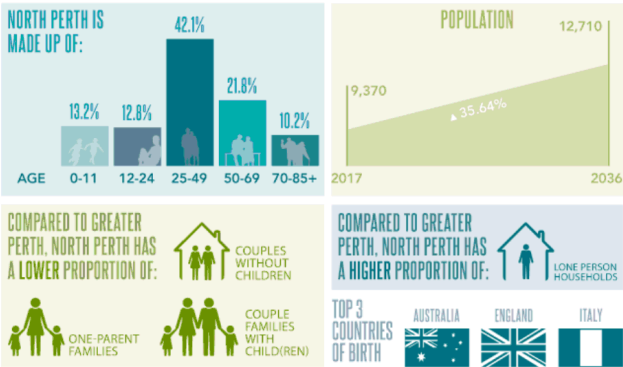

North Perth Town Centre is defined by its unique character, diverse mix of businesses and rich cultural history. Its characters, iconic businesses and heritage buildings contribute to its distinct sense of identity and are why it is like no other place.

After establishing as a commercial area in the late 19th century, North Perth Town Centre has reinvented itself a number of times. From commercial outpost, to bustling northern suburb with the state's largest primary school, to the settling place for immigrants that have imbued the place with layers upon layers of cultural diversity. North Perth Town Centre is emerging as a vibrant and highly liveable destination. There are great challenges ahead, but also great opportunities.

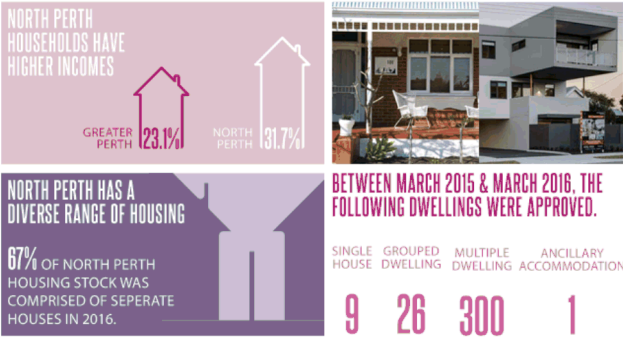

HISTORIC SNAPSHOT

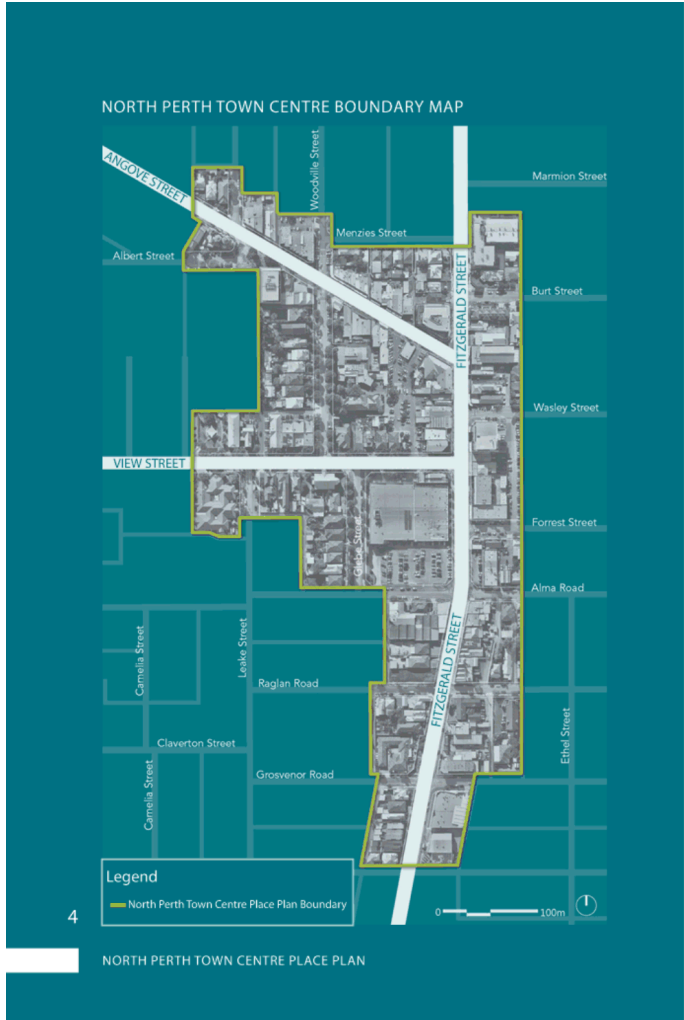

DEMOGRAPHIC SNAPSHOT

ECONOMIC SNAPSHOT

NORTH PERTH TOWN CENTRE PLACE PLAN

PLACE PLAN PURPOSE & PROCESS

The Place Plan outlines the funds and resources the City has specifically committed to the North Perth Town Centre. The boundary of North Perth Town Centre (refer **North Perth Town Centre Boundary Map**) extends beyond the City of Vincent's Town Planning Scheme No. 2 District Centre Scheme Zone, to incorporate the commercial, cultural, and community offering in the immediate vicinity of Angove Street and Fitzgerald Street.

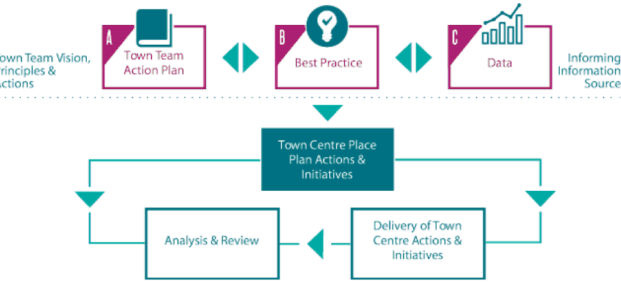

The Place Plan lists the implementation schedule for all of the major initiatives being undertaken in the North Perth Town Centre by the City of Vincent. Such initiatives include but are not limited to public realm upgrades, marketing initiatives, economic and community development projects and/or policy and procedural improvements. The Place Plans provide a robust, planned and integrated approach to project identification and delivery.

The strategies and actions within the Place Plan are cross checked against the following three sources:

- A. the content and identified actions within the North Perth Local Action Plan;
- B. best practice; and
- C. data collected through the Town Centre Performance Measurement Strategy.

The diagram below identifies the process in which Place Plan actions are prepared.

The Place Plan will be reviewed and updated annually. Anyone who wants to know what the City of Vincent is doing in the North Perth Town Centre can read this document and learn about the broad range of projects the City is undertaking, and the direction the City is taking to support and improve the town centre.

The Implementation Framework sets out the actions, time frames and teams who are responsible for the delivery of the actions and projects.

NORTH PERTH LOCAL

Each of the City of Vincent town centres has a 'town team'. The town teams are independently formed incorporated bodies that aim to make their respective town centres the best places they can possibly be. The town teams are not an affiliate of the City but do receive funding for community driven initiatives. The town teams are made up of a diverse range of members that include business owners, land owners and local residents. Each town team member brings a different set of skills and life experiences to the table and these collectively shape the direction, composition and identity of the five town teams.

The town teams and the City enjoy a symbiotic relationship. The City engages directly with each town team on a variety of issues that are specific to their respective town centres and the town teams are able to effectively communicate issues, solutions and ideas to the City through their strategic Action Plans. The City works collaboratively with the town teams to deliver locally based activities/events, physical improvements and economic and community development initiatives.

North Perth Local is the town team operating in the North Perth Town Centre. North Perth Local's Action Plan outlines a range of objectives and principles as well as their key focus areas.

NORTH PERTH TOWN CENTRE PLACE PLAN

HOW TO READ THIS DOCUMENT!

The North Perth Town Centre Place Plan is structured around three Key Focus Areas:

01 ACTIVITY Sets out the actions and projects which assist the City to enhance activity in the town centre in order for it to reach its activation and economic potential.

02 MOVEMENT Sets out the actions and projects which enhance walkability, improve the use of public transport, deliver parking efficiencies and create a more pedestrian and cycle friendly town centre.

03 CHARACTER Sets out the actions and projects which contribute to North Perth's unique sense of place.

The City of Vincent is committed to 'Greening Vincent' by increasing overall canopy cover, creating more liveable and walkable neighbourhoods and fostering biodiversity within the City of Vincent. Major greening projects are identified in:

- the City's Greening Plan Implementation Schedule; and
- the actions in the Place Plan that are demarcated with the Vincent Greening Icon below.

GREENING Any action that has a greening component is marked with the City of Vincent's Greening Plan Icon.

IMPLEMENTATION FRAMEWORK Sets out the actions, time frames and the responsible teams for the delivery of all of the identified projects.

Each project is explained using the following three step process:

STEP 1

DIAGNOSIS
Diagnosing the issue or opportunity evident in North Perth Town Centre. These may be identified in North Perth Local's Action Plan, as an opportunity to achieve best practice or through the analysis of data.

STEP 2

ANALYSIS
Analysing the detail of the issue or opportunity to understand the best path forward.

STEP 3

SOLUTION
Proposing a solution that solves the issue or seizes the opportunity.

01 ACTIVITY

NORTH PERTH TOWN CENTRE WILL CONTINUE TO BE A BEAUTIFUL PLACE WHERE THE COMMUNITY LIVE, WORK AND PLAY AND WHERE A THRIVING LOCAL ECONOMY SUPPORTS PROSPEROUS AND PASSIONATE LOCAL, INDEPENDENT BUSINESSES.

EVENTS & ACTIVATION

ITEM 1.1 - NORTH PERTH COMMON (TOWN SQUARE)

There is limited activity in North Perth Town Centre and not enough comfortable urban open space in the North Perth Town Centre.

Currently there are only two formal public spaces in the North Perth Town Centre and these are both located on the western fringe of the town centre boundary (refer **Existing Public Open Space Map**).

The North Perth Master Plan 2012 identifies the need for a centrally located public space in the town centre. The Master Plan shows a piazza space at the corner of View Street and Fitzgerald Street but the concept in the Master Plan is constrained by private ownership. Following a detailed investigation, Council approved the design and development of a public space at the corner of View Street and Fitzgerald Street including the development of a shared space called North Perth Common on the View Street road reserve.

North Perth Common was designed and delivered in 2018/2019 to be utilised for curated events and activities. The City should facilitate the activation of this space to attract and encourage people to 'linger longer'.

Facilitate the ongoing activation of **North Perth Common** (Town Square)

PUBLIC OPEN SPACE

ITEM 1.2 - WOODVILLE RESERVE MASTER PLAN

Woodville Reserve contains a number of community uses including the North Perth Tennis Club, North Perth Bowls Club, Vincent Men's Shed and North Perth Community Garden. These uses and associated facilities are disconnected from one another and from the North Perth Town Centre.

The community facilities at Woodville Reserve have developed incrementally over time. They are well patronised but spatially disconnected. The poor physical relationships between them has inhibited the building of strong relationships between the community groups who inhabit them.

The City is committed to preparing a master plan for Woodville Reserve. Opportunities to develop a positive synergy between Woodville Reserve, the surrounding community uses and the North Perth Town Centre will be explored. The master plan will consider the legibility of this site and how the activity generated by the community uses can better link to the town centre.

Prepare **Woodville Reserve Master Plan**

WOODVILLE RESERVE MASTER PLAN will contribute to the greening of Vincent by making better use of the existing green space and by exploring opportunities to increase canopy cover.

NIGHT TIME ECONOMY

ITEM 1.3 - NORTH PERTH'S NIGHT TIME ECONOMY

North Perth Town Centre has a weak night time economy compared with other nearby town centres.

The **After hours Trading Map** shows the businesses that are open after 6pm. The primary generators of after hours activity in the North Perth Town Centre are the supermarket in the North Perth Plaza shopping centre and the Rosemount Hotel. Both of these uses attract specific target audiences with different habits and behaviours. Reviewing the City's car parking requirements for night time related land uses may improve the affordability of setting up after hours venture. Similarly, a review of the land use permissibility in the City's Town Planning Scheme may remove the need for community advertising and Council approval or even the need for planning approval altogether.

There is an opportunity to leverage the activity generated after hours by the local supermarket and the future North Perth Common (Town Square) to encourage after hour's uses in the immediate area.

Ensure updates to the planning and policy framework facilitate the development of **North Perth's Night Time Economy**

TOWN CENTRE SAFETY

ITEM 1.4 - CCTV NETWORK

There is no City of Vincent CCTV in the North Perth Town Centre.

The City is required to review the City's CCTV Strategy and this review may result in specific recommendations for the North Perth Town Centre. A CCTV network can contribute to community safety and security, especially after hours.

The **North Perth Local Action Plan** identifies a need to focus on community safety.

Implement the recommendations of the 2017/18 review of the City's **CCTV Network**

NORTH PERTH TOWN CENTRE PLACE PLAN

AFTER HOURS TRADING MAP

Legend

Businesses Opened after 6pm

- Open 24hr
- Open to 12am/1am
- Open to 10pm/ 12am
- Open to 10pm/ 11pm
- Open to 8pm/ 9pm

TOWN CENTRE SAFETY

ITEM 1.5 - LIGHTING IMPROVEMENTS

There are some poorly lit areas in the North Perth Town Centre.

Pedestrian safety and the quality of lighting in the North Perth Town Centre is generally considered to be good. The lighting on secondary streets and key walking routes that lead to the town centre could be improved to enhance the pedestrian environment after hours.

The **North Perth Local Action Plan** identifies a need to focus on community safety.

Investigate **Lighting Improvements** on View Street and Angove Street

DEVELOPMENT OPPORTUNITIES

ITEM 1.6 - NORTH PERTH PLAZA

The North Perth Plaza is an unattractive, underdeveloped, car oriented shopping centre located in the heart of the North Perth Town Centre.

It is yet to reach its potential as a key destination and lacks connectivity to the street.

The ownership of North Perth Plaza presents some constraints for redevelopment in the short term but the sites location presents significant redevelopment opportunity in the longer term. The City is well positioned to support and advocate for redevelopment in the future.

The City should advocate to North Perth Plaza landowners and/or interested third parties to develop a future design for the site that delivers the right mix of land uses, compliments the local character and includes high quality public spaces and the integration of the adjacent North Perth Plaza bus stop.

Facilitate stakeholder negotiations to redevelop the **North Perth Plaza**

NORTH PERTH TOWN CENTRE PLACE PLAN

Item 9.5- Attachment 2

Page 223

DEVELOPMENT OPPORTUNITIES

ITEM 1.7 - VIEW STREET CAR PARK URBAN DESIGN CONCEPT

The City has limited land holdings in the town centre (refer **City Owned Land Map**). The use of the premium, centrally located, City owned land at Lots 15, 16 and 40 View Street is not currently of significant benefit to the town centre. Lot 15 supports an underutilised dwelling and the remaining lots form a car park with limited efficiencies.

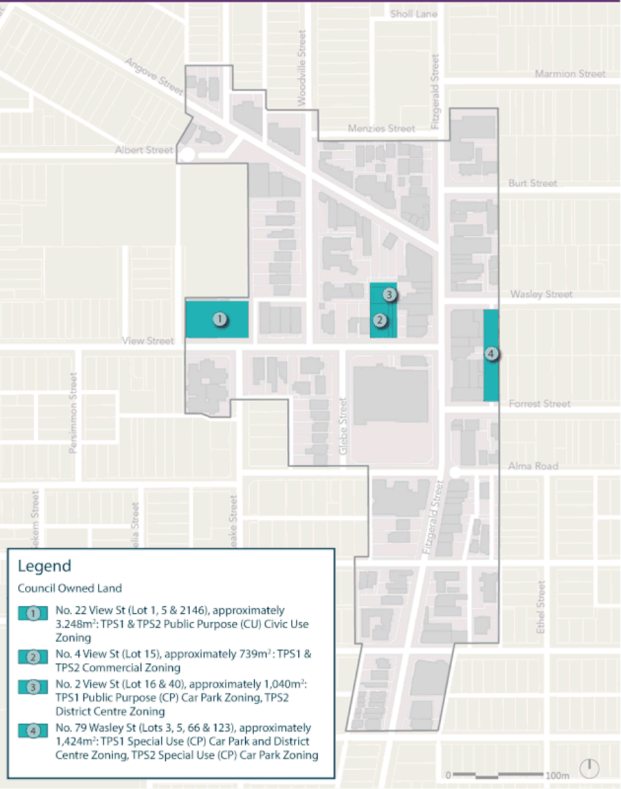

The City does not have a strategy outlining how its town centre landholdings should be used but it is evident that Lots 15,16 and 40 View Street are not fulfilling their potential. The land is located adjacent to the neighbouring Rosemount Hotel Car Park and presents an opportunity to improve parking efficiencies, pedestrian links and deliver high quality infill development and urban open space.

This opportunity was identified in the North Perth Master Plan 2012 and the City is now in a position to determine how this land could be utilised for the benefit of the town centre.

Prepare an **Urban Design Concept for View Street Car Park** and surrounds

VIEW STREET CAR PARK URBAN DESIGN CONCEPT will incorporate additional tree planting along identified key pedestrian links that will contribute to the greening of Vincent.

COUNCIL OWNED LAND MAP

IMPROVING TOWN CENTRE ACCESSIBILITY

ITEM 2.1 - ANGOVE/FITZGERALD ST INTERSECTION

The Angove/Fitzgerald Street Intersection is difficult for pedestrians to cross.

The pedestrian environment at the Angove Street and Fitzgerald Street intersection is currently poor and somewhat difficult to cross. Improvements to the design and management of this intersection should be explored to enhance pedestrian and cyclist movement. Cycling starter boxes should also be considered at this intersection.

Plan **Angove/Fitzgerald Street Intersection** Improvements

IMPROVING TOWN CENTRE ACCESSIBILITY

ITEM 2.2 - ALBERT/ANGOVE JUNCTION SHARED SPACES

The Albert/Angove Junction could be Vincent's highest quality pedestrian environment.

The Albert/Angove Junction was upgraded in 2016 from an unusable verge space to a comfortable public space. It is now able to host a range of activities and small scale events.

The location of the space lends itself to further refinement, being enclosed by well-designed ground floor tenancies, medium density residential, the North Perth Primary School and the Macedonian Orthodox Church.

This space has the potential to be expanded into the surrounding road network via a series of shared spaces that would give greater priority to active transport modes.

Plan and implement **Shared Spaces at Angove Street and Albert Street junction** adjacent to Albert Square public open space

02 MOVEMENT

THE NORTH PERTH TOWN CENTRE WILL FIND THE RIGHT BALANCE BETWEEN CARS, BUSES, BICYCLES AND PEDESTRIANS, BECOMING A GREAT PLACE FOR PEOPLE AND BUSINESS.

IMPROVING TOWN CENTRE ACCESSIBILITY

ITEM 2.3 - FITZGERALD STREET UPGRADES

Fitzgerald Street is not a comfortable place for pedestrians.

Fitzgerald Street is classified as an 'Other Regional Road' in the Metropolitan Region Scheme. This means Fitzgerald Street is considered an important road for connecting people and goods. Our state roads authority, Main Roads Western Australia (MRWA) advise and assist the City of Vincent in the management of Fitzgerald Street.

Fitzgerald Street has another important purpose. It is a place for people. It connects people between businesses on the eastern and western side of the street. It contains the street trees that shade people as they walk on its footpaths and the public art that people admire as they sit on public benches.

Data shows that on average vehicle speeds on Fitzgerald Street do not exceed the speed limit and are comparable to neighbouring Beaufort Street. Yet Beaufort Street functions better as a place for people – why? Observational studies show that noise, constant traffic movement, narrow footpath widths, and buses passing close to pedestrians are impacting pedestrian comfort in a negative way.

It is difficult to cross Fitzgerald Street. Guard rails installed to improve safety actually reduce the ability for pedestrians and cyclists to cross the road and inadvertently reduce driver focus.

The attractiveness of North Perth Town Centre is also impacted by streetscape clutter. This includes road signs, guard rails, business signage and poorly located street furniture. Removing much of this clutter will improve the attractiveness of the town centre.

Improvements to the streetscape including investigating an increase in footpath widths, reducing intersection sizes and further investigating the need for more bicycle parking will induce more walking and cycling. Where possible active transport modes should gain priority over vehicles.

14

NORTH PERTH TOWN CENTRE PLACE PLAN

A raised plateau on Fitzgerald Street should be investigated to improve pedestrian movement across Fitzgerald Street. This is consistent with the North Perth Master Plan 2012.

Plan and implement **Upgrades to Fitzgerald Street**

FITZGERALD STREET UPGRADES will include further street tree plantings and potential landscaping that will contribute to the greening of Vincent.

IMPROVING TOWN CENTRE ACCESSIBILITY

ITEM 2.4 - NORTH PERTH BUS STOP UPGRADE & NAMING

The North Perth Plaza bus stop is bland, standard and without an identity.

Giving important locations a sense of identity is a central principle of wayfinding and this is especially relevant to North Perth's most centrally located public transport node.

Naming the bus stop and affirming it as a key public transport node may provide further impetus to the revitalisation of North Perth Plaza and other landholdings.

Advocate to the Public Transport Authority for **North Perth Plaza Bus Stop Upgrade and Naming**

15

NORTH PERTH TOWN CENTRE PLACE PLAN

03 CHARACTER

NORTH PERTH TOWN CENTRE SHOULD EMBRACE WHAT MAKES IT DISTINCTIVE. WHAT ARE THOSE SPECIAL ASPECTS THAT MAKE IT DIFFERENT FROM OTHER PLACES? IS IT THE BUILDINGS, THE BUSINESSES, THE PEOPLE, THE INSTITUTIONS, THE LOCAL STORIES, THE HISTORY? - IT'S ALL OF THOSE THINGS OF COURSE.

THESE SPECIAL THINGS CAN AND WILL BE CELEBRATED THROUGH THE BRANDING & MARKETING OF THE TOWN CENTRE. HOWEVER, THERE ARE SOME SPECIFIC ACTIONS THE CITY CAN TAKE TO IMPROVE FITZGERALD STREET & CAPITALISE ON THE TRADITIONAL HERITAGE BUILDINGS ON VIEW STREET.

CREATING PLACES FOR PEOPLE

ITEM 3.1 - NORTH PERTH PLAZA SITE IMPROVEMENTS

- North Perth Plaza is an unattractive ageing shopping centre that does not add positively to the character of the town centre or provide a comfortable walking environment for pedestrians.
- North Perth Plaza is a centrally located, key destination for town centre visitors. It is passed by more than 24,000 vehicles per day, heading both north and south along Fitzgerald Street and its prominent location sets the scene for the surrounding town centre.
- The footpath adjacent to the North Perth Plaza is cluttered with bollards, poorly located seating and empty planter boxes. De-cluttering the streetscape and upgrading the laneway on the north side of the Plaza will improve pedestrian comfort, enhance the Plazas visual appeal and make the site a better place for people. Carefully located and designed bicycle parking would also be beneficial especially in close proximity to the North Perth Plaza bus stop.
- Encourage **North Perth Plaza Site Improvements**

NORTH PERTH PLAZA SITE IMPROVEMENTS will contribute to the greening of Vincent by providing opportunities for additional planting on this key town centre site.

HERITAGE

ITEM 3.2 - NORTH PERTH TOWN HALL

- The North Perth Town Hall is a significant asset to the town centre but is currently underutilised.
- The recently renovated North Perth Town Hall has the potential to be used more effectively. The North Perth Town Hall should be accessible to the entire community and a place where people come to meet. It is an ideal location for more community events and work will be undertaken to increase its use.
- Maximise the use of the **North Perth Town Hall** and capitalise on its cultural significance and character

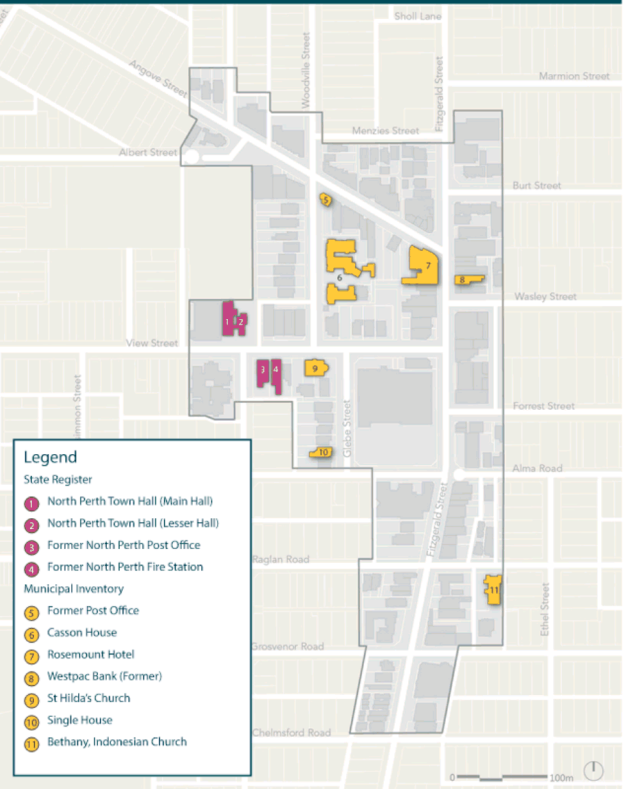

HERITAGE

ITEM 3.3 - VIEW STREET LANDSCAPE LINK

- The traditional heritage buildings on View Street are hidden from the rest of the town centre.
- The pedestrian connections between Fitzgerald Street and the traditional heritage town centre along View Street are currently poor. The implementation of a green link and improved wayfinding would improve the pedestrian connectivity between Fitzgerald Street and the State Registered heritage buildings. The link could include additional landscaping such as verge upgrades and street tree plantings.
- North Perth Master Plan 2012 identified the opportunity to develop this landscape link and the City is now in a position to implement it.
- Plan & implement a **View Street Landscape Link** along View Street between Fitzgerald Street and the traditional heritage buildings

VIEW STREET LANDSCAPE LINK will contribute to the greening of Vincent by increasing the canopy cover and planting along View Street.

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

00 INTRODUCTION

The Mount Hawthorn Town Centre Place Plan (Place Plan) has been developed as a 'place based' strategic plan to guide the direction of funding and resources in the Mount Hawthorn Town Centre.

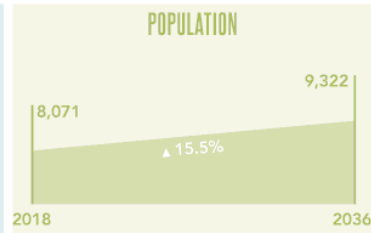

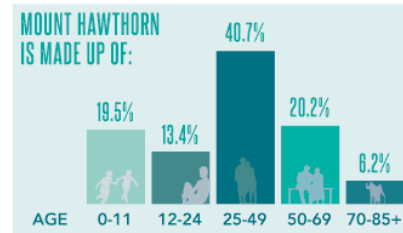

Mount Hawthorn Town Centre is defined by its unique landscape character and rich history. It extends from Braithwaite Park in the west to Britannia Road in the south and incorporates Axford Park. Traditional fine-grain shops front Scarborough Beach Road with an emerging mix of businesses along the north of Oxford Street.

Mount Hawthorn has evolved from a satellite centre serviced by trams in the late 19th century, to a cosmopolitan migrant settlement, to a community oriented suburban village with a bustling local centre. Mount Hawthorn Town Centre is a highly valued, attractive local destination which presents opportunities to better service the local community and accommodate additional residents.

HISTORIC SNAPSHOT

DEMOGRAPHIC SNAPSHOT

ECONOMIC SNAPSHOT

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

INTRODUCTION

00

3

PLACE PLAN PURPOSE & PROCESS

The Place Plan outlines the funds and resources the City has specifically committed to the Mount Hawthorn Town Centre. The boundary of Mount Hawthorn Town Centre (refer **Mount Hawthorn Town Centre Boundary Map**) extends beyond the City of Vincent's Town Planning Scheme No. 2 District Centre Scheme Zone, to incorporate the commercial offering in the immediate vicinity of Oxford Street and Scarborough Beach Road.

The Place Plan lists the implementation schedule for all of the major initiatives being undertaken in the Mount Hawthorn Town Centre by the City of Vincent. Such initiatives include but are not limited to public realm upgrades, marketing initiatives, economic and community development projects and/or policy and procedural improvements. The Place Plans provide a robust, planned and integrated approach to project identification and delivery.

following three sources:

- A.** the content and identified actions within the Mount Hawthorn Hub Action Plan;
- B.** best practice; and
- C.** data collected through the Town Centre Performance Measurement Strategy.

The diagram below identifies the process in which Place Plan actions are prepared.

The Place Plan will be reviewed and updated annually. Anyone who wants to know what the City of Vincent is doing in the Mount Hawthorn Town Centre can read this document and learn about the broad range of projects the City is undertaking, and the direction the City is taking to support and improve the town centre.

The Implementation Framework sets out the actions, time frames and teams who are responsible for the delivery of the actions and projects.

MOUNT HAWTHORN HUB

Each of the City of Vincent town centres has a 'town team'. The town teams are independently formed incorporated bodies that aim to make their respective town centres the best places they can possibly be. The town teams are not an affiliate of the City but do receive funding for community driven initiatives. The town teams are made up of a diverse range of members that include business owners, land owners and local residents. Each town team member brings a different set of skills and life experiences to the table and these collectively shape the direction, composition and identity of the five town teams.

The town teams and the City enjoy a symbiotic relationship. The City engages directly with each town team on a variety of issues that are specific to their respective town centres and the town teams are able to effectively communicate issues, solutions and ideas to the City through their strategic Action Plans. The City works collaboratively with the town teams to deliver locally based activities/events, physical improvements and economic and community development initiatives.

Mount Hawthorn Hub is the town team operating in the Mount Hawthorn Town Centre. Mount Hawthorn Hub's Action Plan outlines a range of objectives and principles as well as their key focus areas.

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

HOW TO READ THIS DOCUMENT!

Mount Hawthorn Town Centre Place Plan is structured around three Key Focus Areas:

01 ACTIVITY Sets out the actions and projects which assist the City to enhance activity in the town centre in order for it to reach its activation and economic potential.

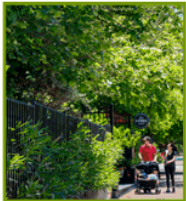

02 MOVEMENT Sets out the actions and projects which enhance walkability, improve the use of public transport, deliver parking efficiencies and create a more pedestrian and cycle friendly town centre.

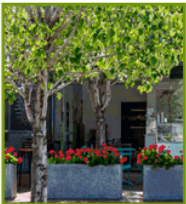

03 CHARACTER Sets out the actions and projects which contribute to Mount Hawthorn's unique sense of place.

The City of Vincent is committed to 'Greening Vincent' by increasing overall canopy cover, creating more liveable and walkable neighbourhoods and fostering biodiversity within the City of Vincent. Major greening projects are identified in:

- the City's Greening Plan Implementation Schedule; and
- the actions in the Place Plan that are demarcated with the Vincent Greening Icon below.

GREENING Any action that has a greening component is marked with the City of Vincent's Greening Plan Icon.

IMPLEMENTATION FRAMEWORK Sets out the actions, time frames and the responsible teams for the delivery of all of the identified projects.

Each project is explained using the following three step process:

01 ACTIVITY

MOUNT HAWTHORN TOWN CENTRE WILL CONTINUE TO BE A BEAUTIFUL PLACE WHERE THE COMMUNITY LIVE, WORK AND PLAY AND WHERE A THRIVING LOCAL ECONOMY SUPPORTS PROSPEROUS AND PASSIONATE LOCAL, INDEPENDENT BUSINESSES.

EVENTS & ACTIVATION

ITEM 1.1 - FREE WIFI

There is currently no free WiFi in Mount Hawthorn Town Centre.

The City has committed to investigating options for enhanced telecommunications infrastructures and services such as free public WiFi as outlined in the City's Strategic Community Plan.

Free public WiFi supports mobility, and attracts workers, students and other potential visitors to commercial places such as town centres. Opportunities to implement Free WiFi in public town centre spaces, such as Axford Park, should be explored to determine potential benefits and priority locations.

The **Mt Hawthorn Hub Action Plan** identifies Free WiFi across the town centre as necessary to support the positive growth of Mount Hawthorn.

Determine options to implement **Free WiFi** in priority town centre locations

MARKETING & BRANDING

ITEM 1.2 - BANNER POLES

Town centre banner poles are not installed along Oxford Street North.

Oxford Street North is an integral component of the Mount Hawthorn Town Centre and is the southern entry from Leederville into the town centre. The lack of banner poles make it difficult for the City to consistently market and brand the whole town centre and Mount Hawthorn events and initiatives.

The **Mt Hawthorn Hub Action Plan** identifies Place Branding as an area for improvement.

Investigate the installation of **Banner Poles** along Oxford Street North

PUBLIC OPEN SPACE

ITEM 1.3 - AXFORD PARK UPGRADE

Axford Park is a significantly underutilised town centre asset.

Axford Park is centrally located in the town centre, connecting Oxford Street with the traditional main street along Scarborough Beach Road (refer **Existing Public Open Space Map**)

The City's Public Open Space Strategy identifies the need to establish a high quality civic open space within the town centre and a Concept Design to deliver this at Axford Park was adopted by Council in 2018.

The Concept Design considers Axford Park as the 'Front Yard of Mount Hawthorn' and takes inspiration from the character housing seen throughout the suburb. The design depicts the long term plan for the park and is split into stages to enable the park to be upgraded over time in a sustainable, staged manner.

Although a number of stages are poised to be delivered in the immediate future, other stages are reliant on the redevelopment of adjacent lots and/or modal shift away from private vehicle use.

To ensure the park reaches its potential as a well utilised community gathering space in the short term, the City should invest in the design and delivery of the upgrade stages which aren't reliant on external factors.

Design and deliver the first phase of **Axford Park Upgrade**

AXFORD PARK UPGRADE will contribute to the greening of Vincent by making better use of the existing green space and converting underperforming road reserve to additional town centre green space.

EXISTING PUBLIC OPEN SPACE MAP

ACTIVITY

01

9

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

NIGHT TIME ECONOMY

ITEM 1.4 - NIGHT TIME ECONOMY

Mount Hawthorn Town Centre has a weak night time economy compared with other nearby town centres.

The **After Hours Trading Map** shows the businesses that are open after 6pm.

There is an opportunity to leverage the activity generated after hours by restaurants and bars along Scarborough Beach Road and the Mount Hawthorn Hawkers Market on Friday evenings to encourage after hour's uses in the immediate area.

The **Mt Hawthorn Hub Action Plan** identifies a need to support and encourage activities that strengthen the night-time economy. Prior to supporting the development of the night time economy, the City needs to better understand why more night time activities are not attracted to the town centre and what the barriers inhibiting existing businesses from extending trading hours are.

Identify barriers inhibiting Mount Hawthorn's **Night Time Economy** in consultation with local businesses and determine actions to address these

TOWN CENTRE SAFETY

ITEM 1.5 - LED STREET LIGHTS

The street lights along Scarborough Beach Road and Oxford Street function poorly at night and are not energy efficient.

The Western Power street lights along Scarborough Beach Road and Oxford Street are high pressure sodium (yellow) lamps which do not efficiently or consistently light the streets at night. The lights are poorly maintained and delays to repair them often leave the town centre main streets in darkness.

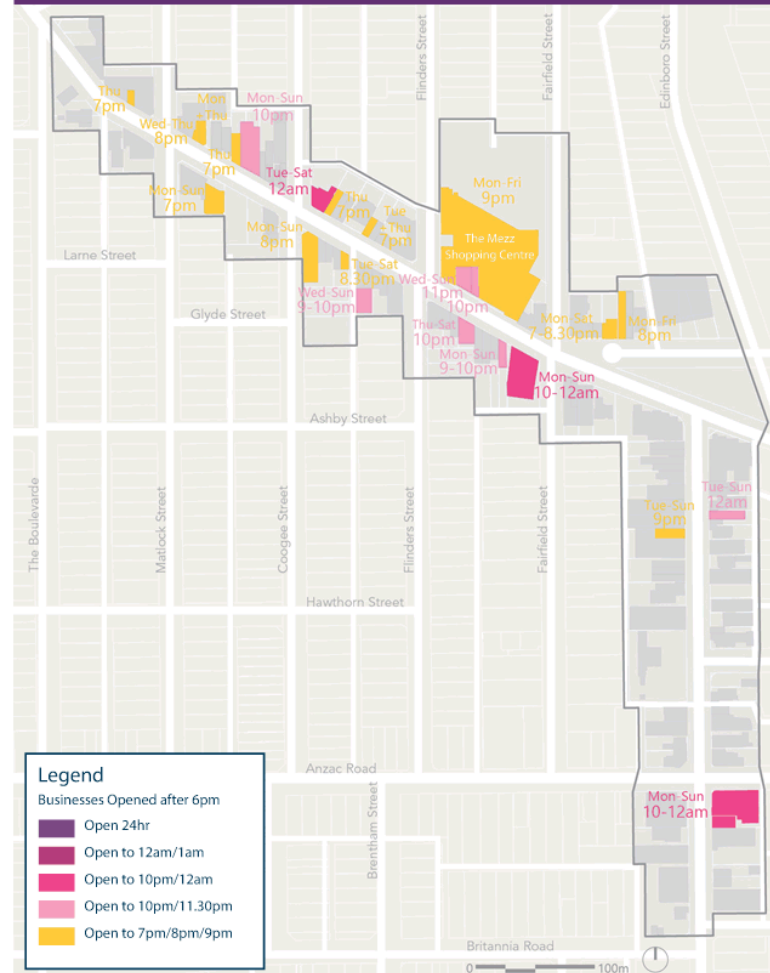

Western Power LED high efficiency long life luminaires are now available and the **Mt Hawthorn Hub Action Plan** identifies a need to improve lighting in the town centre.

Install **LED Street Lights** along Scarborough Beach Road and Oxford Street

10

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

AFTER HOURS TRADING MAP

TOWN CENTRE SAFETY

ITEM 1.6 - CAR PARK LIGHTING IMPROVEMENTS

Flinders Street Car Park is poorly illuminated at night.

There is an opportunity to replace existing luminaires in the City's car park with LED pole mounted or post top luminaires to promote safety and security.

The **Mt Hawthorn Hub Action Plan** identifies a need to improve lighting in the town centre.

Investigate **Lighting Improvements** in the Flinders Street Car Park

TOWN CENTRE SAFETY

ITEM 1.7 - LANE LIGHTING IMPROVEMENTS

The lanes between Flinders Street and Oxford Street are poorly illuminated at night.

The City currently receives reports of anti-social behaviour occurring in these lanes. Through the Australian Government Safer Communities Program, there is an opportunity to install solar lighting to promote safety and security.

Implement **Lane Lighting Improvements** in the lanes between Flinders Street and Oxford Street

DEVELOPMENT OPPORTUNITIES

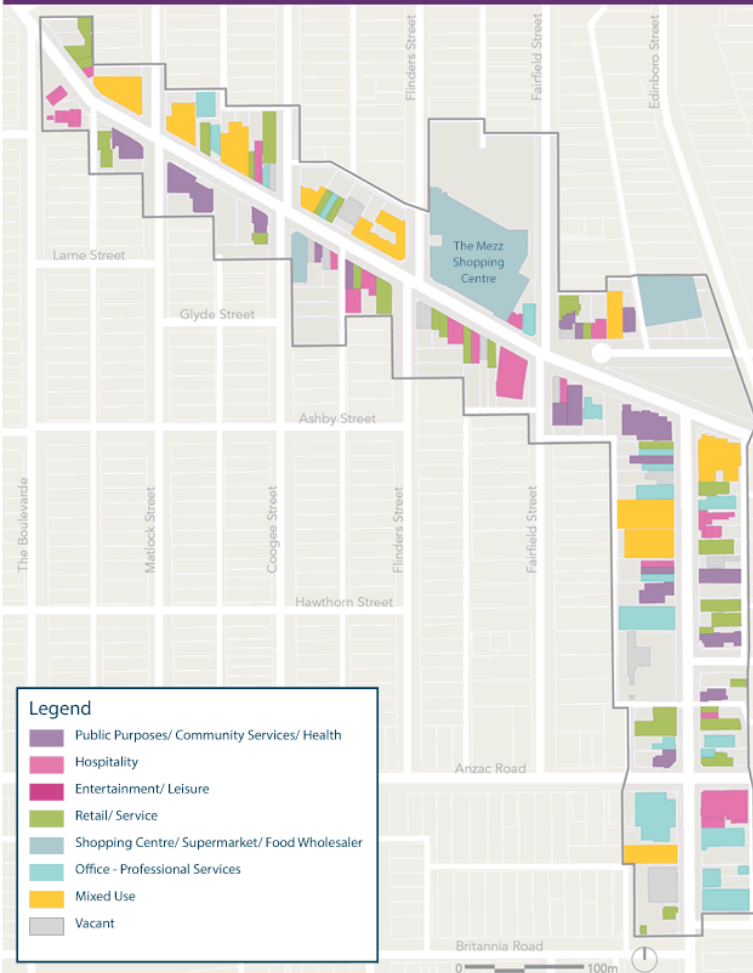

ITEM 1.8 - FUTURE YOUTH SPACE

There is a significant gap in the provision of infrastructure to service the needs of teenagers and young adults in Mount Hawthorn.

The City's Public Open Space Strategy identifies a significant accessibility gap for youth oriented infrastructure in Mount Hawthorn and the **Mt Hawthorn Hub Action Plan** identifies a need to undertake an engagement strategy to inform the development of a permanent youth space for residents.

Undertake consultation to identify a preferred location for a **Future Youth Space** in the town centre or surrounds

LAND USE MAP

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

ACTIVITY

01

11

02 MOVEMENT

THE MOUNT HAWTHORN TOWN CENTRE WILL FIND THE RIGHT BALANCE BETWEEN CARS, BUSES, BICYCLES AND PEDESTRIANS, BECOMING A GREAT PLACE FOR PEOPLE AND BUSINESS.

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

RETHINKING MOVEMENT IN THE TOWN CENTRE

ITEM 2.1 - INTERSECTION IMPROVEMENTS

The Scarborough Beach Rd/Oxford St intersection is not pedestrian friendly.

The pedestrian environment at the Scarborough Beach Road and Oxford Street intersection is poor and vehicle dominated. Improvements to the design and management of this intersection should be explored to enhance aesthetics and improve pedestrian and cyclist movement. Private as well as public infrastructure could be upgraded to enhance this key location.

The **Mt Hawthorn Hub Action Plan** identifies an opportunity to incorporate street art to improve the streetscape and to create a point of interest which signals to drivers to slow down.

Plan and facilitate Scarborough Beach Road/Oxford Street **Intersection Improvements**

RETHINKING MOVEMENT IN THE TOWN CENTRE

ITEM 2.2 - PARKING MANAGEMENT

The parking restrictions in lots adjoin Flinders Street Car Park are inconsistent and cause confusion.

There are three separately owned car parks adjoin the City's Flinders Street Car Park. The boundaries of these car park areas are unclear and the varied restrictions and signage confusing. The fragmentation of the car parking inevitably means the available parking is not fully utilized.

An opportunity exists to consolidate the management of these car parks to maximise the use of available car parking. With consistent external and internal signage there will be more effective sharing of parking and improved perceptions of the availability of public parking.

Rationalise the **Parking Management** of adjoining car parks between Fairfield Street and Flinders Street

RETHINKING MOVEMENT IN THE TOWN CENTRE

ITEM 2.3 - FORMALISE EDINBORO STREET PARKING

Verge parking along Edinboro Street is a common occurrence and parking in this area is poorly managed.

Verge parking to accommodate parking overflow to the north of Hobart Street along Edinboro Street has become an increasingly prevalent issue due to the large unrestricted verges, the streets proximity to the town centre and the limited formalised bays.

Formalising parking along the Edinboro Street road reserve, directly north of Hobart Street, may increase parking provision at the eastern end of the town centre and enable the City to better manage the efficient and effective use of parking in this area.

Investigate the potential to **Formalise Parking** along Edinboro Street

MOVEMENT

02

13

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

14

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

RETHINKING MOVEMENT IN THE TOWN CENTRE

ITEM 2.4 - OXFORD STREET NORTH UPGRADE

Oxford Street North has no discernible entry from the southern approach.

To improve pedestrian, cyclist and visitor amenity along Oxford Street North and to bring the area in line with its counterpart along Scarborough Beach Road, the City has recently implemented a number of streetscape upgrades.

The upgrades have included street tree planting for enhanced shade and beautification, red asphalt to denote the town centre area, a central median for pedestrian refuge and improved walkability, new motorcycle bays and bike racks as well as speed humps to accommodate a potential 30km/h zone to slow traffic and create a place for people.

The streetscape has never looked better but the southern entry could be better defined. To signify entry into this pedestrian first environment, the installation of decorative lighting at the Anzac Road entry point should be implemented.

Install decorative lighting at the Anzac Road roundabout to denote the southern town centre entry and complete the **Oxford Street North Upgrade**

OXFORD STREET NORTH UPGRADE has included significant street tree planting which has contributed to the greening of Vincent.

IMPROVING TOWN CENTRE ACCESSIBILITY

ITEM 2.5 - OXFORD STREET NORTH 30KM/H SPEED ZONE

Oxford Street North has a 50km/h speed limit which is not ideal for a people first, town centre environment.

The City recently implemented a number of traffic calming measures including reducing the carriageway width, denoting the town centre with red asphalt, planting median and footpath street trees and installing low profile speed humps and shared space symbols along Oxford Street North.

To prioritise active transport, complement these physical interventions and create a safer environment for pedestrians and cyclists, the City should negotiate the reduction of the 50km/h speed zone to 30km/h.

This speed limit reduction will require approval from the state roads authority, Main Roads Western Australia (MRWA) and will require supporting data such as traffic and speed counts.

Acquire traffic data and advocate for a **30km/h Speed Zone** along Oxford Street North

IMPROVING TOWN CENTRE ACCESSIBILITY

ITEM 2.6 - 40KM/H SPEED ZONE EXTENSION

The 40km/h speed along Scarborough Beach Road does not start at the eastern or western extent of the town centre.

The City should negotiate the extension of the 40km/h speed zone further east along Scarborough Beach Road to incorporate Edinboro Street and address the Shakespeare Street Bike Boulevard and further west along Scarborough Beach Road to meet the 40km/h school zone.

Drivers approach the town centre from the east with little awareness they are entering a people first environment and are currently required to change speeds from 40km/h to 50km/h back to 40km/h at the western end of the town centre. The extension of the 40km/h speed zone will ensure drivers slow down well before entering the town centre which will enhance pedestrian comfort, particularly at the Scarborough Beach Road/Oxford Street intersection and at Axford Park.

Advocate for the extension of the **40km/h Speed Zone** east and west along Scarborough Beach Road

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

03 CHARACTER

MOUNT HAWTHORN TOWN CENTRE SHOULD EMBRACE WHAT MAKES IT DISTINCTIVE. WHAT ARE THOSE SPECIAL ASPECTS THAT MAKE IT DIFFERENT FROM OTHER PLACES? IS IT THE BUILDINGS, THE BUSINESSES, THE PEOPLE, THE INSTITUTIONS, THE LOCAL STORIES, THE HISTORY? – IT'S ALL OF THOSE THINGS OF COURSE.

THESE SPECIAL THINGS CAN AND WILL BE CELEBRATED THROUGH THE BRANDING & MARKETING OF THE TOWN CENTRE. HOWEVER, THERE ARE SOME SPECIFIC ACTIONS THE CITY CAN TAKE TO IMPROVE OXFORD STREET, AXFORD PARK & CAPITALISE ON THE TRADITIONAL FINE GRAIN TOWN CENTRE DEVELOPMENT.

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

CREATING PLACES FOR PEOPLE

ITEM 3.1 - STREETScape AUDIT

Mount Hawthorn Town Centre incorporates the most greenery of the City's town centres and is well serviced by street furniture. However, there is an opportunity to rationalise the location of existing street furniture and potential to accommodate additional planting, furniture and streetscape improvements.

The City understands the importance of canopy cover and street furniture and the role they play in encouraging people to linger longer. In 2015 the City undertook a streetscape audit in conjunction with the Mt Hawthorn Hub to identify 'gaps' in the street furniture and 'hot spots' for additional planting.

In response to the audit, the City installed 12 new bins, 8 benches, 30 planter boxes, 53 trees, 1 bike repair station and 18 bike racks.

To build on the extensive streetscape upgrades delivered to date, an audit should be undertaken to determine any current deficiencies in the streetscape and identify opportunities to build on the town center's inviting and green character including opportunities for additional planting, beautification, urban design improvements, street art and street furniture rationalisation and upgrades.

Undertake a **Streetscape Audit** to determine opportunities for streetscape improvements.

A **STREETScape AUDIT** will contribute to Greening Vincent by identifying opportunities for additional town centre trees, verge and median planting.

CREATING PLACES FOR PEOPLE

ITEM 3.2 - STREETSCAPE PALETTE

Mount Hawthorn Town Centre has a distinct character and largely consistent streetscape palette.

Unlike other town centres, Mount Hawthorn Town Centre has a unique streetscape palette which contributes to the distinct character of the town centre.

The streetscape palette was developed in collaboration with the Mt Hawthorn Hub and incorporates street furniture such as the benches and bins as well as the street tree and planting species used to green the verges, footpaths, median strips and planter boxes.

To ensure additional planting and street furniture remain consistent and in keeping with the character of the area, the City should create a streetscape palette to guide the future renewal and upgrade of these key town centre components.

Develop a Mount Hawthorn Town Centre **Streetscape Palette**

CREATING PLACES FOR PEOPLE

ITEM 3.3 - ICONIC TOWN CENTRE ARTWORK

Mount Hawthorn Town Centre does not have a strong sense of arrival from the western approach.

Iconic elements and entry statements can announce the approach and arrival into a precinct or town centre, creating a welcoming environment. Mount Hawthorn is known for its suburban village atmosphere but lacks physical infrastructure and artwork to celebrate its endearing style and charm.

The **Mt Hawthorn Hub Action Plan** identifies a need to investigate the development of a Welcome Statement to celebrate Mount Hawthorn's identity.

Determine a preferred location and design for an **Iconic Town Centre Artwork** in consultation with the community

CREATING PLACES FOR PEOPLE

ITEM 3.4 - UNDERGROUND POWER

The overhead power lines along Oxford Street North and Hobart Street are unattractive, limit the useability of the road reserve and will prevent street trees from reaching full maturity.

Western Power's power poles are located along the footpath, limiting the use and appeal of alfresco areas along Oxford Street North and the potential use of Hobart Street road reserve for additional parking.

Western Power's separation requirements inhibit trees from reaching maturity. It is necessary to investigate the costs and benefits of underground power prior to requiring the pruning of the recently planted Oxford Street North trees.

Investigate the potential to **Underground Power** along Oxford Street North and Hobart Street

UNDERGROUND POWER will contribute to Greening Vincent by allowing trees to mature, increasing canopy coverage and improving walkability.

CREATING PLACES FOR PEOPLE

ITEM 3.5 - BEAUTIFICATION OF LOT 100

The planting at Lot 100 on the corner of Oxford Street and Scarborough Beach Road is not maintained to a high standard.

The City has received multiple requests to maintain or remove the four palm trees and raised garden bed at Lot 100 Scarborough Beach Road.

Lot 100 is not owned by the City, it is owned by Telstra Corporation Limited. The City is therefore unable to undertake maintenance work or implement upgrades without the permission of Telstra, as owner.

There is an opportunity to improve the maintenance and planting at Lot 100 to bring it in line with the City managed and maintained streetscapes.

Negotiate the **Beautification of Lot 100** Scarborough Beach Road with Telstra Corporation Limited

3.2	Maximise Increase the use of North Perth Town Hall by 5% annually and capitalise on its cultural significance and character	C&B	S&D		X	X	X	X	North Perth Town Hall continues to be promoted as part of the North Perth History Walk. The hall is also being promoted for bookings on Space to Co. Citizenship ceremonies have been relocated to the hall, along with other City managed events such as Halloween and Pride.	Extend the action to continue promoting the use of the hall. Introduce a target of 5% increase in hours booked/income.
3.2			I&E							
3.3	Plan and implement a View Street landscape link between Fitzgerald Street and the traditional heritage buildings.	I&E	S&D		X	X	X	X	Landscape link to be informed by the trees and planting at North Perth Common and urban design concept of View Street Car Park.	Extend action to integrate with the View Street Car Park urban design concept and the 12-month review of North Perth Common.

VOLUME 3 - MOUNT HAWTHORN TOWN CENTRE PLACE PLAN: IMPLEMENTATION FRAMEWORK									
REF #	KEY ACTION	RESPONSIBLE TEAM	SUPPORT TEAM	19/20	20/21	21/22	22/23	Update and Comments	Document Changes
1.1	Determine options to implement Free Wifi in priority town centre locations	ICT	I&E		X			Preliminary investigations commenced. Approximate costs for public wifi in Axford Park include: <ul style="list-style-type: none"> • One-off Basic Installation \$2,500 • Monthly service fee \$300 • Monthly bandwidth \$120 Options to be provided to Elected Members in 2020/21 to inform the preparation of future budgets.	
1.2	Investigate the Installation of Banner Poles along Oxford Street North	S&D	I&E	X		X		A location plan has been prepared and quotes for the manufacture and delivery of 7 banner poles along the central median of Oxford Street North have been obtained. Multi-functional light and banner poles were costed at \$42,500 (ex GST – excluding installation) and banner poles to replicate those along Scarborough Beach Road were costed at \$18,000 (ex GST - excluding installation). The installation of the \$18,000 banner poles was costed at \$31,000. The \$49,000 purchase and installation of banner poles was considered a discretionary spend and not proposed as part of 2020/21 budget prepared during the COVID-19 pandemic. Project details and costings to inform the preparation of the 2021/22 budget.	Amend Key Action text to remove 'Investigate'. Extend timing to 2021/22.
1.3	Design and deliver the first phase of Axford Park Upgrade	S&D	I&E	X	X	X	X	The 2019/20 budget included \$40,000 for the detailed design of the first phase of Axford Park Upgrade. The preparation of the detailed design was considered a discretionary spend and not progressed in 2019/20. The CBP notes that the first phase of Axford Park Upgrade will be delivered 2021/22-2023/24.	Extend timing to align with CBP.
1.4	Identify barriers inhibiting Mount Hawthorn's Night Time Economy in consultation with local businesses and determine actions to address these	S&D	C&B	X	X	X	X	Administration commenced discussions with businesses in 2019/20 to identify barriers and determine opportunities to encourage businesses to stay open longer. Initial findings included: <ul style="list-style-type: none"> • businesses unable to trial longer hours given staffing resource requirements; and • businesses suggesting evening activations would increase the likelihood of opening longer. 	Amend timing to align with Vincent Rebound Plan implementation.

VOLUME 3 - MOUNT HAWTHORN TOWN CENTRE PLACE PLAN: IMPLEMENTATION FRAMEWORK									
REF #	KEY ACTION	RESPONSIBLE TEAM	SUPPORT TEAM	19/20	20/21	21/22	22/23	Update and Comments	Document Changes
								<p>The night time economy in Mount Hawthorn is continuing to improve organically with new and emerging small bars.</p> <p>The Mt Hawthorn Hub has approached the Paddington Alehouse and Oxford Hotel to promote opportunities to host Fringe events to diversify night time offerings.</p> <p>In response to the COVID-19 pandemic, consultation regarding the night time economy ceased and Business Health Checks commenced. Supporting businesses following COVID-19 restrictions has become a focus for the City and is being addressed through the City of Vincent Rebound Plan (Rebound Plan). Consultation regarding the night time economy will recommence following the implementation of the Rebound Plan which is scheduled to be implemented 2020/21-2021/22.</p>	
1.5	Install LED Street Lights along Scarborough Beach Road and Oxford Street	C&B I&E	I&E S&D	X	X	X		<p>Teams incorrectly allocated. Changes reflect correct responsible team and support team.</p> <p>Potential to use cash-in-lieu for car parking funding, to replace existing lights with LED lights, to be considered as part of the next budget review or alternatively listed for consideration in the 2021/22 budget. Application made to Western Power to undertake works.</p>	<p>Change responsible team to I&E and support team to S&D.</p> <p>Continuation of action. Extend timing to 2021/22.</p>
1.6	Investigate Lighting Improvements in the Flinders Street Car Park	I&E	S&D	X Complete				<p>Investigation complete in 2019/20. Lighting improvements costed at \$7,000 (ex GST) and included in 2020/21 budget. Improvements scheduled to be complete in 2020/21 and include supply and install:</p> <ul style="list-style-type: none"> • SL3 30W LED to the existing light fitting; • SL2 30W single solar light with new pole; and • Double SL2 30W solar lights with new pole. 	Mark as complete.
1.7	Implement Lane Lighting			X				Project complete. Solar lighting installed in 2019.	Mark as complete.

VOLUME 3 - MOUNT HAWTHORN TOWN CENTRE PLACE PLAN: IMPLEMENTATION FRAMEWORK									
REF #	KEY ACTION	RESPONSIBLE TEAM	SUPPORT TEAM	19/20	20/21	21/22	22/23	Update and Comments	Document Changes
	Improvements in the lanes between Flinders Street and Oxford Street			Complete					
1.8	Undertake consultation to identify a preferred location for a Future Youth Space in the town centre or surrounds	C&B S&D	S&D C&B	X	X			Formal consultation on this project has not commenced. In August 2020, John Carey MLA started a 'community conversation' on facebook and undertook a community survey regarding potential locations for skate/scooter facilities in Mount Hawthorn. Informal consultation with the Mt Hawthorn Hub regarding the potential location of skate infrastructure at Britannia Reserve and/or the western end of Axford Park has also occurred. Both Britannia Reserve and the western end of Axford Park were largely supported, as potential skate infrastructure locations, by facebook respondents and the Mt Hawthorn Hub. Leisure Planning has moved from Community & Business Services to Strategy and Development.	Change responsible team to S&D and support team to C&B.
2.1	Plan and facilitate Scarborough Beach Road/Oxford Street Intersection Improvements	S&D	I&E	X	X	X	X	The original plans for the upgrade of Oxford Street North included an advanced stop line at the junction of Oxford Street and Scarborough Beach Road. This was not approved by Main Roads Western Australia (MRWA) due to a lack of road space for a lead in lane. Administration is seeking for this decision to be reconsidered to ensure consistency along Oxford Street and Scarborough Beach Road. Advanced stop lines are currently in place at all other legs of the junction between Oxford Street and Scarborough Beach Road as well as along the rest of these routes. Administration believes it is essential to treat this junction consistently in order to prevent confusion and maintain highest possible level of safety. Administration has sought approval from MRWA to make the westbound left hand lane on Scarborough Beach Road left turn only into Oxford Street as there is insufficient space for the two lanes to merge	Continuation of action. Extend timing to 2022/23

Page 3 of 8

REF #	KEY ACTION	RESPONSIBLE TEAM	SUPPORT TEAM	19/20	20/21	21/22	22/23	Update and Comments	Document Changes
								<p>through the junction and an increasing number of complaints and reports have been received from residents and businesses requesting improvements.</p> <p>These improvements are considered the first stage of improving this intersection. Given the ongoing negotiations with MRWA, Administration will continue to investigate opportunities to reduce conflict at this intersection and the potential to incorporate art into any improvements that are supported by MRWA. To reflect this change, the timing of this initiative will be extended as the project will likely only be realised through ongoing, staged negotiation with MRWA.</p>	
2.2	Rationalised the Parking Management of adjoining car parks between Fairfield Street and Flinders Street	S&D	I&E		X			Project scheduled to be undertaken in the first half of 2021.	
2.3	Investigate the potential to Formalise Parking along Edinboro Street	I&E	S&D	X		X		Preliminary investigations costed the formalisation of parking at \$52,000 (ex GST). A detailed design has not been prepared as the delivery of this project was planned and scheduled to coincide with the delivery of the detailed design for Axford Park Upgrade. As Item 1.3 Axford Park Upgrade was postponed and rescheduled to commence in 2021/22 in line with the CBP, it is proposed the investigation of the potential to formalise the parking be rescheduled to 2021/2.	Extend timing to align with Item 1.3 Axford Park Upgrade.
2.4	Install decorative lighting at the Anzac Road roundabout to denote the southern town centre entry and complete the Oxford Street North Upgrade	S&D	I&E	X Complete				Project complete. Lighting installed in 2019/20.	Mark as complete.

2.5	Acquire traffic data and a Advocate for a 30km/h Speed Zone along Oxford Street North	I&E	C&B	X	X	X	X	<p>Traffic data acquired in 2019. Findings concluded the average speed reduced more than 10km/h in response to the design interventions implemented as part of the Oxford Street North Upgrade.</p> <p>In February 2020 Administration requested Main Roads Western Australia (MRWA) conduct a speed zone review of Oxford Street North to consider the 30km/h proposal.</p> <p>The proposed 30km/h speed limit was rejected by MRWA. However, the history of reforms to lowering speed zones in WA indicates that MRWA is most accepting of incremental reductions of 10km/h and in October 2020, MRWA approved the existing 50km/h limit be reduced to 40km/h. The 40km/h limit will come into effect 9 November 2020.</p> <p>Although a 40km/h zone along Oxford Street North is a significant step forward, the City should continue to advocate for 30km/h in the future and the Key Action text has been amended to reflect this.</p> <p>The following text has been included to highlight the reduced speed data information and 40km/h speed zone reduction accomplishment.</p> <p>Data acquired in 2019 recorded the average speed along sections of Oxford Street. This included the section of Oxford Street between Anzac Road and Wilberforce Street as well as the section between Wilberforce Street and Scarborough Beach Road. This was recorded to be 31.6km/h and 28.5km/h respectively.</p> <p>In 2020 the City successfully negotiated the reduction of the 50km/h speed zone to 40km/h.</p> <p>The reduced 40km/h speed zone will come into effect 9 November 2020 and the City will continue to negotiate with MRWA to achieve the desired 30km/h.</p>	<p>Amend Key Action text to remove 'Acquire traffic data'. Extend action to 2020/21-2022/23.</p> <p>Include the adjacent text highlighted in red.</p>
2.6	Advocate for the extension of the 40km/h Speed Zone	I&E		X Complete				<p>Traffic data acquired in 2019. In February 2020 Administration requested MRWA conduct a speed zone review to consider a new regulatory speed limit</p>	Mark as complete.

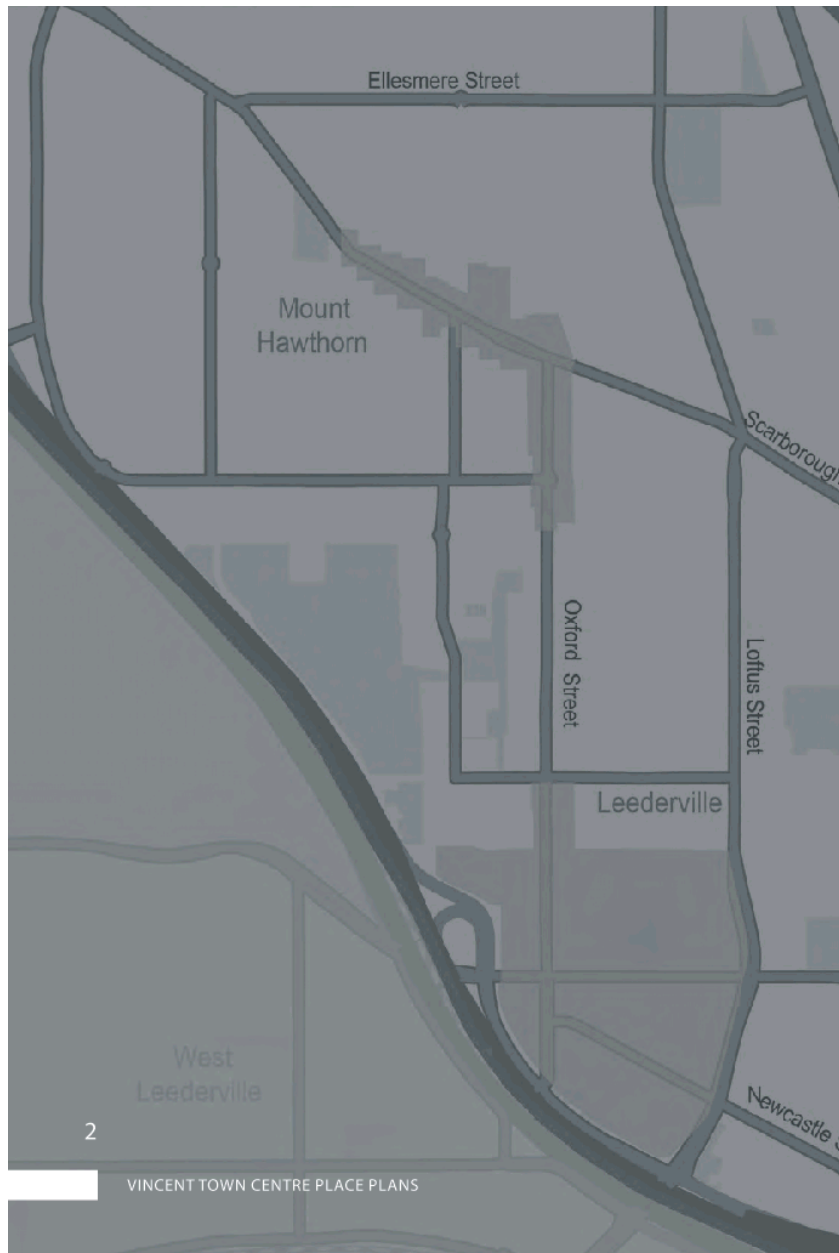

Page 5 of 8

REF #	KEY ACTION	RESPONSIBLE TEAM	SUPPORT TEAM	19/20	20/21	21/22	22/23	Update and Comments	Document Changes
	east and west along Scarborough Beach Road							<p>of 30km/h from Kilarney St to Edinboro Street along Scarborough Beach Road.</p> <p>The proposed 30km/h speed limit was rejected by MRWA. However, in October 2020, MRWA approved the existing 60km/h limit be reduced to 40km/h between Faraday Street and Fairfield Street. The 40km/h limit will come into effect 9 November 2020.</p> <p>The component of Item 2.6 referencing the extension of the speed zone east is now considered complete. Item 2.6 has now been updated to reflect this and Item 2.7 has been included to reference the remaining component of the action relating to the extension of the 40km/h speed zone west.</p>	
2.7	Advocate for the extension of the 40km/h Speed Zone west along Scarborough Beach Road	I&E		X	X	X	X	<p>In February 2020 Administration requested MRWA conduct a speed zone review to consider extending the 40km/h town centre zone to the 40km/h school zone along Scarborough Beach Road.</p> <p>The proposed 40km/h speed limit extension was rejected by MRWA. Item 2.7 previously formed part of Item 2.6 which has now been marked as complete. Item 2.7 will ensure the City continues to advocate for the extension of the 40km/h speed zone west to meet the school zone.</p> <p>The following text has been included to highlight the remaining item to be actioned.</p> <p>Item 2.7 – 40km/h Speed Zone Extension West</p> <p>The 40km/h speed along Scarborough Beach Road does not start at the western extent of the town centre.</p> <p>The City should negotiate the extension of the 40km/h speed zone further west along Scarborough Beach Road to meet the 40km/h school zone.</p>	Include new Item 2.7 and the adjacent text highlighted in red.

VOLUME 3 - MOUNT HAWTHORN TOWN CENTRE PLACE PLAN: IMPLEMENTATION FRAMEWORK									
REF #	KEY ACTION	RESPONSIBLE TEAM	SUPPORT TEAM	19/20	20/21	21/22	22/23	Update and Comments	Document Changes
								Drivers approaching the town centre from the west are currently required to change speeds from 40km/h (through the existing school zone) to 50km/h back to 40km/h. The extension of the 40km/h speed zone will ensure drivers slow down well before entering the town centre from the west and the school zone from the east.	
3.1	Undertake a Streetscape Audit to determine opportunities for streetscape improvements	S&D	I&E	X	X			Streetscape 'street walk' audit undertaken with Mt Hawthorn Hub in December 2019. Improvements opportunities identified including additional planting and street furniture. A detailed plan of the town centre streetscape audit and costings to be prepared in 2020/21 to inform capital works program and LTFP updates.	Continuation of action. Extend timing to 2020/21.
3.2	Develop a Mount Hawthorn Town Centre Streetscape Palette	S&D	C&B	X	X			Project commenced but not delivered in 2019/20. Timing to be extended to 2020/21.	Continuation of action. Extend timing to 2020/21.
3.3	Determine a preferred location and design for an Iconic Town Centre Artwork in consultation with the community	C&B	S&D	X	X	X		Potential Mount Hawthorn locations for a major public artwork, to be funded as part of the COVID-19 Arts Relief Grant funding, were identified and provided to the Arts Working Group in May 2020. The major public artwork location is yet to be identified. A preferred location for a future iconic town centre artwork will be identified during the preparation of the Wayfinding Strategy and opportunities to engage with the community on the preferred location will occur as part of the Wayfinding Strategy consultation. The Key Action wording has been updated to reflect this and the timing has been extended to align with the timing of the delivery of the Wayfinding Strategy.	Amend Key Action text to remove 'design' and 'in consultation with the community'. Continuation of action. Extend timing to 2021/22.

VOLUME 3 - MOUNT HAWTHORN TOWN CENTRE PLACE PLAN: IMPLEMENTATION FRAMEWORK									
REF #	KEY ACTION	RESPONSIBLE TEAM	SUPPORT TEAM	19/20	20/21	21/22	22/23	Update and Comments	Document Changes
3.4	Investigate the potential to Underground Power along Oxford Street North and Hobart Street	I&E	CEO	X	X			Costings to be obtained and implementation options to be provided to Elected Members for consideration as part of future budget process.	
3.5	Negotiate the Beautification of Lot 100 Scarborough Beach Road with Telstra Corporation Limited	S&D	I&E	X Complete				Beautification negotiated with Telstra Corporation Limited December 2019 - February 2020. Removal of four Cocos palm trees and planting of native species complete.	Mark as complete.

TOWN CENTRE PLACE PLAN VOLUME SERIES

The City of Vincent Town Centre Place Plans Volume Series has been developed as a set of 'place based' strategic documents to guide the direction of funding and resources in the City's town centres. The documents guide the implementation of all major initiatives in the town centres.

The Town Centre Place Plans (Place Plans) are split into the following volumes:

VOLUME 01 sets out the strategic direction for **all** of the City's town centres and outlines the projects (including associated funding and resources) which are common to all town centres.

VOLUME 02 to 06 include the Place Plans specific to each town centre. Each volume relates to one of the City's five town centres and outlines the funding and resources the City has specifically committed to each individual town centre. Volumes 02 to 06 have been developed as comprehensive, standalone documents which build upon the detailed information relating to all of the town centres in Volume 01.

The Place Plans direct the City's service units to deliver a range of place-based initiatives and enable the City to effectively support and coordinate change.

VINCENT TOWN CENTRE PLACE PLANS

00 INTRODUCTION

The City of Vincent (City) has five major town centres – North Perth, Mt Hawthorn, Leederville, Beaufort Street and William Street.

The town centres are classified as District Centres in the State Planning Framework, with the exception of Leederville which is classified as a Secondary Centre. The State and local planning framework identify the town centres as important opportunities for targeted infill development that are expected to redevelop over time to meet changing community needs.

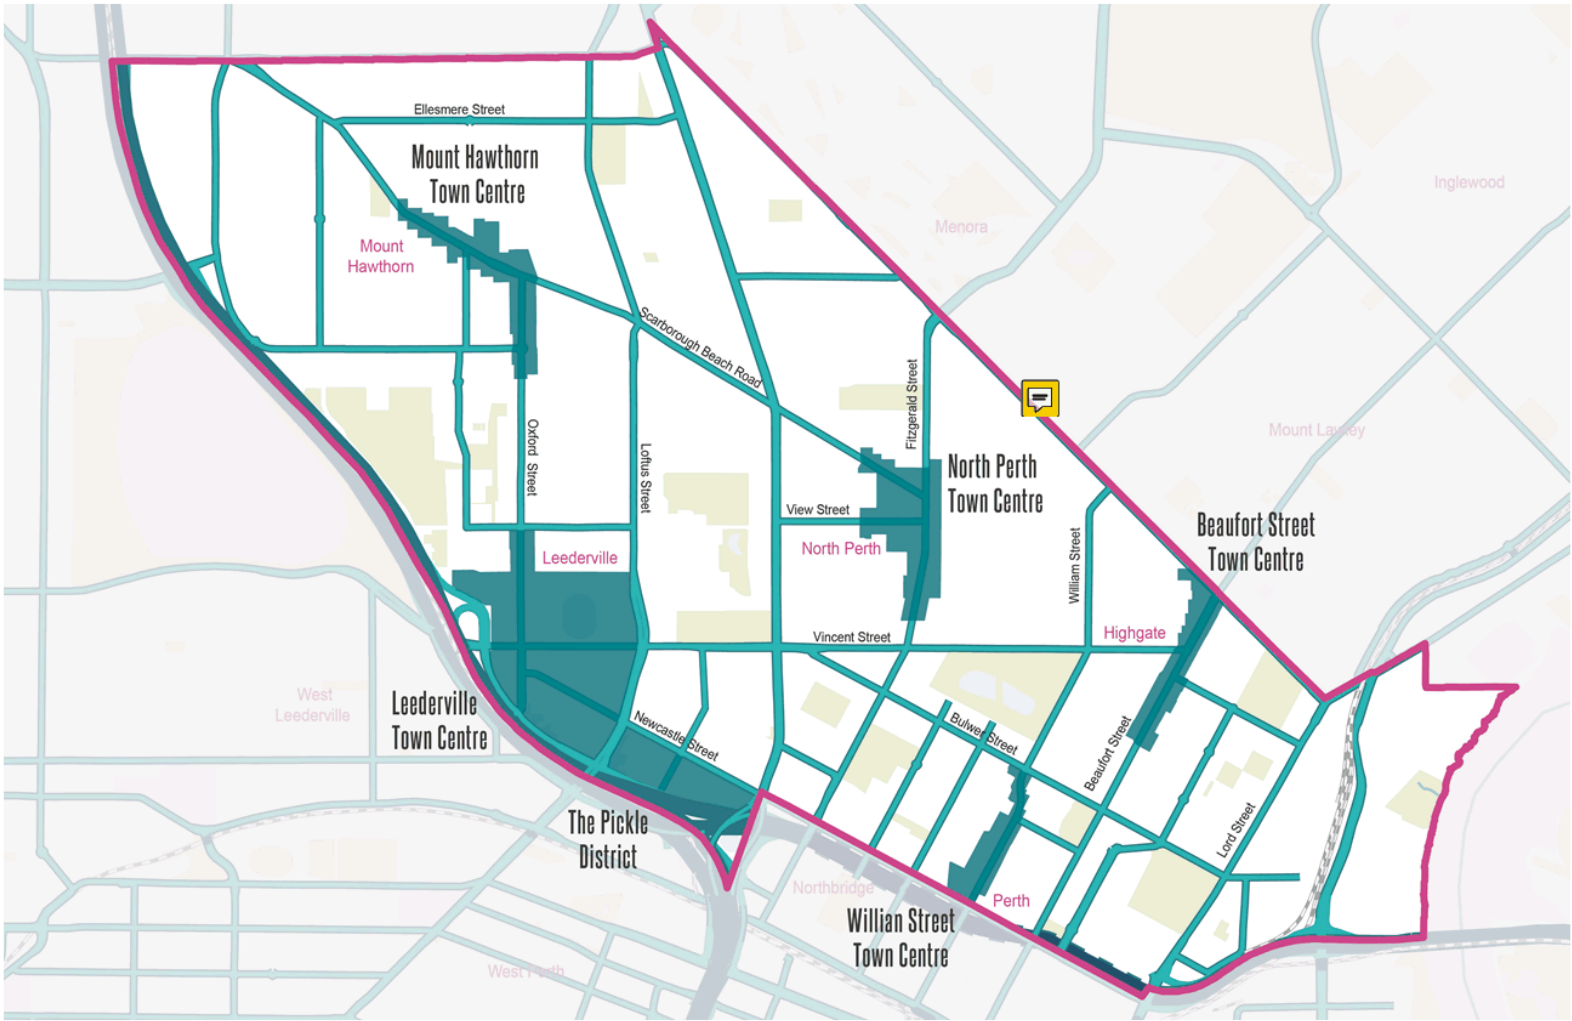

TOWN CENTRE TOWN TEAMS

Each of the town centres has a 'town team', but a town team can emerge outside of a town centre as well. The town teams are independently formed incorporated bodies that aim to make their respective town centres and areas the best places they can possibly be. The town teams include:

- Mt Hawthorn Hub >> Mount Hawthorn Town Centre;
- Leederville Connect >> Leederville Town Centre;
- North Perth Local >> North Perth Town Centre;
- Beaufort Street Network >> Beaufort Street Town Centre;
- Northbridge Common >> William Street Town Centre; and
- The Pickle District >> West Perth.

The town teams are not an affiliate of the City but can access funding for community driven initiatives. The town teams are made up of a diverse range of members that include business owners, land owners and local residents. Each town team member brings a different set of skills and life experiences to the table and these collectively shape the direction, composition and identity of the five town teams.

The town teams and the City enjoy a symbiotic relationship. The City engages directly with each town team on a variety of issues that are specific to their respective town centres and the town teams are able to effectively communicate issues, solutions and ideas to the City through their respective Action Plans. The City works collaboratively with the town teams to deliver locally based activities/events, physical improvements and economic and community development initiatives.

VINCENT TOWN CENTRE PLACE PLANS

A PLACE MANAGEMENT APPROACH

The City's Place Management team is responsible for coordinating and influencing the City's service units to deliver great place outcomes. The Place Management team delivers and influences a variety of projects and is responsible for coordinating the delivery of the Place Plans.

The City of Vincent employs a Place Management approach to streamline and improve the management of the wide range of issues, challenges and opportunities that face the City's town centres.

Place Management was established at the City in 2013 and has since evolved through a three phase process. This evolution process is outlined in the **Evolution of Place Management Diagram** below. The implementation of the Place Plans is set to occur during the 'Manage' phase.

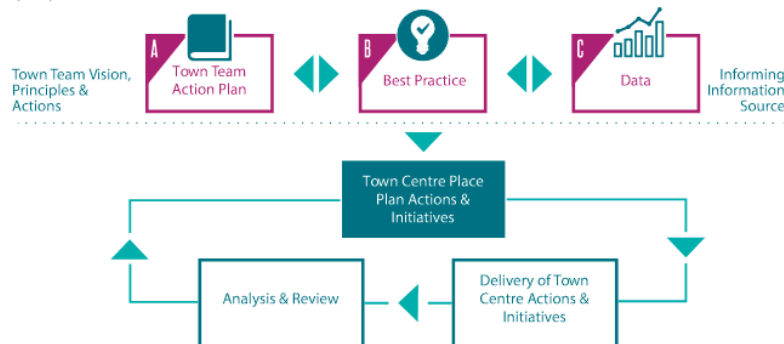

PLACE PLAN PROCESS

The Place Plans capture and build upon existing strategies and plans prepared by the City.

The projects within the Town Centre Place Plans are either existing town centre based projects from other strategies – or – plans or new projects that have been identified by analysing and applying information from the following three sources:

- A.** the content and identified actions within the town team Action Plans;
- B.** best practice; and
- C.** data collected through the Town Centre Performance Measurement Strategy.

The diagram below identifies the process in which Place Plan actions are prepared.

A TOWN TEAM ACTION PLANS

The town team Action Plans provide the opportunity for town teams to influence the strategic direction and management of their town centre. Town team Action Plans are prepared by local people who have a deep knowledge and feel for the place. The Action Plans are critical to the City better understanding the needs and aspirations of the local community. Key actions from the town team Action Plans are assessed by the City and considered for inclusion in the relevant Place Plan.

B BEST PRACTICE

Best practice case studies and current urban trends from both Australia and overseas inform the strategies and actions included in the Place Plans. Similarly, the City is informed and kept up to date with emerging trends and practices through partnerships with local universities. These partnerships bring new strategies and actions to light which are then considered for inclusion in the Place Plans.

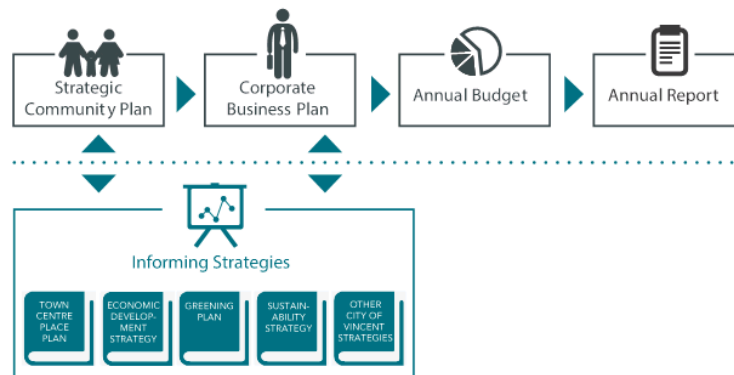

C TOWN CENTRE DATA

The City has prepared a Town Centre Performance Measurement Strategy to help guide the data collected in town centres. This is an internal document that guides the data collection activities of Administration. By collecting and analysing data in a structured and deliberate manner, decision-making becomes better informed. Through the collection of good quality data Administration is able to recommend targeted strategies and interventions.

The collection and analysis of data is a key component in the formulation of actions and strategies within the Place Plans.

PLACE PLAN PURPOSE

The Place Plans form a part of the City's suite of informing strategies. The Integrated Planning and Reporting Framework outlined by the *Local Government (Administration) Regulations 1996* requires the City to adopt a Strategic Community Plan and a Corporate Business Plan. The creation of the Place Plans is identified in the City's Corporate Business Plan, adopted 25 July 2017, and their relationship with the City's future Strategic Community Plan and Corporate Business Plan is illustrated in the diagram below.

STRATEGIC COMMUNITY PLAN 2018–2028

The City of Vincent Strategic Community Plan 2018–2028 includes the vision that:

In 2028, the City of Vincent is a leafy and vibrant 24hr city, which is synonymous with quality design and sustainability. Its diverse population is supported in their innovative endeavours by a Council that says yes!

This vision is underpinned by a number of key priorities including: Enhanced Environment, Accessible City, Connected Community, Thriving Places, Sensitive Design and Innovative & Accountable

All of which directly align with the purpose and objectives of the Town Centre Place Plans.

Our vibrant places and spaces are integral to our identity, economy and appeal. We want to create, enhance and promote great places and spaces for everyone to enjoy.

MONITORING & REVIEW

Each action within the Place Plans is a project and therefore required to be managed appropriately including the use of project schedules and project plans. Major projects will also need to be highlighted in the Corporate Business Plan.

Place Management is responsible for coordinating with the City's service units to work through the action items within the Place Plans and ensure the work is undertaken on time and on budget.

Progress reporting to Council on the implementation of the Place Plans is required annually. Progress reports will be prepared by Place Management with input from applicable service units at the City.

The Place Plans are intended to be iterative documents which evolve over time. The plans will be reviewed as follows:

MINOR REVIEW:

High-level annual review may include but is not limited to:

- including town team priority projects and initiatives which are supported by best practice, data and Council priorities;
- reflecting changes to the Corporate Business Plans and Strategic Community Plan; and
- including priority projects, initiatives and items which may arise in relation to shifts in best practice, in response to specific data acquired and/or external funding opportunities from private organisations, state and/or federal agencies.

MAJOR REVIEW:

A four year review will include major changes to the Place Plan documents including possible structure revisions and graphic design updates. It will also reflect changes to the town team structures and project implementation processes as applicable.

MEASURING PERFORMANCE

The City has access to a range of data that is dispersed across a variety of organisations and information platforms. Current data on hand includes:

- vehicle speeds and volumes;
- development approvals;
- permit approvals ;
- demographic data (via .id);
- limited public transport data provided by the Public Transport Authority;
- parking numbers and restrictions;
- a diverse range of previous engagement results;
- community asset mapping; and
- rates information.

Place Management has prepared a Town Centre Performance Measurement Strategy which outlines the key datasets the City needs to better understand in order to manage and improve the performance of its town centres. These datasets are outlined on the adjacent page.

Gathering and analysing data is critical to informed decision making. The data sets below will provide a thorough understanding of the place and continue to highlight required action that emerges through the review process.

10

VINCENT TOWN CENTRE PLACE PLANS

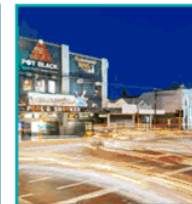

HOW TO READ THIS DOCUMENT!

The Vincent Town Centre Place Plans Volume Series is structured around three Key Focus Areas:

01 ACTIVITY Sets out the actions and projects which assist the City to enhance activity in its town centres so they can reach their activation and economic potential.

02 MOVEMENT Sets out the actions and projects which enhance walkability, improve the use of public transport, deliver parking efficiencies and create more pedestrian and cycle friendly town centres.

03 CHARACTER Sets out the actions and projects which contribute to Vincent's town centres unique sense of place.

The City of Vincent is committed to 'Greening Vincent' by increasing overall canopy cover, creating more liveable and walkable neighbourhoods and fostering biodiversity within the City of Vincent. Major greening projects are identified in:

- the City's Greening Plan Implementation Schedule; and
- the actions in the Place Plan Volume Series that are demarcated with the Vincent Greening Icon below.

GREENING Any action that has a greening component is marked with the City of Vincent's Greening Plan Icon.

IMPLEMENTATION FRAMEWORK Sets out the actions, time frames and the responsible teams for the delivery of all of the identified projects.

Each project is explained using the following three step process:

01 ACTIVITY

THE ACTIVITY FOCUS AREA RELATES TO THOSE PROJECTS AND INITIATIVES THAT HELP TO BRING THE STREETS TO LIFE. IT RELATES TO ACTIVATION, EVENTS, PUBLIC SPACES, MARKETING, THE LOCAL ECONOMY AND FUTURE DEVELOPMENT.

EVENTS AND ACTIVATION

ITEM 1.1 - PUBLIC SPACE ACTIVATION

Many of the public spaces in Vincent's town centres are not well activated.

A carefully curated events program in a town centre can amplify the local economy, connect the community, and raise the profile of the place to the broader public. A range of events that vary in scale and style that are designed for the local demographic should be programmed by either the City, town teams and/or businesses (or together in partnership).

Events and activities must be carefully designed to cater for the range of people who visit Vincent's town centres. Active and engaging public spaces attract people and encourage them to 'linger longer'. The City recognises the value of engaging visitors to stay longer and the Activation Schedule will be developed to facilitate this.

The City needs to prepare an activation program for each of its town centre public spaces.

Prepare and implement **Town Centre Public Space Activation** schedules

EVENTS AND ACTIVATION

ITEM 1.2 - ONLINE HIRE PLATFORM

It is difficult to hire the public space in Vincent's town centres.

The City has recently improved the hiring process for town centre public spaces but there is still room for improvement. Town teams and the local business community are encouraged to hire the town centre public spaces to run events and activities. The hiring process needs to be promoted, simplified and a more user friendly online platform investigated.

Review hire fees and create an improved **Online Hire Platform** and booking system for town centre public spaces

EVENTS AND ACTIVATION

ITEM 1.3 - STREAMLINE EVENT APPROVALS PROCESSES

Events often require multiple approvals from the City, sometimes resulting in a complex and long process.

The City's approval processes need to be refined and streamlined to make it easier for town teams and the community to run events in town centre public spaces.

The City's service units would benefit from an improved understanding of the events approvals processes, as a multidisciplinary approach is needed in order to deliver information and approvals in a timely manner.

User friendly online systems could be implemented to simplify the approvals processes.

Streamline the City's **Event Approvals** processes

EVENTS AND ACTIVATION

ITEM 1.4 - SUPPORT EVENTS

Major events require financial and administrative support from the City of Vincent.

Events are important for the local economy as well as bringing the community together. The City should continue to provide ongoing support for festivals and events in Vincent's town centres.

Provide ongoing support for **Town Team Events & Other Public Events**

CUSTOMER SERVICE

ITEM 1.5 - SERVICE & MAINTENANCE

Vincent's town centres require a high level of service and maintenance.

The City is currently investigating the viability of increasing service and maintenance levels in town centres through prioritisation of specialised town centre works schedules and improvements to reporting.

Clean, curated and attractive public spaces are more inviting, encouraging people to linger longer.

Specialising the maintenance works and frequencies for the town centres will improve the way the City is able to deliver a higher level of ongoing service in each of the town centres.

Improve and monitor the level of **Service & Maintenance** provided in the town centres

TOWN CENTRE TIDY TEAMS will deliver a higher level of maintenance and care to landscaped areas in Vincent town centres.

ACTIVITY

01

13

VINCENT TOWN CENTRE PLACE PLANS

14

VINCENT TOWN CENTRE PLACE PLANS

CUSTOMER SERVICE

ITEM 1.6 - TOWN TEAM GRANT PROGRAM

Town teams require financial support to deliver outcomes for their respective town centres and to make themselves more sustainable entities.

Town teams can access grant funding through the Town Team Grant Program. This funding can be used to facilitate events, activities and/or initiatives that engage the local community, contribute to the local economy or improve the sustainability of the town team.

Manage the **Town Team Grant Program**

MARKETING & BRANDING

ITEM 1.7 - MARKETING & BRANDING

Vincent's town centres do not have strong and cohesive brands or benefit from a coordinated marketing approach.

The town centres are primarily branded through the town team websites, WA Tourism and independent place promoters such as Urban List and Broadsheet Perth. A carefully considered and targeted marketing strategy will further promote each town centre. Further work needs to be undertaken to understand the best approach to marketing, whether it is led by the City of Vincent, the town teams, or both.

This project has changed due to resourcing and budget changes. The funds have been reallocated to Visit Perth website. Refer to Item 1.8.

MARKETING & BRANDING

ITEM 1.8 - DESTINATION MARKETING

The City does not partner with other inner city local governments to promote destination tourism of its town centres.

A partnership between the City and inner city local governments should be developed to better promote key inner city destinations.

Work collaboratively with the Inner Perth Assembly to promote and improve Visit Perth website.

BUSINESS SUPPORT

ITEM 1.9 - LOCAL LAWS REVIEW

The Trading in Public Places Local Law 2008 and Local Government Property Local Law 2008 make it difficult for businesses to use and activate the public realm.

Vibrant places have active footpaths that include alfresco dining, goods displays and street performers.

Amendments to the Trading in Public Places and Local Government Property Local Laws will make it easier for businesses to utilise the public space in front of their shopfronts by enabling an online self-administering process that reduces paperwork and approval time frames.

Amend the Trading in Public Places Local Law 2008 & Local Government Property Local Law 2008

BUSINESS SUPPORT

ITEM 1.10 - BUSINESS ENGAGEMENT PROGRAM

The City of Vincent does not provide any specific business support measures.

We know the local community love the mix of independent traders in Vincent's town centres. There are a variety of trends affecting businesses, including but not limited to the below:

- the use of technology to consume, engage and experience;
- people want to experience urban environments;
- customers are fashion conscious;
- customers are culturally in tune (music, film, books, theatre, art, etc);
- restaurants and bars provide the experience customers want;
- a transition to online shopping;
- a focus on networking (social media, etc);
- many customers in Vincent are career driven and time poor;
- customers have progressive attitudes and are socially conscious; and
- customers have relatively high incomes (or capacity for high income).

The City of Vincent should create a Business Engagement Program that includes a digital platform that businesses can access to review emerging trends, link into existing training and funding opportunities, obtain business support and be a forum for knowledge exchange.

This Engagement Program will include trends and tips about catering to the local community and could also include networking events.

Implement a Business Engagement Program

ACTIVITY

01

15

VINCENT TOWN CENTRE PLACE PLANS

16

VINCENT TOWN CENTRE PLACE PLAN

AFTER-HOURS ACTIVITY

ITEM 1.11 - LIVE MUSIC VENUE PROTECTION

Live music venues are at risk of conflicting with new and nearby residential development.

The City has a number of well-established performance venues which attract visitors from all over Perth to view and listen to a diverse range of music acts.

Current legislation could result in live music venues having to alter the way they function to mitigate their impact on new neighbouring sensitive land uses (residential).

These live music venues contribute significantly to the economy of their respective town centres. They are well known and respected cultural institutions which must be promoted and protected.

Advocate for **Live Music Venue Protection**

DEVELOPMENT OPPORTUNITIES

ITEM 1.12 - CITY OF VINCENT OWNED LAND

The City does not have a strategy outlining how its landholdings in the town centres could be used.

The City should plan for the future of its current and future landholdings. A strategy could be developed to explore the strategic acquisition of land or use of City owned land for a variety of purposes which could include affordable housing, parking improvements, enhanced town centre connections and opportunities for office sites to support day trade activities and consideration of renewable energy opportunities.

Prepare a Strategy for **City of Vincent Owned Land** within the town centres

PLANNING FRAMEWORK

ITEM 1.13 - TOWN CENTRE PLANNING FRAMEWORKS

Vincent's town centres are expected to grow over the coming years in line with population projections and in response to the state planning framework. The town centres are distinctive in their own ways and are places that local people identify with and deeply care about. They require careful management to ensure that future development contributes to their success while preserving and enhancing their uniquely different characters.

Draft Local Planning Strategy Action 1.4.2 – Economy and Employment states that the City should *"Appropriately zone and/or prepare structure plans for planned growth areas to facilitate a mix of compatible residential and commercial development opportunities."*

Further to this, four of Vincent's town centres are identified in State Planning Policy 4.2 – Activity Centres for Perth and Peel (SPP4.2). Leederville is identified as a Secondary Centre and requires the preparation of an Activity Centre Structure Plan, while North Perth (Fitzgerald Street), Mount Hawthorn and Mount Lawley are identified as District Centres and also require the preparation of an Activity Centre Structure Plan but only requiring WAPC approval if the amount of proposed floorspace exceeds 20,000m².

Perth (William Street) is not listed in SPP4.2. However, a place specific planning framework will need to be investigated for this town centre if its growth and development is to be appropriately managed.

Investigate a **Planning Framework** for each of the town centres

ACTIVITY

01

VINCENT TOWN CENTRE PLACE PLANS

02 MOVEMENT

THE MOVEMENT FOCUS AREA IS ABOUT CREATING A MORE WALKABLE ENVIRONMENT AND ENCOURAGING GREATER USE OF PUBLIC TRANSPORT. IT'S ABOUT CREATING THE ENVIRONMENT THAT ENCOURAGES CYCLING AS A VIABLE ALTERNATIVE TO DRIVING A CAR.

18

VINCENT TOWN CENTRE PLACE PLANS

RETHINKING MOVEMENT IN THE TOWN CENTRES

ITEM 2.1 - INTEGRATED TRANSPORT PLAN

The City does not currently have a strategic position on how it prefers its residents and visitors to 'get around'.

An Integrated Transport Plan that outlines actions relating to walking, cycling, public transport and cars (including car parking) is required. The Integrated Transport Plan should provide recommendations for additional cycling routes and improved connections to and through the town centres.

The 2016 Census data shows that car ownership in Vincent remains high. Most people still drive to work. A preference for cars impacts on the volume of vehicles moving through the local road network.

Instead of focusing on reducing vehicle congestion, attention should be given to promoting alternate travel methods and the improvement of non-car related infrastructure. Actions to improve and enhance walking, cycling and public transport should be developed and outlined in the Integrated Transport Plan.

Prepare an **Integrated Transport Plan**

RETHINKING MOVEMENT IN THE TOWN CENTRES

ITEM 2.2 - TRANSPORT INFRASTRUCTURE

Public transport is currently not as efficient and convenient as driving a car. There are very few east – west public transport connections between Vincent's town centres.

There are currently three east-west bus routes in the City of Vincent. The No. 15 bus runs between Leederville Town Centre and Charles Street before diverting southward to the City and the No. 402 and 990 connect Glendalough to Mount Hawthorn Town Centre before diverting southward on Loftus Street and Scarborough Beach Roads respectively, before continuing on to the City.

The poor east-west connections result in town centre visitors and workers being left with limited options other than to drive. Public transport bus and train services are all designed to service Perth, which means that a 10 minute east-west drive from Beaufort Street to Leederville can result in a 40 minute train ride. This increase in journey time is a deterrent for people to use public transport.

The CAT Service is a popular and highly effective short range bus service operating primarily in the City of Perth. The CAT Service does not extend into the City if Vincent's town centres but opportunities to extend this service and to improve east-west connections across Vincent should be explored.

Advocate to State Transport Authorities for **Transport Infrastructure Improvements** including improved east-west connections

RETHINKING MOVEMENT IN THE TOWN CENTRES

ITEM 2.3 - TRANSPORT EDUCATION PROGRAM

The impact that car parking has on the functionality and livability of Vincent's town centres seems to be misunderstood.

The high social and physical cost of car parking is often not realised or acknowledged. Developing additional car parking in established town centres can be difficult without large scale redevelopment. Continuing to develop at-grade, free and unrestricted parking to cater for increasing population and demand, is also a threat to the fabric of Vincent's town centres because it encourages driving, increases traffic and undermines public transport, cycling and walking.

The negative effect of too much car parking should be explained through an overall Transport Education Program. The Transport Education Program would need to effectively explain the benefits of improving car parking management processes and utilising alternative transport options.

Implement a **Transport Education Program**

RETHINKING MOVEMENT IN THE TOWN CENTRES

ITEM 2.4 - AFTER-HOURS TRANSPORT OPTIONS

Vincent's town centres can be difficult to access and/or leave via public transport after-hours.

Vincent's town centres are currently difficult to access at night by public transport. If you live nearby walking and cycling are viable options, but cars, ride share and taxis are generally the only other viable means of transport. Leederville and Beaufort Street are well serviced by trains and buses during the day, but service levels fall away significantly in the evening.

Changes need to be made to promote the use of public transport after dark and the City should work closely with ride share companies to encourage them to manage their drivers to minimise their impacts on the movement network.

Advocate for **After-hours Transport Options**

IMPROVING TOWN CENTRE ACCESSIBILITY

ITEM 2.5 - WAYFINDING STRATEGY

Wayfinding in Vincent's town centres is cluttered, unclear and limited.

Wayfinding is a critical component to the legibility and walkability of a place. Wayfinding can help determine how people decide to move through spaces. The decisions people make when moving through places are guided by architecture, urban design, landmarks and views. Those decisions are also supported by signage and tactile interventions (such as textured paving).

Wayfinding in Vincent's town centres has significant room for improvement. An over proliferation of signage and styles competes for attention and can result in confusion.

A Wayfinding Strategy should be prepared to:

- create a comprehensive, clear and consistent visual communication system with concise messaging; and
- only include the information that is relevant to the space, location and navigation path.

Develop a **Wayfinding Strategy**

IMPROVING TOWN CENTRE ACCESSIBILITY

ITEM 2.6 - LANEWAY NAMING

The City's Policy for naming Laneways and Rights of Way is difficult to use and has resulted in laneways being difficult to name.

Wayfinding improvements must encompass the naming of currently unnamed laneways in Vincent's town centres. Policy No. 2.2.8 Laneways and Rights of Way has presented some administrative difficulties and will need to be reviewed to make the naming process more efficient.

Review the naming requirements within the **Laneways and Rights of Way Policy 2.2.8**

IMPROVING TOWN CENTRE ACCESSIBILITY

ITEM 2.7 - BUS NOISE EMISSION IMPROVEMENTS

The noise generated by frequently passing buses is having an impact on the amenity of Vincent's town centres.

Further studies are required to confirm these impacts and assist further advocacy to the Public Transport Authority to invest in improvements to reduce noise emissions from their bus fleet.

Advocate to the Public Transport Authority for **Bus Noise Emission Improvements**

IMPROVING TOWN CENTRE ACCESSIBILITY

ITEM 2.8 - UNDERGROUND POWER

Overhead powerlines in Vincent's town centres are unattractive and stop trees from reaching full maturity.

Mature street trees are a simple yet vital component of the public realm, providing not only a more attractive and comfortable pedestrian environment, but also sensory stimulation with sound, movement and dappled natural light. Street trees enclose the street space with green canopies and provide a connection to the natural world from which urban dwellers can often have perceived disconnect.

Trees cannot reach maturity underneath overhead power lines due to Western Power's separation requirements. An investigation into the costs and benefits of underground power is necessary.

Investigate the costs and benefits of **Underground Power** in Vincent's town centres

UNDERGROUND POWER will contribute to Greening Vincent by allowing trees to mature, increasing canopy coverage and improving walkability.

WHAT ARE THOSE SPECIAL ELEMENTS OF A PLACE THAT MAKE IT DISTINCTIVE? IT IS THE BUILDINGS, THE BUSINESSES, THE PEOPLE, THE INSTITUTIONS, THE LOCAL STORIES, THE HISTORY? – IT'S THE TAPESTRY OF PLACES.

VINCENT TOWN CENTRE PLACE PLANS

CREATING PLACES FOR PEOPLE

ITEM 3.1 - HIGH QUALITY GROUND FLOOR DESIGN

The standard of ground floor design needs to be improved in all new developments.

Good ground floor design outcomes are a fundamental component to walkability and are crucial to the saleability of new ground floor tenancies and the long term success of businesses.

The City is committed to enforcing and promoting good, high quality ground floor design outcomes and will advocate to developers and businesses to achieve this.

Advocate for **High Quality Ground Floor Design** to the development industry and business community

NORTH PERTH TOWN CENTRE PLACE PLAN

00 INTRODUCTION

The North Perth Town Centre Place Plan (Place Plan) has been developed as a 'place based' strategic plan to guide the direction of funding and resources in the North Perth Town Centre.

North Perth Town Centre is defined by its unique character, diverse mix of businesses and rich cultural history. Its characters, iconic businesses and heritage buildings contribute to its distinct sense of identity and are why it is like no other place.

After establishing as a commercial area in the late 19th century, North Perth Town Centre has reinvented itself a number of times. From commercial outpost, to bustling northern suburb with the state's largest primary school, to the settling place for immigrants that have imbued the place with layers upon layers of cultural diversity. North Perth Town Centre is emerging as a vibrant and highly liveable destination. There are great challenges ahead, but also great opportunities.

NORTH PERTH TOWN CENTRE PLACE PLAN

PLACE PLAN PURPOSE & PROCESS

The Place Plan outlines the funds and resources the City has specifically committed to the North Perth Town Centre. The boundary of North Perth Town Centre (refer **North Perth Town Centre Boundary Map**) extends beyond the City of Vincent's Town Planning Scheme No. 2 District Centre Scheme Zone, to incorporate the commercial, cultural, and community offering in the immediate vicinity of Angove Street and Fitzgerald Street.

The Place Plan lists the implementation schedule for all of the major initiatives being undertaken in the North Perth Town Centre by the City of Vincent. Such initiatives include but are not limited to public realm upgrades, marketing initiatives, economic and community development projects and/or policy and procedural improvements. The Place Plans provide a robust, planned and integrated approach to project identification and delivery.

The strategies and actions within the Place Plan are cross checked against the following three sources:

- A. the content and identified actions within the North Perth Local Action Plan;
- B. best practice; and
- C. data collected through the Town Centre Performance Measurement Strategy.

The diagram below identifies the process in which Place Plan actions are prepared.

The Place Plan will be reviewed and updated annually. Anyone who wants to know what the City of Vincent is doing in the North Perth Town Centre can read this document and learn about the broad range of projects the City is undertaking, and the direction the City is taking to support and improve the town centre.

The Implementation Framework sets out the actions, time frames and teams who are responsible for the delivery of the actions and projects.

NORTH PERTH LOCAL

Each of the City of Vincent town centres has a 'town team'. The town teams are independently formed incorporated bodies that aim to make their respective town centres the best places they can possibly be. The town teams are not an affiliate of the City but do receive funding for community driven initiatives. The town teams are made up of a diverse range of members that include business owners, land owners and local residents. Each town team member brings a different set of skills and life experiences to the table and these collectively shape the direction, composition and identity of the five town teams.

The town teams and the City enjoy a symbiotic relationship. The City engages directly with each town team on a variety of issues that are specific to their respective town centres and the town teams are able to effectively communicate issues, solutions and ideas to the City through their strategic Action Plans. The City works collaboratively with the town teams to deliver locally based activities/events, physical improvements and economic and community development initiatives.

North Perth Local is the town team operating in the North Perth Town Centre. North Perth Local's Action Plan outlines a range of objectives and principles as well as their key focus areas.

HOW TO READ THIS DOCUMENT!

The North Perth Town Centre Place Plan is structured around three Key Focus Areas:

01 ACTIVITY Sets out the actions and projects which assist the City to enhance activity in the town centre in order for it to reach its activation and economic potential.

02 MOVEMENT Sets out the actions and projects which enhance walkability, improve the use of public transport, deliver parking efficiencies and create a more pedestrian and cycle friendly town centre.

03 CHARACTER Sets out the actions and projects which contribute to North Perth's unique sense of place.

The City of Vincent is committed to 'Greening Vincent' by increasing overall canopy cover, creating more liveable and walkable neighbourhoods and fostering biodiversity within the City of Vincent. Major greening projects are identified in:

- the City's Greening Plan Implementation Schedule; and
- the actions in the Place Plan that are demarcated with the Vincent Greening Icon below.

GREENING Any action that has a greening component is marked with the City of Vincent's Greening Plan Icon.

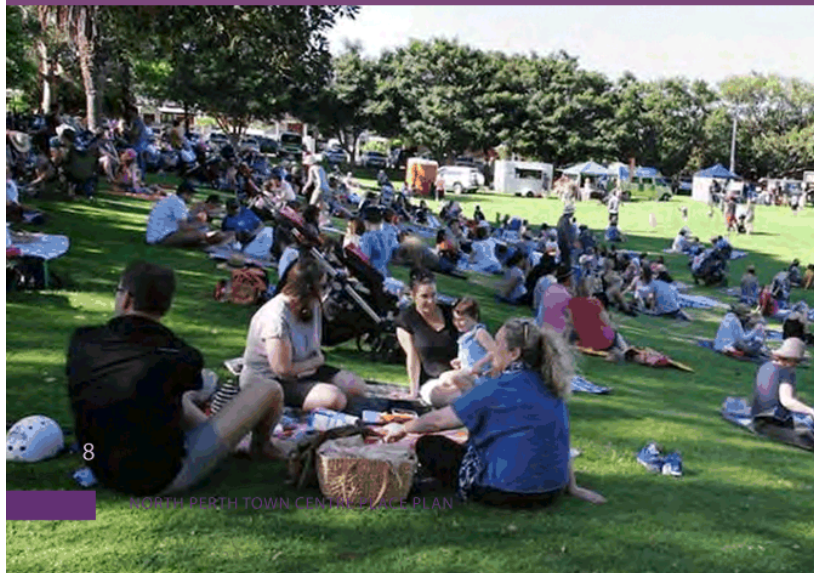

IMPLEMENTATION FRAMEWORK Sets out the actions, time frames and the responsible teams for the delivery of all of the identified projects.

Each project is explained using the following three step process:

01 ACTIVITY

NORTH PERTH TOWN CENTRE WILL CONTINUE TO BE A BEAUTIFUL PLACE WHERE THE COMMUNITY LIVE, WORK AND PLAY AND WHERE A THRIVING LOCAL ECONOMY SUPPORTS PROSPEROUS AND PASSIONATE LOCAL, INDEPENDENT BUSINESSES.

EVENTS & ACTIVATION

ITEM 1.1 - NORTH PERTH COMMON (TOWN SQUARE)

There is limited activity in North Perth Town Centre and not enough comfortable urban open space in the North Perth Town Centre.

Currently there are only two formal public spaces in the North Perth Town Centre and these are both located on the western fringe of the town centre boundary (refer **Existing Public Open Space Map**).

The North Perth Master Plan 2012 identifies the need for a centrally located public space in the town centre. The Master Plan shows a piazza space at the corner of View Street and Fitzgerald Street but the concept in the Master Plan is constrained by private ownership. Following a detailed investigation, Council approved the design and development of a public space at the corner of View Street and Fitzgerald Street including the development of a shared space called North Perth Common on the View Street road reserve.

North Perth Common was designed and delivered in 2018/2019 to be utilised for curated events and activities. The City should facilitate the activation of this space to attract and encourage people to 'linger longer'.

Review North Perth Common Stage 1 to inform future public space design and activation (CBP No. 16)

PUBLIC OPEN SPACE

ITEM 1.2 - WOODVILLE RESERVE MASTER PLAN

Woodville Reserve contains a number of community uses including the North Perth Tennis Club, North Perth Bowls Club, Vincent Men's Shed and North Perth Community Garden. These uses and associated facilities are disconnected from one another and from the North Perth Town Centre.

The community facilities at Woodville Reserve have developed incrementally over time. They are well patronised but spatially disconnected. The poor physical relationships between them has inhibited the building of strong relationships between the community groups who inhabit them.

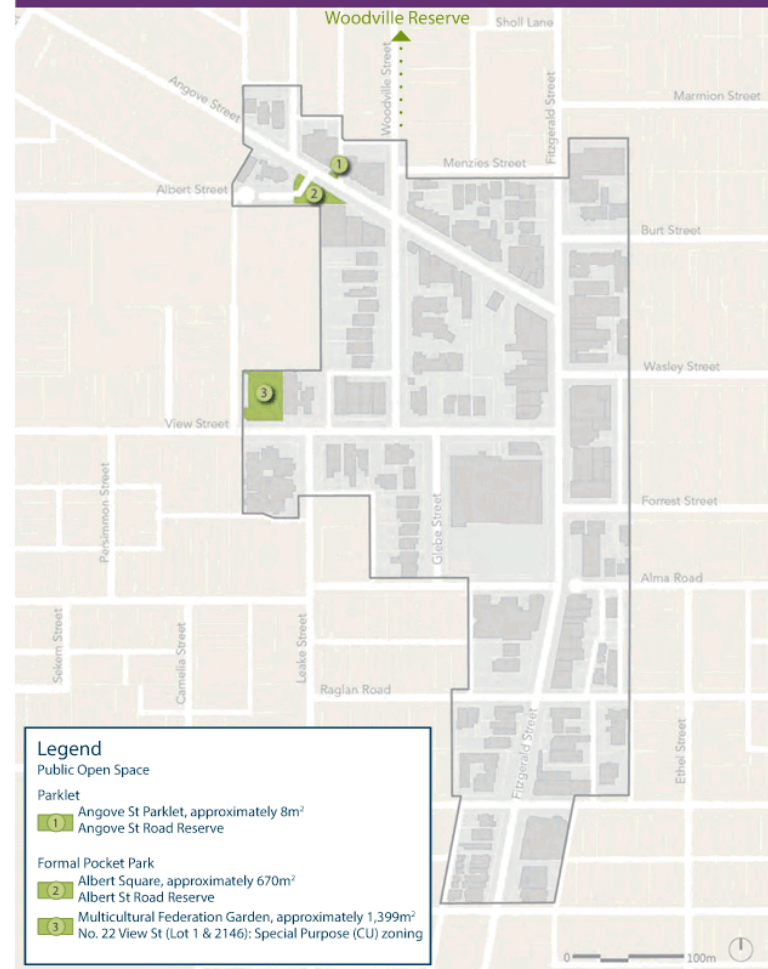

The City is committed to preparing a master plan for Woodville Reserve. Opportunities to develop a positive synergy between Woodville Reserve, the surrounding community uses and the North Perth Town Centre will be explored. The master plan will consider the legibility of this site and how the activity generated by the community uses can better link to the town centre.

Prepare **Woodville Reserve Master Plan**

WOODVILLE RESERVE MASTER PLAN will contribute to the greening of Vincent by making better use of the existing green space and by exploring opportunities to increase canopy cover.

EXISTING PUBLIC OPEN SPACE MAP

ACTIVITY

01

9

NORTH PERTH TOWN CENTRE PLACE PLAN

NIGHT TIME ECONOMY

ITEM 1.3 - NORTH PERTH'S NIGHT TIME ECONOMY

North Perth Town Centre has a weak night time economy compared with other nearby town centres.

The **After hours Trading Map** shows the businesses that are open after 6pm. The primary generators of after hours activity in the North Perth Town Centre are the supermarket in the North Perth Plaza shopping centre and the Rosemount Hotel. Both of these uses attract specific target audiences with different habits and behaviours. Reviewing the City's car parking requirements for night time related land uses may improve the affordability of setting up after hours venture. Similarly, a review of the land use permissibility in the City's Town Planning Scheme may remove the need for community advertising and Council approval or even the need for planning approval altogether.

There is an opportunity to leverage the activity generated after hours by the local supermarket and the future North Perth Common (Town Square) to encourage after hour's uses in the immediate area.

Ensure updates to the planning and policy framework facilitate the development of **North Perth's Night Time Economy**

TOWN CENTRE SAFETY

ITEM 1.4 - CCTV NETWORK

There is no City of Vincent CCTV in the North Perth Town Centre.

The City is required to review the City's CCTV Strategy and this review may result in specific recommendations for the North Perth Town Centre. A CCTV network can contribute to community safety and security, especially after hours.

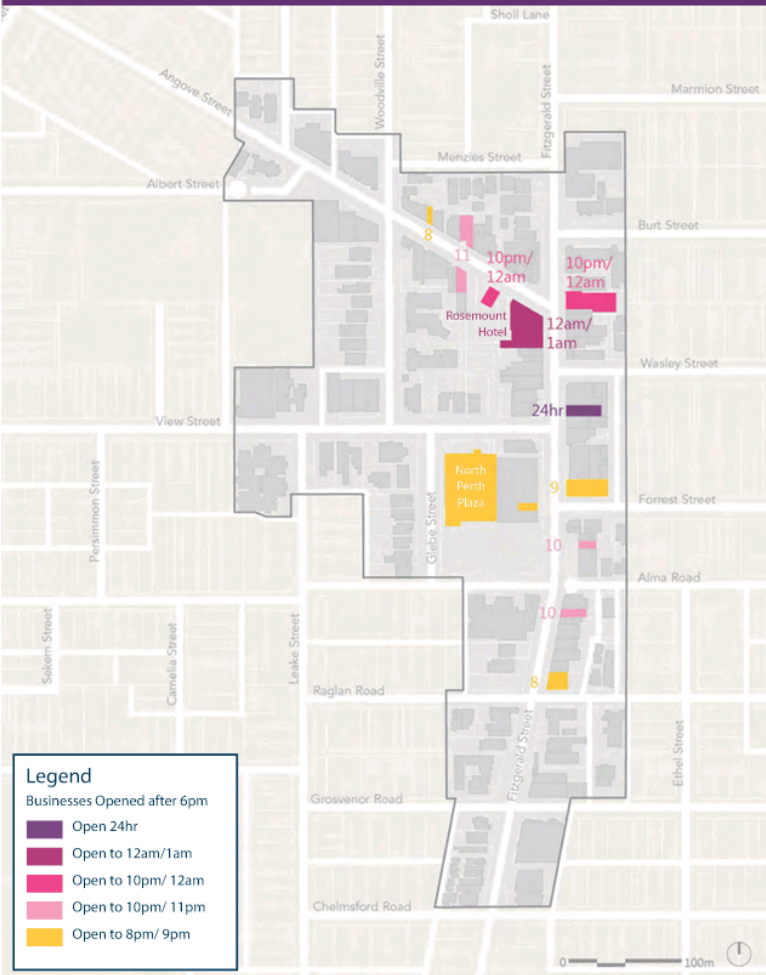

The **North Perth Local Action Plan** identifies a need to focus on community safety.

Implement the recommendations of the 2017/18 review of the City's **CCTV Network**

10

NORTH PERTH TOWN CENTRE PLACE PLAN

AFTER HOURS TRADING MAP

TOWN CENTRE SAFETY

ITEM 1.5 - LIGHTING IMPROVEMENTS

There are some poorly lit areas in the North Perth Town Centre.

Pedestrian safety and the quality of lighting in the North Perth Town Centre is generally considered to be good. The lighting on secondary streets and key walking routes that lead to the town centre could be improved to enhance the pedestrian environment after hours.

The **North Perth Local Action Plan** identifies a need to focus on community safety.

Investigate **Lighting Improvements** on View Street and Angove Street

DEVELOPMENT OPPORTUNITIES

ITEM 1.6 - NORTH PERTH PLAZA

The North Perth Plaza is an unattractive, underdeveloped, car oriented shopping centre located in the heart of the North Perth Town Centre.

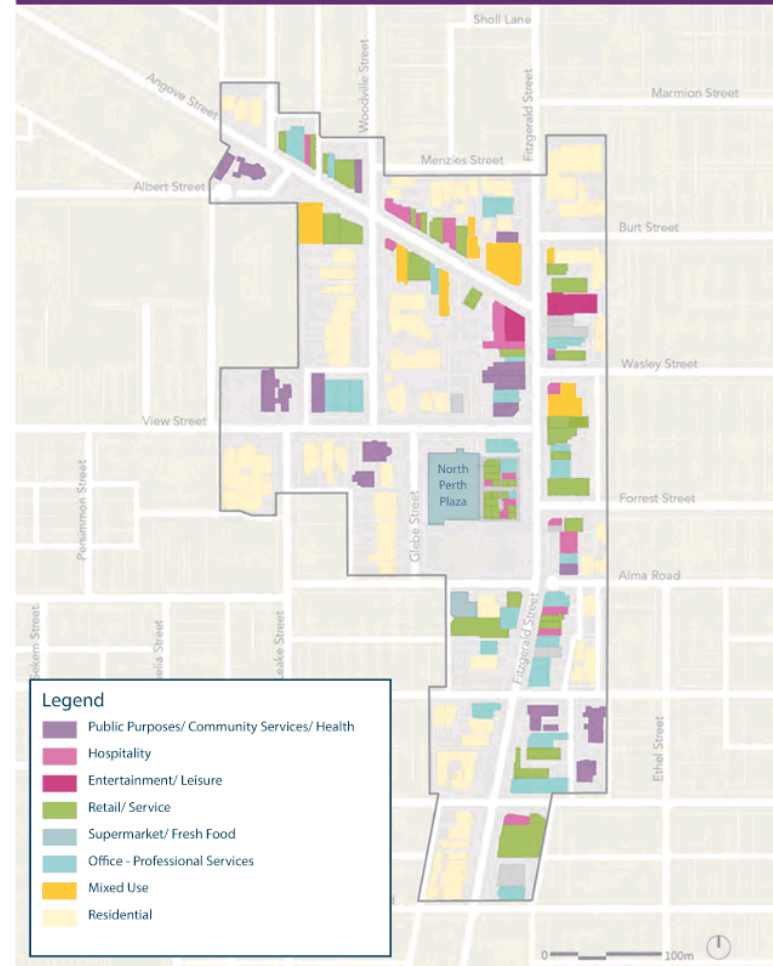

It is yet to reach its potential as a key destination and lacks connectivity to the street.

The ownership of North Perth Plaza presents some constraints for redevelopment in the short term but the sites location presents significant redevelopment opportunity in the longer term. The City is well positioned to support and advocate for redevelopment in the future.

The City should advocate to North Perth Plaza landowners and/or interested third parties to develop a future design for the site that delivers the right mix of land uses, compliments the local character and includes high quality public spaces and the integration of the adjacent North Perth Plaza bus stop.

Facilitate stakeholder negotiations to redevelop the **North Perth Plaza**

LAND USE MAP

ACTIVITY

01

11

NORTH PERTH TOWN CENTRE PLACE PLAN

DEVELOPMENT OPPORTUNITIES

ITEM 1.7 - VIEW STREET CAR PARK URBAN DESIGN CONCEPT

The City has limited land holdings in the town centre (refer **City Owned Land Map**). The use of the premium, centrally located, City owned land at Lots 15, 16 and 40 View Street is not currently of significant benefit to the town centre. Lot 15 supports an underutilised dwelling and the remaining lots form a car park with limited efficiencies.

The City does not have a strategy outlining how its town centre landholdings should be used but it is evident that Lots 15, 16 and 40 View Street are not fulfilling their potential. The land is located adjacent to the neighbouring Rosemount Hotel Car Park and presents an opportunity to improve parking efficiencies, pedestrian links and deliver high quality infill development and urban open space.

This opportunity was identified in the North Perth Master Plan 2012 and the City is now in a position to determine how this land could be utilised for the benefit of the town centre.

Prepare an **Urban Design Concept for View Street Car Park** and surrounds

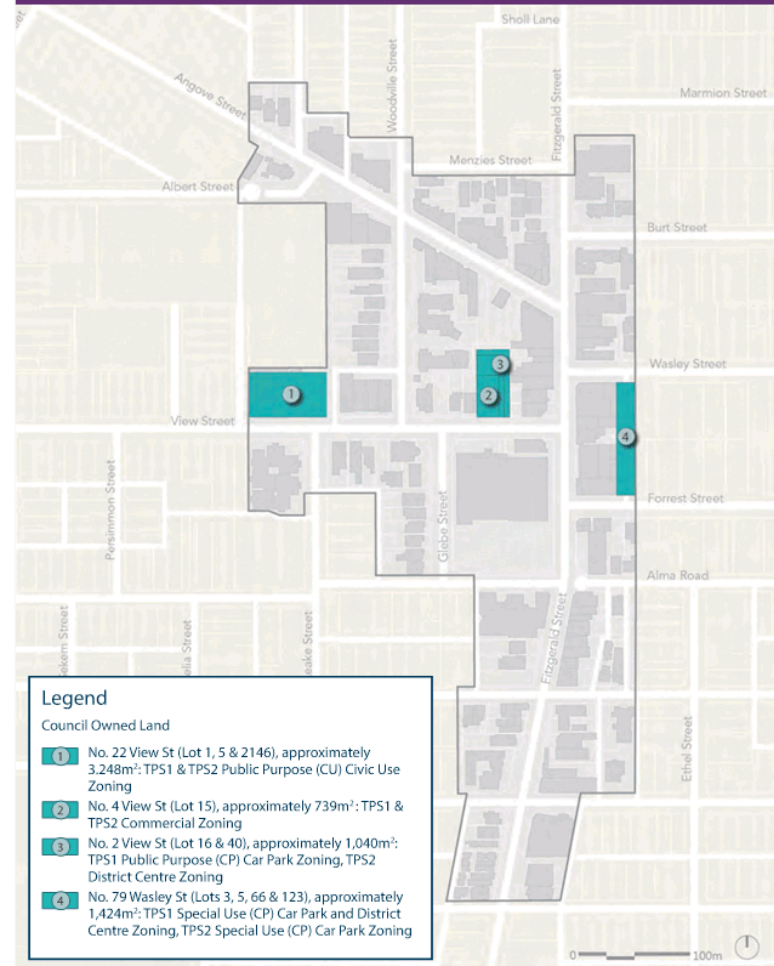

VIEW STREET CAR PARK URBAN DESIGN CONCEPT will incorporate additional tree planting along identified key pedestrian links that will contribute to the greening of Vincent.

12

NORTH PERTH TOWN CENTRE PLACE PLAN

COUNCIL OWNED LAND MAP

IMPROVING TOWN CENTRE ACCESSIBILITY

ITEM 2.1 - ANGOVE/FITZGERALD ST INTERSECTION

The Angove/Fitzgerald Street Intersection is difficult for pedestrians to cross.

The pedestrian environment at the Angove Street and Fitzgerald Street intersection is currently poor and somewhat difficult to cross. Improvements to the design and management of this intersection should be explored to enhance pedestrian and cyclist movement. Cycling starter boxes should also be considered at this intersection.

Plan **Angove/Fitzgerald Street Intersection** Improvements

IMPROVING TOWN CENTRE ACCESSIBILITY

ITEM 2.2 - ALBERT/ANGOVE JUNCTION SHARED SPACES

The Albert/Angove Junction could be Vincent's highest quality pedestrian environment.

The Albert/Angove Junction was upgraded in 2016 from an unusable verge space to a comfortable public space. It is now able to host a range of activities and small scale events.

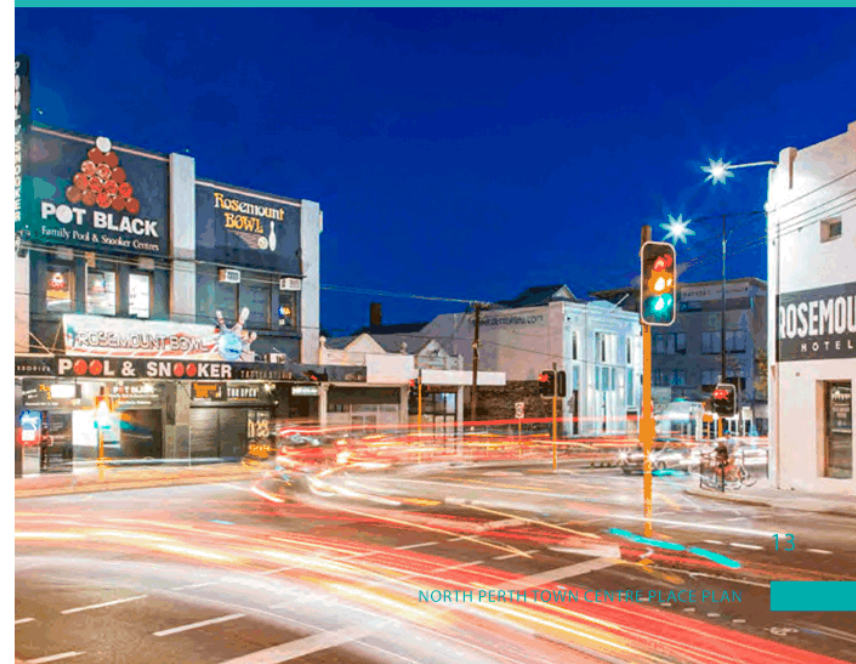

The location of the space lends itself to further refinement, being enclosed by well-designed ground floor tenancies, medium density residential, the North Perth Primary School and the Macedonian Orthodox Church.

This space has the potential to be expanded into the surrounding road network via a series of shared spaces that would give greater priority to active transport modes.

Plan and implement **Shared Spaces at Angove Street and Albert Street junction** adjacent to Albert Square public open space

02 MOVEMENT

THE NORTH PERTH TOWN CENTRE WILL FIND THE RIGHT BALANCE BETWEEN CARS, BUSES, BICYCLES AND PEDESTRIANS, BECOMING A GREAT PLACE FOR PEOPLE AND BUSINESS.

NORTH PERTH TOWN CENTRE PLACE PLAN

IMPROVING TOWN CENTRE ACCESSIBILITY

ITEM 2.3 - FITZGERALD STREET UPGRADES

Fitzgerald Street is not a comfortable place for pedestrians.

Fitzgerald Street is classified as an 'Other Regional Road' in the Metropolitan Region Scheme. This means Fitzgerald Street is considered an important road for connecting people and goods. Our state roads authority, Main Roads Western Australia (MRWA) advise and assist the City of Vincent in the management of Fitzgerald Street.

Fitzgerald Street has another important purpose. It is a place for people. It connects people between businesses on the eastern and western side of the street. It contains the street trees that shade people as they walk on its footpaths and the public art that people admire as they sit on public benches.

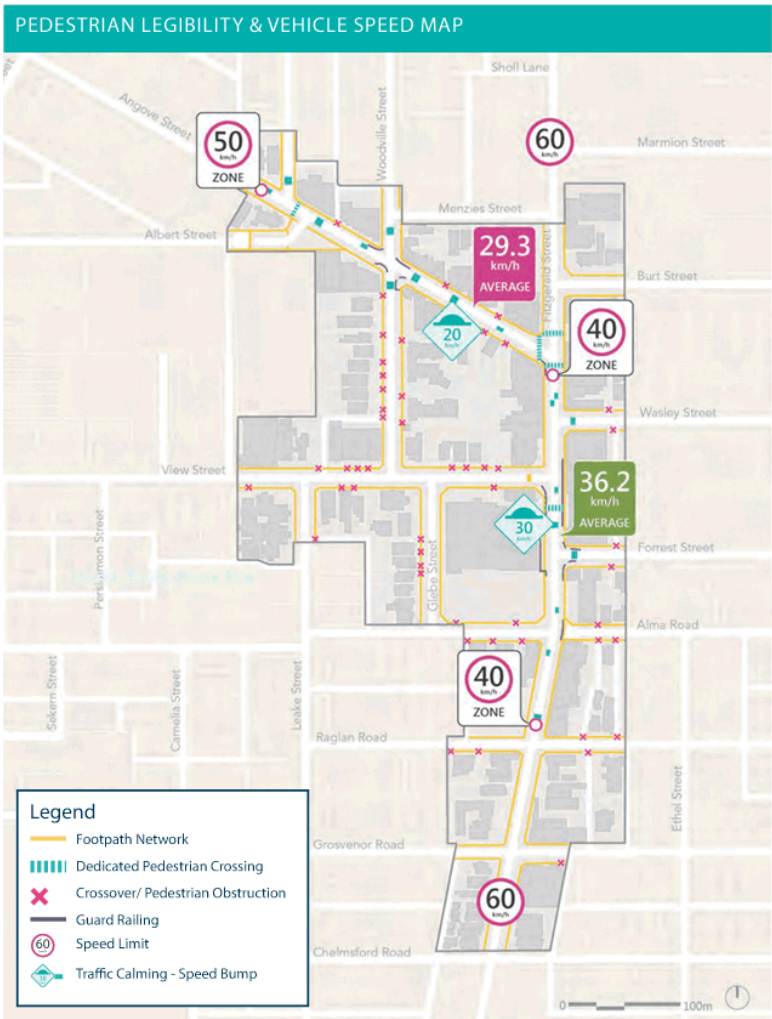

Data shows that on average vehicle speeds on Fitzgerald Street do not exceed the speed limit and are comparable to neighbouring Beaufort Street. Yet Beaufort Street functions better as a place for people – why? Observational studies show that noise, constant traffic movement, narrow footpath widths, and buses passing close to pedestrians are impacting pedestrian comfort in a negative way.

It is difficult to cross Fitzgerald Street. Guard rails installed to improve safety actually reduce the ability for pedestrians and cyclists to cross the road and inadvertently reduce driver focus.

The attractiveness of North Perth Town Centre is also impacted by streetscape clutter. This includes road signs, guard rails, business signage and poorly located street furniture. Removing much of this clutter will improve the attractiveness of the town centre.

Improvements to the streetscape including investigating an increase in footpath widths, reducing intersection sizes and further investigating the need for more bicycle parking will induce more walking and cycling. Where possible active transport modes should gain priority over vehicles.

14

A raised plateau on Fitzgerald Street should be investigated to improve pedestrian movement across Fitzgerald Street. This is consistent with the North Perth Master Plan 2012.

✓ Plan and implement **Upgrades to Fitzgerald Street**

FITZGERALD STREET UPGRADES will include further street tree plantings and potential landscaping that will contribute to the greening of Vincent.

IMPROVING TOWN CENTRE ACCESSIBILITY

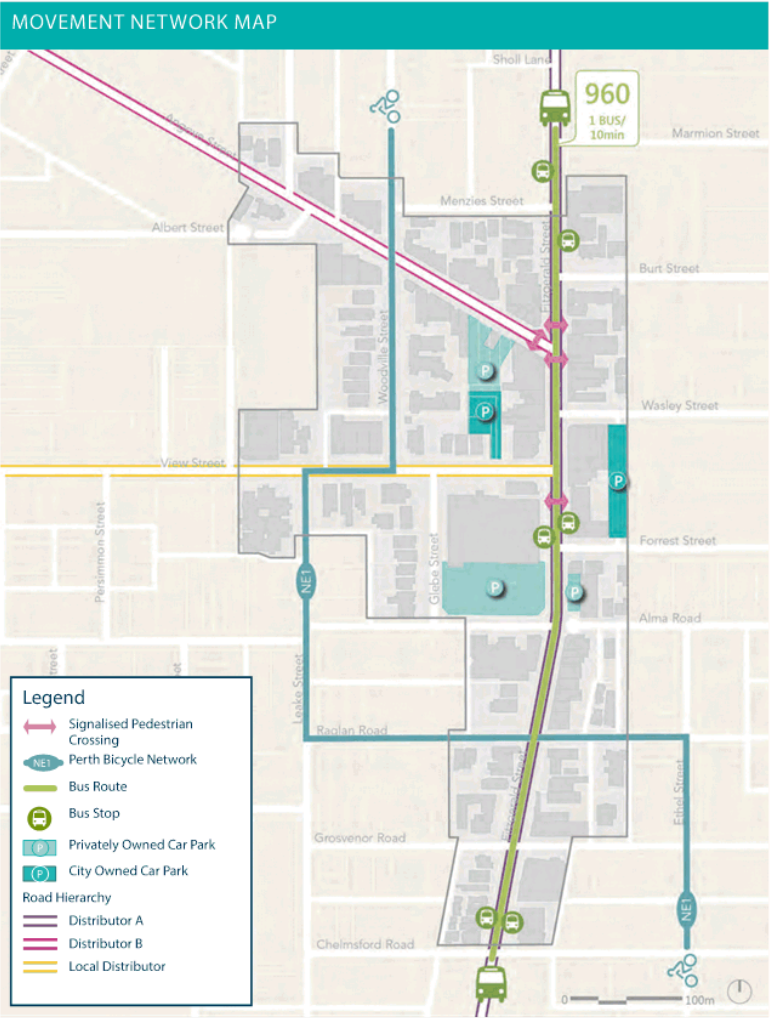

ITEM 2.4 - NORTH PERTH BUS STOP UPGRADE & NAMING

🏠 The North Perth Plaza bus stop is bland, standard and without an identity.

🔍 Giving important locations a sense of identity is a central principle of wayfinding and this is especially relevant to North Perth's most centrally located public transport node.

🔍 Naming the bus stop and affirming it as a key public transport node may provide further impetus to the revitalisation of North Perth Plaza and other landholdings.

✓ Advocate to the Public Transport Authority for **North Perth Plaza Bus Stop Upgrade and Naming**

NORTH PERTH TOWN CENTRE PLACE PLAN

MOVEMENT
02

03 CHARACTER

NORTH PERTH TOWN CENTRE SHOULD EMBRACE WHAT MAKES IT DISTINCTIVE. WHAT ARE THOSE SPECIAL ASPECTS THAT MAKE IT DIFFERENT FROM OTHER PLACES? IS IT THE BUILDINGS, THE BUSINESSES, THE PEOPLE, THE INSTITUTIONS, THE LOCAL STORIES, THE HISTORY? – IT'S ALL OF THOSE THINGS OF COURSE.

THESE SPECIAL THINGS CAN AND WILL BE CELEBRATED THROUGH THE BRANDING & MARKETING OF THE TOWN CENTRE. HOWEVER, THERE ARE SOME SPECIFIC ACTIONS THE CITY CAN TAKE TO IMPROVE FITZGERALD STREET & CAPITALISE ON THE TRADITIONAL HERITAGE BUILDINGS ON VIEW STREET.

CREATING PLACES FOR PEOPLE

ITEM 3.1 - NORTH PERTH PLAZA SITE IMPROVEMENTS

North Perth Plaza is an unattractive ageing shopping centre that does not add positively to the character of the town centre or provide a comfortable walking environment for pedestrians.

North Perth Plaza is a centrally located, key destination for town centre visitors. It is passed by more than 24,000 vehicles per day, heading both north and south along Fitzgerald Street and its prominent location sets the scene for the surrounding town centre.

The footpath adjacent to the North Perth Plaza is cluttered with bollards, poorly located seating and empty planter boxes. De-cluttering the streetscape and upgrading the laneway on the north side of the Plaza will improve pedestrian comfort, enhance the Plaza's visual appeal and make the site a better place for people. Carefully located and designed bicycle parking would also be beneficial especially in close proximity to the North Perth Plaza bus stop.

Encourage **North Perth Plaza Site Improvements**

NORTH PERTH PLAZA SITE IMPROVEMENTS will contribute to the greening of Vincent by providing opportunities for additional planting on this key town centre site.

HERITAGE

ITEM 3.2 - NORTH PERTH TOWN HALL

The North Perth Town Hall is a significant asset to the town centre but is currently underutilised.

The recently renovated North Perth Town Hall has the potential to be used more effectively. The North Perth Town Hall should be accessible to the entire community and a place where people come to meet. It is an ideal location for more community events and work will be undertaken to increase its use.

Increase the use of the **North Perth Town Hall** by 5% annually and capitalise on its cultural significance and character

HERITAGE

ITEM 3.3 - VIEW STREET LANDSCAPE LINK

The traditional heritage buildings on View Street are hidden from the rest of the town centre.

The pedestrian connections between Fitzgerald Street and the traditional heritage town centre along View Street are currently poor. The implementation of a green link and improved wayfinding would improve the pedestrian connectivity between Fitzgerald Street and the State Registered heritage buildings. The link could include additional landscaping such as verge upgrades and street tree plantings.

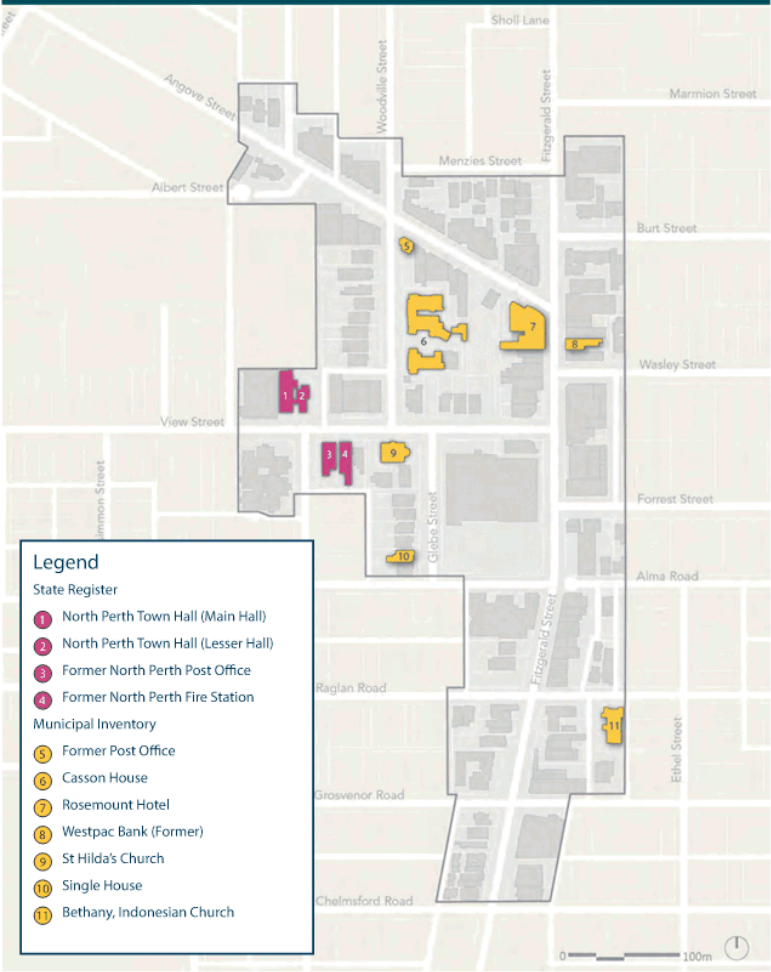

North Perth Master Plan 2012 identified the opportunity to develop this landscape link and the City is now in a position to implement it.

Plan & implement a **View Street Landscape Link** along View Street between Fitzgerald Street and the traditional heritage buildings

VIEW STREET LANDSCAPE LINK will contribute to the greening of Vincent by increasing the canopy cover and planting along View Street.

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

00 INTRODUCTION

The Mount Hawthorn Town Centre Place Plan (Place Plan) has been developed as a 'place based' strategic plan to guide the direction of funding and resources in the Mount Hawthorn Town Centre.

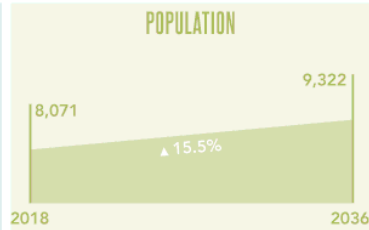

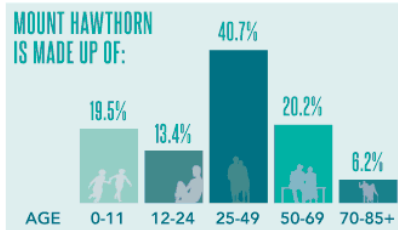

Mount Hawthorn Town Centre is defined by its unique landscape character and rich history. It extends from Braithwaite Park in the west to Britannia Road in the south and incorporates Axford Park. Traditional fine-grain shops front Scarborough Beach Road with an emerging mix of businesses along the north of Oxford Street.

Mount Hawthorn has evolved from a satellite centre serviced by trams in the late 19th century, to a cosmopolitan migrant settlement, to a community oriented suburban village with a bustling local centre. Mount Hawthorn Town Centre is a highly valued, attractive local destination which presents opportunities to better service the local community and accommodate additional residents.

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

INTRODUCTION

00

3

PLACE PLAN PURPOSE & PROCESS

The Place Plan outlines the funds and resources the City has specifically committed to the Mount Hawthorn Town Centre. The boundary of Mount Hawthorn Town Centre (refer [Mount Hawthorn Town Centre Boundary Map](#)) extends beyond the City of Vincent's Town Planning Scheme No. 2 District Centre Scheme Zone, to incorporate the commercial offering in the immediate vicinity of Oxford Street and Scarborough Beach Road.

The Place Plan lists the implementation schedule for all of the major initiatives being undertaken in the Mount Hawthorn Town Centre by the City of Vincent. Such initiatives include but are not limited to public realm upgrades, marketing initiatives, economic and community development projects and/or policy and procedural improvements. The Place Plans provide a robust, planned and integrated approach to project identification and delivery.

following three sources:

- A. the content and identified actions within the Mount Hawthorn Hub Action Plan;
- B. best practice; and
- C. data collected through the Town Centre Performance Measurement Strategy.

The diagram below identifies the process in which Place Plan actions are prepared.

The Place Plan will be reviewed and updated annually. Anyone who wants to know what the City of Vincent is doing in the Mount Hawthorn Town Centre can read this document and learn about the broad range of projects the City is undertaking, and the direction the City is taking to support and improve the town centre.

The Implementation Framework sets out the actions, time frames and teams who are responsible for the delivery of the actions and projects.

MOUNT HAWTHORN HUB

Each of the City of Vincent town centres has a 'town team'. The town teams are independently formed incorporated bodies that aim to make their respective town centres the best places they can possibly be. The town teams are not an affiliate of the City but do receive funding for community driven initiatives. The town teams are made up of a diverse range of members that include business owners, land owners and local residents. Each town team member brings a different set of skills and life experiences to the table and these collectively shape the direction, composition and identity of the five town teams.

The town teams and the City enjoy a symbiotic relationship. The City engages directly with each town team on a variety of issues that are specific to their respective town centres and the town teams are able to effectively communicate issues, solutions and ideas to the City through their strategic Action Plans. The City works collaboratively with the town teams to deliver locally based activities/events, physical improvements and economic and community development initiatives.

Mount Hawthorn Hub is the town team operating in the Mount Hawthorn Town Centre. Mount Hawthorn Hub's Action Plan outlines a range of objectives and principles as well as their key focus areas.

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

HOW TO READ THIS DOCUMENT!

Mount Hawthorn Town Centre Place Plan is structured around three Key Focus Areas:

01 ACTIVITY Sets out the actions and projects which assist the City to enhance activity in the town centre in order for it to reach its activation and economic potential.

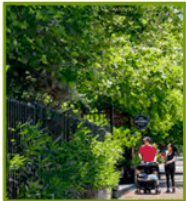

02 MOVEMENT Sets out the actions and projects which enhance walkability, improve the use of public transport, deliver parking efficiencies and create a more pedestrian and cycle friendly town centre.

03 CHARACTER Sets out the actions and projects which contribute to Mount Hawthorn's unique sense of place.

The City of Vincent is committed to ‘Greening Vincent’ by increasing overall canopy cover, creating more liveable and walkable neighbourhoods and fostering biodiversity within the City of Vincent. Major greening projects are identified in:

- the City’s Greening Plan Implementation Schedule; and
- the actions in the Place Plan that are demarcated with the Vincent Greening Icon below.

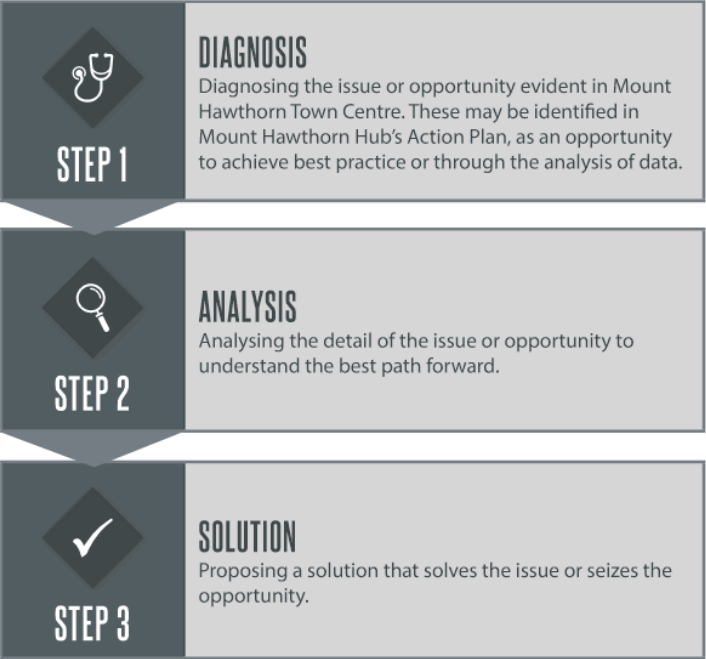

GREENING Any action that has a greening component is marked with the City of Vincent’s Greening Plan Icon.

IMPLEMENTATION FRAMEWORK Sets out the actions, time frames and the responsible teams for the delivery of all of the identified projects.

Each project is explained using the following three step process:

01 ACTIVITY

MOUNT HAWTHORN TOWN CENTRE WILL CONTINUE TO BE A BEAUTIFUL PLACE WHERE THE COMMUNITY LIVE, WORK AND PLAY AND WHERE A THRIVING LOCAL ECONOMY SUPPORTS PROSPEROUS AND PASSIONATE LOCAL, INDEPENDENT BUSINESSES.

8

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

EVENTS & ACTIVATION

ITEM 1.1 - FREE WIFI

There is currently no free WiFi in Mount Hawthorn Town Centre.

The City has committed to investigating options for enhanced telecommunications infrastructures and services such as free public WiFi as outlined in the City's Strategic Community Plan.

Free public WiFi supports mobility, and attracts workers, students and other potential visitors to commercial places such as town centres. Opportunities to implement Free WiFi in public town centre spaces, such as Axford Park, should be explored to determine potential benefits and priority locations.

The **Mt Hawthorn Hub Action Plan** identifies Free WiFi across the town centre as necessary to support the positive growth of Mount Hawthorn.

Determine options to implement **Free WiFi** in priority town centre locations

MARKETING & BRANDING

ITEM 1.2 - BANNER POLES

Town centre banner poles are not installed along Oxford Street North.

Oxford Street North is an integral component of the Mount Hawthorn Town Centre and is the southern entry from Leederville into the town centre. The lack of banner poles make it difficult for the City to consistently market and brand the whole town centre and Mount Hawthorn events and initiatives.

The **Mt Hawthorn Hub Action Plan** identifies Place Branding as an area for improvement.

Install **Banner Poles** along Oxford Street North

PUBLIC OPEN SPACE

ITEM 1.3 - AXFORD PARK UPGRADE

Axford Park is a significantly underutilised town centre asset.

Axford Park is centrally located in the town centre, connecting Oxford Street with the traditional main street along Scarborough Beach Road (refer **Existing Public Open Space Map**)

The City's Public Open Space Strategy identifies the need to establish a high quality civic open space within the town centre and a Concept Design to deliver this at Axford Park was adopted by Council in 2018.

The Concept Design considers Axford Park as the 'Front Yard of Mount Hawthorn' and takes inspiration from the character housing seen throughout the suburb. The design depicts the long term plan for the park and is split into stages to enable the park to be upgraded over time in a sustainable, staged manner.

Although a number of stages are poised to be delivered in the immediate future, other stages are reliant on the redevelopment of adjacent lots and/or modal shift away from private vehicle use.

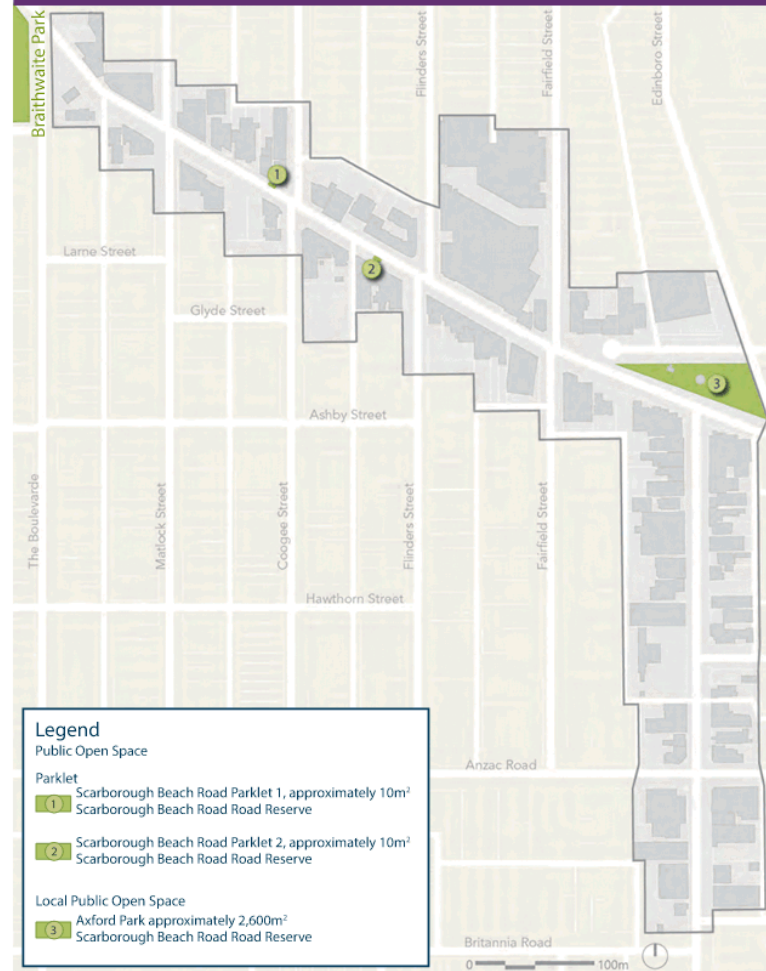

To ensure the park reaches its potential as a well utilised community gathering space in the short term, the City should invest in the design and delivery of the upgrade stages which aren't reliant on external factors.

Design and deliver the first phase of **Axford Park Upgrade**

AXFORD PARK UPGRADE will contribute to the greening of Vincent by making better use of the existing green space and converting underperforming road reserve to additional town centre green space.

EXISTING PUBLIC OPEN SPACE MAP

ACTIVITY

01

9

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

NIGHT TIME ECONOMY

ITEM 1.4 - NIGHT TIME ECONOMY

Mount Hawthorn Town Centre has a weak night time economy compared with other nearby town centres.

The **After Hours Trading Map** shows the businesses that are open after 6pm.

There is an opportunity to leverage the activity generated after hours by restaurants and bars along Scarborough Beach Road and the Mount Hawthorn Hawkers Market on Friday evenings to encourage after hour's uses in the immediate area.

The **Mt Hawthorn Hub Action Plan** identifies a need to support and encourage activities that strengthen the night-time economy. Prior to supporting the development of the night time economy, the City needs to better understand why more night time activities are not attracted to the town centre and what the barriers inhibiting existing businesses from extending trading hours are.

Identify barriers inhibiting Mount Hawthorn's **Night Time Economy** in consultation with local businesses and determine actions to address these

TOWN CENTRE SAFETY

ITEM 1.5 - LED STREET LIGHTS

The street lights along Scarborough Beach Road and Oxford Street function poorly at night and are not energy efficient.

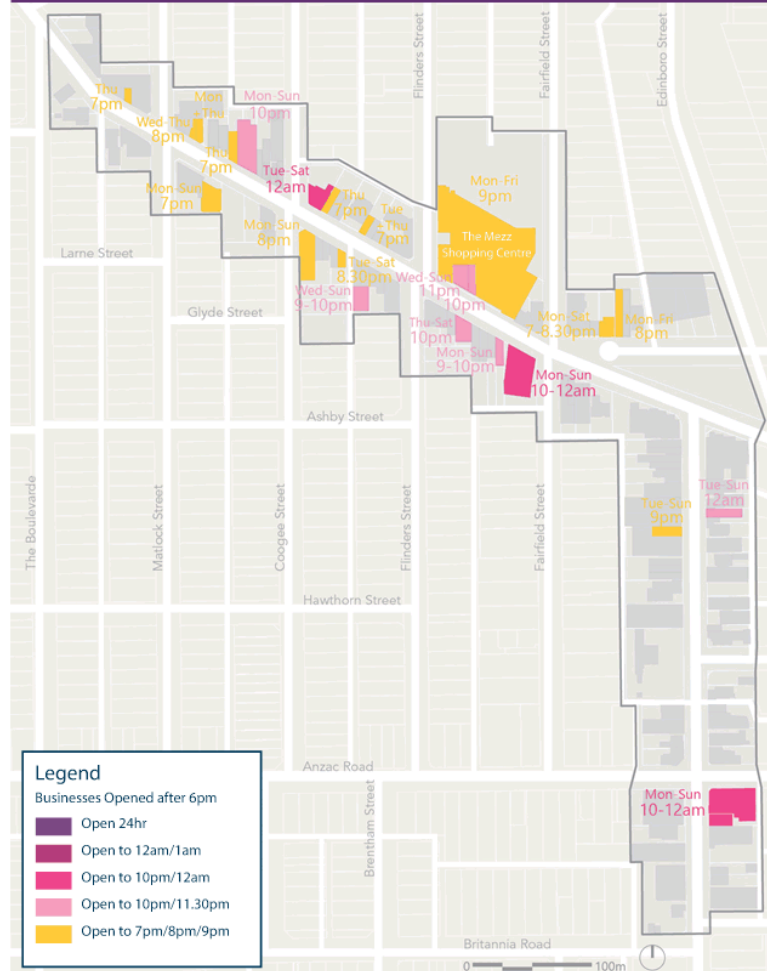

The Western Power street lights along Scarborough Beach Road and Oxford Street are high pressure sodium (yellow) lamps which do not efficiently or consistently light the streets at night. The lights are poorly maintained and delays to repair them often leave the town centre main streets in darkness.

Western Power LED high efficiency long life luminaires are now available and the **Mt Hawthorn Hub Action Plan** identifies a need to improve lighting in the town centre.

Install **LED Street Lights** along Scarborough Beach Road and Oxford Street

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

AFTER HOURS TRADING MAP

TOWN CENTRE SAFETY

ITEM 1.6 - CAR PARK LIGHTING IMPROVEMENTS

Flinders Street Car Park is poorly illuminated at night.

There is an opportunity to replace existing luminaires in the City's car park with LED pole mounted or post top luminaires to promote safety and security.

The **Mt Hawthorn Hub Action Plan** identifies a need to improve lighting in the town centre.

Investigate **Lighting Improvements** in the Flinders Street Car Park

TOWN CENTRE SAFETY

ITEM 1.7 - LANE LIGHTING IMPROVEMENTS

The lanes between Flinders Street and Oxford Street are poorly illuminated at night.

The City currently receives reports of anti-social behaviour occurring in these lanes. Through the Australian Government Safer Communities Program, there is an opportunity to install solar lighting to promote safety and security.

Implement **Lane Lighting Improvements** in the lanes between Flinders Street and Oxford Street

DEVELOPMENT OPPORTUNITIES

ITEM 1.8 - FUTURE YOUTH SPACE

There is a significant gap in the provision of infrastructure to service the needs of teenagers and young adults in Mount Hawthorn.

The City's Public Open Space Strategy identifies a significant accessibility gap for youth oriented infrastructure in Mount Hawthorn and the **Mt Hawthorn Hub Action Plan** identifies a need to undertake an engagement strategy to inform the development of a permanent youth space for residents.

Undertake consultation to identify a preferred location for a **Future Youth Space** in the town centre or surrounds

LAND USE MAP

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

ACTIVITY

01

11

02 MOVEMENT

THE MOUNT HAWTHORN TOWN CENTRE WILL FIND THE RIGHT BALANCE BETWEEN CARS, BUSES, BICYCLES AND PEDESTRIANS, BECOMING A GREAT PLACE FOR PEOPLE AND BUSINESS.

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

RETHINKING MOVEMENT IN THE TOWN CENTRE

ITEM 2.1 - INTERSECTION IMPROVEMENTS

The Scarborough Beach Rd/Oxford St intersection is not pedestrian friendly.

The pedestrian environment at the Scarborough Beach Road and Oxford Street intersection is poor and vehicle dominated. Improvements to the design and management of this intersection should be explored to enhance aesthetics and improve pedestrian and cyclist movement. Private as well as public infrastructure could be upgraded to enhance this key location.

The **Mt Hawthorn Hub Action Plan** identifies an opportunity to incorporate street art to improve the streetscape and to create a point of interest which signals to drivers to slow down.

Plan and facilitate Scarborough Beach Road/Oxford Street **Intersection Improvements**

RETHINKING MOVEMENT IN THE TOWN CENTRE

ITEM 2.2 - PARKING MANAGEMENT

The parking restrictions in lots adjoin Flinders Street Car Park are inconsistent and cause confusion.

There are three separately owned car parks adjoin the City's Flinders Street Car Park. The boundaries of these car park areas are unclear and the varied restrictions and signage confusing. The fragmentation of the car parking inevitably means the available parking is not fully utilized.

An opportunity exists to consolidate the management of these car parks to maximise the use of available car parking. With consistent external and internal signage there will be more effective sharing of parking and improved perceptions of the availability of public parking.

Rationalise the **Parking Management** of adjoining car parks between Fairfield Street and Flinders Street

RETHINKING MOVEMENT IN THE TOWN CENTRE

ITEM 2.3 - FORMALISE EDINBORO STREET PARKING

Verge parking along Edinboro Street is a common occurrence and parking in this area is poorly managed.

Verge parking to accommodate parking overflow to the north of Hobart Street along Edinboro Street has become an increasingly prevalent issue due to the large unrestricted verges, the streets proximity to the town centre and the limited formalised bays.

Formalising parking along the Edinboro Street road reserve, directly north of Hobart Street, may increase parking provision at the eastern end of the town centre and enable the City to better manage the efficient and effective use of parking in this area.

Investigate the potential to **Formalise Parking** along Edinboro Street

MOVEMENT

02

13

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

14

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

RETHINKING MOVEMENT IN THE TOWN CENTRE

ITEM 2.4 - OXFORD STREET NORTH UPGRADE

Oxford Street North has no discernible entry from the southern approach.

To improve pedestrian, cyclist and visitor amenity along Oxford Street North and to bring the area in line with its counterpart along Scarborough Beach Road, the City has recently implemented a number of streetscape upgrades.

The upgrades have included street tree planting for enhanced shade and beautification, red asphalt to denote the town centre area, a central median for pedestrian refuge and improved walkability, new motorcycle bays and bike racks as well as speed humps to accommodate a potential 30km/h zone to slow traffic and create a place for people.

The streetscape has never looked better but the southern entry could be better defined. To signify entry into this pedestrian first environment, the installation of decorative lighting at the Anzac Road entry point should be implemented.

Install decorative lighting at the Anzac Road roundabout to denote the southern town centre entry and complete the **Oxford Street North Upgrade**

OXFORD STREET NORTH UPGRADE has included significant street tree planting which has contributed to the greening of Vincent.

IMPROVING TOWN CENTRE ACCESSIBILITY

ITEM 2.5 - OXFORD STREET NORTH 30KM/H SPEED ZONE

Oxford Street North has a 50km/h speed limit which is not ideal for a people first, town centre environment.

The City implemented a number of traffic calming measures in 2019, including reducing the carriageway width, denoting the town centre with red asphalt, planting median and footpath street trees and installing low profile speed humps and shared space symbols along Oxford Street North.

To prioritise active transport, complement these physical interventions and create a safer environment for pedestrians and cyclists, the City should negotiate the reduction of the 50km/h speed zone to 30km/h.

Speed limit reductions require approval from the state roads authority, Main Roads Western Australia (MRWA) and supporting data such as traffic and speed counts. Data acquired in 2019 recorded the average speed along sections of Oxford Street. This included the section of Oxford Street between Anzac Road and Wilberforce Street as well as the section between Wilberforce Street and Scarborough Beach Road. This was recorded to be 31.6km/h and 28.5km/h respectively.

In 2020 the City successfully negotiated the reduction of the 50km/h speed zone to 40km/h.

The reduced 40km/h speed zone will come into effect 9 November 2020 and the City will continue to negotiate with MRWA to achieve the desired 30km/h.

Advocate for a 30km/h Speed Zone along Oxford Street North

IMPROVING TOWN CENTRE ACCESSIBILITY

ITEM 2.6 - 40KM/H SPEED ZONE EXTENSION EAST

The 40km/h speed along Scarborough Beach Road does not start at the eastern extent of the town centre.

The City should negotiate the extension of the 40km/h speed zone further east along Scarborough Beach Road to incorporate Edinboro Street and address the Shakespeare Street Bike Boulevard.

Drivers approach the town centre from the east with little awareness they are entering a people first environment. The extension of the 40km/h speed zone will ensure drivers slow down before entering the town centre which will enhance pedestrian comfort, particularly at the Scarborough Beach Road/Oxford Street intersection and at Axford Park.

Advocate for the extension of the 40km/h Speed Zone east along Scarborough Beach Road

IMPROVING TOWN CENTRE ACCESSIBILITY

ITEM 2.7 - 40KM/H SPEED ZONE EXTENSION WEST

The 40km/h speed along Scarborough Beach Road does not start at the western extent of the town centre.

The City should negotiate the extension of the 40km/h speed zone further west along Scarborough Beach Road to meet the 40km/h school zone.

Drivers approaching the town centre from the west are currently required to change speeds from 40km/h (through the existing school zone) to 50km/h back to 40km/h. The extension of the 40km/h speed zone will ensure drivers slow down well before entering the town centre from the west and the school zone from the east.

Advocate for the extension of the 40km/h Speed Zone west along Scarborough Beach Road

MOVEMENT

02

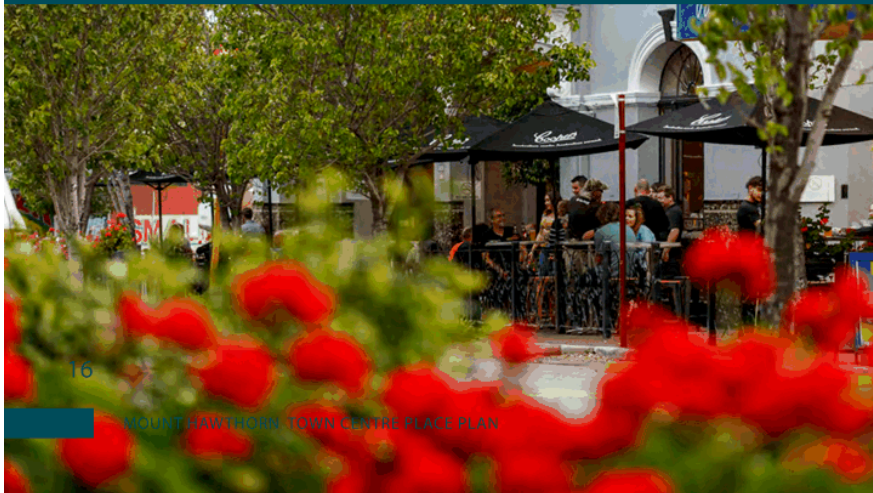

15

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

03 CHARACTER

MOUNT HAWTHORN TOWN CENTRE SHOULD EMBRACE WHAT MAKES IT DISTINCTIVE. WHAT ARE THOSE SPECIAL ASPECTS THAT MAKE IT DIFFERENT FROM OTHER PLACES? IS IT THE BUILDINGS, THE BUSINESSES, THE PEOPLE, THE INSTITUTIONS, THE LOCAL STORIES, THE HISTORY? – IT'S ALL OF THOSE THINGS OF COURSE.

THESE SPECIAL THINGS CAN AND WILL BE CELEBRATED THROUGH THE BRANDING & MARKETING OF THE TOWN CENTRE. HOWEVER, THERE ARE SOME SPECIFIC ACTIONS THE CITY CAN TAKE TO IMPROVE OXFORD STREET, AXFORD PARK & CAPITALISE ON THE TRADITIONAL FINE GRAIN TOWN CENTRE DEVELOPMENT.

16

MOUNT HAWTHORN TOWN CENTRE PLACE PLAN

CREATING PLACES FOR PEOPLE

ITEM 3.1 - STREETScape AUDIT

Mount Hawthorn Town Centre incorporates the most greenery of the City's town centres and is well serviced by street furniture. However, there is an opportunity to rationalise the location of existing street furniture and potential to accommodate additional planting, furniture and streetscape improvements.

The City understands the importance of canopy cover and street furniture and the role they play in encouraging people to linger longer. In 2015 the City undertook a streetscape audit in conjunction with the Mt Hawthorn Hub to identify 'gaps' in the street furniture and 'hot spots' for additional planting.

In response to the audit, the City installed 12 new bins, 8 benches, 30 planter boxes, 53 trees, 1 bike repair station and 18 bike racks.

To build on the extensive streetscape upgrades delivered to date, an audit should be undertaken to determine any current deficiencies in the streetscape and identify opportunities to build on the town center's inviting and green character including opportunities for additional planting, beautification, urban design improvements, street art and street furniture rationalisation and upgrades.

Undertake a **Streetscape Audit** to determine opportunities for streetscape improvements.

A **STREETSCAPE AUDIT** will contribute to Greening Vincent by identifying opportunities for additional town centre trees, verge and median planting.

CREATING PLACES FOR PEOPLE

ITEM 3.2 - STREETSCAPE PALETTE

Mount Hawthorn Town Centre has a distinct character and largely consistent streetscape palette.

Unlike other town centres, Mount Hawthorn Town Centre has a unique streetscape palette which contributes to the distinct character of the town centre.

The streetscape palette was developed in collaboration with the Mt Hawthorn Hub and incorporates street furniture such as the benches and bins as well as the street tree and planting species used to green the verges, footpaths, median strips and planter boxes.

To ensure additional planting and street furniture remain consistent and in keeping with the character of the area, the City should create a streetscape palette to guide the future renewal and upgrade of these key town centre components.

Develop a Mount Hawthorn Town Centre **Streetscape Palette**

CREATING PLACES FOR PEOPLE

ITEM 3.3 - ICONIC TOWN CENTRE ARTWORK

Mount Hawthorn Town Centre does not have a strong sense of arrival from the western approach.

Iconic elements and entry statements can announce the approach and arrival into a precinct or town centre, creating a welcoming environment. Mount Hawthorn is known for its suburban village atmosphere but lacks physical infrastructure and artwork to celebrate its endearing style and charm.

The **Mt Hawthorn Hub Action Plan** identifies a need to investigate the development of a Welcome Statement to celebrate Mount Hawthorn's identity.

Determine a preferred location and design for an **Iconic Town Centre Artwork** in consultation with the community

CREATING PLACES FOR PEOPLE

ITEM 3.4 - UNDERGROUND POWER

The overhead power lines along Oxford Street North and Hobart Street are unattractive, limit the useability of the road reserve and will prevent street trees from reaching full maturity.

Western Power's power poles are located along the footpath, limiting the use and appeal of alfresco areas along Oxford Street North and the potential use of Hobart Street road reserve for additional parking.

Western Power's separation requirements inhibit trees from reaching maturity. It is necessary to investigate the costs and benefits of underground power prior to requiring the pruning of the recently planted Oxford Street North trees.

Investigate the potential to **Underground Power** along Oxford Street North and Hobart Street

UNDERGROUND POWER will contribute to Greening Vincent by allowing trees to mature, increasing canopy coverage and improving walkability.

CREATING PLACES FOR PEOPLE

ITEM 3.5 - BEAUTIFICATION OF LOT 100

The planting at Lot 100 on the corner of Oxford Street and Scarborough Beach Road is not maintained to a high standard.

The City has received multiple requests to maintain or remove the four palm trees and raised garden bed at Lot 100 Scarborough Beach Road.

Lot 100 is not owned by the City, it is owned by Telstra Corporation Limited. The City is therefore unable to undertake maintenance work or implement upgrades without the permission of Telstra, as owner.

There is an opportunity to improve the maintenance and planting at Lot 100 to bring it in line with the City managed and maintained streetscapes.

Negotiate the **Beautification of Lot 100** Scarborough Beach Road with Telstra Corporation Limited

10 INFRASTRUCTURE & ENVIRONMENT

10.1 RESPONSE TO PETITION - E-PERMIT IMPLEMENTATION UPDATE

- Attachments:**
1. **E-Permits 2nd letter to residents advising the site is now live** [↓](#) 
 2. **Getting help with your e-Permit** [↓](#) 

RECOMMENDATION:

That Council **NOTES** the update on the implementation of the E-Permits system and that a further update report will be provided to Council in February 2021.

PURPOSE OF REPORT:

To provide an update to Council on the implementation of the E-Permit system.

BACKGROUND:

A petition requesting that Council review the decision to introduce an electronic permit system containing 26 signatures was received by Council at the Ordinary Council Meeting of the 20th October 2020. Council resolved that the petition be received and a report prepared for the next meeting.

The introduction of an electronic parking permit system (E-Permit) to replace the current paper parking permit system involves no change to Council Policy. Residential properties retain the same allocation of parking permits and residents will still be eligible to park within the same zones with the same conditions.

DETAILS:

The E-Permit system went live on Monday 2 November 2020 after a period of testing involving more than 30 members of the public. A total of 3,421 hard copy letters and 854 emails were sent to existing residential permit holders to advise them that the system was live and providing details of how to create their account (Attachment 1). The communication directed residents to the City's website where information on how to create an account, an instructional video and FAQ's are available to help residents. Residents who require any form of assistance were advised to contact the Rangers Administration Team via a direct telephone line.

Residents were allocated a unique access code in the notification letter/email that was linked to their property and the account for that property could not be created without the correct code being entered. This access code was made available only to current permit holders, in lieu of them having to upload or produce proof of residency. New residents that require an e-permit, are required to make contact with the Ranger Administration team and provide proof of residency. Once it has been validated, they will then receive their access code from Ranger Administration, which will enable them to then create an E-Permit account.

To date the implementation has been smooth and orderly with 1,215 residents having created their accounts.

Access and Inclusion

Administration has a strong understanding of the different needs of our community, and the age demographic of the City's residents, through extensive experience and daily contact with residents on parking issues. To assist residents that may not have access to the internet, are elderly or have a disability that precludes them from accessing or creating an E-Permit, Ranger Services have the following contingencies in place;

- **Phone service** – the resident can contact the City on 9273 6022, which is a direct line into Ranger Services. They will then be assisted, and Administration can either talk them through how to create an account or create the account for them;
- **Phone service after hours** – The City has 'Insight' in place who monitor and receive after hours calls. Any calls received 'after hours, will be directed through to the Ranger that is on call. That Ranger will then take all of the caller's details including name, address and vehicle registration(s), and advise the Ranger team by email. Ranger Administration will contact the resident the next

business day to see if they can provide any further assistance or advice. If the Ranger is not available, a message will be taken and passed on;

- **In Person** - At the Customer Service Centre, Ranger Services can meet the resident and assist them with creating an account, managing their account or assisting with any concerns they may have. This can be either through a scheduled meeting time, or also for those that come into the Library without notice;
- **Family members** - can also assist a resident in managing their account. They can also make contact with the Ranger Services team for assistance on the resident's behalf;
- **Service providers** – Administration can create an E-permit allocation for a service provider that accommodate the needs of a vulnerable resident permit holder.
- In exceptional circumstances Administration can consider varying the requirement to use an E-permit in line with Council Policy 3.9.3 (Parking Permits), subject to the applicant providing written justification. The need to vary the requirement will need to be genuine and has not be offered as a service option as such a variation is seen to be required only in exceptional circumstances.
- **E-Permit Guide for the Elderly, Persons with Disability, and their Carers** - An e-permit guide has been developed to support the elderly and persons with disability. This will be available online, at the Library, and will be mailed out with reminder notices for establishing an e-Permit.

To date, there has been 15 requests for assistance and all have been dealt with quickly and easily. Eleven accounts have been created where the resident has come into the Library and Administration staff have assisted them face to face, and four accounts have been created by Administration staff whilst the resident has been on the phone.

The approach described above will be monitored and kept under review and can be adapted accordingly as the implementation proceeds. The implementation program for e-permits complies with the principles of the City of Vincent Disability Access and Inclusion Plan 2017 – 2022. Administration is also remaining in communication with disability service providers during implementation and adapting protocols as required to maximise access and inclusion.

Customer feedback

A short survey has been sent to new account holders requesting feedback and there is a link to the survey on the website for future new account holders. The results of the survey will be provided to Council in the next update report.

Next Steps

Paper permits will be honoured throughout the transition period until the end of January 2021. A reminder letter or email will be sent to all residents that have not yet created an account in the week of the 11 January 2021. This communication will remind resident to create an account and also ask for feedback on any concerns they may have with setting or operating an account.

CONSULTATION/ADVERTISING:

Administration has sent a short survey to new account holders and will send a further letter requesting feedback to those residents that have not yet created an account on or around the 11 January 2021.

LEGAL/POLICY:

Nil

RISK MANAGEMENT IMPLICATIONS

Low: It is low risk for the City to have the E-permits system implemented.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Enhanced Environment

We have minimised our impact on the environment.

Innovative and Accountable

Our resources and assets are planned and managed in an efficient and sustainable manner.

SUSTAINABILITY IMPLICATIONS:

The replacement of approximately 10,000 paper permits with E-permits is a more sustainable option.

PUBLIC HEALTH IMPLICATIONS:

Nil

FINANCIAL/BUDGET IMPLICATIONS:

The E-permit system will result in an estimated saving of \$6,200 per annum.

CITY OF VINCENT

13 November 2020

The Resident

«Address»

«Suburb» «State» «Postcode»

Dear Resident

ELECTRONIC PERMIT SYSTEM (E-PERMITS) IS NOW LIVE

The City is pleased to advise that the new electronic parking permit (e-Permits) system is now live and ready for use for all current residential parking permit holders.

You can log in to the website by visiting epermits.vincent.wa.gov.au

The website features a step by step guide and an instructional video to help you create and manage your account.

When creating your account you will be required to enter your residential address and your unique access code in order to activate your account. Your access code is «Unique_ID». You will only be required to enter this access code once when creating your account.

Our e-Permits website is compatible with any computer, smartphone or tablet with an internet connection.

Once you have accessed the website, we recommend that you save the site as an icon on your homepage, to allow easier and quicker access.

E-permits are free of charge, involve no waiting periods or expiry dates.

To assist you during this transition period, the City will continue to honour your current permits until the end of January 2021.

To find out more, we have created an information page on the City of Vincent website with useful information and frequently asked questions. For everything you need to know about the new system, visit www.vincent.wa.gov.au/e-permits.

If you require any assistance with accessing the site, or creating an account, please contact the Ranger Administration team on 9273 6022 or mail@vincent.wa.gov.au during the office hours of Monday to Friday 8am to 5pm.

Yours sincerely

Paul Morrice

CITY OF VINCENT

Getting Help with e-permits

A guide for the elderly, persons with disability, their carers and support persons

The City of Vincent is introducing an e-permit system for residential parking permits.

Our friendly Ranger Services team is available to assist you with your e-permit enquiries.

What if I don't have a computer or smart phone?

Our Ranger Services team can assist you to set up your account and to make any changes to your account and permits. Contact us by phone, or in person at the Library.

I have regular visitors to my home, how does the e-permit work?

You (or our Ranger Services team) can add the licence plate of your regular visitors to your e-permit account. This might include your family, friends and regular visitors.

Once your visitor's licence plate is on our system you can easily issue them an e-permit through your online account, or you can contact our Ranger Services team who can do it for you.

I have a computer or smart phone, but need help using e-Permits.

Come to the Library and we can show you how to use e-Permits. We are always a phone call away if you need assistance.

My visitor is coming over at a time when the Ranger Services team is not available (after hours, evening or weekend). How do I get assistance?

If you need help with your e-permits after hours, ring and leave a message with our after hour's service, or have someone email us.

In the event your visitor receives an infringement have them contact us. We will know you authorised them to park there and the City will reverse the infringement on our next working day.

I have a regular disability or aged care support service come to my home, for example Silver Chain, or my Disability Service Provider. Do I need to ring you every time they come over?

You can add them to your e-permit account as a regular visitor. Then you would issue their e-permit as needed, or with the support of our Ranger Services team.

We can also issue approved care providers with an e-permit to use within the boundary of the City of Vincent. Have your care provider contact us to arrange this.

Can my family member or carer make changes to my e-permit account on my behalf?

You will need to provide your family member with your account details and password for them to manage your e-permit.

I work for a service provider and attend to the needs of an elderly or disabled person. Can I ring and arrange an e-permit to attend their home?

We can issue approved care providers with an e-permit to use within the boundary of the City of Vincent. Please contact us to arrange this.

Do you keep track of visitors to my home? What about my privacy and the privacy of my visitors?

We do not keep track of visitors to your home.

When you ring our Ranger Services team for assistance, we will confirm your identity to ensure we protect your e-permit account details.

Our Privacy Policy also protects your personal information. A copy of the policy is available on our website or from the Library.

11 COMMUNITY & BUSINESS SERVICES

11.1 OUTCOME OF ADVERTISING AND ADOPTION OF AMENDMENTS - PURCHASING POLICY

- Attachments:**
1. **Summary of Submissions**  
 2. **Purchasing Policy - Updated 2020 - marked up copy**  
 3. **Purchasing Policy - Updated 2020 - clean copy**  

RECOMMENDATION:

That Council:

1. **NOTES** the community submission received in relation to amendments to the Purchasing Policy, at Attachment 1; and
- 2 **ADOPTS** the Purchasing Policy at Attachment 2.

PURPOSE OF REPORT:

To present the outcome of public consultation and seek approval of the proposed amendments to the Purchasing Policy.

BACKGROUND:

On 9 May 2020, in response to the impact of the COVID-19 pandemic, regulation 11A (1) of the *Local Government (Functions and General) Regulations 1996* was amended to raise the tendering threshold for the purchase of goods and services to “under \$250,000”.

In July 2020 administration undertook a review of the policy and proposed amendments to reflect the new legislative requirements and updates to align with current practices and the City’s strategic priorities.

The substantive changes to the policy are as follows:

- a focus on sustainable procurement has been included to emphasize the City’s commitment to sustainable procurement and long-term sustainability;
- the City’s commitment to support and provide a fair opportunity to all local businesses has been reflected on the proposed amendments. The City is encouraging local businesses to register on Vendor Marketplace which provides an important database for City’s officers to refer to;
- commitment to supporting Aboriginal and Torres Strait Islander and Disability Enterprises has been added. The City understands the importance of supporting Aboriginal and Torres Strait Islander and Disability Enterprises. These disadvantaged groups have so much to contribute to the City. It is worth noting, Regulation 11(2) (h) of the *Local Government (Functions and General) Regulations 1996* allow for goods and/or services to be directly purchased (i.e. without having to go through a competitive tender process) from a person registered on the Aboriginal Business Directory WA and from a Disability Enterprise; and
- the City’s recognition and commitment to the importance of workplace gender quality has been reflected in the proposed amendments. The City does not procure organisations who are listed as a non-compliant employer under the Workplace Gender Equality Agency’s Non-Compliant List.

At its 15 September 2020 meeting, Council approved inviting public comment on the proposed amendments to the Purchasing Policy.

DETAILS:

In accordance with the City’s Policy 4.1.1 – *Adoption and Review of Policies*, public notice was provided from 26 September 2020 to 26 October 2020, which is in excess of the 21 days required, in the following ways:

- Perth Voice – 26 September 2020;
- Eastern Reporter (Vincent and Stirling) – 24 September 2020;
- on the City's website and social media 24 September 2020; and
- on the notice board at the City's Administration and Library and Local History Centre - 24 September 2020.

Administration received 2 submissions, as at **Attachment 1**.

No amendments have been made to the Policy as a result of the submissions. Administration's response is provided.

In some cases, Administration has referred to the Purchasing Framework which is the procedural document that advises and guides staff on the process to be used when purchasing goods and / or services on behalf of the City, while complying to the Local Government Act and Regulations. Further to this, all staff are required to complete an induction in relation to procurement and procurement training is also provided to staff.

CONSULTATION/ADVERTISING:

No further consultation is required.

LEGAL/POLICY:

City's Policy 4.1.1 – *Adoption and Review of Policies* sets out the process for repealing and adopting policies.

City Policy 4.1.5 – *Community Consultation* – specifies the community consultation required.

RISK MANAGEMENT IMPLICATIONS:

LOW Adopting the proposed amendments to this policy is low risk as it aligns with the *Local Government Act 1995* and the objectives of the policy.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Innovative and Accountable

Our community is aware of what we are doing and how we are meeting our goals.

We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATIONS:

Improved sustainability outcomes resulting from application of this policy.

FINANCIAL/BUDGET IMPLICATIONS:

Nil.

SUMMARY OF SUBMISSIONS ON POLICIES***Amendments to Purchasing Policy*****Summary of public comment****Administration's response****SUBMISSION 1**

Is the City's current practice to not procure from employers listed on the Workplace Gender Equality Agency's non-compliant list?

This will become the City's standard practice with adoption of these policy amendments.

SUBMISSION 2

I do not support the proposed changes to the policy as they stand.

Essentially the new wording is a collection of virtue-signalling statements which are ambiguous and give no direct guidance to the staff as to how they will be applied.

The danger then becomes that the staff apply these values on an ad hoc, inconsistent basis, ignoring the prime requisite which is to provide value for money.

It is good to see that 'value for money' remains the number one objective of this policy.

It is best practice to apply a principle-based approach, supported by appropriate management practices. The issue with being too prescriptive at the outset of the policy is that staff have no indications as to how to approach unusual or unexpected scenarios.

The City's internal Purchasing Framework, procurement training, procurement induction and purchasing process specify the exact processes staff are to undertake when procuring goods and / or services on behalf of the City.

These documents ensure that procurements are undertaken in a consistent and transparent manner with a focus on value for money.

Value for money remains the number one objective.

Noted.

The attempt to somehow align the policy with the Strategic Community Plan is 'try hard' attempt to sound warm and fuzzy without actually adding anything concrete to the policy. Some of the links are tenuous at best, and there is no guidance, or any level of transparency as to how each of these strategic priorities will be used in decision making.

I also find it somewhat peculiar that the council proposes adding a statement on Sustainable Procurement given that the Council removed a much more comprehensive section on Sustainable Procurement from the policy on 6 March 2018 without any comment (Item 11.5).

It is good that the new section does say that 'sustainable considerations' must be balanced against 'value for money', however there is no guidance to the staff as to how this may be done.

If the City is looking for criteria that can be used when proposals of equal value for money are made, and some way of choosing a preferred supplier, it could consider the 'FairTrade' system as a deciding factor. 'FairTrade' is a well-established system that tries to ensure that producers in developing countries are treated in a fair and equitable way.

It is good to see that the 'Buy Local' section simply says the city will encourage local businesses, and will look to 'not unfairly disadvantage local businesses'.

This triple negative is just an expression of intent without any commitment to do anything. It could say that where different proposals offer exactly the same value for money, the City will give preference to local businesses.

The section on 'Aboriginal and Disability enterprises' is vague. It suggests that the City will acquire goods and services without any regard to value for money. Similarly to the 'buy local' section, it could say that where different proposals offer exactly the same value for money the City will give preference to Aboriginal and Disability Enterprises.

There is also no definition as to how 'Aboriginal and Disability Enterprises' will be identified. At least Section 6.6 does identify how Aboriginal Businesses are identified.

The amendments to the Purchasing Policy focus on value for money; sustainable procurement; buying local; supporting Aboriginal and Torres Strait Islander businesses and Disability Enterprises; and gender equality.

All of these items align with the key priority areas in the Strategic Community Plans. Elected Members explicitly requested administration to demonstrate alignment of this policy to the SCP's outcomes.

The comprehensive section on sustainability that was removed on 6 March 2018 has been retained within the City's Purchasing Framework.

This is a policy document, not a procedural one. The City's internal Purchasing Framework, procurement training, procurement induction and purchasing process guide staff on how to incorporate sustainability when evaluating quotations or proposals.

Considering fair trade when awarding contracts is important. Item 1. - Value for Money in the Policy refers to purchasing goods and services from suppliers that demonstrate sustainable benefits and good corporate social responsibility. This includes the consideration of fair trade where applicable.

The City's current practice is to incorporate buying local in all value for money evaluations.

The City is committed to supporting local businesses and is currently using the VendorPanel Marketplace platform to assist staff in linking with local suppliers.

The City recognises the importance of supporting Aboriginal and Torres Strait Islander businesses and Disability Enterprises however, the first objective of the Policy and a requirement in the Local Government (Functions and General) Regulations is to demonstrate that value for money is attained.

There are standard protocols relating to the identification of Aboriginal and Disability Enterprises which apply to State and Local Government. More information can be found on the WA Government's website, at "[Could my](#)

Section 6.4 - \$200 to \$5000. The sentence 'Where a written quote is not feasible a written note of a verbal quotation is to be recorded should be dropped.' We have seen too many examples of dodgy purchasing practices in Western Australia in recent years, and the use of email is all pervasive. It is far better to force an email to be sent, which has much more evidentiary power than some scribbled note purporting to be a record of a soon forgotten telephone conversation. If somebody wants to sell something to the city for \$5,000 they should be prepared to give a written quote, even if it only via a simple, traceable email.

Section 6.6. Tendering Exemptions: The clause says that tenders do not have to be publicly invited for contracts over \$250,000 in a number of instances. It then gives an example of purchases from a person registered on the WA Aboriginal Business Directory, but this only applies where the contract is less than \$250,000. There is a contradiction – it can't be both more than \$250,000 and less than \$250,000 at the same time. The section should be restructured and the third dot point moved to a section of its own.

The current Aboriginal Business Directory only shows 2 businesses with 500km of Perth – a mining/civil contractor, and grader hire. The system is undergoing change so there may be more.

The section also grants exemptions for Australian Disability Enterprise. For the avoidance of any suspicion that such organisation have received a contract which has not been the best value for money, particularly as the section does not require testing the market through a tender, I think that these two types of exemption should be removed and elsewhere it should state that 'where similar value for money assessments have been made preference will be given to ...

While Regulation 11 (2) says that tenders do not have to be publicly invited, there is no prohibition on going to tender.

[purchase provide a social benefit for the WA community?](#)" or by contacting WALGA.

As stated in the Policy, the requirement is for staff to seek two written quotations.

A verbal quotation will only be accepted if there is documentation of the verbal quotation and the officer provides in writing the reason a written quotation could not be obtained on that occasion.

The exemptions listed in the Policy refers to Regulation 11 (2) (h) of the Local Government (Functions and General) Regulations.

WALGA has raised with the Department of Local Government Sport and Cultural Industries that there is an inconsistency in relation to tender thresholds for Aboriginal enterprises, however they have been advised that this will not be reviewed until the Local Government Act review is completed.

The City recognises the importance of supporting Aboriginal and Torres Strait Islander businesses and Disability Enterprises however, both the policy and Local Government Regulations state that value for money must be demonstrated prior to awarding a contract

PURCHASING POLICY

RESPONSIBLE DIRECTORATE	COMMUNITY & BUSINESS SERVICES
RESPONSIBLE TEAM	Financial Services
RESPONSIBLE OFFICER	Jeremy Chalmers
AFFECTED TEAMS	All City of Vincent Directorates
LEGISLATION / LOCAL LAW REQUIREMENTS	Local Government Act 1995 Local Government (Function and General) Regulations 1996
RELEVANT DELEGATIONS	Delegation 2.2.14 – Expressions of interest for goods or services Delegation 2.2.15 – Tenders for goods and services
RELATED POLICY PROCEDURES AND DOCUMENTS	Procurement Framework: https://intranet.vincent.wa.gov.au/documents/1786/procurement-framework

PURPOSE

To ensure that the City of Vincent's (**City's**) procurement practices and processes are compliant with relevant legislation and best practice.

OBJECTIVES

The objectives of this Policy are to ensure that all purchasing activities:

- demonstrate that value for money is attained for the City;
- are compliant with relevant legislation, codes and standards, including the *Local Government Act 1995* (**Act**) and the *Local Government (Functions and General) Regulations 1996*, (**Regulations**);
- are recorded in compliance with the *State Records Act 2000* and associated records management practices and procedures of the City;
- demonstrate probity by establishing consistent processes that promote openness, transparency, fairness and equity to all potential suppliers;
- ensure that the sustainable benefits, such as environmental, social and local economic factors are considered in the overall value for money assessment;
- ensure that goods and services to be procured are necessary and fit for purpose;
- properly evaluate and consider the safety and health characteristics of any goods/services prior to being introduced into the City's workplaces;
- are supported by Budget provisions or comply with section 6.8(1) of the Act; and
- are conducted in a consistent and efficient manner across the City and that ethical decision making is demonstrated.

The Policy will consider the priority areas of the **Strategic Community Plan** and will enhance the City's strategies through our purchasing and tendering decisions. The Policy will deliver:

- *Thriving Places* through our buy local practices;
- *Connected Communities* through a focus on gender equality and social enterprises owned and operated

PURCHASING POLICY

- by Aboriginal and Torres Strait Islander people or people with disabilities;
- *Enhanced Environment* through our commitment to sustainable procurement that minimises negative social and environmental impacts;
- *Innovative and Accountable* by promoting openness, transparency, fairness and equity to all potential suppliers and our focus on value for money;
- *Accessible City and Sensitive Design* through our commitment to ensuring the safety requirements and the evaluation of risk is associated with purchasing goods and/or services from suppliers and that non-cost factors such as fitness for purpose, quality, delivery, service, support and sustainability impacts are considered;

SCOPE

The policy covers all purchasing requirements for all directorates within the City of Vincent.

POLICY

1. VALUE FOR MONEY

Value for money is the difference between the total benefit derived from a good or a service against its total cost, when assessed over the period the goods or services are to be used. Achieving best value for money at the individual purchase level requires that assessments consider cost and non-cost factors, where relevant, the overall objective of the procurement and make a value judgement about the best outcome.

In addition to a qualitative assessment of the procurement, an assessment of the value for money outcome for any purchasing process should consider:

- an initial needs assessment to determine the ongoing relevance and necessity for the procurement and mode of delivery;
- the up-front, after purchase and fit-for-purpose costs and risks associated with the procurement;
- all relevant total costs of ownership and benefits including up-front price, transaction costs associated with acquisition, delivery, use, holding, maintenance and disposal (including where appropriate residual or resale values);
- overall objectives of the procurement and outcome being sought. The technical merits of the goods or services being offered in terms of compliance with specifications, contractual terms and conditions and any relevant methods of assuring quality, including but not limited to an assessment of levels and currency of compliances, value adds offered, warranties, guarantees, repair and replacement policies, ease of inspection, ease of after sales service, ease of communications etc.
- non-cost factors such as fitness for purpose, quality, delivery, service, support and sustainability impacts.
- the supplier's financial viability and capacity to supply without risk of default (competency of the prospective suppliers in terms of managerial and technical capabilities and compliance history);
- a strong element of competition in the allocation of orders or the awarding of contracts. This is achieved by obtaining a sufficient number of competitive quotations wherever practicable;
- the safety requirements associated with both the product design and specification offered by suppliers and the evaluation of risk when considering purchasing goods and services from suppliers;
- purchasing of goods and services from suppliers that demonstrate sustainable benefits and good corporate social responsibility; and
- providing opportunities for businesses within the City's boundaries to be given the opportunity to quote for providing goods and services wherever possible.

PURCHASING POLICY

2. SUSTAINABLE PROCUREMENT

The City is committed to sustainable procurement and where appropriate shall endeavour to design quotations and tenders to provide an advantage to goods, services and processes that minimise negative social and environmental impacts while maximising social and environmental benefits. These considerations must however, be balanced against value for money outcomes to ensure the City's economic viability, essential to its long term sustainability. Practically, sustainable procurement means the City shall endeavour at all times to identify and procure products and services that have been determined as necessary for the achievement of Strategic Community Plan priorities of enhanced environment. Where practical, the City will endeavour to procure in a manner which takes into account the lifecycle cost of a product by considering the sustainability rating of the product or service provider.

3. BUY LOCAL

The City is committed to the ongoing support of local City of Vincent business and, as much as practicable, the City will consider buying practices, procedures and specifications that do not unfairly disadvantage local businesses. Requests for Quotations and Tenders will be structured to encourage local businesses to bid and consider the indirect benefits that have flow on benefits for local suppliers.

4. ABORIGINAL AND TORRES STRAIT ISLANDER BUSINESSES AND DISABILITY ENTERPRISES

In recognition of the potential for government procurement to assist in supporting Aboriginal and Torres Strait Islander businesses and Disability Enterprises to grow, which in turn can support the growth of jobs for Aboriginal people and people living with a disability, the City, where practicable, will endeavour to procure goods and/or services from Aboriginal Businesses and Disability Enterprises.

5. GENDER EQUALITY

In recognition of the City's commitment to promoting workplace gender equality, the City, where practicable, will not procure any goods and/or services from employer's listed on the Workplace Gender Equality Agency's Non-Compliant List.

6. PURCHASING REQUIREMENTS

6.1 Values

Purchasing that is **\$250,000 or below in total value** (excluding GST) must be in accordance with the purchasing requirements under the relevant threshold as defined under section 6.4 of this Purchasing Policy.

Purchasing that **exceeds \$250,000 in total value** (excluding GST) must be put to public Tender when it is determined that a regulatory Tendering exemption, as stated under section 6.6 of this Policy is not deemed to be suitable.

6.2 Purchasing Value Definition

Determining purchasing value is to be based on the following considerations:

1. Exclusive of Goods and Services Tax (GST);
2. The actual or expected value of a contract over the full contract period, including all options to extend; or the extent to which it could be reasonably expected that the City will continue to purchase a

PURCHASING POLICY

particular category of goods, services or works and what total value is or could be reasonably expected to be purchased; and

3. If a purchasing threshold would be reached within three years for a particular contract for procurement, then the purchasing requirement under the relevant threshold (including the tender threshold) would need to be considered.

6.3 Purchasing from Existing Contracts

Where the City has an existing contract in place, it must ensure that goods and services required are purchased under these contracts to the extent that the scope of the contract allows.

6.4 Purchasing Thresholds

In addition to the other policy provisions, the table below prescribes the purchasing request process to be applied based on the proposed purchase value:

Purchase Value Threshold	Purchasing Requirement Open Market	Purchasing Requirement Pre-Qualified Suppliers
Up to \$200	Direct Purchase from the open market with zero quotations required. This purchasing method is suitable where the purchase is in a known market or is very low risk and where the cost of seeking quotes would be unreasonable on a cost to benefit analysis basis.	Purchase directly from: <ul style="list-style-type: none">an existing panel of pre-qualified suppliers administered by the City; ora pre-qualified supplier on the WALGA Preferred Supply Program or State Government CUA; with zero quotations required.
Over \$200 and up to \$5,000	Seek two written* quotations from the open market. Officers may use their general knowledge of the market, advertisements, in-store price comparisons, catalogues, supplier web sites and any other reasonable means to determine whether the purchase represents value for money. *Where a written quote is not feasible a written note of the verbal quotation is to be recorded.	Purchase directly from: <ul style="list-style-type: none">an existing panel of pre-qualified suppliers administered by the City; ora pre-qualified supplier on the WALGA Preferred Supply Program or State Government CUA; requiring one <u>two</u> written quotations. *Where a written quotations quote are is not feasible a written note of the verbal quotation <u>s</u> is to be recorded.
Over \$5,000 and up to \$20,000	Seek two written quotations from the open market. Officers may use their general knowledge of the market, advertisements, in-store price comparisons, catalogues, supplier web sites and any other reasonable means to determine whether the purchase represents value for money. Different suppliers should be used from time to time to test value for money for regular purchases.	Purchase directly from: <ul style="list-style-type: none">an existing panel of pre-qualified suppliers administered by the City; ora pre-qualified supplier on the WALGA Preferred Supply Program or State Government CUA; requiring one <u>two</u> written quotations. Officers should seek more than one direct quotation if they are not satisfied that their first choice of supplier would represent value for money.

PURCHASING POLICY

Over \$20,000 and up to \$50,000	Seek three written quotations from the open market including a brief outlining the specified requirement.	Seek two written quotations including a brief outlining the specified requirement from either: <ul style="list-style-type: none"> • an existing panel of pre-qualified suppliers administered by the City; or • a pre-qualified supplier on the WALGA Preferred Supply Program or State Government CUA.
Over \$50,000 and up to \$250,000	Seek at least three written quotations from the open market by formal invitation under a Request for Quotation (RFQ), containing pricing schedule and detailed specification of goods and services required. The procurement decision is to be based on pre-determined evaluation criteria that assesses all value for money considerations in accordance with the definition stated within this Policy.	Seek three written quotations from a pre-qualified panel of suppliers (whether administered by the City through the WALGA preferred supply program or State Government CUA). A formal Request for Quotation (i.e. City of Vincent template, WALGA Template or State Government CUA template) must be used. The procurement decision is to be based on pre-determined evaluation criteria that assesses all value for money considerations in accordance with the definition stated within this Policy.
Over \$250,000	Conduct a public Request for Tender process in accordance with Part 4 of the <i>Local Government (Functions and General) Regulations 1996</i> , this policy and the City's tender procedures. (Council Approval)	Where the purchase is expected to be over \$250,000: Obtain at least three written quotations from suppliers by formal invitation under a Request for Quotation (RFQ), containing price and detailed specification of goods and services required. The procurement decision is to be based on pre-determined evaluation criteria that assesses all value for money considerations in accordance with the definition stated within this Policy.

6.5 Sole Source of Supply

The procurement of goods and/or services available from only one private sector source of supply, (i.e. manufacturer, supplier or agency) is permitted without the need to call competitive quotations provided that there must genuinely be only one source of supply. Every endeavour to find alternative sources and goods/services must be made, with a written confirmation of this recorded.

Once determined, the justification for a sole source of supply must be endorsed by the Chief Executive Officer or Director, prior to a contract being entered into, or a purchase order raised.

6.6 Tendering Exemptions

The City limits the discretion from the requirement to call tenders provided under section 11(2) of the Regulations, to values over \$250,000. Accordingly, tenders do not have to be publicly invited for contracts over \$250,000 in the following instances:

- the purchase is obtained from a pre-qualified supplier under the WALGA Preferred Supply Program or State Government Common Use Arrangement (CUA).
- the purchase is from a Regional Local Government or another Local Government;

PURCHASING POLICY

- the purchase is acquired from a person registered on the WA Aboriginal Business Directory, as published by the Small Business Development Corporation, where the consideration under contract is worth \$250,000 or less and represents value for money;
- the purchase is acquired from an Australian Disability Enterprise and represents value for money;
- the purchase is from a pre-qualified supplier under a Panel established by the City; or
- any of the other exclusions under Regulation 11 of the Regulations apply.

~~In circumstances that do not meet the requirements of section 11(2) of the Regulations and where it can be demonstrated to the satisfaction and approval of the CEO, that value for money outcomes will not be achieved or some other relevant imperative, public tenders will not need to be invited for contracts expected to be worth more than \$250,000.~~

6.7 Council Approvals

The Regulations provide that Council is required to Accept tenders (subject to approved Delegations of Authority). For the avoidance of doubt, Council approval is not required for the provision of goods or services when public tenders are not required to be invited (and are not invited), providing the expenditure is authorised through the annual budget or approved in accordance with section 6.8(1) of the Act.

Section 13 of the Regulations specify that if:

"a local government, although not required by this Division to invite tenders before entering into a contract for another person to supply goods or services, decides to invite tenders, the tenders are to be publicly invited to the requirements of this Division."

7. PANELS OF PRE-QUALIFIED SUPPLIERS

7.1 Policy Objectives

In accordance with Regulation 24AC of the *Local Government (Functions and General) Regulations 1996*, a Panel of Pre-qualified Suppliers ("Panel") may be created where most of the following factors apply:

- the City determines that a range of similar goods and services are required to be purchased on a continuing and regular basis;
- there are numerous potential suppliers in the local and regional procurement-related market sector(s) that satisfy the test of 'value for money';
- the purchasing activity under the intended Panel is assessed as being of a low to medium risk;
- the Panel will streamline and will improve procurement processes; and
- the City has the capability to establish, manage the risks and achieve the benefits expected of the proposed Panel.

The City will endeavour to ensure that Panels will not be created unless most of the above factors are firmly and quantifiably established.

7.2 Application

If the City determines it beneficial for a Panel to be created, it must do so in accordance with Part 4, Division 3 of the *Local Government (Functions and General) Regulations 1996*.

7.3 Purchasing from the panel

The invitation to apply to be considered to join a panel of pre-qualified suppliers must state whether quotations are either to be invited to every member (within each category, if applicable) of the Panel for each purchasing requirement, whether a ranking system is to be established, or otherwise.

The City will take into account its purchasing thresholds when distributing work among panel members.

Each quotation process, including the invitation to quote, communications with panel members, quotations

PURCHASING POLICY

received, evaluation of quotes and notification of award (via purchase order) communications must all be captured on the City's electronic records system. A record is to be maintained for each quotation process made under each Panel that captures all communications between the City and Panel members.

8. RECORDS MANAGEMENT

Records of all purchasing activity must be retained in compliance with the *State Records Act 2000 (WA)*, the City's Records Management Policy and associated procurement procedures.

RELATED POLICY PROCEDURES AND DOCUMENTS	Procurement Framework: https://intranet.vincent.wa.gov.au/documents/1786/procurement-framework

PURPOSE

To ensure that the City of Vincent's (**City's**) procurement practices and processes are compliant with relevant legislation and best practice.

OBJECTIVES

The objectives of this Policy are to ensure that all purchasing activities:

- demonstrate that value for money is attained for the City;
- are compliant with relevant legislation, codes and standards, including the *Local Government Act 1995* (**Act**) and the *Local Government (Functions and General) Regulations 1996*, (**Regulations**);
- are recorded in compliance with the *State Records Act 2000* and associated records management practices and procedures of the City;
- demonstrate probity by establishing consistent processes that promote openness, transparency, fairness and equity to all potential suppliers;
- ensure that the sustainable benefits, such as environmental, social and local economic factors are considered in the overall value for money assessment;
- ensure that goods and services to be procured are necessary and fit for purpose;
- properly evaluate and consider the safety and health characteristics of any goods/services prior to being introduced into the City's workplaces;
- are supported by Budget provisions or comply with section 6.8(1) of the Act; and
- are conducted in a consistent and efficient manner across the City and that ethical decision making is demonstrated.

The Policy will consider the priority areas of the **Strategic Community Plan** and will enhance the City's strategies through our purchasing and tendering decisions. The Policy will deliver:

- *Thriving Places* through our buy local practices;
- *Connected Communities* through a focus on gender equality and social enterprises owned and operated

PURCHASING POLICY

by Aboriginal and Torres Strait Islander people or people with disabilities;

- *Enhanced Environment* through our commitment to sustainable procurement that minimises negative social and environmental impacts;
- *Innovative and Accountable* by promoting openness, transparency, fairness and equity to all potential suppliers and our focus on value for money;
- *Accessible City and Sensitive Design* through our commitment to ensuring the safety requirements and the evaluation of risk is associated with purchasing goods and/or services from suppliers and that non-cost factors such as fitness for purpose, quality, delivery, service, support and sustainability impacts are considered;

SCOPE

The policy covers all purchasing requirements for all directorates within the City of Vincent.

POLICY

1. VALUE FOR MONEY

Value for money is the difference between the total benefit derived from a good or a service against its total cost, when assessed over the period the goods or services are to be used. Achieving best value for money at the individual purchase level requires that assessments consider cost and non-cost factors, where relevant, the overall objective of the procurement and make a value judgement about the best outcome.

In addition to a qualitative assessment of the procurement, an assessment of the value for money outcome for any purchasing process should consider:

- an initial needs assessment to determine the ongoing relevance and necessity for the procurement and mode of delivery;
- the up-front, after purchase and fit-for-purpose costs and risks associated with the procurement;
- all relevant total costs of ownership and benefits including up-front price, transaction costs associated with acquisition, delivery, use, holding, maintenance and disposal (including where appropriate residual or resale values);
- overall objectives of the procurement and outcome being sought. The technical merits of the goods or services being offered in terms of compliance with specifications, contractual terms and conditions and any relevant methods of assuring quality, including but not limited to an assessment of levels and currency of compliances, value adds offered, warranties, guarantees, repair and replacement policies, ease of inspection, ease of after sales service, ease of communications etc.
- non-cost factors such as fitness for purpose, quality, delivery, service, support and sustainability impacts.
- the supplier's financial viability and capacity to supply without risk of default (competency of the prospective suppliers in terms of managerial and technical capabilities and compliance history);
- a strong element of competition in the allocation of orders or the awarding of contracts. This is achieved by obtaining a sufficient number of competitive quotations wherever practicable;
- the safety requirements associated with both the product design and specification offered by suppliers and the evaluation of risk when considering purchasing goods and services from suppliers;
- purchasing of goods and services from suppliers that demonstrate sustainable benefits and good corporate social responsibility; and
- providing opportunities for businesses within the City's boundaries to be given the opportunity to quote for providing goods and services wherever possible.

PURCHASING POLICY

2. SUSTAINABLE PROCUREMENT

The City is committed to sustainable procurement and where appropriate shall endeavour to design quotations and tenders to provide an advantage to goods, services and processes that minimise negative social and environmental impacts while maximising social and environmental benefits. These considerations must however, be balanced against value for money outcomes to ensure the City's economic viability, essential to its long term sustainability. Practically, sustainable procurement means the City shall endeavour at all times to identify and procure products and services that have been determined as necessary for the achievement of Strategic Community Plan priorities of enhanced environment. Where practical, the City will endeavour to procure in a manner which takes into account the lifecycle cost of a product by considering the sustainability rating of the product or service provider.

3. BUY LOCAL

The City is committed to the ongoing support of local City of Vincent business and, as much as practicable, the City will consider buying practices, procedures and specifications that do not unfairly disadvantage local businesses. Requests for Quotations and Tenders will be structured to encourage local businesses to bid and consider the indirect benefits that have flow on benefits for local suppliers.

4. ABORIGINAL AND TORRES STRAIT ISLANDER BUSINESSES AND DISABILITY ENTERPRISES

In recognition of the potential for government procurement to assist in supporting Aboriginal and Torres Strait Islander businesses and Disability Enterprises to grow, which in turn can support the growth of jobs for Aboriginal people and people living with a disability, the City, where practicable, will endeavour to procure goods and/or services from Aboriginal Businesses and Disability Enterprises.

5. GENDER EQUALITY

In recognition of the City's commitment to promoting workplace gender equality, the City, where practicable, will not procure any goods and/or services from employer's listed on the Workplace Gender Equality Agency's Non-Compliant List.

6. PURCHASING REQUIREMENTS

6.1 Values

Purchasing that is **\$250,000 or below in total value** (excluding GST) must be in accordance with the purchasing requirements under the relevant threshold as defined under section 6.4 of this Purchasing Policy.

Purchasing that **exceeds \$250,000 in total value** (excluding GST) must be put to public Tender when it is determined that a regulatory Tendering exemption, as stated under section 6.6 of this Policy is not deemed to be suitable.

6.2 Purchasing Value Definition

Determining purchasing value is to be based on the following considerations:

1. Exclusive of Goods and Services Tax (GST);
2. The actual or expected value of a contract over the full contract period, including all options to extend; or the extent to which it could be reasonably expected that the City will continue to purchase a

PURCHASING POLICY

particular category of goods, services or works and what total value is or could be reasonably expected to be purchased; and

3. If a purchasing threshold would be reached within three years for a particular contract for procurement, then the purchasing requirement under the relevant threshold (including the tender threshold) would need to be considered.

6.3 Purchasing from Existing Contracts

Where the City has an existing contract in place, it must ensure that goods and services required are purchased under these contracts to the extent that the scope of the contract allows.

6.4 Purchasing Thresholds

In addition to the other policy provisions, the table below prescribes the purchasing request process to be applied based on the proposed purchase value:

Purchase Value Threshold	Purchasing Requirement Open Market	Purchasing Requirement Pre-Qualified Suppliers
Up to \$200	Direct Purchase from the open market with zero quotations required. This purchasing method is suitable where the purchase is in a known market or is very low risk and where the cost of seeking quotes would be unreasonable on a cost to benefit analysis basis.	Purchase directly from: <ul style="list-style-type: none"> an existing panel of pre-qualified suppliers administered by the City; or a pre-qualified supplier on the WALGA Preferred Supply Program or State Government CUA; with zero quotations required.
Over \$200 and up to \$5,000	Seek two written* quotations from the open market. Officers may use their general knowledge of the market, advertisements, in-store price comparisons, catalogues, supplier web sites and any other reasonable means to determine whether the purchase represents value for money. *Where a written quote is not feasible a written note of the verbal quotation is to be recorded.	Purchase directly from: <ul style="list-style-type: none"> an existing panel of pre-qualified suppliers administered by the City; or a pre-qualified supplier on the WALGA Preferred Supply Program or State Government CUA; requiring two written quotations. *Where written quotations are not feasible a written note of the verbal quotations is to be recorded.
Over \$5,000 and up to \$20,000	Seek two written quotations from the open market. Officers may use their general knowledge of the market, advertisements, in-store price comparisons, catalogues, supplier web sites and any other reasonable means to determine whether the purchase represents value for money. Different suppliers should be used from time to time to test value for money for regular purchases.	Purchase directly from: <ul style="list-style-type: none"> an existing panel of pre-qualified suppliers administered by the City; or a pre-qualified supplier on the WALGA Preferred Supply Program or State Government CUA; requiring two written quotations.

PURCHASING POLICY

Over \$20,000 and up to \$50,000	Seek three written quotations from the open market including a brief outlining the specified requirement.	Seek two written quotations including a brief outlining the specified requirement from either: <ul style="list-style-type: none"> • an existing panel of pre-qualified suppliers administered by the City; or • a pre-qualified supplier on the WALGA Preferred Supply Program or State Government CUA.
Over \$50,000 and up to \$250,000	Seek at least three written quotations from the open market by formal invitation under a Request for Quotation (RFQ), containing pricing schedule and detailed specification of goods and services required. The procurement decision is to be based on pre-determined evaluation criteria that assesses all value for money considerations in accordance with the definition stated within this Policy.	Seek three written quotations from a pre-qualified panel of suppliers (whether administered by the City through the WALGA preferred supply program or State Government CUA). A formal Request for Quotation (i.e. City of Vincent template, WALGA Template or State Government CUA template) must be used. The procurement decision is to be based on pre-determined evaluation criteria that assesses all value for money considerations in accordance with the definition stated within this Policy.
Over \$250,000	Conduct a public Request for Tender process in accordance with Part 4 of the <i>Local Government (Functions and General) Regulations 1996</i> , this policy and the City's tender procedures. (Council Approval)	Where the purchase is expected to be over \$250,000: Obtain at least three written quotations from suppliers by formal invitation under a Request for Quotation (RFQ), containing price and detailed specification of goods and services required. The procurement decision is to be based on pre-determined evaluation criteria that assesses all value for money considerations in accordance with the definition stated within this Policy.

6.5 Sole Source of Supply

The procurement of goods and/or services available from only one private sector source of supply, (i.e. manufacturer, supplier or agency) is permitted without the need to call competitive quotations provided that there must genuinely be only one source of supply. Every endeavour to find alternative sources and goods/services must be made, with a written confirmation of this recorded.

Once determined, the justification for a sole source of supply must be endorsed by the Chief Executive Officer or Director, prior to a contract being entered into, or a purchase order raised.

6.6 Tendering Exemptions

The City limits the discretion from the requirement to call tenders provided under section 11(2) of the Regulations, to values over \$250,000. Accordingly, tenders do not have to be publicly invited for contracts over \$250,000 in the following instances:

- the purchase is obtained from a pre-qualified supplier under the WALGA Preferred Supply Program or State Government Common Use Arrangement (CUA).
- the purchase is from a Regional Local Government or another Local Government;

PURCHASING POLICY

- the purchase is acquired from a person registered on the WA Aboriginal Business Directory, as published by the Small Business Development Corporation, where the consideration under contract is worth \$250,000 or less and represents value for money;
- the purchase is acquired from an Australian Disability Enterprise and represents value for money;
- the purchase is from a pre-qualified supplier under a Panel established by the City; or
- any of the other exclusions under Regulation 11 of the Regulations apply.

6.7 Council Approvals

The Regulations provide that Council is required to Accept tenders (subject to approved Delegations of Authority). For the avoidance of doubt, Council approval is not required for the provision of goods or services when public tenders are not required to be invited (and are not invited), providing the expenditure is authorised through the annual budget or approved in accordance with section 6.8(1) of the Act.

Section 13 of the Regulations specify that if:

"a local government, although not required by this Division to invite tenders before entering into a contract for another person to supply goods or services, decides to invite tenders, the tenders are to be publicly invited to the requirements of this Division."

7. PANELS OF PRE-QUALIFIED SUPPLIERS

7.1 Policy Objectives

In accordance with Regulation 24AC of the *Local Government (Functions and General) Regulations 1996*, a Panel of Pre-qualified Suppliers ("Panel") may be created where most of the following factors apply:

- the City determines that a range of similar goods and services are required to be purchased on a continuing and regular basis;
- there are numerous potential suppliers in the local and regional procurement-related market sector(s) that satisfy the test of 'value for money';
- the purchasing activity under the intended Panel is assessed as being of a low to medium risk;
- the Panel will streamline and will improve procurement processes; and
- the City has the capability to establish, manage the risks and achieve the benefits expected of the proposed Panel.

The City will endeavour to ensure that Panels will not be created unless most of the above factors are firmly and quantifiably established.

7.2 Application

If the City determines it beneficial for a Panel to be created, it must do so in accordance with Part 4, Division 3 of the *Local Government (Functions and General) Regulations 1996*.

7.3 Purchasing from the panel

The invitation to apply to be considered to join a panel of pre-qualified suppliers must state whether quotations are either to be invited to every member (within each category, if applicable) of the Panel for each purchasing requirement, whether a ranking system is to be established, or otherwise.

The City will take into account its purchasing thresholds when distributing work among panel members.

Each quotation process, including the invitation to quote, communications with panel members, quotations received, evaluation of quotes and notification of award (via purchase order) communications must all be captured on the City's electronic records system. A record is to be maintained for each quotation process made under each Panel that captures all communications between the City and Panel members.

PURCHASING POLICY

8. RECORDS MANAGEMENT

Records of all purchasing activity must be retained in compliance with the *State Records Act 2000 (WA)*, the City's Records Management Policy and associated procurement procedures.

RECOMMENDATION:

That Council:

1. NOTES:

- 1.1 the submissions received during the draft Property Management Framework public comment period, as summarised at Attachment 1;
- 1.2 that amendments and additions were made to the version of the Property Management Framework approved by Council for advertising on 17 March 2020, as at Attachment 2, as detailed in this report; and
- 1.3 that the amendments and additions include the removal of the requirement for Category 1 – Small Community Groups, that are entering into a Management Agreement with the City, to pay for:
 - a) costs associated with all outgoings, rates, taxes and insurances associated with the property;
 - b) pest inspections (including termite inspections) and treatment;
 - c) rubbish and recycling bin charges;
 - d) cost of statutory compliance (RCD, smoke alarm and emergency exit); and
 - e) building insurance;
- 1.4 the updated Property Management Framework, as at Attachment 3, was advertised and discussed with community groups; and
- 1.5 that further minor amendments to the Property Management Framework were made based on community comments.

2. ADOPTS the:

- 2.1 Property Management Framework at Attachment 4; and
- 2.2 Property Management Policy at Attachment 5.

3. REPEALS the City's Policy 1.2.1 – *Terms of Leases*, at Attachment 6.

4. **DELEGATES BY ABSOLUTE MAJORITY** the power to dispose of property in accordance with section 3.58 of the *Local Government Act 1995*, to the Chief Executive Officer, as detailed in Attachment 7, subject to:
 - 4.1 the disposal being in the form of a lease, licence or management agreement to a Category One (1) or Category Two (2) group currently occupying a City building, in accordance with the adopted Property Management Framework;
 - 4.2 the lease, licence or management agreement to a Category One (1) or Category Two (2) group not requiring any special conditions that sit outside of the Property Management framework or a change in the responsibilities; and
 - 4.3 any requests from community or sporting groups not currently occupying a City building in Category One (1) or Category Two (2), to be presented to Council for approval.
5. **NOTES** that:
 - 5.1 the assessment of the Community Benefit Subsidy will be undertaken by Administration, and for any new groups as set out in recommendation 4.2 above, would be presented to Council for approval; and
 - 5.2 new requests for leases and licences within Category Three (3) and Four (4) groups will be presented to Council for approval.
6. **APPROVES** Community Groups and Sporting Clubs within categories one (1) and two (2) to receive support during a four (4) year transition period, as follows:
 - 6.1 where the group or club experiences an increase in fees due to the implementation of the Property Management Framework;
 - 6.2 they incrementally increase their fees each year, by a rate of 25% of the difference between the current fee and the proposed fee; and
 - 6.3 they transition completely to the terms of the Property Management Framework within a four (4) year period.
7. **REQUIRES** that all Community Groups and Sporting Clubs with a lease, licence or management agreement are required to provide, by 1 November annually, or less frequently by agreement:
 - 7.1 a completed Community Group Health Check; and
 - 7.2 a current copy of their Certificate of Insurance Currency.
8. **NOTES** that further amendments to the Property Management Framework will be completed prior to the commencement of the transitioning of Community Groups and Sporting Clubs over to the Property Management Framework as detailed in the report.

PURPOSE OF REPORT:

To seek Council adoption of the Property Management Framework, **Attachment 4** and the Property Management Policy (**Attachment 5**) and delegate power to the Chief Executive Officer to approve leases, licences and management agreements to Category One (1) and Two (2) Community and Sporting Groups transitioning over to the Property Management Framework.

BACKGROUND:

The City currently has lease/ and licence arrangements with a range of not-for-profit community organisations, sport and recreation clubs, government agencies and commercial entities. These arrangements were based on the City's existing Policy No. 1.2.1 – Terms of Leases (Leasing Policy).

The City has experienced issues in administering the Leasing Policy as it provides little clarity on the terms of the lease arrangement, and potential variations of those terms based on the type of organisation, type of activity, or value to the community.

DETAILS:

The City has prepared a Property Management Framework to ensure any City property that is leased or licenced are managed in a consistent, fair and transparent manner. The Framework also provides an equitable methodology for calculating lease and licence charges.

Historically there has been no rationale or strategy behind the assignment of leases and licences. The current Leasing Policy has been inadequate and simply states that:

- Any new lease granted by the Council shall usually be limited to a five year period and any option to renew shall usually be limited to no more than a ten year period; and
- Council may consider longer periods where the Council is of the opinion that there is a benefit or merit for providing a longer lease term.

The City has completed a comprehensive review of existing leases, and reviewed the application of the Policy to those leases.

Public Advertising of the draft Property Management Framework

At the Ordinary Meeting of Council on 17 March 2020, it was resolved that Council:

- “1. *NOTES the draft Property Management Framework, at Attachment 1;*
2. *RECEIVES the draft policy – ‘Property Management Policy’ at Attachment 2;*
3. *AUTHORISES the Chief Executive Officer to provide local public notice of the new Policy in Recommendation 2 above and invite public comments for a period of at least 21 days; and*
4. *NOTES that at the conclusion of the public notice period any submissions received would be presented to Council for consideration.”*

Public advertising of the Property Management Framework and the Property Management Policy has now been undertaken in accordance with Policy 4.1.5 – Community Consultation as contained within **Attachment 1**.

Amendments to the Property Management Framework

In response to community feedback during consultation, Administration recommends changes to the Property Management Framework including:

- Clarifying maintenance obligations for both the lessee/licensee and the City in a separate table;
- Removing the word incentive and replacing it with subsidy, with respect to the Community Benefit Matrix for clarity;
- Changing the address of Highgate Forrest Park Playgroup from 127 Wright Street, Highgate to 66 Harold Street, Highgate;
- Expanding on and providing clearer definitions and examples of Capital Renewal and Capital Upgrades for clarity; and
- The removing of the requirement for Category one and two clubs and groups to repaint the facility inside and out every five (5) years. This will now be the responsibility of the City. The Property Management Framework will be updated to reflect this change.

Following Council Briefing on 8 September 2020, Administration proposes the following amendments to the Property Management Framework including:

- The inclusion of ‘Maintain, Service and Repair Bore and Pump’ in the Schedule of Maintenance Obligations for Category One and Category Two (2) groups. This inclusion provides that: The Lessee is responsible for annual inspection, and determining the schedule for maintenance and repair. Service,

repair and maintenance costs are to be allocated between the lessor and tenant in the property lease, with the Lessors responsibilities being defined within the property lease;

- The removal of the Lessee from Category One (1) and the Licensee and Lessee from Category Two (2) from being responsible for Capital upgrades;
- The inclusion of the payment of excess for building insurance in the Essential Term Template and Schedule of Maintenance Obligations for Category One (1) and Category Two (2);
- The removal of the word 'Malicious' in the Schedule of Maintenance Obligations for Category One (1) and Two (2);
- The removal of the requirement for Category One (1) and Category Two (2) groups to replace sheds, roller doors and garages;
- The removal of the requirement for Category One (1) and Category Two (2) groups to repair and maintain wiring; and
- The consistent use of the word tenant to define a Lessee, Licensee or Management Agreement holder within the Property Management Framework.

Removal of the responsibilities of payments for the tenant in Category One (1) – Small Community Groups

The Property Management Framework presented to the Ordinary Meeting of Council on 17 March 2020 incorrectly reflected that tenants in Category One (1) – Small Community Groups who were subject to a Management Agreement would be responsible for the payment of outgoings, pest inspections, rubbish and recycling bins, statutory compliance and building insurance. This was rectified with all relevant groups being provided with the amended Property Management Framework prior to consultation.

Assisting Clubs and Groups to understand the Property Management Framework

Administration has developed a set of Frequently Asked Questions (FAQ's) **Attachment 8** to help clubs and groups to better understand the Property Management Framework.

The FAQs also respond to questions raised during the public consultation process.

Impact Assessment for Categories One and Two

Attachment 9 sets out the likely financial implications to clubs and groups in categories one (1) and two (2) if the Property Management Framework is endorsed.

For those organisations who may experience an increase it also demonstrates the annual increase that will occur each year for 4 years during a period of transition.

Assisting Clubs and Groups to transition across to the Property Management Framework

Attachment 10 sets out the transition options available for clubs and groups as we implement the Property Management Framework.

Initially, Administration will work with the eight (8) sporting clubs and community groups in category one (1) and two (2) who are currently on a month-to-month lease (holding over) to transition them over to the new Property Management Framework. Groups that want to transition to the new Framework before the end of their lease will be helped next. The remaining groups will be helped when their leases expire.

Administration will use a baseline property condition report to identify specific issues that may require attention, and will identify the actions to be taken by either the lessor or the tenant in response.

If a group in category one (1) or two (2) is likely to experience an increase in leasing fees, as detailed in **Attachment 9**, Administration recommends they are given four (4) years to incrementally move to the new charging methodology. This would be on the basis that their lease fee closes the gap between the current rate and the proposed rate, with incremental steps of 25% annually (of the gap) until the applicable rate is reached.

If any club or group is concerned about the additional costs associated with the implementation of the Property Management Framework, Administration will discuss possible alternative options such as seasonal licences, shared usage and multipurpose facilities.

The transition of all leases to the Property Management Framework will continue until 31 October 2030 should existing leases continue to run their course through to expiry.

Gross Rental Value (GRV)

The Valuer General Office (VGO) values land in accordance with the provisions of the Valuation of Land Act 1978. The GRV is the yearly income the property would be expected to generate if rented. The rental value for a house is influenced by factors like age, construction, size, car shelters and pools. By analysing property rents against these individual attributes and characteristics it is possible to assess a valuation for all properties, whether they are rented or not.

The use of GRV is proposed to minimise the current disparity between the City's lease and licence arrangements along with providing a cohesive framework that will provide the foundation for a consistent, transparent and equitable approach for community and sporting groups.

Community Benefit Subsidy Matrix

Administration has developed a community benefit matrix, as detailed in **Attachment 11** which determines the level of subsidy each sporting club or community group is eligible for. The following is taken into account when determining the subsidy:

- Level of volunteer assistance in managing the day to day affairs of the group;
- The extent of the service provided by the group and whether or not it is directly targeted to the Vincent community;
- Whether or not the facilities are made available to others in the local community;
- The social and community benefit and whether or not the group services users from a range of socio-economic background, females, LGBTIQ+, the multicultural community and people with disability; and
- Ability to raise revenue through venue hire.

Delegation of power to approve leases to Chief Executive Officer

This is proposed to streamline the granting of leases, licences and management agreements for community and sporting groups. As the Property Management Framework clearly sets out the terms and conditions of these tenure arrangements, it is not necessary for Council to consider the individual lease, licence or management agreement. The Chief Executive Officer will be required to grant the lease, licence or management arrangement in accordance with the approved terms in the Property Management Framework, which includes the annual rent. Where a group requires a special condition to the Management Agreement, Lease or Licence, such as the inclusion of a bore, or clarification on responsibilities, these will be presented to Council for endorsement and decision making.

Any requests by new sporting clubs and sporting groups for a management agreement, lease or licence will be presented to Council for review and approval. This would provide Council with the oversight and understanding of community usage and benefit.

All Category Three (3) and Category Four (4) groups and organisations will be presented to Council to approve responsibilities, conditions and annual fees, based on a market valuation. These leases and licences traditionally have longer tenure arrangements than Category One (1) and Category Two (2) tenants. It is appropriate for Council to approve these arrangements.

CONSULTATION/ADVERTISING:

The City has held discussions with all community groups and sporting clubs within categories one (1) and two (2) who hold a lease or licence. Feedback from these groups has been reviewed and considered and (where appropriate) incorporated into the Framework.

Commercial entities and government agencies will be informed of the Framework during lease renewal negotiation of lease renewal.

In accordance with the City's Policy 4.1.1 – Adoption and Review of Policies, public notice of the new policy was provided for a period exceeding 21 days in the following ways:

- On the City's website;
- In the local newspapers;
- On the notice board at the City's Administration and Library and Local History Centre; and
- Through direct contact with all sporting clubs and community groups within Category 1 and 2 by providing a link to the website advising of the consultation period.

Administration has met with interested organisations and discussed their feedback. Feedback has been considered in the changes proposed herein.

LEGAL/POLICY:

Section 2.7(2)(b) of the Act provides Council with the power to determine policies.

City's Policy 4.1.1 – *Adoption and Review of Policies* sets out the process for repealing and adopting policies.

Section 5.42 of the *Local Government Act 1995* provides that a local government may delegate powers and duties to the Chief Executive Officer.

RISK MANAGEMENT IMPLICATIONS:

Low: There is a low risk for Council to adopt a new Property Management Framework and supporting policy.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Connected Community

Our community facilities and spaces are well known and well used.

Thriving Places

Our physical assets are efficiently and effectively managed and maintained.

Innovative and Accountable

We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATIONS:

Nil.

FINANCIAL/BUDGET IMPLICATIONS:

Under the proposed model, the City will generate approximately \$38,543.82 in the first year from both Category One and Two groups, compared to \$30,195.40 under the current charging methodology. This includes the eight (8) groups currently in holding over transitioning to the Property Management Framework this financial year with the new charging methodology applied. Category one – small community groups have a financial benefit within this framework that allows for a maximum subsidy of 50% and up to 25% subsidy for category two – sporting clubs, community groups and organisations.

Leederville Cricket Club		
1	<p>Thank you for the information regarding the new property framework. We are happy to accept the conditions and will be keen to sign up when required to do so.</p> <p>Additional enquiry made on 4 June 2020</p> <p>The insurance, electricity and water usage attached to the public toilets should not be included in our fees.</p> <p>Are we still sharing the yearly costs 50/50 with soccer?</p> <p>When does our current temporary lease end and the new 5 year lease begin?</p>	<p>Noted.</p> <p>The club will be responsible for the electricity and water usage (excluding the public toilets). The City will be responsible for paying the costs associated with the public toilets.</p> <p>The Leederville Cricket Club will be responsible for outgoings during the summer period from October to March annually with the Floreat Athena Football Club being responsible for all outgoings from April to September annually.</p> <p>The Leederville Cricket Club lease expires on 31 March 2022. Administration's intention is to commence discussions with community groups and sporting clubs who lease has expired and whom are currently in holding over following Council endorsement first in order to provide them with security of tenure.</p>
North Perth Cricket Club		
2	<p>We were advised of this last August. Our lease is up for renewal and we'd love to have the new lease finalised as soon as possible so we can look to get access to a number of different grants and programs available.</p>	<p>Noted. Administration's intention is to commence discussions with community groups and sporting clubs who lease has expired and whom are currently in holding over following Council endorsement first in order to provide them with security of tenure.</p>
Forrest Park Croquet Club		
3	<p>The financial contribution by some clubs have not been considered. These costs are different for many of the category 2 clubs and organisations with some being near to zero cost. This is not equitable or transparent.</p> <p>The use of GRV is inequitable; resulting in 2 similar tenancies paying significantly different costs. The use of GRV is inappropriate for valuing a club as it cannot be leased commercially.</p> <p>The community benefit matrix introduces additional work to the City for little benefit. It is also subjective and unlikely to lead to transparent or equitable implementation of the Framework.</p>	<p>Administration has reviewed the tenancy and costs incurred by all sporting clubs and understands that where clubs have exclusive use over facilities and playing greens, additional costs are incurred given the nature of the activities conducted and the benefit of exclusive use. The use of GRV is proposed to minimise the current disparity between the City's lease arrangements along with providing a cohesive framework that will provide the foundation for a consistent, transparent and equitable approach for community and sporting groups.</p> <p>To limit the impact on groups, Administration is recommending that category one (1) and two (2) groups be granted a period of up to four (4) years on commencement of a new lease or licence to comply with the new charging methodology. This is on the basis that their rentals increase at the rate of 25% annually until the applicable rental is reached.</p> <p>In addition to this, category one (1) are eligible for up to 50% Community Benefit Subsidy and category two (2) clubs are eligible for up to 25% subsidy on their tenancy fee.</p> <p>Administration has developed a weighted matrix for assessing the community benefit subsidy. Information provided through the annual Community Group and Sporting Club Health Check will assist with completing the matrix to ensure an equitable and consistent approach to determining the level of community benefit subsidy that is applied to groups.</p>

Comments Received	Administrations Response
The Framework does not appear to maximise community benefit but rather seeks to transfer as much cost to the tenant as possible and minimise the City's costs. This actually minimises clubs benefit and the contribution that the Club provides to the City and the community.	<p>The maintenance costs of community buildings can be a substantial burden to local governments. Ageing infrastructure can incur considerable costs. Under the Property Management Framework, the key lease terms and conditions have not changed from the clubs existing responsibilities as detailed within the current Lease.</p> <p>The calculation of the tenancy fee reflects a fair and consistent approach to tenancy fees through the implementation of the 10% GRV charge for both Category 1 & 2 groups.</p>
The table of responsibilities does not clearly nor transparently articulate the responsibilities of the tenant or City.	Noted. Maintenance is often an area that ends up in dispute, further highlighting the need for a clear outlining of the responsibilities of both parties. Given this, Administration has amended the Property Management Framework to include a detailed list of maintenance responsibilities for each category as an Addendum to the framework.
Good Asset Management practice indicates that the asset maintenance responsibility should be incurred by the parties whose interest is benefiting from the separation of responsibilities.	The maintenance costs of community buildings can be a substantial burden to local governments. Ageing infrastructure can incur considerable costs. Under the Property Management Framework, the key lease terms and conditions have not changed from the clubs existing responsibilities as detailed within the current Lease.
In the general property leasing area, borne out of commercial leases, the tenant should be responsible for what they inflict on the property, the owner should be responsible for the long term investment interest in the property.	Clubs will be required to contribute to capital repairs and maintenance arising from fair wear and tear. The City is responsible for structural changes such as an upgrade to the toilet block to make it universally accessible. In circumstances where a tenant does not have exclusive use of a facility, the city may have more responsibilities such as maintenance of shared toilets and change rooms.
This Framework proposes that the tenant becomes responsible for many costs that are actually of benefit to the City rather than the tenant.	Under the Property Management Framework, the key lease terms and conditions have not changed from the clubs existing responsibilities as detailed within the current Lease.
The Club has been unable to apply for grants as this typically requires a sound long term tenure of a facility. This has impacted the Club's budget.	Administration has previously made contact with Forrest Park Croquet Club with respect to grant funding and advised that Administration can provide correspondence to accompany any grant application to clarify the currently leasing framework and to acknowledge and highlight the City's intentions and any future tenure arrangements.
The default provision of escalation at 10% has been imposed. That is unsatisfactory as it impacts adversely on the Club's budget	To limit the impact on groups, Administration is recommending that category one (1) and two (2) groups be granted a period of up to four (4) years on commencement of a new lease or licence to comply with the new charging methodology. This is on the basis that their rentals increase at the rate of 25% annually until the applicable rental is reached.
The Club has continued to invest in the premises without any certainty of the longevity of its lease. This imposes a risk to the club because if the City does not renew the lease or if the lease conditions result in the Club becoming unviable those invested funds will have been wasted.	<p>Administration has held discussions with Forrest Park Croquet Club in relation concerns relating to their sustainability, the future of the club, their financial position, membership numbers, community engagement and promotion of the facility and will continue to assist in order to ensure the longevity of the club.</p> <p>The Property Management Framework provides for a 5 year lease with two (2) five (5) year options to provide security of tenure for clubs.</p>
No transparency or equity is demonstrated in the framework document.	The framework is designed as an overarching document to provide a level of information to all groups and organisations. Further information will be detailed within the Lease or Licence and subject to negotiations with individual clubs.

	Comments Received	Administrations Response
	The Framework proposes to transfer the City's responsibilities for maintenance of its properties to tenants who are either financially unable or uninterested in taking on this responsibility. Therefore, the framework does not support this objective.	Under the Property Management Framework, the key lease terms and conditions have not changed from the clubs existing responsibilities as detailed within the current Lease.
	Restricting this Framework to Vincent's community only limits who and for what purpose the City can enter into leases. This would exclude almost all the category 2 clubs and organisations listed in the Framework as they have membership or a role that extends outside the City's boundaries.	The Framework is for groups operating within the City's boundaries, understanding that in some instances membership for community groups and sporting clubs in category one (1) and two (2) groups extends outside of the City's boundaries. Administration's primary focus will always be on ensuring that groups and organisations operating within the City's boundaries focus on local community and further that they provide a service that delivers value and meets the needs of our diverse community.
	Lack of transparency and inequity in the proposed Property Maintenance Framework, especially that lack of recognition of the financial contributions that a lessee makes to the City of Vincent	The financial contributions by lessees has been demonstrated by the Community Benefit Subsidy which provides up to 25% rent reduction for groups in Category one (1) and up to 50% rent reduction for groups in category two (2) It is further demonstrated by Council waiving rates for sporting clubs and groups annually. This equates to approximately \$5,000 per year for Forrest Park Croquet Club.
	Payment of insurance and other costs which are to the benefit of the City of Vincent	All groups entering into any occupancy arrangement with the City will be required to hold the relevant insurances in respect to tenant's use or occupation of the City's land and buildings. Category one (1) and two (2) groups who have existing leases are currently responsible for the payment of public liability insurance, building insurance and contents insurance. This is a requirement of the current Lease and is replicated within the Property Management Framework.
Forrest Park Croquet Club – Supplementary Submission		
4	<p>Forrest Park Croquet Club has been critical in its submission of the City of Vincent's methodology in achieving these objectives. These include:-</p> <ul style="list-style-type: none"> • the lack of transparency and inequity in the proposed Property Maintenance Framework, especially that lack of recognition of the financial contributions that a lessee makes to the City of Vincent, • Payment of insurance and other costs which are to the benefit of the City of Vincent, • the anticipated poor asset management outcomes, • the use of Gross Rental Value to determine the rental value, • the coercive nature of rent setting; and • the excessive transfer to the lessee of a significant portion of the maintenance responsibility of the facilities leased. 	Noted. Administration believes that these questions have been answered above in the first submission.
	Proposal	Noted.

	Comments Received	Administrations Response
	<p>This proposal builds on most of the objectives of the City of Vincent to achieve a better outcome. It does it by: -</p> <p>Making the lessee responsible for the repair of the things they do to the building through their use.</p> <p>The City of Vincent assumes responsibility for the long term maintenance of its assets,</p> <p>The rent is used to pay for the City of Vincent's responsibility for periodic restoration of the facilities to an acceptable standard.</p> <p>The rent is set to recover those costs over the expected period between periodic maintenance activities.</p> <p>That where the lessee makes a significant financial contribution in operating a facility, especially that associated grounds maintenance, a portion of the contribution is re-implemented to the club.</p> <p>Discussion:</p> <p>This proposal essentially attempts to make the financial impacts on the City of Vincent budget to be insignificant. The cumulative effect of all the clubs paying rent based on their long-term maintenance needs will provide the City of Vincent in a long term program the funds to meet those maintenance needs.</p> <p>It provides equity in and transparency in determining rent, any surpluses or losses can be met by rent adjustments. Rents are adjusted for inflation based on the inflation of maintenance costs. Maintenance responsibility is well defined, the tenant is responsible for the damage they cause the building, much the same as in house rentals and the City of Vincent is responsible for the Asset Management responsibility including the periodic restoration maintenance to an acceptable standard.</p>	<p>The maintenance costs of community buildings can be a substantial burden to local governments. Ageing infrastructure can incur considerable costs. Under the Property Management Framework, the key lease terms and conditions have not changed from the clubs existing responsibilities as detailed within the current Lease. Administration is of the opinion that this remain as proposed.</p> <p>Clubs will be required to contribute to capital repairs and maintenance arising from fair wear and tear. The City is responsible for structural changes such as an upgrade to the toilet block to make it universally accessible. In circumstances where a tenant does not have exclusive use of a facility, the city may have more responsibilities such as maintenance of shared toilets and change rooms.</p> <p>Noted.</p> <p>Noted.</p> <p>Administration would recommend that should the financial burden of operating a single use facility be of concern to sporting groups, that consideration be given by the clubs to review their core focus and adapt to explore the potential of creating a multi-purpose facility. There are numerous community and financial benefits associated with multi-use sporting hubs.</p>

Loton Park Tennis Club		
5	Regardless of any concerns about the way in which the rent might be calculated under the Property Management Framework, the Club wishes to make clear that under the terms of its existing lease, subject to the Club exercising its options to renew under the lease, the method for calculating rent is settled until 31 October 2030 and cannot be unilaterally amended by the Council. Therefore, again, subject to the Club exercising its options to renew under the existing lease, the proposed new way of calculating rent set out in the Property Management Framework cannot apply to the Club until the negotiation of a new lease to apply after 31 October 2030 or until the Club and the Council otherwise agree to amend the terms of the existing lease prior to 31 October 2030.	Noted. Administration's intention is to commence discussions with community groups and sporting clubs who lease has expired and whom are currently in holding over following Council endorsement first in order to provide them with security of tenure.
Leederville Tennis Club		
6	The use of GVR is not appropriate and creates anomalies if proposed fees for clubs as a starting point. If GRV is the measure, the percentage has to be reduced to 1-2% not 10%	<p>To limit the impact on groups, Administration is recommending that category one (1) and two (2) groups be granted a period of up to four (4) years on commencement of a new lease or licence to comply with the new charging methodology. This is on the basis that their rentals increase at the rate of 25% annually until the applicable rental is reached</p> <p>In addition to this, category one (1) are eligible for up to 50% Community Benefit Subsidy and category two (2) clubs are eligible for up to 25% subsidy on their tenancy fee.</p> <p>It is further demonstrated by Council waiving rates for sporting clubs and groups annually. This equates to approximately \$3,300 per year for Leederville Tennis Club.</p>
Vietnam Veterans Association of Australia Western Australian Branch Inc		
7	The Vietnam Veterans Association of Australia Western Australian Branch Inc are agreeable to discussions with the City of Vincent, regarding the proposed change of lease agreement between the City and the VVAWA, at ANZAC Cottage, 28 Kalgoorlie Street, Mount Hawthorn.	Noted.
North Perth Tennis Club		
8	<p>The club currently has an obligation to keep the premises rodent free and treat for rodents as required and complies with this requirement.</p> <p>The club would object to a "quarterly" rodent treatment, regardless of the requirement, to treat, due to the additional cost that it may impose on the club and views this requirement as excessive and unnecessary.</p> <p>Bore Replacement – the maintenance and/or replacement of the bore has always been carried out by the City.</p>	<p>Noted.</p> <p>The Property Management Framework states "pest inspections (including termite inspections) and treatment (with the exception of groups on a Management Agreement)". Administration would conduct annual pest and termite inspections with the cost and any treatment required recoverable from the Lessee.</p> <p>The North Perth Tennis Club is responsible for the servicing, repair and maintenance of the bore under the current lease, as the bore is a fixture which falls within the scope of the Premises – "The Lessee"</p>

Comments Received	Administrations Response
<p>The bore was recently replaced by the City with the City and the Club working together to carry out this replacement without impacting the grass tennis courts or the Community Garden group.</p> <p>It should be noted that the bore is a shared facility with the Community Garden Group.</p> <p>Confirmation that the bore maintenance and replacement remain a City responsibility is required in the new lease. The Club has never budgeted for or incurred any of the costs associated with bore maintenance or bore replacement.</p>	<p><i>must keep the Premises in good, substantial and functional repair, order and condition...</i>" Whilst this would be a component of the Lease, Administration would seek to keep this as is.</p> <p>A new bore would be a capital improvement and therefore the City could fund the replacement of a new bore "<i>at its sole discretion</i>"</p> <p>Administration is aware that the bore currently services the Tennis Club and the North Perth Community Garden.</p> <p>The City monitors water consumption regularly and confirms that the Tennis club uses on average 86.5 per cent of the water from the bore. The North Perth Community Garden uses 13.5 per cent. Based on the above usage of water from the bore, the City confirms that it is appropriate for the City (on behalf of the North Perth Community Garden) to be responsible for 13.5 per cent of servicing, maintenance, repair and electricity consumption costs associated with the bore. In the event that the bore required replacement the City may also contribute. This would be clarified within the Lease and will be consistent to the current requirements.</p>
<p>The current lease has an obligation for NPTC to reimburse the premium for the City's Building Insurance policy. NPTC only pays for the excess on this policy if it is an act or omission by the Club. It is the Clubs expectation that this obligation continues to be included in the new lease as any change would impose an additional cost on the club.</p> <p>It is of concern to the Club that the recommended lease of the Community Building at Woodville Reserve, 10 Farmer Street (adjoins the NPTC Club house), included that the "excess on any claim is payable by the tenant". We do not expect that this requirement is imposed upon the NPTC.</p>	<p>Noted.</p> <p>The Property Management Framework has been developed to ensure consistency and equity for all groups and sporting clubs when applying terms and conditions including the requirement for all Lessees to pay excess on insurance claims up to a maximum of \$1,000.</p>
<p>The use of the GRV model imposes a higher fee on the Club. The Club charges fees that are commensurate with its costs of operation including allowances for future maintenance such as hard-court resurfacing, court lighting maintenance etc. The club works extremely hard, through fundraising, significant volunteering from members and prudent management to keep the fees reasonable. Our budget is small and sensitive to increases above CPI. The GRV model used in the Framework imposes an additional cost to the club of \$1914 / annum (with a 25% incentive applied)</p>	<p>The City recognises that there is an overall social benefit for the community to enable the use of facilities by organisations which provide recreation and sporting opportunities or are key to overall community needs.</p> <p>This has been demonstrated by the Community Benefit Subsidy which provides up to 25% rent reduction for groups in Category one (1) and up to 50% rent reduction for groups in category two (2)</p> <p>The City's assistance and commitment to groups and sporting clubs is further demonstrated by Council waiving rates for sporting clubs and groups annually. This equates to approximately \$2,500 per year for North Perth Tennis Club.</p>
<p>This year the club will change our Contractor for the maintenance of the</p>	<p>Noted. As above</p>

Comments Received	Administrations Response
<p>grass courts and club surrounds. We have until now been able to keep this cost to a minimum using our own club members, the lowest cost contractor or a combination of both. This is not sustainable and this required change will likely to increase the costs to the Club by \$6k per annum.</p> <p>The cumulative impact of all these costs (\$1914 + \$6000 + other lease costs) will have a significant impact on the financial viability of the Club.</p>	
<p>The Community Benefit Matrix. The Framework and attachments use both the terms "incentive" and "subsidy". Clarity is required as to which one it is? "Incentive" means a thing that encourages or motivates someone to do something. "Subsidy" means a grant of money by the public body to help an organisation keep the price of the service low.</p> <p>We have no issue if the Community Benefit Matrix applies an incentive that is based on the criteria at Attachment 4. We do have an issue if the Community Benefit Matrix applies a subsidy rather than an incentive. Experience from our membership is the subsidies can be removed or reduced by Council as Councils change and funding pressures change. A worst-case outcome for the Club, without clarity and consistency on the terminology, is advice being received that the subsidy is to be reduced/removed and a statement from the City that: "this was always a subsidy".</p> <p>We seek a guarantee that the incentive as per Appendix 4 will always remain.</p> <p>We are seeking a guarantee that the adjustment to the fee cannot be removed at a later date.</p>	<p>Noted.</p> <p>This has been amended in the Property Management Framework to state subsidy.</p> <p>Given the Property Management Framework will be endorsed by Council, any amendments or changes to the document will require Council endorsement along with community consultation.</p>
<p>From 2018 Club's are unable to exercise lease extension options.</p>	<p>Administration can provide correspondence to accompany any grant application to clarify the currently leasing framework and to acknowledge and highlight the City's intentions and any future tenure arrangements.</p>
<p>GRV is not purpose designed to deliver a leasing rate for City property. It is specifically designed for another purpose.</p>	<p>Administration reviewed the current lease and licence fees applicable to community organisations as well as researching other Local Government Authorities charging methodologies. Historically, Administration has taken an adhoc approach to charging groups and sporting clubs which has resulted in an inconsistent and unfair charging system. In proposing a revised fee structure that was consistent and grouped like entities based on a factual constant, Administration considered the 10% GRV to be the most equitable methodology.</p> <p>To limit the impact on groups, Administration is recommending that category one (1) and two (2) groups be granted a period of up to four (4) years on commencement of a new lease or licence to comply with</p>

	Comments Received	Administrations Response
		<p>the new charging methodology. This is on the basis that their rentals increase at the rate of 25% annually until the applicable rental is reached.</p> <p>In addition to this, category one (1) are eligible for up to 50% Community Benefit Subsidy and category two (2) clubs are eligible for up to 25% subsidy on their tenancy fee.</p>
Community Member (1)		
9	<p>The GRV figures for Mt Hawthorn Playgroup was \$951.00 pa and Highgate Playgroup \$3,085 pa which is hardly an equitable outcome for essentially the same facility.</p> <p>It appears inevitable if GRV is to be used it needs to be used with a significant moderation factor and comparable facilities will need to be leased at the lower GRV rate. This does not appear to be an issue when there are two or more similar facilities such as tennis courts. Even with a unique facility an appropriate moderated lease fee could be struck based on similar facilities or a percentage of similar facilities if the areas are not an equal or similar match. The use of GRV is imperfect but it appears it can be moderated and "harnessed" for the task.</p>	<p>Administration reviewed the current lease and licence fees applicable to community organisations as well as researching other Local Government Authorities charging methodologies. In proposing a revised fee structure that was consistent and grouped like entities based on a factual constant, Administration considered the 10% GRV to be the most equitable methodology.</p> <p>To limit the impact on groups, Administration is recommending that category one (1) and two (2) groups be granted a period of up to four (4) years on commencement of a new lease or licence to comply with the new charging methodology. This is on the basis that their rentals increase at the rate of 25% annually until the applicable rental is reached.</p> <p>In addition to this, category one (1) are eligible for up to 50% Community Benefit Subsidy and category two (2) clubs are eligible for up to 25% subsidy on their tenancy fee.</p>
	<p>It is sad that this paper has not incorporated any of the issues raised at the briefing session such as consultation on Framework, condition required of Vincent buildings and the equity issue of different lease rates for similar properties and these issues will need to be revisited.</p>	<p>Administration has consulted individually with groups and sporting clubs within Category 1 & 2 and provided them with copies of the Property Management Framework.</p> <p>Comments and input received during consultation and the briefing session have been noted by Administration and consideration has been taken when reviewing the Property Management Framework.</p>
	<p>This section is silent about the publication of draft licence and lease agreements. Will these documents be made available as part of the transparent introduction of the Framework? I suggest they should be published as soon as possible.</p>	<p>Administration is currently drafting standard lease and licence documents. In order to ensure transparency, these documents will be forwarded to groups and sporting clubs once finalised.</p>
	<p>The development of a Frequently Asked Questions document is a good idea but something that needs to be done at the end of the first year of implementation when there is some experience of the questions asked.</p>	<p>Noted.</p>
	<p>It is always useful to have a timetable and the City's intention to transition on a chronological basis is commendable. It would be beneficial for all groups to know the order in which this will be done and the the timetable in which the City anticipates this will occur.</p> <p>This should include details of any necessary capital upgrades the City needs to undertake prior to leasing the facility. A City published list and a realistic timetable will assist in its aim to</p>	<p>Noted.</p>

	Comments Received	Administrations Response
	ensure transparency, consistency and equity in the introduction of Framework.	
	Attachment 3 List of City properties is marked Appendix 1 list of properties. As an inventory and location of city properties it does not specify the type of sporting facility nor does it provide accurate addresses. For example 127 Wright Street Highgate is not the location of any City tenancy for community or sporting group. Further this lack of accurate locations and sporting group name was a hindrance during question time at the briefing session.	Noted. Administration have amended the address from 127 Wright Street, Highgate to 66 Harold Street, Highgate.
	Community Benefit Matrix is among the attachments but is labelled as Attachment 3.	Noted.
	Table of percentage increase/decrease of tenancy fee requested by Mayor Cole at the 10 March 2020. Table includes some questionable arithmetic.	Noted.
Community Member 2		
10.	<p>In relation to Category Two (2) – Sporting Clubs and Community Groups and Organisation - there is a tension between the length of the initial term and option (5 year initial term + 2x5 year options at City's discretion) and the likely useful life of capital upgrades.</p> <p>Capital upgrades, properly undertaken, are likely to last much longer than the length of lease term. For example, a new shed or building extension would be likely to have a design life of 40 years or more (the Forrest Park Clubrooms in the article referred to above have been in use for some 70 years). Yet the lease term is restricted to 15 years. This means that the City obtains the 'residual value' of the capital upgrades without making any contribution.</p> <p>On the other hand, the particular club is faced with making a substantial capital contribution with no guarantee that they will ever be able to use the full value of that capital upgrade over the full life of the capital asset. This creates a positive disincentive for clubs to upgrade their facilities.</p> <p>A distinction needs to be made between capital upgrades that a 'special purpose' and those which are 'general purpose' in the sense that a later occupant can derive benefit from their use. In short, the residents and ratepayers receive a benefit without making any contribution. In other words, the policy gives the City of Vincent a 'free ride' or a 'capital profit' at the expense of the</p>	Administration has encountered historical issues with long term leases, and the leasing period is not intended to prohibit clubs from continuing at their locations for longer periods with further leases, but to ensure that leases remain contemporary and relevant. Given this, Administration is not recommending that the initial term with 2 x 5 year options be standard with the term of each lease or licence may be negotiated taking into account the particular circumstances of the facility and the lessee, including capital investment and long-term planning, sustainability of the service and the connection between facility use and the City's Strategic Community Plan. These negotiations can occur during lease discussions or at option renewals.

	Comments Received	Administrations Response
	<p>lessee sporting club. This appears to be an unintended consequence of the proposal.</p> <p>Possible solutions include: CoV making a contribution proportional to the residual value that it will acquire on cessation of the lease / CoV making a capital payment at the conclusion of the lease equal to the residual value of the capital upgrades at that time.</p> <p>Although draft states that the GRV will be determined by the Valuer General, GRV needs to be carefully determined. In particular, the original Crown Grant for Forrest Park was to the city of Perth on trust for community use. The City of Vincent, as the successor to CoP, holds this land in trust. The use of the land is restricted by the terms of the original crown grant. The GRV needs to be determined in light of those restrictions, i.e. it would not be appropriate to determine the GRV based on a potential rezoning or development when this is not possible due to the restrictions of the Crown grant. Can a lessee object to a GRV determination on land vested in the CoV based on current legislation in the same way that an ordinary property owner can do so? Lessee's ought to be given this opportunity since their lease obligations (10% of GRV) hinge on that determination.</p>	<p>Noted. See above.</p> <p>All GRV valuations are conducted by Landgate and local governments are not able to play a part in this valuation process. Landgate does have an objection process. If a Club has a concern over the GRV valuation, an objection can be submitted by the City (on behalf of the Club), however, the club will need to provide detailed evidence or pertinent supporting information as at or around the date of valuation. The objection form must be submitted to Landgate within 60 days of the date of issue of the Council rates.</p>
Additional comments from Forrest Park Croquet Club meeting – 15/10/2020		
11	<p>Clarification required on electrical wiring requirements by sporting clubs and community groups;</p> <p>The removal of painting responsibility from tenants to the City;</p> <p>Fence repairs are too broadly placed on tenants with the club concerned that the City's responsibility is limited to replacement;</p> <p>Responsibility for appliances installed on premises. The club accepts responsibility for their appliances, however, believe that the City's discretion should be removed;</p> <p>The City not acknowledging that clubs have to manage events that occur unexpectedly;</p> <p>Concern around the requirement for clubs to pay building excess;</p>	<p>Administration acknowledges this and has clarified this requirement in the Property Management Framework. Further this responsibility has been transferred from the Clubs responsibility to the City's.</p> <p>The responsibility for clubs to paint internally and externally every five (5) years has been transferred to the City.</p> <p>This has been noted and Administration will review this request further with any changes being defined within the property lease.</p> <p>It should be noted that the City has no intention of removing appliances installed in facilities without just cause nor without notification and prior planning with the affected club.</p> <p>Administration acknowledges that it is difficult for clubs and groups to manage events/incidences that are unplanned and in these instances Officers would assist groups where possible.</p> <p>It is a requirement for all groups and clubs to pay excess on claims and this has been further clarified within the Property Management Framework.</p>

The management of bore repairs that should be borne by the City who hold the licence;	This has been clarified within the Property Management Framework by The inclusion of 'Maintain, Service and Repair Bore and Pump' in the Schedule of Maintenance Obligations for Category One and Category Two (2) groups. This inclusion provides that: The Lessee is responsible for annual inspection, and determining the schedule for maintenance and repair. Service, repair and maintenance costs are to be allocated between the lessor and tenant in the property lease, with the Lessors responsibilities being defined within the property lease.
Use of GRV as a charging methodology – suggestion made to average out GRV and adjust for land size;	In proposing a revised fee structure that was consistent and grouped like entities based on a factual constant, Administration considered the 10% GRV to be the most equitable methodology.
Concerns surrounding Community Benefit Matrix assessment;	Noted.
Lack of recognition for groups who have green space contained within the leased area;	This has been noted, however, groups who have green space contained within their leased area benefit from exclusive use.
The improvements that have been made to the facility by Forrest Park Croquet Club with no assistance from the City;	Noted
Recommendation that the City charge a maintenance premium (similar to a sinking fund) and spread the payments out annually.	Noted.

Category 3 Comments

	Comments Received	Administrations Response
1	<p>EPFC is an amalgam of Category 2 and 3 rather than a Category 3 tenant as:</p> <ul style="list-style-type: none"> (a) City assistance is required by EPFC; (b) EPFC provides unique community amenity as a place for community entertainment, engagement, benefit and support to local businesses; (c) it would be unfair for the City to seek profit from EPFC if it is placed in Category 3; and (d) EPFC is not a 'state club' but a community club. 	Noted.
	It would be unreasonable to damage the ability of the premises to serve the community by placing unfair financial burden on the co-located clubs at Leederville Oval.	The Framework does not propose to place unfair financial burdens on any tenant. While a market rent valuation of the premises is undertaken (and is required pursuant to the Local Government Act) an open discussion and negotiation between tenants and the City in regard to commercial lease terms is proposed by the Framework.
	The Policy and Framework are not specific regarding costs allocations and	The Framework does not propose that the City ignore the condition of the Premises when negotiating new leases with tenants. Administration notes that concerns regarding maintenance costs,

	Comments Received	Administrations Response
	maintenance policy relating to area lighting maintenance, ground (turf and irrigation) maintenance for shared areas.	obligations etc. should form part of the general commercial negotiation between Category 3 tenants and the City.
	Rental valuation should be done by a mutually agreed licenced valuer at a mutually agreed fee or the valuation provided by EPFC or by a licenced valuer but selected at EPFC's sole discretion.	Market rent valuations under the Framework are proposed to be conducted by independent commercial valuers. Administration proposes that valuers be agreed between the parties (acting reasonably) along with the fee for conducting the valuation. A valuation provided by a tenant or a valuer selected by a tenant (in its sole discretion) would not provide the City with confidence as to the expertise or independence of the proposed valuation.
	Any Gross Rental Value (GRV) should be tested and agreed third-party reviewed.	GRV is not determined by the City, it is provided by Landgate to the City. Therefore, an independent third party is providing the GRV, a second review is unnecessary and will likely cause both parties to incur additional costs.
	All lease terms should be by negotiation.	Administration notes that it is only in very rare cases (such as large retail/commercial tenants that have greater bargaining power) that all lease terms are the subject of negotiation. It is standard practice for landlords to have certain non-negotiable or standard lease terms. Only commercial lease terms (e.g. rent, rent reviews, outgoings payments, term of lease etc.) are usually the subject of negotiation – this is reflected in the Framework.
	The Policy and Framework ignores historic commitments made by City of Perth, City of Vincent and State Government under the moving provisions framed when EPFC "gave up" Perth Oval. These commitments need to be respected and taken into consideration in any new Policy.	Neither the Policy nor the Framework are designed to deal with individual tenant circumstances. Both documents are proposed as overarching principles/guides to assist in the negotiation of new leases and are not intended to overwrite a tenant's history at a premises or within the City.
Robertson Park Artists' Studio (Studio)		
2	The Studio does not fit into Category 1 or 2 and has, therefore, been put in Category 3 as a default. However, the Studio does not fit with other larger commercial businesses and associations in Category 3 either.	Noted.
	As the Studio is not a commercial organisation and it would not be willing or able to fund any capital upgrade or expansion for the premises.	Noted. The premises in question (Halvorsen Hall) is at an age and condition that would make capital expansion/upgrade unlikely. Administration notes that it is more likely the premises will eventually be demolished due to rising maintenance costs (which are currently paid by the City).
	The Studio has very little control over anti-social behaviour and damage to the exterior of the building. Graffiti and any other damage should not be the responsibility of the tenant in such an environment.	Noted. Administration notes that concerns regarding maintenance costs, obligations etc. should form part of the general commercial negotiation between Category 3 tenants and the City.
Volleyball WA, Swimming WA and Gymnastics WA		
3	The tenants are concerned about the categorisation of State sporting associations as commercial entities as: <ul style="list-style-type: none"> (a) they comprise a mixture of volunteer boards, committees and paid staff; (b) are not revenue based commercial entities; and (c) it does not take into account the community benefit derived from these clubs operating with the City. 	In addition to State sporting associations having the ability to raise more revenue via their membership fees, they usually have access to State grants/funding and commonly the premises being leased from the City is also capable of being hired out for commercial purposes (as is the case with Volleyball WA). These revenue streams mean that State sporting associations often having significantly more income than community sporting groups that are smaller and solely volunteer operated. Therefore, while State sporting associations are not necessarily on the same financial footing as some commercial entities, it would be detrimental to small community run sporting groups to have to compete on the same level as State groups for City premises.

	Comments Received	Administrations Response
		While the Framework provides that basis for commencing commercial lease negotiations Administration will negotiate with each association on a case by case basis taking into account both the financial status of the association <u>and</u> the relevant rental market conditions.
	Rental premiums have stayed consistent but variable outgoings costs (incurred or payable by the tenants) have increased significantly over the years.	Certain increase in costs can be contributed to the City not having recovered all outgoings payable to it in earlier years of the lease and adjustments (to properly reflect the lease terms) occurring in later years. However, many of the outgoings costs that are increasing are outside the City's control (e.g. water rates/usage, ESL and building insurance premiums) and these costs are simply passed on to the tenant at the same cost. Administration notes that one of the purposes of the Framework is to clarify each both tenant and City responsibilities in regard to costs associated with the premises and lease. This should assist tenants to understand exactly what costs they will be paying under the terms of their leases.
	Volleyball WA and Swimming WA premises are aged and need updating. The maintenance and repair costs for these premises increases each year.	Noted. Administration notes that concerns regarding maintenance costs, obligations etc. should form part of the general commercial negotiation between Category 3 tenants and the City.

CITY OF VINCENT

PROPERTY MANAGEMENT FRAMEWORK

BACKGROUND

A review of the management of City properties was undertaken and a revised and structured leasing and licencing framework (Framework) will be implemented to ensure that the City is meeting the demands and needs of the ever changing community. The Framework is supported by a policy which contains the overarching principles as well as an administrative procedure which details specific lease and licence details and processes. The Framework provides a classification for leases and licences, along with an equitable methodology for calculating annual lease and licence fees.

The City's forty eight (48) properties are leased or licenced to a range of community organisations, sport and recreation clubs or associations, government agencies and commercial entities.

The Framework requires that all community group tenants demonstrate the benefits to the community arising from their use of the property. The Framework also establishes the terms and conditions the City will use as the basis for negotiating all leases and licences whether community, government or commercial.

GUIDING PRINCIPLES – OBJECTIVES

The objectives of the Framework are:

- To meet growing community needs and to maximise community benefit, City owned and managed properties will be prioritised for use where occupancy arrangements include co-location, shared-use and highest community utilisation;

- To meet the Strategic Community Plan's objectives of 'Connected Community' and 'Thriving Places', City owned and managed properties will primarily be available for local not-for-profit organisations, community groups and other community purposes;
- To ensure transparency and equity, all financial and in-kind subsidisation by Council will be recognised where City owned and managed properties are used to meet demonstrated community needs;
- To ensure sustainable City owned and managed properties, effective asset management and demonstrated sound financial management will be prioritised; and
- Where appropriate, specific City owned and managed properties may be identified and made accessible for commercial activities for income generation to support and encourage sustainable City owned asset management.

TYPES OF OCCUPANCY AGREEMENTS

The main types of occupancy agreements include:

- **Lease** – proprietary right to exclusive occupation and use;
- **Licence** – contractual right to non-exclusive occupation and/or use; and
- **Management agreement** – contractual arrangement outlining the terms and conditions associated with usage, as negotiated.

Property hire (regular or occasional use of a property to deliver community based programs, events and activities) is not covered within the Framework as it is dealt with

separately under Policy No. 2.1.7 – parks Reserves and Hall Facilities – Conditions of Hire and Use.

LEASES

A lease creates a proprietary right to exclusive use and occupation of a property for an agreed period, usually in return for rent. The tenant has exclusive use and occupation of the property, although the City may require the tenant to encourage other use and subletting can occur if mutually agreeable.

LICENCES

A licence creates a contractual right to use a property for an agreed purpose for a stated period and can include seasonal licences. It does not confer a right to exclusive possession or occupation of the property. The City's approach in respect to granting a licence is to enable access to property by the broader community outside of the licensee's usage times.

MANAGEMENT AGREEMENT

A management agreement is a contractual arrangement between the City and a property user that outlines the terms and conditions associated with usage. The terms and conditions are not standard and are negotiated between the two parties.

PROPERTY MANAGEMENT RESPONSIBILITIES

ANNUAL TENANCY FEE METHODOLOGY

The City is committed to providing access to property for the benefit of the Vincent community. The City does not seek to derive profit from leases in categories one (1) or two (2).

The annual fee methodology is based on the Gross Rental Value (GRV) of the property with a subsidisation applied based on a community benefit matrix.

Organisations located in categories three (3) and four (4) are responsible for all costs associated with the property and the charging methodology is based on market valuation with the terms negotiated. Organisations within these categories will not be subject to a Management Agreement.

ANNUAL PROPERTY MANAGEMENT REPORTING

A report will be submitted to Council annually on organisations with occupancy agreements detailing:

- the occupancy agreement;
- revenue and expenditure; and
- level of subsidisation.

COMMUNITY BENEFIT MATRIX

In order to make City properties accessible and readily available, incentives are available to categories one (1) and two (2).

INCENTIVE FORMULA

The City will credit a tenant's account with the appropriate percentage reduction based on the community benefit matrix.

ELIGIBILITY & APPLICATION

In order for community groups and clubs to be assessed for the community benefit incentive, the tenant must provide the required documentation. Examples of this are annual Community Groups and Sporting Club Health Checks, Profit & Loss Statements, copies of constitutions etc.

CLASSIFICATION OF TENANT

Under this framework, all tenants or prospective tenants of City properties will fall into one of four (4) categories which describe the primary purpose of the tenant.

The categories are:

Category One	Small community groups
Category Two	Sporting clubs and community groups and organisations
Category Three	Commercial entities, State and National clubs, associations and community organisations
Category Four	Government agencies

ATTACHMENTS

Essential term templates

- a. Category One (1)
- b. Category Two (2)
- c. Category Three (3)
- d. Category Four (4)

CATEGORY ONE (1) – SMALL COMMUNITY GROUPS

Eligibility Criteria	
Community Benefit	The service is unique, specific and meets a high level of need, or the service meets identified social/community needs. This type of service would not be provided unless supported by City.
Shared Use	Given the size of the facilities and level of use by the tenant, hiring to the community outside the tenant's agreed usage is not a requirement.
Revenue	The group has limited or no capacity to generate revenue from on-site use or activities and the income of the group is generally restricted to low membership fees.
Membership	Demonstrates minimal membership regime, good governance and facilitates programs and activities that add value to the social and community fabric of the City and are specifically targeted towards local residents.
Operational	Not-for-profit organization, community group or club run solely by volunteers
Organisational Structure	The organisation is locally based, stand alone and not-for-profit. It has a voluntary management committee, comprised mainly of local area representatives
Examples	Examples of community groups within this category are playgroups, toy libraries, community gardens, men's sheds and organisations specifically targeting social isolation.

Agreement Type	Outgoings	Statutory Compliance	Pest inspection	Rubbish & recycling bins	Emergency Services Levy	Building Insurance	Public Liability Insurance	Minor maintenance & repairs	Capital upgrades	Tenancy Fee
Management Agreement	X	X	X	X	✓	X	✓	X	X	10% GRV
Licence	✓	✓	✓	✓	✓	X	✓	✓	X	10% GRV
Lease	✓	✓	✓	✓	✓	✓	✓	✓	✓	10% GRV

A Management Agreement is likely for this category.

CATEGORY TWO (2) – SPORTING CLUBS, COMMUNITY GROUPS AND ORGANISATIONS

Eligibility Criteria	
Community Benefit	The service is unique, specific and meets high a level of need, or the service meets identified social/community needs. This type of service would not be able to be provided unless supported by City.
Shared Use	Given the size of the facilities and level of use by the tenant, hiring to the community outside the tenant's usage times on a fee for service basis (based on the City's Schedule of Fees and Charges for similar properties) is a requirement.
Revenue	The tenant has the capacity to generate revenue from its use of the property (i.e. membership, bar or kitchen facilities) or activities consistent with the organisational purpose of the tenant.
Membership	Demonstrates an affordable membership regime, good governance and facilitates programs and activities that add value to the social and community fabric of the City.
Operational	Not-for-profit organisation, community group or club run by volunteers or paid workers
Organisational Structure	The organisation is a locally based service, outlet or project that is part of a larger not-for-profit organisation. There is limited or no local area representation of the group/organisation.
Examples	Small sporting clubs, community groups, youth & day centres and community centres.

Agreement Type	Outgoings	Statutory Compliance	Pest inspection	Rubbish & recycling bins	Emergency Services Levy	Building Insurance	Public Liability Insurance	Minor maintenance & repairs	Capital upgrades	Tenancy Fee
Management Agreement	✓	X	X	✓	✓	X	✓	X	X	✓
Licence	✓	✓	✓	✓	✓	X	✓	✓	✓	✓
Lease	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓

CATEGORY THREE (3) – COMMERCIAL ENTITIES, STATE AND NATIONAL CLUBS, ASSOCIATIONS AND COMMUNITY ORGANISATIONS

Eligibility Criteria	
Community Benefit	The provision of the service is generally not within the remit of local government and there may not be a direct local community benefit due to the nature of the group or organisation.
Revenue	Does not rely on Council for funding. Generates its own revenue, for example, by collecting membership fees, holding events, allowing venue hire, offering services or products for sale or is externally funded.
Organisational Structure	Includes corporations, incorporated associations, large not-for-profit organisations and private business owners.
Examples	Commercial recreation and leisure centres, for profit day care centres, state-wide or national not-for-profit organisations, medical practitioners, car parking licences, retail shops and office accommodation.

Agreement Type	Outgoings	Statutory Compliance	Pest inspection	Rubbish & recycling bins	Emergency Services Levy	Building Insurance	Public Liability Insurance	Minor maintenance & repairs	Capital upgrades	Tenancy Fee
Licence	✓	✓	✓	✓	✓	X	✓	✓	✓	Negotiated
Lease	✓	✓	✓	✓	✓	✓	✓	✓	✓	Negotiated by reference to Market Valuation

CATEGORY FOUR (4) – GOVERNMENT AGENCIES

Eligibility Criteria	
Community Benefit	The provision of the service is generally not within the remit of local government and there may not be a direct local community benefit.
Revenue	Receives significant funding from the State Government or organisations other than City.
Organisational Structure	Government department or Government agency operated.
Examples	Kindergartens, child health clinics and government sporting venues.

Agreement Type	Outgoings	Statutory Compliance	Pest inspection	Rubbish & recycling bins	Emergency Services Levy	Building Insurance	Public Liability Insurance	Minor maintenance & repairs	Capital upgrades	Tenancy Fee
Licence	✓	✓	✓	✓	✓	✓	✓	✓	✓	Negotiated
Lease	✓	✓	✓	✓	✓	✓	✓	✓	✓	Negotiated by reference to Market Valuation

GLOSSARY

PROPRIETARY RIGHT

A right to use or occupy property which allows exclusion of others from use, alienates other interests and is enforceable against all except those with a better proprietary right.

CAPITAL UPGRADE

Refers to enhancements to the existing facility to provide a higher level of service and/or enhancement which extends the original functionality or space. Capital upgrades extend the asset to cater for growth or additional service levels. Capital upgrades are at the City's sole discretion and must demonstrate an alignment with the City's Strategic Objectives.

CAPITAL RENEWAL

Relates to expenses incurred to restore the original function of the facility by replacing elements that have a life cycle shorter than planned for the entire facility. For example, replacing carpets.

CONTRACTUAL RIGHT

A right arising out of a contractual arrangement, for example the right to non-exclusive use of a property under a Licence or Management Agreement.

GROSS RENTAL VALUE

The Gross Rental Value is an annual rental value for a property determined by the Valuer General once every 3 years in the metropolitan area. This means that properties are valued on their potential rental income rather than their capital value.

EMERGENCY SERVICES LEVY (ESL)

The Emergency Services Levy (ESL) is a Department of Fire & Emergency Services compulsory levy for all buildings, which funds Western

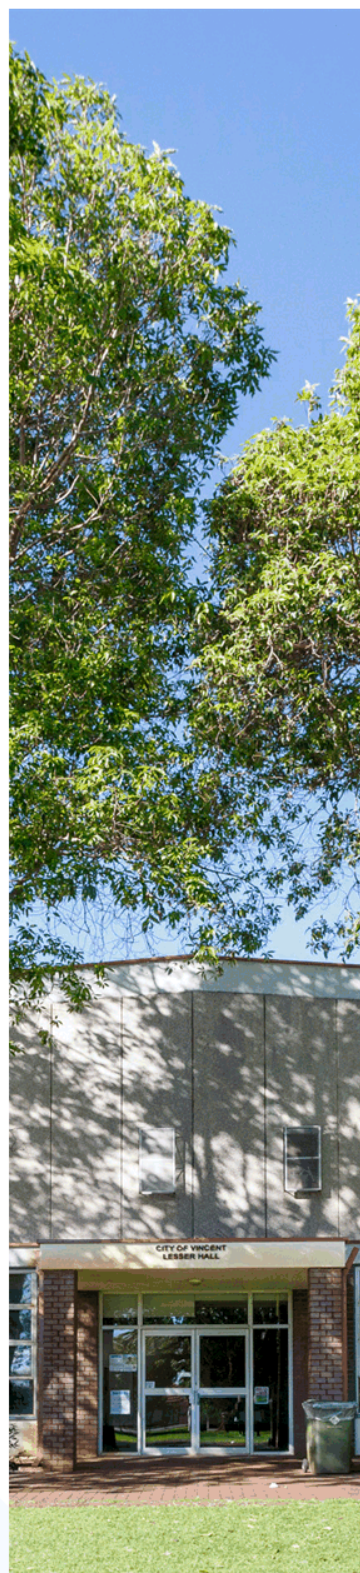

Australia's fire and emergency services, including career fire stations, volunteer fire brigades, State Emergency Service units, the Volunteer Marine Rescue Service and the multi-purpose Volunteer Emergency Service units.

OUTGOINGS

Outgoings are fees or charges associated with the usage of a property. These may include utilities such as water, electricity and gas. Outgoings are charged in addition to Rent, Licence Fees and Rates and Taxes. The City may require Outgoings to be paid by instalments, based on an annual estimated budget for the premises (Variable Outgoings). Outgoings and Variable Outgoings are subject to annual review.

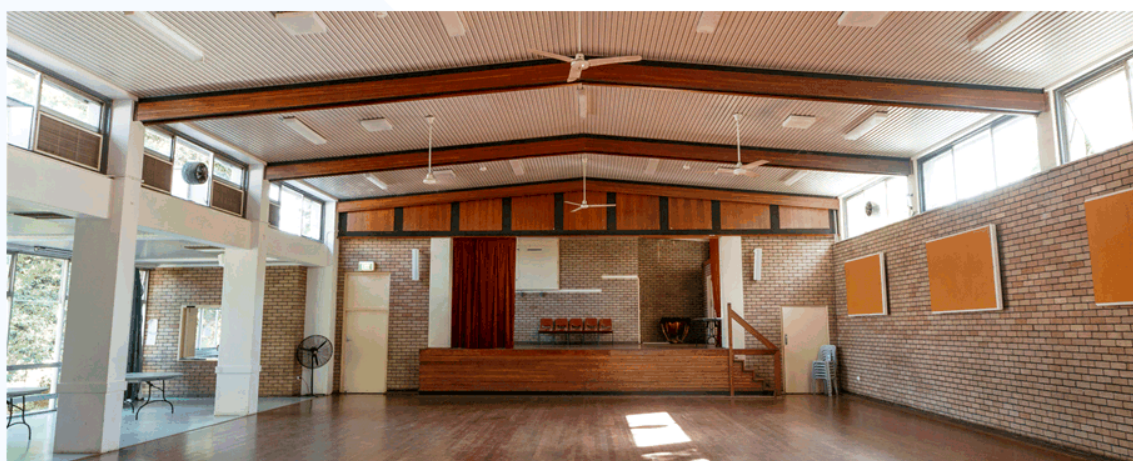

HEALTH CHECK

The Health Check is a document required by all sporting clubs and community groups leasing City of Vincent property each year. It includes information on contact details, committee members, club management, sustainability, membership and financial performance. The Health Check will be provided to tenants each year (generally sent out in the second quarter) and must be completed and returned to the City with the required supporting information within a reasonable time.

ESSENTIAL TERM TEMPLATE – CATEGORY ONE (1) – SMALL COMMUNITY GROUPS

Initial term	5 years
Option	Up to 2 x 5 years options (at the City's discretion)
Responsibilities of Tenant	<p>PAYMENTS</p> <ul style="list-style-type: none"> Emergency Services Levy (ESL); \$20 million public liability insurance; rent or licence fee; all Outgoings, rates, taxes and insurances associated with the property; pest inspections (including termite inspections) and treatment; rubbish and recycling bin charges; cost of statutory compliance (RCD, smoke alarm, emergency exit and fire hydrant testing); and building insurance. <p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> General minor maintenance of premises which includes replacement of fittings and fixtures including light globes and taps; and cleaning (internal and external including carpets annually) ; <p>INSPECTIONS</p> <ul style="list-style-type: none"> The City will inspect the premises annually (or as required) and will give the tenant appropriate notice in accordance with the lease terms. <p>CITY ACKNOWLEDGEMENT</p> <ul style="list-style-type: none"> The tenant will acknowledge the City's contribution.
Responsibilities of the City	<p>PAYMENT (FOR MANAGEMENT AGREEMENTS ONLY)</p> <ul style="list-style-type: none"> All Outgoings, rates, taxes and insurances associated with the property; pest inspections (including termite inspections) and treatment; rubbish and recycling bin charges; cost of statutory compliance (RCD, smoke alarm, emergency exit and fire hydrant testing); and building insurance. <p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> Re-painting of premises to ensure they remain in good repair; maintenance of roofing, mechanical services and the main structure (unless damage caused by tenant/ licensor); and Capital Renewal of existing assets. <p>CAPITAL UPGRADES</p> <ul style="list-style-type: none"> Capital Upgrade and capital expansion of all assets within the leased area at the City's discretion. <p>INSPECTIONS</p> <ul style="list-style-type: none"> The City will inspect the premises annually (or as required) and will give the tenant appropriate notice in accordance with the lease terms.
Licence Fee/Rent	10% GRV

ESSENTIAL TERM TEMPLATE – CATEGORY TWO (2) – SPORTING CLUBS AND COMMUNITY GROUPS AND ORGANISATIONS

Initial term	5 years
Option	Up to 2 x 5 years options (at the City's discretion)
Responsibilities of Tenant	<p>PAYMENTS</p> <ul style="list-style-type: none"> • All Outgoings, rates, taxes and insurances; • cost of statutory compliance including RCD, smoke alarm, emergency exit and fire hydrant testing (with the exception of groups on a Management Agreement); • pest inspections (including termite inspections) and treatment (with the exception of groups on a Management Agreement); • rubbish and recycling bin charges; • Emergency Services Levy (ESL); • building insurance (with the exception of groups on a Licence or Management Agreement); and • \$20 million public liability insurance. <p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> • General minor maintenance of premises which includes replacement of fittings and fixtures including light globes and taps (with the exception of groups on a Management Agreement); • re-painting of premises to ensure they remain in good repair; and • cleaning (internal and external including carpets annually); <p>CAPITAL UPGRADES</p> <ul style="list-style-type: none"> • Capital Upgrade and capital expansion of all assets within the leased or licenced area. <p>INSPECTIONS</p> <ul style="list-style-type: none"> • The City will inspect the premises annually (or as required) and will give the tenant appropriate notice in accordance with the lease terms. <p>CITY ACKNOWLEDGEMENT</p> <ul style="list-style-type: none"> • The tenant will acknowledge the City's contribution.
Responsibilities of the City	<p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> • Maintenance of roofing, mechanical services and the main structure (unless damage caused by Lessee/ Licensor); and • Capital Renewal of existing assets at the City's discretion.
Licence Fee/Rent	10% GRV

ESSENTIAL TERM TEMPLATE – CATEGORY THREE (3) – COMMERCIAL ENTITIES, STATE AND NATIONAL CLUBS, ASSOCIATIONS AND COMMUNITY ORGANISATIONS

Initial term	Up to a maximum of 10 years.
Option	Up to 2 x 5 years options (at the City's discretion)
Responsibilities of Tenant	<p>UNLESS OTHERWISE AGREED BETWEEN THE PARTIES:</p> <p>PAYMENTS</p> <ul style="list-style-type: none"> All Outgoings, rates and taxes, including rubbish and recycling bin charges; cost of statutory compliance (RCD, smoke alarm, emergency exit and fire hydrant testing); pest inspections (including termite inspections) and treatment; Emergency Services Levy (ESL); building insurance, premium and excess; and \$20 million public liability insurance. <p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> General minor maintenance of premises which includes replacement of fittings and fixtures including light globes and taps; re-painting of premises to ensure they remain in good repair; cleaning (internal and external including carpets annually); and line-marking of parking bays in car parks (if applicable). <p>CAPITAL UPGRADES</p> <ul style="list-style-type: none"> Capital Upgrade and capital expansion of all assets within the leased or licenced area; and maintenance of fit-out. <p>INSPECTIONS</p> <ul style="list-style-type: none"> The City will inspect the premises annually (or as required) and will give the tenant appropriate notice in accordance with the lease terms.
Responsibilities of the City	<p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> Maintenance of roofing, mechanical services and main structure (unless damage caused by Lessee/Licensor); <p>CAPITAL RENEWAL</p> <ul style="list-style-type: none"> Capital Renewal of existing assets at the City's discretion.
Obligations of Tenant and default provisions	<ul style="list-style-type: none"> The tenant is responsible for paying any Licence Fees/Rent and any other monies owing under the agreement within 14 days of the due date. If the tenant fails to pay an invoice within the 14 day grace period, interest at a prescribed rate (as set by the agreement) will accrue on the outstanding amount until it is paid for in full. Continued failure to pay monies due and owing under the agreement may result in the City terminating the agreement due to the tenant's default. If the tenant disputes any amount due and owing under the agreement, the tenant must notify the City accordingly. In the absence of manifest error, the tenant must pay the outstanding amount on the due date and any dispute about the amount will be resolved with the City following payment.
Licence Fee/Rent	By negotiation and based on current market valuation obtained at the tenant's cost.

ESSENTIAL TERM TEMPLATE – CATEGORY FOUR (4) – GOVERNMENT AGENCIES

Initial term	Up to a maximum of 10 years.
Option	Up to 2 x 5 years options (at the City's discretion)
Responsibilities of Tenant	<p>UNLESS OTHERWISE AGREED BETWEEN THE PARTIES:</p> <p>PAYMENTS</p> <ul style="list-style-type: none"> • All Outgoings, rates and taxes, including rubbish and recycling bin charges; • cost of statutory compliance (RCD, smoke alarm, emergency exit and fire hydrant testing) • pest inspections (including termite inspections) and treatment; • Emergency Services Levy (ESL); • building insurance; and • \$20 million public liability insurance. <p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> • General minor maintenance of premises which includes replacement of fittings and fixtures including light globes and taps; • re-painting of premises to ensure they remain in good repair; • cleaning (internal and external including carpets annually); and • line-marking of parking bays in car parks (if applicable). <p>CAPITAL UPGRADES</p> <ul style="list-style-type: none"> • Capital Upgrade and capital expansion of all assets within the leased or licenced area; and • maintenance of fit-out. <p>INSPECTIONS</p> <ul style="list-style-type: none"> • The City will inspect the premises annually (or as required) and will give the tenant appropriate notice in accordance with the lease terms. <p>CITY ACKNOWLEDGEMENT</p> <ul style="list-style-type: none"> • If less than the market rent is being paid by the tenant, the tenant will acknowledge the City's support through signage or other means as agreed by the City.
Obligations of Tenant and default provisions	<ul style="list-style-type: none"> • The tenant is responsible for paying any Licence Fees/Rent and any other monies owing under the agreement within 14 days of the due date. • If the tenant fails to pay an invoice within the 14 day grace period, interest at a prescribed rate (as set by the agreement) will accrue on the outstanding amount until it is paid for in full. • Continued failure to pay monies due and owing under the agreement may result in the City terminating the agreement due to the tenant's default. • If the tenant disputes any amount due and owing under the agreement, the tenant must notify the City accordingly. CITY OF VINCENT

PROPERTY MANAGEMENT FRAMEWORK

BACKGROUND

A review of the management of City properties was undertaken and a revised and structured leasing and licencing framework (Framework) will be implemented to ensure that the City is meeting the demands and needs of the ever changing community. The Framework is supported by a policy which contains the overarching principles as well as an administrative procedure which details specific lease and licence details and processes. The Framework provides a classification for leases and licences, along with an equitable methodology for calculating annual lease and licence fees.

The City's forty eight (48) properties are leased or licenced to a range of community organisations, sport and recreation clubs or associations, government agencies and commercial entities.

The Framework requires that all community group tenants demonstrate the benefits to the community arising from their use of the property. The Framework also establishes the terms and conditions the City will use as the basis for negotiating all leases and licences whether community, government or commercial.

GUIDING PRINCIPLES - OBJECTIVES

The objectives of the Framework are:

- To meet growing community needs and to maximise community benefit, City owned and managed properties will be prioritised for use where occupancy arrangements include co-location, shared-use and highest community utilisation;

- To meet the Strategic Community Plan's objectives of 'Connected Community' and 'Thriving Places', City owned and managed properties will primarily be available for local not-for-profit organisations, community groups and other community purposes;
- To ensure transparency and equity, all financial and in-kind subsidisation by Council will be recognised where City owned and managed properties are used to meet demonstrated community needs;
- To ensure sustainable City owned and managed properties, effective asset management and demonstrated sound financial management will be prioritised; and
- Where appropriate, specific City owned and managed properties may be identified and made accessible for commercial activities for income generation to support and encourage sustainable City owned asset management.

TYPES OF OCCUPANCY AGREEMENTS

The main types of occupancy agreements include:

- **Lease** – proprietary right to exclusive occupation and use;
- **Licence** – contractual right to non-exclusive occupation and/or use; and
- **Management agreement** – contractual arrangement outlining the terms and conditions associated with usage, as negotiated.

Property hire (regular or occasional use of a property to deliver community based programs, events and activities) is not covered within the Framework as it is dealt with

separately under Policy No. 2.1.7 – parks Reserves and Hall Facilities – Conditions of Hire and Use.

LEASES

A lease creates a proprietary right to exclusive use and occupation of a property for an agreed period, usually in return for rent. The tenant has exclusive use and occupation of the property, although the City may require the tenant to encourage other use and subletting can occur if mutually agreeable.

LICENCES

A licence creates a contractual right to use a property for an agreed purpose for a stated period and can include seasonal licences. It does not confer a right to exclusive possession or occupation of the property. The City's approach in respect to granting a licence is to enable access to property by the broader community outside of the licensee's usage times.

MANAGEMENT AGREEMENT

A management agreement is a contractual arrangement between the City and a property user that outlines the terms and conditions associated with usage. The terms and conditions are not standard and are negotiated between the two parties.

PROPERTY MANAGEMENT RESPONSIBILITIES

ANNUAL TENANCY FEE METHODOLOGY

The City is committed to providing access to property for the benefit of the Vincent community. The City does not seek to derive profit from leases in categories one (1) or two (2).

The annual fee methodology is based on the Gross Rental Value (GRV) of the property with a subsidisation applied based on a community benefit matrix.

Organisations located in categories three (3) and four (4) are responsible for all costs associated with the property and the charging methodology is based on market valuation with the terms negotiated. Organisations within these categories will not be subject to a Management Agreement.

ANNUAL PROPERTY MANAGEMENT REPORTING

A report will be submitted to Council annually on organisations with occupancy agreements detailing:

- the occupancy agreement;
- revenue and expenditure; and
- level of subsidisation.

COMMUNITY BENEFIT MATRIX

In order to make City properties accessible and readily available, incentives are available to categories one (1) and two (2).

INCENTIVE FORMULA

The City will credit a tenant's account with the appropriate percentage reduction based on the community benefit matrix.

ELIGIBILITY & APPLICATION

In order for community groups and clubs to be assessed for the community benefit incentive, the tenant must provide the required documentation. Examples of this are annual Community Groups and Sporting Club Health Checks, Profit & Loss Statements, copies of constitutions etc.

CLASSIFICATION OF TENANT

Under this framework, all tenants or prospective tenants of City properties will fall into one of four (4) categories which describe the primary purpose of the tenant.

The categories are:

Category One	Small community groups
Category Two	Sporting clubs and community groups and organisations
Category Three	Commercial entities, State and National clubs, associations and community organisations
Category Four	Government agencies

ATTACHMENTS

Essential term templates

- a. Category One (1)
- b. Category Two (2)
- c. Category Three (3)
- d. Category Four (4)

CATEGORY ONE (1) – SMALL COMMUNITY GROUPS

Eligibility Criteria	
Community Benefit	The service is unique, specific and meets a high level of need, or the service meets identified social/community needs. This type of service would not be provided unless supported by City.
Shared Use	Given the size of the facilities and level of use by the tenant, hiring to the community outside the tenant's agreed usage is not a requirement.
Revenue	The group has limited or no capacity to generate revenue from on-site use or activities and the income of the group is generally restricted to low membership fees.
Membership	Demonstrates minimal membership regime, good governance and facilitates programs and activities that add value to the social and community fabric of the City and are specifically targeted towards local residents.
Operational	Not-for-profit organization, community group or club run solely by volunteers
Organisational Structure	The organisation is locally based, stand alone and not-for-profit. It has a voluntary management committee, comprised mainly of local area representatives
Examples	Examples of community groups within this category are playgroups, toy libraries, community gardens, men's sheds and organisations specifically targeting social isolation.

Agreement Type	Outgoings	Statutory Compliance	Pest inspection	Rubbish & recycling bins	Emergency Services Levy	Building Insurance	Public Liability Insurance	Minor maintenance & repairs	Capital upgrades	Tenancy Fee
Management Agreement	X	X	X	X	✓	X	✓	X	X	10% GRV
Licence	✓	✓	✓	✓	✓	X	✓	✓	X	10% GRV
Lease	✓	✓	✓	✓	✓	✓	✓	✓	✓	10% GRV

A Management Agreement is likely for this category.

CATEGORY TWO (2) – SPORTING CLUBS, COMMUNITY GROUPS AND ORGANISATIONS

Eligibility Criteria	
Community Benefit	The service is unique, specific and meets high a level of need, or the service meets identified social/community needs. This type of service would not be able to be provided unless supported by City.
Shared Use	Given the size of the facilities and level of use by the tenant, hiring to the community outside the tenant's usage times on a fee for service basis (based on the City's Schedule of Fees and Charges for similar properties) is a requirement.
Revenue	The tenant has the capacity to generate revenue from its use of the property (i.e. membership, bar or kitchen facilities) or activities consistent with the organisational purpose of the tenant.
Membership	Demonstrates an affordable membership regime, good governance and facilitates programs and activities that add value to the social and community fabric of the City.
Operational	Not-for-profit organisation, community group or club run by volunteers or paid workers
Organisational Structure	The organisation is a locally based service, outlet or project that is part of a larger not-for-profit organisation. There is limited or no local area representation of the group/organisation.
Examples	Small sporting clubs, community groups, youth & day centres and community centres.

Agreement Type	Outgoings	Statutory Compliance	Pest inspection	Rubbish & recycling bins	Emergency Services Levy	Building Insurance	Public Liability Insurance	Minor maintenance & repairs	Capital upgrades	Tenancy Fee
Management Agreement	✓	X	X	✓	✓	X	✓	X	X	✓
Licence	✓	✓	✓	✓	✓	X	✓	✓	✓	✓
Lease	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓

CATEGORY THREE (3) – COMMERCIAL ENTITIES, STATE AND NATIONAL CLUBS, ASSOCIATIONS AND COMMUNITY ORGANISATIONS

Eligibility Criteria	
Community Benefit	The provision of the service is generally not within the remit of local government and there may not be a direct local community benefit due to the nature of the group or organisation.
Revenue	Does not rely on Council for funding. Generates its own revenue, for example, by collecting membership fees, holding events, allowing venue hire, offering services or products for sale or is externally funded.
Organisational Structure	Includes corporations, incorporated associations, large not-for-profit organisations and private business owners.
Examples	Commercial recreation and leisure centres, for profit day care centres, state-wide or national not-for-profit organisations, medical practitioners, car parking licences, retail shops and office accommodation.

Agreement Type	Outgoings	Statutory Compliance	Pest inspection	Rubbish & recycling bins	Emergency Services Levy	Building Insurance	Public Liability Insurance	Minor maintenance & repairs	Capital upgrades	Tenancy Fee
Licence	✓	✓	✓	✓	✓	X	✓	✓	✓	Negotiated
Lease	✓	✓	✓	✓	✓	✓	✓	✓	✓	Negotiated by reference to Market Valuation

CATEGORY FOUR (4) – GOVERNMENT AGENCIES

Eligibility Criteria	
Community Benefit	The provision of the service is generally not within the remit of local government and there may not be a direct local community benefit.
Revenue	Receives significant funding from the State Government or organisations other than City.
Organisational Structure	Government department or Government agency operated.
Examples	Kindergartens, child health clinics and government sporting venues.

Agreement Type	Outgoings	Statutory Compliance	Pest inspection	Rubbish & recycling bins	Emergency Services Levy	Building Insurance	Public Liability Insurance	Minor maintenance & repairs	Capital upgrades	Tenancy Fee
Licence	✓	✓	✓	✓	✓	✓	✓	✓	✓	Negotiated
Lease	✓	✓	✓	✓	✓	✓	✓	✓	✓	Negotiated by reference to Market Valuation

GLOSSARY

PROPRIETARY RIGHT

A right to use or occupy property which allows exclusion of others from use, alienates other interests and is enforceable against all except those with a better proprietary right.

CAPITAL UPGRADE

Refers to enhancements to the existing facility to provide a higher level of service and/or enhancement which extends the original functionality or space. Capital upgrades extend the asset to cater for growth or additional service levels. Capital upgrades are at the City's sole discretion and must demonstrate an alignment with the City's Strategic Objectives.

CAPITAL RENEWAL

Relates to expenses incurred to restore the original function of the facility by replacing elements that have a life cycle shorter than planned for the entire facility. For example, replacing carpets.

CONTRACTUAL RIGHT

A right arising out of a contractual arrangement, for example the right to non-exclusive use of a property under a Licence or Management Agreement.

GROSS RENTAL VALUE

The Gross Rental Value is an annual rental value for a property determined by the Valuer General once every 3 years in the metropolitan area. This means that properties are valued on their potential rental income rather than their capital value.

EMERGENCY SERVICES LEVY (ESL)

The Emergency Services Levy (ESL) is a Department of Fire & Emergency Services compulsory levy for all buildings, which funds Western

Australia's fire and emergency services, including career fire stations, volunteer fire brigades, State Emergency Service units, the Volunteer Marine Rescue Service and the multi-purpose Volunteer Emergency Service units.

OUTGOINGS

Outgoings are fees or charges associated with the usage of a property. These may include utilities such as water, electricity and gas. Outgoings are charged in addition to Rent, Licence Fees and Rates and Taxes. The City may require Outgoings to be paid by instalments, based on an annual estimated budget for the premises (Variable Outgoings). Outgoings and Variable Outgoings are subject to annual review.

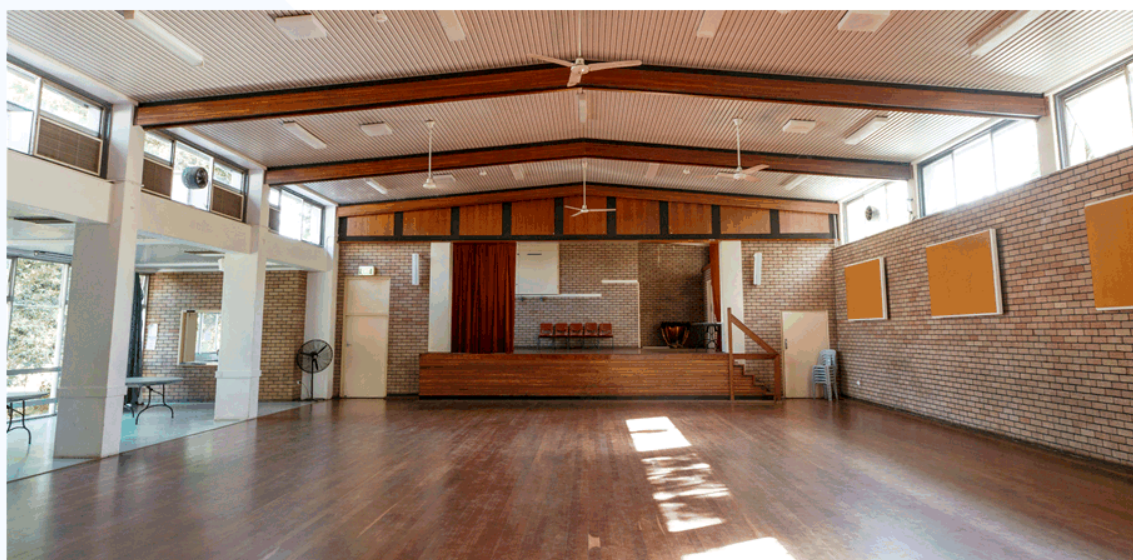

HEALTH CHECK

The Health Check is a document required by all sporting clubs and community groups leasing City of Vincent property each year. It includes information on contact details, committee members, club management, sustainability, membership and financial performance. The Health Check will be provided to tenants each year (generally sent out in the second quarter) and must be completed and returned to the City with the required supporting information within a reasonable time.

ESSENTIAL TERM TEMPLATE – CATEGORY ONE (1) – SMALL COMMUNITY GROUPS

Initial term	5 years
Option	Up to 2 x 5 years options (at the City's discretion)
Responsibilities of Tenant	<p>PAYMENTS</p> <ul style="list-style-type: none"> Emergency Services Levy (ESL); \$20 million public liability insurance; and rent or licence fee. <p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> General minor maintenance of premises which includes replacement of fittings and fixtures including light globes and taps; and cleaning (internal and external including carpets annually) ; <p>INSPECTIONS</p> <ul style="list-style-type: none"> The City will inspect the premises annually (or as required) and will give the tenant appropriate notice in accordance with the lease terms. <p>CITY ACKNOWLEDGEMENT</p> <ul style="list-style-type: none"> The tenant will acknowledge the City's contribution.
Responsibilities of the City	<p>PAYMENT (FOR MANAGEMENT AGREEMENTS ONLY)</p> <ul style="list-style-type: none"> All Outgoings, rates, taxes and insurances associated with the property; pest inspections(including termite inspections) and treatment; rubbish and recycling bin charges; cost of statutory compliance (RCD, smoke alarm, emergency exit and fire hydrant testing); and building insurance. <p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> Re-painting of premises to ensure they remain in good repair; maintenance of roofing, mechanical services and the main structure (unless damage caused by tenant/ licensor); and Capital Renewal of existing assets. <p>CAPITAL UPGRADES</p> <ul style="list-style-type: none"> Capital Upgrade and capital expansion of all assets within the leased area at the City's discretion. <p>INSPECTIONS</p> <ul style="list-style-type: none"> The City will inspect the premises annually (or as required) and will give the tenant appropriate notice in accordance with the lease terms.
Licence Fee/Rent	10% GRV

ESSENTIAL TERM TEMPLATE – CATEGORY TWO (2) – SPORTING CLUBS AND COMMUNITY GROUPS AND ORGANISATIONS

Initial term	5 years
Option	Up to 2 x 5 years options (at the City's discretion)
Responsibilities of Tenant	<p>PAYMENTS</p> <ul style="list-style-type: none"> • All Outgoings, rates, taxes and insurances; • cost of statutory compliance including RCD, smoke alarm, emergency exit and fire hydrant testing (with the exception of groups on a Management Agreement); • pest inspections (including termite inspections) and treatment (with the exception of groups on a Management Agreement); • rubbish and recycling bin charges; • Emergency Services Levy (ESL); • building insurance (with the exception of groups on a Licence or Management Agreement); and • \$20 million public liability insurance. <p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> • General minor maintenance of premises which includes replacement of fittings and fixtures including light globes and taps (with the exception of groups on a Management Agreement); • re-painting of premises to ensure they remain in good repair; and • cleaning (internal and external including carpets annually); <p>CAPITAL UPGRADES</p> <ul style="list-style-type: none"> • Capital Upgrade and capital expansion of all assets within the leased or licenced area. <p>INSPECTIONS</p> <ul style="list-style-type: none"> • The City will inspect the premises annually (or as required) and will give the tenant appropriate notice in accordance with the lease terms. <p>CITY ACKNOWLEDGEMENT</p> <ul style="list-style-type: none"> • The tenant will acknowledge the City's contribution.
Responsibilities of the City	<p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> • Maintenance of roofing, mechanical services and the main structure (unless damage caused by Lessee/ Licensor); and • Capital Renewal of existing assets at the City's discretion.
Licence Fee/Rent	10% GRV

ESSENTIAL TERM TEMPLATE – CATEGORY THREE (3) – COMMERCIAL ENTITIES, STATE AND NATIONAL CLUBS, ASSOCIATIONS AND COMMUNITY ORGANISATIONS

Initial term	Up to a maximum of 10 years.
Option	Up to 2 x 5 years options (at the City's discretion)
Responsibilities of Tenant	<p>UNLESS OTHERWISE AGREED BETWEEN THE PARTIES:</p> <p>PAYMENTS</p> <ul style="list-style-type: none"> All Outgoings, rates and taxes, including rubbish and recycling bin charges; cost of statutory compliance (RCD, smoke alarm, emergency exit and fire hydrant testing); pest inspections (including termite inspections) and treatment; Emergency Services Levy (ESL); building insurance, premium and excess; and \$20 million public liability insurance. <p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> General minor maintenance of premises which includes replacement of fittings and fixtures including light globes and taps; re-painting of premises to ensure they remain in good repair; cleaning (internal and external including carpets annually); and line-marking of parking bays in car parks (if applicable). <p>CAPITAL UPGRADES</p> <ul style="list-style-type: none"> Capital Upgrade and capital expansion of all assets within the leased or licenced area; and maintenance of fit-out. <p>INSPECTIONS</p> <ul style="list-style-type: none"> The City will inspect the premises annually (or as required) and will give the tenant appropriate notice in accordance with the lease terms.
Responsibilities of the City	<p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> Maintenance of roofing, mechanical services and main structure (unless damage caused by Lessee/Licensor); <p>CAPITAL RENEWAL</p> <ul style="list-style-type: none"> Capital Renewal of existing assets at the City's discretion.
Obligations of Tenant and default provisions	<ul style="list-style-type: none"> The tenant is responsible for paying any Licence Fees/Rent and any other monies owing under the agreement within 14 days of the due date. If the tenant fails to pay an invoice within the 14 day grace period, interest at a prescribed rate (as set by the agreement) will accrue on the outstanding amount until it is paid for in full. Continued failure to pay monies due and owing under the agreement may result in the City terminating the agreement due to the tenant's default. If the tenant disputes any amount due and owing under the agreement, the tenant must notify the City accordingly. In the absence of manifest error, the tenant must pay the outstanding amount on the due date and any dispute about the amount will be resolved with the City following payment.
Licence Fee/Rent	By negotiation and based on current market valuation obtained at the tenant's cost.

ESSENTIAL TERM TEMPLATE – CATEGORY FOUR (4) – GOVERNMENT AGENCIES

Initial term	Up to a maximum of 10 years.
Option	Up to 2 x 5 years options (at the City's discretion)
Responsibilities of Tenant	<p>UNLESS OTHERWISE AGREED BETWEEN THE PARTIES:</p> <p>PAYMENTS</p> <ul style="list-style-type: none"> • All Outgoings, rates and taxes, including rubbish and recycling bin charges; • cost of statutory compliance (RCD, smoke alarm, emergency exit and fire hydrant testing) • pest inspections (including termite inspections) and treatment; • Emergency Services Levy (ESL); • building insurance; and • \$20 million public liability insurance. <p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> • General minor maintenance of premises which includes replacement of fittings and fixtures including light globes and taps; • re-painting of premises to ensure they remain in good repair; • cleaning (internal and external including carpets annually); and • line-marking of parking bays in car parks (if applicable). <p>CAPITAL UPGRADES</p> <ul style="list-style-type: none"> • Capital Upgrade and capital expansion of all assets within the leased or licenced area; and • maintenance of fit-out. <p>INSPECTIONS</p> <ul style="list-style-type: none"> • The City will inspect the premises annually (or as required) and will give the tenant appropriate notice in accordance with the lease terms. <p>CITY ACKNOWLEDGEMENT</p> <ul style="list-style-type: none"> • If less than the market rent is being paid by the tenant, the tenant will acknowledge the City's support through signage or other means as agreed by the City.
Obligations of Tenant and default provisions	<ul style="list-style-type: none"> • The tenant is responsible for paying any Licence Fees/Rent and any other monies owing under the agreement within 14 days of the due date. • If the tenant fails to pay an invoice within the 14 day grace period, interest at a prescribed rate (as set by the agreement) will accrue on the outstanding amount until it is paid for in full. • Continued failure to pay monies due and owing under the agreement may result in the City terminating the agreement due to the tenant's default. • If the tenant disputes any amount due and owing under the agreement, the tenant must notify the City accordingly. CITY OF VINCENT

PROPERTY MANAGEMENT FRAMEWORK

BACKGROUND

After a review of the management of City properties, a revised and structured leasing and licensing framework (Framework) has been developed to ensure the City is meeting the demands and needs of the community. The Framework is supported by a policy containing the overarching principles, as well as an administrative procedure with specific lease and licence details and processes. The Framework provides a classification for leases and licences, along with an equitable methodology for calculating annual lease and licence fees.

The City's 48 properties are leased or licenced to a range of community organisations, sport and recreation clubs or associations, government agencies and commercial entities.

The Framework provides community groups and sporting clubs in categories one and two with a Community Benefit Subsidy if they demonstrate their use of the property benefits the community.

The Framework also establishes general terms and conditions that the City will use as the basis for negotiating all leases and licences, along with a detailed Maintenance Responsibility Guide (Appendix 2).

GUIDING PRINCIPLES – OBJECTIVES

The objectives of the Framework are:

- To meet growing community needs and to maximise community benefit, City owned and managed properties will be prioritised for use where occupancy arrangements include co-location, shared-use and highest community utilisation;

- To meet the Strategic Community Plan's objectives of 'Connected Community' and 'Thriving Places', City owned and managed properties will primarily be available for local not-for-profit organisations, community groups and other community purposes;
- To ensure transparency and equity, all financial and in-kind subsidisation by Council will be recognised where City owned and managed properties are used to meet demonstrated community needs;
- To ensure sustainable City owned and managed properties, effective asset management and demonstrated sound financial management will be prioritised; and
- Where appropriate, specific City owned and managed properties may be identified and made accessible for commercial activities for income generation to support and encourage sustainable City owned asset management.

TYPES OF OCCUPANCY AGREEMENTS

The main types of occupancy agreements include:

- **Lease** – exclusive occupation and use;
- **Licence** – contractual right to non-exclusive occupation and/or use; and
- **Management agreement** – contractual arrangement outlining the terms and conditions associated with usage, as negotiated.

Property hire (regular or occasional use of a property to deliver community-based programs, events and activities) on an hourly or daily rate, is not covered within the Framework as it

is dealt with separately under Policy No. 2.1.7 – Parks Reserves and Hall Facilities – Conditions of Hire and Use.

LEASES

A lease is a right granted by the owner of land for an occupant to have the exclusive use of that land for a specified period of time in exchange for an agreed rental payment.

In the sporting context, lease agreements are usually used where the site is either fully occupied for a specific purpose, for example bowling greens, tennis courts and synthetic hockey pitches; or where a club has made substantial contributions to the development of the site.

If a tenant has exclusive occupancy over the land or facility, it follows that the maintenance and management expectations placed on the tenant will usually be greater than they are under licence or hire agreements that are not exclusive.

LICENCES

Under the terms and conditions of a licence contract, the tenant is granted permission to access property for a specified purpose(s), such as conduct of a sporting activity at specified times and under specified conditions.

Licenses are usually used in cases where the facility or premises is shared by a number of groups, rather than lease agreements.

A license agreement does not provide for exclusive use of a facility beyond the specified times of access, so no 'interest' in the land is created. It is reasonable to expect the rights and obligations of the lessee in respect to maintenance and management of the facility would be less stringent under a license agreement than a lease agreement.

MANAGEMENT AGREEMENT

A management agreement is a contractual arrangement between the City and a tenant that outlines the terms and conditions associated with usage. The terms and conditions are not standard and are negotiated between the two parties.

PROPERTY MANAGEMENT RESPONSIBILITIES

ANNUAL TENANCY FEE METHODOLOGY

The City is committed to providing access to property for the benefit of the Vincent community. The City does not seek to derive profit from leases in categories 1 or 2.

The annual fee methodology is based on the Gross Rental Value (GRV) of the property with a subsidy applied based on a community benefit matrix.

Organisations that fall into categories three and four are responsible for all costs associated with the property. Rent for category three and four tenants is negotiated by reference to the total GRV for a property. Tenants within these categories will not be subject to a Management Agreement.

ANNUAL PROPERTY MANAGEMENT REPORTING

A report will be submitted to Council annually for all organisations with occupancy agreements.

This will cover:

- the occupancy agreement;
- revenue and expenditure; and
- level of subsidisation.

COMMUNITY BENEFIT MATRIX

To make City properties accessible and readily available, subsidies are available to organisations within categories 1 and 2.

SUBSIDY FORMULA

The City will credit a tenant's account with the appropriate percentage reduction based on the community benefit matrix.

ELIGIBILITY & APPLICATION

In order for community groups and clubs to be assessed for the community benefit subsidy, the tenant must provide the required documentation. Examples of this are annual Community Groups and Sporting Club Health Checks, profit and loss statements and copies of constitutions.

CLASSIFICATION OF TENANT

Under this framework, all tenants or prospective tenants of City properties will fall into one of four categories. These categories describe the primary purpose of the tenant.

The categories are:

Category One	Small community groups
Category Two	Sporting clubs, community groups and organisations
Category Three	Commercial entities, state and national clubs, associations and community organisations
Category Four	Government agencies

|---------------------|-----------------------|
| a. Category One (1) | c. Category Three (3) |
| b. Category Two (2) | d. Category Four (4) |

CATEGORY ONE (1) – SMALL COMMUNITY GROUPS

Eligibility Criteria	
Community Benefit	The service is unique, specific and meets a high level of need, or the service meets identified social/community needs. This type of service would not be provided unless supported by the City of Vincent lease.
Shared Use	Given the size of the facility and level of use by the tenant, hiring to the community outside the tenant's agreed usage is not a requirement.
Revenue	The group has limited or no capacity to generate revenue from on-site use or activities and the income of the group is generally restricted to low membership fees.
Membership	Demonstrates minimal membership regime and good governance and facilitates programs and activities that are specifically targeted at local residents and add value to the social and community fabric of Vincent.
Operational	Not-for-profit organisation, community group or club run solely by volunteers.
Organisational Structure	The organisation is locally based, stand alone and not-for-profit. It has a voluntary management committee, comprised mainly of local area representatives
Examples of community groups within this category include playgroups, toy libraries, community gardens, men's sheds and organisations targeting social isolation.	

Agreement Type	Outgoings	Statutory Compliance	Pest Inspection	Rubbish & Recycling Bins	Emergency Services Levy	Building Insurance	Public Liability Insurance	Minor Maintenance & Repairs	Capital Upgrades	Building Insurance Excess	Tenancy Fee
Management Agreement	X	X	X	X	✓	X	✓	X	X	✓	10% GRV
Licence	✓	✓	✓	✓	✓	X	✓	✓	X	✓	10% GRV
Lease	✓	✓	✓	✓	✓	✓	✓	✓	X	✓	10% GRV

A Management Agreement is likely for this category.

CATEGORY TWO (2) – SPORTING CLUBS, COMMUNITY GROUPS AND ORGANISATIONS

Eligibility Criteria	
Community Benefit	The service is unique, specific and meets a high level of need, or the service meets identified social/community needs. This type of service would not be provided unless supported by the City of Vincent lease.
Shared Use	Given the size of the facility and level of use by the tenant, hiring to the community outside the tenant's usage times on a fee for service basis (based on the City's Schedule of Fees and Charges for similar properties) may be a requirement.
Revenue	The tenant has the capacity to generate revenue from its use of the property (i.e. membership, bar or kitchen facilities) or activities consistent with the organisational purpose of the tenant.
Membership	Demonstrates an affordable membership regime and good governance and facilitates programs and activities that add value to the social and community fabric of the City.
Operational	Not-for-profit organisation, community group or club run by volunteers or paid workers.
Organisational Structure	The organisation is a locally-based service, outlet or project that may be part of a larger not-for-profit organisation.
Small sporting clubs, community groups, youth and day centres and community centres.	

Agreement Type	Outgoings	Statutory Compliance	Pest Inspection	Rubbish & Recycling Bins	Emergency Services Levy	Building Insurance	Public Liability Insurance	Minor Maintenance & Repairs	Capital Upgrades	Building Insurance Excess	Tenancy Fee

CATEGORY THREE (3) – COMMERCIAL ENTITIES, STATE AND NATIONAL CLUBS, ASSOCIATIONS AND COMMUNITY ORGANISATIONS

Eligibility Criteria	
Community Benefit	The provision of the service is generally not within the remit of local government and there may not be a direct local community benefit due to the nature of the group or organisation.
Revenue	Is externally funded or generates its own revenue through membership fees, events, venue hire, the sale of services or products or other means.
Organisational Structure	Includes corporations, incorporated associations, large not-for-profit organisations and private business owners.
	Commercial recreation and leisure centres, for-profit day care centres, state-wide or national not-for-profit organisations, medical practitioners, car parking licences, retail shops and office accommodation.

Agreement Type	Outgoings	Statutory Compliance	Pest Inspection	Rubbish & Recycling Bins	Emergency Services Levy	Building Insurance	Public Liability Insurance	Minor Maintenance & Repairs	Capital Upgrades	Tenancy Fee
Licence	✓	✓	✓	✓	✓	X	✓	✓	✓	Negotiated
Lease	✓	✓	✓	✓	✓	✓	✓	✓	✓	Negotiated by reference to GRV.

CATEGORY FOUR (4) – GOVERNMENT AGENCIES

Eligibility Criteria	
Community Benefit	The provision of the service is generally not within the remit of local government and there may not be a direct local community benefit.
Revenue	Receives significant funding from the State Government or organisations other than City.
Organisational Structure	Government department or government agency operated.
	Kindergartens, child health clinics and government sporting venues.

Agreement Type	Outgoings	Statutory Compliance	Pest Inspection	Rubbish & Recycling Bins	Emergency Services Levy	Building Insurance	Public Liability Insurance	Minor Maintenance & Repairs	Capital Upgrades	Tenancy Fee
Licence	✓	✓	✓	✓	✓	✓	✓	✓	✓	Negotiated
Lease	✓	✓	✓	✓	✓	✓	✓	✓	✓	Negotiated by reference to GRV.

GLOSSARY

PROPRIETARY RIGHT

A right to use or occupy property which allows exclusion of others from use, alienates other interests and is enforceable against all except those with a better proprietary right.

CAPITAL UPGRADE

Refers to enhancements to the existing facility to provide a higher level of service and/or enhancement which extends the original functionality or space. Capital upgrades extend the asset to cater for growth or additional service levels. Capital upgrades are at the City's sole discretion and must demonstrate an alignment with the City's Strategic Objectives.

The tenant may apply to Council for financial assistance to upgrade a leased/licenced facility with requests being considered as part of the budget process in the year in which the requests are received. The City will also work to assist groups when applying for funding.

CAPITAL RENEWAL

Relates to expenses incurred to restore the original function of the facility by replacing elements that have a life cycle shorter than planned for the entire facility. For example, replacing carpets.

The City is responsible for capital renewal and repairs, which relate to major structural elements of the building such as the roof or load bearing walls. The City is also responsible for expenses incurred to restore the original function of the facility by replacing elements that have a life cycle shorter than planned for the entire facility.

CONTRACTUAL RIGHT

A right arising out of a contractual arrangement, for example the right to non-exclusive use of a property under a Licence or Management Agreement.

GROSS RENTAL VALUE

The Gross Rental Value is an annual rental value for a property determined by the Valuer General once every three years in the metropolitan area. This means properties are valued on their potential rental income rather than their capital value.

EMERGENCY SERVICES LEVY (ESL)

The Emergency Services Levy (ESL) is a Department of Fire and Emergency Services compulsory levy for all buildings, which funds Western Australia's fire and emergency services, including career fire stations, volunteer fire brigades, State Emergency Service units, the Volunteer Marine Rescue Service and the multi-purpose Volunteer Emergency Service units.

OUTGOINGS

Outgoings are fees or charges associated with the use of a property. These may include utilities such as water, electricity and gas. Outgoings are charged in addition to rent, licence fees and rates and taxes. The City may require outgoings to be paid by instalments, based on an annual estimated budget for the premises (variable outgoings). Outgoings and variable outgoings are subject to annual review.

HEALTH CHECK

The Health Check is a document required to be completed by all sporting club and community group tenants leasing property. It includes contact details and information on

committee members, membership and financial performance. The Health Check will be provided to tenants on request (generally sent out in the second quarter) and must be completed and returned to the City with the required supporting information within a reasonable timeframe.

MAINTENANCE RESPONSIBILITIES

Facility maintenance includes minor day-to-day maintenance that can be performed by a non-tradesperson and more significant programmed and non-programmed asset renewal maintenance requiring the services of a qualified tradesperson or experienced maintenance person.

All maintenance obligations and maintenance standards will be clearly articulated in specific schedules to lease and licence documents and are highlighted in Appendix 2 at the end of the Framework.

Each tenant is required to maintain the facility in accordance with the maintenance schedule attached to their lease or licence using the services of registered and qualified tradespeople.

The maintenance schedule outlines the responsibilities of the City and the tenant.

ESSENTIAL TERM TEMPLATE – CATEGORY ONE (1) – SMALL COMMUNITY GROUPS

Initial Term	5 years
Option	Up to 2 x 5 years options (at the City's discretion)
Responsibilities of Tenant	<p>PAYMENTS</p> <ul style="list-style-type: none"> Emergency Services Levy (ESL); excess on building insurance claims \$20 million public liability insurance; and rent or licence fee. <p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> Will maintain property in good repair, as detailed in the property condition report; no property modifications or installations without City approval; general minor maintenance of premises which includes replacement of fittings and fixtures including light globes and taps; and cleaning (internal and external including annual carpet cleaning); <p>INSPECTIONS</p> <ul style="list-style-type: none"> The City will inspect the premises annually (or as required) and will give the tenant appropriate notice in accordance with the lease terms. <p>CITY ACKNOWLEDGEMENT</p> <ul style="list-style-type: none"> The tenant will acknowledge the City's contribution.
Responsibilities of the City	<p>PAYMENT (FOR MANAGEMENT AGREEMENTS ONLY)</p> <ul style="list-style-type: none"> All outgoings, rates, taxes and insurances associated with the property; pest inspections (including termite inspections) and treatment; rubbish and recycling bin charges; cost of statutory compliance (RCD, smoke alarm, emergency exit and fire hydrant testing); and building insurance. <p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> Re-painting of premises to ensure it remains in good condition; maintenance of roofing, mechanical services and the main structure (unless damage caused by tenant); and capital renewal of existing assets. <p>CAPITAL UPGRADES</p> <ul style="list-style-type: none"> Capital upgrade and capital expansion of all assets within the leased area at the City's discretion. <p>INSPECTIONS</p> <ul style="list-style-type: none"> The City will inspect the premises annually (or as required) and will give the tenant appropriate notice in accordance with the lease terms.
Tenancy Fee	10% GRV

ESSENTIAL TERM TEMPLATE – CATEGORY TWO (2) – SPORTING CLUBS AND COMMUNITY GROUPS AND ORGANISATIONS

Initial Term	5 years
Option	Up to 2 x 5 years options (at the City's discretion)
Responsibilities of Tenant	<p>PAYMENTS</p> <ul style="list-style-type: none"> • All outgoings, rates, taxes and insurances; • cost of maintaining statutory compliance including RCD, smoke alarm, emergency exit and fire hydrant testing (with the exception of groups on a Management Agreement); • pest inspections (including termite inspections) and treatment (with the exception of groups on a Management Agreement); • rubbish and recycling bin charges; • Emergency Services Levy (ESL); • excess on building insurance claims • building insurance (with the exception of groups on a Licence or Management Agreement); and • \$20 million public liability insurance. <p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> • Will maintain property in good repair, as detailed in the property condition report; • no property modifications or installations without City approval; • general minor maintenance of premises which includes replacement of fittings and fixtures including light globes and taps (with the exception of groups on a Management Agreement); • minor remedial painting to repair general wear and tear; and • cleaning (internal and external including annual carpet cleaning); <p>INSPECTIONS</p> <ul style="list-style-type: none"> • The City will inspect the premises annually (or as required) and will give the tenant appropriate notice in accordance with the lease terms. <p>CITY ACKNOWLEDGEMENT</p> <ul style="list-style-type: none"> • The tenant will acknowledge the City's contribution.
Responsibilities of the City	<p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> • Maintenance of roofing, mechanical services and the main structure (unless damage caused by Lessee/Licensor); • re-painting of internal and external premises; and • Capital Renewal of existing assets at the City's discretion. <p>CAPITAL UPGRADES</p> <ul style="list-style-type: none"> • Capital upgrade and capital expansion of all assets within the leased or licenced area.
Tenancy Fee	10% GRV

ESSENTIAL TERM TEMPLATE – CATEGORY THREE (3) – COMMERCIAL ENTITIES, STATE AND NATIONAL CLUBS, ASSOCIATIONS AND COMMUNITY ORGANISATIONS

Initial Term	Maximum of 10 years.
Option	Up to 2 x 5 years options (at the City's discretion)
Responsibilities of Tenant	<p>UNLESS OTHERWISE AGREED BETWEEN THE PARTIES:</p> <p>PAYMENTS</p> <ul style="list-style-type: none"> All outgoings, rates and taxes, including rubbish and recycling bin charges; cost of statutory compliance (RCD, smoke alarm, emergency exit and fire hydrant testing); pest inspections (including termite inspections) and treatment; Emergency Services Levy (ESL); building insurance, premium and excess; and \$20 million public liability insurance. <p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> General minor maintenance of premises which includes replacement of fittings and fixtures including light globes and taps; re-painting of premises to ensure it remains in good condition; cleaning (internal and external including annual carpet cleaning); and line-marking of parking bays in car parks (if applicable). <p>CAPITAL UPGRADES</p> <ul style="list-style-type: none"> Capital upgrade and capital expansion of all assets within the leased or licensed area; and maintenance of fit-out. <p>INSPECTIONS</p> <ul style="list-style-type: none"> The City will inspect the premises annually (or as required) and will give the tenant appropriate notice in accordance with the lease terms.
Responsibilities of the City	<p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> Maintenance of roofing, mechanical services and main structure (unless damage caused by tenant); <p>CAPITAL RENEWAL</p> <ul style="list-style-type: none"> Capital renewal of existing assets at the City's discretion.
Obligations of Tenant and Default Provisions	<ul style="list-style-type: none"> The tenant is responsible for paying any license fees/rent and any other monies owed under the agreements within 14 days of the due date; If the tenant fails to pay an invoice within the 14 day grace period, interest at a prescribed rate (as set by the agreement) will accrue on the outstanding amount until it is paid in full. Continued failure to pay monies due and owing under the agreement may result in the City terminating the agreement. If the tenant disputes any amount due and owing under the agreement, the tenant must notify the City. In the absence of manifest error, the tenant must pay the outstanding amount on the due date and any dispute about the amount will be resolved with the City following payment.
Tenancy Fee	Subject to negotiation based on GRV. The tenant may undertake a market rent valuation of the premises, at the tenant's cost.

ESSENTIAL TERM TEMPLATE – CATEGORY FOUR (4) – GOVERNMENT AGENCIES

Initial Term	Maximum of 10 years.
Option	Up to 2 x 5 years options (at the City's discretion)
Responsibilities of Tenant	<p>UNLESS OTHERWISE AGREED BETWEEN THE PARTIES:</p> <p>PAYMENTS</p> <ul style="list-style-type: none"> • All outgoings, rates and taxes, including rubbish and recycling bin charges; • cost of statutory compliance (RCD, smoke alarm, emergency exit and fire hydrant testing) • pest inspections (including termite inspections) and treatment; • Emergency Services Levy (ESL); • building insurance; and • \$20 million public liability insurance. <p>REPAIR/MAINTENANCE</p> <ul style="list-style-type: none"> • General minor maintenance of premises which includes replacement of fittings and fixtures including light globes and taps; • re-painting of premises to ensure it remains in good condition; • cleaning (internal and external including annual carpet cleaning); and • line-marking of parking bays in car parks (if applicable). <p>CAPITAL UPGRADES</p> <ul style="list-style-type: none"> • Capital upgrade and capital expansion of all assets within the leased or licenced area; and • maintenance of fit-out. <p>INSPECTIONS</p> <ul style="list-style-type: none"> • The City will inspect the premises annually (or as required) and will give the tenant appropriate notice in accordance with the lease terms. <p>CITY ACKNOWLEDGEMENT</p> <ul style="list-style-type: none"> • If less than the market rent is being paid by the tenant, the tenant will acknowledge the City's support through signage or other means as agreed by the City.
Obligations of Tenant and default provisions	<ul style="list-style-type: none"> • The tenant is responsible for paying any license fees/rent and any other monies owed under the agreements within 14 days of the due date; • If the tenant fails to pay an invoice within the 14 day grace period, interest at a prescribed rate (as set by the agreement) will accrue on the outstanding amount until it is paid for in full. • Continued failure to pay monies due and owing under the agreement may result in the City terminating the agreement. • If the tenant disputes any amount due and owing under the agreement, the tenant must notify the City. APPENDIX 2

SCHEDULE OF MAINTENANCE OBLIGATIONS – CATEGORY ONE (1) – SMALL COMMUNITY GROUPS

MAINTENANCE ITEM	LESSOR'S OBLIGATIONS	TENANT OBLIGATIONS
STATUTORY/MINIMUM LEVEL OF SERVICE OBLIGATIONS		
Emergency exit lighting systems and emergency doors	Arrange and pay for annual inspections of the premises to ensure maintenance and compliance with requirements of the Building Code of Australia and Australian Standards.	Ensure that any faults or operational issues with the emergency/exit lighting systems in the premises are promptly reported to the lessor.
Fire protection equipment (e.g. fire extinguishers, hoses, smoke alarms)	Arrange and pay for annual inspections of the premises to ensure compliance with FESA and DFES requirements.	Ensure that any use or operational issues with the fire protection equipment in the premises are promptly reported to the lessor.
RCD protections, tagging electrical equipment	At its cost, ensure that all RCDs are repaired and maintained in accordance with the relevant legislation.	Ensure that all portable plug-in electrical equipment and RCDs are regularly inspected in accordance with relevant legislation.
Pest control, vermin control and termites	Arrange and pay for annual pest inspections and extermination treatment.	Endeavour to keep the premises free and clear of all rodents, rats, vermin, insects, birds, animals and other pests and report to the lessor any pest activity or required treatment.
PREMISES AND SECURITY		
Cleaning and cobweb removal	Not applicable	Ensure premises is kept tidy and free of litter, dirt, rubbish, cobwebs and broken glass at all times.
Malicious damage and break-ins	Responsible for minor repairs and cleaning of broken glass, windows and doors after an incident.	Responsible for repairing and replacing any stolen goods or broken fixtures and fittings. Report any incidents of malicious damage or break-ins to the lessor.
Vandalism & graffiti	Remove external vandalism and graffiti.	Remove internal vandalism & graffiti and repair any damage caused.
Security monitoring, equipment and security lights.	If the lessor provides a security system to the premises, the lessor will maintain the security system in good condition but is not required to replace the security system if it comes to the end of its economic life.	The tenant must ensure the premises is maintained in a secure condition at all times. If the tenant installs a security system in the premises, the tenant must keep the security system in good condition, pay all monitoring and service costs associated with the security system and promptly attend any call outs to the premises. If the lessor is called upon to attend the premises or the lessor incurs expense for a call out on a lessor installed security system, the tenant must pay all costs incurred due to that call out.
Ceiling	Repair any structural damage to ceilings.	Clean ceilings as required and report any structural damage to the lessor.
Walls	Repair structural damage to load bearing walls.	Keep clean at all times, dust cobwebs and report structural repairs or faults to lessor.
Window, glass panes, flyscreens, security screens, doors, door handles.	Remove any irreparable items.	Keep items clean, operable, lockable, and firmly fixed. Repair, replace and lubricate hinges of items if damage caused by misuse/ internal vandalism.
Skylights, lighting, globes	Remove any skylights or lighting fixtures (excluding globes) requiring replacement due to old age/end of economic life.	Keep clean at all times and repair or replace as required
Painting	Complete external and internal painting, as required and determined by the Lessor.	Touch up paint damage on internal walls as required.
Cupboards, blinds, curtains, mirrors	Replace as and when determined by the lessor.	Keep clean at all times. Maintain and repair items as required.
Carpet	Replace as and when determined by the lessor.	Keep clean at all times. Professionally clean at least once annually.
Vinyl floors	Replace as and when determined by the lessor.	Keep clean at all times.

Wooden floors	Replace as and when determined by the lessor.	Keep clean at all times.
Tiled floors	Replace as and when determined by the lessor.	Keep clean at all times.
Bathrooms and changerooms (including: drains, hot water systems, sewerage, showers, sinks, taps, toilets etc.)	Remove any irreparable items. Undertake capital renewal as and when determined by the lessor. Where the lessor undertakes works or repairs to clear blockages which have occurred as a result of the neglect, misuse or default of the tenant, the tenant must pay (on demand) the lessor's costs of undertaking those works.	Must keep clean at all times. Ensure all are operable and free from any blockages. Repair leaks, service and maintain as required. Tenant shall not permit foreign objects or matter to be placed into drains, toilets or grease traps.
FIXTURES, FITTINGS, APPLIANCES AND ELECTRICAL		
Air-conditioning	Repair and undertake annual servicing of air-conditioning units/systems.	Notify lessor if air conditioner unit requires servicing or repair. Responsible for replacing if damage is due to internal vandalism.
Oven vents	If at the end of its life, the lessor may, at its discretion, replace.	Keep clean at all times and repair when necessary
Exhaust fans	If at the end of its life, the lessor may, at its discretion, replace.	Keep clean at all times and repair when necessary
Electrical fittings (i.e. plugs, switches, sockets, leads, lights, power points)	Replace any irreparable items. If replacement is caused by misuse/negligence of tenant, lessor may require the tenant to reimburse it for the cost of replacement.	The tenant must ensure that electrical fittings are not overloaded when in use.
Wiring	Replace any irreparable items.	Advise the lessor prior to any wiring or electrical work taking place.
Appliances (i.e. fridges, toasters, freezer, stove, microwaves, washing machine)	Replace irreparable items at the discretion of the lessor.	Keep clean at all times. Keep items operable, regularly maintain and repair as required.
PREMISES EXTERIOR AND SURROUNDS		
Roof (including leaks, broken tiles etc.)	Repair any structural damage to roof and clean as required.	Report any structural damage to the lessor.
Eaves, gutters and downpipes	Repair any damage to eaves, gutters and downpipes. If damage is caused by tenant failing to maintain the eaves, gutters or downpipes in a clean and clear condition, the lessor may require the tenant to reimburse the lessor for the cost of undertaking the repairs.	Maintain eaves, gutters and downpipes in a clean and clear condition and report any damage to the lessor.
Garden and surrounds (including fencing and gates)	Responsible for any major tree pruning and tree removal. Replacing fences and/or gates as required and determined by the lessor.	Maintain the surroundings, fertilising and minor pruning and conduct regular mowing of the lawn at its own cost. Responsible for ensuring all fences and gates are cleaned, repaired, re-enforced and maintained. Not to remove any trees or hedges without first obtaining approval from the lessor, except for urgent safety reasons.
Walkways, footpaths, access, steps, ramps	Responsible for City verge footpaths.	Keep clean and clear at all times.
Carpark	Responsible for bitumen repairs, pot-hole maintenance and line marking.	Responsible for ensuring the car park is clean and clear of rubbish, trip hazards or obstructions.
Shed, roller doors and garage (if applicable)	Replace as and when determined by the lessor.	Responsible for cleaning, repairs and maintenance of such structures.
Abandoned rubbish	Arrange for removal of abandoned furniture, car parts and larger rubbish that has been dumped on the verge, carpark or grassed area.	Arrange for removal of smaller abandoned items that have been dumped on the property which will fit in the bins provided.
Pollution	None.	Do all things necessary to prevent pollution or contamination of the land by garbage, refuse, waste matter, oil or other pollutants. Report any pollution, contamination or suspected pollution/contamination to the land to the lessor promptly.
Maintain, Service and Repair Bore and Pump	Responsible for annual inspection, and determining the schedule for maintenance and repair. Service, repair and maintenance costs are to be allocated between the lessor and tenant in the property lease	As defined in the property lease

SCHEDULE OF MAINTENANCE OBLIGATIONS – CATEGORY TWO (2) – SPORTING CLUBS AND COMMUNITY GROUPS AND ORGANISATIONS

MAINTENANCE ITEM	LESSOR'S OBLIGATIONS	TENANT OBLIGATIONS
STATUTORY/MINIMUM LEVEL OF SERVICE OBLIGATIONS		
Emergency exit lighting systems and emergency doors	Lessor will undertake annual inspections of the premises to ensure maintenance and compliance with requirements of the Building Code of Australia and Australian Standards.	Ensure that any faults or operational issues with the emergency/exit lighting systems in the premises are promptly reported to the lessor. Reimburse the lessor for the cost of annual compliance inspections.
Fire protection equipment (e.g. fire extinguishers, hoses, smoke alarms)	Lessor will undertake annual inspections of the premises to ensure compliance with FESA and DFES requirements.	Ensure that any use or operational issues with the fire protection equipment in the premises are promptly reported to the lessor. Reimburse the lessor for the cost of annual compliance inspections.
RCD protections, tagging electrical equipment	Ensure that all RCDs are repaired and maintained in accordance with the relevant legislation.	Ensure that all portable plug-in electrical equipment and RCDs are regularly inspected in accordance with relevant legislation. Reimburse the lessor for the cost of annual compliance inspections.
Pest control, vermin control and termites	Lessor will undertake annual pest inspections and extermination treatment.	Endeavour to keep the premises free and clear of all rodents, rats, vermin, insects, birds, animals and other pests and report to the lessor any pest activity or required treatment. Reimburse the lessor for the cost of annual pest inspection and treatments.
PREMISES AND SECURITY		
Cleaning and cobweb removal	None.	Ensure premises is kept tidy and free of litter, dirt, rubbish, cobwebs and broken glass at all times.
Malicious damage and break ins	At request of tenant, will submit building insurance claim on behalf of tenant.	Responsible for repairing and replacing any stolen goods or broken fixtures and fittings, minor repairs and cleaning of broken glass, windows and doors after an act/incident of malicious damage. Report any incidents of malicious damage or break-ins to the lessor.
Vandalism & graffiti	At request of tenant, will submit building insurance claim on behalf of tenant.	Remove internal and external vandalism & graffiti and repair any damage caused.
Security monitoring, equipment and security lights.	If the lessor provides a security system to the premises, the lessor will maintain the security system in good condition but is not required to replace the security system if it comes to the end of its economic life. Any call out fees incurred by the lessor for the premises will be passed on to the tenant.	The tenant must ensure the premises is maintained in a secure condition at all times. If the tenant installs a security system in the premises, the tenant must keep the security system in good condition, pay all monitoring and service costs associated with the security system and promptly attend any call outs to the premises. If the lessor is called upon to attend the premises or the lessor incurs expense for a call out on a lessor installed security system, the tenant must pay to the lessor on demand all costs incurred by the lessor due to that call out.
Ceiling	Repair any structural damage to ceiling. If damage is caused or contributed to by the tenant or tenant's employees and visitors, the lessor may require the tenant to reimburse it for cost of repairing the damage.	Clean ceilings, as required, and report any structural damage to the lessor.
Walls	Repair structural damage to load bearing walls. If damage is caused or contributed to by the tenant or tenant's employees and visitors, the lessor may require the tenant to reimburse it for cost of repairing the damage.	Keep clean at all times, dust any cobwebs and report any structural repairs or faults to lessor.
Window, glass panes, flyscreens, security screens, doors, door handles.	Replace any irreparable items.	Keep items clean, operable, lockable, and firmly fixed. Repair, replace and lubricate hinges of items if damage caused by misuse/internal vandalism.
Skylights, lighting, globes	Replace any skylights or lighting fixtures (excluding globes) requiring replacement due to old age/end of economic life.	Keep clean at all times and repair or replace as required
Painting	Repaint premises (interior and exterior) to ensure it remains in good repair, as and when determined by the lessor.	Minor remedial painting and touch ups to repair general wear and tear.
Cupboards, blinds, curtains, mirrors	Replace as and when determined by the lessor.	Keep clean at all times. Maintain and repair items as required.
Carpet	Replace as and when determined by the lessor.	Keep clean at all times. Professionally clean at least once annually.

Vinyl floors	Replace as and when determined by the lessor.	Keep clean at all times.
Wooden floors	Replace as and when determined by the lessor.	Keep clean at all times.
Tiled floors	Replace as and when determined by the lessor.	Keep clean at all times.
Bathrooms and changerooms (including: drains, hot water systems, sewerage, showers, sinks, taps, toilets etc.)	Replace irreparable items. Undertake capital renewal as and when determined by the lessor. Where the lessor undertakes works or repairs to clear blockages which have occurred as a result of the neglect, misuse or default of the tenant, the tenant must pay (on demand) the lessor's costs of undertaking those works.	Must keep clean at all times. Ensure all are operable and free from any blockages. Tenant shall not permit foreign objects or matter to be placed into drains, toilets or grease traps. Tenant will advise the City before making repairs of installing electrical appliances with the use of a qualified electrician.
FIXTURES, FITTINGS, APPLIANCES AND ELECTRICAL		
Air-conditioning	Repair and undertake annual servicing of air-conditioning units/systems. Replace air-conditioning units/systems that are irreparable or at the end of their economic life.	Notify lessor if air conditioner unit requires servicing or repair. Responsible for replacing if damage is due to internal vandalism.
Oven vents	If at the end of its life, the lessor may, at its discretion, replace.	Keep clean at all times and repair when necessary
Exhaust fans	If at the end of its life, the lessor may, at its discretion, replace.	Keep clean at all times and repair when necessary
Electrical fittings (i.e. plugs, switches, sockets, leads, lights, power points)	Replace any irreparable items. If replacement is caused by misuse/negligence of tenant, lessor may require the tenant to reimburse it for the cost of replacement.	Maintain and repair as required. The tenant must ensure that electrical fittings are not overloaded when in use.
Wiring	Replace any irreparable items.	Advise the lessor prior to any wiring or electrical work taking place
Appliances (i.e. fridges, toasters, freezer, stove, microwaves, washing machine)	Replace irreparable items at the discretion of the lessor.	Keep clean at all times. Keep items operable, regularly maintain and repair as required.
PREMISES EXTERIOR AND SURROUNDS		
Roof (including leaks, broken tiles etc.)	Repair any structural damage to roof and clean roofs as required. If damage is caused or contributed to by the tenant or tenant's employees and visitors, the lessor may require the tenant to reimburse it for cost of repairing the damage.	Report any structural damage to the lessor. Repair any damage to the roof (structural or otherwise) caused by the tenant or its failure to maintain the eaves, gutters and downpipes in a clean and clear condition.
Eaves, gutters & downpipes	Repair any damage to eaves, gutters and downpipes. If damage is caused by tenant failing to maintain the eaves, gutters or downpipes in a clean and clear condition, the lessor may require the tenant to reimburse the lessor for the cost of undertaking the repairs.	Maintain eaves, gutters and downpipes in a clean and clear condition and report any damage to same to the lessor. Repair any damage to the eaves, gutters or downpipes where caused or contributed to by the tenant or its failure to maintain the eaves, gutters and downpipes in a clean and clear condition.
Garden and surrounds (including fencing and gates)	Responsible for any major tree pruning and tree removal. Replacing fences and/or gates as required and determined by the lessor.	Maintain the surroundings, fertilising, minor pruning and conduct regular mowing of the lawn at its own cost. Responsible for ensuring all fences and gates are cleaned, repaired, re-enforced and maintained. Not to remove any trees or hedges without first obtaining approval from the lessor, except for urgent safety reasons.
Walkways, footpaths, access, steps, ramps	Responsible for City verge footpaths.	Keep clean and clear at all times.
Carpark	Responsible for bitumen repairs, pot-hole maintenance and line marking.	Responsible for ensuring the car park is clean and clear of rubbish, trip hazards or obstructions.
Shed, roller doors and garage (if applicable)	Replace as and when determined by the lessor.	Responsible for cleaning, repairs and maintenance of such structures.
Abandoned rubbish	Arrange for removal of abandoned furniture, car parts and larger rubbish that has been dumped on the verge, carpark or grassed area.	Arrange for removal of smaller abandoned items that has been dumped on the property which will fit in the bins provided.
Pollution	None.	Do all things necessary to prevent pollution or contamination of the land by garbage, refuse, waste matter, oil or other pollutants. Report any pollution, contamination or suspected pollution/contamination to the land to the Lessor promptly.
Maintain, Service and Repair Bore and Pump	Responsible for annual inspection, and determining the schedule for maintenance and repair. Service, repair and maintenance costs are to be allocated between the lessor and tenant in the property lease	As defined in the property lease

SCHEDULE OF MAINTENANCE OBLIGATIONS – CATEGORY THREE (3) – COMMERCIAL ENTITIES, STATE AND NATIONAL CLUBS, ASSOCIATIONS AND COMMUNITY ORGANISATIONS

MAINTENANCE ITEM	LESSOR'S OBLIGATIONS	TENANT'S OBLIGATIONS
STATUTORY/MINIMUM LEVEL OF SERVICE OBLIGATIONS		
Emergency exit lighting systems & emergency doors	Undertake annual inspections of the Premises to ensure maintenance and compliance with requirements of the Building Code of Australia and Australian Standards.	Ensure that any faults or operational issues with the emergency/exit lighting systems in the Premises are promptly reported to the lessor. Reimburse the lessor for the cost of annual compliance inspections.
Fire protection equipment (e.g. fire extinguishers, hoses, smoke alarms)	Undertake annual inspections of the premises to ensure compliance with FESA and DFES requirements.	Ensure that any use or operational issues with the fire protection equipment in the premises are promptly reported to the lessor. Reimburse the lessor for the cost of annual compliance inspections.
RCD protections, tagging electrical equipment	Ensure that all RCDs are repaired and maintained in accordance with the relevant legislation.	Ensure that all portable plug-in electrical equipment are regularly inspected (a minimum of once every 12 calendar months) in accordance with relevant legislation. Reimburse the lessor for the cost of annual RCD compliance testing.
Pest control, vermin control & termites	Undertake annual pest inspections and extermination treatments (if required).	Endeavour to keep the premises free and clear of all rodents, rats, vermin, insects, birds, animals and other pests and report to the lessor any pest activity or required treatment. Reimburse the lessor for the cost of annual pest inspection and treatments.
PREMISES AND SECURITY		
Cleaning & cobweb removal	None.	Ensure premises is kept tidy and free of litter, dirt, rubbish, cobwebs and broken glass at all times.
Malicious damage & break-ins	At request of tenant, will submit building insurance claim on behalf of tenant.	Responsible for repairs and cleaning of broken glass, windows and doors after an act/incident of malicious damage. Responsible for repairing and replacing any stolen goods or broken fixtures and fittings. Report any incidents of malicious damage or break-ins to the lessor. Must pay any excess for a building insurance claim commenced by the lessor at the tenant's request.
Vandalism & graffiti	At request of tenant, will submit building insurance claim on behalf of the tenant.	Remove all vandalism & graffiti and repair any damage caused. Must pay any excess for a building insurance claim commenced by the lessor at the tenant's request.
Security monitoring, equipment and security lights.	None.	The tenant must ensure the premises is maintained in a secure condition at all times. If any security monitoring, equipment or lighting is in use by the tenant at the premises (including any installed by the tenant), the tenant must ensure all equipment and lighting is maintained in good condition and undertake regular servicing of any security equipment at the premises. If the lessor is called upon to attend the premises or the lessor incurs expense for a call out on a lessor installed security system, the tenant must pay to the lessor on demand all costs incurred by the lessor due to that call out.
Ceiling	Repair any structural damage to ceiling. If damage is caused or contributed to by the tenant or tenant's employees and visitors, the lessor may require the tenant to reimburse it for cost of repairing the damage.	Clean ceilings, as required, and report any structural damage to the lessor.
Walls	Repair structural damage to load bearing walls. If damage is caused or contributed to by the tenant or tenant's employees and visitors, the lessor may require the tenant to reimburse it for cost of repairing the damage.	Keep clean at all times, dust any cobwebs and report any structural repairs or faults to lessor.
Window, glass panes, flyscreens, security screens, doors, door handles.	None.	Keep items clean, operable, lockable, and firmly fixed. Repair, replace and lubricate hinges of items, repair/replace any items that are broken or damaged where caused by misuse/internal vandalism.
Skylights, lighting, globes	None.	Keep clean at all times and repair and/or replace as required. Replace all globes as required.
Painting	None.	At least once every 5 years of the term and three months before the expiry of the lease, repaint the premises (interior and exterior) with a minimum of two coats of good quality paint (in a colour approved by the lessor) to a tradesmanlike finish. Touch up any paint damage on internal walls, as required.

Cupboards, blinds, curtains, mirrors	None.	Keep clean at all times. Maintain, repair and replace items as required.
Carpet	None.	Keep clean at all times, repair and/or replace when at end of economic life. Professionally clean at least once annually.
Vinyl floors	None.	Keep clean at all times, repair and/or replace when at end of economic life.
Wooden floors	None.	Keep clean at all times, repair and/or replace when at end of economic life.
Tiled floors	None.	Keep clean at all times, repair and/or replace when at end of economic life.
Bathrooms and changerooms (including: drains, hot water systems, sewerage, showers, sinks, taps, toilets etc.)	<p>Replace items that require replacement due to old age/end of economic life. Undertake capital renewal as and when determined by the lessor.</p> <p>Where the lessor undertakes works or repairs to clear blockages which have occurred as a result of the neglect, misuse or default of the tenant, the tenant must pay (on demand) the lessor's costs of undertaking those works.</p>	<p>Must keep clean at all times. Ensure all are operable and free from any blockages. Repair leaks, service and maintain as required.</p> <p>Replace damaged items as required.</p> <p>Tenant shall not permit foreign objects or matter to be placed into drains, toilets or grease traps.</p>
FIXTURES, FITTINGS, APPLIANCES AND ELECTRICAL		
Air-conditioning	Replace lessor installed air-conditioning unit/system where replacement is required due to old age/end of economic life. If replacement is required due to tenant failing to maintain the unit/system in good condition, the lessor may require the tenant to pay for the replacement unit/system.	Repair and undertake annual servicing of air-conditioning units/systems. Replace air-conditioning unit where tenant installed air-conditioning unit or replacement is required to damage/lack of maintenance by the tenant.
Oven vents	None.	Keep clean at all times, repair and/or replace when necessary.
Exhaust fans	None.	Keep clean at all times, repair and/or replace when necessary.
Electrical fittings (i.e. plugs, switches, sockets, leads, lights, power points)	Replace any irreparable items. If replacement is caused by misuse/negligence of tenant, lessor may require the tenant to reimburse it for the cost of replacement.	Maintain and repair as required. The tenant must ensure that electrical fittings are not overloaded when in use.
Wiring	Replace any irreparable items.	Repair, maintain and advise the Lessor prior to any wiring or electrical work taking place.
Appliances (i.e. fridges, toasters, freezer, stove, microwaves, washing machine)	None.	Keep clean at all times. Keep items operable, regularly maintain and repair as required. Replace irreparable appliances.
PREMISES EXTERIOR AND SURROUNDS		
Roof (including leaks, broken tiles etc.)	Repair any structural damage to roof and clean roofs as required. If damage is caused or contributed to by the tenant or tenant's employees and visitors, the lessor may require the tenant to reimburse it for cost of repairing the damage.	Report any structural damage to the lessor. Repair any damage to the roof (structural or otherwise) caused by the tenant or its failure to maintain the eaves, gutters and downpipes in a clean and clear condition.
Eaves, gutters & downpipes	Repair any damage to eaves, gutters and downpipes. If damage is caused by tenant failing to maintain the eaves, gutters or downpipes in a clean and clear condition, the lessor may require the tenant to reimburse the lessor for the cost of undertaking the repairs.	Maintain eaves, gutters and downpipes in a clean and clear condition and report any damage to same to the tenant. Repair any damage to the eaves, gutters or downpipes where caused or contributed to by the tenant or its failure to maintain the eaves, gutters and downpipes in a clean and clear condition.
Garden and surrounds (including fencing and gates)	Responsible for any major tree pruning and tree removal. Replacing fences and/or gates as required and determined by the lessor.	Maintain the surroundings, fertilising, minor pruning and conduct regular mowing of the lawn. Responsible for ensuring all fences and gates are cleaned, repaired, re-enforced and maintained. Not to remove any trees or hedges without first obtaining approval from the lessor, except for urgent safety reasons.
Walkways, footpaths, access, steps, ramps	Responsible for City verge footpaths.	Keep clean and clear at all times. Repair damage or trip hazards to access/walk ways other than the City verge footpath.
Carpark	Responsible for bitumen repairs and pot-hole maintenance.	Responsible for ensuring the car park is clean and clear of rubbish, trip hazards or obstructions. Undertake car park line marking as required.

Shed, roller doors and garage (if applicable)	Replace as and when determined by the lessor.	Responsible for cleaning, repairs, replacement and maintenance of such structures.
Abandoned rubbish	Arrange for removal of abandoned furniture, car parts and larger rubbish that has been dumped on the verge, carpark or grassed area.	Arrange for removal of abandoned items that have been dumped on the property and will fit in the bins provided.
Pollution	None.	Do all things necessary to prevent pollution or contamination of the land by garbage, refuse, waste matter, oil or other pollutants. Report any pollution, contamination or suspected pollution/contamination to the land to the Lessor promptly.

SCHEDULE OF MAINTENANCE OBLIGATIONS – CATEGORY FOUR (4) – GOVERNMENT AGENCIES

MAINTENANCE ITEM	LESSOR'S OBLIGATIONS	LESSEE'S OBLIGATIONS
STATUTORY/MINIMUM LEVEL OF SERVICE OBLIGATIONS		
Emergency exit lighting systems & emergency doors	Undertake annual inspections of the premises to ensure maintenance and compliance with requirements of the Building Code of Australia and Australian Standards.	Ensure that any faults or operational issues with the emergency/exit lighting systems in the premises are promptly reported to the lessor. Reimburse the lessor for the cost of annual compliance inspections.
Fire protection equipment (e.g. fire extinguishers, hoses, smoke alarms)	Undertake annual inspections of the premises to ensure compliance with FESA and DFES requirements.	Ensure that any use or operational issues with the fire protection equipment in the premises are promptly reported to the lessor. Reimburse the lessor for the cost of annual compliance inspections.
RCD protections, tagging electrical equipment	Ensure that all RCDs are repaired and maintained in accordance with the relevant legislation.	Ensure that all portable plug-in electrical equipment are regularly inspected (a minimum of once every 12 calendar months) in accordance with relevant legislation. Reimburse the lessor for the cost of annual RCD compliance testing.
Pest control, vermin control & termites	Undertake annual pest inspections and extermination treatments (if required).	Endeavour to keep the premises free and clear of all rodents, rats, vermin, insects, birds, animals and other pests and report to the lessor any pest activity or required treatment. Reimburse the lessor for the cost of annual pest inspection and treatments.
PREMISES AND SECURITY		
Cleaning & cobweb removal	None.	Ensure premises is kept tidy and free of litter, dirt, rubbish, cobwebs and broken glass at all times.
Malicious damage & break-ins	At request of tenant, will submit building insurance claim on behalf of tenant.	Responsible for repairs and cleaning of broken glass, windows and doors after an act/incident of malicious damage. Responsible for repairing and replacing any stolen goods or broken fixtures and fittings. Report any incidents of malicious damage or break-ins to the lessor. Must pay any excess for a Building Insurance claim commenced by the lessor at the tenant's request.

Security monitoring, equipment and security lights.	None.	The tenant must ensure the premises is maintained in a secure condition at all times. If any security monitoring, equipment or lighting is in use by the tenant at the premises (including any installed by the tenant), the tenant must ensure all equipment and lighting is maintained in good condition and undertake regular servicing of any security equipment at the premises. If the lessor is called upon to attend the premises or the lessor incurs expense for a call out on a lessor installed security system, the tenant must pay to the lessor on demand all costs incurred by the lessor due to that call out.
Ceiling	Repair any structural damage to ceiling. If damage is caused or contributed to by the tenant or tenant's employees and visitors, the lessor may require the tenant to reimburse it for cost of repairing the damage.	Clean ceilings, as required, and report any structural damage to the lessor.
Walls	Repair structural damage to load bearing walls. If damage is caused or contributed to by the tenant or tenant's employees and visitors, the lessor may require the tenant to reimburse it for cost of repairing the damage.	Keep clean at all times, dust any cobwebs and report any structural repairs or faults to lessor.
Window, glass panes, flyscreens, security screens, doors, door handles.	None.	Keep items clean, operable, lockable, and firmly fixed. Repair, replace and lubricate hinges of items, repair/replace any items that are broken or damaged where caused by misuse/internal vandalism.

Skylights, lighting, globes	None.	Keep clean at all times and repair and/or replace as required. Replace all globes as required.
Painting	None.	At least once every 5 years of the term and three months before the expiry of the lease, repaint the premises (interior and exterior) with a minimum of two coats of good quality paint (in a colour approved by the lessor) to a tradesmanlike finish. Touch up any paint damage on internal walls, as required.
Cupboards, blinds, curtains, mirrors	None.	Keep clean at all times. Maintain, repair and replace items as required.
Carpet	None.	Keep clean at all times, repair and/or replace when at end of economic life. Professionally clean at least once annually.
Vinyl floors	None.	Keep clean at all times, repair and/or replace when at end of economic life.
Wooden floors	None.	Keep clean at all times, repair and/or replace when at end of economic life.
Tiled floors	None.	Keep clean at all times, repair and/or replace when at end of economic life.
Bathrooms and changerooms (including: drains, hot water system, sewerage, showers, sinks, taps, toilets etc.)	Replace items that require replacement due to old age/end of economic life. Undertake capital renewal as an when determined by the lessor. Where the lessor undertakes works or repairs to clear blockages which have occurred as a result of the neglect, misuse or default of the tenant, the tenant must pay (on demand) the lessor's costs of undertaking those works.	Must keep clean at all times. Ensure all are operable and free from any blockages. Repair leaks, service and maintain as required. Replace damaged items as required. Tenant shall not permit foreign objects or matter to be placed into drains, toilets or grease traps.
FIXTURES, FITTINGS, APPLIANCES AND ELECTRICAL		
Air-conditioning	None.	Repair and undertake annual servicing of air-conditioning units/ systems. Replace air-conditioning unit where required.
Oven vents	None.	Keep clean at all times, repair and/or replace when necessary.
Exhaust fans	None.	Keep clean at all times, repair and/or replace when necessary.
Electrical fittings (i.e. plugs, switches, sockets, leads, lights, power points)	Replace any irreparable items. If replacement is caused by misuse/negligence of tenant, lessor may require the tenant to reimburse it for the cost of replacement.	Maintain and repair as required. The tenant must ensure that electrical fittings are not overloaded when in use.
Wiring	Replace any irreparable items.	Repair, maintain and advise the lessor prior to any wiring or electrical work taking place.
Appliances (i.e. fridges, toasters, freezer, stove, microwaves, washing machine)	None.	Keep clean at all times. Keep items operable, regularly maintain and repair as required. Replace irreparable appliances.
PREMISES EXTERIOR AND SURROUNDS		
Roof (including leaks, broken tiles etc.)	Repair any structural damage to roof and clean roofs as required. If damage is caused or contributed to by the tenant or tenant's employees and visitors, the lessor may require the tenant to reimburse it for cost of repairing the damage.	Report any structural damage to the lessor. Repair any damage to the roof (structural or otherwise) caused by the tenant or its failure to maintain the eaves, gutters and downpipes in a clean and clear condition.
Eaves, gutters & downpipes	Repair any damage to eaves, gutters and downpipes. If damage is caused by tenant failing to maintain the eaves, gutters or downpipes in a clean and clear condition, the lessor may require the tenant to reimburse the lessor for the cost of undertaking the repairs.	Maintain eaves, gutters and downpipes in a clean and clear condition and report any damage to same to the lessor. Repair any damage to the eaves, gutters or downpipes where caused or contributed to by the tenant or its failure to maintain the eaves, gutters and downpipes in a clean and clear condition.
Garden and surrounds (including fencing and gates)	Responsible for any major tree pruning and tree removal. Replacing fences and/or gates as required and determined by the lessor.	Maintain the surroundings, fertilising, minor pruning and conduct regular mowing of the lawn. Responsible for ensuring all fences and gates are cleaned, repaired, re-enforced and maintained. Not to remove any trees or hedges without first obtaining approval from the lessor, except for urgent safety reasons.

Walkways, footpaths, access, steps, ramps	Responsible for City verge footpaths.	Keep clean and clear at all times. Repair damage or trip hazards to access/walk ways other than the City verge footpath.
Carpark	Responsible for bitumen repairs and pot-hole maintenance.	Responsible for ensuring the car park is clean and clear of rubbish, trip hazards or obstructions. Undertake car park line marking as required.
Shed, roller doors and garage (if applicable)	Replace as and when determined by the lessor.	Responsible for cleaning, repairs, replacement and maintenance of such structures.
Abandoned rubbish	Arrange for removal of abandoned furniture, car parts and larger rubbish that has been dumped on the verge, carpark or grassed area.	Arrange for removal of abandoned items that have been dumped on the property and will fit in the bins provided.
Pollution	None.	Do all things necessary to prevent pollution or contamination of the land by garbage, refuse, waste matter, oil or other pollutants. Report any pollution, contamination or suspected pollution/contamination to the land to the lessor promptly. If remediation is required as a result of the tenant polluting or contaminating the land, the tenant must pay undertake and pay for all necessary remediation works to bring the land back to its condition as at the commencement date.

Property Management Policy

Responsible directorate	<i>Community and Business Services</i>
Responsible team	<i>Marketing & Community Partnerships</i>
Responsible officer	<i>Manager Marketing and Partnerships</i>
Affected teams	<i>Corporate Strategy and Governance</i> <i>Assets</i>
Legislation / local law requirements	<i>Local Government Act 1995</i> <i>Local Government (Functions and General) Regulations 1996</i>
Relevant delegations	<i>Policy 4.1.10 – ‘Execution of Documents’</i>
Related policy procedures and documents	<i>Property Management Framework</i>

PURPOSE

The City has a number of properties which are used by a range of community organisations, sport and recreation clubs or associations, government agencies and commercial entities through a lease, licence, management agreement or other similar arrangement. This policy sets the overarching principles within which management of these properties occurs.

POLICY

The City is committed to providing a fair, consistent and transparent approach to the leasing, licencing and management of City properties. The City acknowledges that there are a range of tenants and uses, many of which provide valued community benefits.

The City's property management objectives are:

- to meet growing community needs and maximise community benefit, City owned and managed properties will be prioritised for use where occupancy arrangements include co-location, shared-use and highest community utilisation;
- to meet the Strategic Community Plan's objectives of 'Connected Community' and 'Thriving Places', City owned and managed properties will primarily be available for local not-for-profit organisations, community sporting groups and other community purposes;
- to ensure transparency and equity, all financial and in-kind subsidisation by the City will be recognised where City owned and managed properties are used to meet demonstrated community needs;
- to ensure sustainable City owned and managed properties, effective asset management and demonstrated sound financial management will be prioritised; and
- where appropriate, specific City owned and managed properties may be identified and made accessible for commercial activities for income generation to support and encourage sustainable City owned asset management.

Property Management Policy

The City will develop and administer a Property Management Framework (**Framework**), which will establish an equitable methodology for calculating annual lease and licence fees, and detail the standard lease and licence terms and conditions for different types of tenants. The City will consider the community benefit in developing this methodology, which may include an incentive to support the provision of valued services to the community.

The City will regularly monitor the implementation of the Framework to ensure the objectives of this Policy are met.

SCOPE

This policy applies to the leasing and licencing of City of Vincent properties. This includes leases, licences and management agreements held by community groups and organisations, sporting clubs, commercial entities and government agencies.

It does not include regular or occasional hire of facilities for the purpose of programs, events and activities.

DEFINITIONS

Lease – proprietary right to exclusive occupation and use of part or all of a City-owned property, for an agreed period, usually in return for rent. The tenant has exclusive use and occupation of the property, although the City may require the tenant to encourage other use and subletting can occur if mutually agreeable.

Licence – a contractual right to non-exclusive occupation and/or use of part or all of a City-owned property. This may include seasonal licences. It does not confer a right to exclusive possession or occupation of the property. The City may see to grant a licence to enable access to the property by the broader community outside of the licensee's usage times

Management Agreement – is a contractual arrangement outlining the terms and conditions associated with usage. Management Agreements are predominantly supplied to small community groups such as playgroups and community gardens.

CITY OF VINCENT

Property Management Framework

Category One & Two

Frequently Asked Questions

The City has prepared a new Property Management Framework that will be used to guide future lease, licence and management agreements. These 'Frequently Asked Questions' are designed to help our community groups, sporting clubs and organisations understand the Property Management Framework and to answer to some commonly asked questions.

Our club has an expired lease. What does the PMF mean to our club?

Following endorsement of the PMF from Council, the City will commence discussions with community groups and sporting clubs that have leases which have expired and are currently in holding over. Moving these groups onto a new lease under the PMF is the priority in order to provide them with secure tenure.

What if my club has a current lease but would like to change our lease and move over to the PMF?

The City is happy to transition groups with current leases over to the PMF.

What if my club is happy with our current lease?

If your group has an existing lease that has not expired, you can choose to remain on this lease until its end date. This includes exercising the option for further terms, should they be part of your current lease.

At the expiration of each remaining group's current lease or licence tenure, the City will work with them to transition them into the new PMF. All new leases moving forward will be in line with the PMF.

What if our club has not budgeted for the proposed increase in the tenancy fee and can't afford to pay the additional amount?

If your club is in category one and two it will be required to pay an increased tenancy fee within a 4 year period from the commencement of the new lease or licence.

This will mean that an increase will occur annually at the rate of 25% (of the difference between your current charge and the new charge) until the new charge is reached.

Alternative leasing and licencing options may be available if your club is unable to transition to the new charging methodology within 4 years, such as sharing a facility or seasonal hire.

Why is the annual tenancy fee 10% of the Gross Rental Value (GRV)?

The use of GRV is applied to all facilities as it provides a consistent methodology and it can be applied equitably to all clubs.

How is the Community Benefit calculated?

The annual Community Group and Sporting Club Health Check informs the calculation of the community benefit. A weighted matrix has been developed for assessing the community benefit subsidy. This matrix has criteria that determines the level of subsidy your club is eligible for. This criteria includes information relating to how your clubs is run, the membership fees you charge, the level of volunteer commitment, links to the City's Strategic Community Plan along with social and community benefits that your group provides.

CITY OF VINCENT

Why is there a need to submit Community Groups and Sporting Club Health Checks on a regular basis?

The Health Checks enable the City to monitor the wellbeing of our clubs and to provide assistance to clubs where needed.

The City is often approached by external parties such as government agencies, to provide information on the City's clubs. We use the Health Checks to inform these external conversations and will advocate on behalf of your club where we can.

The City will also use the information provided in these Health Checks to determine the level of Community Benefit Subsidy that is applied to reducing your tenancy fees.

The City will regularly review the Health Check to ensure it is as simple to complete as possible.

How do I know what the maintenance responsibilities for the club are?

The PMF includes a detailed list of maintenance responsibilities for each category and provides clarity around responsibilities for both the group and the City. This list is attached to the PMF framework and will be distributed to all community groups, sporting clubs and organisations who hold a lease or licence.

What is capital renewal and do clubs pay for them?

The City is responsible for capital renewal and repairs, which relates to major structural elements of the building such as the roof or load bearing walls.

The City is also responsible for expenses incurred to restore the original function of the facility by replacing elements that have a life cycle shorter than planned for the entire facility. For example, replacing carpets.

What are capital upgrades and why should community groups and sporting clubs pay for them?

Capital upgrades refers to enhancements to the facility to provide a higher level of service and/or extend the original functionality or space. Capital upgrades extend the asset to cater for growth or to enable additional service levels. In plain terms, they are additions to the facility that are not like-for-like replacement, or extensions.

The City will be responsible for capital upgrades and capital expansion of all assets within the leased or licenced area for all Category One (1) and Category two (2) groups and will be considered as part of the City's annual budget process. Should clubs and groups wish to upgrade their facilities outside of this process, the City will assist groups to apply for other sources of funding for example, Lotterywest Grants or State Government Funding.

Who is paying for the new leases or licences to be drafted?

The City will be drafting these documents in house and as such, there will be no additional costs placed on community groups or sporting clubs for the drafting of these agreements.

Where can I get more information?

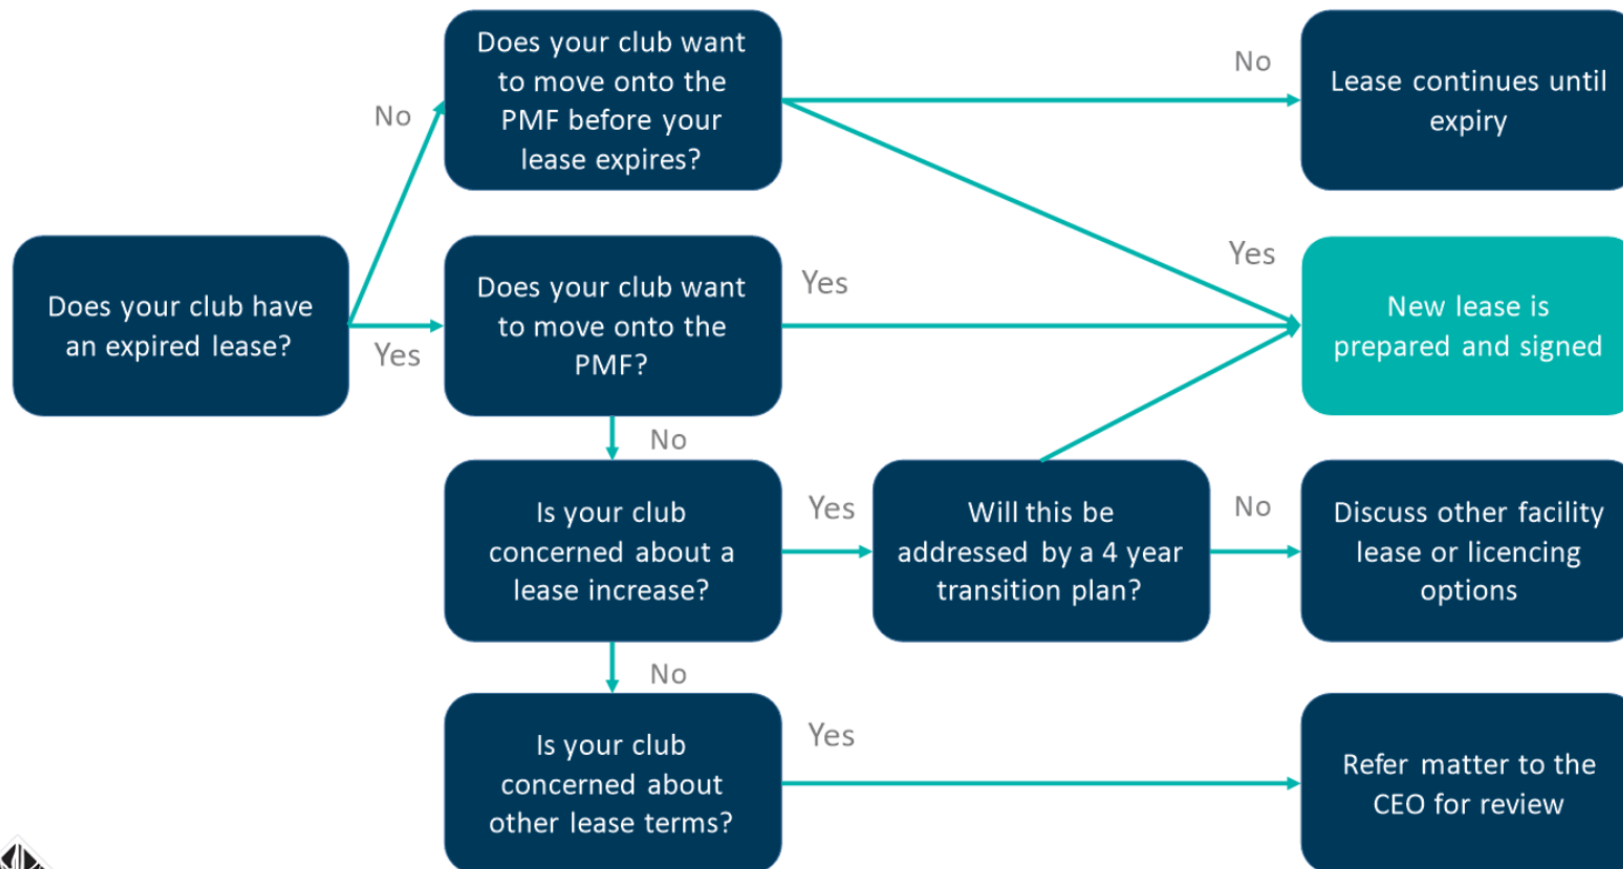

The Community Partnerships team can provide additional information to specific groups and sporting clubs in Category One and Two. They can be contacted via email Community.partnerships@vincent.wa.gov.au or by calling 9273 6000.

For all organisation in Category Three and Four, Corporate Strategy and Governance can assist and can be contacted via email at mail@vincent.wa.gov.au or by calling 9273 6000.

Implementation of the Property Management Framework – Options for Clubs and Groups

Attachment 11 – Matrix – Criteria for determining level of subsidy for Leases and Licences for not-for-profit organisations					
Criteria	Each answer worth 4 points	Each answer worth 3 points	Each answer worth 2 points	Each answer worth 1 point	Score
Organisational Status & Structure	The organisation is locally based, stand alone and not-for-profit. It has a voluntary management committee, comprised mainly of local area representatives	The organisation is locally based, has a regional focus, is stand alone and not-for-profit. It has a voluntary management committee, comprised partly of local area representative	The organisation is a locally based service, outlet, program or project that is part of a larger not-for-profit organisation, it has a voluntary advisory committee, comprised partly of local area representatives	The organisation is a locally based service, outlet, program or project that is part of a larger not-for-profit organisation. There is limited or no local area representation on the advisory committee or similar	
Capacity to undertake range of administrative and management responsibilities	Dependant on assistance from volunteers for all administrative and management functions	Paid staff undertakes some of the administrative and management functions and volunteers assist with the other tasks	Staff undertake majority of administrative and management functions with additional assistance provided by umbrella organisation.	Umbrella organisation carries out majority of administrative and management functions	
Extent of service provided by organisation	The broader community is a beneficiary of services provided by the organisation	Service is significantly used by number of specific sections of the local community	While the organisation provides a direct service to only a small number in the local community, it forms a part of a larger service provision	Service is only used by a small number of the local community	
Extent of accessibility of facility to the Community	Facilities are available and accessible to many in the local community	Facilities are generally available and accessible to the local community	Facilities have limited accessibility and availability to others in the local community	Facilities not accessible or available to others in the local community or limited access	
Social and community benefit	Service is unique, specific and meets a high level of need; or service meets identified social / community needs, with most-service users from low socio-economic or disadvantaged backgrounds	Service meets identified social / community needs, with service users from a range of socio-economic backgrounds	Service meets a broad social / community need	Service is valued by community but it is not focused on meeting an identified social / community need	
Ability to charge fees and raise revenue	Limited or no ability to raise revenue	Some ability to raise revenue and charge fees which may be varied to reflect ability of clients to pay	Has ability to charge fees and raise revenue	Operate on a profit basis	
Diversity, Access, Inclusion and Equity	Actively promotes inclusiveness to all members of the community, including females, people with disability, people from culturally and linguistically diverse background, and the LGBTIQ+ community	The majority of activities and services promote and encourage greater participation by the City's diverse community.	Activities and services encourage limited inclusiveness to members of the community however, organisation is progressing towards increasing level of diversity.	Activities and services do not integrate or encourage the inclusiveness of all members of the community. Organisation will progress towards increasing level of diversity.	
Link to Strategic Community Plan	Integrates directly into the Strategic Community Plan	Services provided do not integrate into the current Strategic Community Plan but do provide significant benefits to the community which are considered to reduce the burden on the City's budget	Services provided do not integrate into the Strategic Community Plan but do provide significant benefits to the community	Little or no direct or integrated targets within the Strategic Community Plan	

11.3	AUTHORISATION OF EXPENDITURE FOR THE PERIOD 1 SEPTEMBER 2020 TO 30 SEPTEMBER 2020
-------------	--

- Attachments:**
1. Payments by EFT, BPAY and Payroll September 20 [↓](#) 
 2. Payments by Cheque September 20 [↓](#) 
 3. Payments by Direct Debit September 20 [↓](#) 

RECOMMENDATION:

That Council RECEIVES the list of accounts paid under delegated authority for the period 1 September 2020 to 30 September 2020 as detailed in Attachments 1, 2 and 3 as summarised below:

EFT payments, including BPAY and payroll	\$7,686,809.35
Cheques	\$608.90
Direct debits, including credit cards	\$144,535.27
Total payments for September 2020	\$7,831,953.52

PURPOSE OF REPORT:

To present to Council the list of expenditure and accounts paid for the period 1 September 2020 to 30 September 2020.

BACKGROUND:

Council has delegated to the Chief Executive Officer (Delegation No. 2.2.18) the power to make payments from the City's Municipal and Trust funds. In accordance with *Regulation 13(1) of the Local Government (Financial Management) Regulations 1996* a list of accounts paid by the Chief Executive Officer is to be provided to Council, where such delegation is made.

The list of accounts paid must be recorded in the minutes of the Council Meeting.

DETAILS:

The Schedule of Accounts paid for the period 1 September 2020 to 30 September 2020, covers the following:

FUND	CHEQUE NUMBERS/ BATCH NUMBER	AMOUNT
Municipal Account (Attachment 1, 2 and 3)		
EFT and BPAY Payments	2582 – 2593	\$5,897,895.67
Payroll by Direct Credit	September 2020	\$1,788,913.68
Sub Total		\$7,686,809.35
Cheques		
Cheques	82610 - 82614	\$1,101.10
Cancelled cheques	82611 and 8262	-\$492.20
Sub Total		\$608.90

Direct Debits (including Credit Cards)

Lease Fees	\$395.84
Loan Repayments	\$100,782.60
Bank Charges – CBA	\$37,163.03
Credit Cards	\$6,193.80
Sub Total	\$144,535.27

Total Payments **\$7,831,953.52**

CONSULTATION/ADVERTISING:

Not applicable.

LEGAL/POLICY:

Regulation 12(1) and (2) of the *Local Government (Financial Management) Regulations 1996* refers, i.e.-

“12. Payments from municipal fund or trust fund, restrictions on making

(1) A payment may only be made from the municipal fund or the trust fund —

- if the local government has delegated to the CEO the exercise of its power to make payments from those funds — by the CEO; or*
- otherwise, if the payment is authorised in advance by a resolution of Council.*

(2) Council must not authorise a payment from those funds until a list prepared under regulation 13(2) containing details of the accounts to be paid has been presented to Council.”

Regulation 13(1) and (3) of the *Local Government (Financial Management) Regulations 1996* refers, i.e.-

“13. Lists of Accounts

(1) If the local government has delegated to the CEO the exercise of its power to make payments from the municipal fund or the trust fund, a list of accounts paid by the CEO is to be prepared each month showing for each account paid since the last such list was prepared –

- the payee’s name;*
- the amount of the payment;*
- the date of the payment; and*
- sufficient information to identify the transaction.*

(2) A list prepared under sub regulation (1) is to be —

- presented to Council at the next ordinary meeting of Council after the list is prepared; and*
- recorded in the minutes of that meeting.”*

RISK MANAGEMENT IMPLICATIONS:

Low: Management systems are in place that establish satisfactory controls, supported by the internal and external audit functions. Financial reporting to Council increases transparency and accountability.

STRATEGIC IMPLICATIONS:

This is in keeping with the City’s *Strategic Community Plan 2018-2028*:

Innovative and Accountable

Our resources and assets are planned and managed in an efficient and sustainable manner.

Our community is aware of what we are doing and how we are meeting our goals.

Our community is satisfied with the service we provide.

We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATIONS:

Not applicable.

FINANCIAL/BUDGET IMPLICATIONS:

All municipal fund expenditure included in the list of payments is in accordance with Council's annual budget.

11.4 INVESTMENT REPORT AS AT 30 SEPTEMBER 2020

Attachments: 1. Investment statistics as at 30 September 2020  

RECOMMENDATION:

That Council **NOTES** the Investment Statistics for the month ended 30 September 2020 as detailed in Attachment 1.

PURPOSE OF REPORT:

To advise Council of the nature and value of the City's Investments as at 30 September 2020 and the interest amounts earned year to date.

BACKGROUND:

The City's surplus funds are invested in bank term deposits for various terms to facilitate maximum investment returns in accordance to the City's Investment Policy (No. 1.2.4).

Details of the investments are included in **Attachment 1** and outline the following information:

- Investment performance and policy compliance charts;
- Investment portfolio data;
- Investment interest earnings; and
- Current investment holdings.

DETAILS:**A Summary of Key Investment Decisions in September 2020**

- Administration transferred Municipal funds (only) to a CBA Online Saver account during September;
 - This account offered a competitive interest rate of 0.65% with the flexibility to withdraw funds at any point in time without incurring additional fees.
 - The Online Saver interest rate has subsequently decreased to 0.45% in October 2020. As a result, in October, Administration has reinvested most of these funds into other financial institutions with an average interest rate of 0.5%.
- Financial institutions with '*no current record of funding fossil fuels*' are not providing competitive rates at this time and are also minimising their investment levels. This is impacting the City's ability to provide investment preference to these organisations.

Investment Status at 30 September 2020

As at 30 September 2020, the total funds held in the City's operating account (including on call) is \$38,460,372. Interest bearing term deposits account for \$23,921,321 and the remaining \$14,539,051 is held in a non-interest bearing account. The non-interest bearing account is higher than usual due to term deposits maturing closer to the reporting period.

Investment activity has decreased significantly compared to last year due to low interest rates being offered by financial institutions.

It is anticipated that interest rates will decrease further in the short to medium term to aid the economy in its recovery.

The following table shows funds under management for the previous and current year: -

Month Ended	2019/20		2020/21	
	Total funds held	Total term deposits	Total funds held	Total term deposits
July	\$32,209,493	\$26,105,854	\$21,740,955	\$17,906,824
August	\$49,641,327	\$44,977,692	\$26,788,392	\$16,238,861
September	\$44,876,698	\$41,017,535	\$38,460,372	\$23,921,321
October	\$46,846,286	\$37,782,515		
November	\$46,118,236	\$36,123,083		
December	\$38,557,295	\$34,633,796		
January	\$37,915,806	\$33,773,707		
February	\$35,377,640	\$33,681,961		
March	\$33,969,162	\$28,466,025		
April	\$30,832,893	\$25,975,451		
May	\$28,935,398	\$22,319,031		
June	\$25,079,463	\$17,565,310		

Total accrued interest earned on investments as at 30 September 2020 is:

Total Accrued Interest Earned on Investment	Budget Adopted	Budget YTD	Actual YTD	% of FY Budget
Municipal	\$230,000	\$57,501	\$12,318	21.42%
Reserve	\$180,205	\$45,051	\$29,912	66.40%
Subtotal	\$410,205	\$102,552	\$42,230	41.18%
Leederville Gardens Inc. Surplus Trust*	\$0	\$0	\$14,390	0.00%
Total	\$410,205	\$102,552	\$56,620	55.21%

*Interest estimates for Leederville Gardens Inc. Surplus Trust were not included in the 2020/21 Budget as actual interest earned is restricted.

The City has a weighted average interest rate of 0.74% for current investments whereas the Reserve Bank 90 days accepted bill rate for September 2020 is 0.09%.

Sustainable Investments

The City's Investment Policy states that preference "is to be given to investments with institutions that have been assessed to have no current record of funding fossil fuels, providing that doing so will secure a rate of return that is at least equal to alternatives offered by other institutions". Administration currently uses Marketforces.org.au to assist in assessing whether a bank promotes non-investments in fossil fuel related entities.

As at 30 September 2020, \$2,591,726 (7%) of the City's investments are held in financial institutions considered to be investing in non-fossil fuel related activities. The decrease in percentage is primarily due to lower interest rates being offered by the banks divested out of fossil fuel activities compared to banks exposed to fossil fuel activity.

The following guidelines have been established to manage the City's investments, including maximum investment ratios:

Short Term Rating (Standard & Poor's) or Equivalent	Direct Investments Maximum % with any one institution		Managed Funds Maximum % with any one institution		Maximum % of Total Portfolio	
	Policy	Current position	Policy	Current position	Policy	Current position
A1+	30%	22.2%	30%	Nil	90%	83.4%
A-1	25%	6.7%	30%	Nil	80%	6.74%
A-2	20%	4.7%	n/a	Nil	60%	9.86%

CONSULTATION/ADVERTISING:

Nil.

LEGAL/POLICY:

The power to invest is governed by the *Local Government Act 1995*.

“6.14. Power to invest

- (1) *Money held in the municipal fund or the trust fund of a local government that is not, for the time being, required by the local government for any other purpose may be invested as trust funds under the Trustees Act 1962 Part III.*
- (2A) *A local government is to comply with the regulations when investing money referred to in subsection (1).*
- (2) *Regulations in relation to investments by local governments may —*
 - (a) *make provision in respect of the investment of money referred to in subsection (1); and*
 - [(b) deleted]*
 - (c) *prescribe circumstances in which a local government is required to invest money held by it; and*
 - (d) *provide for the application of investment earnings; and*
 - (e) *generally provide for the management of those investments.*

Further controls are established through the following provisions in the *Local Government (Financial Management) Regulations 1996*:

19. Investments, control procedures for

- (1) *A local government is to establish and document internal control procedures to be followed by employees to ensure control over investments.*
- (2) *The control procedures are to enable the identification of —*
 - (a) *the nature and location of all investments; and*
 - (b) *the transactions related to each investment.*

19C. Investment of money, restrictions on (Act s. 6.14(2)(a))

- (1) *In this regulation —*
authorised institution means —
 - (a) *an authorised deposit-taking institution as defined in the Banking Act 1959 (Commonwealth) section 5; or*
 - (b) *the Western Australian Treasury Corporation established by the Western Australian Treasury Corporation Act 1986;***foreign currency** means a currency except the currency of Australia.
- (2) *When investing money under section 6.14(1), a local government may not do any of the following —*
 - (a) *deposit with an institution except an authorised institution;*
 - (b) *deposit for a fixed term of more than 3 years;*
 - (c) *invest in bonds that are not guaranteed by the Commonwealth Government, or a State or Territory government;*
 - (d) *invest in bonds with a term to maturity of more than 3 years;*
 - (e) *invest in a foreign currency.”*

Council has delegated the authority to invest surplus funds to the Chief Executive Officer or his delegate to facilitate prudent and responsible investment.

RISK MANAGEMENT IMPLICATIONS:

Low: Administration has developed effective controls to ensure funds are invested in accordance with the City's Investment Policy. This report enhances transparency and accountability for the City's investments.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Innovative and Accountable

Our resources and assets are planned and managed in an efficient and sustainable manner.

Our community is aware of what we are doing and how we are meeting our goals.

Our community is satisfied with the service we provide.

We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATIONS:

Nil.

FINANCIAL/BUDGET IMPLICATIONS:

The financial implications of this report are as noted in the details section of the report. Administration is satisfied that appropriate and responsible measures are in place to protect the City's financial assets.

11.5 FINANCIAL STATEMENTS AS AT 30 SEPTEMBER 2020

Attachments: 1. Financial Statements as at 30 September 2020  

RECOMMENDATION:

That Council **RECEIVES** the Financial Statements for the month ended 30 September 2020 as shown in Attachment 1.

PURPOSE OF REPORT:

To present the statement of financial activity for the period ended 30 September 2020.

BACKGROUND:

Regulation 34 (1) of the *Local Government (Financial Management) Regulations 1996* requires a local government to prepare each month a statement of financial activity including the sources and applications of funds, as compared to the budget.

The 2019/2020 financials are in the process of being finalised and audited, therefore the balances provided for 2019/2020 in this report are provisional and subject to change.

DETAILS:

The following documents, included as **Attachment 1**, comprise the statement of financial activity for the period ending 30 September 2020:

Note	Description	Page
1.	Statement of Financial Activity by Program Report and Graph	1-3
2.	Statement of Comprehensive Income by Nature or Type Report	4
3.	Net Current Funding Position	5
4.	Summary of Income and Expenditure by Service Areas	6-46
5.	Capital Expenditure and Funding graph and Capital Works Schedule	47-51
6.	Cash Backed Reserves	52
7.	Rating Information and Graph	53-54
8.	Debtors Report	55
9.	Beatty Park Leisure Centre Financial Position	56

Comments on the Statement of Financial Activity (as at Attachment 1)

Operating revenue is reported separately by 'Program' and 'Nature or Type' respectively. The significant difference between the two reports is that operating revenue by 'Program' includes 'Profit on sale of assets' and the report for 'Nature or Type' includes 'Rates revenue'.

Revenue by Program is tracking favourable compared to the YTD budget by an amount by \$1,323,623 (36%). The following items materially contributed to this position: -

- A favourable variance of \$234,627 as a result of the early issue of food premises licences (**Health**);
- A favourable variance of \$505,028 primarily due to an increase in forecast revenue generated from Beatty Park (**Recreation and Culture**);
- A favourable variance of \$713,649 due to an increase in revenue generated from parking activities (**Transport**); and
- An unfavourable variance of \$198,686 due to a timing variance relating to invoicing of interim rates and a reduction in interest earnings from term deposits (**General Purpose funding**).

Revenue by Nature or Type is tracking favourable compared to the YTD budget by \$1,346,058 (3.4%). The following items materially contributed to this position: -

- A favourable variance of \$1,485,510 for revenue generated primarily from operations at Beatty Park and parking facilities within the City (**Fees and charges**).

Expenditure by Program reflects a slight over spend of \$62,650 (0.6%) compared to the year to date budget. The following items materially contributed to this position

- A favourable variance of \$104,462 primarily contributed by a timing variance relating to the rates hardship waiver applications (**General purpose funding**); and
- An unfavourable variance of \$199,070 primarily contributed by employee costs at Beatty Park as a result of operations resuming back to normal (**Recreation and Culture**).

Expenditure by Nature or Type reflects a slight over-spend of \$75,954 (0.7%). The following items materially contributed to this position: -

- **Employee costs** reflects an unfavourable variance of \$618,683. This variance is materially contributed by the following areas: -
 - Beatty Park - \$400,000. Staff have been deployed back to work as a result of operations resuming at Beatty Park. This will be adjusted accordingly at the first quarterly budget review in November.
 - Rangers shift allowances and budget phasing variance - \$125,000. This will be reviewed and adjusted accordingly at the November budget review.
- **Materials and contracts** reflect a favourable variance of \$497,176. This is mainly contributed by a timing variance with the provision of waste tipping services.

Surplus Position – 2020/2021

The provisional surplus position brought forward to 2020/21 is \$2,963,903 compared to the adopted budget amount of \$1,615,763. The actual opening surplus figure will be adjusted once the end of year audit has been finalised.

Content of Statement of Financial Activity

An explanation of each report in the Statement of Financial Activity (**Attachment 1**), along with some commentary, is below:

1. Statement of Financial Activity by Program Report (Note 1 Page 1)

This statement of financial activity shows operating revenue and expenditure classified by Program.

2. Statement of Comprehensive Income by Nature or Type Report (Note 2 Page 4)

This statement of Comprehensive Income shows operating revenue and expenditure classified by Nature or Type.

3. Net Current Funding Position (Note 3 Page 5)

'Net current assets' is the difference between the current assets and current liabilities; less committed assets and restricted assets.

4. Summary of Income and Expenditure by Service Areas (Note 4 Page 6 – 46)

This statement shows a summary of operating revenue and expenditure by service unit including variance commentary.

5. Capital Expenditure and Funding Summary (Note 5 Page 47 - 52)

Below is a summary of the year to date expenditure of each asset category and the funding source associated to the delivery of capital works.

	Adopted Budget	YTD Budget	YTD Actual	Remaining Budget
	\$	\$	\$	%
Land and Buildings	4,886,398	572,000	209,986	95.7%
Infrastructure Assets	4,199,844	819,554	565,158	86.5%
Plant and Equipment	346,810	246,000	196,848	43.2%
Furniture and Equipment	1,037,100	150,000	127,281	87.7%
Total	10,470,152	1,787,554	1,099,272	89.5%
FUNDING	Adopted Budget	YTD Budget	YTD Actual	Remaining Budget
	\$	\$	\$	%
Own Source Funding - Municipal	5,237,019	674,428	575,701	89.0%
Cash Backed Reserves	3,365,850	380,000	216,212	93.6%
Capital Grant and Contribution	1,777,283	696,326	216,151	87.8%
Other (Disposals/Trade In)	90,000	36,800	91,208	-1.3%
Total	10,470,152	1,787,554	1,099,272	89.5%

The full capital works program is listed in detail in Note 5 in **Attachment 1**.

6. Cash Backed Reserves (Note 6 Page 53)

The cash backed reserves schedule provides a detailed summary of the movements in the reserve portfolio, including transfers to and from the reserve. The balance as at 30 September is \$10,464,069.

7. Rating Information (Note 7 Page 54 - 55)

The notices for rates and charges levied for 2019/20 were issued on 7 August 2020. *The Local Government Act 1995* provides for ratepayers to pay rates by four instalments. The due dates for each instalment are:

	Due Date
First Instalment	18 September 2020
Second Instalment	18 November 2020
Third Instalment	18 January 2021
Fourth Instalment	18 March 2021

Rates debtors for 2020/21 was raised on 29 July 2020 after the adoption of the budget.

The outstanding rates debtors balance as at 30 September 2020 is \$18,649,163 excluding deferred rates (\$241,196) and including ESL debtors and pensioner rebates.

The outstanding rates percentage for 2020/21 is 47% compared to 41% for the similar period in 2019/2020, this is contributed by:

- 324 ratepayers have opted to pay their rates either weekly, fortnightly or monthly (rates smoothing), this option has been offered for the first time this financial year;
- Late adoption of the budget and issuing of rates notice compared to last financial year; and
- Administration has also received 24 hardship applications and these ratepayer payments will now be deferred until March 2021.

8. Receivables (Note 8 Page 56)

Total trade and other receivables as at 30 September 2020 is \$1,938,287.

Below is a summary of the significant items that have been outstanding for over 90 days:

- \$1,632,664 (90%) relates to unpaid infringements (plus costs) over 90 days. Infringements that remain unpaid for more than two months are sent to the Fines Enforcement Registry (FER), which then collects the outstanding balance on behalf of the City for a fee.

\$971,183 of this amount has been transferred to long-term infringement debtors (non-current portion).

Furthermore, as some of the unpaid infringements are aged, a provisional amount of \$186,666 has been calculated as doubtful debts for the current portion (within 12 months) and a provisional amount of \$196,072 has been calculated as doubtful debts for the non-current portion (greater than 12 months). This treatment is in accordance to the new requirements of the changes in the Accounting standards (AASB 9). This provisional amount is subject to change once the 2019/2020 financial statements have been Audited and approved.

- \$140,983 (9.5%) relates to cash-in-lieu of car parking debtors. In accordance with the *City's Policy 7.7.1 Non-residential parking*, Administration has entered into special payment arrangements with long outstanding cash in lieu parking debtors to enable them to pay their debt over a fixed term of five years.

On 8 April 2020, the Minister of Planning WA issued a provision that exempts proponents from making cash in lieu related payments for existing or new non-residential development to the City. This exemption is effective up to the earlier date of either: -

- a) 90 days after the date upon which the State of Emergency Declaration ceases to have effect or is revoked; or
- b) Midnight, 1 May 2023.

- Tenancies are being dealt with in accordance to the direction approved by the COVID-19 Committee.
- Health licenses debtors are being followed up with final reminders. Thereafter, these debts will be sent to the debt collectors for further follow up.

9. Beatty Park Leisure Centre – Financial Position report (Note 9 Page 57)

As at 30 September 2020, the Centre's operating surplus position is \$26,799 (excluding depreciation) compared to the year to date budgeted deficit amount of \$160,562. This is primarily contributed by the increased activity relating to the swim school and fitness initiatives at the Centre.

10. Explanation of Material Variances

The materiality thresholds used for reporting variances are 10% and \$20,000 respectively. This means that variances will be analysed and separately reported when they are more than 10% (+/-) of the year to date budget and where that variance exceeds \$20,000 (+/-). This threshold was adopted by Council as part of the budget adoption for 2020/2021 and is used in the preparation of the statements of financial activity when highlighting material variance in accordance with *Financial Management Regulation 34(1) (d)*.

In accordance to the above, all material variances as at 30 September 2020 have been detailed in the variance comments report in **Attachment 1**.

CONSULTATION/ADVERTISING:

Not applicable.

LEGAL/POLICY:

Section 6.4 of the Local Government Act 1995 requires a local government to prepare an annual financial report for the preceding year and other financial reports as prescribed.

Regulation 34 (1) of the Local Government (Financial Management) Regulations 1996 requires the local government to prepare a statement of financial activity each month, reporting on the source and application of funds as set out in the adopted annual budget.

A statement of financial activity and any accompanying documents are to be presented at an Ordinary Meeting of the Council within two months after the end of the month to which the statement relates. *Section 6.8 of the Local Government Act 1995*, specifies that a local government is not to incur expenditure from its Municipal Fund for an additional purpose except where the expenditure is authorised in advance by an absolute majority decision of Council.

RISK MANAGEMENT IMPLICATIONS:

Low: Provision of monthly financial reports to Council fulfils relevant statutory requirements and is consistent with good financial governance.

STRATEGIC IMPLICATIONS:

Reporting on the City's financial position is aligned with the City's *Strategic Community Plan 2018-2028*:

Innovative and Accountable

Our resources and assets are planned and managed in an efficient and sustainable manner.

Our community is aware of what we are doing and how we are meeting our goals.

Our community is satisfied with the service we provide.

We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATIONS:

Not applicable.

FINANCIAL/BUDGET IMPLICATIONS:

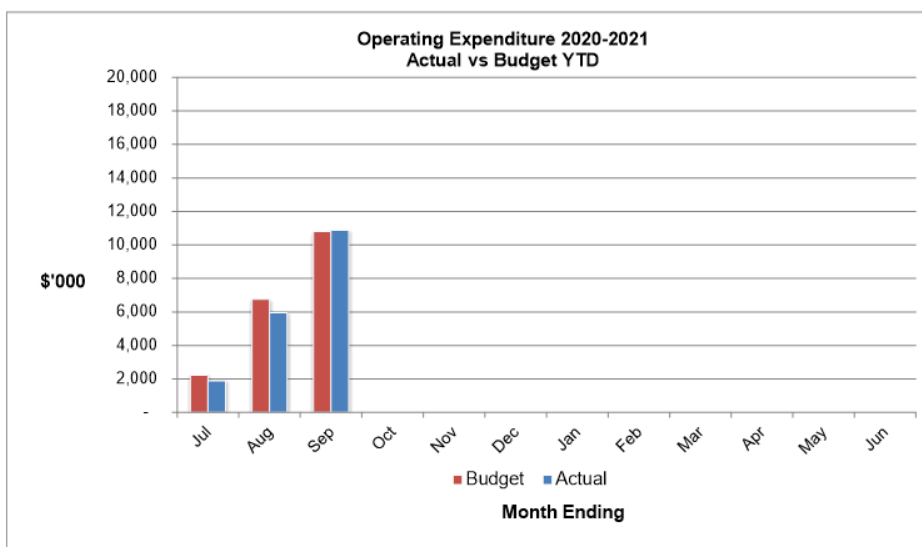

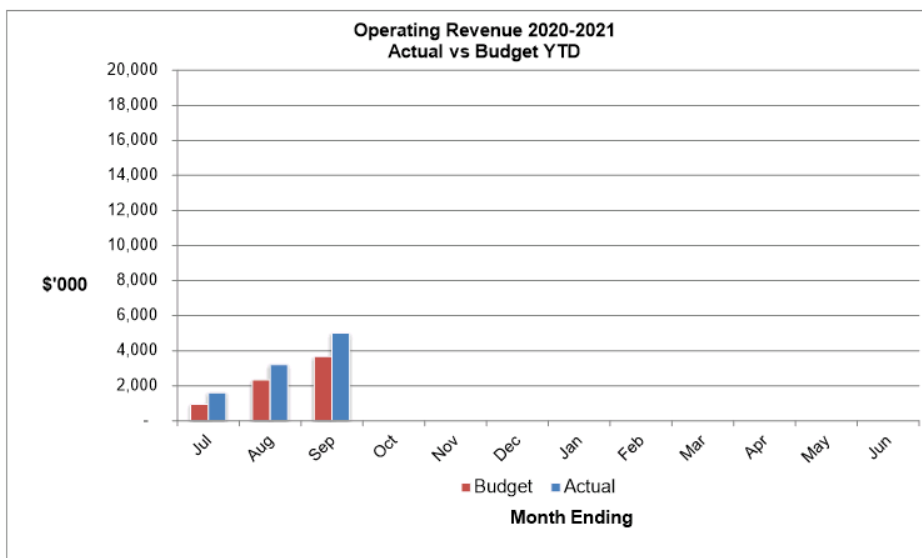

Not applicable.

 7. First Quarter Budget Summary [↓](#) 

RECOMMENDATION:

That Council **BY ABSOLUTE MAJORITY APPROVES** the following amendments to the 2020/2021 Annual Budget:

- a) A net increase in the Operating Budget of \$1,054,630 as per Attachments 1 and 2;
- b) A net increase in Special Purpose Reserves totalling \$639,000 as per Attachments 3 and 4;
- c) A net increase in the Capital Expenditure Budget of \$112,336 as per Attachment 5;
- d) A net increase in the closing surplus of \$1,132,110, resulting in a forecast year end surplus at 30 June 2021 of \$952,403, as per Attachment 3;
- e) Pursuant to Section 6.16 of the *Local Government Act 1995*, **ADOPTS** the amendment of Fees and Charges for parklet fees; and
- f) Further amendments to the 2020/2021 budget, totalling \$926,000, as detailed in Tables 6.1, 6.2, 6.3 and 6.4 in Attachment 6.

PURPOSE OF REPORT:

The purpose of this report is to consider and authorise proposed first Quarterly Budget Review for 2020/2021, including amendments to the 2019/2020 capital carry-forward items.

BACKGROUND:

The 2020/2021 budget adoption was challenging due to the uncertainty and volatility created by the COVID-19 crisis. In response the City utilised the following principles in developing the 2020/2021 budget:

- Created a conservative and pessimistic outlook in forward estimates;
- Provided hardship support for property owners;
- Used special purpose cash reserves to support community grants;
- Reduced discretionary expenditure;
- Maintained permanent employment of staff; and
- Tightly monitor changing conditions through quarterly budget reviews

Administration has continued to maintain a conservative budget approach during the first quarterly budget review, but at the same time has increased its budgeted revenue and expenditure to a more realistic estimate. The review period covered for this quarterly budget is July 2020 to September 2020.

During the preparation of the 2020/2021 annual budget, an allowance was made to carry-forward funds for incomplete capital projects from 2019/2020. The value of the carry forwards was based on estimates of expenditure that would be unspent as at 30 June 2020. The Annual Financial Statement for the year ended 30 June 2020 is in the process of being finalised and audited, therefore the estimated funds available to be carried forward can now be updated.

DETAILS:

The budget amendments from this review incorporates the following adjustments:

- A net increase in the operating budget of \$1,054,630 as per Attachments 1 and 2
- A net movement in Special Purpose Reserves of \$639,000 as per Attachments 3 and 4;
- A net increase in the capital budget of \$112,336 as per Attachment 5;
- A net increase in the opening surplus of \$1,132,110, and a forecast year end surplus at 30 June 2021 of \$952,403, as per Attachment 3; and
- Further budget amendments of \$926,000 as detailed in **Attachment 6**.

An executive summary of the first quarter review outcomes is at **Attachment 7**.

Timing of Quarterly Budget Reviews

This financial year Administration will be performing quarterly budget reviews to ensure budget estimates are realistic and have allow agile decision making in a changing external environment. Quarterly budget reviews are planned as follows:

BUDGET REVIEW	PERIOD	OMC
First Budget Review	July 2020- Sept 2020	Nov 2020
Second Budget Review (Statutory mid-year review)	Oct 2020 - Dec 2020	March 2021
Third Budget Review	Jan 2020 -March 2020	May 2021

Capital Expenditure

The 2020/2021 adopted budget included a capital expenditure program totalling \$10,470,152 including carry forward funding of \$1,335,364.

In most instances, the estimated expenditure and the available funds carried forward closely align to the actual outcome for 2019/2020. Overall, the capital expenditure for carry forward projects as at 30 June 2020 was over-estimated by \$11,131 and the budget available in 2020/2021 for these projects should now be reduced accordingly. Further, additional capital amendments of \$123,467 to capital expenditure is proposed for this budget review. The details of capital amendments are at **Attachment 5**.

Some of the key capital budget amendments are summarised in the table below:

Description	Current Budget	Proposed Revised Budget	Difference	Comments
	2020/21	2020/21	2020/21	
	\$	\$	\$	
Solar Photovoltaic Panel System Installation - Perth Soccer Club	-	30,000	30,000	Additional request for solar installation for Perth Soccer Club and funded by the club with a self-supporting loan.
Public Toilet - Hyde park east - renewal	151,000	31,985	- 119,015	Reduced as the funds were spent in 2019/20.
Loftus Recreation Centre - Change room upgrade	181,000	131,367	- 49,633	Project complete.
Improved Pedestrian crossings	-	24,100	24,100	Budget was not carried forward.
Banks Reserve Master Plan Implementation - Stage 1	130,000	239,109	109,109	Due to additional costs incurred for construction of active area.
Lynton Street Park Upgrade	-	18,145	18,145	Budget was not carried forward.
Miscellaneous Assets Renewal	30,000	75,000	45,000	Additional funds to cover for unplanned failure of City's assets.
Water and Energy Efficiency Initiatives	-	38,452	38,452	Minor Renewal works are required to be conducted for energy efficiency improvements
TOTAL EXPENDITURE	492,000	588,158	96,158	

Operating expense budget increase

Detail on all operating expense budget amendments are included in **Attachments 1 and 2**. Operating expenses have increased by \$1,587,504 and some of the key budget amendments include:

- **Employee Costs** increase of \$966,516 is mainly due to:
 - Beatty Park Casuals - \$724,234, due to the resumption of normal operations at the leisure facility; and
 - Ranger's Enterprise Agreement Allowance of \$222,024 as this was omitted when the budget was adopted.
- An increase of **materials and contracts** of \$217,769 mainly due to:
 - Beatty Park expenditure for bank charges, cleaning and group fitness contractor costs has increased by \$76,000 as Beatty Park resume to normal operations;
 - Car Park revenue reimbursements of \$20,000;
 - Admin cleaning expense of \$67,000 as this was originally omitted; and
 - Further costs required for the demolition of Banks Reserve pavilion of \$20,000.
- An increase of \$344,429 for other **operating expenditure** due to:
 - Stock purchases of \$64,000 for Beatty Park Retail;
 - Local Plant sales of \$45,000;
 - Adopt a verge initiative of \$70,000;
 - Operating Project for IT increased by \$120,000 as funds were not carried forward from 2019/2020; and
 - Ranger's related expenditure for ticket machine upgrades and fine lodgement costs of \$50,000.
- **Loss on sale** of land has increased by \$164,000, this amount relates to the sale of the two lots of properties in Charles and Vincent Streets. The loss has arisen due to the properties being revalued in 2017.
- An increase of \$74,500 for **utility charges** mainly due to Beatty Park resuming normal operations.

Revenue budget amendments increase

Detail on all operating revenue budget amendments are included in **Attachments 1 and 2**. Operating revenue has increased by \$2,878,934 and some of the key amendments include the following:

- **Fees and charges** increased by \$3,057,996. Fees and charges were adopted on conservative budget assumptions. Since WA has not been impacted with the second wave of COVID 19 the budget outcome has been adjusted accordingly. The fees and charges have not been increased to 2018-2019 levels, to provide for an allowance if circumstances change. The breakdown of the key fees and charges amendments are as follows:

Details	Amount of fees
Beatty Park fees for all services	1,860,000
Infringement income	250,000
Carpark fees	750,000
Building Licences and Planning application income	113,000
Health Licenses	60,000
	3,033,000

- **Interest income** has decreased by \$180,000 mainly due to the current economic conditions where interest rates have reduced significantly for both municipal and reserve investments.
- **Proceeds from sale of land** has increased by \$683,000 as a result of the proposed sale of the following two lots:
 - Sale of 150 Charles Street for \$208,000

- Sale of 202 Vincent Street for \$475,000

Special Purpose Reserves

Detail on special purpose reserve amendments are included in **Attachment 3**. The net proposed amendments for reserves is \$589,485 and the breakdown is:

- Transfer to reserves increased by \$683,000, this increase relates to the proceeds of sale of the two lots of properties in Vincent and Charles Street. These funds will be set aside for future investment in public open space; and
- Transfer from reserve has decreased by \$6,000 due to the bike parking cash in lieu project decreasing by \$6,000.

Change to the Fees and Charges schedule

Pursuant to Section 6.16 of the *Local Government Act 1995*, and reflecting the recommendations outlined in the City's COVID-19 Rebound Plan, Parklet fees are proposed to be removed from the fees and charges schedule. This will assist small businesses and the community to recover from the current economic crisis.

The proposed changes are:

Parklet Fees	Current Fees	Proposed Fees
Preliminary Application Fees	200.00	0
Approval Fee	1000.00	0
Annual Renewal Fee	500.00	0

Opening operating surplus

The estimated opening surplus for the 2020/2021 budget was \$1,615,763. The 2019/2020 audit has not been finalised and as a result the opening surplus will be adjusted during the midyear budget review, planned to be brought to Council in March 2021.

As detailed in the Rate Setting Statement at **Attachment 3**, the revised budget forecast at 30 June 2021 is a surplus of \$952,403.

Further budget amendments

The first quarter review sets out a revised budget forecast of \$952,403 (as per **Attachment 3**).

Administration proposes the schedule of budget amendments set out in **Attachment 6**, totalling \$926,000, to support operating activities, and replenish reserves, in the remaining 3 quarters.

These changes acknowledge that the City set a conservative budget at the outset, and it is prudent for modest amendments to be made during the first quarter review.

The amendments can be summarised as:

Table-Ref	Budget Amendments	Value	Percent
6.1	Operating Expenditure	\$ 226,000	24%
6.2	Capital Expenditure - Infrastructure	\$ 250,000	27%
6.3	Capital Expenditure - Technology	\$ 150,000	16%
6.4	Transfer to Reserve	\$ 300,000	32%
Total		\$ 926,000	100%

Greening Programs in the 2020/2021 Budget

The City remains committed to the Greening Plan (2018-2023), despite tight budgetary conditions.

The annual budget contains \$100,000 in Parks Greening Programs in 2020/2021, and a further \$300,000 is scheduled for 2021/2022. Operating expenditure amendments (above) have added a further \$45,000 for Local Plant Sales and \$70,000 for the Adopt a Verge Initiative.

Parks Greening Program	2020/2021	2021/2022
Pansy Street Carpark	\$ 25,000	
Pansy Street	\$ 5,000	
West End Arts Precinct	\$ 30,000	
Norham Street	\$ 15,000	
Highlands Road	\$ 10,000	
Hawthorn Street	\$ 10,000	
Little Walcott Street	\$ 5,000	
Leederville Parade		\$ 200,000
Drummond Place		\$ 10,000
Old Aberdeen Place		\$ 10,000
Stirling Street		\$ 30,000
Edward Street		\$ 20,000
Dunedin Street Car Park		\$ 15,000
Flinders Street Car Park		\$ 15,000
Total	\$ 100,000	\$ 300,000

In the mid-year review, Administration has earmarked a further \$50,000 in greening programs, to be approved by Council in March 2021 if budget conditions remain favourable. This would involve bringing forward planned Parks Greening Program activities from 2021/2022. The timing of this approval also aligns to the autumn planting season.

Financial Hardship Programs in the 2020/2021 budget

The City is monitoring requests for financial hardship support.

The City has received 24 financial hardship requests, and those ratepayers have had their rates payments deferred for 6 months.

The budget provisions for financial hardship support are sufficient for the current level of demand and no changes are required.

CONSULTATION/ADVERTISING:

Not applicable

LEGAL/POLICY:

This budget review is performed as a matter of good governance and is not required by the Act or associated regulations. The review is in accordance with the functions of the CEO as set out in section 5.41 of the Act:

5.41(d) *“manage the day to day operations of the local government.”*

Imposition of fees and charges

- (1) *A local government may impose* and recover a fee or charge for any goods or service it provides or proposes to provide, other than a service for which a service charge is imposed.*

** Absolute majority required.*

- (3) *Fees and charges are to be imposed when adopting the annual budget but may be —*

- (a) *Imposed* during a financial year; and*
 (b) *Amended* from time to time during a financial year.*

** Absolute majority required.*

RISK MANAGEMENT IMPLICATIONS

Low: Conducting this budget review ensures Council is aware of any proposed expenditure which varies from that in the approved budget.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Innovative and Accountable

Our resources and assets are planned and managed in an efficient and sustainable manner.

Our community is satisfied with the service we provide.

Our community is aware of what we are doing and how we are meeting our goals.

Our resources and assets are planned and managed in an efficient and sustainable manner.

SUSTAINABILITY IMPLICATIONS:

The proposed Budget provides sufficient resourcing to deliver the City's sustainability initiatives.

FINANCIAL/BUDGET IMPLICATIONS:

The various budget amendments set out in Attachment 6 reduce the budget surplus at 30 June 2021 from \$952,403 to \$26,403.

CITY OF VINCENT

12 CHIEF EXECUTIVE OFFICER**12.1 CITY OF VINCENT ADVISORY GROUPS**

- Attachments:**
1. **DRAFT Terms of Reference Children and Young People Advisory Group**  
 2. **DRAFT Terms of Reference Arts Advisory Group**  
 3. **DRAFT Terms of Reference Safer Vincent Advisory Group**  
 4. **DRAFT Terms of Reference Sustainability and Transport Advisory Group**  
 5. **Policy 4.2.12 - Advisory Groups**  

RECOMMENDATION:

That Council **APPROVES** by an **ABSOLUTE MAJORITY** to:

1. **ADOPT** the Terms of References of the City's Advisory Groups (at Attachments 1 to 4):
 - 1.1 **Arts Advisory Group;**
 - 1.2 **Children & Young People Advisory Group;**
 - 1.3 **Safer Vincent Advisory Group; and**
 - 1.4 **Sustainability & Transport Advisory Group (formerly Environmental Advisory Group and Urban Mobility Advisory Group).**
2. **APPOINT** the following Elected Members as Council's representatives on the Safer Vincent Advisory Group for a term expiring on 16 October 2021:
 - 2.1 **Safer Vincent Advisory Group (2 Elected Members):**

Members:

 1. Cr;
 2. Cr; and
 - 2.2 **the Chair of the Advisory Group will be Cr**

PURPOSE OF REPORT:

For Council to adopt the Terms of References of the City's Advisory Groups and appoint Elected Members to the Safer Vincent Advisory Group.

BACKGROUND:

At the 9 February 2010 Council Meeting (Item 9.4.7), a policy to govern advisory groups was adopted (Policy 4.2.12 – Advisory Groups (Policy), at **Attachment 5**). This Policy formalised the City's position in respect to the advisory groups.

The key provisions of the Policy are:

- advisory groups are to facilitate community input and involvement and provide advice and support on strategic, special interest and operational activities;
- advisory groups will act in an advisory capacity only and can only consider matters referred to it by the Council;
- the meetings will be conducted in an informal matter and will occur as required;
- the Council is to appoint a Chairperson for each advisory group, who will preside at the meetings;

- the minutes of the advisory groups' meetings are to be reported to Council, any recommendations should be consistent with the City's operational and strategic planning and within the City's staff resourcing;
- any items dealt with by the advisory group will not be implemented until Council has made a decision on the item;
- the City's Code of Conduct applies to all advisory group members;
- members need to be aware of financial, proximity and impartiality conflicts of interest and declare these and remove themselves from the discussion as appropriate;
- the term of membership is usually for two years, aligning with the local government ordinary election cycle;
- if a member of an advisory group fails to attend three consecutive meetings, without an approved leave of absence, their appointment is automatically terminated; and
- the operations of each advisory group are to be reviewed every two years, or sooner as required.

At the February Council Workshop, the current state of the advisory groups was assessed to determine if there were better ways of gaining input from the community on policies, strategies and projects. Following this Workshop, at the 19 May 2020 Council Meeting (Item 12.5), Council approved the Chief Executive Officer inviting nominations from community members for the City's Children and Young People Advisory Group (CYPAG), Arts Advisory Group (Arts Group) and Sustainability and Transport Advisory Group (Sustainability Group) for the period 28 July 2020 to 16 October 2021.

At the 28 July 2020 Council meeting Elected Members and community representatives were appointed to the CYPAG, Arts Group and Sustainability Group and meetings commenced in August 2020.

DETAILS:

Arts Advisory Group

The Arts Group met on 2 September 2020 and discussed the draft Terms of Reference. Feedback from this discussion was incorporated into the draft Terms of Reference and an updated version was circulated to the members for comment on 8 September 2020. Responses from the members indicated they were satisfied with the draft Terms of Reference (**Attachment 2**).

Children & Young People Advisory Group

CYPAG met and agreed the group's draft Terms of Reference on 26 August 2020.

Safer Vincent Advisory Group

At the Ordinary Council Meeting on 20 October 2020, Council adopted a recommendation requiring:

"the re-establishment of the Safer Vincent Advisory Group with a report to the November Ordinary Council Meeting to consider the terms of reference, representatives and community and Council Member representation."

A draft Terms of Reference is provided at **Attachment 3** for Council's consideration. Council are also asked to appoint two (2) Elected Member representatives to the Safer Vincent Advisory Group, including a Chairperson as per Policy 4.2.12 Advisory Groups.

Sustainability & Transport Advisory Group (Formerly Environmental Advisory Group and Urban Mobility Advisory Group)

The Sustainability Group met and agreed to the group's title on 3 September 2020. The draft Terms of Reference were also discussed and some minor changes were suggested. The Sustainability Group met again on 29 October 2020 and indicated they were satisfied with the draft Terms of Reference (**Attachment 4**).

CONSULTATION/ADVERTISING:

Nil.

LEGAL/POLICY:

The membership requirements for Advisory Groups are set out in clause 10 of the City's [Policy 4.2.12 – 'Advisory Groups'](#).

Policy 4.2.12 will be reviewed over the coming year, with the following issues considered:

- selection criteria and minimum requirements for community members;
- quantitative methodology for the evaluation and selection (weighted criteria); and
- membership numbers.

RISK MANAGEMENT IMPLICATIONS

Low: It is low risk for Council to adopt the Terms of Reference and appoint the Council representatives for the newly formed Advisory Groups.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Connected Community

We have enhanced opportunities for our community to build relationships and connections with each other and the City.

Innovative and Accountable

We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATION

The Sustainability Group's role is to provide guidance and advice on sustainability initiatives and relevant plans and strategies including the Strategic Community Plan, Sustainable Environment Strategy and Integrated Transport Strategy.

FINANCIAL/BUDGET IMPLICATIONS:

Nil.

COMMENTS:

Nil.

TERMS OF REFERENCE

1. AIMS

The Advisory Group is tasked with identifying, advocating and exploring ways of addressing the issues and needs of children and young people (from 0 to 25 years of age) in the City of Vincent.

2. OBJECTIVES

The Objective of the Advisory Group is to provide recommendations and advice relating to:

- 2.1 Promotion and enhancement of the City's services, facilities and programmes, that relate to children and young people;
- 2.2 Strategies to address the needs of children and young people in the City, acknowledging the differing needs across this age group;
- 2.3 Guidance and feedback on implementation of the Youth Action Plan;
- 2.4 Actions to be undertaken to inform, educate and raise awareness in the community with regards to issues faced by children and young people; and
- 2.5 Matters which may impact on schools and/or students, tertiary institutions, playgroups, toy libraries and early childhood centres, or the City's relationships with these organisations.

3. MEMBERSHIP

The membership of the City of Vincent Children and Young People Advisory Group shall comprise the following persons with only those persons appointed under clauses 3.1 and 3.2 being eligible to vote:

3.1 Up to Three (3) Council Members

3.2 Up to Six (6) Community Representatives

Up to six (6) Community Representatives from any one or more of the following backgrounds/categories, as determined by Council:

- representatives from the P&C, Board or Council of a local school;
- community member(s) with active involvement in the areas of children and/or young people;
- Youth and children organisation(s) located within or providing services to, children and young people in the City of Vincent;
- Young people living, working and/or studying in the City; and
- an active member(s) of one of the City's Town Teams with involvement in children and/or youth issues.

3.3 Vincent Youth Network Members

Members of the City's Vincent Youth Network (VYN) are encouraged to attend. Representation may be rotated amongst the VYN membership.

3.4 City Officers

The appropriate Director or Manager as determined by the Chief Executive Officer and the relevant City Officer.

Other individuals, groups and organisations may be invited to attend Advisory Group Meetings for a specific purpose from time-to-time.

ADVISORY GROUPS

This Advisory Group shall operate at all times in accordance with the City's Policy No. 4.2.12 – Advisory Groups.

Commencement Date:	17 December 2013
Amended:	17 November 2015, 5 April 2016, 29 June 2018
Review Date:	August 2020
File Ref:	D17/121846

**ARTS ADVISORY GROUP**

CITY OF VINCENT

TERMS OF REFERENCE**1. AIMS**

The Advisory Group will play an important role in encouraging and promoting Arts in the City of Vincent, particularly through the provision of expertise and opinion on the City's art strategy, programs, and projects.

Definitions

The arts encompass visual arts, literary arts and the performing arts. Types of artforms include writing, painting, sculpture, music, theatre, dance, and film, among others. This list is by no means comprehensive, but only meant to introduce the concept of the arts. The Arts Advisory Group considers the artistic merit of projects in their own right rather than being bound by strict definitions of artforms.

2. OBJECTIVES

The objectives of the Advisory Group are to:

- 2.1** Act in an advisory capacity to advocate and promote arts in the City of Vincent.
- 2.2** Assist in the development and review of the City's Arts Development Action Plans.
- 2.3** Provide advice and make recommendations to the City relating to its art commissions, policies, programs, and projects.
- 2.4** Represent the Arts Advisory Group on arts-related assessment panels as required.

3. MEMBERSHIP

The Membership of the City of Vincent Arts Advisory Group shall comprise the following persons, with voting rights limited to those persons appointed under clauses 3.1, 3.2 and (on occasion and by invitation) 3.3:

3.1 Two (2) Council Members

Two (2) Council Members.

3.2 Up to Eleven (11) Community Representatives

Having experience or qualifications in the arts and/or a demonstrated connection to the City of Vincent artistic community.

3.3 City Officers

The appropriate Director, Manager and Officer as determined by the Chief Executive Officer.

4. MEETINGS

4.1 Frequency of Arts Advisory Group meetings

Meetings will be held a minimum of four (4) times per year.

5. ADVISORY GROUPS

This Advisory Group shall operate at all times in accordance with the City's Policy No. 4.2.12 – Advisory Groups.

Commencement Date:	25 September 1995
Amended:	19 September 1996, 26 June 2001, 23 October 2011, 13 May 2003, 24 June 2003, 13 September 2005, 18 December 2007, 11 March 2008, 3 November 2009, 9 February 2010, 28 September 2010, 14 June 2011, 11 October 2011, 29 October 2013, 17 November 2015, 5 April 2016, 14 November 2017, August 2020
Review Date:	October 2021
File Ref:	D17/121838

**SAFER VINCENT
ADVISORY GROUP****CITY OF VINCENT**

TERMS OF REFERENCE

1. AIMS

The Advisory Group will play a key role in identifying emerging community safety issues and assisting with the development, implementation and evaluation of community safety initiatives that align with the key themes of the City's Strategic Community Plan and Safer Vincent Plan 2019/22:

- **Safer Spaces:** Creating town centres, open spaces and streets that are welcoming and safe for the whole community to use;
- **Community Connection:** Encouraging and supporting activities that connect residents, businesses and visitors, as well as projects that activate public spaces; and
- **Crime Prevention:** Working collaboratively with key stakeholders and our community to help prevent crime.

2. OBJECTIVES

The Advisory Group shall:

- 2.1 Encourage a collaborative, whole of community approach to community safety and crime prevention;
- 2.2 Promote, develop and maintain strong community partnerships and connections that contribute to positive community safety and policing outcomes within the City;
- 2.3 Share knowledge and expertise to tackle actual and perceived community safety issues, address vulnerabilities, and assist Council in making informed decisions; and
- 2.4 Support and facilitate the City's engagement with the community on community safety and crime prevention matters.

3. FUNCTIONS

The Advisory Group shall meet as required to:

- 3.1 Assist in the identification of current and emerging community safety priorities within the City of Vincent, and the planning of coordinated responses to arising concerns and issues;
- 3.2 Provide and seek advice from other stakeholders and experts to ensure strategies, actions and outcomes are best practice, well-informed and locally relevant;
- 3.3 Facilitate and monitor the achievement and effectiveness of strategies and actions within the Safer Vincent Plan 2019/22;
- 3.4 Gather data, information and evidence to support advocacy and the sourcing of alternative crime prevention funding as it becomes available from the Federal and State Governments;
- 3.5 Plan and facilitate community safety forums as required, to engage with the Vincent community on key community safety issues and assist in identifying appropriate actions and responses; and
- 3.6 Inform and guide the development of strategies and actions within the City's future community safety and crime prevention planning.

4. MEMBERSHIP

The membership of the Safer Vincent Advisory Group shall comprise of the following persons:

4.1 Two (2) Council Members

Two (2) Council Members.

4.2 City Officers

- Executive Director Infrastructure and Environment
- Manager Ranger Services
- Coordinator Ranger and Parking Services
- Safer Vincent Advisor (**Responsible Support Officer*)
- Representative from Community Partnerships team (as required)

4.4 Western Australian Police Force Representative/s

- Perth Police Station
- Wembley Police Station
- Bayswater Police Station
- Community Engagement Division

4.3 External Organisations/Representatives

- Representatives from other agencies and organisations to represent the interests of other communities and geographic areas within Vincent or to provide expert advice on key issues as determined by the forward agenda, including Nyoongar Outreach Services, Neighbourhood Watch WA and Town Team representatives.

ADVISORY GROUPS:

This Group shall operate at all times in accordance with the City's Policy No. 4.2.12 - Advisory Groups.

Commencement Date:	27 July 2004
Amended:	13 September 2005, 19 December 2006, 18 December 2007, 11 March 2008, 3 November 2009, 9 February 2010, 28 September 2010, 14 June 2011, 11 October 2011, 29 October 2013, 26 June 2018
Review Date:	TBA
File Ref:	D20/205934

Sustainability and Transport Advisory Group

CITY OF VINCENT

TERMS OF REFERENCE

1. AIMS

The Advisory Group will play an important role in advising the City on matters relating to the natural and built environment and on matters relating to urban mobility (including active transport, traffic management and road safety).

The Group's aim is to improve the liveability of the city of Vincent by supporting and guiding the City in:

- Protecting and enhancing its natural and built environment;
- Facilitating safe and efficient modes of transport;
- Improving awareness of the rights of vulnerable road users; and
- Encouraging responsible driving and riding.

2. OBJECTIVES

The Advisory Group shall provide advice and comments relating to:

- Energy efficiency and renewable energy;
- Climate change mitigation and adaptation;
- Water use and efficiency;
- Managing water in the environment;
- Green spaces, urban vegetation and biodiversity;
- Environmentally sustainable design;
- Waste minimisation and management;
- A community and Council vision for environmental sustainability (Sustainable Environment Strategy);
- Development and implementation of environmental initiatives and programs;
- Local Area Traffic Management;
- Walking and cycling network;
- Impacts of road traffic;
- Road safety in line with Road Safety Commission's 'Towards Zero' Strategy and WALGA Road Wise Program;
- Safe Active Transport (walking, cycling and public transport);
- A community and Council Vision for safe and integrated transport; and
- Development and implementation of initiatives and programs to improve Urban mobility.

3. MEMBERSHIP

The membership of the Advisory Group shall comprise the following persons:

3.1 Two (2) Council Members

3.2 Up to Ten (10) Community Representatives

Having specialist knowledge and interest in environmental sustainability and urban mobility in the City of Vincent.

3.3 City Officers

- Executive Director Infrastructure and Environment (or nominated representative)
- Sustainability & Innovation Advisors (**Responsible Support Officer*)
- Active Transport Officer

-
- Other City Officers (*as required*)

ADVISORY GROUPS

This Advisory Group shall operate at all times in accordance with the City's Policy No. 4.2.12 – Advisory Groups.

Commencement Date:	TBC (Council adoption date)
Amended:	
Review Date:	TBC
File Ref:	D20/157405

POLICY NO: 4.2.12**ADVISORY GROUPS****OBJECTIVES**

To provide guidance for the establishment and operation of the City's Advisory Groups.

POLICY STATEMENT**DEFINITIONS**

"Advisory Group" means and includes Working Groups referred to in this Policy and established by a resolution of the Council.

"Financial Interest" has the same meaning as given by Section 5.60A of the *Local Government Act 1995*.

"Proximity Interest" has the same meaning as given by Section 5.60B of the *Local Government Act 1995*.

"Impartiality Interest" means an interest that could, or could reasonably be perceived to, adversely affect the impartiality of the person having interest arising from kinship, friendship or membership of an association.

1. ESTABLISHMENT

1.1 The Council may establish an Advisory Group to:

- (a) facilitate Council Member, stakeholder and/or community input and involvement opportunities;
- (b) to provide advice; and
- (c) support to the City, in regard to strategic, special interest and/or operational activities.

1.2 Advisory Groups established pursuant to this Policy are not, and are not intended to be, Committees established under Section 5.8 of the *Local Government Act 1995*.

2. OPERATION

Operation of an Advisory Group is to occur in accordance with the following principles:

- 2.1 Advisory Groups may be established either by resolution of Council or at the recommendation of the City's Administration.
- 2.2 Advisory Groups will operate in accordance with the adopted Terms of Reference which provide:
 - (a) A clear statement of objective and the scope of activity to be undertaken.
 - (b) Membership/stakeholder representation.
 - (c) The operational and administrative framework by which activities are to occur.

3. TERMS OF REFERENCE AND ROLE

Advisory Groups are to operate within the Terms of Reference approved by the Council and the following general administrative framework:

- 3.1 The role of an Advisory Group is to act in an advisory capacity, providing the City's Administration and the Council with its views and/or proposals relevant to the Objectives for which the group was established.
- 3.2 The Advisory Group will only consider matters referred to it by the Council.
- 3.3 An Advisory Group has no decision making powers and does not have any authority to act on behalf of the City. In operation, the group cannot direct employees, call tenders, award contracts, expend monies, direct volunteers or do anything which is the responsibility of the City.
- 3.4 Advisory Group meetings will be conducted in an informal manner, providing opportunities for ideas to be raised and general discussion. The view and proposals of an Advisory Group are to be recorded in Minutes/meeting notes and retained in the City's record keeping systems.
- 3.5 Advisory Group members either collectively or individually are not authorised to speak on behalf of the City or provide comment to the media or other persons, in respect of any item under consideration, unless authorised by the Chief Executive Officer.

4. ROLE OF THE CHAIRPERSON

- 4.1 The Advisory Group Chairperson is to be appointed by the Council.
- 4.2 The Council appointed Chairperson will preside at all meetings. In the absence of the Chairperson, a person elected by the quorum will assume the Chair for that meeting. Preferably, the Advisory Group should be chaired by a Council Member (if possible), or then by a Senior City Officer.
- 4.3 The Chairperson (in liaison with the most Senior City Employee appointed to the Advisory Group) shall ensure that the Advisory Group operates in accordance with this Policy at all times.

5. MEETING PROCEDURES

5.1 Meetings

- (a) Unless approved by the Council or there is a need to address an urgent issue (the latter to be agreed by the Chairperson and the Chief Executive Officer), the Advisory Group shall meet as required. Additional meetings may be convened at the discretion of the Chief Executive Officer.
- (b) At the first meeting after convening, the Advisory Group shall determine a Schedule of Meeting dates for the remainder of the year. (These dates are to be included in the City's monthly "Calendar of Events".)

5.2 Quorum

A quorum will be by simple majority plus one.

5.3 Agendas

- (a) The Chief Executive Officer will determine the Agenda for each meeting. Members may submit items for consideration and listing on the Agenda.
- (b) All meetings shall be confined to items listed on the Agenda.

5.4 Minutes/Meeting Notes

- (a) The relevant Director having responsibility for the Advisory Group, in liaison with the Advisory Group Chairperson, shall be responsible to ensure the preparation and accuracy of the Minutes/meeting notes.
- (b) Items considered at the meeting will not be voted upon. The Minutes/meeting notes of the Group will record consensus agreement on actions and any points of agreement/disagreement. They will not reflect verbatim discussion on issues or matters discussed during debate prior to consensus agreement being reached. At the end of each meeting, the City's Officer in attendance will read out the agreed actions and any points of agreement to the meeting to ensure they are accurately reflected to the consensus view.
- (c) Minutes/meeting notes of the meeting will be prepared by the Responsible Officer and distributed to members within five (5) working days after the date of the meeting.
- (d) Advisory Group unconfirmed Minutes/meeting notes are to be reported through relevant Directorate reports with recommendations regarding the views and proposals of the Advisory Group to the next available Ordinary Council Meeting. (Minutes/meeting notes not requiring a Council decision will be included on the Information Bulletin). Reports will consider each proposal to ensure it is:
 - (i) Consistent with the City's established strategic and operational planning and the objective for which the Advisory Group was established.
 - (ii) Within the City's capacity relevant to staffing, resources and adopted budget and also operational effectiveness and efficiencies.
 - (iii) Endorsed by Council resolution, where funding from external sources is proposed.
- (e) The Minutes/meeting notes shall accurately record the details of any disclosure of interest and the extent of such interest. The Minutes/meeting notes shall also record the times any person who has made a disclosure, has departed and/or re-enters the meeting.

6. ADMINISTRATIVE ACTION AND SUPPORT

- 6.1 A City employee will be assigned to provide administrative support to the Advisory Group. This person will be responsible for the following:
- Issuing of the Agenda;
 - Recording of Apologies prior to the meeting;
 - Preparation of the Minutes/meeting notes;
 - Room booking; and
 - Catering requirements.
- 6.2 Any items which have been dealt with by the Advisory Group will not be implemented by the City's Administration until a report has been submitted to the Council for a decision.
- 6.3 The City's Administration will not action Advisory Group requests unless in accordance with Clause 5.4 – "*Minutes/Meeting Notes*" and Clause 6.2 – "*Administration Action and Support*", above.

7. CODE OF CONDUCT

- 7.1 Community Members of the City's Advisory Groups will be advised of the relevant provisions of the City's Code of Conduct and must comply with the relevant requirements.
- 7.2 The City's Code of Conduct shall apply to members of the Advisory Groups.
- 7.3 All Advisory Group members shall be required to declare any conflicts of interest in matters being considered by the Group.
- 7.4 A copy of the Council's Code of Conduct will be provided to each member upon their appointment.
- 7.5 The City's Chief Executive Officer is available to provide any assistance or guidance concerning the Code or any matters of Interest.

8. CONFLICT OF INTEREST

- 8.1 (a) Whilst the financial, proximity and impartiality interest provisions of the *Local Government Act 1995* do not apply to the City's Advisory and Working Groups (as it is not a Council appointed committee approved under section 5.8 of the *Local Government Act 1995* and does not have any legal status), all members need to be aware that any conflict of interest needs to be recognised, to ensure that probity is maintained at all times.
- (b) Generally, if a matter is being discussed by the Group and a member has an interest in the matter, then the member is required to declare the interest and remove themselves from the meeting whilst discussion on that issue is taking place.

- (c) If a Member discloses a financial or proximity interest in a matter under consideration by the Group and wishes to remain and participate in the meeting, the Member may seek approval from the Chairperson and meeting to determine whether the interest is:
 - * Trivial or insignificant; or
 - * an interest in common to a significant number of electors or ratepayers.
- (d) The Member should make that request to the Chairperson at the meeting and not only disclose the nature of their interest, but also the extent of that interest.
- (e) The Member should then depart the meeting, whilst the meeting considers the request. The meeting should then be in a position to:
 - determine that the Member should not participate in that part of the meeting;
 - remain in the meeting and participate in discussion; or
 - remain in the meeting only, but not participate in discussion on the matter.
- (Note: If the Disclosing Member is the Chairperson, such disclosure shall be made to the meeting.)
- (f) Once the meeting has made a decision concerning a request, the Chairperson shall inform the Member of the decision and the Member shall comply with the Meeting's decision.
- (g) The Minutes/meeting notes shall record the member's disclosure of interest and the extent of the interest. They shall also record the times a Disclosing Member has departed and/or re-entered the meeting and/or is absent from the meeting during the item of interest.
- (h) If a member is unsure whether they have an interest in a matter, they are encouraged to raise the issue with the Senior City Officer in attendance at the meeting.

8.2 Subject to 8.1 above, any person who has a financial or a proximity interest in a matter shall exclude themselves from the room and not participate in that part of the meeting.

9. INSURANCES

The City will arrange all insurance to cover Advisory Group members whilst discharging their normal course of duty, including travel to and from the meeting.

10. MEMBERSHIP

Membership of an Advisory Group is to be determined by the Council on a basis of relevancy to the purpose for which the group has been established. Membership may include; Council delegate/s (Council Members), employees and representatives of stakeholder organisations and members of the community.

- 10.1 Where Advisory Group membership includes representatives to stakeholder organisations, the City shall seek written nomination/s from the organisation/s.
- 10.2 Where Advisory Group membership includes representatives to be drawn from members of the community; the City shall publicly advertise and call for nominations to be received within a defined period. Members are to be appointed by the Council on the basis of demonstrated knowledge, skills and/or understanding relevant to the purpose for which the Advisory Group has been established.
- 10.3 The term of membership of an Advisory Group is to align with the local government elections cycle, with membership expiring at the next ordinary local government election, with the following exceptions:
 - (a) Where the Advisory Group's operations are likely to conclude within a period that does not exceed 12 months following the next ordinary local government elections, the community and/or organisation representation shall continue to the planned conclusion of the Advisory Group's operations. The Council Delegate/s representation shall however, be reappointed following the ordinary local government election.
 - (b) Where the Advisory Group's Terms of Reference have been fulfilled, the Advisory Group may be concluded at the determination of either the Council or the City's Administration, whichever was the convenor of the Advisory Group.
- 10.4 In any case, in order to facilitate specific aspects of the operations of an Advisory Group, membership with required skills or knowledge may also be co-opted on an 'as required' basis, by either the Chief Executive Officer or Advisory Group Chairperson.

11. TENURE OF APPOINTMENT

- 11.1 The Council will appoint a member to the Advisory Group including the prescribed Term and any conditions.
- 11.2 The Advisory Group Membership is normally for a period of two (2) years from the period of the ratification of the advisory group by the Council. (Generally the term is from November after the Ordinary local government elections to October of the second year). Membership of the Group terminates when an Ordinary local government election occurs every two years, in October.

- 11.3 If a member fails to attend three (3) consecutive meetings of the Advisory Group, his/her appointment shall be automatically terminated, unless Leave of Absence has been granted and approved by the Advisory Group. The Chief Executive Officer shall advise any member, in writing, when their membership of a Group is terminated.
- 11.4 The Council may terminate the appointment of any member prior to the expiry of his/her term, if:
- (a) the Chairperson and Chief Executive Officer are of the opinion that the member is not making a positive contribution to deliberations of the group; or
 - (b) the member is found to be in breach of the City of Vincent code of Conduct or a serious contravention of the *Local Government Act 1995*; or
 - (c) a member's conduct, action or comments brings the City of Vincent into disrepute.

12. VACANCIES

Vacancies shall be filled by calling for nominations of either the Council or community representatives. Members filling a vacated position will hold that position for the remainder of the two (2) years duration of the convened Advisory Group, as approved by the Council.

13. COUNCIL DECISION

The City's decision making obligations are guided by relevant legislative, strategic and operational requirements and therefore the views or proposals of an Advisory Group may not always prevail.

14. REVIEW

The operations of an Advisory Group shall be reviewed every two (2) years, or sooner if required.

12.2 SUSTAINABLE ENVIRONMENT STRATEGY 2019-2024 PROGRESS UPDATE

- Attachments:**
1. **Metrics: Progress towards SES targets**  
 2. **Maps: Tree planting and eco-zoning**  

RECOMMENDATION:

That Council NOTES:

1. the update on progress towards targets within Sustainable Environment Strategy 2019 – 2024; and
2. that 2019/20 metrics related to use of the City's buildings were impacted by facility shut-downs caused by COVID-19, which have contributed to reduced electricity, gas and scheme water consumption at a number of sites.

PURPOSE OF REPORT:

The purpose of this report is to provide Council with an update on progress towards the targets adopted in Sustainable Environment Strategy 2019 – 2024 (SES).

BACKGROUND:

At the Ordinary Meeting of Council held on 18 August 2020 Council received a progress update on the implementation of strategies within the SES. That update also included a list of key actions and achievements for 2019/20 in each of the five key opportunity areas of the SES. Most of the data needed to quantify progress toward SES targets in 2019/20 were not available at that time but have now been collected and analysed. This report provides the metrics and maps showing progress towards SES targets.

DETAILS:

The current SES was developed in 2018/19. At that time, 2017/18 was the most recent financial year for which complete datasets were available for the majority of opportunity areas. As a result 2017/18 is the baseline year against which most of the targets in the SES are set. The exceptions are tree canopy and community transport mode share, for which the most recent datasets were from 2014 and 2016 respectively.

The tables and graphs in **Attachment 1** detail the metrics that quantify and track progress towards most SES targets up to 30 June 2020. The exceptions being tree canopy (the latest available dataset is from 2018) and community transport mode share (updated dataset is pending Census 2020). Maps of greenway, street tree and eco-zone plantings that have been added since the SES baseline year of 2017/18 are provided in **Attachment 2**.

The following table highlights the key metrics across the SES opportunity areas for the City's facilities and operations:

Key opportunity area	Metric	Baseline	Target	Progress to date
Greenhouse Gas Emissions	Net greenhouse gas emissions from operational energy, operational transport and municipal waste	8,383 tons CO ₂ equivalent	0 tons CO ₂ equivalent by 2030	6,133 tons CO ₂ equivalent (on track to meet target)
Energy	Solar energy generation on City-owned buildings	58.7 Megawatt hours per year	589.8 Megawatt hours per year by 2024	438.1 Megawatt hours per year (on track to meet target)
	Total grid-supplied electricity used by the City's operations	6,401.8 Megawatt hours per year	5,761.6 Megawatt hours per year by 2024	4,322.4 Megawatt hours per year (target exceeded)

Key opportunity area	Metric	Baseline	Target	Progress to date
Transport	Percentage of the City's passenger vehicle fleet with tailpipe emissions	97%	50% by 2024	94% (6% EV, 59% hybrid) (on track to meet target)
Waste	Total waste to landfill	9,530 tonnes	0 tonnes by 2028	8,623 tonnes (on track to meet target)
Water	Total scheme water use by City-owned facilities	67,356 kilolitres per year	Maintain at or below 67,356 kilolitres per year (renovations target 15% reduction)	62,807 kilolitres per year (target exceeded)
	Groundwater use for irrigation	7,357 kilolitres per hectare per year	6,989 kilolitres per hectare per year by 2024	7,728 kilolitres per hectare per year (not on target)
Urban Greening and biodiversity	Tree canopy cover on public land	21.5%	23.3% by 2023	24% (target exceeded)
	Area of eco-zoning completed	49,549m ²	69,549m ² by 2023	66,578m ² (on track to meet target)

As indicated by the table above, the City is currently on track to meet or exceed most SES targets. 2019/20 metrics that reflect building use or occupancy must, however, be viewed in light of facility shut-downs caused by COVID-19 which have contributed to reduced electricity, gas and scheme water use at a number of sites.

The only area not on track in 2019/20 was groundwater use for irrigation and this can be attributed to two main factors:

- 1) The baseline year (against which targets were set) experienced above average rainfall and required less irrigation than prior years. It was understood at the time of setting the groundwater target that it was ambitious, though necessary given declining ground water reserves and expected reductions in water allocations; and
- 2) According to the Bureau of Meteorology, 2019/20 was particularly dry and warm. Rainfall was the lowest since 2010 and mean maximum temperatures were well above average, leading to higher than usual irrigation demand in spring and summer.

Given the above factors, it is not surprising that groundwater use in 2019/20 was not able to remain on target. Regardless, these findings indicate a need for additional focus on reducing groundwater use. Implementation of water sensitive urban design and exploration of alternative water sources for irrigation is ongoing.

CONSULTATION/ADVERTISING:

Nil.

LEGAL/POLICY:

Nil.

RISK MANAGEMENT IMPLICATIONS

Low: It is low risk for Council to consider the progress update on SES targets.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Enhanced Environment

*We have improved resource efficiency and waste management.
We have minimised our impact on the environment.
Our urban forest/canopy is maintained and increased.*

Accessible City

We have embraced emerging transport technologies.

Sensitive Design

Our planning framework supports quality design, sustainable urban built form and is responsive to our community and local context.

Innovative and Accountable

Our resources and assets are planned and managed in an efficient and sustainable manner.

SUSTAINABILITY IMPLICATIONS:

This is in keeping with the following key sustainability outcomes of the *City's Sustainable Environment Strategy 2019-2024*.

*Urban Greening and Biodiversity
Sustainable Energy Use
Sustainable Transport
Water Use Reduction
Waste Reduction*

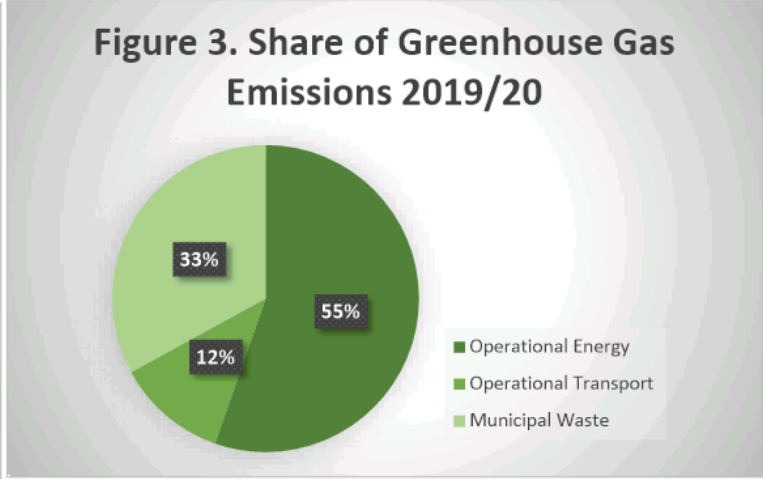

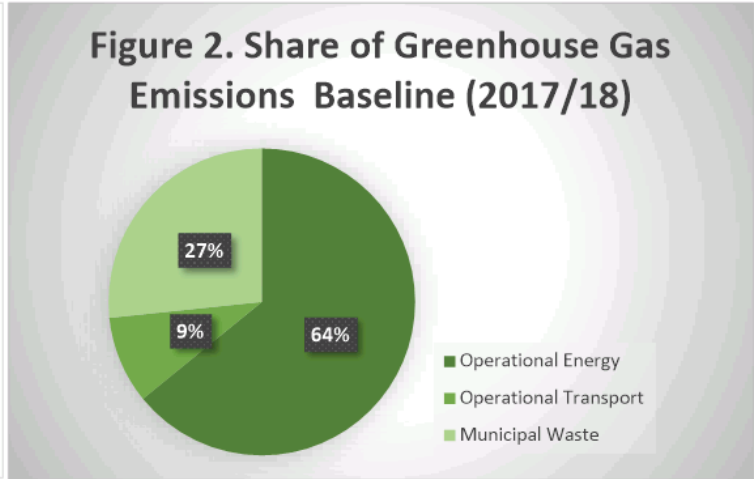

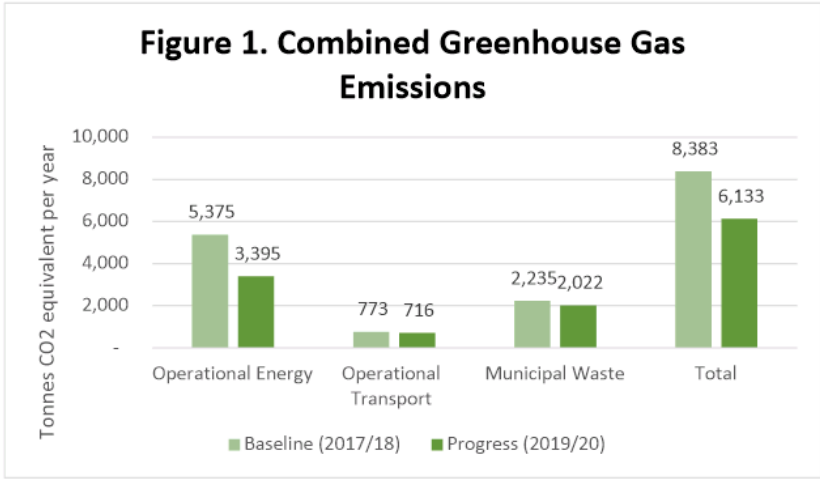

FINANCIAL/BUDGET IMPLICATIONS:

Funding for SES implementation actions has been included in the City's 2020/21 budget and key SES projects/programs are reflected in the City's Corporate Business Plan. Longer term funding of SES implementation is included in the City's Long-Term Financial Plan.

Metrics: progress towards Sustainable Environment Strategy 2019 – 2024 targets as at 30 June 2020

Table 1. Greenhouse gas emissions from operational energy use, operational transport and municipal waste

Greenhouse gas emissions	Metric	Unit of measure	Baseline	2019/20 Progress update	Target	Target year	Status tracking	Commentary
City operations plus landfill	Net greenhouse gas emissions from operational energy, operational transport and municipal waste	Tonnes of CO ₂ equivalent per year	8,383	6,133	0	2030	On track to achieve target	Greenhouse gas emissions across all three areas (energy, transport, waste) reduced compared to baseline. Refer to figures 1, 2 and 3 below. Commentary on each area in tables 2, 3 and 4 below.

Metrics: progress towards Sustainable Environment Strategy 2019 – 2024 targets as at 30 June 2020

Table 2. Energy and associated greenhouse gas emissions

Energy	Metric	Unit of measure	Baseline	2019/20 Progress update	Target	Target year	Status tracking	Commentary
City Operations	Total grid-supplied electricity	Megawatt hours per year	6,401.8	4,322.4	5,761.6	2024	Target exceeded	Progress made due to energy efficiency upgrades and renewable energy installations. Target exceeded probably due to COVID-related facility shut-downs.
	Total natural gas	Gigajoules per year	10,327.73	2,750.35	2,065.55	2024	On track to achieve target	Progress due to further optimisation of existing geothermal pool heating system and boiler replacement with efficient modular system. COVID-related facility shut-downs likely also played a part.
	Solar PV installed on City-owned buildings	Kilowatts	37.50	296	400.00	2024	On track to achieve target	Four major energy-using facilities received solar installations as part of Solar PV Program phase 1. Refer to figure 4 below.
	Solar energy generation on City-owned buildings	Megawatt hours per year	58.7	438.1	589.8	2024	On track to achieve target	
	Greenhouse gas emissions from electricity and gas used by the City's operations	Tonnes of CO ₂ equivalent per year	5,374.85	3,394.51	4,434.25	2024	Target exceeded	As described above.
Community	Average grid-supplied household electricity use	Kilowatt hours per day	13.26	12.58	11.93	2024	On track to achieve target	Average household consumption decreased despite more time spent at home in 2019/20 (due to COVID-19). Requirements in the City's Built Form Policy for better energy performance will have played some part in this.
	Percentage of free-standing and semi-attached dwellings with solar PV systems	Percentage	16.9%	19.9%	25.0%	2024	On track to achieve target	Increasing uptake of solar PV is driven by growing awareness of benefits and acceptance by strata bodies, decreasing cost, and by the City's Built form Policy requiring significantly reduced greenhouse gas emissions from new development. Refer to figure 5 below.
	Percentage of all dwellings with solar PV systems	Percentage	10.5%	12.8%	15.0%	2024	On track to achieve target	
	Estimated installed solar capacity	Kilowatts	7,638	13,306	12,355	2024	Target exceeded	Target exceeded due to individual systems becoming larger (possibly to cater for increased energy demand and to prepare for the addition of batteries in future). Refer to figure 6 below.
	Estimated electricity displaced from the grid by Vincent households using solar PV	Megawatt hours per year	12,266.6	21,369.4	19,842.4	2024	Target exceeded	
	Greenhouse gas emissions avoided	Tonnes of CO ₂ equivalent per year	9,200	16,027	14,882	2024	Target exceeded	

Metrics: progress towards Sustainable Environment Strategy 2019 – 2024 targets as at 30 June 2020

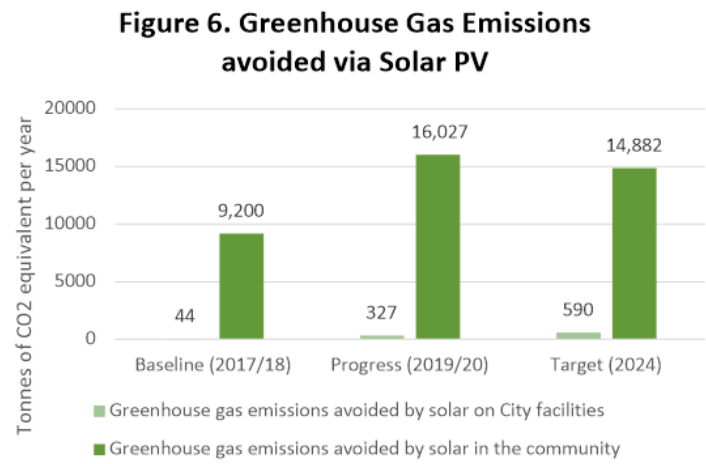

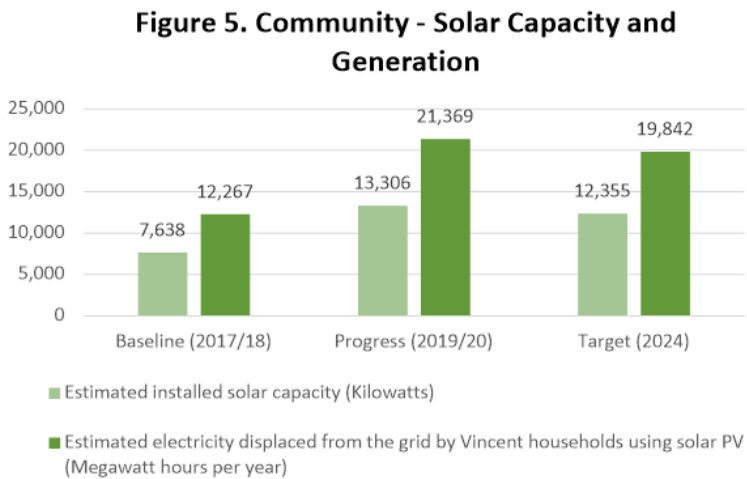

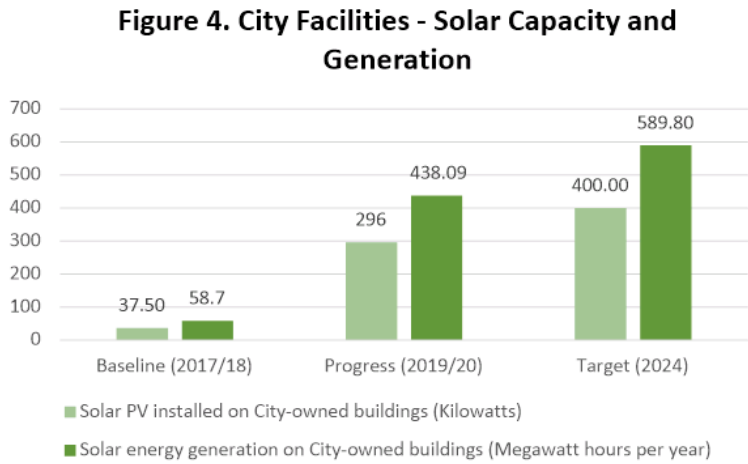

Table 3. Transport and associated greenhouse gas emissions

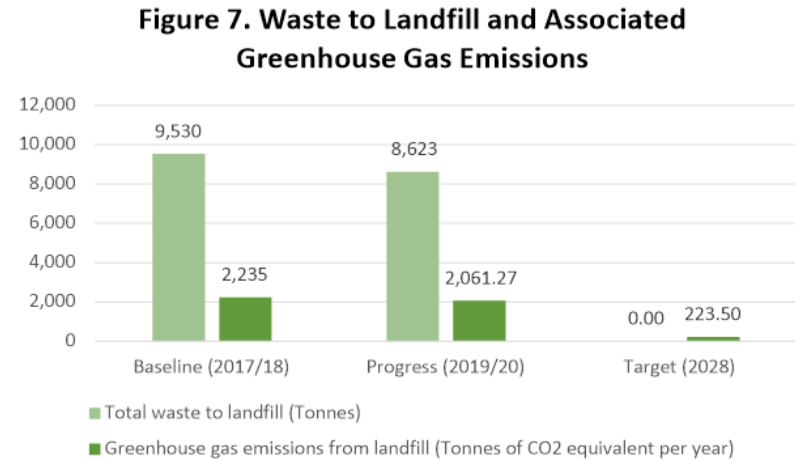

Transport	Metric	Unit of measure	Baseline	2019/20 Progress update	Target	Target year	Status tracking	Commentary
City Operations	Percentage of the City's passenger vehicle fleet with tailpipe emissions	Percentage	97%	94%	50%	2024	On track to achieve target	At baseline, 97% of the City's passenger fleet had traditional combustion engines. By 2019/20 this reduced to 35%, with 59% of the fleet now hybrid and 6% fully electric. Passenger fleet tailpipe emissions have reduced by 21% compared to baseline.
Community	Percentage of Vincent residents who use active or public transport to commute	Percentage	33%	not available for 2019/20	TBC	TBC	n/a	Target to be informed by the City's Accessible City Strategy. Update to mode share data pending Census 2020.
	Percentage ownership of zero emission vehicles by the community	Percentage	0.065%	0.080%	1.00%	2024	On track to achieve target	Sale of EVs nationally increased by 116% from 2018 to 2019. The first half of 2020 had a further 56% increase compared to the first half of 2019, indicating strong progress.

Metrics: progress towards Sustainable Environment Strategy 2019 – 2024 targets as at 30 June 2020

Table 4. Waste and associated greenhouse gas emissions

Waste	Metric	Unit of measure	Baseline	2019/20 Progress update	Target	Target year	Status tracking	Commentary
Operational & Community (Municipal)	Total waste to landfill	Tonnes	9,530	8,623	0	2028	On track to achieve target	Waste sent to landfill reduced by 9.5% compared to baseline. Total waste collected decreased by 5.4% while the diversion rate increased from 44% to 46.5%. Refer to figure 7 below.
	Greenhouse gas emissions associated with the breakdown of organic waste	Tonnes of CO ₂ equivalent per year	2,235.0	2,061.3	223.5*	2028		

*This figure assumes that all organic waste will be composted using aerobic processes, resulting in a 90% reduction in greenhouse gas emissions.

Metrics: progress towards Sustainable Environment Strategy 2019 – 2024 targets as at 30 June 2020

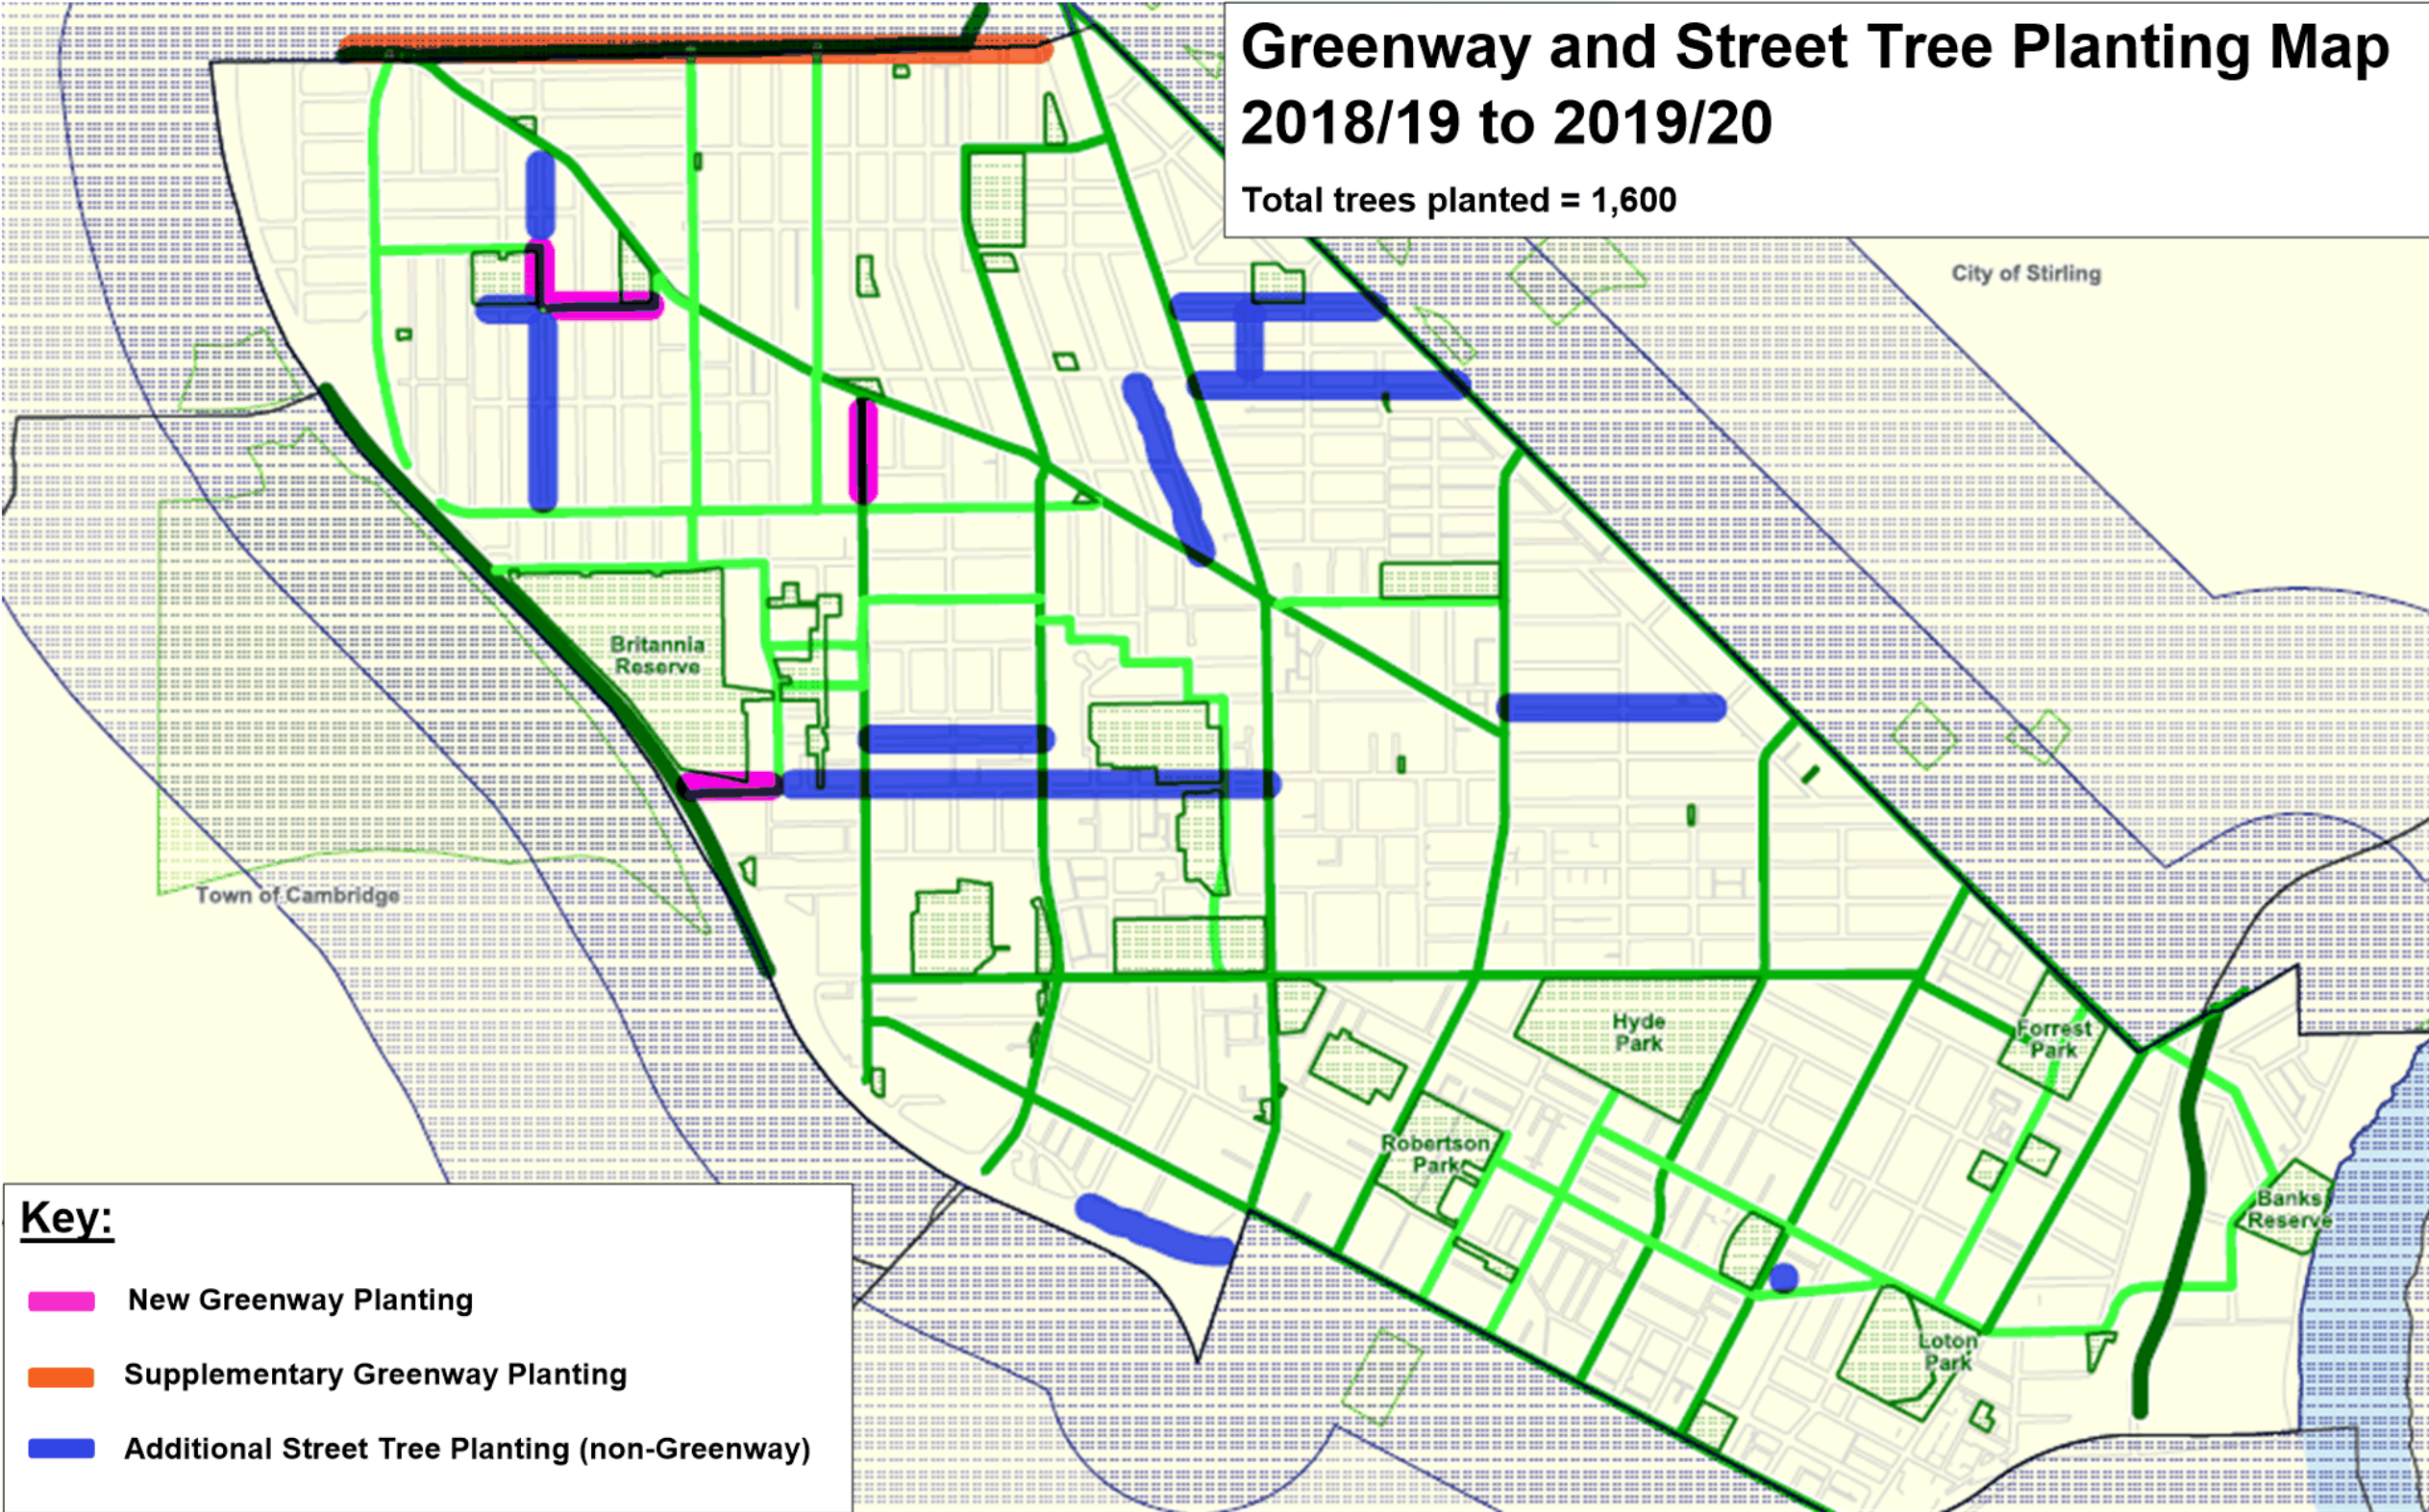

Table 5. Water

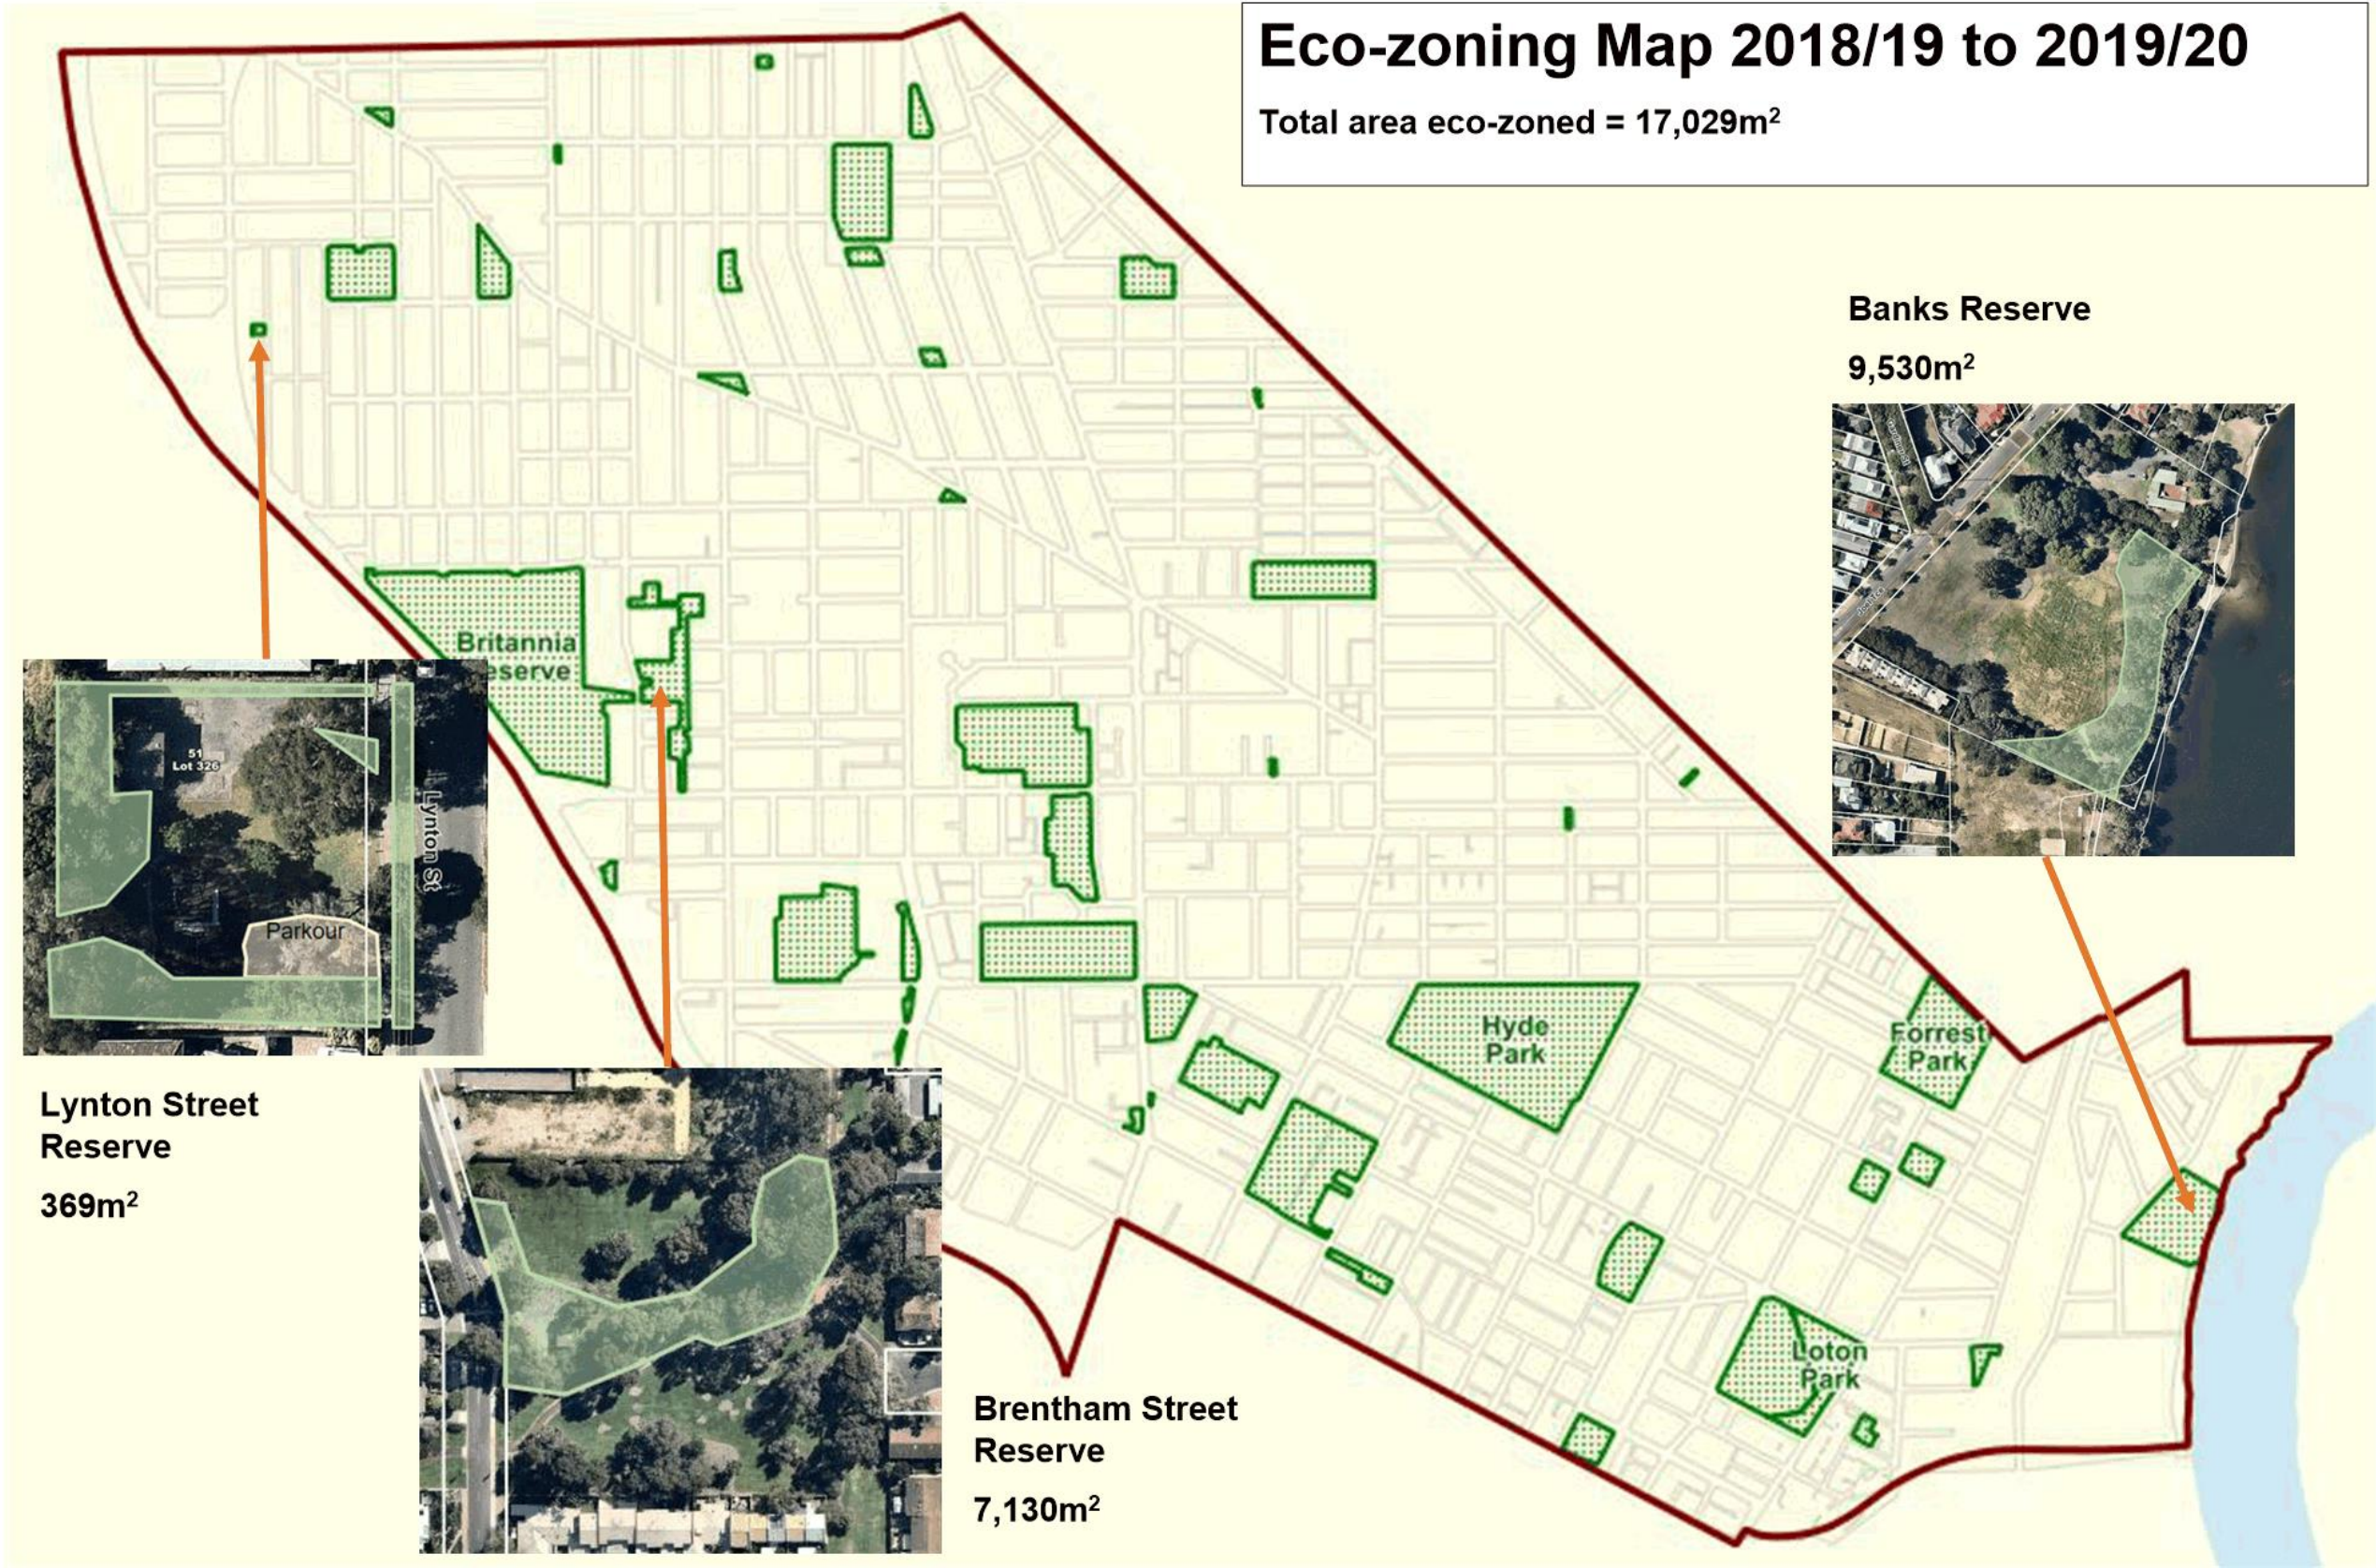

Water	Metric	Unit of measure	Baseline	2019/20 Progress update	Target	Target year	Status tracking	Commentary
City Operations	Total scheme water use by City-owned facilities	Kilolitres per year	67,356	62,807	67,356	Maintain at or below baseline	On track to achieve target	Facilities undergoing upgrades target a 15% scheme water use reduction, but increasing use commensurate with population growth is expected to counteract savings overall. It is likely that the target was exceeded in 2019/20 due to facility shut-downs caused by COVID-19.
	Groundwater use (average across all irrigated areas)	Kilolitres per hectare per year	7,357	7,728	6,989	2024	Not on track	Despite ongoing hydro-zoning and reticulation upgrades, irrigation use increased by 5% compared to baseline due to significantly warmer and drier weather conditions.
Community	Community scheme water use	Kilolitres per person per year	96.86	103.76	90.00	2024	Not on track	Per capita water use has increased by 7% compared to baseline. While concerning, it remains well below the Perth Average and Water Corporation's target of 110kL per person per year by 2030.
	Domestic groundwater use	Kilolitres per year	628,408 715,000	715,000.00	594,279.00	2024	Not on track	Domestic ground water is estimated because garden bores are not licensed or metered. Estimates are based on household water use surveys and a subset of metered samples. The baseline set in the SES was based on Water Corporation advice received in 2018/19. Updated estimates received from Water Corporation in 2020 indicate that this should have been closer to 715,000, hence the correction to the baseline in this table. The estimated use for 2019/20 remains the same as for the baseline year.

Metrics: progress towards Sustainable Environment Strategy 2019 – 2024 targets as at 30 June 2020

Table 6. Urban Greening and Biodiversity

Urban Greening and Biodiversity	Metric	Unit of measure	Baseline	2019/20 Progress update	Target	Target year	Status tracking	Commentary
City Operations	Tree canopy cover on public land	Percentage	21.5%	24.0%	23.3%	2023	Target exceeded	The City's street tree and greenway plantings have been ahead of schedule since the City's Greening Plan was first adopted in 2014.
	Number of street trees	Trees	13,000.00	14,600.00	13,500.00	2023	Target exceeded	
	Length of greenways established within the City	Kilometres	25.00	25.943	26.50	2023	On track to achieve target	Just under 1km of new greenways were planted, but this was accompanied by 1.4km of supplementary planting to increase canopy density on Green Street (an existing greenway) and significant additional street tree plantings as shown on the Greenways Map in Attachment 2 .
	Area of eco-zoning completed	Square metres	49,549	66,578	69,549	2023	On track to achieve target	17,029 square meters of eco-zoning was completed in the two years since baseline. Refer to Eco-zoning Map in Attachment 2 for details.
Community	Tree canopy cover on private land	Percentage	6.8%	9.0%	7.5%	2023	Target exceeded	The reason for this increase is yet to be understood, but may indicate that canopy growth trees planted in the last decade may be outstripping the rate of canopy loss due to clearing and development. It is unlikely that tree planting requirements in the Built Form Policy had significant influence on this result as they came into effect only in 2017.

12.3 REPORT AND MINUTES OF THE AUDIT COMMITTEE MEETING HELD ON 20 OCTOBER 2020

Attachments: 1. **Audit Committee Meeting Minutes - 20 October 2020**  

RECOMMENDATION:

That Council:

1. **RECEIVES** this report from the Audit Committee meeting of 20 October 2020 and the minutes of that meeting at Attachment 1;
2. **APPROVES** the recommendations of the Audit Committee as follows:
 - 2.1 **RECEIVES** the Office of the Auditor General's draft Audit findings identified during the information systems (ICT) audit for the period 1 July 2019 – 30 June 2020;
 - 2.2 **NOTES** that the 24 actions arising from the audit findings have been added to the City's Audit Log, that two of the audit findings are significant and should be addressed promptly, and that the two significant audit findings have been added to the City's Corporate Risk Register as high risks;
 - 2.3 **NOTES** the status of the City's Audit Log as at 8 October 2020 and that two high rated items in the Audit Log arising from the 2019 OAG Fraud Performance Audit - EA2019/7 and EA2019/8, are currently incomplete;
 - 2.3 **RECEIVES** the City's Corporate Risk Register as at 8 October 2020 and **APPROVES** the proposed risk management actions for the high and extreme risks, subject to the completion date for the ICT high risks being updated to 31 July 2021;
 - 2.4 **RECEIVES** the Office of the Auditor General audit report - Working with Children Checks - Managing Compliance; and **NOTES** the City's findings and actions as detailed in this report;
 - 2.5 **RECEIVES** the Western Australian Auditor General's Report – Regulation of Consumer Food Safety by Local Government Entities; and **NOTES** the City's findings and actions as detailed in this report; and

That the Audit Committee ADOPTS the meeting schedule for 2021 as follows:

2.6

Date	Time
Tuesday 2 March	1.00pm
Tuesday 4 May	1.00pm
Tuesday 29 June	1.00pm
Tuesday 31 August	1.00pm
Tuesday 2 November	1.00pm
Tuesday 30 November	1.00pm

PURPOSE OF REPORT:

To report to Council the proceedings of the Audit Committee at its meeting held on 20 October 2020 in accordance with clause 2.21(1) of the City's Meeting Procedures Local Law 2008.

BACKGROUND:

The City's Audit Committee is a statutory committee of Council, established in accordance with section 7.1A of the *Local Government Act 1995*. The role of the Audit Committee is to provide independent advice and assurance to Council over the City's risk management, internal controls, legislative compliance and financial management.

The Audit Committee meets approximately every two months and comprises of three external independent members (one of which is the Audit Committee Chair) and four Elected Members.

DETAILS:

At its meeting on 20 October 2020, the Audit Committee considered five agenda items as follows:

- 5.1 Update on the Office of the Auditor General's (OAG) external audit – interim audit findings - ICT
- 5.3 Review of the City's Audit Log
- 5.4 Review of the City's Corporate Risk Register
- 5.5 Review of Office of the Auditor General Audit Report – Working with Children Checks – Managing Compliance
- 5.6 Review of Office of the Auditor General Audit Report – Regulation of Food Safety by Local Government Entities
- 5.7 Audit Committee Meeting Dates 2021

Item 5.2 – regulation 5 and regulation 17 review report and recommendations was withdrawn by Administration prior to the meeting, as the report was not provided by Stantons International in time for the meeting. The item will be presented to the 24 November 2020 Audit Committee Meeting.

Details of the key agenda items are set out below.

5.1 Update on the Office of the Auditor General's external audit – interim audit findings - ICT

The Office of the Auditor General provided its interim audit findings on the ICT audit conducted at the City. The 24 findings were added to the City's Audit Log, with the proposed actions and timeframes listed. Two significant issues were identified – database security and vulnerability management – and have been added to the Corporate Risk Register as high risks.

The Audit Committee requested an update on the progress towards completion of the two significant items at the next meeting, 24 November 2020.

5.3 Review of the City's Audit Log

One item (online leave system) was closed and 24 items (from the ICT audit) were added to the Audit Log. The Audit Committee noted that two of the three ongoing items are rated as high risk. These two items relate to the preparation of a fraud and corruption control plan and training on fraud awareness for all staff. The control plan is scheduled to be approved internally by 31 December 2020, with training scheduled for early 2021.

5.4 Corporate Risk Register

The Audit Committee considered the addition of three new medium risks and two high risks, as follows:

- Emerging safety risk of aging / unsafe assets added as a medium risk
- Non-compliance with drafting requirements for local laws added as a medium risk
- Fraudulent booking/use of City facilities resulted in damage to facilities and public nuisance added as a medium risk
- Authority database security added as a high risk
- Vulnerability management added as a high risk

The Audit Committee requested a presentation on the safety risk of ageing / unsafe assets.

CONSULTATION/ADVERTISING:

Nil.

LEGAL/POLICY:

Clause 2.21 of the City's Meeting Procedures Local Law 2008 states that the report and minutes of a Committee meeting are to be provided to Council.

The Audit Committee Terms of Reference governs the functions, powers and membership of the Audit Committee.

RISK MANAGEMENT IMPLICATIONS:

Low: It is low risk for Council to consider the report and minutes of the Audit Committee meeting on 20 October 2020.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Innovative and Accountable

Our resources and assets are planned and managed in an efficient and sustainable manner.

We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATIONS:

Nil.

FINANCIAL/BUDGET IMPLICATIONS:

Nil.

20 OCTOBER 2020

MINUTES OF CITY OF VINCENT
AUDIT COMMITTEE
HELD AT THE ADMINISTRATION AND CIVIC CENTRE
244 VINCENT STREET, LEEDERVILLE
ON TUESDAY, 20 OCTOBER 2020 AT 1.00PM

PRESENT:	Mr Conley Manifis Cr Joshua Topelberg Mr Robert Piper Cr Ashley Wallace Cr Susan Gontaszewski	Independent External Member (Chair) South Ward (Deputy Chair) Independent External Member South Ward South Ward
IN ATTENDANCE:	David MacLennan Virginia Miltrup Vanisha Govender Meluka Bancroft Peter Ferguson Wendy Barnard	Chief Executive Officer Executive Director Community & Business Services Executive Manager Financial Services Executive Manager Corporate Strategy & Governance Executive Manager ICT Council Liaison Officer

1 INTRODUCTION AND WELCOME

The Presiding Member, Conley Manifis, declared the meeting open at 1.06pm and read the following Acknowledgement of Country statement:

"The City of Vincent would like to acknowledge the Traditional Owners of the land, the Whadjuk people of the Noongar nation and pay our respects to Elders past, present and emerging".

2 APOLOGIES / MEMBERS ON APPROVED LEAVE OF ABSENCE

Cr Dan Loden – Apology.

3 DECLARATIONS OF INTEREST

Conley Manifis declared an impartiality interest. The extent of his interest is that his company is contracted by the Office of the Auditor General to complete external audits.

4 CONFIRMATION OF MINUTES**COMMITTEE DECISION**

Moved: Cr Gontaszewski, **Seconded:** Cr Wallace

That the minutes of the Audit Committee held on 1 September 2020 be confirmed.

CARRIED UNANIMOUSLY (5-0)

For: Mr Manifis, Cr Topelberg, Mr Piper, Cr Wallace and Cr Gontaszewski

Against: Nil

(Cr Loden was an apology for the Meeting.)

AUDIT COMMITTEE MINUTES

20 OCTOBER 2020

5 BUSINESS ARISING**5.1 UPDATE ON THE OFFICE OF THE AUDITOR GENERAL'S EXTERNAL AUDIT - INTERIM AUDIT FINDINGS - ICT****Attachments:** 1. OAG ICT audit findings - draft - Confidential**RECOMMENDATION:**

That the Audit Committee recommend to Council that it:

1. RECEIVES the Office of the Auditor General's draft Audit findings identified during the information systems (ICT) audit for the period 1 July 2019 – 30 June 2020, as at Attachment 1; and
2. NOTES that the 24 actions arising from the audit findings have been added to the City's Audit Log.

Moved: Cr Topelberg, Seconded: Cr Gontaszewski

That the recommendation be adopted.

AMENDMENTMoved: Mr Piper, Seconded: Cr Gontaszewski

That the following recommendations be added:

3. NOTES that two of these audit findings are significant and should be addressed promptly.
4. NOTES that the two significant audit findings have been added to the City's Corporate Risk Register as high risks.
5. REQUESTS that a report on the progress towards completion of the two significant audit findings, by no later than 31 July 2021, be presented to the 24 November 2020 Audit Committee meeting.

AMENDMENT CARRIED UNANIMOUSLY (5-0)**For:** Mr Manifis, Cr Topelberg, Mr Piper, Cr Wallace and Cr Gontaszewski**Against:** Nil

(Cr Loden was an apology for the Meeting.)

COMMITTEE DECISION 5.1

That the Audit Committee:

1. RECOMMEND to Council that it:
 - 1.1 RECEIVES the Office of the Auditor General's draft Audit findings identified during the information systems (ICT) audit for the period 1 July 2019 – 30 June 2020, as at Attachment 1; and
 - 1.2 NOTES that the 24 actions arising from the audit findings have been added to the City's Audit Log.
 - 1.3 NOTES that two of the audit findings are significant and should be addressed promptly.

Page 4

AUDIT COMMITTEE MINUTES**20 OCTOBER 2020**

- 1.4 NOTES that the two significant audit findings have been added to the City's Corporate Risk Register as high risks.
2. REQUESTS that a report on the progress towards completion of the two significant audit findings, by no later than 31 July 2021, be presented to the 24 November 2020 Audit Committee meeting.

CARRIED UNANIMOUSLY (5-0)

For: Mr Manifis, Cr Topelberg, Cr Wallace, Mr Piper and Cr Gontaszewski

Against: Nil

(Cr Loden was an apology for the Meeting.)

NOTES:

The Audit Committee requested that the Office of the Auditor General auditor responsible for the ICT audit be invited to the 24 November 2020 Audit Committee meeting to discuss the ICT audit findings, and provide a comparison between the City of Vincent and other local governments.

AUDIT COMMITTEE MINUTES**20 OCTOBER 2020**

5.2 REGULATION 5 AND REGULATION 17 REVIEW REPORT AND RECOMMENDATION**Attachments: Nil**

This item was withdrawn by Administration and will be presented to the Audit Committee meeting on 24 November 2020.

AUDIT COMMITTEE MINUTES

20 OCTOBER 2020

5.3 REVIEW OF THE CITY'S AUDIT LOG

Attachments: 1. Audit Log as at 8 October 2020  

RECOMMENDATION:

That the Audit Committee recommends to Council that it NOTES the status of the City's Audit Log as at 8 October 2020, at Attachment 1.

Moved: Mr Piper, Seconded: Cr Gontaszewski

That the recommendation be adopted.

AMENDMENT

Moved: Mr Piper, Seconded: Cr Topelberg

That the following recommendation be added:

NOTES that two high rated items in the Audit Log arising from the 2019 OAG Fraud Performance Audit - EA2019/7 and EA2019/8, are currently incomplete.

AMENDMENT CARRIED UNANIMOUSLY (5-0)

For: Mr Manifis, Cr Topelberg, Cr Wallace, Mr Piper and Cr Gontaszewski

Against: Nil

(Cr Loden was an apology for the Meeting.)

COMMITTEE DECISION 5.3

That the Audit Committee recommends to Council that it:

1. NOTES the status of the City's Audit Log as at 8 October 2020, at Attachment 1; and
2. NOTES that two high rated items in the Audit Log arising from the 2019 OAG Fraud Performance Audit - EA2019/7 and EA2019/8, are currently incomplete.

CARRIED UNANIMOUSLY (5-0)

For: Mr Manifis, Cr Topelberg, Cr Wallace, Mr Piper and Cr Gontaszewski

Against: Nil

(Cr Loden was an apology for the Meeting.)

NOTES:

The Audit Committee requested that:

- *Reasons are provided under the "Actions" section of the Audit Log for any change to the completion date. These reasons should also be included in the report to Audit Committee.*
- *The items in the Audit Log have a colour based on their risk rating - high, medium or low.*
- *For an item to be added to the Audit Log, a report needs to be provided to the Audit Committee outlining the item, risk, the proposed management actions and timeframe for completion.*

CITY OF VINCENT AUDIT LOG

<p>EA: 2019/12(6) Butler Settineri – Payroll – Internal Audit Review</p> <p>LEAVE</p> <p>General Findings:</p> <p>The leave forms for two employees [names removed for privacy] were not filed electronically within the TRIM and Civica Authority system and could not be located in employee files. The City has recently moved to an "online" leave management system for all staff other than the Works Department and Beatty Park Leisure Centre.</p> <p>Recommendations – General Findings:</p> <p>All manual leave application forms, duly approved and authorised, be filed electronically within the TRIM and Civica Authority system. All staff be transitioned to the "online" leave management system to ensure a more accurate leave recording and processing system.</p> <p>Risk Rating (prior to controls) Low</p> <p>Risk Rating (with current controls) Low</p>	<p>Responsible Officer: Executive Manager Human Resources</p> <p>Comments:</p> <p>It is our intent by March 2020 that all staff transition to complete online leave via CIVICA.</p>	<p>November 2019 Review all staff members that are currently completing a hard copy leave form and train staff on the online leave processes through Civica.</p> <p>February 2020: Only staff not completing online timesheets are outdoor workers. A new time sheeting form has been implemented as a pilot with Waste and Engineering Operations with success. Will rollout time sheeting process to all outdoor workers by 30 April 2020.</p> <p>March 2020: Develop online training for outdoor workers to complete electronic leave forms through Authority.</p> <p>June 2020 Preparation of training material is taking place for training in July 2020.</p> <p>July 2020 Preparation of training material delayed. Will commence in August 2020 and finalise in September 2020.</p> <p>August 2020 Meeting with People Leaders at the Depot to discuss and mandate online leave with all staff being required to complete online leave as of 1 October 2020. Training material has been completed. Staff training will commence over the coming month (possibly 3 training sessions) with staff and supervisors prior to 1 October 2020.</p>	<p>30/04/2020</p> <p>31/07/2020</p> <p>30/9/2020</p> <p>Completed</p>
<p>Review of DPLH's investigation into legislative non-compliance - unauthorised works at Banks Reserve</p> <p>Development of an internal procedure detailing the approvals required for works or maintenance on land within the Swan River Foreshore, Development Control Area and Aboriginal Heritage Areas.</p> <p>Provide training for relevant staff on the approvals required.</p> <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls) Low</p>	<p>Responsible Officer: Executive Manager Corporate Strategy and Governance</p>	<p>August 2020 Internal procedure to be drafted and training organised.</p> <p>October 2020 On track.</p>	<p>30/12/2020</p>

CITY OF VINCENT AUDIT LOG

<p>EA:2020/10 (1) (a) and (b) Office of the Auditor General Information Systems Audit – Database Security</p> <p>Finding: We performed a high level security test on key business application (Authority) database and found the following:</p> <ul style="list-style-type: none">• The database server is missing software updates since 2012, which have been released by the vendor.• Data encryption is not used to protect highly sensitive information.• Database logging and auditing is not in place to monitor and record system changes. As a result, any changes made directly in the database are not captured.• The "PUBLIC" role has default grant privilege on database objects within the Authority database.• The database has not been securely hardened. <p>Implication Without appropriate database security controls, the confidentiality, integrity and availability of sensitive information may be compromised.</p> <p>Recommendation The City should review and enhance its database management processes to:</p> <ul style="list-style-type: none">• ensure updates to address known vulnerabilities are applied in a timely manner• assess the risks around storing sensitive information in plain text• review logging and alerting user activities to ensure sensitive data security• review assigned public roles within the database and remove those not needed• based on a risk assessment, hardened database security and improve monitoring controls. <p>Risk Rating (prior to controls) High</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 The response will have two phases :</p> <p>(a) Phase 1</p> <p>Short/medium-term remediation will be made where possible:</p> <p>a. Database server software updates. A project to upgrade the database was postponed in 2019 when it was merged into a larger project to upgrade the entire Authority software solution. The Authority upgrade project is currently on hold until a project dependency (chart of accounts upgrade) is completed (now due June 2021). To fast-track response to this audit finding, the database upgrade will again be separated from the Authority upgrade project and commenced as soon as can be scheduled with the vendor.</p> <p>b. Database hardening will be reviewed and applied as part of 1a) above.</p> <p>c. Database logging and auditing will be enabled in line with an improvement to data backup/recovery services used by the City.</p> <p>(b) Phase 2</p> <p>Long-term remediation will be achieved via an Authority software upgrade project already commissioned with the vendor. Several findings relate to vendor software architecture – these will need to be added to an operational risk register (to be developed per Finding 6) and resolved as part of the software upgrade:</p> <p>a. All sensitive information will be encrypted</p> <p>b. The use of grant privilege for the PUBLIC role will be eliminated</p>	<p>March 2021</p> <p>March 2022</p>
--	---	--	-------------------------------------

CITY OF VINCENT AUDIT LOG

<p>EA:2020/10 (2) Office of the Auditor General Information Systems Audit – Vulnerability Management</p> <p>Finding We found that the City has not established adequate policies or procedures around management of vulnerabilities on servers and workstations. Furthermore, the City is not undertaking regular vulnerability assessments on their IT systems. These assessments are required to ensure the effective identification of vulnerabilities and to support the patch management processes.</p> <p>In addition, vulnerability assessments completed as part of the audit identified 56 critical and 47 high vulnerabilities relating to missing service packs and/or software, which is no longer supported by the vendor.</p> <p>Implication Without having effective procedures for identifying, assessing and addressing potential vulnerabilities within a timely manner, the system and/or data may not be adequately protected against potential threats. These vulnerabilities could be exploited and may result in unauthorised access to sensitive data or the loss of system operation.</p> <p>Recommendation The City should develop effective vulnerability management processes. As part of the process, the City should carry out regular vulnerability assessments. These assessments should use appropriate tools to ensure all known vulnerabilities are identified. The vulnerability assessment process should include all relevant IT systems, IT infrastructure and applications.</p> <p>Software updates (patches) to fix known vulnerabilities should be evaluated, tested and where appropriate, applied to systems within a timely manner. Documented policy and procedure guides should be maintained to ensure IT staff are meeting requirements.</p> <p>If decisions are made not to install any critical or security patches, the risk must be understood and any possible alternative mitigations investigated. Relevant details should also be recorded in an appropriate patch register/database.</p> <p>Risk Rating (prior to controls) High</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 Administration’s software patching processes have matured, however vulnerability testing is still a gap. Administration will respond with two new ongoing activities provided as a managed service:</p> <ol style="list-style-type: none">1. The introduction of a monthly vulnerability assessment process,2. Monthly reporting of vulnerabilities with remediation actions &/or mitigations	<p>December 2020</p>
--	---	---	----------------------

CITY OF VINCENT AUDIT LOG

<p>EA:2020/10 (3) Office of the Auditor General Information Systems Audit – Segregation of Duties</p> <p>Finding We found that segregation of duties (SoD) is not enforced within the Authority system. Additionally, the SoD matrix which details specific roles is also not being maintained.</p> <p>Implication Without SoD appropriately enforced within the system, there is an increased risk that individuals can perform a number of conflicting functions. This may result in an increased number of errors or possibly lead to fraud.</p> <p>Recommendation The City should develop an appropriate SoD matrix for the Authority system. This matrix should be used to ensure that no users are assigned multiple roles that would be considered high risk or conflicting. A formal review process should ensure that no user is assigned any conflicting duties. A formal record of completed reviews should be maintained.</p> <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 In September 2020 Administration commissioned a change with the Authority software vendor to help clean-up access roles. This will make the allocation of access to various roles/groups more efficient and in turn help Administration formally develop and apply a segregation of duties matrix.</p>	<p>February 2021</p>
<p>EA:2020/10 (4) Office of the Auditor General Information Systems Audit – Information Security Policy</p> <p>Finding We found that the City does not have an adequate <i>Information Security Policy</i> to cover key areas of information security. The current policy is in draft as the City is in the process of developing it.</p> <p>Implication Without adequate policies and procedures, there is an increased risk that the City will not achieve its objectives for information security. Additionally, staff may not be aware of management expectations relating to security of information.</p> <p>Recommendation The City should reviewing and update its current policies and procedures or develop new ones appropriately address all relevant areas of information security. Management should endorse the new policies and notify all employees and relevant stakeholders of updates.</p> <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 As noted in the Finding, Administration has a draft Information Security Program and will seek to formalise it and align all security activities and improvements to it. The document is based on standards used by the Office of the Auditor General during this audit.</p>	<p>December 2020</p>

CITY OF VINCENT AUDIT LOG

<p>EA:2020/10 (5) Office of the Auditor General Information Systems Audit – Operational ICT Risks</p> <p>Finding We found that the City's ICT risks have not been appropriately identified. The current IT risk register is limited to high-level business continuity risks and does not include the broader listing of operational risks and controls associated with IT functions.</p> <p>Implication An incomplete risk register limits the ability to assess the effectiveness of specific controls against risk and their treatments. This could result in control gaps going undetected and/or control deficiencies left unresolved.</p> <p>Recommendation The City should expand on its information risk management process to ensure:</p> <ul style="list-style-type: none">the ICT risks within the risk register are up to date and maintainedall relevant risks are appropriately documented in the ICT risk registerthe ICT risk management process aligns with the broader organisation risk registercontrols are appropriately assessed and assigned relevant ratings in line with internal guidelines. <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology Executive Manager Corporate Strategy & Governance</p>	<p>October 2020 Developing and maintaining a broad register of ICT operational risks will be formally included inside a managed services agreement. Administration will maintain risk ownership, managed service resourcing will help coordinate risk maintenance and controls.</p>	<p>January 2021</p>
<p>EA:2020/10 (6) Office of the Auditor General Information Systems Audit – Information Security Training and Awareness</p> <p>Finding We found that the City does not have a formalised induction training and an ongoing awareness program covering information security responsibilities and cyber risks relevant to the City.</p> <p>We note that the City informs its staff about phishing scams via emails.</p> <p>Implication Without a formal induction training and ongoing information security awareness program, there is an increased risk that individuals will not understand security risks relevant to the City and their personal responsibilities. This may result in inappropriate actions, which affect the confidentiality, integrity and availability of information.</p> <p>Recommendation The City should establish an appropriate induction and ongoing information security awareness program. The program should be used to help maintain awareness of the information security and cyber risks relevant to the City. It should also ensure individuals are aware of their personal responsibilities for information security. The awareness program should be updated regularly so it stays in line with policies, procedures and any new or emerging threats. It should also incorporate any lessons learned from information security incidents along with relevant details from information security good practices.</p> <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 Administration will establish induction training and an ongoing information security awareness program.</p>	<p>March 2021</p>

CITY OF VINCENT AUDIT LOG

<p>EA:2020/10 (7) Office of the Auditor General Information Systems Audit – Network Access Management</p> <p>Finding We found the current process to disable and review network access accounts is not operating effectively. We identified 6 active accounts belonging to terminated employees, and 2 have accessed the system after their termination date.</p> <p>Implication Without effective procedures to review and disable user accounts, there is an increased risk of unauthorised access to the City's IT systems and/or information.</p> <p>Recommendation The City should enhance their current network access review process. It should ensure that exiting staff notifications are provided to service desk in a timely manner and actioned appropriately.</p> <p>In addition, regular reviews of all system user access should be undertaken (e.g. checking the last login date, accounts that have never logged in etc.). Any accounts that are identified as no longer required or those which have not accessed the system for an agreed period should be appropriately removed or disabled. The City should also investigate those employees' accounts that were used after their termination.</p> <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 Administration will improve its off-boarding processes to ensure that system access is only ever available to authorised users. System access reviews and investigations will be formally included inside a managed services agreement.</p>	<p>January 2021</p>
<p>EA:2020/10 (8) Office of the Auditor General Information Systems Audit – Logging and Monitoring</p> <p>Finding We found that the City does not have formalised policies or procedures for logging and review of security logs for network, applications and remote access.</p> <p>Implication Without effective system logging and pro-active monitoring of logs, there is an increased risk that any potential problems, trends or ongoing attempts to compromise system or data will not be identified.</p> <p>Recommendation We recommend that the City implements appropriate levels of monitoring activities on its ICT environment. Key systems that control or restrict user access or process and store sensitive data, the following should be considered:</p> <ul style="list-style-type: none">• Implement policy and procedure guides on what monitoring and logging will be performed.• Review log files on a regular basis to identify any suspicious events or activities.• Storing log files in a secure location to prevent any unauthorised alterations or deletions. <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 Monitoring and logging policy and procedure will be defined against the Information Security Program (per Finding 5). Review of logs will be formally included inside a managed services agreement. Log file storage will be in a secure location.</p>	<p>January 2021</p>

CITY OF VINCENT AUDIT LOG

<p>EA:2020/10 (9) Office of the Auditor General Information Systems Audit – Authority User Review Process</p> <p>Finding The City does not have a routine process to review users with access to Authority application.</p> <p>Implication Without appropriate user access management controls, there is an increased risk of unauthorised access. This may impact the confidentiality, integrity and availability of the City's information.</p> <p>Recommendation The City should develop, document and implement appropriate application user account management practices.</p> <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 In line with Finding 3, monthly reports will be provided to key Authority managers to review and approve users based on a segregation of duties matrix.</p>	<p>February 2021</p>
<p>EA:2020/10 (10) Office of the Auditor General Information Systems Audit – Authority Event Monitoring</p> <p>Finding We found that there are no formalised requirements for pro-active or regular review of event logs generated by key business application (Authority) to identify unauthorised access or malicious activity.</p> <p>Implication Without effective pro-active monitoring of high-risk events, there is an increased risk that any potential problems, trends or ongoing attempts to compromise systems or data will not be detected.</p> <p>Recommendation Based on an assessment of risks, the City should formalise a process to monitor and review key events in business applications.</p> <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 An Access Report will be developed on a monthly basis for key Authority managers, aligned to the user review process per Finding 10. Any trends or access concerns will be identified such that email/sms alerts can be created for more immediate notification/action.</p>	<p>February 2021</p>

CITY OF VINCENT AUDIT LOG

<p>EA:2020/10 (11) Office of the Auditor General Information Systems Audit – Unsupported Operating System</p> <p>Finding The City currently has over 10 servers and workstations running unsupported operating systems. These include Windows Server 2008 R2 Enterprise, Windows Server 2008 and Windows 7 for which Microsoft ceased support on 14 January 2020 and 14 July 2015.</p> <p>Our review identified that those systems were active in March 2020 during the audit conduct.</p> <p>Implication Unsupported operating systems no longer receive security and/or vulnerability updates from the product vendor. As a result, there is an increased risk that these systems are susceptible to exploits, which may compromise the City network and systems.</p> <p>Recommendation We recommend that all devices running unsupported operating systems be upgraded to supported system. If this is not possible due to operational needs, alternate mitigations must be applied.</p> <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 All Windows 7 systems have now been decommissioned. Windows Server 2008 systems will be decommissioned as part of the Authority upgrade project noted in Finding 1. Given the estimated completion time of the Authority upgrade project, the risk of maintaining Windows 2008 systems will be included in the risk register to be developed against Finding 6.</p>	<p>January 2021</p>
<p>EA:2020/10 (12) Office of the Auditor General Information Systems Audit – Unauthorised Device Connectivity</p> <p>Finding We found that the City does not have adequate controls in place to restrict the use of unauthorised devices on their network.</p> <p>Implication Without appropriate controls in place to restrict the use of unauthorised devices on the network, there is an increased risk that they could be used to attack internal systems.</p> <p>Additionally, unauthorised devices that connect to the network could result in the spread of malware to the City's network.</p> <p>Recommendation The City should review the risks to their network and implement appropriate controls to prevent and detect the use of any unauthorised IT devices.</p> <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 The City is progressively moving to a "WIFI only" network for the majority of devices. The City's WIFI network is currently configured to meet this security restriction requirement. The wired network will itself be upgraded to support certificate-based access as part of a communications upgrade project due to complete in early 2021.</p>	<p>February 2021</p>

CITY OF VINCENT AUDIT LOG

<p>EA:2020/10 (13) Office of the Auditor General Information Systems Audit – Network Device Management</p> <p>Finding We reviewed the City's firewalls and network device (routers, switches) management process and found the following issues:</p> <ul style="list-style-type: none">• Devices are not securely managed.• The firewall logs are not appropriately configured. <p>Implication Without appropriate controls to manage the network devices, there is an increased risk that:</p> <ul style="list-style-type: none">• individuals will not be accountable for any unauthorised or unintentional modifications to the system• unauthorised access to the system could occur• malicious traffic may not be detected and prevented• suitable evidence to support any forensic or internal investigations may not be available• user credentials may be intercepted and used to gain access to the City's IT systems and information. <p>Recommendation The City should implement an appropriate process to securely manage and configure network devices.</p> <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 Several changes have now been implemented to follow recommended access account controls and logging configuration. Additional security improvements to meet system access recommendations will be reviewed further and either modified or logged against an operational risk register to be developed per Finding 6.</p>	<p>January 2021</p>
---	---	---	---------------------

CITY OF VINCENT AUDIT LOG

<p>EA:2020/10 (14) Office of the Auditor General Information Systems Audit – Data Centre Management</p> <p>Finding The City does not have adequate policies or documented procedures defining responsibility for managing the primary data centre, and access management processes (e.g. request, approve, and review access to data centre).</p> <p>Furthermore, we found that non-IT related hardware were located in the data centre room.</p> <p>Implication Without adequate protection of IT systems against physical threats there is an increased risk of unauthorised access to systems, and accidental or deliberate damage.</p> <p>Recommendation The City should:</p> <ul style="list-style-type: none">• develop appropriate data centre access management policies and procedures• restrict the number of staff who can access the room• perform regular access reviews and remove inappropriate users in a timely manner. Records of the reviews should be retained.• only store IT-related hardware in the room. <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 The City accepts Finding 15. Data centre security improvements will be made to include card-only access. If possible, CCTV recording will also be introduced as part of a separate building security initiative. Review of access logs will be formally included inside a managed services agreement. All non-IT related hardware will be removed from the data centre.</p>	<p>January 2021</p>
---	---	--	---------------------

CITY OF VINCENT AUDIT LOG

<p>EA:2020/10 (15) Office of the Auditor General Information Systems Audit – Change Management</p> <p>Finding We found that the City does not have a formal change management process in place. We identified the following issues:</p> <ul style="list-style-type: none">• There is no IT change management policy or procedure that sets out the overall objectives and requirements for change management to ensure all IT system changes are appropriately controlled and managed.• The responsibilities to manage, co-ordinate and approve IT changes are not formally assigned.• There is no central register for recording and tracking details of all internal changes that are made to IT infrastructure, firewall rules and systems, including application upgrades. <p>Implication There is a risk that without change management policies and procedures, changes made to IT systems may not be adequately managed and authorised. The availability or security of IT systems could be compromised should a change negatively impact them.</p> <p>Recommendation The City should:</p> <ul style="list-style-type: none">• develop an appropriate IT change management policy or procedure. The policy should set out the overall objectives and requirements for change management process• outline appropriate change management role and/or responsibilities to manage, co-ordinate and approve IT changes• make sure all IT system changes are accurately recorded, managed and tracked in a centralised change register. <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 A draft Change Management Policy was provided during the audit. Change Management processes will be formalised per the Information Security Program noted in Finding 5; the register for recording and tracking changes will be formally included inside a managed services agreement.</p>	<p>January 2021</p>
--	---	---	---------------------

CITY OF VINCENT AUDIT LOG

<p>EA:2020/10 (16) Office of the Auditor General Information Systems Audit – Incident and Problem Management</p> <p>Finding We found that there is no standardised process in place to manage IT related incidents. Furthermore, the City does not have a formal process to outline problem management to appropriately manage IT problems, which occur in its IT environment. In addition, data from incidents is not analysed to identify known errors or problems.</p> <p>Implication If IT incidents are not consistently managed, there is an increased risk that the City may not be able to manage or respond to incidents appropriately. Additionally, the City may not be able to evaluate and analyse the trends for continuous improvement and problem management. In addition, without effective IT problem management there is an increased risk that the City will not identify and appropriately address the root cause of reoccurring IT incidents. This may impact IT system and service availability and may potentially affect the City's business operations.</p> <p>Recommendation The City should develop formal incident management processes to ensure all incidents are appropriately and consistently classified. In addition, the City should develop service desk reporting and trend analysis. These reports should be reviewed by the appropriate management so the performance of the incident management process can be monitored. Furthermore, the City should establish an appropriate IT problem management process. This process should ensure IT problems are appropriately identified and investigated. Once the root cause has been identified, appropriate action should be taken to address the problem and prevent the reoccurrence of incidents.</p> <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 This finding will be added to an operational risk register to be developed per Finding 6. Recognising its available resources, Administration is most likely to mitigate this risk through existing Service Desk processes that capture and manage incidents and problems as general requests. Administration will, however, introduce additional registers to formally record incidents and log the root-cause of problems – this will be aligned to creation of the risk register to be developed per Finding 6, with incident/problem register review included inside a managed services agreement.</p>	<p>January 2021</p>
--	---	---	---------------------

CITY OF VINCENT AUDIT LOG

<p>EA:2020/10 (17) Office of the Auditor General Information Systems Audit – IT Asset Management</p> <p>Finding We found that the City's IT asset management process is not effective. The following issues were identified:</p> <ul style="list-style-type: none">• The City does not have up to date IT asset register information and relevant asset details such as asset status and owner are not recorded.• The City does not have any formal procedure to ensure that all sensitive data and licensed software has been removed or securely overwritten as part of the disposal and re-use of IT assets process. <p>Implication Without an effective IT asset management process there is an increased risk that IT assets will be lost or stolen.</p> <p>Without appropriate procedures to manage the disposal and re-use of IT assets, there is a higher risk that sensitive data may not be removed or securely erased. As a result, the City may suffer financial loss and damage to its reputation.</p> <p>Recommendation The City should:</p> <ul style="list-style-type: none">• establish an effective IT asset management process. This process should ensure IT assets are appropriately managed throughout their lifecycle (from acquisition to disposal)• relevant information on IT assets accurately recorded and maintain relevant information about IT assets in the IT asset register. Periodic audits of IT asset information against physical IT assets should be undertaken to ensure the information is accurate and up to date. Any anomalies with IT assets should be appropriately rectified• ensure that all IT assets containing storage media are appropriately sanitised or destroyed as part of the disposal process. Accurate documentation and records relating to IT asset disposals must be maintained. <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 Administration notes that an ICT asset management system was already being introduced during the time of audit and will capture all physical and software/license assets. IT asset management acquisition, tracking and disposal processes will be formalised per the Information Security Program noted in Finding 5.</p>	<p>May 2021</p>
--	---	---	-----------------

CITY OF VINCENT AUDIT LOG

<p>EA:2020/10 (18) Office of the Auditor General Information Systems Audit – Contract Management</p> <p>Finding We found that the City's contract management process is not effective. We identified that:</p> <ul style="list-style-type: none">the City does not have an up-to-date <i>Contract Management Framework</i> and contract registerthe configuration of the new contract management system is under development and the relevant staff are not fully aware of the functionality of the system. As a result, there is no comprehensive contract reporting in place. <p>We acknowledge that the City recently established a centralised contract management tool and <i>Contract Management Framework</i> is in draft.</p> <p>Implication Without an appropriate contract management process, the City is at a higher risk of failing to identify:</p> <ul style="list-style-type: none">unsuitable working arrangements with vendors, which may result in a failure to realise business benefitsunexpected cost increases or inappropriate practises in a timely mannerunauthorised access or changes to the contract register. <p>Recommendation The City should:</p> <ul style="list-style-type: none">review its <i>Contract Management Framework</i> and, where appropriate, centralise vendor management practicesdevelop suitable guidelines to manage the City's contract registercomplete regular supplier performance reviews of all vendors as required. Records of reviews should be retainedmaintain records of all contracts within its contract management system, including key financial details relevant to the contractscomplete the access and system configuration of its new contract management system. Subsequently, review access to the system and monitor key contract financial information regularly. <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 The noted draft Contract Management Framework and system will be completed, formalised and communicated to staff.</p>	<p>March 2021</p>
--	---	--	-------------------

CITY OF VINCENT AUDIT LOG

<p>EA:2020/10 (19) Office of the Auditor General Information Systems Audit – Disaster Recovery Plan</p> <p>Finding We found that the City does not have an ICT disaster recovery plan (DRP).</p> <p>Implication Without an adequate DRP and appropriate testing, there is an increased risk that key business functions and processes may not be restored in a timely manner after a disruption, affecting the operations of the City.</p> <p>Recommendation The City should develop and test its DRP to confirm that systems can be recovered in accordance with business expectations and key staff should be familiar with the plan and their specific roles and responsibilities in a disaster situation. The results of testing should be recorded, and the relevant actions taken to improve the plan where necessary.</p> <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 Administration will introduce managed backup and infrastructure services that include disaster recovery capability. Disaster recovery and information security continuity processes will then be formalised per the Information Security Program noted in Finding 5. A formal plan will then be prepared for publication to staff and testing purposes.</p>	
<p>EA:2020/10 (20) Office of the Auditor General Information Systems Audit – Business Continuity Plan – Testing</p> <p>Finding We found that appropriate tests of the business continuity plan (BCP) have not been undertaken. Due to the lack of testing, the effectiveness of the plans and the City's ability to execute them is unknown.</p> <p>Implication Without appropriate testing of the BCP there is an increased risk that key business functions and processes may not operate as expected during a major incident. In addition, the key business functions may not be appropriately recover following a major incident. This is likely to impact business operations and the delivery of key services.</p> <p>Recommendation The City should undertake appropriate tests to verify the effectiveness of the BCP. These tests should also verify that key staff are familiar with the plans and their specific roles and responsibilities in a disaster situation. The results of these tests should be recorded and the relevant actions taken to improve the plan where necessary.</p> <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 Administration notes that there has been 0% interruption to non-library/recreational facility services throughout COVID-19 disruptions in Perth. COVID-19 has been a major incident and required significant change to how business functions operated. City staff who continue to work remotely are effectively testing part of the City's business continuity systems on a daily basis. Through improvements to data backup and infrastructure recovery noted in Finding 20, Administration will expand business continuity testing to include system and infrastructure incidents as part of a managed services agreement.</p>	<p>March 2021</p>

CITY OF VINCENT AUDIT LOG

<p>EA:2020/10 (21) Office of the Auditor General Information Systems Audit – Information Security Incident Management Plan</p> <p>Finding We found that the City does not have an information security incident management plan.</p> <p>Implication Without a developed and documented security incident response plan there is an increased risk that the IT department may not be able to respond to IT security incidents in an effective and timely manner.</p> <p>Recommendation The City should develop an appropriate information security incident management plan. This plans should include relevant procedures to ensure the effective response and management of all information security related incidents.</p> <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 An incident management and response plan will be formalised per the Information Security Program noted in Finding 5.</p>	<p>March 2021</p>
<p>EA:2020/10 (22) Office of the Auditor General Information Systems Audit – Management of Removable Media</p> <p>Finding We found that the City does not have appropriate controls to log or restrict the use of removable media devices (e.g. USB).</p> <p>Implication Without appropriate controls to detect, log and monitor the use of removable media devices, there is an increased risk to the City's information and IT systems. Information copied to removable media devices may be lost, stolen or inappropriately disclosed.</p> <p>Recommendation The City should assess the risks associated with the use of removable media devices. Where appropriate the following controls should be implemented:</p> <ul style="list-style-type: none">• Preventing the use of any unauthorised removable media devices.• Only using USB devices that incorporate encryption to help protect the information.• Maintaining a register of all authorised and in use removable media devices.• Monitoring and logging files and information copied to or from removal media devices. <p>Risk Rating (prior to controls) Medium</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 Administration accepts Finding 23 but does not accept that it is practical to implement the Recommendation. Administration will instead allocate resources towards implementing and leveraging modern technologies that meet secure data transportation requirements while also eliminating the need for staff to use removable media. Removable media will then be prohibited from use on the network.</p>	<p>April 2021</p>

CITY OF VINCENT AUDIT LOG

<p>EA:2020/10 (23) Office of the Auditor General Information Systems Audit – Standard Operating Environment</p> <p>Finding We found that a standard operating environment is not used on workstations. We identified that:</p> <ul style="list-style-type: none">• there is no monitoring of compliance with secure workstation configuration• relevant staff will not be notified if users attempt or successfully change their workstation configuration, including the installation/removal of software. <p>Implication Without monitoring compliance with secure workstation configuration, there is an increased risk that unauthorised system configuration changes are made to computers. These changes could compromise the confidentiality, integrity and availability of information.</p> <p>Recommendation The City should develop its standard operating environment process and monitor compliance with secure workstation configuration. The process should include efficient notifications to relevant staff of critical changes or attempts to change workstation configuration.</p> <p>Risk Rating (prior to controls) Minor</p> <p>Risk Rating (with current controls)</p>	<p>Responsible Officer: Executive Manager Information and Communication Technology</p>	<p>October 2020 Monitoring of workstation compliance will be included inside a managed services agreement. Once implemented, notification processes will then be considered as part of a review to determine the feasibility and threat of staff being able to install software without administrative assistance.</p>	<p>February 2021</p>

AUDIT COMMITTEE MINUTES

20 OCTOBER 2020

5.4 REVIEW OF THE CITY'S CORPORATE RISK REGISTER

Attachments: 1. Corporate Risk Register - as at 8 October 2020  

RECOMMENDATION:

That the Audit Committee recommends to Council that it:

1. RECEIVES the City's Corporate Risk Register as at 8 October 2020, at Attachment 1; and
2. APPROVES the proposed risk management actions for the high and extreme risks.

Moved: Mr Piper, Seconded: Cr Topelberg

That the recommendation be adopted.

CARRIED UNANIMOUSLY (5-0)

For: Mr Manifis, Cr Topelberg, Cr Wallace, Mr Piper and Cr Gontaszewski

Against: Nil

(Cr Loden was an apology for the Meeting.)

AMENDMENTMoved: Cr Gontaszewski, Seconded: Cr Wallace

That the recommendation is amended and an additional recommendation be added as follows:

2. APPROVES the proposed risk management actions for the high and extreme risks, **subject to the completion date for the ICT high risks being updated to 31 July 2021; and**
3. **REQUESTS that a report on the emerging safety risk of ageing / unsafe assets (Leederville Oval grandstand, Beatty Park grandstand and Litis Stadium grandstand and buildings) be presented to the Audit Committee meeting on 24 November 2020.**

AMENDMENT CARRIED UNANIMOUSLY (5-0)

For:

Mr Manifis, Cr Topelberg, Cr Wallace, Mr Piper and Cr Gontaszewski

Against: Nil

(Cr Loden was an apology for the Meeting.)

AUDIT COMMITTEE MINUTES20 OCTOBER 2020

COMMITTEE DECISION ITEM 5.4

That the Audit Committee:

1. RECOMMENDS to Council that it:
 - 1.1 RECEIVES the City's Corporate Risk Register as at 8 October 2020, at Attachment 1; and
 - 1.2 APPROVES the proposed risk management actions for the high and extreme risks, subject to the completion date for the ICT high risks being updated to 31 July 2021; and
2. REQUESTS that a report on the emerging safety risk of ageing / unsafe assets (Leederville Oval grandstand, Beatty Park grandstand and Litis Stadium grandstand and buildings) be presented to the Audit Committee meeting on 24 November 2020.

CARRIED UNANIMOUSLY (5-0)

For: Mr Manifis, Cr Topelberg, Cr Wallace, Mr Piper and Cr Gontaszewski

Against: Nil

(Cr Loden was an apology for the Meeting.)

NOTES:

The Audit Committee requested that a site visit of Leederville Oval grandstand, Beatty Park grandstand and Litis Stadium grandstand and buildings be arranged for the external Audit Committee members.

Risk Category	Risk Description	Comment	Impact Analysis			RISK MANAGEMENT		Strength (S<M<W)	Risk Acceptance (Y/N)	Net Risk (after RMA)	ACCOUNTABILITY		Risk Owner	Timetable	Assurances available	Last updated									
			Likelihood	Consequence	Remarks	Actual Risk	Current Risk Management Strategy (what happens now)				Direction of further RM														
Finance, Procurement and Contracts																									
Any additional row can only be added below this row																									
Procurement for facilities (Beatty Park Leisure Centre)	Ineffective procurement processes and management of suppliers resulting in a lack of supplies / parts (i.e. chemicals) which impacts use of pool / pool safety		1	5		M	Building good relationship with suppliers, review alternative suppliers, ensure invoices are processed in a timely fashion - have a stock of chemicals, have an emergency plan	1. Stockpile chemicals - Complete 2. build relationships with suppliers - Complete, continue during procurement and new contract setup 3. Complete supplier/contract management - complete, but ongoing review required	Strong - Continue to liaise with suppliers and finalise supplier agreements.	Y	M	Review supply contracts regularly	CEO (report to Executive Management Committee)	Complete	Review contracts yearly	08-Oct-20									
Supplier / contract management	There is a risk that inappropriate contract management in respect to initiation and management of contract with suppliers may result in the City's interests not being protected or the contract terms not being filled resulting in financial losses to the City		5	2		H	Limited controls. Use of some Australian standard contracts. Procurement training provided and procurement policy communicated to all staff.	1. develop contract management framework, train staff in use and communicate - December 2020 2. develop contract register - consultant currently preparing - June 2020 3. update the contract template / use WALGA / AS templates - December 2020 4. monitor compliance with the framework and use of templates - December 2020	Strong	N	M	Heed adequate resourcing	Council (report to Audit Committee)	1. 01-Dec-20 2. 01-Jun-20-Complete 3. 30-Dec-20 4. 30-Dec-20	Monitoring of contracts register and procurement processes ongoing	08-Oct-20									
Major project management	Large number of projects, limited resources and ineffective management of projects resulting in financial losses and potentially poor project outcomes for the City		5	2		H	New project management framework and project prioritisation in place, but in early stage of adoption.	1. continue implementation of framework - review currently underway. 2. staff training on implementing framework - June 2020 - delayed to Dec 2020 due to COVID 3. Ensuring timely reporting and accountability by staff - June 2020. 4. Ongoing prioritisation of existing projects. New CBP has identified 26 strategic projects. These will be reported on monthly internally and quarterly to Council	Medium	Y	M	Review number and priority of projects against available resources and capacity	Council (report to Audit Committee)	1. Ongoing 2. 01-Jun-20-30 Dec 2020 3. Ongoing 4. Ongoing	review of the application of the framework will be included in the internal audit plan, and will form part of other internal and external compliance audits	08-Oct-20									
Financial stability, sustainability & reporting	Poor financial and management reporting regime leads to ineffective financial management and results in insufficient resources to operate the City effectively		4	4	Roads to Recovery Breach and Asset Sustainability Ratio have financial implications for the City - therefore currently this is a high risk based on financial consequence	H	No current controls. Noted that City currently has ability to borrow funds.	1. Developing an accurate and updated LTFP which will be adopted by Council. Complete 2. Will commence comprehensive monthly reporting covering cash flow management as well as relevant financial metrics 3. Will assess financial sustainability as part of the development of the City's strategic priorities and masterplans 4. Will report on financial sustainability to the Audit Committee.	Strong	Y	M		Council (report to Audit Committee)	All 30 June 2020 All ongoing LTFP adopted 18 Aug 2020		08-Oct-20									
Asset, sustainability and environment management																									
Any additional row can only be added below this row																									
Inadequate asset management	Inadequate asset management, including accountabilities, controls, framework, accountability and inadequate systems to record and interrogate data to inform Asset renewal programs will result in poor asset management outcomes - financial loss and reputational damage	Event - asset failure Impact - financial losses, reputational damage	5	4		E	Using alternative systems such as spreadsheets, Paywise Annual review of asset renewal plans regular engagement with internal and external stakeholders	1. Allocate additional resources to adequately assess and report on key risks. 2. Continue investigating an Asset Management System in conjunction with the current review of the City's Corporate IT Systems 3. Table auditor's report on condition of assets at EMC and Audit Committee 4. Establish asset specific accountability processes and procedures.	Weak - as only investigating the system/framework	N	H	Determine what asset management strategy is appropriate and implement it	Council (report to Audit Committee)	01-Dec-20		08-Oct-20									
Asbestos management	Inadequate framework to manage the risk in respect to asbestos on City owned or managed land, or land adjoining this, will leave the City vulnerable to staff and community harm resulting in financial loss and reputational damage		3	3		M	LGIS has prepared an asbestos register, and has development an asbestos management framework in accordance with the legal advice received.	1. Finalise and implement the asbestos management framework, and communicate to staff. 2. Develop actions based on gaps identified in framework.	Medium - Investment in OSH/Reporting/workflow technology to reduce risk even further.	Y	L		CEO (report to Executive Management Committee)	01-Dec-20		08-Oct-20									
Aging / unsafe assets (Leederville Oval grandstand)	Emerging safety risk associated with Leederville Oval grandstand - buildings have electrical and structural issues and will require significant capital work in future to ensure they remain safe.	This risk has significant financial implications.	3	3		M	Essential maintenance is carried out, budget permitting. \$3,000 is allocated in 20/21 budget for essential electrical works.	1. Develop an Asset Management Strategy to inform schedule for maintenance / upgrades required, and prioritise for assets. 2. If capital work is not undertaken it may be necessary for buildings to be left vacant, which results in a loss of rental income.	Medium - relies on budget for the works	N	L		CEO (report to Executive Management Committee)	01-Dec-20		08-Oct-20

AUDIT COMMITTEE MINUTES20 OCTOBER 2020

6 GENERAL BUSINESS

- The appointment of a new external member is being recommended to Council at its 20 October 2020 Council Meeting; and
- An update on the Office of the Auditor General external audit was provided.

7 NEXT MEETING

- Presentation from the OAG on the ICT audit findings
- External audit exit meeting – OAG to attend
- Review of the OAG – Waste Management – Service Delivery report
- Update on emerging safety risk of ageing / unsafe assets at Leederville Oval grandstand, Beatty Park grandstand and Litis Stadium grandstand and buildings
- Progress update on the completion of the two significant audit findings in the OAG ICT audit
- Regulation 5 and Regulation 17 review report and recommendations

8 CLOSURE

There being no further business the meeting closed at approximately 2.30pm.

These Minutes were confirmed by the Audit Committee as a true record and accurate of the Audit Committee meeting held on 20 October 2020.

Signed: Mr Conley Manifis

Dated

12.4 COUNCIL BRIEFING AND ORDINARY MEETING OF COUNCIL DATES FOR 2021

Attachments: Nil

RECOMMENDATION:

That Council **ADOPTS** the 2021 monthly cycle of Council Briefings and Ordinary Meetings of Council, consisting of:

1. Eleven (11) Council Briefings, commencing on Tuesday 9 February 2021; and
2. Eleven (11) Ordinary Meetings of Council, commencing on Tuesday 16 February 2021.

PURPOSE OF REPORT:

To approve the dates for Council Briefing and Ordinary Meeting of Council for 2021.

BACKGROUND:

The *Local Government Act 1995* (Act) requires that Council meet at least once every three months. In accordance with section 5.3 of the Act and the *Local Government (Administration) Regulations 1996* Regulation 12, Council must determine its Ordinary Council Meeting dates and times for the next twelve months and these dates must be published at least once a year.

DETAILS:

Administration recommends that a monthly briefing and meeting cycle is adopted for 2021 as it results in a consistent sequencing of meetings and ensures that the financial statements for each month can be finalised prior to the publishing of the Council Briefing agenda each month.

The proposed 2021 Council Briefing and Ordinary Meeting of Council Schedule is set out below.

The first Council Briefing is scheduled for Tuesday 9 February 2021 and the first Ordinary Meeting of Council for Tuesday 16 February 2021.

Council Briefing	Ordinary Meeting of Council
9 February	16 February
16 March	23 March
20 April	27 April
11 May	18 May
15 June	22 June
20 July	27 July
10 August	17 August
7 September	14 September
12 October	19 October
9 November	16 November
7 December	14 December

The February round of meetings has been brought forward one week to accommodate Council's preference of an earlier start. It is not possible to start the meeting cycle earlier, as Tuesday 26 January 2021 is Australia Day.

Three amendments to the cycle to accommodate public and school holidays are as follows:

- April – moved back one week to accommodate Easter and the April school holidays;
- July - moved back one week to accommodate the July school holidays; and
- September – moved forward one week to accommodate the September school holidays.

The Council Meeting for April is proposed for 27 April 2021 which is the day after ANZAC day. However, this date is proposed to avoid school holidays which are from 2 – 18 April 2021.

The December meeting cycle is proposed to begin on 7 December 2021, with the Ordinary Council Meeting on 14 December. These dates reflect the December 2020 Briefing and Meeting Dates. Bringing the December cycle forward (to 1 December 2021) would require exceptionally fast turnaround times between the November Ordinary Council Meeting on 16 November and draft reports being prepared for the December Briefing Agenda.

All meetings are held at the City of Vincent Council Chambers and are scheduled to commence at 6pm.

The Annual General Meeting of Electors is proposed to be held on 2 February 2021 and commence at 6.00pm.

In accordance with section 5.27 of the *Local Government Act 1995* the Annual General Meeting of Electors must be held within 56 days of Council's acceptance of the Annual Report. The Annual Report will be presented to the Ordinary Meeting of Council on 15 December 2020, therefore, the Annual General Meeting of Electors must be held by 9 February 2021.

CONSULTATION/ADVERTISING:

In accordance with Regulation 12 of the *Local Government (Administration) Regulations 1996*, Council Briefing and Ordinary Meeting of Council dates will be published in both local newspapers and on the City's website.

LEGAL/POLICY:

Section 5.3 of the Act states:

"Ordinary and Special Council meetings:

- (1) *A Council is to hold ordinary meetings and may hold special meetings;*
- (2) *Ordinary meetings are to be held not more than three months apart; and*
- (3) *If a Council fails to meet as required by subsection (2) the CEO is to notify the Minister of that failure."*

Regulation 12 of the *Local Government (Administration) Regulations 1996* states:

- "12 (1) *At least once a year a local government is to give local public notice of the dates on which and the time and place at which –*
- (a) *The ordinary Council meetings; and*
 - (b) *The Committee meetings that are required under the Act to be open to members of the public or that are proposed to be open to members of the public;*
- are to be held in the next 12 months;*
- (2) *A local government is to give local public notice of any change to the date, time or place of a meeting referred to in sub regulation (1);"*

Policy No. 4.2.3: Council Briefings, Meetings & Forums – Format, Procedures and Maximum Duration sets out additional guiding principles for the management of Council Briefings and Meetings.

RISK MANAGEMENT IMPLICATIONS:

Low: The proposed monthly cycle will provide consistency in the sequencing of briefings and meetings and will increase transparency by ensuring financial statements are included in the Council Briefing Agenda.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Innovative and Accountable

We are open and accountable to an engaged community.

Our community is aware of what we are doing and how we are meeting our goals.

SUSTAINABILITY IMPLICATIONS:

Nil.

FINANCIAL/BUDGET IMPLICATIONS:

Nil.

12.5 UPDATED PROJECT PLANS FOR 5 STRATEGIC PROJECTS IN THE CORPORATE BUSINESS PLAN 2020/21 - 2023/24

- Attachments:**
1. Leederville Activity Centre Plan [↓](#) 
 2. Marketing Plan and Communications Plan [↓](#) 
 3. Community Engagement Framework [↓](#) 
 4. Britannia North West Reserve Development Plan [↓](#) 
 5. Beatty Park 2062 [↓](#) 

RECOMMENDATION:

That Council **APPROVES** the updated project plans for the following 5 Strategic Projects in the Corporate Business Plan 2020/21 – 2023/24:

- Leederville Activity Centre Plan;
- Beatty Park 2062;
- Marketing Plan and Communications Plan;
- Community Engagement Framework; and
- Britannia Reserve West Development Plan.

PURPOSE OF REPORT:

To consider the updated project plans for 5 of the City's 26 strategic projects in the City's Corporate Business Plan 2020/21 – 2023/24 (CBP).

BACKGROUND:

At the 20 October 2020 Council Meeting, Council resolved as follows:

"That Council:

1. *APPROVES the updated project plans for the 26 Strategic Projects in the Corporate Business Plan 2020/21 – 2023/24 as at Attachment 1, with the exception of:*
 - *Beatty Park 2062*
 - *Marketing Plan and Communications Plan*
 - *Community Engagement Framework*
 - *Britannia Reserve West Development Plan*
 - *Leederville Activity Centre Plan*
2. *REQUESTS that updated project plans with more detailed milestones for the above 5 projects are presented to the 24 November 2020 Council Meeting."*

DETAILS:

The project plans for these 5 strategic projects have been updated to include further details of the key milestones, and dates for any engagement with the community or Council.

The updated project plans are at **Attachment 1 - 5**.

CONSULTATION/ADVERTISING:

Nil.

LEGAL/POLICY:

Regulation 19DA of the *Local Government (Administration) Regulations 1996* provides that:

- (4) *A local government is to review the current corporate business plan for its district every year.*
- (5) *A local government may modify a corporate business plan, including extending the period the plan is made in respect of and modifying the plan if required because of modification of the local government's strategic community plan.*

RISK MANAGEMENT IMPLICATIONS:

Low: It is low risk and good practice for Council to review and endorse the updated strategic project plans.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Innovative and Accountable

Our community is satisfied with the service we provide.

SUSTAINABILITY IMPLICATIONS:

Nil.

FINANCIAL/BUDGET IMPLICATIONS:

Nil.

COMMENTS:

The budget for the strategic projects are included in the annual budget for 2020/21, CBP and LTFP.

Decision Maker		Council		To provide an up-to-date and comprehensive planning framework which responds to the current and future needs of the Leederville Activity Centre Plan area and provides guidance on decision making for the planning and development of the town centre. It is expected that such a framework will also be used to inform advocacy and collaboration with relevant key stakeholders in relation to the town centre and guide the City's investment in the town centre.										In order to fully involve Leederville Connect in the engagement process, there has been a delay to the project that was not accounted for during scoping. A further delay was incurred by Administration to rework a presentation to Council. Next step is to present the draft ACP to Council members for feedback. This is likely to occur at the first workshop in 2021.										<ul style="list-style-type: none">• Council;• The Leederville Community;• Leederville Connect;• Landowners, Residents and Business owners in Leederville;• City of Vincent advisory groups;• Design Review Panel;• Western Australian Planning Commission;• Adjoining Local Governments;• Relevant State Government Agencies; and

What's Out of Scope?																													
Community Constulation policy review and tool box development																													

PROJECT ON A PAGE APPROVAL PROCESS

1. Forward the Business Case and Project Plan to the Director for approval and endorsement.

2. Forward the Director approved Project on a Page to the PMO team in the Office of the CEO (projects@vincent.wa.gov.au) who will then submit to Executive Management Committee (EMC) for approval, then included in draft budget for Councils for FINAL approval then inform you of the decision and approval to commence project.

Project Manager		Accountable Executive Director / CEO		Approved by EMC	
Name	Rosslind Ellis	ED Community &Business Services		Status (approved/declined) and Priority	
Signature				Reason/Comment	
Date				Date	

Next steps after receiving EMC approval:

1. Take the time to review the Project on a Page and Risk Register in detail to ensure accuracy and include any recommendations from the approving authority. Note: Planning a project should take up to 30% of the overall timeframe.

2. Have the Director confirm any changes to the Project on a Page and provide a copy to the Project Management Office team.

3. The Project Management Office team will enter the details of the project into Content Manager and provide you with access. Training can also be provided if required.

4. Finance will review and funding will be released and assigned to the project.

5. Commence the project and procurement (if required) and project delivery.

KPI's, Benefits & Project Success Indicators														Deliverables																									
How is success measured e.g. timeframe, budget, targets Benefits: • Transparent and effective communication between the City, the local community and the broader Perth community. • An improvement plan which balances the various stakeholder expectations to deliver the most cost effective solution. • A framework to consider prioritisation of related renewal requirements. • A plan to deliver a long term solution. Project Success is: • The development and adoption of an improvement plan that is supported by the Heritage Council and DPLH. • An improvement plan that is recognised as delivering a suitable solution to improve the utilisation of BPLC to better cater for the needs of the community and to guide the long term asset management and improvement of BPLC. What happens if we don't do the project? • Lack of guidance for prioritising renewal work. • Less ability to secure external funding. • BPLC becomes underutilised, inefficiently managed and maintained.														What the project delivers: • Communications Plan and Advocacy Plan - to raise community awareness about the current state of BPLC, the existing and future costs associated with BPLC, the opportunities and constraints associated with BPLC (including Beatty Park Reserve) and to seek potential funding sources to assist with the delivery of the improvement plan. • Improvement plan - business case & feasibility study. • Strategic Community Plan outcomes including: Our parks and reserves are maintained, enhanced and well utilised; Our community facilities and spaces are well known and well used; We encourage innovation in business, social enterprise and imaginative uses of space, both public and private; Our physical assets are efficiently and effectively managed and maintained; Our built form character and heritage is protected and enhanced. 																									
Staff changes/skillset or improvements required for this project to succeed				Process/Policy changes or improvements required for this project to succeed										ICT System changes or improvements required for this project																									
• There are no staff changes required in 2020/21.				• NA										• Asset Management software may be beneficial in preventing the need for similar projects in the future as well as improve the record keeping of any future renewal and maintenance of BPLC.																									
What's Out of Scope?																																							
• This program does not cover/include/manage road maintenance that may be required as a result of third party works, i.e. service authorities.																																							

12.6 ADVERTISING OF NEW POLICY - ATTENDANCE AT EVENTS POLICY

- Attachments:**

RECOMMENDATION:**That Council:**

1. **APPROVES** the proposed policy '*Attendance at Events Policy*', at Attachment 1, for the purpose of advertising;
2. **AUTHORISES** the Chief Executive Officer to provide local public notice of the proposed new policy in Recommendation 1. above and invite public comments for a period of at least 21 days; and
3. **NOTES** that at the conclusion of the public notice period any submissions received would be presented to Council for consideration.

PURPOSE OF REPORT:

To consider providing public notice of the '*Attendance at Events Policy*' at **Attachment 1**.

BACKGROUND:

In late 2019 the *Local Government Act 1995* (Act) was amended to include a requirement for local governments to adopt an 'attendance at events' policy (section 5.90A).

This amendment was a result of the State Government's Local Government Act review, which is aimed at increasing transparency and accountability in decision-making. The key purpose of requiring local governments to implement this policy is to ensure Councils actively consider the purpose of and benefits to the community in Elected Members and the CEO attending events.

DETAILS:

Invitations to attend events may be considered gifts and the implications of the disclosure of financial interests and gifts covered in Division 6 of the Act and Part 6 of the *Local Government (Administration) Regulations 1996* should be taken into consideration.

Event attendance may create a perceived or actual conflict of interest, which may preclude Elected Members participating in a Council Meeting or the CEO from providing advice at a future Council Meeting.

The proposed draft policy is at **Attachment 1**. The draft policy includes the key legislative requirements and defines events that do not trigger the conflict of interest provisions and are exempt from the gift disclosure requirements (Approved Events).

It is noted that the policy only applies to an event where the invitation is addressed to the City or Council (it cannot be personally directed to an individual). An invitation to the City of Vincent CEO, Vincent Councillor(s) or Mayor are all considered invitations to the City and are within the scope of the proposed policy.

Following Council Briefing on 10 November 2020, the policy has been updated to:

- provide clarification within the 'scope' of the policy that attendance at an event entirely paid for by an Elected Member does not give rise to a gift or conflict of interest;
- determine the process for attendance at events paid for by the City; and
- determine the process and requirements for accepting an invitation or ticket to an event that is not an Approved Event.

Reference to section 5.57 of the Act has also been removed from clause 6 to prevent confusion in relation to the City's position (that any gift valued above \$50 is to be disclosed and included in the City's Register of Gifts) and the statutory obligations relating to gifts once the amount exceeds the \$300.00 threshold.

While it is the City's position that any gift valued above \$50 is to be disclosed and included in the City's Register of Gifts, it should be noted that statutory obligations relating to gifts only commence once the value of the gift exceeds the prescribed amounts as set in section 20A of the *Local Government (Administration) Regulations 1996*.

A tracked version of the updated draft policy is at Attachment 2.

The Department of Local Government, Sport and Cultural Industries (DLGSC) has developed [operational guidelines](#) to assist local governments in the development of an Attendance at Events Policy.

DLGSC has noted that it is the decision of individual local governments as to what is contained within the policy, however, matters that could be included are:

- *To whom invitations are to be directed;*
- *Who authorises attendance at an event, including how the decision is made for a council member or CEO to attend an event;*
- *How many people are authorised to attend an event;*
- *Who is responsible for the cost of attending (if any), including whether there is a requirement for the council member or CEO to contribute to the cost, particularly if the person's partner is also attending;*
- *Whether there are any events that are authorised in advance by council (preauthorised events);*
- *Whether the location of the event is within the district;*
- *Attendance at sponsored events; and*
- *Attendance at events that are outside the policy.*

DLGSC have also suggested that local governments maintain a register of events attended by Elected Members and the CEO. Attendance at some events is currently recorded by Administration. It is not proposed that a register of attendance at Approved Events is maintained.

Attendance at events which are not Approved Events must be disclosed as gifts. It is the City's position that any gift over \$50 must be disclosed on the City's public [Register of Gifts](#). Publishing this Register on the City's website ensures improved transparency and good governance measure.

CONSULTATION/ADVERTISING:

In accordance with the City's Policy 4.1.1 – '*Adoption and Review of Policies*', public notice of the adoption of a new policy must be provided for a period exceeding 21 days in the following ways:

- notice on the City's website;
- notice in the local newspapers; and
- notice on the notice board at the City's Administration and Library and Local History Centre.

Public notice of this proposed new policy will be provided from late November 2020.

LEGAL/POLICY:

Section 2.7(2)(b) of the Act provides Council with the power to determine policies.

Section 5.90A of the Act provides that the policy must cover the following matters associated with attendance at events:

1. the provision of tickets to events
2. payments in respect of attendance
3. approval of attendance by the local government and criteria for approval
4. any prescribed matter (currently none are stipulated in the *Local Government (Administration) Regulations 1996*).

The City's Policy 4.1.1 – '*Adoption and Review of Policies*' sets out the process for repealing and adopting policies.

RISK MANAGEMENT IMPLICATIONS

Low: It is low risk for Council to provide public notice of the proposed new policy.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Innovative and Accountable

Our community is aware of what we are doing and how we are meeting our goals.

We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATIONS:

Nil.

FINANCIAL/BUDGET IMPLICATIONS:

Nil.

ATTENDANCE AT EVENTS POLICY

Legislation / local law requirements	Section 5.90A(2) of the <i>Local Government Act 1995</i> – requires local governments to adopt a policy in respect to event attendance by Elected Members and the CEO. Section 5.62(1B) of the <i>Local Government Act 1995</i> – defines excluded gifts. Clause 2.17 of the Meeting Procedures Local Law
Relevant delegations	Nil.
Related policy procedures and supporting documentation	City's Register of Gifts (public) Disclosure of Interest Forms (for Elected Members) Conflict of Interest Form (internal – for CEO)

PURPOSE

To ensure the City of Vincent (**City**) actively considers the purpose of and benefits to the community from Elected Members and the Chief Executive Officer (**CEO**) attending events, and to promote transparency and accountability in attendance at events by Elected Members and the CEO.

OBJECTIVE

To establish guidelines, in accordance with the requirements of section 5.90A of the *Local Government Act 1995 (Act)*, for the appropriate disclosure and management of acceptance of invitations to events or functions where Elected Members and the CEO represent the City.

SCOPE

This policy applies to invitations or tickets to events that are provided to the City (for example to the City of Vincent Council /Councillor or City of Vincent CEO).

An invitation or ticket to an event provided directly to an individual (which means personally to an Elected Member or the CEO) is to be treated as a gift (gift as defined in section 5.57 of the Act).

Elected Members or the CEO may accept these invitations, subject to disclosing the acceptance of the invitation / ticket as a gift (if valued at over \$50, in accordance with the City's Governance Framework) if they have not provided appropriate consideration for the ticket/ invitation. The gift will be disclosed on the City's public Register of Gifts.

An Elected Member or the CEO may attend an event and not disclose it as a gift if they have purchased the ticket themselves.

POLICY

Attendance at Approved Events

1. The following events are considered **Approved Events** for the purpose of this policy.
 - 1.1 events where the Elected Member or CEO is attending in an official capacity, such as presenting awards or prizes to others on behalf of the City, participating as a member of a discussion/judging panel or presenting at the event as part of the event program;
 - 1.2 events sponsored by the City;
 - 1.3 events hosted by the City;

ATTENDANCE AT EVENTS POLICY

- 1.4 events hosted by any incorporated associations, clubs, community groups, or not-for-profit organisations; or
- 1.5 events hosted by other local governments, regional local governments, WALGA or any State or Commonwealth Government department or agency.
2. Elected Members or the CEO may at their discretion attend an Approved Events on behalf of the City, where the invitation or ticket is provided to the City and no fee is payable for attending.
3. If a fee is payable for attendance at an Approved Event, the Mayor and CEO will seek expressions of interest from Elected Members or the CEO to attend the Approved Event, provided the cost of attendance is within the approved budget.
4. Attendance at Approved Events are not treated as gifts and do not need to be included on the City's public Register of Gifts, as they are "excluded gifts" in accordance with section 5.62(1B) of the Act.
5. Attendance at Approved Events does not trigger a conflict of interest if a matter comes before Council or the CEO for consideration.

Attendance at Other Events

6. Events or functions that do not fall within the scope of Approved Events are considered gifts and must be disclosed as gifts. It is the City's position that attendance at any event that is not an Approved Event has a value over \$50 and must be disclosed and included in the City's public Register of Gifts.
7. If the City receives an invitation or ticket to an event that is not an Approved Event all Elected Members and the CEO will be invited to attend and may accept at their discretion. If the invitation or ticket is accepted, the Elected Member or the CEO must complete a gift declaration form disclosing their attendance.
8. If a matter comes before Council which triggers a conflict of interest due to an Elected Member's attendance at an event (which is not an Approved Event and declarations of interest arise according to the prescribed gift threshold) the Elected Member must disclose this interest to the CEO or Presiding Member prior to the meeting, and must be absent from consideration of the matter (item) unless Council approves otherwise. Approval to participate must be sought in accordance with clause 2.17 of the City's [Meeting Procedures Local Law](#).
9. If a matter comes before the City which triggers a conflict of interest due to the CEO's attendance at an event (which is not an Approved Event and declarations of interest arise according to the prescribed gift threshold) the CEO must disclose this conflict of interest to the Mayor and remove himself from the decision-making process.

POLICY

Attendance at Approved Events

1. Elected Members or the CEO may attend the following events on behalf of the City:
 - 1.1 events where the Elected Member or CEO is attending in an official capacity, such as presenting awards or prizes to others on behalf of the City, participating as a member of a discussion/judging panel or presenting at the event as part of the event program;
 - 1.2 events sponsored by the City;

ATTENDANCE AT EVENTS POLICY

- ~~1.3 events held at any facility owned by the City (including facilities on land vested in the City);~~
- 1.4 events hosted by the City;
- 1.5 events hosted by any incorporated associations, clubs, community groups, or not-for-profit organisations; or
- 1.6 events hosted by other local governments, regional local governments, WALGA or any State or Commonwealth Government department or agency.

~~These events are considered Approved Events for the purpose of this policy.~~

- 2. Elected Members or the CEO may at their discretion attend an Approved Events on behalf of the City, where the invitation or ticket is provided to the City and no fee is payable for attending.
- 3. If a fee is payable for attendance at an Approved Event, the Mayor and CEO will seek expressions of interest from Elected Members or the CEO to attend the Approved Event, provided the cost of attendance is within the approved budget.
- 24. Attendance at Approved Events are not treated as gifts and do not need to be included on the City's public Register of Gifts, as they are "excluded gifts" in accordance with section 5.62(1B) of the Act.
- 35. Attendance at Approved Events does not trigger a conflict of interest if a matter comes before Council or the CEO for consideration.

Attendance at Other Events

- 6. Events or functions that do not fall within the scope of Approved Events are considered gifts and must be disclosed as gifts, as defined in section 5.57 of the Act. It is the City's position that attendance at any event that is not an Approved Event has a value over \$50 and must be disclosed and included in the City's public Register of Gifts.
- ~~7. Where a City representative is invited to attend an event and there is a fee associated with attending the event, Elected Members can consider attending in accordance with the Elected Members – Continuing Professional Development Policy.~~
- 7. If the City receives an invitation or ticket to an event that is not an Approved Event all Elected Members and the CEO will be invited to attend and may accept at their discretion. If the invitation or ticket is accepted, the Elected Member or the CEO must complete a gift declaration form disclosing their attendance.
- 4-8. If a matter comes before Council which triggers a conflict of interest due to an Elected Member's attendance at an event (which is not an Approved Event and declarations of interest arise according to the prescribed gift threshold) the Elected Member must disclose this interest to the CEO or Presiding Member prior to the meeting, and must be absent from consideration of the matter (item) unless Council approves otherwise. Approval to participate must be sought in accordance with clause 2.17 of the City's Meeting Procedures Local Law.
- 5-9. If a matter comes before the City which triggers a conflict of interest due to the CEO's attendance at an event (which is not an Approved Event and declarations of interest arise according to the prescribed gift threshold) the CEO must disclose this conflict of interest to the Mayor and remove himself from the decision-making process.

ARTS ADVISORY GROUP

Wednesday 2 September 2020 at 6.00pm

Venue: Committee Room
City of Vincent
Administration and Civic Centre
244 Vincent Street Leederville

Attendees:

City of Vincent Councillors

Cr Joanne Fotakis (Chairperson) (JF)

Community Representatives

Ms Sioux Tempestt (ST)
Mr Simon Venturi (SV)
Mr Nathan Giles (NG)
Ms Paula Hart (PH)
Ms Suzanne Worner (SW)
Mx Johnny Doan (JD)
Ms Alexandra Thomson (AT)

City of Vincent Officers

Rosslind Ellis, Manager Marketing and Partnerships (RE)
Tegan Patrucco, Arts and Activation Officer (TP)

Apologies

Ms Claudia Alessi
Virginia Miltrup, Executive Director Community and Business Services
Mr Eduardo Cossio
Ms Sharmila Wood
Cr Sally Smith

1. Welcome/Declaration of Opening

Councillor Fotakis opened the meeting at 6.09pm and delivered the Acknowledgement of Country.

2. Apologies

Apologies from Ms Claudia Alessi, Virginia Miltrup, Mr Eduardo Cossio, Ms Sharmila Wood and Cr Sally Smith were noted.

4. Business

4.1 Introductions around the table

Cr Fotakis welcomed the Arts Advisory Group members and emphasised the importance of the group to the City of Vincent and the strategic role the group has played in the past two years.

Each member of the Arts Advisory Group introduced themselves and gave a brief summary of their connection to The City of Vincent and the arts industry. The wide range of arts expertise represented in the group was noted.

4.2 Role of Advisory Groups and Strategic Community Plan

RE summarised the development of the Strategic Community Plan including the Imagine Vincent consultation project. It was noted that the arts were a strong theme in the community feedback gathered, and that this is reflected in the Strategic Community Plan.

RE explained that the Corporate Business Plan sits under the Strategic Community Plan, and that a number of more specific strategic plans sit under the CBP including Place Plans, the Reconciliation Action Plan, masterplans, and the Arts Development Action Plan.

RE summarised the role of Advisory Groups at the City of Vincent, noting that they are not able to make decisions, award tenders, or act on behalf of the City. RE noted that the City highly values its Advisory Groups to provide expertise and advise on the City's programs, policies and projects.

RE emphasised that conflicts of interests must be declared to the group. It was noted that Arts Advisory Group members are able to apply for City of Vincent arts commissions and opportunities, however must declare their interest from the outset and be excused from any discussions of the commission or opportunity.

RE summarised the development of the Arts Development Action Plan 2018 – 2020 and noted that it was an ambitious plan that allowed the City to try out some new projects and see what worked. RE stated that the next Arts Development Action Plan would be developed with learnings from the first.

4.2 Terms of Reference

The draft Terms of Reference document was tabled for consideration. The following comments were made:

- a) Councillor Fotakis recommended that item 2.3 include policies and programs.
- b) Councillor Fotakis noted that council has approved 11 community members of the Arts Advisory Group rather than 12.
- c) It was agreed that a minimum frequency of meetings be included.

4.3 Arts Development Action Plan 2018 – 2020 summary

TP presented a summary PowerPoint of the Arts Development Action Plan 2018 – 2020. This included the following highlights:

- 9 commissioned or co-funded murals completed
- Jazz Precinct project launched
- Platform Temporary Art Project pilot completed
- Partnerships developed with Perth International Jazz Festival, Perth Festival, Town Teams, Noongar Radio, Pride WA, Revelation Film Festival, Perth Public Art Foundation
- 6 Film Project films completed, winning multiple international awards
- 5 Traffic Control Box murals commissioned
- 6 Lightbox Laneway exhibitions completed

TP noted the following challenges during the Arts Development Action Plan implementation:

- Staff resources
- Budget limitations in regard to scope of ambitions (eg Urban Artwalk)
- Mural co-funding program outcomes
- Lack of Aboriginal representation
- Artwork maintenance

The following comments were made:

- a) PH gave feedback on the recent Arts Relief Grants that the relatively small grant amount allows artists to focus primarily on their art.

- b) SW suggested that the City could focus on recognising the artistic talent within the local community and allowing more artists to connect with the City.
- c) JD suggested that mentorship is a key element of building Aboriginal representation within arts in the City of Vincent.
- d) SV reported that Leedy Connect are currently putting together a public art guide for Leederville, particularly in relation to Percent for Art artworks, which will include recommendations for strengthening the Percent for Art policy.
- e) NG noted that the Urban Artwalk project requires a master plan and a long term vision to be successful.

4.4 Sub Groups

TP called for volunteers for a Percent for Art Sub Group, the members of which will provide feedback on applications for developer Percent for Art contributions against the Percent for Art criteria. SV, AT, NG and PH volunteered for this Sub Group.

TP called for volunteers for a Major Artwork Sub Group, the members of which will provide feedback on the draft commission EOI, and sit on the assessment panel for the commission. NG, ST, and SW volunteered for this Sub Group.

It was noted that further Sub Groups will be required in the future.

ACTION:

5. Close/Next Meeting

The Chairperson closed the meeting at 8.02pm. The next meeting is scheduled to be held on 14 October 2020.

Minutes TPRC Meeting of Council – 8 October 2020

7. MATTERS FOR WHICH MEETING MAY BE CLOSED

- 9.5 Review of Deliverables – Development Manager's Key Performance Indicators - Confidential
- 9.6 Key Personnel – Development Manager / Project Resourcing – Confidential
- 9.7 Mindarie Regional Council Landfill Buffer – Groundwater Monitoring Update - Confidential
- 10.1 Built Form Partnership – Stage 18 – Confidential
- 10.2 Catalina Central Local Centre Site – Change of Ownership - Confidential

8. COUNCIL REPORTS 8.1 – 8.6**8.1 BUSINESS REPORT – PERIOD ENDING 24 SEPTEMBER 2020**

Moved Cr Treby, Seconded Cr Chester.

[The recommendation in the agenda]

That the Council RECEIVES the Business Report to 24 September 2020.

The Motion was put and declared CARRIED (7/0).

8.5 SALES AND SETTLEMENT REPORT – PERIOD ENDING 1 OCTOBER 2020

Moved Cr Sandri, Seconded Cr Treby.

[The recommendation in the agenda]

That the Council RECEIVES the Sales and Settlement Report to 1 October 2020.

The Motion was put and declared CARRIED (7/0).

The recommendations for Items 8.2, 8.3, 8.4 and 8.6 were moved and seconded en bloc.

Moved Cr Treby, Seconded Cr Chester.

8.2 STATEMENTS OF FINANCIAL ACTIVITY FOR THE MONTHS OF JULY & AUGUST 2020

[The recommendation in the agenda]

That the Council RECEIVES and NOTES the Statements of Financial Activity for the months ending:

- 31 July 2020; and
- 31 August 2020.

Minutes TPRC Meeting of Council – 8 October 2020

8.3 LIST OF MONTHLY ACCOUNTS SUBMITTED FOR THE MONTHS OF JULY & AUGUST 2020

[The recommendation in the agenda]

That the Council **RECEIVES** and **NOTES** the list of accounts paid under Delegated Authority by the **CEO** for the months of July and August 2020:

- Month ending 31 July 2020 (Total \$274,849.97)
- Month ending 31 August 2020 (Total \$200,189.45)
- Total Paid - \$475,039.42

8.4 PROJECT FINANCIAL REPORT – AUGUST 2020

[The recommendation in the agenda]

That the Council **RECEIVES** the Project Financial Report (August 2020) submitted by the Satterley Property Group.

8.6 COUNCIL MEETING SCHEDULE 2021

[The recommendation in the agenda]

1. That the schedule of Ordinary Council meetings dates be **APPROVED** for 2021 as follows:
 - 18 February 2021 (Town of Cambridge)
 - 15 April 2021 (City of Joondalup)
 - 17 June 2021 (City of Perth)
 - 19 August 2021 (City of Stirling)
 - 14 October 2021 (City of Wanneroo)
 - 9 December 2021 (City of Vincent)
2. That the commencement time for Council meetings be 6:00pm.
3. That Council meetings be held on a rotational basis at participant Council premises.
4. That the schedule of Management Committee meetings dates be **APPROVED** for 2021 as follows:
 - 18 March 2021
 - 20 May 2021
 - 15 July 2021
 - 16 September 2021
 - 18 November 2021
5. That the Management Committee meetings be held at the City of Stirling and the commencement time be 6:00pm.
6. That the schedule of meeting dates be advertised as required by the *Local Government Act 1995*.

The Motions were put and declared **CARRIED** en bloc (7/0).

Minutes TPRC Meeting of Council – 8 October 2020

The recommendations for Items 9.1, 9.2, 9.3 and 9.4 were moved and seconded en bloc.

Moved Cr Sandri, Seconded Cr Fotakis.

9. COMMITTEE REPORTS 9.1 - 9.7

AUDIT COMMITTEE (17 SEPTEMBER 2020)

9.1 REVIEW OF THE AUDITOR'S REPORT FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

[The recommendation in the agenda]

That the Council:

- 1. RECEIVES** the Auditor's Report for the financial year ended 30 June 2020.
- 2.** In relation to Item 2 - Presentation of Financial Activity Statement of the Audit Report **APPROVE** the Audit Committee meeting on a bi-monthly basis, on alternative months to Council meetings, to consider Statements of Financial Activity; and that the monthly Statements of Financial Activity be circulated to Council members on a monthly basis.
- 3. NOTES** that the Council's Auditor (Butler Settineri) met with the Audit Committee at its meeting of 17 September 2020 to discharge the statutory obligation to meet with the Local Government at least once per annum.

9.2 TPRC ANNUAL FINANCIAL REPORT FOR THE YEAR 1 JULY 2019 TO 30 JUNE 2020

[The recommendation in the agenda]

That the Council RECEIVES the Annual Financial Report for the year ended 30 June 2020 and that it be **INCLUDED** in the Annual Report.

9.3 FINANCIAL MANAGEMENT – SIGNIFICANT ACCOUNTING POLICIES REVIEW 2020

[The recommendation in the agenda]

That the Council APPROVES the Financial Management – Significant Accounting Policies (September 2020).

MANAGEMENT COMMITTEE (17 SEPTEMBER 2020)

9.4 CATALINA PROJECT WEBSITE

[The recommendation in the agenda]

That the Council NOTES the Satterley Property Group advice dated 20 July 2020 in relation to the Catalina Project website.

Minutes TPRC Meeting of Council – 8 October 2020

The Motions were put and CARRIED en bloc (7/0).

Moved Cr Sandri, Seconded Cr Treby.

That the Meeting be CLOSED to the public.

The Motion was put and declared CARRIED (7/0).

9.5 REVIEW OF DELIVERABLES - DEVELOPMENT MANAGER'S KEY PERFORMANCE INDICATORS – CONFIDENTIAL

Moved Cr Sandri, Seconded Cr Chester.

[The recommendation in the Agenda]

That the Item be held over to the Management Committee meeting of 12 November 2020 and that the Satterley Property group be requested to provide information on the achievement of the measures as required by the revised Development Manager's KPIs, approved 20 February 2020.

The Motion was put and declared CARRIED (7/0).

9.6 KEY PERSONNEL – DEVELOPMENT MANAGER / PROJECT RESOURCING – CONFIDENTIAL

Moved Cr Sandri, Seconded Cr Treby.

[The recommendation in the Agenda]

That the Council APPROVES the appointment of the following key personnel pursuant to Clause 4.5 of the Development Management Agreement:

Name of Replacement Person	Position
Julia Nelson	Development Manager

9.7 MINDARIE REGIONAL COUNCIL LANDFILL BUFFER – GROUNDWATER MONITORING UPDATE - CONFIDENTIAL

Moved Cr Treby, Seconded Cr Anderson.

That the Council RECEIVES the update on groundwater monitoring.

The Motion was put and declared CARRIED (7/0).

Moved Cr Sandri, Seconded Cr Treby.

That Standing Orders be suspended to allow Confidential Item 10.1 to be discussed.

Minutes TPRC Meeting of Council – 8 October 2020

The Motion was put and CARRIED (7/0).

10.1 BUILT FORM PARTNERSHIP – STAGE 18 – UPDATE - CONFIDENTIAL

Moved Cr Sandri, Seconded Cr Treby.

That Standing Orders be resumed.

The Motion was put and CARRIED (7/0).

[The recommendation in the agenda]

That the Council:

1. NOTES that negotiations with Schlager Group/David Barr Architects/Josh Burns and Associates as the preferred tenderer on Tender 05/19 have failed to reach agreement on satisfactory project management and development arrangements for the Stage 18 grouped housing site.
2. AGREES to cease negotiations with Schlager Group/David Barr Architects/Josh Burns and Associates.
3. ADVISES Schlager Group/David Barr Architects/Josh Burns and Associates of the Council's decision to cease negotiations and EXPRESSES its thanks for their effort in attempting to negotiate a suitable development outcome.
4. REQUIRES the Satterley Property Group to prepare an appropriate subdivision and development option, consistent with the Council's objectives for the Stage 18 site and cognisant of market conditions.

Moved Cr Chester, Seconded Cr Hammond.

[An Alternative Motion]

That the Council:

1. **AGREES to provide Schlager Group/David Barr Architects/Josh Burns and Associates an additional 14 days to provide the following information to inform the preparation of a Project Plan and Project Budget that sets out satisfactory project management and development arrangements for the Stage 18 grouped housing site including:**
 - i) **Details and pricing of the proposed sustainability initiatives to be incorporated into the development;**
 - ii) **Dwelling design plans that comply with the Catalina Central Design Guidelines; and**
 - iii) **Detailed dwelling construction costs and included specifications.**
2. **In the event that satisfactory information set out in 1. above is not provided CEASES negotiations with Schlager Group/David Barr Architects/Josh Burns and Associates:**

Minutes TPRC Meeting of Council – 8 October 2020

- i) expresses its thanks for their effort in attempting to negotiate a suitable development outcome;
- ii) requires the Satterley Property Group to prepare an appropriate subdivision and development option for the Stage 18 site that is consistent with the Council's objectives, is cognisant of market conditions and provides opportunities to achieve sustainable and innovative built form within the development.

The Motion was put and declared CARRIED (7/0).

10.2 CATALINA CENTRAL LOCAL CENTRE SITE – CHANGE OF OWNERSHIP AND AMENDED CONTRACTUAL TERMS – CONFIDENTIAL

Moved Cr Treby, Seconded Cr Chester.

[The recommendation in the agenda]

That the Council:

1. **AGREES** to the proposed sale of Lot 646 Aviator Boulevard, Clarkson from Catalina Gateway Site Pty Ltd as trustee for the Catalina Gateway Site Trust to Auswide International Investments (Cardup) Pty Ltd, subject to the latter preparing a deed of agreement setting out suitable development terms including the following construction milestones:
 - i) Amended development application to be submitted by 31 October 2020.
 - ii) Construction of the child care centre to be substantially commenced by 1 May 2021.
 - iii) Practical completion of the entire development within 30 months from 30 November 2020 or the date of settlement of the sale, whichever occurs sooner.
2. **AUTHORISES** the CEO to sign a deed of agreement with Auswide International Investments (Cardup) Pty Ltd to establish suitable contractual terms for the development of Lot 646 Aviator Boulevard, Clarkson.

The Motion was put and declared CARRIED (7/0).

9.1	FINANCIAL STATEMENTS FOR THE MONTHS ENDED 31 JULY 2020 AND 31 AUGUST 2020
File No:	GF-20-0000184
Appendix(s):	Appendix No. 1 Appendix No. 2 Appendix No. 3
Date:	5 October 2020
Responsible Officer:	Director Corporate Services

SUMMARY

The purpose of this report is to provide financial reporting in line with statutory requirements which provides useful information to stakeholders of the Council.

BACKGROUND

Reporting requirements are defined by Financial Management Regulations 34 of the Local Government (Financial Management) Regulations 1996.

The financial statements presented for each month consist of:

- Operating Statement by Nature – Combined
- Operating Statement by Nature – RRF Only
- Operating Statement by Function
- Statement of Financial Activity
- Statement of Reserves
- Statement of Financial Position
- Statement of Investing Activities
- Information on Borrowings
- Tonnage Report

DETAIL

The Financial Statements are for the months ended 31 July 2020 and 31 August 2020 and are attached at **Appendix No. 1 and 2** to this Item. The Tonnage Report for the 2 months to 31 August 2020 is attached at **Appendix No. 3**.

The financial statements are pending external auditor approval of the 2019/2020 final accounts.

The complete suite of Financial Statements which includes the Operating Statements, Statement of Financial Position, Statement of Financial Activity and other related information are reported on a monthly basis.

The estimates for Provisions for Amortisation of Cell Development, Capping and Post Closure expenditure are based on the estimated rates per tonne calculated with reference to estimated excavation cost of various stages of the landfill and the life of the landfill. An adjustment is made (if necessary) at the end of the year based on actual tonnages on a survey carried out to assess the "air space" remaining and other relevant information.

22 OCTOBER 2020

Page 6

Summary of results for the year to date period ended 31 August 2020

	Actual	Budget	Variance
	t	t	t
Tonnes – Members	40,752	41,297	(545)
Tonnes – Others	2,483	2,172	311
TOTAL TONNES	43,235	43,469	(234)
	\$	\$	\$
Revenue – Members	8,354,956	8,465,861	(110,905)
Revenue – Other	987,078	679,921	307,157
TOTAL REVENUE	9,342,034	9,145,782	196,252
Expenses	10,338,820	10,084,193	(254,627)
Profit on sale of assets	-	-	-
Loss on sale of assets	-	-	-
Impairment of assets	-	-	-
NET DEFICIT	(996,786)	(938,411)	(58,375)

Commentary

Tonnages for the financial period ended 31 August 2020 were 234 tonnes less than budgeted, variances are mainly attributable to the Cities of Vincent, Stirling and Wanneroo.

The net deficit result variance against budget of \$58,375 is mainly attributable to RRF expenditures abated by unbudgeted income received.

RRF

The Resource Recovery Facility residue tonnes are below phased budget by 433 tonnes delivering 9,822 tonnes in total to Tamala Park year to date.

Trade & Casuals

The Casual and Trade tonnages are 311 tonnes higher than forecast for the financial year to date.

9.2	LIST OF PAYMENTS MADE FOR THE MONTHS ENDED 31 JULY 2020 AND 31 AUGUST 2020
File No:	GF-20-0000184
Appendix(s):	Appendix No. 4 Appendix No. 5
Date:	5 October 2020
Responsible Officer:	Director of Corporate Services

SUMMARY

The purpose of this report is to provide details of payments made during the periods identified. This is in line with the requirement under the delegated authority to the Chief Executive Officer (CEO), that a list of payments made from the Municipal Fund since the last Ordinary Council meeting be presented to Council.

COMMENT

The lists of payments for the months ended 31 July 2020 and 31 August 2020 are at **Appendix 4 and 5** to this Item and are presented to Council for noting. Payments have been made in accordance with the delegated authority to the CEO which allows payments to be made between meetings. At the Ordinary Council Meeting held on 24 September 2020, the Council delegated to the CEO the exercise of its power to make payments from the Municipal Fund. In order to satisfy the requirements of Clause 13(2) of the Local Government (Financial Management) Regulations, a list of payments made must be submitted to the next Council meeting following such payments.

It should be noted that generally all payments are GST inclusive and the Mindarie Regional Council is able to claim this tax as an input credit when GST remittances are made each month to the Australian Tax Office.

Months Ended	Account	Vouchers	Amount
31 July 2020	General Municipal	Cheques	\$5,080.88
		EFT	\$7,460,186.70

9.3	EXPANSION OF GROUNDWATER MONITORING ACTIVITIES AT TAMALA PARK
File No:	GF-2-0000616
Appendix(s):	Nil
Date:	22 October 2020
Responsible Officer:	Chief Executive Officer

SUMMARY

This report seeks Council approval for the reallocation of budgeted funds in support of expanded groundwater monitoring activities at Tamala Park.

BACKGROUND

In 2007, elevated contaminants of concern were identified in groundwater samples in the area surrounding the Tamala Park landfill. These elevated readings were subsequently registered with the Department of Water and Environmental Regulations, Contaminated Sites Branch (CSB) as required by the Contaminated Sites Act 2003. Since this time, the results of groundwater and landfill gas monitoring have continued to be reported to the CSB on an annual basis.

As a consequence of the altered groundwater flow direction and the complexity of the site, the CSB also requested that a Mandatory Audit Report (MAR) be undertaken to further assist in understanding the site and the associated groundwater movement. The MAR was completed in February 2020 and presented to Council at the Ordinary Council Meeting (OCM) on 27 February 2020.

This report relates to the funding for the implementation of the recommendations contained within the MAR.

DETAIL

The MAR contained a recommendation to consider the "Installation of additional sampling locations on and off-site to vertically and laterally delineate the extent of contamination."

The monitoring and assessment regime was to be governed by the development of a Sampling Analysis and Quality Plan (SAQP). Throughout August and September 2020, the MRC commissioned the installation of an additional ten groundwater monitoring well sites, five within the landfill site itself (MW06-10 A/B/C) and five within the Catalina development (MW01-05 A/B/C), see *Figure 1* below. Each well site comprises a nest of three wells, bringing the total number of additional groundwater wells requiring monitoring to 30.

The MRC also requested that the current contracted provider for groundwater monitoring, the CSRIO, undertake this additional work on behalf of the MRC over three separate sampling periods (September and October 2020, and March 2021). The quoted cost summary associated with this additional monitoring is \$204,090.

Page 12

CONSULTATION

The MRC continues to work with the CSB, as well as the independent auditor Senversa, to ensure that the MRC fulfils its obligations with respect to groundwater contamination monitoring. The next revision of the MAR is due to be completed in the first half of 2021, with the final report to be presented to Council thereafter.

LEGAL COMPLIANCE

Legal advice was sought upon receipt of the MAR to understand the extent of the liability to which the MRC may be exposed, and what portion of any liability may be attributable to other parties such as the Water Corporation, should offsite groundwater contamination or landfill gas migration adversely impact the areas surrounding the Tamala Park site.

Upon receipt of the next revision of the MAR, the MRC will, upon review of any recommendations made, reassess the need to update this advice.

POLICY IMPLICATIONS

Nil

FINANCIAL IMPLICATIONS

It is proposed that the funds required for this additional work will be reallocated from the savings made in relation to the recycling/drop off area business restructuring. This reallocation of funds is in addition to the existing budgeted \$300,000 for groundwater monitoring and will be reflected in the half-year budget review. This reallocation will not result in the MRC exceeding the overall approved budget expenditure for FY 2020/21, and as a result, will not result in any increase in the members' gate fee.

VOTING REQUIREMENT

Absolute Majority

RESPONSIBLE OFFICER RECOMMENDATION

That Council:

1. Authorises the CEO to reallocate the required funds quoted in the report from the recycling and recovery to groundwater testing, for the purpose of supporting additional groundwater monitoring activities, which will be reflected in the half budget review.

6.37pm Cr Proud entered the Council Chambers

Moved Cr Shannon, seconded Cr Cvitan

9.4	MINDARIE REGIONAL COUNCIL ORDINARY COUNCIL MEETING AND STRATEGY WORKSHOP DATES FOR 2021
File No:	GF-20-0000072
Appendix(s):	Nil
Date:	5 October 2020
Responsible Officer:	Director of Corporate Services

SUMMARY

The purpose of this report is to provide notice of the dates, times and locations for the Mindarie Regional Council's (MRC) Ordinary Council Meetings (OCM) and Strategy Workshops (SW) for 2021.

BACKGROUND

The MRC is required to schedule OCM's for the forthcoming calendar year and provide public notice of their dates, times and locations. In addition, the dates are set for two SWs.

DETAIL

In setting the dates for the 2021 OCM's consideration is given to the following:

- The Tamala Park Regional Council meeting dates for 2021
- The WALGA Metropolitan Zone meeting dates for 2021
- Availability of Member Councils' Chambers.

It is noted that previous meeting schedules have not allowed for the MRC to consistently present financial reports within 2 months after the end of the month to which the statement of financial activity relates in accordance with s.6.4 of the Local Government Act 1995 and s.34(4) of the Local Government (Financial Management) Regulations 1996.

Given that Regional Councils typically meet every 2 months this problem is not unique to the MRC and also affects other entities such as the Tamala Park Regional Council. With a view to trying to achieve compliance, and at the same time being mindful of conflicting priorities and meeting dates, please see the following two options for consideration:

OPTION 1

Achieves compliance – 8 meetings for the year

- Ordinary Council Meeting 28 January 2021 (City of Joondalup)
- Ordinary Council Meeting 25 March 2021 (City of Wanneroo)
- Ordinary Council Meeting (Strategy Workshop) 27 May 2021 (City of Stirling)
- Ordinary Council Meeting 24 June 2021 (City of Stirling)
- Ordinary Council Meeting 12 August 2021 (Town of Cambridge)
- Ordinary Council Meeting (Strategy Workshop) 16 September 2021 (City of Vincent)
- Ordinary Council Meeting 11 November 2021 (Town of Victoria Park)
- Ordinary Council Meeting 16 December 2021 (City of Perth)

MINDARIE REGIONAL COUNCIL
ORDINARY COUNCIL MEETING MINUTES
22 OCTOBER 2020

Page 14

OPTION 2

Non-compliant – 6 meetings for the year

- Ordinary Council Meeting 04 February 2021 (City of Joondalup)
- Ordinary Council Meeting (Strategy Workshop) 22 April 2021 (City of Wanneroo)
- Ordinary Council Meeting 08 July 2021 (City of Stirling)
- Ordinary Council Meeting (Strategy Workshop) 16 September 2021 (City of Vincent)
- Ordinary Council Meeting 11 November 2021 (Town of Victoria Park)
- Ordinary Council Meeting 16 December 2021 (City of Perth)

Traditionally the MRC also holds two strategic workshops which are included in the meeting schedule. These workshops are important as they provide Councillors, member council CEOs and representatives on the Strategic Working Group and MRC management an opportunity to review and discuss the MRC's strategic direction.

STATUTORY ENVIRONMENT

Part 12 (1) and (2) of the Local Government (Administration) Regulations 1996 requires local government to issue public notice of its meeting dates at least once per year stating:

"12. Meetings, public notice of (Act s. 5.25(1)(g))

- (1) At least once each year a local government is to give local public notice of the dates on which and the time and place at which —
 - (a) the ordinary council meetings; and
 - (b) the committee meetings that are required under the Act to be open to members of the public or that are proposed to be open to members of the public,
 are to be held in the next 12 months.
- (2) A local government is to give local public notice of any change to the date, time or place of a meeting referred to in subregulation (1).

S.1.7 of the Local Government Act 1995 prescribes local public notice as:

"1.7. Local public notice

- (1) Where under this Act local public notice of a matter is required to be given, a notice of the matter is to be —
 - (a) published in a newspaper circulating generally throughout the district; and
 - (b) exhibited to the public on a notice board at the local government's offices; and
 - (c) exhibited to the public on a notice board at every local government library in the district.
- (2) Unless expressly stated otherwise it is sufficient if the notice is —
 - (a) published under subsection (1)(a) on at least one occasion; and
 - (b) exhibited under subsection (1)(b) and (c) for a reasonable time, being not less than —

14 MATTERS FOR WHICH THE MEETING MAY BE CLOSED TO THE PUBLIC

The Chair requested that in accordance with clause 7.1(e) of the Mindarie Regional Council Standing Orders Local Law 2012 and s5.23 of the Local Government Act 1995, Council proceed to meet "behind closed doors" to allow the Council to consider items 14.1 and 14.2 as the items are of a confidential nature.

The Chair invited MRC Officers and members of the MRC Strategic Working Group (SWG) and MRC officers to remain in the meeting in the meeting for items 14.1 and 14.2. The Chair requested members of the public to vacate the public gallery, no members of the public were present in the gallery.

The Chair announced that there were no limitations on the number of speeches made in accordance with clause 7.9(4) of the Mindarie Regional Council Standing Orders Local Law 2012.

Moved Cr Proud, seconded Cr Sargent

RESOLVED

To close the meeting to the public

(CARRIED UNANIMOUSLY 10/0)

Doors closed at 6.45 pm.

The MRC officers and members of the SWG remained in the public gallery.

There were no members of the public present.

Note: The Chief Executive Officer has not released the reports for items 14.1 and 14.2 for public information.

Late Agenda Item – Pop Up Play Consultation

KA advised that a late item had been requested to be discussed, that was not on the agenda. KA introduced CS who is researching options for new Pop Up Play locations and ideas. CS advised that from reviewing the previous Pop Up Play, our Public Open Space Strategy and consulting with our Parks team, that 4 parks had been identified as possible new Pop Up Play sites:

- Leake St Reserve
- Edinboro St Reserve
- Blackford St Reserve
- Redfern St Reserve

Following discussion, the group agreed that Leake & Alma St Reserve and Edinboro St Reserve would be their preferred locations. It was suggested that Leake St Reserve could have a sand play area and/ or a swings/ ropes play area. Cubby building, obstacle course and climbing equipment were suggested for Edinboro St Reserve, under the shade of the trees.

It was also suggested that Matlock St Reserve and Shakespeare St Reserve be considered.

The group were also keen to see pop up skateable objects/ furniture at other parks or open spaces across the City.

AI advised that as he was experienced in working with kids on functional movement and obstacle course type equipment through his gymnastics work, that he would be happy to provide assistance with the design of these types of play areas.

CS advised the group that their feedback would be taken back and incorporated into planning for the public consultation, which will see signage placed at the proposed reserves with options for people to submit feedback on what they would like to see.

KA advised implementation was proposed for around March next year, before Easter School Holidays. The Chairperson asked whether the implementation could be brought forward for any small projects eg sand play areas, as they would be quick and easy to do for summer holidays.

ACTION: Administration to explore feasibility of implementing Pop up projects prior to Summer Holidays

4.1 Adoption of the Youth Action Plan

The Chairperson advised that the Youth Action Plan was formally endorsed at the Ordinary Meeting of Council on Tuesday 20 October. The Chairperson advised that this was a great achievement and congratulated everyone involved in the development of the Plan.

KA advised that work was now beginning on implementation of the plan, particularly considering actions that address key areas such as mental health – with workshops being planned with Headspace and employability – with research being conducted into subsidising some skills courses and employment skills sessions. Other activities such as BMX learning sessions were also being investigated.

4.2 Young Makers Christmas Market

KA advised that the Young Makers Christmas Market (formerly the Kids Christmas Market) was being planned for Sunday 6 December. The City is currently accepting applications for stallholders and the group were encouraged to refer any under 18s who were interested. Advised that marquees and tables would be provided, with stallholders required to bring their products, cash for change and chairs.

LD asked whether it was possible for under 25s to be accepted. KA advised that if there were young people linked with youth services who were under 25 and really keen to be involved that we would accept these applications.

KA advised there were around 25 stallholders already registered following a callout to last years' stallholders and we had 40 last year but were looking to have a few extra this year as the space could accommodate this. Advised that there was a range of products last year from baked goods, jewellery, art, Christmas cards, plants as well as old toys and second hand goods. This year the aim is to attract more homemade products, arts and crafts. Last year there was a coffee cart, unsure yet whether this will return this year. It was suggested that there could be a deal with the nearby bubble tea store (Utopia) if they were interested in participating. KA advised she would investigate however as they are a franchise it may be difficult.

KA advised that there were also opportunities for emerging musicians to play at this event and confirmed this would be a paid opportunity.

SS asked whether there were additional requirements this year for COVID-19 safety and KA advised that discussions with the Environmental Health team confirmed that we would just need to complete a COVID-19 Safety Plan and the usual measures would be taken with regards to food sales (permits required etc) with extra handwashing facilities and hand sanitiser to be available.

ACTION: 1) KA to distribute promotional information for the Young Makers Christmas Market to the CYPAG members.

4.3 Vincent Youth Network Update

KA advised that the Vincent Youth Network (VYN) had been meeting around once a month and had confirmed that the Barista Course which was cancelled due to COVID-19 earlier this year should be rescheduled. The VYN were also interested in seeing some events such as employment networking for young people with panels of employers and social events eg BBQs. There was further discussion around VYN and Youth Action Plan events such as Responsible Service of Alcohol (RSA) courses, other basic job skills courses etc. Jobs skills courses were discussed – the group agreed these were important skills to learn but could be difficult to attract attendees. It was noted that the City would need to consider if RSA training was appropriate – KA will check this with the Environmental Health Team who are currently developing the Public Health Plan.

LD also brought up that driving licences were a big barrier for many young people, particularly if they did not have family who were able to teach them or access to a car. LD mentioned that there was a course in City of Swan that was a 10 week program teaching young people DJ-ing skills but also teaching them other skills alongside this such as how to set up an ABN, how to self-promote and build a business. This kind of program appealed to young people but was also very useful in the modern day 'gig' economy.

Other suggested employment opportunities that could be targeted were tutoring and childcare. It was noted that working with children checks and other checks and certificates were items that could possibly help young people to gain employment and the City could consider assisting with these.

AI suggested that Gymnastics WA would be keen to participate in any employment networking events as they employed many young people in coaching roles as did certain other sports. The Female Participation in Sports grants were also suggested as a means to train more young people as coaches for female sports teams or athletes.

**ACTION: 1) KA to send out information about the Barista Course to the CYPAG members.
2) KA to speak to the Health Officers about appropriateness of offering RSA training.**

4.4 Other Business

LD advised that YMCA HQ and WA Aids Council were partnering to deliver a peer support mental health event on 30 October and 1 November at HQ. The event will combine fun activities with opportunities to learn about supporting peers with their mental health needs.

AI noted that lots of comments had been received from users about the new toilets at the Loftus Recreation Centre, advising that the basins and equipment are too high for young children to use. WA Gymnastics have had to bring in stools to help young kids use the bathrooms. He asked whether future renovations could consider this. VM advised she would follow this up with the Engineering team.

AI also asked whether the Female Sports Participation grants were still available and KA confirmed they are.

ACTION: 1) VM to follow up with engineering team regarding the height of new toilets at Loftus Recreation Centre

5. Close/Next Meeting

Signed

Councillor (Chairperson)

Active Transport Officer, Sustainability & Innovation Advisors

1. Welcome/Declaration of Opening – Acknowledgement of Country

The Chair opened the meeting at 6.03pm and provided acknowledgement of the traditional owners of the land.

2. Apologies - none**3. Confirmation of Minutes - NA****4. Business****4.1 Name of Group**

Following several options being explored, the group provided support for the name Sustainability and Transport Advisory Group (STAG).

4.2 Terms of Reference

The group discussed the Draft Terms of Reference.

Outcome: The Group requested:

1. To see the terms of reference of other similar groups prior to the next meeting;
and

2. That stylistic differences between the sustainability and transport sections of the draft terms of reference be resolved and the two sections be consolidated into one.

4.3 Draft Accessible City Strategy

The Strategic Planning Officer, Coordinator and Manager of Policy and Place entered the meeting at this point and the Strategic Planning Officer provided a presentation to the group regarding the City's Draft Accessible City Strategy and discussed with the group actions under the following key strategy areas:

1. Create a Safe Transport Environment
2. Ensure Easy Accessibility into and around Vincent
3. Prioritise environmentally friendly transport modes and initiatives
4. Have an enjoyable City to get around

Outcome: The group were invited to provide further comments to the Responsible Officer in writing (sara.orsi@vincent.wa.gov.au). These will be forwarded to the Strategic Planning Officer for consideration.

4.4 Future Climate Technology Review

A report by Administration has been prepared to inform the City's investment in future climate technology.

Outcome: Report to be circulated to the Group for review ahead of the next meeting.

4.5 Previous Agenda Items – status update - NA

5. Close

The Chair closed the meeting at 7.44 pm

These Minutes were confirmed as a true and correct record of the meeting of the Sustainability and Transport Advisory Group held on 3 September 2020.

Signed: Chairperson

Dated: This day of 2020

CITY OF VINCENT

SUSTAINABILITY AND TRANSPORT ADVISORY GROUP MEETING

29 October 2020 AT 6:00PM

Venue: City of Vincent – Committee Room

UNCONFIRMED MINUTES

Attendees:

City of Vincent Councillors:
Cr Loden (*Chair*), Cr Hallett

Community Representatives:
Chris Wilson, Helen Griffiths, Jacinta Key, Julian Ledger, Katherine Celenza, Suzannah Randle

City of Vincent Officers:
Executive Director Infrastructure and Engineering Services, Manager Engineering Services,
Sustainability & Innovation Advisors

1. Welcome/Declaration of Opening – Acknowledgement of Country

The Chair opened the meeting at 6.03pm and provided acknowledgement of the traditional owners of the land.

2. Apologies

Ian Kininmonth, Adam Wilmot, Chris Cutress, Catrina Wold

3. Confirmation of Minutes – Minutes of the meeting of 3 September were confirmed.**4. Business****4.1 Terms of Reference**

The Draft terms of reference of the group were unanimously supported.

4.2 Future Climate Technology

The Senior Sustainability & Innovation Advisor led the group discussion on the Future Climate Technology report (prepared by Administration to inform Council decision making on relevant matters) following the key areas in the report below:

- Electric/hydrogen vehicles
- Battery Energy Storage Systems
- Power Ledger
- Microgrids
- Power Purchase Agreements

Outcome:

This report to be presented to Council for noting at an Ordinary Meeting to ensure it is on the public record (following some minor changes and additions as recommended by the Group).

4.3 Status Update of Previous Agenda Items

Item	Current Status	Next Step
Terms of Reference	Draft Terms of Reference supported by STAG.	Council to approve STAG Draft Terms of Reference at the November 17 2020 meeting.
Accessible City Strategy	Advertising for Public Comment.	To be presented to Council for approval pending changes following Public Consultation.
Future Climate Technology Review	Discussed at 29 October 2020 STAG.	To be presented to Council to note once changes have been made.

4.4 Other Business

The Chair raised an item North Perth Traffic Management and the following update was provided by the Manager of Engineering Services:

- North Perth: Traffic surveys completed in past and slow points a key recommendation (6 recommended in the report). This information can be shared with STAG. More community consultation will now take place. A report to be prepared to Council in December to seek approval for this;
- North Perth (View Street); request by the Place Team to reduce traffic flow through intersection with Fitzgerald. Proposal to make intersection left turn in/left turn out only for one year trial by installing a median on Fitzgerald. Previous closures of intersection (for construction) and review had indicated will have little impact on North Perth traffic. Intention to undertake the one year trial will be reported to Council in December;
- Vincent's aspiration is to have 40km/hr speed limit on all residential access streets and is a key aspiration in the draft Accessible City Strategy (now approved for public consultation);
- Main Roads has asked Vincent to pilot mini roundabouts to improve safety – this issue is going to Council in December to seek approval for community consultation; and
- Golding/Strathcona Bike Project community consultation outcome is going to the Council meeting in December.

It was agreed to add a standing Item to future agendas. Katherine Celenza to provide a road safety update as she used to do for UMAG. Katherine noted that a major Road Safety campaign is starting in November and will continue through to January.

5. Close

The Chair closed the meeting at 7.16 pm

These Minutes were confirmed as a true and correct record of the meeting of the Sustainability and Transport Advisory Group held on 29 October 2020.

Signed: Chairperson
