

CITY OF VINCENT

AGENDA

Council Briefing 14 June 2022

Time:6.00pmLocation:E-Meeting and at the Administration
and Civic Centre,
244 Vincent Street, Leederville

David MacLennan Chief Executive Officer

DISCLAIMER

No responsibility whatsoever is implied or accepted by the City of Vincent (City) for any act, omission, statement or intimation occurring during Council Briefings or Council Meetings. The City disclaims any liability for any loss however caused arising out of reliance by any person or legal entity on any such act, omission, statement or intimation occurring during Council Briefings or Council Meetings. Any person or legal entity who acts or fails to act in reliance upon any statement, act or omission made in a Council Briefing or Council Meeting does so at their own risk.

In particular and without derogating in any way from the broad disclaimer above, in any discussion regarding any planning or development application or application for a licence, any statement or intimation of approval made by an Elected Member or Employee of the City during the course of any meeting is not intended to be and is not to be taken as notice of approval from the City. The City advises that anyone who has any application lodged with the City must obtain and should only rely on WRITTEN CONFIRMATION of the outcome of the application, and any conditions attaching to the decision made by the Council in respect of the application.

Copyright

Any plans or documents contained within this Agenda may be subject to copyright law provisions (Copyright Act 1968, as amended) and that the express permission of the copyright owner(s) should be sought prior to their reproduction. It should be noted that Copyright owners are entitled to take legal action against any persons who infringe their copyright. A reproduction of material that is protected by copyright may represent a copyright infringement.

PROCEDURE FOR PUBLIC QUESTION TIME

The City's Council Briefings, Ordinary Council Meetings, Special Council Meetings and Committee Meetings are held in the Council Chamber located upstairs in the City of Vincent Administration and Civic Centre. Meetings are also held electronically (as eMeetings), and live streamed so you can continue to watch our meetings and briefings online at https://www.vincent.wa.gov.au/council-meetings/livestream

Public Questions will be strictly limited to three (3) minutes per person.

The following conditions apply to public questions and statements:

- 1. Members of the public present at Council Briefings will have an opportunity to ask questions or make statements during public question time. Questions and statements at Council Briefings must relate to a report contained in the agenda.
- 2. Members of the public present at Council Meetings, Special Council Meeting or Committee Meeting have an opportunity to ask questions or make statements during public question time in accordance with section 2.19(4) of the City's <u>Meeting Procedures Local Law</u>.
- 3. Questions asked at an Ordinary Council Meeting must relate to a matter that affects the City of Vincent.
- 4. Questions asked at a Special Council Meeting or Committee Meeting must relate to the purpose for which the meeting has been called.
- 5. Written statements will be circulated to Elected Members and will not be read out unless specifically requested by the Presiding Member prior to the commencement of the meeting.
- 6. Where in-person meetings are not permitted due to a direction issued under the *Public Health Act* 2016 or the *Emergency Management Act* 2005 questions and/or statements may be submitted in writing and emailed to <u>governance@vincent.wa.gov.au</u> by 3pm on the day of the Council proceeding. Please include your full name and suburb in your email.
- 7. Shortly after the commencement of the meeting, the Presiding Member will ask members of the public to come forward to address the Council and to give their name and the suburb in which they reside or, where a member of the public is representing the interests of a business, the suburb in which that business is located and Agenda Item number (if known).
- 8. Questions/statements are to be made politely in good faith and are not to be framed in such a way as to reflect adversely or be defamatory on an Elected Member or City Employee.
- 9. Where practicable, responses to questions will be provided at the meeting. Where the information is not available or the question cannot be answered, it will be *"taken on notice"* and a written response will be sent by the Chief Executive Officer to the person asking the question. A copy of the reply will be included in the Agenda of the next Ordinary meeting of the Council.
- 10. It is not intended that public speaking time should be used as a means to obtain information that would not be made available if it was sought from the City's records under Section 5.94 of the *Local Government Act 1995* or the *Freedom of Information Act 1992* (FOI Act). The CEO will advise the member of the public that the information may be sought in accordance with the FOI Act.

For further information, please view the Council Proceedings Guidelines.

RECORDING AND WEBSTREAMING OF COUNCIL MEETINGS

- All Council proceedings are recorded and livestreamed in accordance with the <u>Council Proceedings</u> <u>Recording and Web Streaming Policy</u>.
- All recordings are retained as part of the City's records in accordance with the State Records Act 2000.
- All livestreams can be accessed at https://www.vincent.wa.gov.au/council-meetings/livestream
- All live stream recordings can be accessed on demand at https://www.vincent.wa.gov.au/councilmeetings
- Images of the public gallery are not included in the webcast, however the voices of people in attendance may be captured and streamed.
- If you have any issues or concerns with the live streaming of meetings, please contact the City's Governance Team on 08 9273 6500.

RECOMMENDATION:

That Council, in accordance with the provisions of the City of Vincent Local Planning Scheme No. 2 and the Metropolitan Region Scheme, APPROVES the development application for alterations and additions to single house at No. 128A (Lot: 2; S/P: 80812) Harold Street, Mount Lawley in accordance with the plans in Attachment 2, subject to the following conditions, with the associated determination advice notes in Attachment 6:

1. Development Plans

This approval is for alterations and additions as shown on the approved plans dated 4 May 2022. No other development forms part of this approval;

2. Boundary Walls

The surface finish of boundary walls facing an adjoining property shall be of a good and clean condition, prior to the use of the terrace, and thereafter maintained, to the satisfaction of the City. The finish of boundary walls is to be fully rendered or face brick, or material as otherwise approved, to the satisfaction of the City;

3. External Fixtures

All external fixtures, such as television antennas (of a non-standard type), radio and other antennaes, satellite dishes, solar panels, external hot water heaters, air conditioners, and the like, shall not be visible from the street(s), are designed integrally with the building, and be located so as not to be visually obtrusive to the satisfaction of the City;

4. Visual Privacy

Prior to use of the terrace, all privacy screening shown on the approved plans shall be installed and shall be visually impermeable and are to comply in all respects with the requirements of Clause 5.4.1 of the Residential Design Codes (Visual Privacy) deemed to comply provisions, to the satisfaction of the City;

5. Colours and Materials

The colours, materials and finishes of the development shall be in accordance with the details and annotations as indicated on the approved plans which forms part of this approval. The development must be finished, and thereafter maintained, in accordance with the schedule provided to and approved by the City, prior to occupation of the development; and

6. Stormwater

Stormwater from all roofed and paved areas shall be collected and contained on site. Stormwater must not affect or be allowed to flow onto or into any other property or road reserve.

PURPOSE OF REPORT:

To consider an application for development approval for alterations and additions to an existing single house at No. 128A Harold Street, Mount Lawley (the subject site).

PROPOSAL:

The application is to extend the first floor of the dwelling over the existing garage at the rear in order to construct a new terrace addition with a pool.

The proposed terrace addition would be unroofed and have a 1.6 metre high decorative perforated aluminium privacy screen on all sides.

A 0.3 metre wide planter box is proposed to be installed adjacent to the south eastern lot boundary.

The lip of the pool would be 1.4 metres above the finished floor line of the terrace and access to the pool would be via a set of four stairs adjacent to the north western lot boundary.

The existing first floor bedroom wall and highlight window facing north east is proposed to be removed and replaced with an aluminium framed sliding door to provide direct access to the terrace area from the bedroom.

The proposed development plans are included as Attachment 2.

BACKGROUND:

Landowner:	Lawrence Game		
Applicant:	Anthony Rechichi Architect		
Date of Application:	5 June 2021		
Zoning:	MRS: Urban		
	LPS2: Zone: Residential R Code: R50		
Built Form Area:	Residential		
Existing Land Use:	Single House		
Proposed Use Class:	Single House		
Lot Area:	231m ²		
Right of Way (ROW):	Yes		
	North-east – 3 metres wide, sealed and drained, and City owned.		
Heritage List:	No		

Site Context and Zoning

The subject site is bound by Harold Street to the south west, a two storey grouped dwelling to the north west, three single storey single houses across the ROW to the north east and a single storey single house to the south east. A location plan is included as **Attachment 1**.

The subject site and all adjoining properties are zoned Residential R50 under the City's Local Planning Scheme No. 2 (LPS2). The subject site and all adjoining properties are also located within the Residential built form area and have a permitted building height of two storeys under the City's Policy No. 7.1.1 – Built Form (Built Form Policy).

The subject site is 6.1 metres wide and contains an existing two storey single house. The existing dwelling on the subject site shares a common boundary wall with another two storey single house at No. 128B Harold Street to the north west which was simultaneously constructed and is a mirror image of the subject dwelling.

Ordinary Meeting of Council 5 April 2022

The application was previously presented to Council at its Ordinary Meeting on 5 April 2022 for determination. Administration's recommendation was that Council approve the application subject to conditions.

COUNCIL BRIEFING AGENDA

The following procedural motion was carried by Council after in considering the application:

That Item 9.1 No. 128A (Lot: 2; STR: 80812) Harold Street, Mount Lawley – Proposed Alterations and Additions to Grouped Dwelling be deferred for further information.

The deferral reason outlined during the Council meeting was to allow the applicant to give further consideration to the design with respect to the lot boundary setback of the first floor terrace to the south eastern lot boundary.

The development plans presented to Council at its 5 April 2022 Ordinary Meeting are included as **Attachment 3**.

Amended Plans in Response to Council Deferral - Key Changes

Following Council's deferral, the applicant submitted amended development plans included in **Attachment 2** to the City on 4 May 2022. The amended development plans sought to address the deferral reason cited by Council.

The changes undertaken by the applicant to address the reason for deferral are summarised as follows:

- Removal of the skillion roof patio structure that was covering the roof terrace. The roof terrace is now proposed to be completely uncovered;
- Reduction in the height of portions of the privacy screening around the pool from 2.7 metres previously proposed to 1.6 metres above the finished floor level of the pool terrace;
- Modification to the pool access stairs to remove the 1.1 square metre platform at the top of the staircase that was previously proposed. The access to the pool is now proposed to be via a set of four stairs adjacent to the north western lot boundary;
- Addition of a 0.3 metre wide planter box adjacent to the south eastern lot boundary; and
- Provision of supporting images to show the proposed design and aesthetic appearance of the perforated metal screens, landscaping and pool structure.

The applicant has obtained a statement from the structural engineer who prepared the original structural documentation for the dwelling. This was obtained in response to concerns regarding the structural feasibility of the proposed pool.

The statement outlines that augmentation of the existing garage structure which may include partial deconstructive works, improvement of footings and a separate steel frame would enable the proposed pool to be safely supported structurally.

The applicant has also advised that an increased setback from the south eastern lot boundary was considered but ultimately not provided in the revised plans. This is on the basis that it would be detrimental to the functionality of the space for users and the abovementioned design changes would be sufficient to mitigate concerns regarding building bulk and scale.

The appropriateness of the proposed development as well as the revisions to the plans are discussed in further detail in the Comments section of this report.

DETAILS:

Summary Assessment

The table below summarises the planning assessment of the proposal against the provisions of the City of Vincent Local Planning Scheme No. 2 (LPS2), the City's Policy No. 7.1.1 – Built Form and the State Government's Residential Design Codes Volume 1. In each instance where the proposal requires the discretion of Council, the relevant planning element is discussed in the Detailed Assessment section following from this table.

Planning Element	Deemed-to-Comply	Requires the Discretion of Council
Street Setback	✓	
Lot Boundary Setbacks/Boundary Wall		✓
Building Height/Storeys	✓	
Outdoor Living Areas	✓	
Visual Privacy	\checkmark	
Solar Access	\checkmark	

Detailed Assessment

The Built Form Policy and R Codes have two pathways for assessing and determining a development application. These are through design principles and local housing objectives, or through deemed-to-comply standards.

Design principles and local housing objectives are qualitative measures which describe the outcome that is sought rather than the way that it can be achieved.

The deemed-to-comply standards are one way of satisfactorily meeting the design principles or local housing objectives and are often quantitative measures.

If a planning element of an application meets the applicable deemed-to-comply standard/s then it is satisfactory and not subject to Council's discretion for the purposes of assessment against the Built Form Policy and R Codes.

If a planning element of an application does not meet the applicable deemed-to-comply standard/s then Council's discretion is required to decide whether this element meets the design principles and local housing objectives.

The planning elements of the application that do not meet the applicable deemed-to-comply standards and require the discretion of Council are set out below. The changes from what was previously considered by Council at its 5 April 2022 Ordinary Meeting are as follows:

- The boundary wall height has reduced from 6.1 metres to 5.1 metres on the first floor terrace to the north western boundary; and
- The deemed-to-comply lot boundary setback standard for the first floor terrace to the south eastern lot boundary has reduced from 2.6 metres to 2.3 metres due to the removal of the skillion roof patio structure.

Lot Boundary Setbacks/Boundary Wall			
Deemed-to-Comply Standard	Proposal		
R Codes – Clause 5.1.3			
Boundary wall length			
Maximum permitted length of 22.2 metres.	First floor terrace north western boundary wall length of 31.3 metres.		
Boundary wall height			
Maximum permitted height of 3.5 metres.	First floor terrace north western boundary wall height of 5.1 metres (inclusive of screen panels).		
Lot boundary setback 2.3 metre setback for a building with a maximum height of 6.2 metres to the top of the bedroom wall extension, and a total length of 19.5 metres inclusive of the existing dwelling wall.	First floor terrace south eastern boundary setback of 1.1 metres.		

The above element of the proposal does not meet the specified deemed-to-comply standards and is discussed in the Comments section below.

CONSULTATION/ADVERTISING:

Community Consultation Prior to Council Deferral

Three different iterations of plans for the proposed development underwent community consultation prior to the application being deferred by Council at its meeting on 5 April 2022.

The first community consultation period was undertaken in accordance with the *Planning and Development* (*Local Planning Schemes*) *Regulations 2015* for a period of 14 days from 27 July 2021 to 9 August 2021. The method of consultation included a notice on the City's website and five letters being sent to all owners and occupiers adjoining the subject site, as shown in **Attachment 1** and in accordance with the City's (former) Policy No. 4.1.5 – Community Consultation.

Seven submissions were received at the conclusion of the first community consultation period, all of which objected to the proposal. One of these submissions contained seven signatories that opposed the proposed development. Administration contacted each of these objectors and confirmed their comments of objection as contained in the document.

The second and third community consultation periods were undertaken in accordance with the City's Community Engagement and Stakeholder Policy. This was based on amended plans and supporting information submitted by the applicant to address concerns raised. These amended plans were re-advertised to owners/occupiers who had previously provided a submission. In respect to this:

- The second community consultation period was for seven days from 29 October 2021 to 5 November 2021. Three submissions were received, all of which objected to the proposal.
- The third community consultation period was for seven days from 8 March 2022 to 15 March 2022. Three submissions were received, all of which objected to the proposal. The City erroneously advertised the south eastern lot boundary deemed-to-comply setback as 2.1 metres. Upon identifying the error, this was communicated to all previous submitters by the City via email.

Across the three community consultation periods, the key concerns raised in relation to the proposed development related to:

- Impacts of building bulk on adjoining properties;
- Loss of access to sunlight for adjoining properties;
- Dominance of the structure when viewed from the Harold Street streetscape and right of way;
- Overlooking from the retractable staircase; and
- Relocation of the existing air conditioning units upon construction of the terrace.

Community Consultation Following Council Deferral

The amended proposal that was submitted by the applicant in response to the deferral by Council at its meeting on 5 April 2022 was readvertised to all previous submitters for a period of seven days from 5 May 2022 to 12 May 2022. The City received three submissions from previous submitters, all of which objected to the proposal.

The objections that were received reiterated previous concerns, with emphasis on the following:

- The impacts of building bulk on the streetscape;
- The impacts of the proposed setback to the south eastern lot boundary on the amenity of the adjoining property as a result of:
 - Increased overlooking and noise impacts, with reference made to the 75 percent obscurity of the privacy screening; and
 - Increased overshadowing to the outdoor living area and north facing windows; and
- The extent of the departures from the deemed-to-comply standards being sought, with a request that the 2.3 metre deemed-to-comply setback to the south eastern lot boundary be provided.

A summary of submissions received across the four consultation periods along with Administration's responses to each comment is provided in **Attachment 4**. The applicant's response to the submissions received are provided as **Attachment 5**.

Design Review Panel (DRP):

Referred to DRP: Yes

Two iterations of plans for the proposed development were referred to a member of the City's DRP for comments prior to the application being deferred by Council at its meeting on 5 April 2022.

The DRP member provided raised the following concerns and suggestions in relation to the original plans which proposed a nil setback of the roof terrace to the south eastern lot boundary:

• The upper floor setback to the south eastern lot boundary directly impacts on perceived visual bulk and scale of the addition. Consider greater separation of the south eastern screen wall from the lot boundary. Also consider the introduction of a greater setback for the screen from the north western lot boundary;

- There is minimal information of colours and materials on the proposed plans for privacy screening. Recommend the architect provides further clarification on materials and colours proposed to ensure the R Codes requirement relating to obscurity is achieved with the privacy screening;
- The location of the landscaping on the south eastern lot boundary setback would be difficult to access and maintain without going onto adjoining property resulting in potential overlooking concerns; and
- The retractable staircase is discouraged as it poses a safety and overlooking issue that would impact the amenity of the adjoining neighbour. Recommend removal of the retractable staircase and emergency access.

The applicant made the following changes to the plans in response to the DRP member's initial concerns and recommendations:

- Increased setback of privacy screen on first floor terrace to south eastern boundary from 0.645 metres to 1.1 metres;
- Removal of planting area along the 1.1 metre setback on top of the garage roof to the eastern boundary; and
- Removal of the proposed retractable staircase located to the east of the existing bedroom on the first floor.

The DRP members comments on the set of plans included in **Attachment 3** that were deferred by Council at its meeting on 5 April 2022 were as follows:

- The increased setback to the roof terrace is an improvement and reduces the impact to the adjoining properties and ROW. It is noted that it does not meet R Codes deemed to comply provisions, but it is consistent with the setback to the upper storey wall along this side. The transition to a lightweight privacy screen at 1.6 metre height further mitigates bulk/scale impacts.
- The lightweight perforated privacy screen treatments proposed is supported in principle based on colours and materials and subject to further detailed review at Building Permit stage. Colour proposed should ideally be neutral and perforations compliant with privacy provisions of the R Codes.
- The removal of landscaping above the eastern boundary wall is appropriate because there would have been practical difficulties accessing this area for maintenance.
- The proponent could still have planter or pot plants along the inside of the screen on the terrace. This could possibly grow through the privacy screen as well to soften this interface.
- The increased setback to the eastern lot boundary should provide a reduction in the shadow cast over the eastern property and the privacy screen having a height of 1.6 metres to this location.

Further DRP advice was not sought in relation to the amended plans included in **Attachment 2** which were submitted by the applicant in response to the deferral by Council at its meeting on 5 April 2022. This is because none of the changes that are proposed conflict with the DRP's previous advice and does not increase the bulk and scale of the built form was that previously proposed.

LEGAL/POLICY:

- Planning and Development Act 2005;
- Planning and Development (Local Planning Schemes) Regulations 2015;
- City of Vincent Local Planning Scheme No. 2;
- State Planning Policy 7.3 Residential Design Codes Volume 1;
- Community Engagement and Stakeholder Policy (formerly Policy No. 4.1.5 Community Consultation); and
- Policy No. 7.1.1 Built Form.

Planning and Development Act 2005

In accordance with Schedule 2, Clause 76(2) of the *Planning and Development (Local Planning Schemes) Regulations 2015* and Part 14 of the *Planning and Development Act 2005*, the applicant would have the right to apply to the State Administrative Tribunal for a review of Council's determination.

Delegation to Determine Applications:

This matter is being referred to Council for determination in accordance with the City's Register of Delegations, Authorisations and Appointments. This is because the delegation does not extend to applications for development approval that received more than five objections during the City's community consultation period.

RISK MANAGEMENT IMPLICATIONS:

There are minimal risks to Council and the City's business function when Council exercises its discretionary power to determine a planning application.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's Strategic Community Plan 2018-2028:

Innovative and Accountable

We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATIONS:

The City has assessed the application against the environmentally sustainable design provisions of the City's Policy No. 7.1.1 – Built Form. These provisions are informed by the key sustainability outcomes of the City's Sustainable Environment Strategy 2019-2024, which requires new developments to demonstrate best practice in respect to reductions in energy, water and waste and improving urban greening.

PUBLIC HEALTH IMPLICATIONS:

This report has no implication on the priority health outcomes of the City's Public Health Plan 2020 - 2025.

FINANCIAL/BUDGET IMPLICATIONS:

There are no finance or budged implications from this report.

COMMENTS:

Lot Boundary Setback to South East

The R Codes deemed-to-comply standard sets out the wall on the first floor to be setback 2.3 metres from the south eastern lot boundary. This has reduced from 2.6 metres due to the removal of the skillion roof patio which had a maximum height of 7.1 metres and that was previously proposed.

A privacy screen is being proposed to the south east of the first floor terrace that would be on top of an existing wall. This privacy screen would measure 7.0 metres in length and 1.6 metres in height above the terrace finished floor level. The privacy screening is setback 1.1 metres from the south eastern lot boundary.

The privacy screen addition connects to a proposed 0.6 metre extension to the existing upper floor bedroom used to access the pool terrace area. This wall would reach a total height of 6.2 metres and is also setback 1.1 metres to the south eastern lot boundary. The remainder of the existing dwelling first floor wall to this south eastern boundary is 11.9 metres in length, 6.6 metres in height and setback 1.1 metres.

The proposed lot boundary setback satisfies the design principles of the R Codes and local housing objectives of the Built Form Policy for the following reasons:

<u>Mitigating Building Bulk:</u>

- The top of the privacy screen would be 5.1 metres in height measured from natural ground level which is 1.5 metres less than the existing south eastern first floor wall of the dwelling that it would adjoin. The stepping down of height would assist in reducing the impact of the building bulk associated with the first floor wall to the south eastern adjoining property;
- The proposed aluminium privacy screening on the first floor would provide a contrast in colours and materials from the existing ground and first floors when viewed from the adjoining property. The privacy screens would be a neutral colour tone. The existing dwelling is constructed from white rendered brick wall and face brick boundary walls. This contrast would successfully delineate and distinguish the first floor from the ground floor to assist in reducing the extensions bulk impact. The view from the eastern adjoining property to the area where the terrace is proposed is currently the roof of a garage, air conditioner and parapet blade wall beyond;
- The additions are unroofed, mitigating the impact of bulk by making the terrace less enclosed;

- The massing associated with the remainder of the existing first floor wall is effectively reduced through existing window openings that have previously been approved; and
- The DRP member noted that the transition between the existing first floor brick wall and light weight privacy screening would mitigate the impact of building bulk.
- Visual Privacy:
 - The proposed privacy screening is 1.6 metres in height measured from the terrace floor level. This would restrict views from the terrace area to the adjoining properties and complies strictly with the deemed-to-comply standards of the R Codes in relation to visual privacy. A condition of approval has been recommended requiring privacy screening to be installed prior to use of the terrace area;
 - Following the deferral of the application by Council at its meeting on 5 April 2022, the applicant submitted amended plans which include a 0.3 metre wide planter box along the inside south eastern edge of the roof terrace to provide separation between the usable area of the roof terrace and the south eastern adjoining property. The setback of the usable area of the roof terrace to the south eastern lot boundary would now be 1.5 metres; and
 - The proposed staircase provides an entrance straight into the pool with no additional platform for viewing over the proposed privacy screening when entering the pool.
- Solar Access:
 - The proposal complies with the deemed-to-comply standard of the R Codes relating to solar access for adjoining properties. Overshadowing of the existing dwelling inclusive of the proposed terrace is 20.4 percent of the adjoining site's area. This is less than the 50 percent overshadowing permitted for R50 coded properties under the R Codes deemed-to-comply standard. Overshadowing is assessed under the R Codes based on shadow cast to the south on 21 June during winter. This is when the sun is at its lowest in the sky and would cast the greatest shadow during the course of a year when the sun's angle is at 34 degrees. The subject site is oriented such that the shadow cast in a south direction is angled which assists in reducing the amount of overshadowing on the adjoining property; and
 - The proposed terrace would result in an additional 7.2 square metres of shadow cast onto the adjoining property and equates to 1.5 percent of the adjoining property's site area. This is calculated based on when overshadowing is at its worst on 21 June as per the R Codes. The shadow cast onto the adjoining property would fall over a portion of the south eastern property's kitchen window and outdoor living area. Access to direct sunlight would still be maintained for the majority of the outdoor living area and rear of to the adjoining property.
- <u>Ventilation</u>: The proposed setback of 1.1 metres between the proposed privacy screen and the south eastern lot boundary provides separation to allow for sufficient ventilation to the subject site and adjoining property.
- <u>Streetscape:</u> The proposed lot boundary setback would not have an adverse impact on the Harold Street streetscape. It is located towards the rear of the site and would be obstructed from view by the existing dwelling.

Boundary Wall to North West

The R Codes deemed to comply standard permits boundary walls to two sides with a height of 3.5 metres and length of 22.2 metres, being two thirds the balance of the lot boundary behind the front setback.

The privacy screen proposed to the north west of the first floor terrace is 7.6 metres in length and has maximum height of 5.1 metres above natural ground level, resulting in a 0.3 metre increase to the existing boundary wall height for this portion of the boundary. The proposed privacy screen to the first floor terrace would extend the existing boundary wall along the north western lot boundary by 7.6 metres to a total boundary wall length of 31.3 metres.

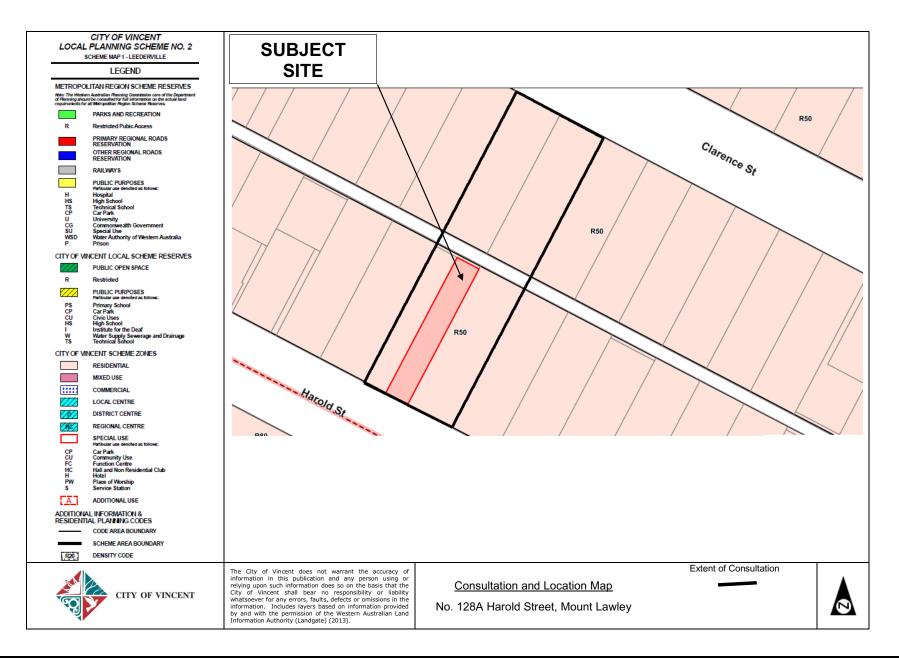

Following deferral of the application by Council at its meeting on 5 April 2022, the applicant submitted the amended plans included in **Attachment 2** which reduced the proposed boundary wall height to the north western lot boundary by 1.0 metre, from the maximum height of 6.1 metres that was previously proposed.

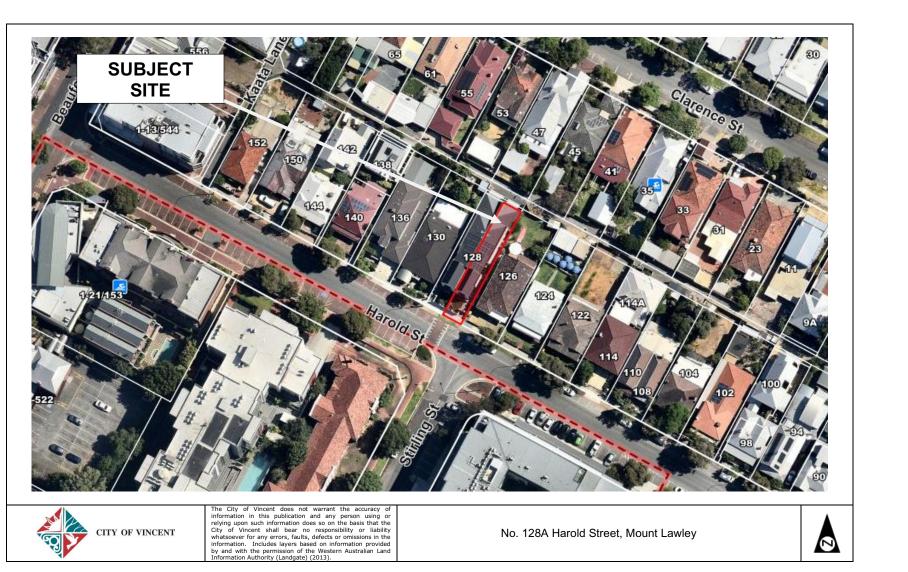

The proposed boundary wall extension satisfies the design principles of the R Codes and local housing objectives of the Built Form Policy for the following reasons:

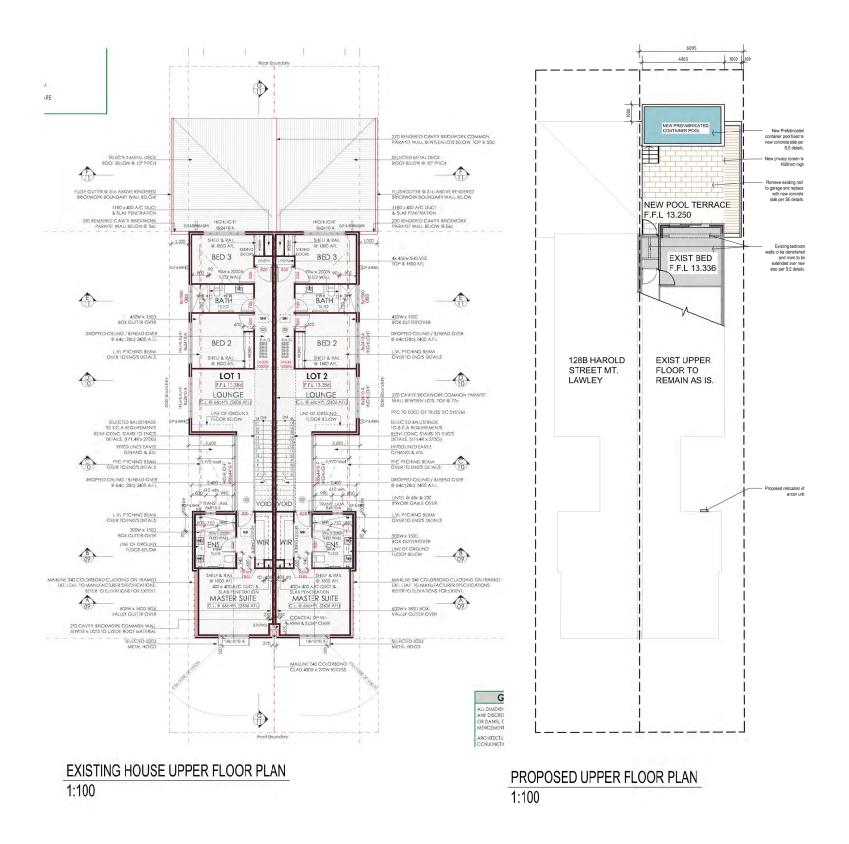

<u>Mitigating Building Bulk:</u>

The boundary wall extension would abut the garage of the adjoining property to the north-west. This would limit the impact associated with building bulk, as this area is void of any habitable rooms and living spaces; and

- The proposed increase of 0.3 metres in height of the existing boundary wall would be due to the installation of aluminium privacy screening. The screen would be of varying material and colour to the existing parapet wall that would assist with breaking up the mass, reducing the appearance of blank walls and creating visual interest.
- Visual Privacy:
 - The proposed privacy screening on top of the existing parapet wall would restrict views west from the terrace area and assists in making more effective use of the proposed outdoor living area. The screening would be 1.6 metres in height measured from the terrace floor level and meets the deemed-to-comply standard of the R Codes in relation to visual privacy; and
 - Following deferral of the application by Council at its meeting on 5 April 2022, the applicant submitted amended plans which removed the previously proposed raised deck area at the top of the stair access to the pool, further reducing opportunities for perceived overlooking to adjoining properties.
- <u>Ventilation:</u> The proposed boundary wall extension abuts the roof area of the adjoining property's garage to the north west. The boundary wall would not restrict ventilation to any windows or living areas of the subject site or adjoining property.
- <u>Solar Access</u>: The proposed boundary wall extension does not restrict direct sunlight to the north western adjoining property including its highlight window to bed 3 on the first floor. This is because the shadow cast from the boundary wall and as measured in accordance with the R Codes would be cast to the south onto the proposed terrace area and subject site itself. The proposed boundary wall extension would not contribute to additional overshadowing of any of the adjoining properties.
- <u>Streetscape</u>:
 - The proposed boundary wall extension would not have an adverse impact on Harold Street, as it is located away from this street towards the rear of the site and obscured from view by the existing dwelling; and
 - The proposed boundary wall extension would not detrimentally impact the streetscape quality of the right of way (ROW). The ROW to the rear of the site is characterised by garage doors, boundary fences and examples of existing two storey buildings with blank upper floor facades.

The tables below summarise the comments received during the advertising period of the proposal, together with the City's response to each comment.

Comments Received in Objection:	Administration Comment:
Building Bulk and Overshadowing	
 Concerns regarding the pool terrace boundary wall height and length due to the dominance and ability to reduce direct sunlight. The proposed height of the boundary wall is too high in relation to the requirements. North-western boundary wall height and length will negatively impact the streetscape and is considered excessively bulky for the lot size. The boundary wall would dominate the outdoor living areas of the adjoining properties and would create an adverse impact of bulk. Concern with the extent of the lot boundary setback departures being sought, request that the 2.3 metre deemed-to-comply setback to the 	Boundary Wall to North West
	The proposed privacy screen to the first floor terrace would extend the boundary wall to the north west by 7.6 metres in length and 0.3 metres in height.
	Following the deferral of the application by Council at its meeting on 5 April 2022, the applicant submitted amended plans reducing the height which reduced the proposed boundary wall height to the north western lot boundary by 1.0 metre, from the maximum height of 6.1 metres that was previously proposed.
south eastern lot boundary be provided.	Inclusive of the existing boundary wall of the dwelling to the first floor, it would result in a total boundary wall length of 31.3 metres and 5.1 metres in height, in lieu of the deemed-to-comply standard of 22.2 metres length and 3.5 metres height.
	The proposed boundary wall extension satisfies the design principles of the R Codes and local housing objectives of the Built Form Policy.
	The privacy screen extension on top of the existing parapet wall between the dwelling on the subject site and the dwelling to the north west is being proposed to restrict overlooking from the terrace.
	The proposed privacy screen directly adjoins the garage to the rear of the adjoining property and does not abut any major openings, habitable rooms or living spaces.
	The shadow cast from the privacy screen would fall onto the subject site itself and not the adjoining property due to the orientation of the lot and would not create an adverse impact of shadow to the adjoining property to the north west.
	The visual contrast of varying material between the existing parapet (rendered brick) and privacy screening (aluminium) would assist with breaking up the mass, reducing the appearance of blank walls and creating visual interest. reduces the impact of blank walls when viewed from the right of way and adjoining properties. The boundary wall extension would not be visible from Harold Street as it is located to the rear of the existing two storey dwelling and would not have a detrimental impact to the existing streetscape.

Comments Received in Objection:	Administration Comment:
	Wall to South-East
	Through the course of the application, the applicant provided amended plans increasing the setback of the privacy screen to the south-eastern boundary from 0.645 metres to 1.1 metres. This brings the setback in line with the existing dwelling setback of the first floor bedroom.
	The proposed privacy screen to the first floor terrace would extend the boundary wall to the south-east by 7.6 metres in length.
	Inclusive of the existing wall of the dwelling it would sit on top, it would be a total height of 5.1 metres measured from natural ground level. It would also be a continuation on from the existing dwelling first floor wall to this south-eastern boundary that is 11.9 metres in length, 6.6 metres in height and setback 1.1 metres. The proposed boundary wall extension satisfies the design principles of the R Codes and local housing objectives of the Built Form Policy.
	The stepping down in height by 1.5 metres of the privacy screen from the existing dwelling first floor wall that it would continue on from would assist in reducing the impact of the building bulk to the south-eastern adjoining property.
	The proposed aluminium privacy screening on the first floor would provide a contrast in materials from the painted white render of the existing ground and first floors when viewed from the adjoining property that would assist in providing visual interest and reducing building bulk.
	The proposal complies with the deemed-to-comply standard of the R Codes relating to solar access for adjoining properties. Overshadowing of the existing dwelling inclusive of the proposed terrace is 20.4% of the adjoining site's area. This is less than the 50 percent overshadowing permitted for R50 coded properties under the R Codes deemed-to-comply standard. The proposed terrace would result in an additional 7.2 square metres of shadow cast onto the adjoining property and equates to 1.5 percent of the adjoining property's site area.
The skillion roof exceeds the deemed-to-comply requirement of	Skillion Roof
6 metres to 7 metres and would result in increased visual bulk and shadow.	Following the deferral of the application by Council at its meeting on 5 April 2022, the applicant submitted amended plans removing the previously proposed skillion roof patio structure from the roof terrace. The removal of the skillion roof patio would further reduce the appearance of building bulk from the adjoining properties and laneway.

Comments Received in Objection:	Administration Comment:
Visual Privacy	
 The proposed screen walls are not high enough to restrict views from the pool terrace. Concern that the proposed 75 percent obscurity would result in overlooking to the adjoining south eastern property. 	Privacy screening to all sides of the proposed terrace area meet the visual privacy deemed-to-comply standards of the R Codes. The deemed-to-comply standard of the R Codes sets out screening to a height of a minimum of 1.6 metres in height from the terrace floor level.
	Following the deferral of the application by Council at its meeting on 5 April 2022, the applicant submitted amended plans which reduced the height of all privacy screening to be a maximum of 1.6 metres above the finished floor level of the roof terrace. The reduced height of the privacy screening would further reduce the appearance of building bulk from the adjoining properties and laneway.
	Permanently fixed screening devices with an obscurity of 75 percent and height of 1.6 metres is considered to be an effectively means of mitigating any overlooking that would have an adverse impact on an adjoining property because:
	 At 75 percent obscurity all that can practically be see is the screen itself, rather than anything beyond; and At a height of 1.6 metres views to the sky and parallel from the terrace are maintained but views down into the adjoining property are obscured. In this instance, the addition of the 0.3 metre wide planter box along the south eastern edge of the terrace would make this even more the case as the distance between the screen and usable area of the deck is increased.
	A condition of approval has been recommended requiring privacy screening to be installed prior to use of the terrace area.
Noise	
Concern that the proposed 75 percent obscurity would result in increased noise impacts on the adjoining south eastern property.	The proposed development is an addition to an existing single house which is permitted within the residential zone, the level of acoustic privacy would be consistent with what is expected in an R50 coded residential area.

Comments Received in Objection:	Administration Comment:
Landscaping	
Concerns regarding the proposed vertical garden/landscaping strip within the proposed non-compliant setback area. Maintenance of the area would result in overlooking into the south-eastern adjoining property.	The planting area along the 1.1 metre setback on top of the garage roof to the south-eastern boundary has been removed from the proposed development in subsequent amended plans submitted by the applicant.
	Following the deferral of the application by Council at its meeting on 5 April 2022, the applicant submitted amended plans which include a 0.3 metre wide planter box along the inside south eastern edge of the roof terrace to provide separation between the usable area of the roof terrace and the south eastern adjoining property. The setback of the usable area of the roof terrace to to the south eastern lot boundary would now be 1.5 metres.
Retractable Staircase	
 Concerns regarding the impact of the retractable staircase, particularly in relation to overlooking of adjoining properties when utilised. Concerns regarding the bulk impact of the staircase when viewed above the dividing fence line from the adjoining property. Request further details on any motorised aspect to the staircase and the noise impact it may generate. 	The retractable staircase has been removed from the proposed development in subsequent amended plans submitted by the applicant.

Administration Comment:
The proposed air conditioning units would be required to be moved to a location that is not visible from the street or appropriately screened from adjoining properties. The applicant has indicated that the air conditioning units would be relocated behind the existing first floor master bedroom and is indicated on the final development plans.
A condition of approval has been recommended requiring the appropriate placement of air conditioners to ensure this.

Note: Submissions are considered and assessed by issue rather than by individual submitter.

The tables below summarise the comments received during the advertising period of the proposal, together with the Applicant's response to each comment.

Comments Received in Objection:	Applicant Comment
Building Bulk and Overshadowing	
 Concerns regarding the pool terrace boundary wall height and length due to the dominance and ability to reduce direct sunlight. The proposed height of the boundary wall is too high in relation to the requirements. North-western boundary wall height and length will negatively impact the streetscape and is considered excessively bulky for the lot size. The boundary wall would dominate the outdoor living areas of the adjoining properties and would create an adverse impact of bulk. 	The proposal has been amended to be setback approx.1.2m from the side (south-eastern) boundary and in line with the existing houses' external walls. The screening has been reduced in height to 1.6m and has eliminated the vertical garden. The roof has also been reduced to 1.2m setback. The transparency is 75% obscure 25% transparent to further assist with privacy concerns. There is very little impact on the adjoining neighbour's access to northern light given the lots' north-south (approx.) orientation.
 The lot boundary setback would substantially adversely impact the adjoining properties through loss of sunlight and privacy. The pool terrace boundary wall is a total height of 6.1 metres to 7.4 metres located on the south-eastern lot boundary. This reduced setback increases the shadow and reduces direct sunlight into the adjoining property's north facing windows and backyard. It also would create an impact of visual building bulk when viewed from the adjoining property to the south-east. The pool terrace wall is setback 0.645 metres in lieu of 1.2 metres from the south-eastern lot boundary. This reduced setback increases the shadow and reduces direct sunlight into the adjoining property's north facing windows and backyard. 	
 The skillion roof exceeds the deemed-to-comply requirement of 6 metres to 7 metres and would result in increased visual bulk and shadow. 	The skillion roof is a small, roofed area of a dimension of 4.0 x 4.8, It is pitched at a similar roof pitch to main roof of the house and a small potion extends above the existing roof height by approximately 400mm. It provides necessary roof cover of the terrace area to allow for an extended and purposeful usage of the outdoor living space. Without it the space becomes virtually futile.
Visual Privacy	
The proposed screen walls are not high enough to restrict views from the pool terrace.	The north-western wall to the proposed terrace and pool sits atop the common parapet wall between the two residences that separates the two garages. The consultant appears to be referring to the north-eastern wall facing the laneway

Comments Received in Objection:	Applicant Comment
	which is fully screened to 75% obscurity 25% transparency and to a height of 2.8m. A partial glimpse of a view when standing on the 1m x 1m wide landing to get into the pool may be possible, which is an insignificant occurrence. The screen walls on the north-west and south-east boundaries are 1.6m high to the same transparency levels thereby effectively minimising overlooking and maintaining privacy to the neighbouring property.
Landscaping	
• Concerns regarding the proposed vertical garden/landscaping strip within the proposed non-compliant setback area. Maintenance of the area would result in overlooking into the south-eastern adjoining property.	The vertical garden has been eliminated.
Retractable Staircase	
 Concerns regarding the impact of the retractable staircase, particularly in relation to overlooking of adjoining properties when utilised. Concerns regarding the bulk impact of the staircase when viewed above the dividing fence line from the adjoining property. Request further details on any motorised aspect to the staircase and the noise impact it may generate. 	The retractable staircase has been eliminated.

Comments Received Expressing Concern:	City Comment	
Air Conditioning Unit Relocation		
• The proposed development would replace the location of the existing air conditioning unit external fixtures. Concerns that the proposed development will require the relocation of the units to an undesirable location. Request further details regarding this relocation.	The air-conditioner will be relocated to the roof behind the front parapet wall. It will not be seen from the street or front the neighbours.	

Note: Submissions are considered and assessed by issue rather than by individual submitter.

Determination Advice Notes:

- 1. This is a development approval issued under the City of Vincent Local Planning Scheme No. 2 and the Metropolitan Region Scheme only. It is not a building permit or an approval to commence or carry out development under any other law. It is the responsibility of the applicant/owner to obtain any other necessary approvals and to commence and carry out development in accordance with all other laws.
- 2. If the development the subject of this approval is not substantially commenced within a period of 2 years, or another period specified in the approval after the date of determination, the approval will lapse and be of no further effect.
- 3. Where an approval has so lapsed, no development must be carried out without the further approval of the local government having first been sought and obtained.
- 4. If an applicant or owner is aggrieved by this determination there is a right of review by the State Administrative Tribunal in accordance with the *Planning and Development Act 2005* Part 14. An application must be made within 28 days of the determination.
- 5. In relation to Advice Note 2 a further two years is added to the date by which the development shall be substantially commenced, pursuant to Schedule 3, Clause 3.1 of the Clause 78H Notice of Exemption from Planning Requirements During State of Emergency signed by the Minister for Planning on 4 March 2022.
- 6. This is approval is not an authority to ignore any constraint to development on the land, which may exist through statute, regulation, contract or on title, such as an easement or restrictive covenant. It is the responsibility of the applicant and not the City to investigate any such constraints before commencing development. This approval will not necessarily have regard to any such constraint to development, regardless of whether or not it has been drawn to the City's attention.
- 7. The applicant is responsible for ensuring that all lot boundaries as shown on the approved plans are correct.
- 8. No verge trees shall be REMOVED. The verge trees shall be RETAINED and PROTECTED from any damage including unauthorized pruning.
- 9. An Infrastructure Protection Bond together with a non-refundable inspection fee shall be lodged with the City by the applicant, prior to commencement of all building/development works, and shall be held until all building/development works have been completed and any disturbance of, or damage to the City's infrastructure, including verge trees, has been repaired/reinstated to the satisfaction of the City. An application for the refund of the bond must be made in writing. This bond is non-transferable.
- 10. The movement of all path users, with or without disabilities, within the road reserve, shall not be impeded in any way during the course of the building works. This area shall be maintained in a safe and trafficable condition and a continuous path of travel (minimum width 1.5m) shall be maintained for all users at all times during construction works. Permits are required for placement of any material within the road reserve.
- 11. With reference to Condition 2, the owners of the subject land shall obtain the consent of the owners of relevant adjoining properties before entering those properties in order to make good the boundary walls.
- 12. With reference to Condition 4 Clause 5.4.1 C1.2 Visual Privacy requirements of the R codes states that screening devices such as obscure glazing, timber screens, external blinds, window hoods and shutters are to be at least 1.6m in height, at least 75 percent obscure, permanently fixed, made of durable material and restrict view in the direction of the overlooking into any adjoining property.
- 13. In regards to Condition 6, all storm water produced on the subject land shall be retained on site, by suitable means to the full satisfaction of the City. No further consideration shall be given to the disposal of storm water 'off site' without the submission of a geotechnical report from a qualified consultant. Should approval to dispose of storm water 'off site' be subsequently provided, detailed design drainage plans and associated calculations for the proposed storm water disposal shall be lodged together with the building permit application working drawings.

5.2 NO. 7 (LOT: 1; STR: 43011) GALWEY STREET, LEEDERVILLE - ALTERATIONS AND ADDITIONS TO SINGLE HOUSE (AMENDMENT TO APPROVED - EXTENSION OF TIME)

Ward: North

Attachments:

- 1. Consultation and Location Map 🗓 🛣
- 2. Development Plans 🗓 🔛
- 3. Previous Council Meeting Minutes and Approved Plans U
- 4. Applicant Justification and Response to Submissions J

RECOMMENDATION:

That Council, in accordance with the provisions of the City of Vincent Local Planning Scheme No. 2 and the Metropolitan Region Scheme, APPROVES the application for Alterations and Additions to Single House (Amendment to Approved – Extension of Time) at No. 7 (Lot 1; STR: 40311) Galwey Street, Leederville, in accordance with the plans shown in Attachment 2, subject to the following condition:

- 1. All other conditions, requirements and advice notes detailed on the development approval 5.2018.166.1 granted on 21 August 2018 continue to apply to this approval except as follows:
 - 1.1 Condition 1 is modified to read as follows:
 - 1. This approval is valid for two years from the date of this approval.
 - 1.2 Advice Note 2 is added to read as follows:
- 2. In relation to Condition 1, a further two years is added to the date by which the development is to be substantially commenced, pursuant to Schedule 3, Condition 3.1 of the Clause 78H current Notice of Exemption from Planning Requirements During State of Emergency signed by the Minister for Planning on 22 April 2022.

PURPOSE OF REPORT:

To consider an application to amend a previous development approval for proposed alterations and additions to single house at No. 7 Galwey Street, Leederville (subject site).

PROPOSAL:

The application proposes to amend a previous development approval by extending the period of time to substantially commence the development.

This previous approval for the development was required to be substantially commenced by 9 February 2020. This did not happen and the approval has lapsed.

The proposed development is for three storey alterations and additions to an existing single house. This would provide for a rear extension to the existing house and would have an upper floor, ground floor and basement level.

The development plans for this current application have not been modified since the previous approval was granted.

A location plan is included as **Attachment 1** and the proposed development plans are included as **Attachment 2**.

BACKGROUND:

Landowner:	Nicola Limond
	Theold Einfeld

Applicant:	Nicola Limond
Date of Application:	24 January 2022
Zoning:	MRS: Urban
-	LPS2: Zone: Residential R Code: R40
Built Form Area:	Residential
Existing Land Use:	Single House
Proposed Use Class:	Single House
Lot Area:	313m ²
Right of Way (ROW):	No
Heritage List:	No

Site Context and Zoning

The subject site is bound by Galwey Street to the north and residential dwellings to the south, east and west.

The subject site and all adjoining properties are zoned Residential R40 under the City's Local Planning Scheme No. 2 (LPS2). The subject site and all adjoining properties are within the Residential built form area and have a building height standard of two storeys under the City's Policy No. 7.1.1 – Built Form (Built Form Policy).

The prevailing streetscape context is generally existing retained character dwellings which are single storey with some two storey development. There are three storey developments under construction within the vicinity particularly at the intersection of Loftus and Galwey Streets.

The subject site slopes down from north to south by approximately 1.5 metres.

Previous Approvals

At its Ordinary Meeting held on 9 February 2016, Council resolved to approve a development application for alterations and additions to the existing single house at the subject site which was valid for a period of two years.

At its Ordinary Meeting held on 21 August 2018, Council resolved to approve a development application to extend the validity of the 2016 approval for a further two years. No changes to the plans were made from the 2016 approval.

The most recent approval expired on 9 February 2020.

The minutes from Council's 9 February 2016 and 21 August 2018 Ordinary Meetings and the previously approved plans from 2018 are included as **Attachment 3**.

Compliance History

The City's Compliance team has been investigating a compliance matter relating to unauthorised works at the subject site. These investigations relate to alleged site works affecting other land which include the altering of ground levels and the construction of steps to the rear of the property. These matters are not the subject of this application.

DETAILS:

Summary Assessment

The table below summarises the planning assessment of the proposal against the provisions of the City of Vincent Local Planning Scheme No. 2 (LPS2), the City's Policy No. 7.1.1 – Built Form and the State Government's Residential Design Codes (R Codes). In each instance where the proposal requires the discretion of Council, the relevant planning element is discussed in the Detailed Assessment section following from this table.

Planning Element	Deemed-to- Comply	Requires Discretion and was Previously Approved	Requires Additional Discretion that was Not Previously Approved
Street Setback	\checkmark		
Lot Boundary Setback/Boundary Walls		\checkmark	
Open Space	\checkmark		
Building Height		\checkmark	
Setback of Garages and Carports	\checkmark		
Street Surveillance	\checkmark		
Sight Lines	\checkmark		
Outdoor Living Areas		\checkmark	
Landscaping (R Codes)	\checkmark		
Parking and Access	\checkmark		
Site Works and Retaining Walls	\checkmark		
Visual Privacy	\checkmark		
Solar Access	\checkmark		
Outbuildings	\checkmark		
External Fixtures, Utilities and Facilities	\checkmark		

Detailed Assessment

The Built Form Policy and R Codes have two pathways for assessing and determining a development application. These are through design principles and local housing objectives, or through deemed-to-comply standards.

Design principles and local housing objectives are qualitative measures which describe the outcome that is sought rather than the way that it can be achieved.

The deemed-to-comply standards are one way of satisfactorily meeting the design principles or local housing objectives and are often quantitative measures.

If a planning element of an application meets the applicable deemed-to-comply standard/s then it is satisfactory and not subject to Council's discretion for the purposes of assessment against the Built Form Policy and R Codes.

If a planning element of an application does not meet the applicable deemed-to-comply standard/s then Council's discretion is required to decide whether this element meets the design principles and local housing objectives.

The planning elements of the application that do not meet the applicable deemed-to-comply standards and require the discretion of Council are as follows:

Lot Boundary Setbacks		
Deemed-to-Comply Standard	Proposal	
Built Form Policy Volume 1 Clause 5.2		
Lot Boundary Setback	Lot Boundary Setback	
Western Boundary	Western Boundary	
Ground Floor Dining – 1.6 metres	Ground Floor Dining – 1.4 metres	
Eastern Boundary	Eastern Boundary	
Ground Floor Stair – 1.7 metres	Ground Floor Stair – 1.1 metres	
Building Height		
Deemed-to-Comply Standard	Proposal	
Built Form Policy Volume 1 Clause 5.6		
The building height standard is two storeys.	The building would be three storeys.	

The building is permitted to have a wall height of 7.0 metres.	The building would have a wall height of 7.15 metres.
Outdoor Living Areas	
Deemed-to-Comply Standard	Proposal
R Codes Clause 5.3.1	
 The outdoor living area standards are: A minimum size of 20 square metres. Directly accessible from the primary living space of the dwelling. A minimum length and width dimension of 4 metres. 	 The outdoor living area would have the following: A size of 17.6 square metres. Not be directly accessible from the primary living space of the dwelling. A minimum dimension of 2.2 metres.

The above elements of the proposal do not meet the specified deemed-to-comply standards and are discussed in the Comments section below.

CONSULTATION/ADVERTISING:

Community consultation was undertaken in accordance with the *Planning and Development (Local Planning Schemes) Regulations 2015* (the Regulations) and the City's Community and Stakeholder Engagement Policy for a period of 22 days from 6 April 2022 to 28 April 2022. The method of consultation included notice on the City's website and nine letters mailed to all owners and occupiers of the properties adjoining the subject site, as shown in **Attachment 1**.

At the conclusion of the community consultation period a total of two submissions were received. One of these supported the proposal and the other objected to the proposal.

The submission supporting the proposal did not provide any comments.

The submission objecting to the proposal raised the following concerns:

- Privacy impact to the adjoining property from the construction of retaining walls currently underway and the increasing of natural ground levels of the site; and
- Natural ground levels are either not shown on the development plans or are not accurate.

Administration's response to the concerns are:

- The current application relates to the extension of the approval timeframe for the proposed alterations and additions to the existing single house;
- The application does not propose any increases to the existing natural ground levels on the site, with only excavation proposed;
- The natural ground levels are shown on the development plans. The development is to accord with the floor levels as shown on the development plans; and
- Concerns relating to unauthorised works, including changes to ground levels, are a separate matter that is outside the scope of this application. These concerns are being investigated separately by the City's Compliance team and are not the subject of this application.

The applicant provided a written response to the submissions received during community consultation which is included in **Attachment 4**.

The lot boundary setbacks to the eastern and western boundaries were advertised, although the deemed-tocomply standard was identified at the time as being 1.5 metres rather than 1.6 metres to the western boundary and 1.5 metres rather than 1.7 metres to the eastern boundary. The proposed setbacks were not re-advertised because no submissions were received in relation to the lot boundary setbacks and the extent of the discrepancy would not significantly impact the amenity of the adjoining properties compared to what was advertised. The plans that were advertised are also the same as those that were previously approved and do not incorporate any changes. Administration has since notified submitters of the advertising discrepancy.

Design Review Panel (DRP):

Referred to DRP: No

The application was not referred to the City's Design Review Panel as no modifications are proposed to the previously approved plans.

LEGAL/POLICY:

- Planning and Development Act 2005;
- Planning and Development (Local Planning Schemes) Regulations 2015;
- City of Vincent Local Planning Scheme No. 2;
- State Planning Policy 7.3 Residential Design Codes Volume 1;
- Community and Stakeholder Engagement Policy; and
- Policy No. 7.1.1 Built Form.

The application to amend an approval can be considered and determined in accordance with Clause 77 of the Regulations. This allows the application to be made during or after the period within which the development must be substantially commenced.

Planning and Development Act 2005

In accordance with Schedule 2, Clause 76(2) of the Regulations and Part 14 of the *Planning and Development Act 2005*, the applicant would have the right to apply to the State Administrative Tribunal for a review of Council's determination.

Unless otherwise specified, two years is the period in which an approved development is to be substantially commenced in accordance with Schedule 2, Clause 71(a) of the Regulations.

Under Clause 78H of the Regulations provides authority for the Minister for Planning to apply exemptions against the requirements of local planning schemes during a State of Emergency.

In accordance with Condition 3.1 in Schedule 3 of the current Notice of Exemption from Planning Requirements During State of Emergency signed by the Minister for Planning on 22 April 2022, a further two years is added to the date by which the development is to be substantially commenced.

This would mean the development, if approved, would need to be substantially commenced within a four year period.

Delegation to Determine Applications:

This matter is being referred to Council for determination in accordance with the City's Register of Delegations, Authorisations and Appointments. This is because the delegation does not extend to applications for development approval that propose a height of three storeys or more and do not meet the applicable Building Height deemed-to-comply standards. The amendment proposed would also change the substantial commencement period of the previous development approval that was issued by Council.

RISK MANAGEMENT IMPLICATIONS:

There are minimal risks to Council and the City's business function when Council exercises its discretionary power to determine a planning application.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's Strategic Community Plan 2018-2028:

Innovative and Accountable

We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATIONS:

The City has assessed the application against the environmentally sustainable design provisions of the City's Policy No. 7.1.1 – Built Form. These provisions are informed by the key sustainability outcomes of the City's Sustainable Environment Strategy 2019-2024, which requires new developments to demonstrate best practice in respect to reductions in energy, water and waste and improving urban greening.

PUBLIC HEALTH IMPLICATIONS:

This report has no implication on the priority health outcomes of the City's Public Health Plan 2020 - 2025.

FINANCIAL/BUDGET IMPLICATIONS:

There are no finance or budget implications from this report.

COMMENTS:

The Regulations allow for an application to be made for the substantial commencement date of a development approval to be extended. The Regulations do not contain specific considerations to guide how this discretion should be exercised.

The State Administrative Tribunal has made decisions that relate to development approval extensions and that identify relevant considerations that should be taken into account. These considerations are:

- 1. Whether the planning framework had changed substantially since the development approval was granted;
- 2. Whether development would likely receive approval now; and
- 3. Whether the proponent has actively and relatively conscientiously pursued the implementation of the development approval.

Each of these relevant considerations are discussed below.

1. <u>Planning Framework Changes</u>

The planning framework applicable to the subject site has not substantially changed since the previous approval was issued.

The application that was previously approved in 2018 was assessed against the local planning framework that was in place at that time. This included LPS2, the R Codes and the City's local planning policies which included the Built Form Policy.

Since the 2018 development approval, the zoning and density code of the subject site has not changed with it remaining Residential R40 under LPS2. The site has also remained as two storeys building height standard and Residential built form area under the City's Built Form Policy.

Changes have occurred to the City's built form policy provisions and the R Codes since the 2018 approval that are relevant to the assessment of this application, these include:

- The permitted wall height deemed-to-comply standard in a two storey area under the Built Form Policy has increased from 6.0 metres to 7.0 metres.
- The R Codes has introduced an additional deemed-to-comply standard for outdoor living areas to be accessible from the primary living space of the dwelling instead of any habitable room.

These changes do not represent a substantial change to the planning framework.

The acceptability of the development proposal considered against the changes to the built form policy provisions and the R Codes is detailed below.

2. Acceptability of the Proposed Development

The previously approved development did not satisfy all of the deemed-to-comply provisions of the City's Policies or the R Codes. Discretion was exercised by Council and some of the planning elements were deemed to meet the relevant design principles.

This application does not seek to alter any part of the previously approved development and there are no changes from the plans previously approved by Council in 2018.

The acceptability of each planning element that requires consideration against the relevant design principles of the current Built Form Policy and R Codes is detailed below.

Lot Boundary Setbacks

The proposed development does not meet the R Codes deemed-to-comply standards relating to lot boundary setbacks from the ground floor to the western boundary and the eastern boundary.

The proposed lot boundary setbacks would satisfy the local housing objectives of the Built Form Policy and the design principles of the R Codes for the following reasons:

- <u>Solar Access:</u> The proposed setbacks would not have an adverse impact on the western and eastern adjoining properties' access to direct winter sunlight. This is due to the orientation of the lots, with shadow cast from the dwellings falling to the south and onto the subject site itself.
- <u>Ventilation:</u> The minimum 1.1 metre setback of the ground floor elevations from the western and eastern boundaries would ensure adequate ventilation is provided to both the subject site and the adjoining properties.
- <u>Visual Privacy</u>: The proposed walls meet the visual privacy deemed-to-comply standards as no openings are proposed on either the western and eastern elevations.
- <u>Building Bulk:</u> Building bulk impact to adjacent properties is reduced due to the walls being setback, the walls located on the ground floor, the use of colours and materials including face brick and rendered brick to break up the appearance of blank walls.
- <u>Landscaping</u>: An Ornamental Pear Tree is proposed to be retained along the eastern boundary which will assist with reducing the impact of building bulk on adjoining properties.
- <u>Visibility from the Street:</u> The walls would not be visible from the street because they are located to the rear of the ground floor.
- Development on Adjoining Properties:
 - The subject ground floor stair wall abuts the western elevation of the dwelling at No. 5 Galwey Street. The portion of the dwelling on the adjoining property that is directly adjacent to the proposed development does not contain any major openings.
 - The subject ground floor dining wall abuts the eastern elevation of the dwelling at No. 9 Galwey Street and open space at the rear of the site. The portion of the dwelling on the adjoining property that is directly adjacent to the subject wall does not contain major openings to habitable rooms. The adjacent open space area is also not the primary outdoor living area of the dwelling and suitable separation is provided to reduce the amenity impact on the adjoining property.

Building Height

The Built Form Policy building height deemed-to-comply standard for the development is two storeys with a top of wall height of 7.0 metres. The application proposes a building height of three storeys with a top of wall height of 7.15 metres.

The proposed building height would satisfy the local housing objectives of the Built Form Policy and the design principles of the R Codes for the following reasons:

- <u>Streetscape Impact</u>: The three storey addition is predominately to the rear of the development site, and the basement level is significantly below ground level. This assists in mitigating the impact of bulk to the existing streetscape. The proposed wall height would have minimal visual impact on the existing and desired streetscape, as the dwelling would appear as two storeys from Galwey Street. The development also incorporates a range of materials and finishes such as render, face brick and weatherboard which are consistent with the existing single house and sympathetic to the visual character of the existing streetscape.
- <u>Roof Height:</u> The overall building height measured to the pitch of the roof satisfies the deemed-tocomply standards. The pitched roof would have a height 8.45 metres which is below the deemed-to

comply standard of 10.0 metres.

- <u>Overshadowing</u>: The proposed development and wall height satisfies the deemed-to-comply standards relating to solar access (overshadowing) in the R Codes.
- <u>Access to Views:</u> The proposed height would have a negligible impact on access to views of significance towards the City from the northern adjoining properties given the site slopes down to the south and as the development presents as two storeys to Galwey Street to the north.
- <u>Natural Ground Levels</u>: The proposed height predominately results from the slope in the development site, which slopes down by 1.5 metres from north to south. In establishing the finished floor level of the proposed development that is affected by a slope, a portion of the upper floor wall exceeds the deemed-to-comply standard by 0.15 metres. The proposed design reduces building bulk impacts to adjoining properties through the provision of varying and sympathetic colours, materials and roof forms.
- <u>Visual Privacy:</u> All openings would satisfy the deemed-to-comply standards of the R Codes, as a result of Condition 2 of the previous development approval which is recommended to be retained.

Outdoor Living Areas

The R Codes outdoor living area (OLA) deemed-to-comply standards sets out a minimum of 20 square metres in size, directly accessible from the primary living space of the dwelling, and that has a minimum length and width dimension of 4 metres. The application proposes a 17.6 square metre outdoor living area with a minimum dimension of 2.2 metres which is not accessible from the primary living space of the dwelling.

The proposed outdoor living area (OLA) satisfies the design principles of the R Codes for the following reasons:

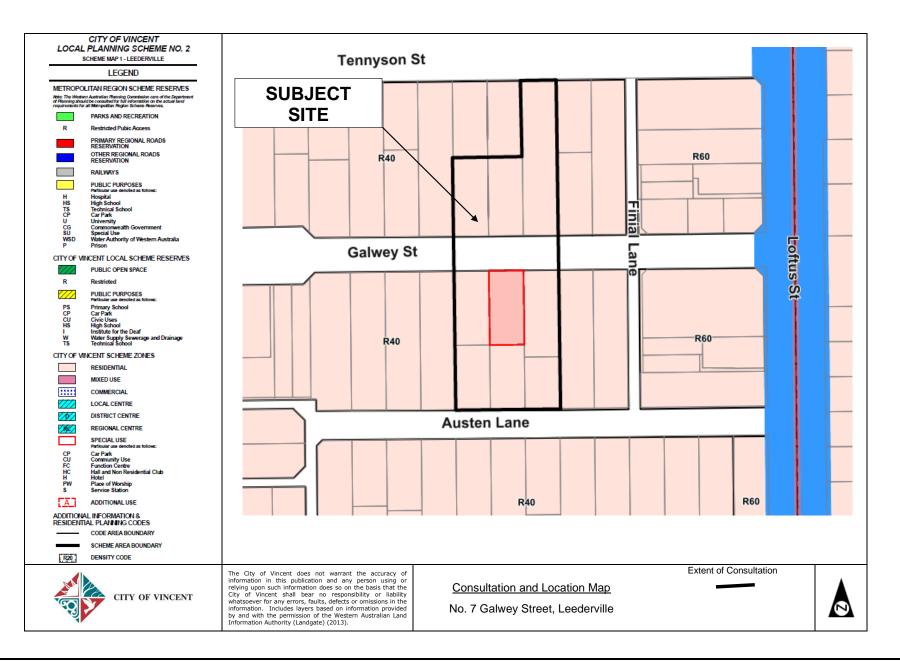

- <u>Size:</u> The size would provide for a functional and useable outdoor space, and that would allow for landscaping to be retained surrounding the OLA.
- <u>Use:</u> The OLA is capable of use in conjunction with a habitable room of the dwelling being the games/bedroom/store on the lower ground level. The stairs up from the lower ground level also directly connect to the primary living space of the dwelling, being the living and dining rooms.
- <u>Orientation:</u> Although the OLA is located to the south of the site, there is no covered portion. This means that the area has sufficient access to winter sun and ventilation, along with providing area for landscaping.
- 3. Implementation of Previous Development Approval

The applicant is seeking a time extension to commence works due to delays with the project. This is set out in the applicant's supporting information contained in **Attachment 4**.

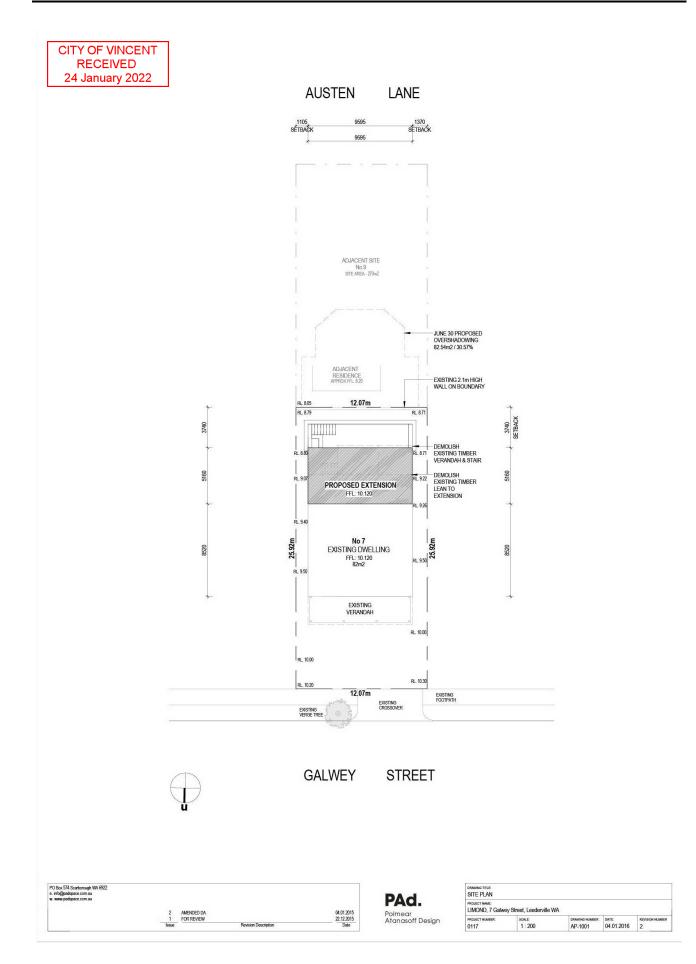

The applicant has advised that the delays in pursuing the implementation of the development approval have occurred due to the following reasons:

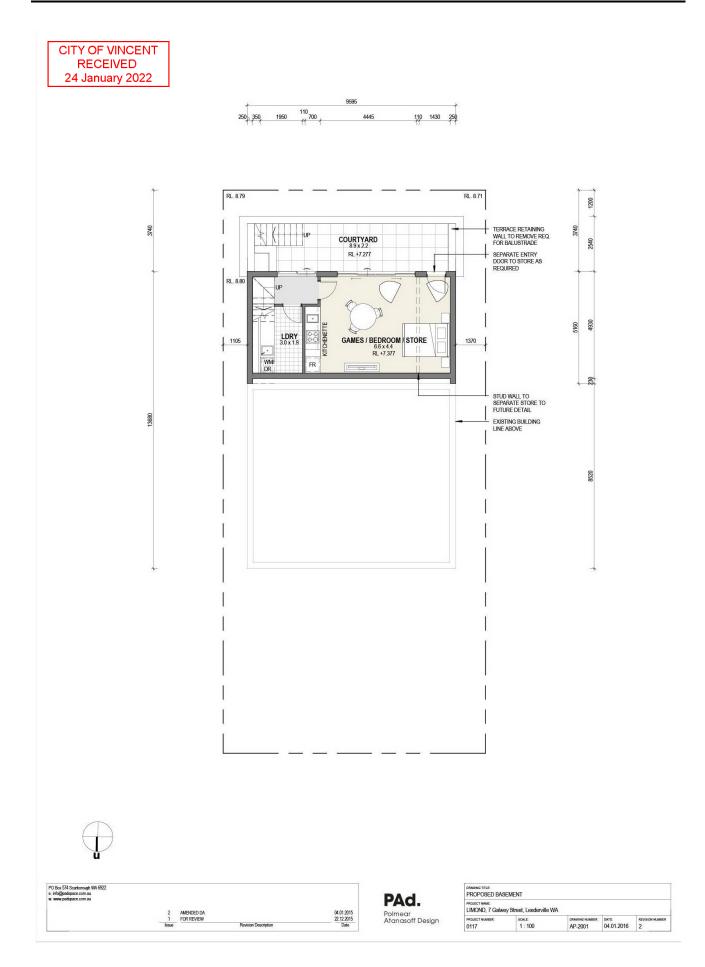

- The owner works away from Perth.
- Concerns relating to job security as a result of the COVID-19 pandemic.

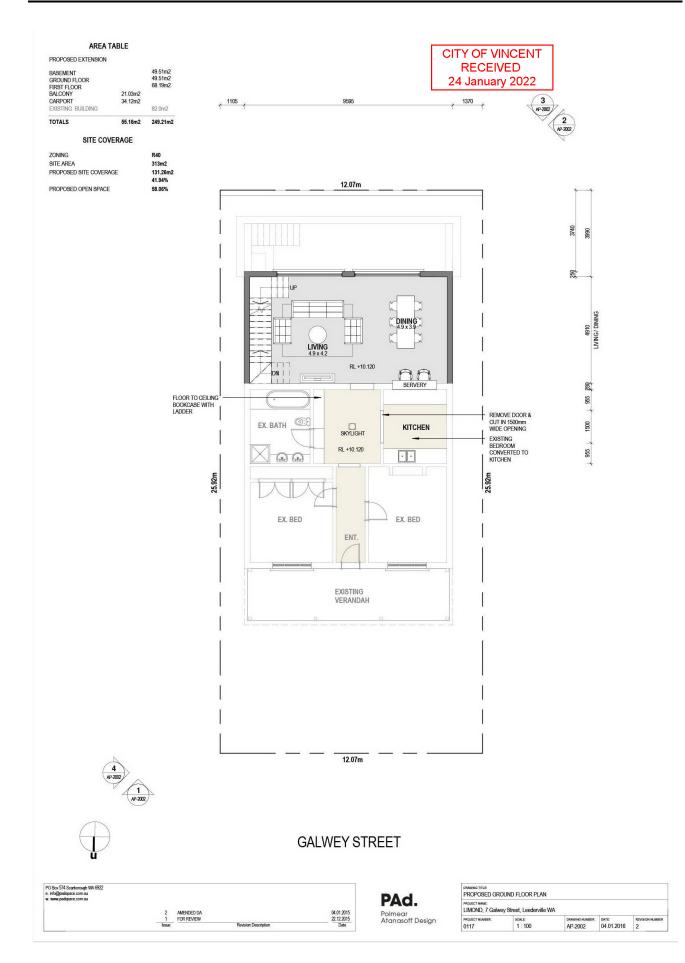

The applicant advised that they are looking to pursue the development and that a builder has now been appointed to undertake the proposed works.

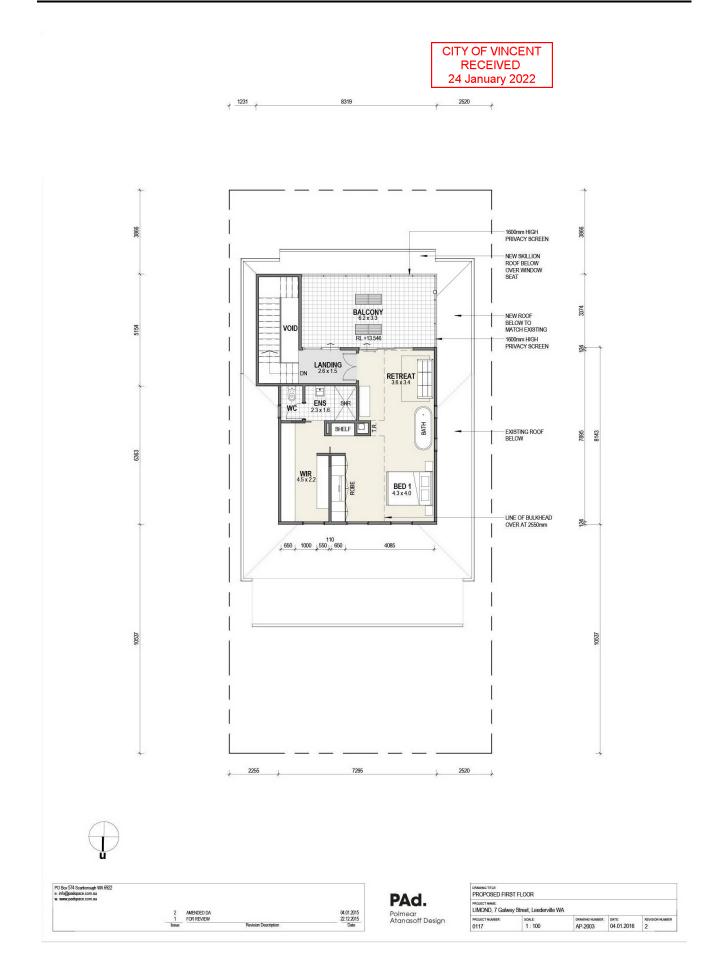

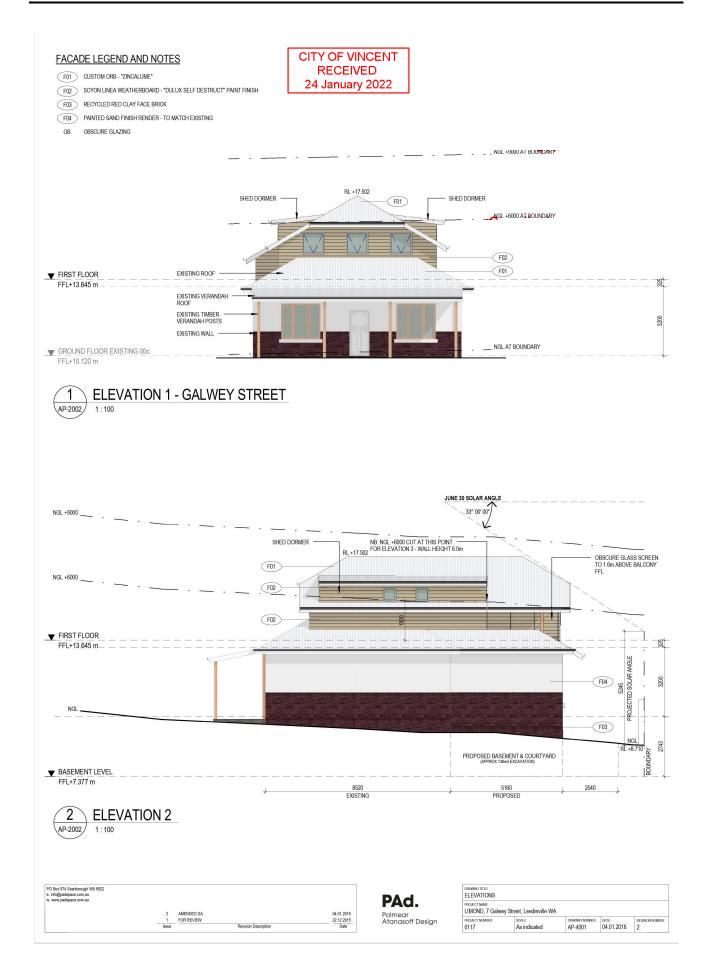

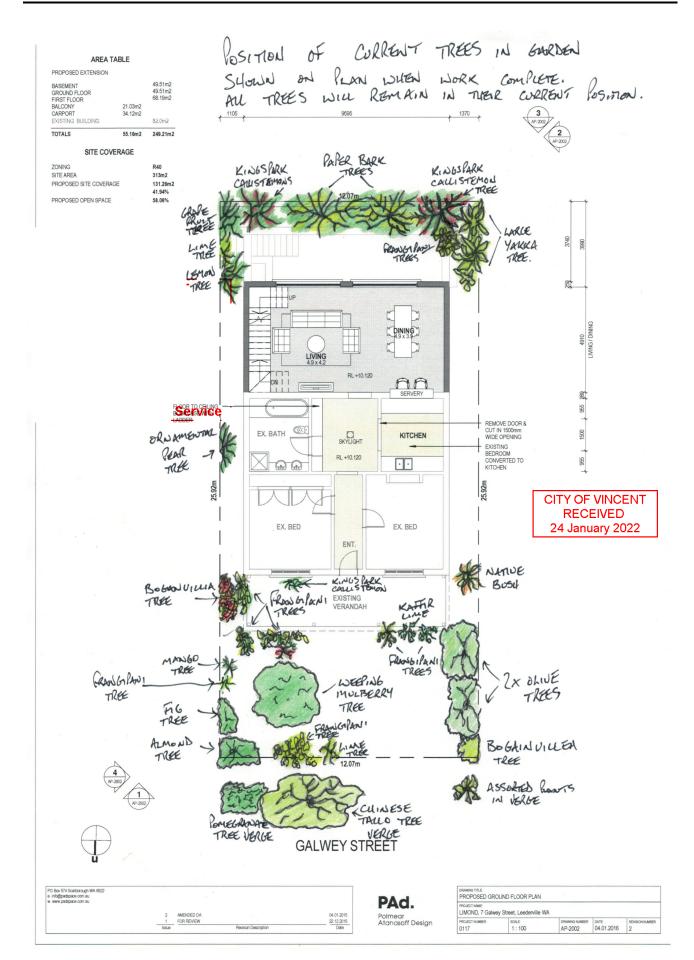

MINUTES

CITY OF VINCENT ORDINARY MEETING OF COUNCIL 6 9 FEBRUARY 2016

9.1.4 No. 7 (Lot: 1; D/P: 43011) Galwey Street, Leederville - Proposed Alterations and Three Storey Addition to Existing Single Dwelling

Ward:	North Ward	Date:	15 January 2016
Precinct:	Precinct 3 – Leederville	File Ref:	PR27785; 5.2015.396.1
Attachments:	1 - Consultation Map 2 - Development Application Plans 3 - Applicant's Justification 4 - Marked up plans showing proposed versus required setbacks 5 - Overshadowing Diagram		
Tabled Items:	Nil		
Reporting Officer:	S Laming, Planning Officer		
Responsible Officer:	G Poezyn, Director Development Services		

OFFICER RECOMMENDATION:

That Council, in accordance with the provisions of the City of Vincent Town Planning Scheme No. 1 and the Metropolitan Region Scheme, APPROVES the application submitted by D & N Limond on behalf of the owner N J Limond, for the proposed Alterations including three storey addition to an Existing Single Dwelling at No. 7 (Lot: 1; D/P: 43011) Galwey Street, Leederville as shown on plans date stamped 5 January 2016, included as Attachment 2, subject to the following conditions:

1. **External Fixtures**

All external fixtures shall not be visually obtrusive from Galwey Street and neighbouring properties. External fixtures are such things as television antennas (of a non-standard type), radio and other antennas, satellite dishes, external hot water heaters, air conditioners, and the like;

2. Verge Trees

The verge trees shall be retained and protected from any damage including unauthorised pruning and no verge trees shall be removed;

3. Stormwater

All storm water produced on the subject land shall be retained onsite, by suitable means to the satisfaction of the City;

- 4. Prior to the issue of a Building Permit, the following shall be submitted to and approved by the City:
 - 4.1 **Revised Plan**

The applicant shall provide revised plans denoting the following:

4.1.1 Visual Privacy

> All openings on the first and second levels comply with the privacy requirements of the Residential Design Codes to the satisfaction of the City; and

Prior to occupation of the development, all privacy screening shall be installed 5. to the satisfaction of the City.

MINUTES OF MEETING HELD ON 9 FEBRUARY 2016

(TO BE CONFIRMED ON 8 MARCH 2016)

ORDINARY MEETING OF COUNCIL 7 CITY OF VINCENT 9 FEBRUARY 2016 MINUTES

ADVICE NOTES:

- 1. With reference to Condition 3 above, please note that no further consideration shall be given to the disposal of storm water 'off site' without the submission of a geotechnical report from a qualified consultant. Should approval to dispose of storm water 'off site' be subsequently provided, detailed design drainage plans and associated calculations for the proposed storm water disposal shall be lodged together with the building permit application working drawings;
- 2. A Road and Verge security bond for the sum of \$2000, shall be lodged with the City by the applicant, prior to the issue of a building permit, and will be held until all building/development works have been completed and any disturbance of, or damage to the City's infrastructure, including verge trees, has been repaired/reinstated to the satisfaction of the City. An application for the refund of the security bond shall be made in writing. The bond is non-transferable;
- 3. The movement of all path users, with or without disabilities, within the road reserve, shall not be impeded in any way during the course of the building works. This area shall be maintained in a safe and trafficable condition and a continuous path of travel (minimum width 1.5 metres) shall be maintained for all users at all times during construction works. If the safety of the path is compromised resulting from either construction damage or as a result of a temporary obstruction appropriate warning signs (in accordance with AS1742.3) shall be erected. Should a continuous path not be able to be maintained, an 'approved' temporary pedestrian facility suitable for all path users shall be put in place. If a request to erect scaffolding, site fencing etc. or if building materials is required to be stored within the road reserve once a formal request has been received, the matter will be assessed by the City and if considered appropriate a permit shall be issued by the City. No permit will be issued if the proposed encroachment into the road reserve is deemed to be inappropriate; and
- 4. Any new street/front wall, fence and gate within the Galwey Street setback areas, including along the side boundaries within these street setback areas, shall comply with the City's Policy provisions relating to Street Walls and Fences.

COUNCIL DECISION ITEM 9.1.4

Moved Cr Buckels, Seconded Cr Murphy

That the recommendation be adopted.

CARRIED UNANIMOUSLY "EN BLOC" (8-0)

(Cr McDonald was on approved leave of absence for the Meeting.)

MINUTES OF MEETING HELD ON 9 FEBRUARY 2016

(TO BE CONFIRMED ON 8 MARCH 2016)

ORDINARY COUNCIL MEETING MINUTES

21 AUGUST 2018

9.3 NO. 7 (LOT 1; STR: 43011) GALWEY STREET, LEEDERVILLE - PROPOSED EXTENSION TO THE PERIOD OF APPROVAL: PROPOSED ALTERATIONS AND THREE STOREY ADDITION TO SINGLE HOUSE

TRIM Ref:	D18/82331	
Author:	Emily Andrews, Urban Planner	
Authoriser:	Luke Gibson, A/Director Development Services	
Ward:	North	
Attachments:	 Attachment 1 - Consultation and Location Map Attachment 2 - Previous Approval and Plans Attachment 3 - Development Plans Attachment 4 - Application Submission Attachment 5 - Summary of Submissions 	

RECOMMENDATION:

That Council, in accordance with the provisions of the City of Vincent Local Planning Scheme No. 2 and the Metropolitan Region Scheme, APPROVES the application to extend the period in which the development must be substantially commenced at No. 7 (Lot 1; STR: 40311) Galwey Street, Leederville, for development approval 5.2015.396.1 granted by Council on 9 February 2016 for Proposed Alterations and Three Storey Addition to Existing Single Dwelling subject to the following conditions:

- 1. The extension of time is granted for a period of two years, being to 9 February 2020;
- 2. Prior to the issue of a Building Permit, the applicant is to demonstrate that the proposed balcony screening and living / dining windows meet the deemed-to-comply standards of the Residential Design Codes, as they relate to visual privacy; and
- 3. All other conditions, requirements and advice notes detailed on the development approval 5.2015.356.1 granted on 9 February 2016 continue to apply to this approval.

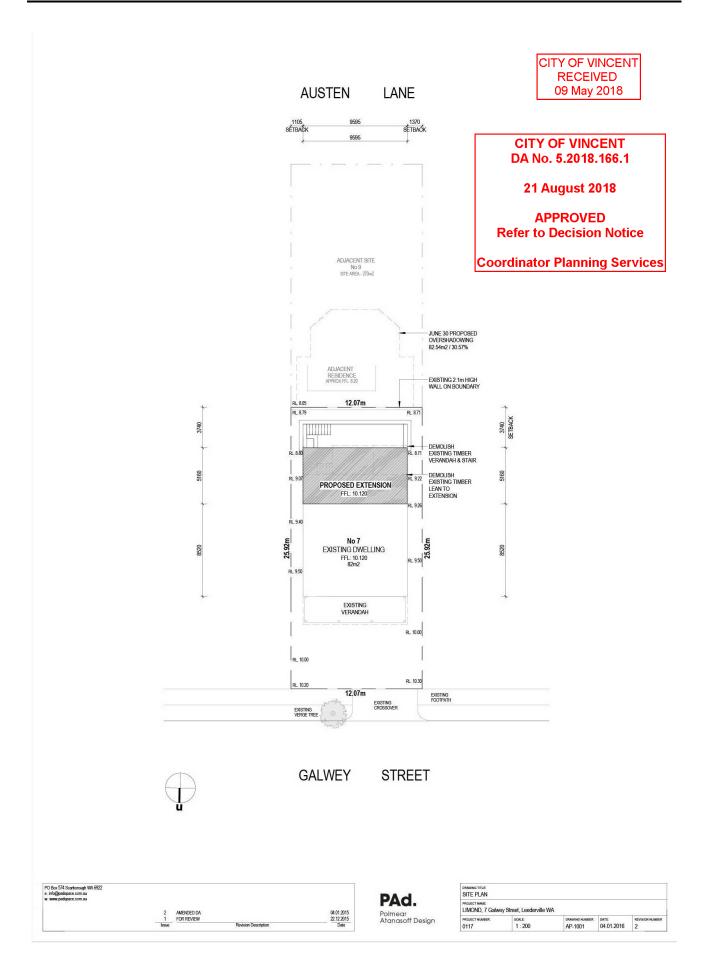

COUNCIL DECISION ITEM 9.3

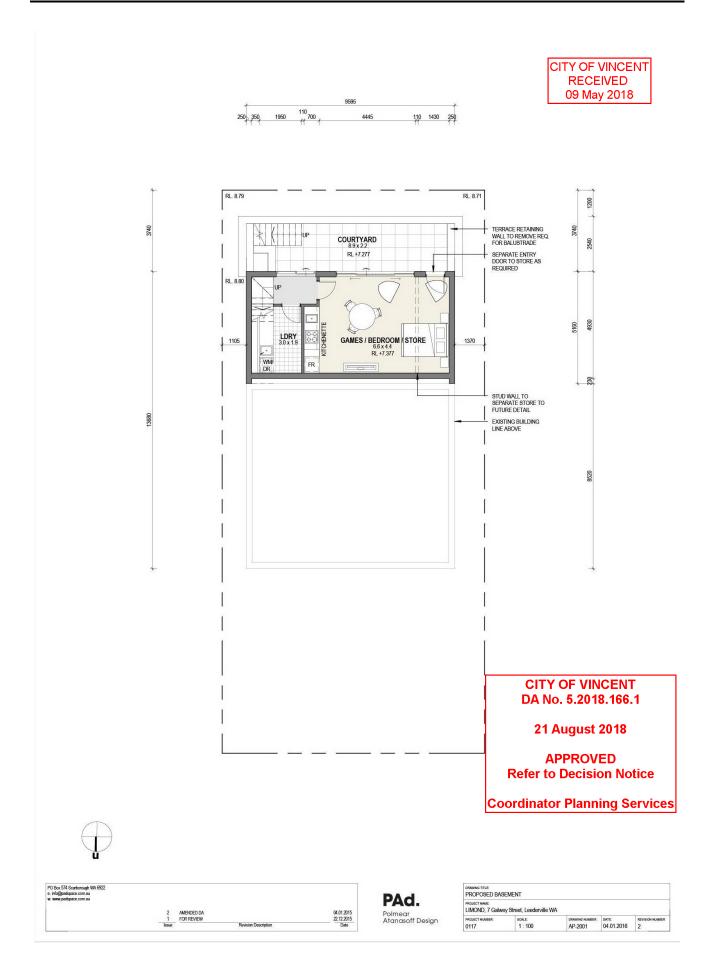

Moved: Cr Topelberg, Seconded: Cr Murphy

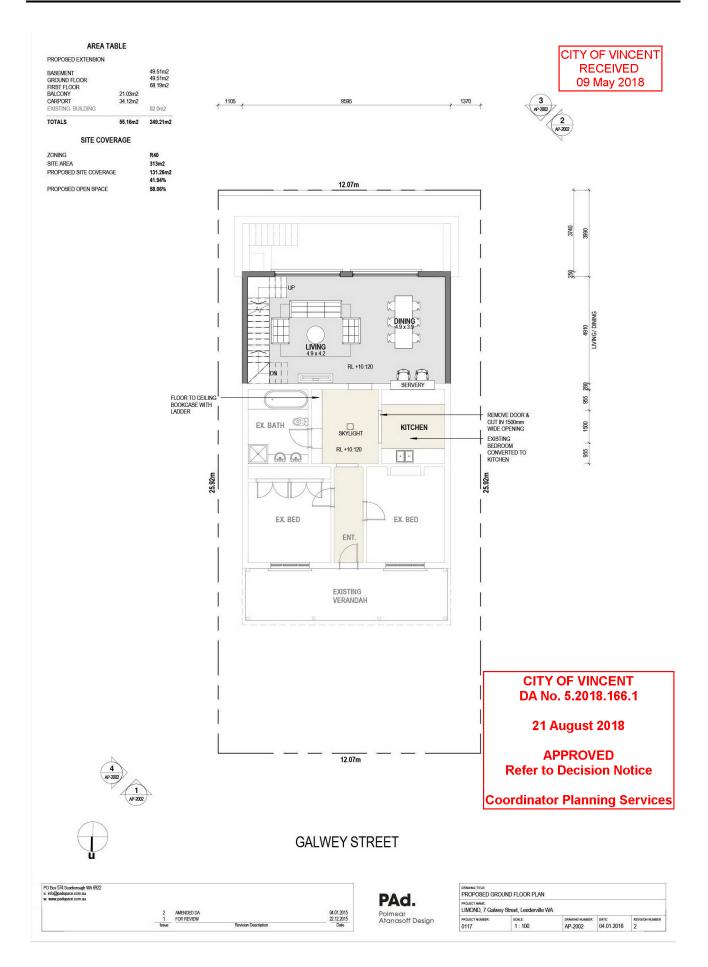

That the recommendation be adopted.

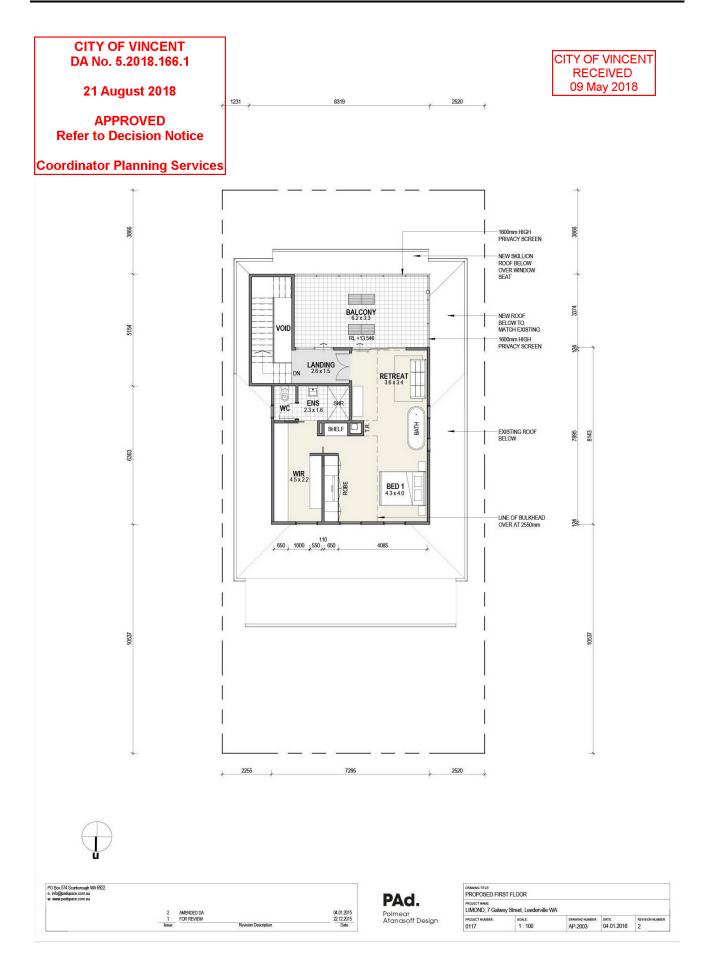

CARRIED UNANIMOUSLY "EN BLOC" (9-0)

Page 10

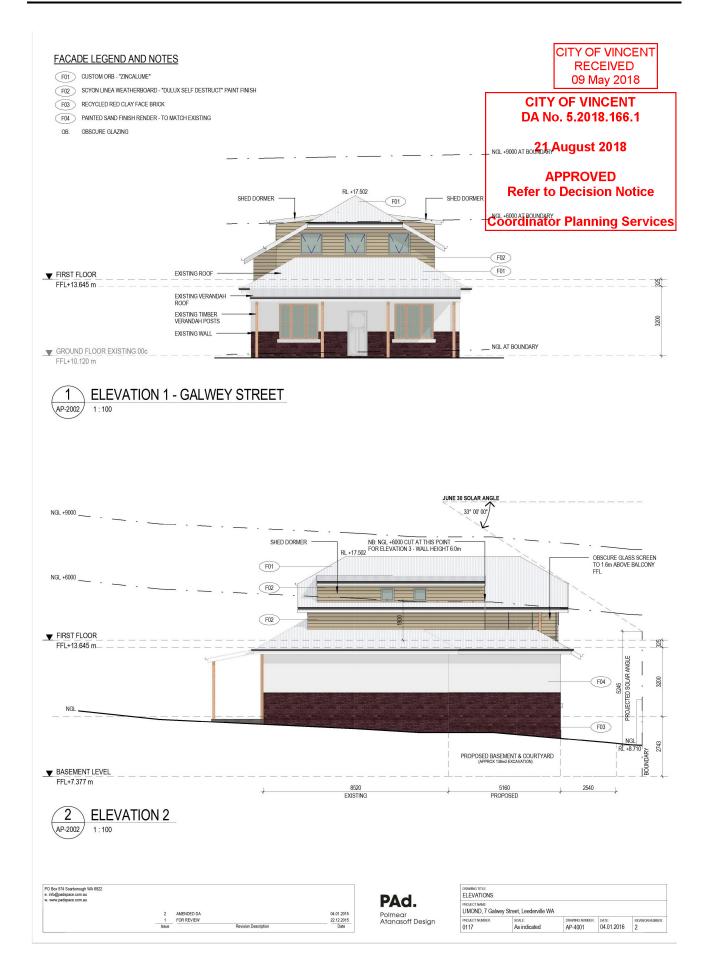

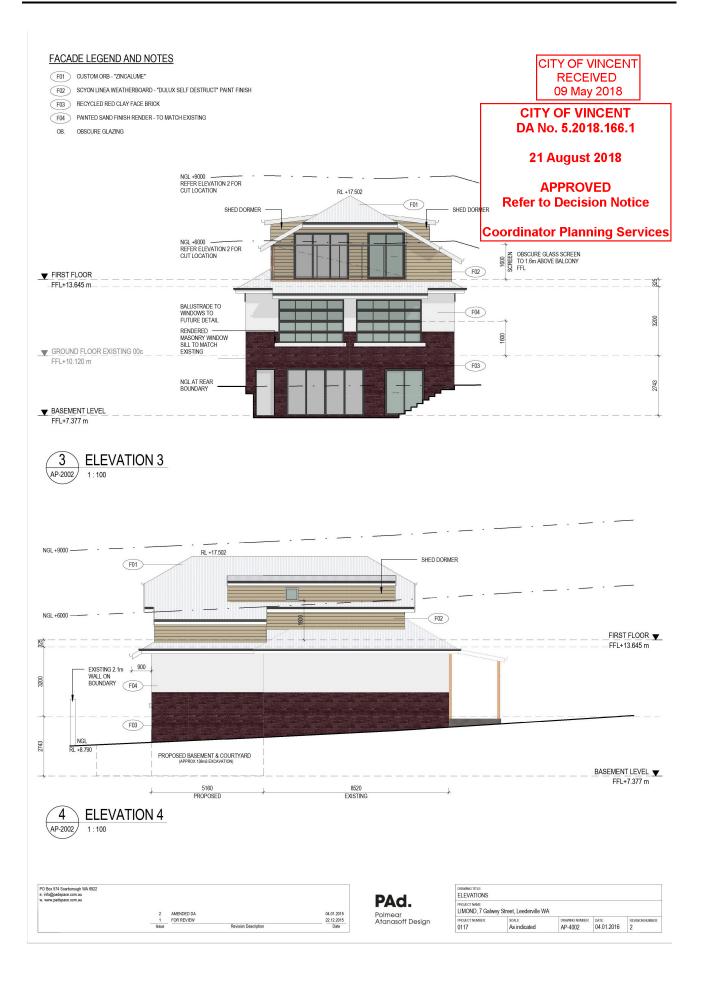

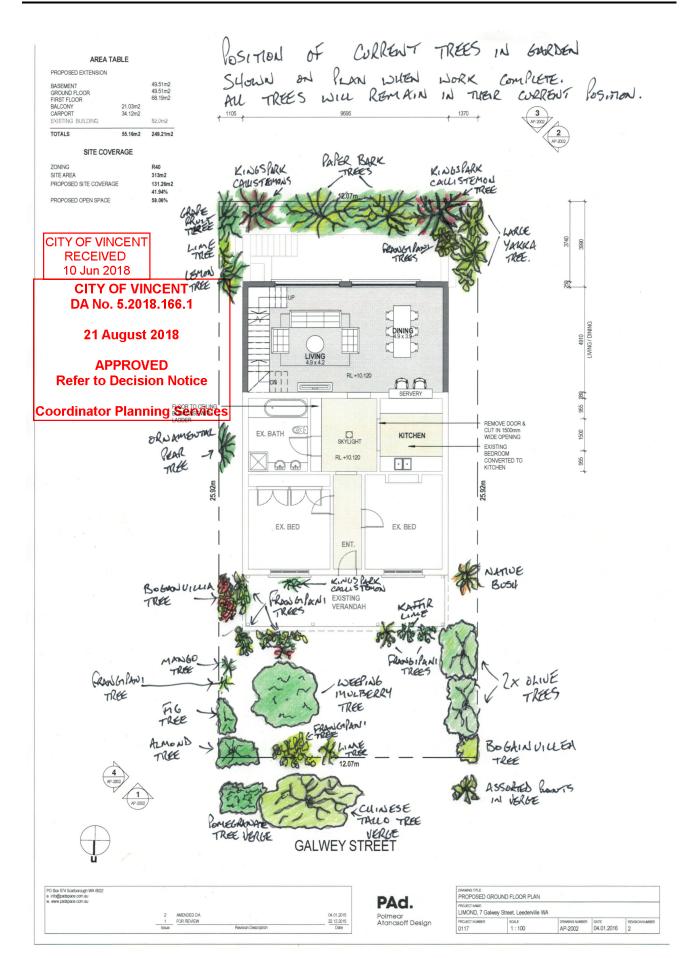

COUNCIL BRIEFING AGENDA

Redacted for Privacy Reasons

City and Councillors

Response to submission raised about retaining walls, ground levels and privacy.

These issues have been investigated by City of Vincent Compliance Team. I have raised the level of the previous footpath which ran down the side of the house. This was done partly to run the path level with the house and have one set of stairs near the back. By doing this I eliminated several oddly spaced steps That were originally part of the old path that were positioned the length of the path. Mainly done for ease of use and simplicity of use as it makes it safer for carrying materials by consolidating the steps in one area at the back of the property. Level portion runs the length of the house where it then begins to slope down to finally drop down at some steps.

Compliance have been out and inspected this work on several occasions. Due to the height of the retaining wall (about 100mm at front of house to about 300mm at back of house, this is under the height required for planning permission. As to this alteration impacting the adjoining property, a gap has purposely been left on myside which retains the original ground level between the two properties. Once again Compliance Team have inspected and are satisfied.

As to privacy there is one section of about three metres which gives vision into one another's property should one stand and look. The rest of the length of the house has brick wall from both properties and trees that screen each property. Compliance team are satisfied as the path is for access to rear of house and not a main thoroughfare. The block slopes from street level down to back of property. The original levels would still allow someone if they so wished to look over the fence, varying from head height to head and shoulders as you walked down from the front to the back. With the new level this might be head and shoulders to head and chest when someone walks down. Regardless of the change in levels I have always been able to simple look over. As said compliance were happy that this was not an issue, but I suggested that I would put up screening if this was an issue for someone. This suggestion was put to the adjoining property by the Compliance Team but was rejected. Due to the plans being drawn up some time ago, they show the original level as it slopes from front to back on the side elevation, whereas now it is level the length of the house before sloping off. This is where this discrepancy comes from, I believe. The levels for the proposed extension all come off the existing house level, which obviously has not changed. Altering the ground level of a path does not alter the levels of the existing house or build plans for the extension. Again, this change was done for the reasons above. What is provided in the plans for the main build and construction is accurate.

A builder has been appointed for the build, as I work away three weeks at a time and one at home, the reality is I spend about twelve weeks at home and without realising another year has passed so quickly. I should have been more proactive in getting the build started, but in reality, I haven't had a block of time home to sit and organise the paper work permit. For example, I could have picked up the government builders grant which was offered at the height of covid. Now that finally everything is beginning to return to normal after covid must finally get the build done. Bizarrely over the years have still collected furniture and goods to fill the rooms of the new extension when done and all this is sitting in a storage unit, another reason to get the build done as its costing a fortune in rental fees. Not having a growing family with the urgency that would require an instant build to provide the extra room, I partly must admit I have been complacent in getting it started. To sum it up I do have a builder who we know and trust, it is just down to me to immediately get the building permit submitted and when planning is once again approved begin the build straight away with no delays.

5.3 NO. 242 (LOT: 2; D/P: 1641) LAKE STREET, PERTH - PROPOSED ALTERATIONS AND ADDITIONS TO A SINGLE HOUSE AND SHOP

RECOMMENDATION:

That Council, in accordance with the provisions of the City of Vincent Local Planning Scheme No. 2 and the Metropolitan Region Scheme, APPROVES the application for and Alterations and Additions to a Single House and Shop at No. 242 (Lot: 2; D/P: 1641) Lake Street, Perth, in accordance with the plans shown in Attachment 2, subject to the following conditions, with the associated determination advice notes in Attachment 9:

1. Development Plans

This approval is for Alterations and Additions to a Single House and Shop as shown on the approved plans dated 14 April 2022. No other development forms part of this approval;

2. Amended Plans

Prior to development commencing, revised plans shall be submitted and approved demonstrating the following:

- a) The mid level bedroom 2 window shroud shall be extended to ensure that a 4.5 metre cone of vision setback is provided from this window to the south eastern lot boundary, in accordance with the deemed-to-comply standards of the Residential Design Codes Volume 1, Clause 5.4.1 (Visual Privacy), to the satisfaction of the City; and
- b) The height of the solid balustrading along the south eastern side of the upper floor roof deck shall be increased from 1 metre to 1.6 metres above the finished floor level of the roof deck, in accordance with the deemed-to-comply standards of the Residential Design Codes Volume 1, Clause 5.4.1 (Visual Privacy), to the satisfaction of the City.

The revised plans shall not result in any greater non-compliance with the deemed-to-comply standards of the Residential Design Codes or the City's Policy No. 7.1.1 – Built Form.

3. Boundary Walls

The surface finish of boundary walls facing adjoining property shall be of a good and clean condition, prior to the occupation or use of the development, and thereafter maintained, to the satisfaction of the City. The finish of boundary walls is to be fully rendered or face brick, or material as otherwise approved, to the satisfaction of the City;

4. Visual Privacy

Prior to occupancy or use of the development, all privacy screening shown on the approved plans shall be installed and shall be visually impermeable and is to comply in all respects with the requirements of Clause 5.4.1 of the Residential Design Codes (Visual Privacy) deemed-to- comply provisions, to the satisfaction of the City;

5. Colours and Materials

Prior to first occupation or use of the development, the colours, materials and finishes of the development shall be in accordance with the details and annotations as indicated on the approved plans which forms part of this approval, and thereafter maintained, to the satisfaction of the City;

- 6. Landscaping
 - 6.1 All landscaping works shall be undertaken in accordance with the approved plans dated 14 April 2022;
 - 6.2 One new verge tree shall be planted within the Lake Street verge adjacent to the subject site, at the expense of the applicant/owner, to the satisfaction of the City. The species of the new street tree shall be Agonis flexuosa (Weeping Peppermint) and shall be a minimum of 90 litre capacity;
- 7. Stormwater

Stormwater from all roofed and paved areas shall be collected and contained on site. Stormwater must not affect or be allowed to flow onto or into any other property or road reserve;

- 8. Car Parking and Access
 - 8.1 The layout and dimensions of all driveway(s) and parking area(s) shall be in accordance with AS2890.1;
 - 8.2 All driveways, car parking and manoeuvring area(s) which form part of this approval shall be sealed, drained, paved and line marked in accordance with the approved plans prior to the first occupation of the development and maintained thereafter by the owner/occupier to the satisfaction of the City;
 - 8.3 One new short-term bicycle bay shall be provided within the verge adjacent to the subject site. The bicycle bay shall be designed in accordance with AS2890.3 and installed prior to occupation or use of the development, at the expense of the owner/applicant, to the satisfaction of the City;
- 9. Building Design
 - 9.1 The Shop shall maintain an active and interactive relationship with Bulwer Street and Lake Street during the hours of operation, to the satisfaction of the City. Darkened, obscured, mirrored or tinted glass, roller shutters or the like are prohibited. Curtains, blinds and other internal treatments that obscure the view of the internal area from Bulwer Street and Lake Street are not permitted to be used during the hours of the Shop's operation.
 - 9.2 Ground floor glazing and/or tinting to the Shop shall be a minimum of 70 percent visually permeable to provide unobscured visibility. Darkened, obscured, mirrored or tinted glass or other similar materials as considered by the City are prohibited;
 - 9.3 All external fixtures, such as television antennas (of a non-standard type), radio and other antennaes, satellite dishes, solar panels, external hot water heaters, air conditioners, and the like, shall not be visible from the street(s), are designed integrally with the building, and be located so as not to be visually obtrusive to the satisfaction of the City; and
- 10. Construction Management Plan

Prior to the development commencing a Construction Management Plan shall be lodged with and approved by the City (including demolition and/or forward works). The Construction Management Plan is required to detail how the construction will be managed to minimise the impact on the surrounding area and shall include the following:

- Public safety, amenity and site security;
- Contact details of essential site personnel;
- Construction operating hours;
- Noise control and vibration management;
- Dilapidation Reports of nearby properties;
- Air, sand and dust management;
- Stormwater and sediment control;
- Soil excavation method;
- Waste management and materials re-use;
- Traffic and access management;
- Parking arrangements for contractors and subcontractors;
- Consultation plan with nearby properties; and
- Compliance with AS4970-2009 relating to the protection of trees on the development site.

PURPOSE OF REPORT:

To consider an application for development approval for alterations and additions to an existing shop and single house at No. 242 Lake Street, Perth (the subject site).

PROPOSAL:

Details of the proposed alterations and additions to the existing shop are as follows:

- The existing shop on the corner of Lake and Bulwer Streets would be retained. A new studio and roof terrace would be constructed above the existing shop for use in conjunction with the shop;
- The shop would continue to be used as a millinery, making and selling hats;
- Pedestrian access to the shop would continue to be from the existing door at the corner truncation; and
- There would continue to be no on-site car parking associated with the shop.

Details of the proposed alterations and additions to the existing single house are as follows:

- The existing dwelling at the rear of the shop would be retained. A new two storey addition would be constructed above the existing dwelling and would result in the dwelling having a total height of three storeys;
- The dwelling would have four bedrooms and three bathrooms;
- Pedestrian access to the dwelling would be from Lake Street;
- The existing single car garage at the rear of the site accessed from Lake Street would be widened to accommodate two cars;
- The primary outdoor living area would be located on the ground floor, accessed via the living room. A roof deck is also proposed on the upper floor level; and
- The external materials would include light grey flat profile colourbond, charred timber cladding, Venetian plaster with a dado finish, painted render, painted brick and face brick.

The development plans are included in **Attachment 2** and the applicant's 3D renders are included in **Attachment 3** with their overshadowing diagram included as **Attachment 4**.

The applicant has provided a cover letter in support of the proposed development which is included in **Attachment 5**. It is intended that the residence would continue to be occupied by the owner/operator of the shop, with the proposed upper floors addition to the residence intended to accommodate a growing family and modern living standards.

BACKGROUND:

Landowner:	Kesit Pty Ltd
Applicant:	John Kestel Architect Pty Ltd
Date of Application:	17 September 2021
Zoning:	MRS: Urban
	LPS2: Zone: Residential R Code: R50
Built Form Area:	Residential
Existing Land Use:	Shop – A

Proposed Use Class:	Shop – A
	Single House – P
Lot Area:	205m ²
Right of Way (ROW):	3.7 metres wide, unsealed, State of WA owned
Heritage List:	No

Site Context and Zoning

The subject site is bound by Lake Street to the north west, Bulwer Street to the south west and two storey single houses to the south east and north east.

The subject site is 6.0 metres wide and has a depth of 34.1 metres.

The subject site and adjoining properties to the north west, north east and south east are zoned Residential R50 under the City's Local Planning Scheme No. 2 (LPS2). The subject site and these adjoining properties are within the Residential built form area and have a building height standard of two storeys under the City's Policy No. 7.1.1 – Built Form (Built Form Policy).

The properties on the opposite side of Bulwer Street to the south west are zoned Local Centre under LPS2. These properties are within the Mixed Use built form area and have a building height standard of four storey under the Built Form Policy.

The subject site and all Residential R50 zoned adjoining properties are subject to Clause 32(1) of LPS2 that sets out Multiple Dwellings (apartments) are not permitted.

A 3.7 metre wide right of way (ROW) terminates at the rear of the subject site. The ROW is unsealed, owned by the State of Western Australia and does not provide any vehicle access to the subject site.

Lake Street is characterised by two and three storey townhouse style residential developments, with some examples of single storey residences.

Bulwer Street is characterised by traditional style single storey residential and commercial developments with some examples of more modern two storey commercial developments.

A location plan is included as **Attachment 1**. A detailed streetscape analysis prepared by Administration is included in **Attachment 6**.

Previous Approvals

The table below details the previous approvals and history for the subject site.

Date	Details
October 1978	The subject site was operating as a shop, selling and repairing bicycles. It is also noted at this time that there is record of the site operating as a shop in 1967.
1994	The property owner provided a statutory declaration to the City stating that the site had been continually used as a Shop since they purchased it in 1982. This was provided in order to secure non-conforming use rights under the City's (former) Town Planning Scheme No. 1 (TPS1).
26 April 1995	Correspondence from the City of Vincent CEO in relation to the site advised that "Council records indicate that the subject property has been occupied by a non-conforming use for many years".
10 June 2011	The City provided planning advice via email relating to the site stating that "Council records indicate that the subject property has been occupied by a non-conforming use for many years, ranging from bicycle retail and repair shop to photographic studio and retail of photographic works of art. There have been no recent approvals for the site. So if you were to use the site as a 'use' that is a differing use to the last known uses of the site, it would require a change of use application".
11 May 2012	A development application for Caretaker's Residence Addition to Existing Shop approved under delegated authority. This approval was never substantially commenced.
18 September 2014	A development application for a garage to existing shop was approved under delegated authority.

Date	Details
	The application was initially lodged as an amendment to the previous approval dated 11 May 2012 for a Caretaker's Residence Addition to Existing Shop.
	The City sought legal advice which determined that the proposal constituted a Multiple Dwelling which was a prohibited use at the subject site under Clause 40 of TPS1.
	The applicant submitted amended plans for a scaled back single storey addition. The application was approved and included a bedroom and kitchen as part of the residence.

DETAILS:

Summary Assessment

The table below summarises the planning assessment of the proposal against the provisions of the City of Vincent Local Planning Scheme No. 2 (LPS2), the City's Built Form Policy and the State Government's Residential Design Codes. In each instance where the proposal requires the discretion of Council, the relevant planning element is discussed in the Detailed Assessment section following from this table.

Planning Element	Use Permissibility/ Deemed-to-Comply	Requires the Discretion of Council
Land Use		✓
Street Setback		\checkmark

Environmentally Sustainable Design		\checkmark

Detailed Assessment

The proposal requires assessment against two separate volumes of the City's Built Form Policy because the application proposes both a single house and alterations and additions to an existing commercial development on the same site.

The Single House has been assessed against the provisions of the Built Form Policy Volume 1, Section 5 and the provisions of the R Codes Volume 1.

The Commercial additions have been assessed against the provisions of the Built Form Policy Volume 3, Section 5. This section prescribes acceptable outcomes rather than deemed-to-comply standards.

The Built Form Policy and R Codes have two pathways for assessing and determining a development application. These are through design principles and local housing objectives, or through deemed-to-comply standards.

Design principles and local housing objectives are qualitative measures which describe the outcome that is sought rather than the way that it can be achieved.

The deemed-to-comply standards are one way of satisfactorily meeting the design principles or local housing objectives and are often quantitative measures.

If an element of an application does not meet the applicable deemed-to-comply standard/s then Council's discretion is required to decide whether this element meets the design principles and local housing objectives.

If an element of an application does meet the applicable deemed-to-comply standard/s then it is satisfactory and not subject to Council's discretion for the purposes of assessment against the Built Form Policy and R Codes.

The planning elements of the application that do not meet the applicable deemed-to-comply standards and require the discretion of Council are as follows:

Land Use		
Use Class Permissibility	Proposal	
LPS2 – Zoning Table		
'P' Use	Shop – 'A' Use	
Street Setback		
Deemed-to-Comply Standard and/or Acceptable Outcome	Proposal	
Built Form Policy Volume 1, Clause 5.1 - Street Setback	Built Form Policy Volume 1, Clause 5.1 - Street Setback	
<u>Ground Floor</u> The primary street setback is to be calculated by averaging the setback of the five adjoining properties, either side of the proposed development, being 4.7 metres.	<u>Ground Floor</u> Nil (as existing)	
<u>Upper Floor Walls</u> Walls on upper floors setback a minimum of 2 metres behind the ground floor predominant building line	Upper Floor Walls The proposed upper floor walls would be in line with the ground floor building line.	
<u>Upper Floor Balconies</u> Balconies on upper floors setback a minimum of 1 metre behind the ground floor predominant building line.	<u>Upper Floor Balconies</u> The proposed upper floor roof deck would be in line with the ground floor building line.	
Built Form Policy Volume 3, Clause 5.2 – Street Setback	Built Form Policy Volume 3, Clause 5.2 – Street Setback	
Secondary street setbacks for upper floors is to be 1.5 metres behind each portion of the ground floor setback for walls on upper floors.	The proposed upper floor level would be in line with the ground floor building line.

Built Form Policy Volume 3, Clause 5.3 – Landscaping	
Deep Soil Zones: 12 percent of site	Deep Soil Zones: 1.6 percent of site.
Planting Areas: 3 percent of site	Planting Areas: 4.5 percent of site.
Canopy Coverage at Maturity: 30 percent of site	Canopy Coverage at Maturity: 6.5 percent of site. Privacy
Deemed-to-Comply Standard and/or Acceptable Outcome	Proposal
R Codes Volume 1, Clause 5.4.1 – Visual Privacy	
The mid level bedroom 2 window cone of vision setback to the south eastern lot boundary shall be 4.5 metres.	4.4 metre cone of vision setback.
The upper level roof deck cone of vision setback to the south eastern lot boundary shall be 7.5 metres.	Nil setback.

Solar Access for Adjoining Properties				
Deemed-to-Comply Standard and/or Accentable				
Outcome	Proposal			
R Codes Volume 1, Clause 5.4.2 – Solar Access to Adjoining Properties; and Built Form Policy Volume 3, Clause 1.4 – Orientation				
The development is permitted to cast shadow of 50 percent of the adjoining property to the south east.	72.3 percent.			
Car and Bicycle Parking				
Deemed-to-Comply Standard and/or Acceptable Outcome	Proposal			
Built Form Policy Volume 3, Clause 1.10 – Car and Bicycle Parking				
Car Parking The Shop requires 5 car bays per 100 square metres of Net Lettable Area (NLA). The Shop would have an NLA of 113.9 square metres, requiring 6 bays.	Car Parking The development does not propose any on-site car parking for the Shop (as existing). The shop requires five on-site car bays based on the existing NLA. The development requires in a further shortfall of one bay.			
Environmentally S	Sustainable Design			
Deemed-to-Comply Standard and/or Acceptable Outcome	Proposal			
Built Form Policy Volume 3, Clause 1.17 – Environmentally Sustainable Design				
The proposed alterations and additions to the existing shop should be accompanied by a report demonstrating that it achieves a 5 star green star rating or 30 and 25 percent reduction in global warming potential and net fresh water use against the Perth statistic average respectively.	The application is not accompanied by an environmentally sustainable design report.			

The above elements of the proposal do not meet the specified deemed-to-comply and/or acceptable outcome standards and are discussed in the Comments section below.

CONSULTATION/ADVERTISING:

Community consultation was undertaken in accordance with the *Planning and Development (Local Planning Schemes) Regulations 2015* for a period of 35 days commencing on 13 December 2021 and concluding on 17 January 2022. Ordinarily the application would have been required to be advertised for a period of 14 days but the extended timeframe was required because a portion of the consultation period fell within the Christmas and New Year excluded advertising period stipulated under the City's Community and Stakeholder Engagement Policy.

Community consultation was undertaken by way of written notification with 239 letters being sent to surrounding land owners and occupiers within a 100 metre radius of the subject site, as shown in **Attachment 1**, and a notice on the City's website in accordance with the City's Community and Stakeholder Engagement Policy.

The City received seven submissions with one in support, five in objection and one neither in support or objection but expressing some concerns. The key concerns raised are as follows:

- The dominance of the upper floors with reduced setbacks on the streetscape;
- The appearance of the three storey parapet wall adjacent to the south eastern lot boundary from Bulwer Street;

- The impact of the three storey parapet wall on the adjoining south eastern property's access to direct sunlight and ventilation;
- The impact of bulk as a result of the three storey parapet wall on the adjoining south eastern property's rear balcony;
- The impact of the height and bulk of the development on the surrounding neighbourhood;
- The lack of street surveillance to Lake Street;
- The lack of on-site landscaping;
- The impact of the increased size of the shop on the availability of on-street car parking bays in the surrounding area;
- The increased crossover width resulting in the removal of a Lake Street on-street parking bay;
- The mid level bedroom 2 window cone of vision would fall on the adjoining south eastern property's primary outdoor living area, resulting in a loss of privacy; and
- Dilapidation of adjoining dwellings.

A summary of all the submissions received and the applicant's comments with respect to these is included in **Attachment 7**. A summary of all the submissions received and Administration's comments with respect to these are provided in **Attachment 8**.

Design Review Panel (DRP):

Referred to DRP: Yes The proposed development was referred to the City's DRP Chairperson.

The comments provided by the DRP Chairperson noted the following positive aspects of the proposal:

- There are a number of existing three storey dwellings and mixed use buildings in close proximity to the subject site which support the proposed building height;
- The continued operation of the independent millinery shop use adds to the diversity of creative uses in the area; and
- A contemporary addition to a property with a traditional corner shop is supported as it is a commonly accepted approach to differentiate between the different uses and periods of construction on the site.

The DRP Chairperson noted the following areas for further improvement of the proposal:

- The perspective images should be updated to include the immediate adjoining residences to illustrate the relationship between the proposal and its surrounding context;
- Additional windows facing Lake Street should be added at the upper level to increase the level of
 passive surveillance of the streetscape;
- Confirmation should be provided regarding how the mid level terrace planter would be accessed and maintained;
- There are further opportunities for meaningful on-structure planting on the mid level terrace and upper level roof deck;
- Consider providing a setback to the south eastern lot boundary at the upper level to reduce the bulk, scale and overshadowing impact on the adjacent property;
- The bright blue and yellow colours would not be compatible with the surrounding context. The application should consider more contextually appropriate materials such as face brick or blockwork; and
- The south eastern elevation plan should be updated to include details of colours and materials. The
 applicant should consider providing a 1 metre setback to the south eastern lot boundary at the upper
 level, with the metal cladding incorporated at this level to add a level of articulation and diversity of
 materiality.

The applicant submitted amended plans in response to the DRP comments with the following changes:

- The perspective images were updated to include the adjoining properties to the south east as well as the development as viewed when travelling in a north-easterly direction along Bulwer Street;
- A larger window with a perforated sliding screen was added to the mid level lounge and kitchen facing Lake Street;
- Additional landscaping was incorporated in the design:
 - A new 6.5 square metre planting area and associated tree within the ground floor courtyard; and
 - A new 6.2 square metre planting area and associated tree on the roof deck.

- The bright blue and yellow colours and materials were replaced with charred timber cladding and face brick;
- A 4.8 metre portion of the south eastern boundary wall at the upper floor level was chamfered (or cut away at a 45 degree angle) to provide a 0.75 metre setback; and
- Charred timber cladding was incorporated into the boundary wall design.

The amended proposal was referred back to the DRP Chairperson who noted that passive surveillance to Lake Street has been improved, the incorporation of ground floor deep soil areas and on-structure planting were positive, and the materiality and colours were improved and supported.

The only remaining concern of the DRP Chairperson was the extent of overshadowing cast to the adjoining south eastern property's front and rear open spaces.

The applicant submitted further amended plans which are included in **Attachment 2** in response which reduced the overall amount of shadow cast by the proposed development by a further 7.3 square metres. The acceptability of the impact of the development on solar access to adjoining dwellings is discussed in the Comment section of this report.

The table below outlines the application's progress through the DRP process in accordance with the Ten Principles of Good Design.

LEGAL/POLICY:

- Planning and Development Act 2005;
- Planning and Development (Local Planning Schemes) Regulations 2015;
- City of Vincent Local Planning Scheme No. 2;
- State Planning Policy 7.3 Residential Design Codes Volume 1;
- Community and Stakeholder Engagement Policy;
- Policy No. 7.1.1 Built Form;
- Policy No. 7.5.23 Construction Management Plans;
- Policy No. 7.7.1 Non-Residential Development Parking Requirements.

Local Planning Scheme No. 2

The objectives of the Residential zone in accordance with Clause 16(1) of LPS2 are:

- To provide for a range of housing and a choice of residential densities to meet the needs of the community.
- To facilitate and encourage high quality design, built form and streetscapes throughout residential areas.
- To provide for a range of non-residential uses, which are compatible with and complementary to residential development.

- To promote and encourage design that incorporates sustainability principles, including but not limited to solar passive design, energy efficiency, water conservation, waste management and recycling.
- To enhance the amenity and character of the residential neighbourhood by encouraging the retention of existing housing stock and ensuring new development is compatible within these established areas.
- To manage residential development in a way that recognises the needs of innovative design and contemporary lifestyles.
- To ensure the provision of a wide range of different types of residential accommodation, including affordable, social and special needs, to meet the diverse needs of the community.

Delegation to Determine Applications:

This matter is being referred to Council for determination as the proposal involves a three storey building in a two storey building height area.

RISK MANAGEMENT IMPLICATIONS:

There are minimal risks to Council and the City's business function when Council exercises its discretionary power to determine a planning application.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's Strategic Community Plan 2018-2028:

Innovative and Accountable

We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATIONS:

The City has assessed the application against the environmentally sustainable design provisions of the City's Policy No. 7.1.1 – Built Form. These provisions are informed by the key sustainability outcomes of the City's Sustainable Environment Strategy 2019-2024, which requires new developments to demonstrate best practice in respect to reductions in energy, water and waste and improving urban greening.

PUBLIC HEALTH IMPLICATIONS:

This report has no implication on the priority health outcomes of the City's Public Health Plan 2020-2025.

FINANCIAL/BUDGET IMPLICATIONS:

There are no finance or budget implications from this report.

COMMENTS:

Land Use

Shop is an 'A' use within the Residential zone which requires discretion to be exercised in order to operate at the subject site. The subject site has been previously approved for use as a Shop but the proposed mid level studio addition to the existing shop would result in an increase in a 15.0 square metre increase in NLA, from 98.9 square metres to 113.9 square metres.

In considering the appropriateness of the increase in floor area of the land use, due regard is to be given to the objectives of the Residential zone under LPS2. The proposal would be consistent with the objectives of the Residential zone under LPS2 for the following reasons:

- <u>Residential Development:</u> The proposed development includes a significant residential component and would continue to provide an alternative housing option which may be appealing to a range of people including small business owners due to its association with the existing shop.
- <u>Compatible Commercial Development:</u> The existing shop land use has operated from the subject site since at least 1978 and contributes positively to the surrounding streetscape. The proposed alterations and additions to the existing shop would not result in a significant increase in the intensity of the use or have an adverse impact on the amenity of the surrounding residential area. The additional 15 square

metres of shop space that is proposed would be used as a studio for the production of millinery items rather than additional retail floor space.

- <u>Location:</u> The subject site is located in close proximity to other non-residential land uses. The properties on the opposite side of Bulwer Street are zoned Local Centre and Commercial under the City's LPS2.
- <u>Quality of Built Form:</u> The proposed additions use glazing, contrasting colours and materials and different roof heights and forms that provide horizontal and vertical articulation as viewed from the street and adjoining properties. The proposed built form has been reviewed by the City's DRP Chairperson who advised that the contemporary addition to the property with a traditional corner shop is supported as it is a commonly accepted approach to differentiate between the different uses and periods of construction on the site.

Street Setbacks to Lake Street

The existing single storey building at the subject site has a nil setback to Lake Street which is proposed to remain unchanged. The proposed development would have a nil setback to Lake Street at all three levels and the overall length of the building with a nil setback to Lake Street is proposed to increase by 6.8 metres in length, from 25.2 metres to 32.0 metres.

Community Consultation and Applicant's Justification

The City received submissions during the community consultation period raising concerns regarding the impact of the proposed upper floor setbacks on the Lake Street streetscape.

The applicant's written response to the submissions received which is included in **Attachment 7** outlines that whilst the narrow width of the site has resulted in the proposed nil setbacks to Lake Street, the additions would sit comfortably with the surrounding context. This is because it would be setback from the street corner to reduce bulk and the design of the façade has been carefully detailed to incorporate texture, articulation and landscaping.

Administration's Assessment

The setbacks of the development to Lake Street would satisfy the relevant design principles of the R Codes and local housing objectives and element objectives of the Built Form Policy for the following reasons:

- <u>Mitigating Building Bulk:</u> Lake Street acts as the secondary street based on the dimensions of the subject site. The subject site is constrained in its ability to provide setbacks to Lake Street at the upper floor levels whilst still delivering functional internal spaces due to its 6 metre width. The overall building design would provide an effective balance between high quality internal amenity for its residents and appropriate visual interest as viewed from the street. The proposed development uses glazing, contrasting colours and materials and different roof heights and forms which provide horizontal and vertical articulation, effectively reducing the appearance of building bulk distinguishing between the ground and upper floor levels.
- <u>Access to Natural Light and Ventilation:</u> The proposed development provides external windows and open plan living spaces with a northern aspect to maximise access to natural light and ventilation.
- <u>Streetscape:</u> The existing development along Lake Street is characterised by two and three storey townhouses that have minimal street setbacks and limited articulation between the ground and upper floors. This is demonstrated in the detailed streetscape analysis included in **Attachment 6**. The existing development at the subject site with a nil setback to Lake Street forms part of this prevailing streetscape. The proposed alterations and additions that would be consistent with, and contribute positively to the existing and future streetscape context as it incorporates glazing, contrasting colours and materials, and different roof heights and forms to provide horizontal and vertical articulation as viewed from Lake Street.
- <u>Street Surveillance and Activation</u>: The proposed development enables passive surveillance and outlook to Lake Street. This is because it retains all existing ground floor openings and provides new windows and terraces at the upper floor levels. The existing shop would continue to provide high quality streetscape activation.
- <u>DRP Comments</u>: The City's DRP Chairperson has reviewed the proposed development and is supportive of the setback and design of the building with respect to the Lake Street streetscape.

Boundary Wall to South East

COUNCIL BRIEFING AGENDA

The existing single storey building on the subject site has a 23.4 metre long wall built up to the south eastern lot boundary. The proposed development would have a nil setback to the south eastern lot boundary at all three levels and the overall length of the building with a nil setback to this boundary is proposed to increase by 3.7 metres from 23.4 metres to 27.1 metres.

Community Consultation and Applicant's Justification

The City received submissions during the community consultation period raising concerns regarding the impact of the proposed boundary wall on the adjoining south eastern property in relation to building bulk and access to sun and ventilation.

The applicant's written response to the submissions received which is included in **Attachment 7** outlines that boundary walls are often utilised on narrow inner City lots, with similar design outcomes evident in the immediate streetscape including the interface between Nos. 245 and 247 Lake Street. The applicant's response also outlines that there would be no adverse impact on the adjoining south eastern property's access to sunlight and ventilation because the rear courtyard remains open to the northern aspect and the front courtyard is already cast in shadow by the existing building on the subject site.

Administration's Assessment

The proposed boundary wall to the south eastern lot boundary would satisfy the relevant design principles of the R Codes and local housing objectives and element objectives of the Built Form Policy for the following reasons:

- <u>Mitigating Building Bulk:</u> The existing single storey building on the subject site has a 23.4 metre long wall built up to the south eastern lot boundary. The adjoining property to the south east has an existing boundary wall on the shared boundary with the subject site with a maximum height of 6.8 metres. This is comprised of a single storey height for a 10 metre portion measured from the front façade of the building adjacent to Bulwer Street and a two storey height for the remainder of its length. This existing boundary wall on the adjoining property would continue to extend further towards the rear boundary than the proposed boundary wall on the subject site. The proposed boundary wall to the south eastern lot boundary has a single storey height for a 4 metre portion measured from Bulwer Street, then a two storey height for the next 10.2 metre portion and a three storey height for the remaining 11.3 metre portion. The lower boundary wall heights closer to Bulwer Street effectively respond to the existing boundary wall heights on the adjoining property to the south east.
- <u>Access to Sun and Ventilation</u>: The proposed boundary wall would not have an adverse impact on the adjoining property's access to sunlight and ventilation because it abuts an existing boundary wall and does not abut any major openings to habitable rooms or outdoor living areas. The adjoining property's primary outdoor living area is located to the northern portion of the site and would continue to be open to the northern aspect and associated winter sun.
- <u>Minimise Overlooking</u>: The proposed boundary wall does not contain any openings and would minimise direct overlooking to the adjoining property.
- <u>Streetscape:</u> The proposed building has been designed to step back from Bulwer Street at the upper floor levels. This would be an appropriate response to the setbacks of the existing dwellings along Bulwer Street and effectively reduce the appearance of the proposed boundary wall as viewed on approach from the south east. The boundary wall treatment would include painted brickwork, render and timber look cladding to provide visual interest and reduce the appearance of blank solid walls as viewed from the streetscape.

Open Space

The existing dwelling provides 35 percent of the subject site as open space. The proposed single house would provide 22.1 percent of the site as open space.

The proposed open space provided would satisfy the relevant design principles of the R Codes for the following reasons:

• <u>Streetscape Character:</u> The existing development at the subject site has nil setbacks to both Lake Street and Bulwer Street. With the exception of the proposed increased width to the carport, the ground floor footprint of the building would remain unchanged. The amount of open space provided on site would be consistent with the existing terrace style developments in the surrounding streetscape.

- <u>Access to Sunlight for the Dwellings:</u> The proposed development provides consolidated open space to the northern portion of the site which would be open to the northern aspect and associated winter sunlight. The proposed dwelling provides openings on the northern, western and southern facades which would ensure adequate access to natural sunlight and ventilation to the primary living spaces.
- <u>Building Bulk:</u> The proposed building bulk and scale would be consistent with the immediate streetscape which is characterised by two and three storey townhouses that have minimal street setbacks.
- <u>Landscaping:</u> The proposal includes the planting of a new lemon tree within the ground floor courtyard and a new crepe myrtle tree on the upper level roof deck which would contribute positively to both the development and the streetscape.
- <u>Outdoor Living Spaces:</u> The development provides a rear courtyard that exceeds the minimum deemedto-comply outdoor living area dimensions for an R50 site under the R Codes, is directly accessible from the ground floor living room and is open to the northern aspect and associated winter sunlight. The development also provides a roof deck on the upper floor which can be utilised as a secondary outdoor living space by occupants of the dwelling.
- <u>External Fixtures and Essential Facilities:</u> The ground floor building envelope remains effectively unchanged and would continue to provide sufficient space to accommodate meter boxes and bin storage.

Building Height

The existing building on the subject site is single storey with a maximum height of approximately 4.1 metres. The proposed development would have a building height of three storeys and a maximum concealed roof height of 9.3 metres.

Community Consultation and Applicant's Justification

The City received submissions during the community consultation period raising concerns that all existing buildings along Bulwer Street are two storeys in height, existing dwellings along Lake Street are all setback from the street alignment and the proposed height and bulk of the building would significantly impact on the neighbourhood.

The applicant's written response to the submissions received which is included in **Attachment 7** outlines that the bulk, form and height of the development would be consistent with this area of Lake Street, and that the portion of the building on the corner of Lake and Bulwer Streets has been sympathetically designed to allow the historic corner shop element to maintain prominence within the street elevation.

Administration's Assessment

The proposed building height would satisfy the relevant design principles of the R Codes, and local housing objectives and element objectives of the Built Form Policy for the following reasons:

- <u>Lake Street Streetscape</u>: The existing development along Lake Street is characterised by two and three storey townhouses that have minimal street setbacks and limited articulation between the ground and upper floors. This is demonstrated in the detailed streetscape analysis included in **Attachment 6**. The existing development at the subject site with a nil setback to Lake Street forms part of this prevailing streetscape. The proposed alterations and additions that would be consistent with, and contribute positively to the existing and future streetscape context as it uses glazing, contrasting colours and materials, and different roof heights and forms to provide horizontal and vertical articulation as viewed from Lake Street. The proposed development would not be setting a new or undesirable precedent for the area.
- <u>Bulwer Street Streetscape:</u> The proposed building has been designed to step back from Bulwer Street at the upper floor levels which would be an appropriate response to the predominately single storey appearance of the existing dwellings to the south east along Bulwer Street.
- <u>Mitigating Building Bulk</u>: The proposed development would provide contrasting materials, glazing, articulation and landscaping to effectively reduce the appearance of blank solid walls and associated building bulk.
- <u>Overlooking</u>: The development has provided windows in locations that do not directly face the south eastern lot boundary and would not result in a loss of privacy for the adjoining property.
- <u>Overshadowing:</u> The proposed development would not have an adverse impact on the adjoining property's access to sunlight because it abuts an existing boundary wall and does not abut any major

openings to habitable rooms or outdoor living areas. The adjoining property's primary outdoor living area is located to the northern portion of the site and would continue to be open to the northern aspect and associated winter sun.

- <u>Views of Significance</u>: The proposed development would not have any greater impact on views from adjoining properties of the City to the south or Hyde Park to the north than what currently exists on the subject site.
- <u>DRP Comments</u>: The City's DRP Chairperson has reviewed the proposed development and advised that there are a number of existing three storey dwellings and mixed use buildings in close proximity to the subject site which support the proposed three storey building height.

Landscaping

In addition to the deemed-to-comply standards of the R Codes, the proposed single house has also been assessed against the landscaping provisions of the Built Form Policy Volume 1, Clause 1.4 that sets out deemed-to-comply standards. The deemed-to-comply landscaping standards set out in the Built Form Policy have not yet been approved by the WAPC and as such, these provisions are given regard only in the assessment of the application and do not have the same weight as other policy provisions.

The Built Form Policy deemed-to-comply standards relating to landscaping for single houses and the Built Form Policy acceptable outcomes relating to landscaping for commercial developments both set out 12 percent of the site to be provided as deep soil areas, 3 percent as planting areas and 30 percent as canopy coverage at maturity. The application proposes 1.6 percent of the site provided as deep soil areas, 4.5 percent as planting areas and 6.5 percent as canopy coverage at maturity.

Community Consultation and Applicant's Justification

The City received submissions during the community consultation period raising concerns that there would be a lack of landscaping provided on site.

The application did not initially propose any on-site landscaping. The applicant submitted amended plans following the conclusion of the community consultation period which are included in **Attachment 2** that provides for deep soil and on-structure planting areas, and two new trees.

Administration's Assessment

The proposed landscaping would satisfy the relevant local housing objectives and element objectives of the Built Form Policy for the following reasons:

- <u>Contribution to Streetscape</u>: The subject site provides limited opportunities for ground level deep soil zone areas due to the existing building footprint which is proposed to be retained. The development would provide two new trees, including one on structure that would be visible from the street and contribute to the appearance and amenity of the development for residents and the community.
- <u>Canopy Coverage</u>: The proposed development would maximise opportunities for canopy coverage on the site when considering the existing footprint which is proposed to be retained. This would contribute towards increased urban air quality and a sense of open space between buildings.
- <u>Verge Planting</u>: One new tree could be accommodated within the Lake Street verge adjacent to the subject site. Should the application be approved, it is recommended that a condition be imposed requiring the planting of a tree in this **verge** at the expense of the applicant/owner and to the satisfaction of the City. This would be appropriate due to the limited opportunities to provide landscaping on-site for the commercial development and would enhance the overall landscaping outcome delivered by the development.
- <u>Tree Species:</u> The development includes tree species that are consistent with the City's preferred tree species list.
- <u>On-Structure Planting</u>: The proposed development provides landscaped planter boxes on the mid level terrace and a 6 square metre planting area on the roof deck. This would contribute to the overall landscaping outcome, assist in reducing the impacts of building bulk and provide increased amenity for future occupants.

Visual Privacy

Mid Level Bedroom 2 Window

The R Codes deemed-to-comply standards relating to visual privacy outline that the mid level bedroom 2 window should provide a 4.5 metre cone of vision setback to the south eastern lot boundary and the application proposes a 4.4 metre setback.

The R Codes deemed-to-comply standards relating to visual privacy outline that the upper floor roof deck should provide a 7.5 metre cone of vision setback to the south eastern lot boundary and the application proposes a nil setback.

Community Consultation and Applicant's Justification

The City received submissions during the community consultation period raising concerns that:

- The mid level bedroom 2 window cone of vision would fall on the adjoining south eastern properties primary outdoor living area, resulting in a loss of privacy; and
- The upper floor deck area on the southern elevation would create a privacy issue for the adjoining properties to the south east.

The applicant's written response to the submissions received which is included in **Attachment 7** outlines that amended plans were submitted which incorporated a solid aluminium privacy screen to increase the mid level bedroom 2 cone of vision setback from the south eastern lot boundary to 4.5 metres.

Administration's Assessment

The proposed plans show a 4.5 metre cone of vision to the south eastern lot boundary from the mid level bedroom 2 window. Administration has identified that this setback measures to 4.4 metres rather than 4.5 metres.

The proposed mid level bedroom 2 and upper floor deck cones of vision would not satisfy the design principles of the R Codes. This is because it would result in direct overlooking to the adjoining south eastern property's primary outdoor living area.

Should the application be approved, it is recommended that a condition be imposed requiring the applicant to submit amended plans prior to the issue of a building permit which:

- Modify the mid level bedroom 2 window vertical screens to provide a 4.5 metre cone of vision setback to the south eastern lot boundary in order to satisfy the deemed-to-comply standards of the R Codes; and
- Increase the height of the solid balustrading along the south eastern side of the upper floor roof deck from 1 metre to 1.6 metres to mitigate direct overlooking to the adjoining property to the south.

The remainder of the upper floor roof deck cone of vision that would fall on the adjoining property to the south east would satisfy the design principles of the R Codes and be acceptable as it looks in the direction of Bulwer Street rather than back towards the adjoining property's primary outdoor living area. The area affected by the cone of vision is the roof of the adjoining property and the angle of view would be oblique rather than direct.

Solar Access to Adjoining Properties

The existing building on the subject site casts a shadow over the adjoining south eastern properties front courtyard, the remainder of the building abuts a boundary wall of similar or greater height on the adjoining property. The proposed development would cast a shadow over 72.3 percent of the adjoining south eastern property at winter solstice.

Community Consultation and Applicant's Justification

The City received submissions during the community consultation period raising concerns that the development would not be acceptable because it would exceed the deemed-to-comply standard by 22.3 percent.

The applicant's written response to the submissions received which is included in Attachment 7 outlines that although the development would result in some overshadowing of the roof of the adjoining south eastern dwelling, large portions would remain free of shadow due to the height of the adjoining dwelling's roof comparative to the proposed development.

Administration's assessment against the deemed-to-comply standards represents an overshadowing calculation where the adjoining site is vacant. The applicant has submitted an overshadowing diagram in support of the proposed development which is included in Attachment 4 and outlines that the actual extent of overshadowing to the adjoining property when accounting for the heights and location of existing buildings is 37.8 percent.

Administration's Assessment

The proposed solar access for the adjoining property to the south east would satisfy the relevant design principles of the R Codes and element objectives of the Built Form Policy for the following reasons:

- Major Openings and Outdoor Living Areas: The proposed development would not have an adverse impact on the adjoining property's access to sunlight because it abuts an existing boundary wall and does not abut any major openings to habitable rooms or outdoor living areas. The adjoining property's primary outdoor living area is located to the northern portion of the site and would continue to be open to winter sun.
- Roof Mounted Solar Collectors: The adjoining dwelling to the south east does not have any existing roof mounted solar collectors that would be impacted by the shadow cast by the proposed development. The overshadowing diagram submitted by the applicant demonstrates that opportunities to install roof mounted solar collectors on the adjoining dwelling would remain. This is because of the angle of the lots with respect to north and because the two storey roof height of the existing dwelling to the south east would only be 3.2 metres lower than the roof height of the proposed additions on the subject site.

Car Parking

The Built Form Policy acceptable outcomes relating to roof design for commercial developments outline that car and bicycle parking shall be provided for the shop in accordance with the requirements of the City's Policy No. 7.7.1 - Non-Residential Development Parking Requirements (Parking Policy).

The City's Parking Policy outlines that a shop within the residential built form area shall be provided with 5 car bays per 100 square metres of Net Lettable Area (NLA). There are currently no on-site car parking spaces provided for the existing shop on-site. The proposed mid level studio addition to the existing shop would result in an increase in NLA from 98.9 square metres to 113.9 square metres. The shop requires five on-site car bays based on the existing NLA and six bays based on the proposed NLA, resulting in a further shortfall of one bay.

Community Consultation and Applicant's Justification

The City received submissions during the community consultation period raising concerns that the increased size of the shop would result in more customers and reduced availability of on-street parking bays in the area. The submissions also suggested that the development should better support alternate modes of transport through the provision of bicycle parking.

The applicant's written response to the submissions received which is included in Attachment 7 outlines that the development would have no additional impact on the availability of on-street car bays. The applicant also indicated that whilst there is no ability to provide bicycle parking on-site, they would be in agreement with a condition to provide bicycle bays within the verge adjacent to the subject site if appropriate.

Administration's Assessment

The proposed car parking shortfall would satisfy the relevant local housing objectives of the Built Form Policy and policy objectives of the Parking Policy for the following reasons:

- Existing Shop Land Use: A shop land use has operated from the subject site since at least 1978 and contributes positively to the surrounding streetscape. Due to the narrow width of the site and existing building footprint to be retained there are limited opportunities to provide additional on-site car parking bays. The scale and intensity of the shop would remain low because the additional 15.0 square metres of shop space would be used as a studio for the production of millinery items rather than additional retail floor space. The development would not have an adverse impact on the surrounding area with respect to on-street car parking availability or traffic.
- Residential Parking Bays: The residential component of the development would provide two on-site car parking bays which would be in excess of the one bay deemed-to-comply standard of the R Codes and reduce the impact of the development on on-street car parking availability.

- <u>Public Transport:</u> The subject site is located 175 metres to the west of William Street which is a high frequency bus route. The available bus route connects the subject site directly to the Perth CBD and in turn, the wider Perth Public Transport Network. The site's close proximity to public transport options would further reduce the reliance on the use of private vehicles.
- <u>Perth Bicycle Network:</u> The subject site is located 430 metres north of Forbes Street and 200 metres east of Palmerston Street. These are local bicycle friendly routes that connect to principle shared paths that travel in north-south and east-west directions. The site's close proximity to the Perth Bicycle Network would support a shift away from reliance on the use of private vehicles and provide an alternate mode of transport to access the site.

Should the application be approved it is recommended that a condition be imposed requiring the installation of one short term bicycle bay within the verge adjacent to the subject site, at the expense of the applicant/owner and to the satisfaction of the City. This would be appropriate due to the limited opportunities to provide car parking on-site for the commercial development and would support the use of active modes of transport.

The parking demand generated by the development would be reduced and can be accommodated without the need for a cash-in-lieu contribution from the applicant for the proposed parking shortfall of one bay. This is because the subject site is well serviced by alternate modes of transport, specifically its close proximity to the William Street high frequency bus route, as well as cycle path network.

Environmentally Sustainable Design (ESD)

The City did not request that the applicant submit an ESD report in this instance because the application proposes alterations and additions to the existing building.

The proposed development would satisfy the local housing objectives and element objectives of the Built Form Policy relating to environmentally sustainable design for the following reasons:

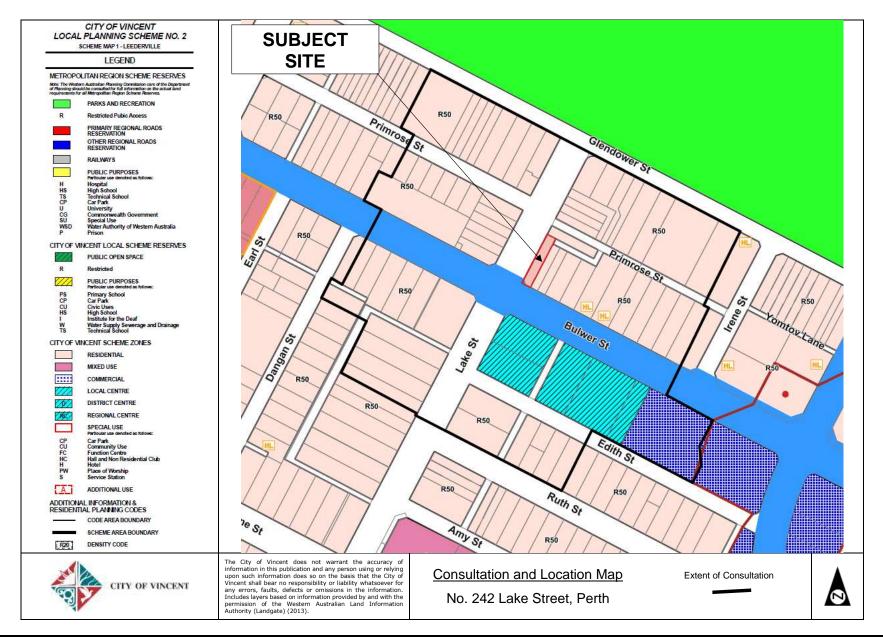

- <u>Retention of Existing Building:</u> The retention of the existing building is a positive environmentally sustainable outcome when compared to demolition and re-build due to the retention of the existing embodied energy in the building.
- <u>Access to Sunlight</u>: The outdoor living area and primary living spaces are provided with a northern aspect. The proposed development includes skylights at the upper floor level to provide additional access to natural sunlight.
- <u>Shading Devices:</u> The proposed upper floor building line would provide shade to the lower levels.
- <u>Landscaping:</u> The proposed development would maximise opportunities for planting areas and canopy coverage on the site when considering the existing building footprint which is proposed to be retained.

Construction Management Plan

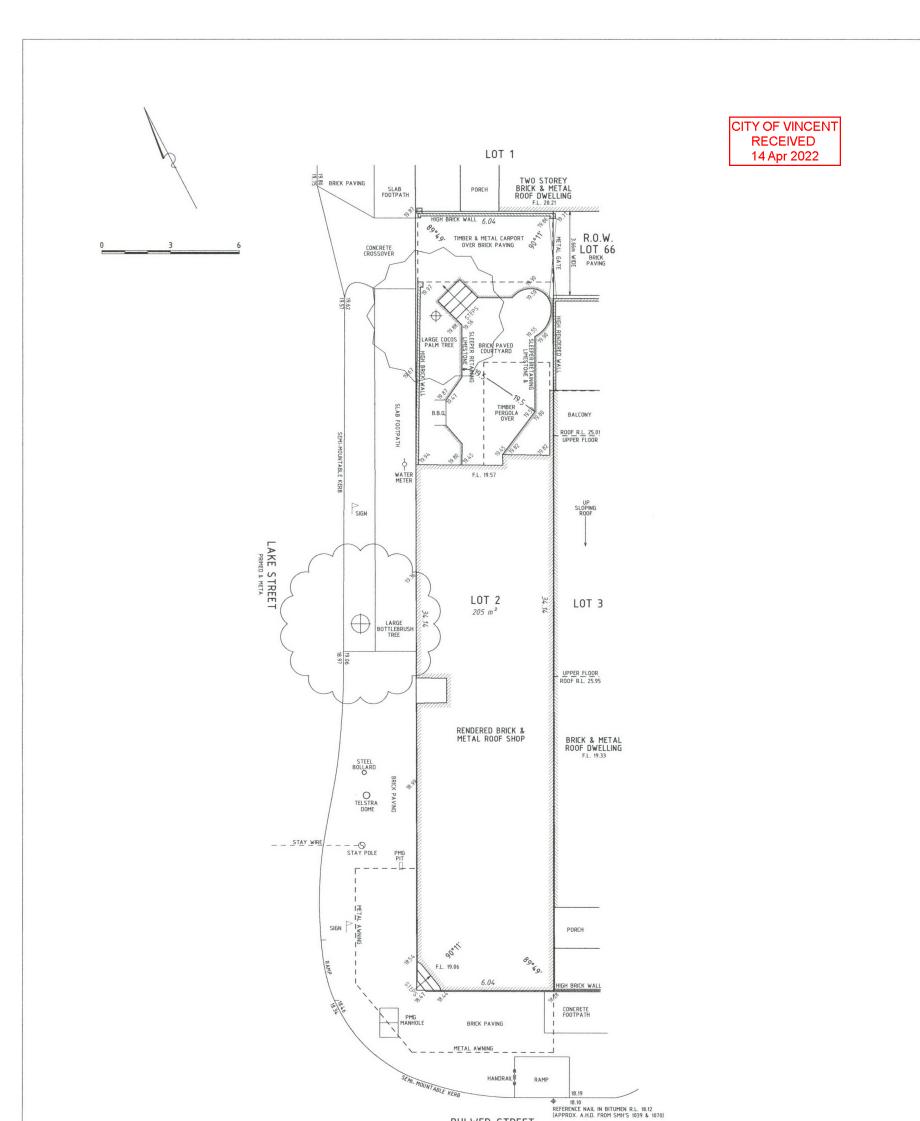

A construction management plan would be required under the City's Policy No. 7.5.23 – Construction Management Plans. This is because the subject site is constrained from a construction perspective due to the narrow lot width and existing building envelope with nil setbacks to Lake and Bulwer Streets.

The careful management of the construction process and associated off-site impacts would be required to ensure that the development does not have an adverse impact on the amenity of the surrounding residential properties and traffic function of Lake and Bulwer Streets.

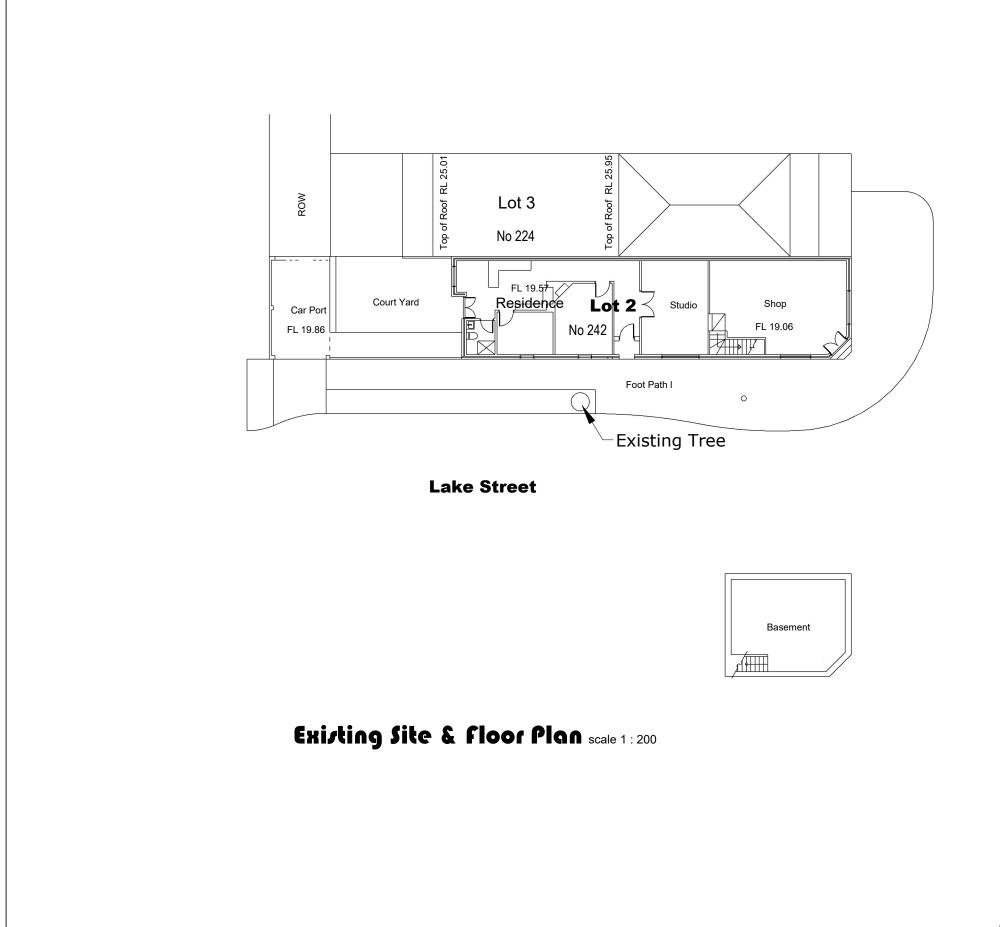

Should the application be approved, it is recommended that a condition be imposed requiring the submission of a construction management plan prior to the issue of a building permit.

Dear Sir,

Re : Proposed Additions to 242 Lake Street Perth

The property 242 Lake Street is a historical typical corner shop with attaching residence, one of many that existing with the City of Vincent.

This particular one has a nonconforming use attached to the property that allows for the use of the shop portion as retail facility. The current owner, use the shop portion for her millinery business known as the Hat Box. Also the owners are raising two young children in rather confined living space.

The owner love living in this location and the shop allows for the millinery business to maintain quality client participation with display of product and consultation.

The proposal is to extend both the shop facility and residential portion of the property, to include an additional studio space for the shop for the production of millinery items. On the residential side the proposal is to add new kitchen, dining, lounge and bedroom with bathroom at midlevel. Plus master bedroom suite on upper level.

It has been the intent of the design to be respectful to the heritage nature of the corner shop while incorporating a new contemporary element away from the corner. The bulk of the upper floors, has been positioned away from Bulwer Street, allowing the corner to hold on to its historic proportions. The third storey portion sits well back from the corner and is opposite from the existing 3 storey town houses in Lake Street. We believe the proposal is in keeping with existing street amenity. The third storey element has been designed to site within the roof form of the addition, softening the scale and adding to the contemporary quality.

The proposal will have some over shadowing of the neighbouring property of 224 Bulwer Street, but the addition shadowing is over roof only. As the front entry court yard of 224 Bulwer Street is currently fully shaded by the existing built form of 224 Bulwer Street and 242 Lake Street (see over shadow Plan).

The layout of the design ensures that no portion of the shop or residence sits over each other ensuring compliance the City's Planning Scheme.

We trust that Council can see the quality of the proposal and can be supportive of my client's aspirations to provide a more accommodating and liveable property for them and their family.

Yours Faithfully

John Kestel

Detailed Streetscape Analysis

Proposed Single House & Alterations and Additions to Shop

245-249 Lake Street – Three Storey Townhouses

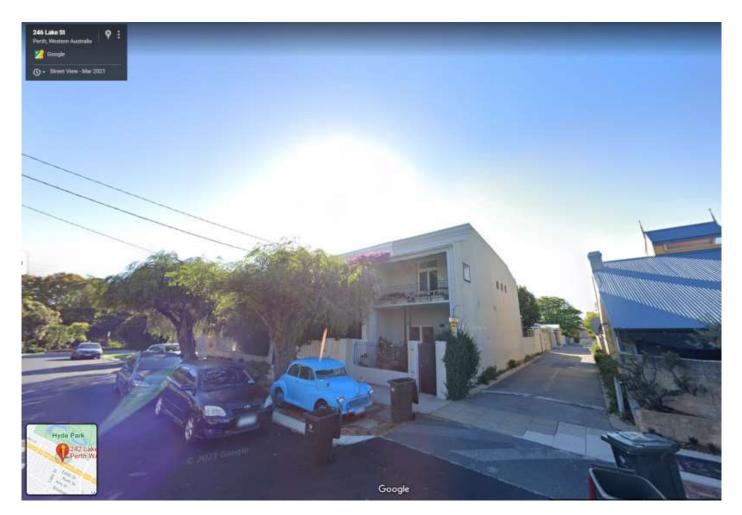

253 Lake Street and 1B Primrose Street – Three Storey Townhouses

253 Lake Street and 1B Primrose Street – Three Storey Townhouses

257 Lake Street – Three Storey Dwelling

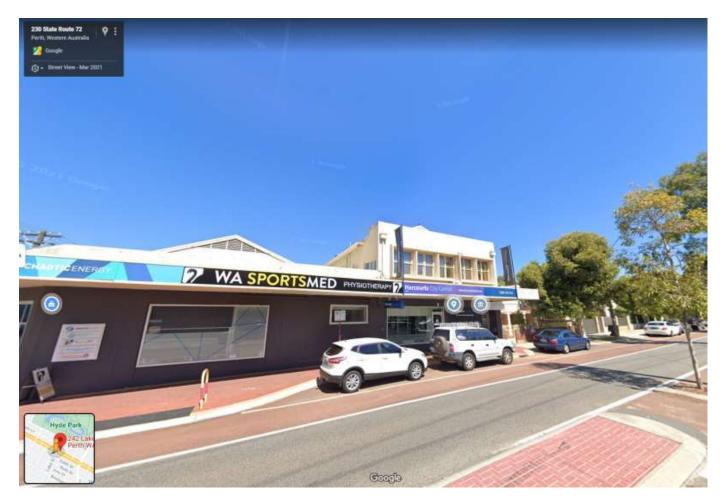

248-254 Lake Street – Two Storey Terrace Houses

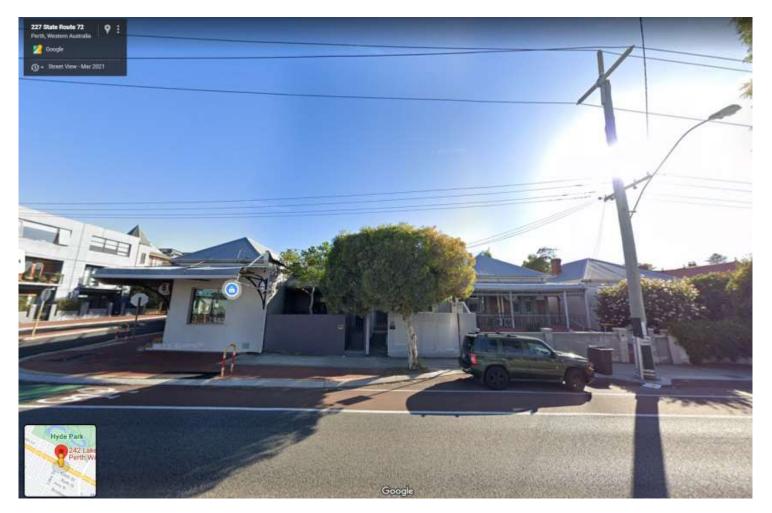

215-229 Bulwer Street – Traditional Single Storey Commercial Development

231-233 Bulwer Street – Single Storey Commercial Development

231-233 Bulwer Street – Two Storey Commercial Development

Subject Site (left) and Single Storey Residential Dwellings (middle and right)

213 – 205 Bulwer Street – Modern Two Storey Mixed Use Developments

The tables below summarise the comments received during the advertising period of the proposal, together with Administration's response to each comment.

Comments Received in Support:	Administration Comment
No comments provided.	N/A
Comments Received in Objection:	Administration Comment
Street Setbacks	
 The upper floor street setbacks need to abide by the regulations. The proposed upper floor street setbacks would be detrimental to the existing streetscape. 	Given the constraints of a very narrow site we had little option but to propose a solution with a nil set back to Lake Street.
 Suggest that the development incorporate staggered setbacks at the upper floor levels. The Lake Street appearance would be a three storey parapet wall which 	The design layers back from the corner in the same way as the opposite side of Lake Street. This ensures the bulk and scale of the built form is in keeping with the existing built form of the street.
does not existing anywhere else in the streetscape.	The design of the facade has been carefully detailed to incorporate texture, articulation with landscaping, variation in finishes and elements set back where possible. We feel the proposed result, while large in scale would site very comfortably within the existing street scape and improve the general quality of the area.
Lot Boundary Setbacks / Boundary Walls	
 The boundary wall lengths and heights should keep to the regulations. The proposed boundary walls would affect the adjoining properties access to sun and ventilation. Concerns in relation to the bulk of the boundary wall which extends out past the rear of the existing building on the property to the south east, blocking the existing balcony at this property. Query what the proposed material and finish for the south eastern lot boundary wall. Suggest that the finish should match the proposed walls facing Lake Street. Concerns that the proposed boundary wall height would be 3 metres 	The boundary wall as proposed dose not conform to deemed to comply, but is not uncommon within the small narrow sites of the inner city as in the 245 and 247 Lake Street and is supportable under as it meets the design principles objectives.
	The proposed design has no effect on either sun or ventilation to the northern rear elevation of neighbouring properties, as can be seen on the shadow plan provided. Also please note that the front courtyard of the adjoining neighbours is completely overshadowed by the existing built form and the proposed built form has no additional impact on overshadowing of the neighbour's front
higher than the building on the adjoining property to the south east.	courtyard on Bulwer Street. The proposal design is 1.0m short of the northern end of the neighbour's balcony and does not diminish in any way their view from the balcony unless

Comments Received in Objection:	Administration Comment
	they mean the view into the rear courtyard of 242 Lake Street.
	The finishes to the boundary wall to the southeast side will match some of the finishes to the lake street side.
	The additional height of boundary to the southeast side has been lowered after discussion with Planning representatives to minimise impact to the adjoining neighbour and the amenity of Bulwer Street.
Building Height	
 Concerns that all existing buildings along Bulwer Street are two storeys in height and existing properties along Lake Street are all setback from the street alignment. Suggest that if the requirement for the area is a maximum of two storeys, this must be maintained. Concerns that the proposed height and bulk of the building would significantly impact on the neighbourhood by detracting from the area and creating an imposing building. 	The bulk form and height are consistent with this area of Lake Street and the corner has been sympathetically designed to allow the historic corner shop element to maintain prominence within the street elevation.
Street Surveillance	
 The Lake Street façade would look like a prison wall, suggest incorporating a window in this façade. 	The mid-level window to lake street have been increase in size to allow surveillance from kitchen and lounge.
Landscaping	
 Suggest that the development retain all existing trees on site. Concern in relation to the lack of landscaping proposed on site. 	Additional landscaping details have be provided which as seen in revised 3D view of the proposal.
Car and Bicycle Parking	
 Concerns that the increased size of the shop component would bring more clients when there is no on-site car parking available, resulting in reduced availability of on-street parking bays in the area. 	The shop area of the premises has not been increased and will have no additional impact on the on-street parking bays.
 Concerns that the increased crossover width would result in the removal of an existing on-street car parking bay along Lake Street. 	The small increase in crossover would have minimal effect on the on-street parking.
 Suggest that applicant pay cash-in-lieu for proposed car parking shortfall. Whilst there would be few customers that would bike to the shop, all new developments should support alternate modes of transport, 	While there is no ability to provide bicycle parking for visitors on-site. We would be happy to contribute to a council bicycle rack within the verge if felt appropriate.

Comments Received in Objection:	Administration Comment
especially where a car parking shortfall exists.	
Visual Privacy	
 Concerns that the mid-level bedroom 2 window cone of vision would fall on the adjoining south eastern properties primary outdoor living area, resulting in a loss of privacy. Concerns that the additional building height and proposed roof deck would allow views into the properties on the opposite side of Lake Street. 	The window of mid-level bed 2 is now compliant with regulation. Any over viewing from roof deck is within regulation.
Solar Access to Adjoining Properties	
• The development would be 22.3 percent over the requirement and would not be acceptable.	While there is some over shadowing of the neighbour's roof there is still large areas of their roof not compromised by the proposed additions.
Open Space	
• Concerns that the lack of open space would impact on the flow of air and detract from the streetscape.	The open space has no effect on air flow or street scape.
Streetscape	
 Approval of the proposal would set a precedent that would be out of touch with the heritage buildings of the area that are unlikely to change. The proposed development would be the most dominant building at the intersection of Lake Street and Bulwer Street. 	Whilst increasing built form and floor area, well designed proposals with good attention to detail, respectfulness to historic elements of the existing structure, add to the amenity of the area and set good precedents for future development.
Dilapidation of Adjoining Properties	
 These houses are very old and the original brickwork is brittle. Concerns that the scale of the proposed build would damage both the existing building at the site and the surrounding buildings. Request that a dilapidation report be carried out before work commences. Concerns regarding potential for damage to the adjoining property to the east during the construction period. 	The proposed designed is predominately a framed construction technique with minimal impact on the existing and adjoining structure. Final documentation will include structural engineering detail and certification. Also as part of the construction process, a dilapidation survey would be conducted on the neighbouring property.
Construction Management	
• Concerns that the area surrounding the site has very little space to work from. Request that a construction management plan be required before work commences.	As part of the building license process, we would provide a complete construction management plan for review.
Sewerage Connection	

Comments Received in Objection:	Administration Comment
• The existing sewer line servicing the site runs across three properties (242 Lake Street, 244 and 246 Bulwer Street) before connecting to the right of way. Concerns that the proposed development could result in backflow of sewerage into adjoining properties if a new connection is added, the existing line is damaged or further strain is placed on the connection point. Request that a plumbing management plan be required before works commence.	No comments provided by the applicant.
General	
The development should keep to the regulations.	No comments provided by the applicant.

Comments Received Expressing Concern:	Administration Comment
Visual Privacy	
• Concerns that the upper floor deck area on the southern elevation would create a privacy issue for the adjoining properties to the south east.	Refer to comments in table above relating to visual privacy.
Dilapidation of Adjoining Properties	
• 242 Lake, 224 Bulwer and 222 Bulwer were all constructed at the same time and share party walls, roofing systems and a sewer line, all of which are very fragile. Concerns regarding the large scale of the proposed additions in relation to possible damage to the existing building at the site and the surrounding buildings.	Refer to comments in table above relating to dilapidation of adjoining properties
Solar Access to Adjoining Properties	
 Concerns that future plans to install solar panels on the adjoining properties to the south east would be adversely impacted by the proposed development. 	Refer to comments in table above relating to solar access for adjoining properties.
Request for an overshadowing plan to be provided.	
Car and Bicycle Parking	
• Concerns that the increased crossover width would result in the removal of an existing on-street car parking bay along Lake Street. Request that the two existing two on-street car parking spaces along Lake Street be relocated to ensure that no bays are lost.	Refer to comments in table above relating to car and bicycle parking.

Note: Submissions are considered and assessed by issue rather than by individual submitter.

The tables below summarise the comments received during the advertising period of the proposal, together with the City's response to each comment.

Comments Received in Support:	Administration Comment:
No comments provided.	Not appliable.

Comments Received in Objection:	Administration Comment:
Street Setbacks	
 The proposed upper floor street setbacks would be detrimental to the existing streetscape. Suggest that the development incorporate staggered setbacks at the upper floor levels. The Lake Street appearance would be a three storey parapet wall which does not existing anywhere else in the streetscape. The upper floor street setbacks need to abide by the regulations. 	The overall building design would provide an effective balance between high quality internal amenity for its residents and appropriate visual interest as viewed from the street. The existing development along Lake Street is characterised by two and three storey townhouses that have minimal street setbacks and limited articulation between the ground and upper floors. This is demonstrated in the detailed streetscape analysis included in Attachment 6 . The existing development at the subject site with a nil setback to Lake Street forms part of this prevailing streetscape. The proposed alterations and additions that would be consistent with, and contribute positively to the existing and future streetscape context as it uses glazing, contrasting colours and materials and different roof heights and forms to provide horizontal and vertical articulation as viewed from Lake Street.
	and local housing objectives of the Built Form Policy relating to street setbacks.
Lot Boundary Setbacks/Boundary Walls	
 The proposed boundary walls would affect the adjoining properties access to sun and ventilation. Concerns in relation to the bulk of the boundary wall which extends out past the rear of the existing building on the property to the south east, blocking the existing balcony at this property. Query what the proposed material and finish for the south eastern lot boundary wall. Suggest that the finish should match the proposed walls facing Lake Street. 	The proposed boundary wall would not have an adverse impact on the adjoining property's access to sunlight and ventilation because it abuts an existing boundary wall and does not abut any major openings to habitable rooms or outdoor living areas. The adjoining property's primary outdoor living area is located to the northern portion of the site and would continue to be open to the northern aspect and associated winter sun.

Comments Received in Objection:	Administration Comment:
 Concerns that the proposed boundary wall height would be 3 metres higher than the building on the adjoining property to the south east. The boundary wall lengths and heights should keep to the regulations. 	The boundary wall treatment would include painted brickwork, render and timber look cladding to provide visual interest and reduce the appearance of blank solid walls as viewed from the streetscape.
	The proposed boundary wall to the south eastern lot boundary has a single storey height for a 4 metre portion measured from Bulwer Street, then a two storey height for the next 10.2 metre portion and a three storey height for the remaining 11.3 metre portion. The lower boundary wall heights closer to Bulwer Street effectively respond to the existing boundary wall heights on the adjoining property to the south east.
	The development would satisfy the relevant design principles of the R Codes and local housing objectives of the Built Form Policy relating to street setbacks.
Building Height	
 Concerns that all existing buildings along Bulwer Street are two storeys in height and existing properties along Lake Street are all setback from the street alignment. Suggest that if the requirement for the area is a maximum of two 	The existing development along Lake Street is characterised by two and three storey townhouses that have minimal street setbacks and limited articulation between the ground and upper floors. This is demonstrated in the detailed streetscape analysis included in Attachment 6 .
 storeys, this must be maintained. Concerns that the proposed height and bulk of the building would significantly impact on the neighbourhood by detracting from the area and creating an imposing building. 	The proposed building has been designed to step back from Bulwer Street at the upper floor levels which would be an appropriate response to the predominately single storey appearance of the existing dwellings to the south east along Bulwer Street.
	The proposed development would provide contrasting materials, glazing, articulation and landscaping to effectively reduce the appearance of blank solid walls and associated building bulk.
Street Surveillance	
The Lake Street façade would look like a prison wall, suggest incorporating a window in this façade.	The applicant has provided amended plans with a window to the mid-level lounge and kitchen orienting Lake Street.
	The proposed development satisfies the deemed-to-comply standards of the R Codes Volume 1 relating to street surveillance.
Landscaping	
 Suggest that the development retain all existing trees on site. Concern in relation to the lack of landscaping proposed on site. 	The application did not initially propose any on-site landscaping. The applicant submitted amended plans following the conclusion of the community consultation period which are included in Attachment 2 that provides for deep soil and on-structure planting areas, and two new trees.
	The proposed development would maximise opportunities for canopy coverage on the site when considering the existing footprint which is proposed to be retained.

Comments Received in Objection:	Administration Comment:
Car and Bicycle Parking	
 Concerns that the increased size of the shop component would bring more clients when there is no on-site car parking available, resulting in reduced availability of on-street parking bays in the area. Concerns that the increased crossover width would result in the removal of an existing on-street car parking bay along Lake Street. Suggest that applicant pay cash-in-lieu for proposed car parking shortfall. Whilst there would be few customers that would bike to the shop, all new developments should support alternate modes of transport, especially where a car parking shortfall exists. 	The scale and intensity of the shop would remain low because the additional 15 square metres of shop space would be used as a studio for the production of millinery items rather than additional retail floor space. The development would not have an adverse impact on the surrounding area with respect to onstreet car parking.
	The City's Technical Services team have reviewed the proposed development and the existing on-street car parking layout and confirmed that the widening of the crossover would not impact on the one on-street parking bay that currently exists on Lake Street between the existing crossover and the Bulwer Street intersection.
	The parking demand generated by the development can be accommodated without the need for a cash-in-lieu contribution from the applicant for the proposed parking shortfall of one bay. This is because the subject site is well serviced by alternate modes of transport, specifically its close proximity to the William Street high frequency bus route, as well as cycle path network.
	Should the application be approved it is recommended that a condition be imposed requiring the installation of one short term bicycle bay within the verge adjacent to the subject site, at the expense of the applicant/owner and to the satisfaction of the City. This would be appropriate due to the limited opportunities to provide car parking on-site for the commercial development and would support the use of active modes of transport.
Visual Privacy	
 Concerns that the mid-level bedroom 2 window cone of vision would fall on the adjoining south eastern properties primary outdoor living area, resulting in a loss of privacy. Concerns that the additional building height and proposed roof deck would allow views into the properties on the opposite side of Lake Street. 	The R Codes deemed-to-comply standards relating to visual privacy outline that the mid level bedroom 2 window should provide a 4.5 metre cone of vision setback to the south eastern lot boundary. The application proposes a 4.4 metre setback.
	The proposed plans show a 4.5 metre cone of vision to the south eastern lot boundary from the mid level bedroom 2 window. Administration has identified that this setback measures to 4.4 metres rather than 4.5 metres.
	Administration agrees with the submissions received during the consultation period outlining that the proposed mid level bedroom 2 cone of vision would result in direct overlooking to the adjoining south eastern properties primary outdoor living area and as a result, would not satisfy the design principles of the R Codes.

Comments Received in Objection:	Administration Comment:
	Should the application be approved, it is recommended that a Condition be imposed requiring the applicant to submit amended plans prior to the issue of a building permit which increase the midlevel bedroom 2 cone of vision setback from the south eastern lot boundary to 4.5 metres in order to satisfy the deemed-to-comply standards of the R Codes.
	The proposed development is separated from the adjoining properties on the opposite side of Lake Street by the 20 metre wide road reserve which is sufficient to ensure privacy is maintained.
Solar Access to Adjoining Properties	
The development would be 22.3 percent over the requirement and would not be acceptable.	Administration's assessment against the deemed-to-comply standards represents a worst case scenario where the adjoining site is vacant.
	The applicant has submitted an overshadowing diagram in support of the proposed development which is included in Attachment 4 and outlines that the actual extent of overshadowing to the adjoining property when accounting for the heights and location of existing buildings is 37.8 percent.
	The proposed shadow cast by the development would be acceptable because it would not have an adverse impact on the adjoining properties major openings to habitable rooms, primary outdoor living area or roof mounted solar collectors.
Open Space	
Concerns that the lack of open space would impact on the flow of air and detract from the streetscape.	The proposed development provides consolidated open space in the northern portion of the site which would be open to the northern aspect and associated winter sunlight. The proposed dwelling provides openings on the northern, western and southern facades which would ensure adequate access to natural sunlight and ventilation to the primary living spaces.
	The existing development at the subject site has nil setbacks to both Lake Street and Bulwer Street. With the exception of the proposed increased width to the carport, the ground floor footprint of the building would remain unchanged. The amount of open space provided on site would be consistent with the existing terrace style developments in the surrounding streetscape.

Comments Received in Objection:	Administration Comment:
Streetscape	
 Approval of the proposal would set a precedent that would be out of touch with the heritage buildings of the area that are unlikely to change. The proposed development would be the most dominant building at the intersection of Lake Street and Bulwer Street. 	The existing development along Lake Street is characterised by two and three storey townhouses that have minimal street setbacks and limited articulation between the ground and upper floors. The proposed development would not be setting a new or undesirable precedent for the area.
	There are existing three storey buildings visible from the Lake and Bulwer Street intersection and the proposed development would not be inconsistent with this existing streetscape.
Construction Management & Dilapidation of Adjoining Properties	
 Concerns that the area surrounding the site has very little space to work from. Request that a construction management plan be required before work commences. These houses are very old and the original brickwork is brittle. Concerns that the scale of the proposed build would damage both the existing building at the site and the surrounding buildings. Request that a dilapidation report be carried out before work commences. Concerns regarding potential for damage to the adjoining property to the east during the construction period. 	A construction management plan would be required under the City's Policy No. 7.5.23 – Construction Management Plans. This is because the subject site is constrained from a construction perspective due to the narrow lot width and existing building envelope with nil setbacks to Lake and Bulwer Streets. The careful management of the construction process and associated off-site impacts would be required to ensure that the development does not have an adverse impact on the amenity of the surrounding residential properties and traffic function of Lake and Bulwer Streets.
	Should the application be approved, it is recommended that a Condition be imposed requiring the submission of a construction management plan prior to the issue of a building permit.
	The applicant has confirmed in their response to the summary of submissions included in Attachment 7 that they will provide a construction management plan and accompanying dilapidation reports of adjoining properties with the building permit.
Sewerage Connection	
The existing sewer line servicing the site runs across three properties (Nos. 242 Lake Street, 244 and 246 Bulwer Street) before connecting to the right of way. Concerns that the proposed development could result in backflow of sewerage into adjoining properties if a new connection is added, the existing line is damaged or further strain is placed on the connection point. Request that a plumbing management plan be required before works commence.	The concerns raised have been reviewed by the City's Building Services and Technical Services teams and the following information has been provided. The proposed development would be required to be certified by a hydraulic engineer prior to the building permit being issued. Water Corporation would be consulted with to ensure that the existing/proposed infrastructure is suitable and then the works would be undertaken by a licensed plumber who would submit a notice of major plumbing works to the Water Corporation.

Comments Received in Objection:	Administration Comment:
Extent of Discretion Sought	
The development should keep to the regulations.	The Built Form Policy and R Codes have two pathways for assessing and determining a development application. These are through design principles and local housing objectives, or through deemed-to-comply standards.
	Design principles and local housing objectives are qualitative measures which describe the outcome that is sought rather than the way that it can be achieved.
	The deemed-to-comply standards are one way of satisfactorily meeting the design principles or local housing objectives and are often quantitative measures.
	If a planning element of an application meets the applicable deemed-to-comply standard/s then it is satisfactory and not subject to the discretion of the decision maker for the purposes of assessment against the Built Form Policy and R Codes.
	If a planning element of an application does not meet the applicable deemed-to-comply standard/s then decision maker's discretion is required to decide whether this element meets the design principles and local housing objectives.

Comments Received Expressing Concern:	Administration Comment:
Visual Privacy	
Concerns that the upper floor deck area on the southern elevation would create a privacy issue for the adjoining properties to the south east.	The R Codes deemed-to-comply standards relating to visual privacy outline that the upper floor roof deck should provide a 7.5 metre cone of vision setback to the south eastern lot boundary and the application proposes a nil setback.
	Administration agrees with the submissions received during the consultation period outlining that the proposed upper floor roof deck cone of vision would result in direct overlooking to the adjoining south eastern properties primary outdoor living area and as a result, would not satisfy the design principles of the R Codes.
	Should the application be approved, it is recommended that a condition be imposed requiring the applicant to submit amended plans prior to the issue of a building permit which increases the height of the balustrading along the south eastern side of the upper floor roof deck from 1 metre to 1.6 metres to mitigate direct overlooking to the adjoining property to the south.

Comments Received Expressing Concern:	Administration Comment:
	The remainder of the upper floor roof deck cone of vision that would fall on the adjoining property to the south east would be acceptable as it looks in the direction of Bulwer Street rather than back towards the adjoining properties primary outdoor living area. The area affected by the cone of vision is the roof of the adjoining property and the angle of view would be oblique rather than direct.
Dilapidation of Adjoining Properties	
Nos. 242 Lake, 224 Bulwer and 222 Bulwer were all constructed at the same time and share party walls, roofing systems and a sewer line, all of which are very fragile. Concerns regarding the large scale of the proposed additions in relation to possible damage to the existing building at the site and the surrounding buildings.	Refer to the response provided in the table above regarding construction management and dilapidation reports for adjoining properties.
Solar Access to Adjoining Properties	
 Concerns that future plans to install solar panels on the adjoining properties to the south east would be adversely impacted by the proposed development. Request for an overshadowing plan to be provided. 	The adjoining dwelling to the south east does not have any existing roof mounted solar collectors that would be impacted by the shadow cast by the proposed development. The overshadowing diagram submitted by the applicant and included in Attachment 4 effectively demonstrates that sufficient opportunities to install roof mounted solar collectors on the roof of the adjoining dwelling would remain due to the height of the adjoining dwellings roof comparative to the proposed development.
Car and Bicycle Parking	
Concerns that the increased crossover width would result in the removal of an existing on-street car parking bay along Lake Street. Request that the two existing on-street car parking spaces along Lake Street be relocated to ensure that no bays are lost.	Refer to the response provided in the table above regarding car and bicycle parking.

Note: Submissions are considered and assessed by issue rather than by individual submitter.

Determination Advice Notes:

- 1. This is a development approval issued under the City of Vincent Local Planning Scheme No. 2 and the Metropolitan Region Scheme only. It is not a building permit or an approval to commence or carry out development under any other law. It is the responsibility of the applicant/owner to obtain any other necessary approvals and to commence and carry out development in accordance with all other laws.
- 2. If the development the subject of this approval is not substantially commenced within a period of 2 years, or another period specified in the approval after the date of determination, the approval will lapse and be of no further effect.
- 3. Where an approval has so lapsed, no development must be carried out without the further approval of the local government having first been sought and obtained.
- 4. If an applicant or owner is aggrieved by this determination there is a right of review by the State Administrative Tribunal in accordance with the *Planning and Development Act 2005* Part 14. An application must be made within 28 days of the determination.
- 5. In relation to Advice Note 2 a further two years is added to the date by which the development shall be substantially commenced, pursuant to Schedule 3, Clause 3.1 of the Clause 78H Notice of Exemption from Planning Requirements During State of Emergency signed by the Minister for Planning on 4 March 2022.
- 6. This is approval is not an authority to ignore any constraint to development on the land, which may exist through statute, regulation, contract or on title, such as an easement or restrictive covenant. It is the responsibility of the applicant and not the City to investigate any such constraints before commencing development. This approval will not necessarily have regard to any such constraint to development, regardless of whether or not it has been drawn to the City's attention.
- 7. The applicant is responsible for ensuring that all lot boundaries as shown on the approved plans are correct.
- 8. No verge trees shall be REMOVED unless approved by the City. The verge trees shall be RETAINED and PROTECTED from any damage including unauthorized pruning.
- 9. An Infrastructure Protection Bond together with a non-refundable inspection fee shall be lodged with the City by the applicant, prior to commencement of all building/development works, and shall be held until all building/development works have been completed and any disturbance of, or damage to the City's infrastructure, including verge trees, has been repaired/reinstated to the satisfaction of the City. An application for the refund of the bond must be made in writing. This bond is non-transferable.
- 10. The movement of all path users, with or without disabilities, within the road reserve, shall not be impeded in any way during the course of the building works. This area shall be maintained in a safe and trafficable condition and a continuous path of travel (minimum width 1.5 metres) shall be maintained for all users at all times during construction works. Permits are required for placement of any material within the road reserve.
- 11. With reference to Condition 3, the owners of the subject land shall obtain the consent of the owners of relevant adjoining properties before entering those properties in order to make good the boundary walls.
- 12. With reference to Condition 4 Clause 5.4.1 C1.2 Visual Privacy requirements of the R codes states that screening devices such as obscure glazing, timber screens, external blinds, window hoods and shutters are to be at least 1.6m in height, at least 75 percent obscure, permanently fixed, made of durable material and restrict view in the direction of the overlooking into any adjoining property.

Page 1 of 2

Determination Advice Notes:

- 13. In regards to Condition 7, all storm water produced on the subject land shall be retained on site, by suitable means to the full satisfaction of the City. No further consideration shall be given to the disposal of storm water 'off site' without the submission of a geotechnical report from a qualified consultant. Should approval to dispose of storm water 'off site' be subsequently provided, detailed design drainage plans and associated calculations for the proposed storm water disposal shall be lodged together with the building permit application working drawings.
- 14. All new crossovers to lots are subject to a separate application to be approved by the City. All new crossovers shall be constructed in accordance with the City's Standard Crossover Specifications, which specify that the portion of the existing footpath traversing the proposed crossover (subject to the Footpath being in good condition as determined by the Infrastructure and Environment Services Directorate), must be retained The proposed crossover levels shall match into the existing footpath levels. Should the footpath not to be in satisfactory condition, it must be replaced with in-situ concrete panels in accordance with the City's specification for reinstatement of concrete paths.

5.4 OUTCOME OF ADVERTISING AND ADOPTION OF AMENDMENTS TO LOCAL PLANNING POLICY NO. 7.5.2 - SIGNS AND ADVERTISING

Attachments:1.Amended LPP 7.5.2 - Signs and Advertising (with tracked changes)
2.2.Amended LPP 7.5.2 - Signs and Advertising (clean version)
2.2.

RECOMMENDATION:

That Council PROCEEDS with Amendment No. 1 to Local Planning Policy No. 7.5.2 – Signs and Advertising with modifications, pursuant to Clause 5 of Schedule 2 of the *Planning and Development (Local Planning Schemes) Regulations 2015*, as shown at Attachment 2.

PURPOSE OF REPORT:

To consider the outcomes of community consultation on Amendment No. 1 to Local Planning Policy No. 7.5.2 – Signs and Advertising (LPP 7.5.2) and to determine whether to proceed with final adoption of the amended policy.

BACKGROUND:

<u>Local Planning Policy No. 7.5.2 – Signs and Advertising</u> (the Policy), was adopted by Council on 20 November 2001. Minor amendments were made on 30 August 2011 and 20 October 2020; a major review has not been undertaken since its adoption.

At its Ordinary Meeting of 20 October 2020, Council considered a Notice of Motion in relation to the Policy and resolved to:

'REQUESTS Administration to investigate the suitability of Billboard Signs in the City of Vincent, including through community engagement, and to undertake a review of Local Planning Policy No. 7.5.2 – Signs and Advertising incorporating the results of the investigation by December 2021.'

The current definition for billboards within the Policy is:

'A sign erected for the purpose of advertising products or services which are not being offered on a site on which the sign is erected'.

Billboards (third party advertising) is currently prohibited through the Policy, however there are some existing billboards located throughout the City that are subject to time limit approvals.

Preliminary community engagement on the Policy was undertaken for a period of 26 days from 12 May to 7 June 2021. The consultation resulted in 34 submissions. The following provides a summary of the responses:

- 25 respondents oppose and seven support third party advertising in Vincent;
- If third party advertising was allowed, most respondents stated it should be limited to community information or not for profits, with two submitters supporting other uses;
- 26 respondents had concerns and seven no concerns with large format hoarding signs;
- 23 respondents considered 50 percent window coverage was appropriate, with seven stating that less than 50 percent was appropriate and four stating more than 50 percent was appropriate;
- 32 respondents stated there should be controls on advertising of tobacco and alcohol related material and one stated there should not be any controls; and
- 26 respondents support limiting to the number of signs per tenancy and four stated there should not be a limit.

The outcome of the above consultation provided the basis for Administration to complete a review of the Policy. The amendment to LPP 7.5.2 includes the following modifications to the operative aspects:

- 1. Signs are limited to four per tenancy in most cases.
- 2. Window signs must maintain 70 percent visual transparency to ensure active frontages and passive surveillance can be achieved.

- 3. Community event and sponsorship signage is streamlined.
- 4. Billboards/third party advertising is not permitted. The draft amended Policy further clarifies that for existing billboards and third party advertising when temporary planning approvals expire, these should only be extended until end 2024, to allow the City's Local Planning Scheme (LPS2) to be amended to prohibit this signage completely.
- 5. On public land, promotion of alcohol, smoking or unhealthy foods will be prohibited.
- 6. On private land, smoking shops and bars will be limited to one sign per tenancy, solely advertising the business name.

DETAILS:

The amendment to LPP 7.5.2 underwent a 28 day formal consultation period between 13 February 2022 and 13 March 2022 including:

- Advertisement in a local newspaper;
- Display notice of the Amendment to LPP 7.5.2 in Council offices;
- Referral in writing to affected agencies;
- Referral in writing to previous submitters;
- Hand delivered postcards to businesses in the Town Centres; and
- Display on the City's website and Imagine Vincent consultation page.

The consultation resulted in no submissions or further modifications to Amendment to LPP 7.5.2 as a result of consultation.

Prohibiting Third Party Advertising and large format signs

During preliminary consultation in June 2021, the community expressed a desire for the City to limit the proliferation of advertising signs, particularly relating to third party advertising and large format signs. Of particular relevance, 25 respondents opposed and only seven were in favour of third party advertising; and 26 respondents had concerns with large format signs compared to seven having no concerns.

Objective 3 and 4 of the Amended to LPP 7.5.2 seeks to ensure that advertising signs within the City:

- ...3. Only relate to services and products available on the site on which the advertising sign is located;
 - 4. Do not result in a proliferation of advertisement;...'

Since its adoption in 2001, the Policy has supported the City's position to prohibited third party advertising/billboards. The amended LPP 7.5.2 seeks to prohibit third party advertising through the following policy provision:

3.1 New third party advertising, including time limited approvals, is prohibited in all zones.

To add further weight to the City's position, Administration investigated options to prohibit absolutely third party advertising/billboards in LPS2. During discussion with the Department of Planning, Lands and Heritage (the Department), Administration was advised that prohibiting third party advertising through LPS2 would be unlikely to be supported. The Department advised that a Local Planning Policy (LPP) was the best mechanism for controlling third party advertising/billboards, and further advised that an LPP could include guidance for the situations where the City had no option than to consider a large billboard sign.

In these instances, the amendment to LPP 7.5.2 seeks to minimise the size and impact of certain sign types. The following deemed to comply provisions would also apply if third party advertising were proposed:

- 10.3 Digital and Illuminated Signs
 Digital sign
 b) If located on a freestanding sign, have a maximum area of 2 square metres
- 10.5 Free Standing Signs
 - a) Be no taller than 2 metres from finished ground level to the top of the sign

Hoarding sign

a) Maximum area of 3 square metres

10.7 Roof Signs

Integrated roof sign	
Maximum height of roof	Maximum sign area
Less than 7.5m	3m2
7.5 to 9m	5m2
More than 9m	10m2

Provision 3.1 would provide sufficient guidance to reinforce the City's position on prohibiting third party advertising, and where the structure itself is concerned, there are specific criteria for each type of sign to guide decision making that seek to ensure that signs 'do not result in a proliferation of advertising' as per the policy objectives.

Prohibiting Time Limited Third Party Advertising/Billboards

The City has two existing time limited third party advertising/billboards previously approved that have been subject to a number of extensions:

- No. 374 Newcastle Street (cnr Newcastle and Fitzgerald Street) approved until December 2024; and
- Nos. 596 598 Newcastle Street (cnr Loftus and Newcastle Streets) approved until October 2029.

The City encourages redevelopment of these sites in line with the City's Local Planning Strategy, which sets a vision for these to become high density mixed use development. Permanent approval of these signs would be inconsistent with the Local Planning Strategy and the City's position in relation to third party advertising/billboard signage.

The two sites in question have some challenges with redevelopment, including access and lots size. Notwithstanding these constraints, there is the ability under the current planning framework to consider various site access options and/or the provision of no on-site parking bays within the context of their location, dependent on the concept proposed.

Initially the draft advertised version of the Amendment to LPP 7.5.2 proposed to address the continuation of these time limited approvals by setting an end date for the further extension of these approvals in line with the current LPS2 review:

3.2 Existing and previously approved third party advertising subject to a time limited approval beyond the completion of the first review of the Local Planning Scheme No. 2. Every effort should be made to cease use of the site for third party advertising and establish land uses in accordance with the vision set out for the site in the City of Vincent's Local Planning Strategy.

Given the advice received from the Department that limits the City's ability to prohibit third party advertising/ billboards in LPS2, Administration proposes to amend Clause 3.2 to remove reference to the review of the LPS2 and modify as follows:

3.2 Existing and previously approved third party advertising subject to a time limited approval will not be granted a further extension <u>beyond the approval date lapsing</u>. Every effort should be made to cease use of the site for third party advertising and establish land uses in accordance with the vision set out for the site in the City of Vincent's Local Planning Strategy.

The modified Clause 3.2 reinforces the City's position on third party advertising and clarifies the intent to see the subject sites redeveloped in line with the City's strategic direction. The existing time limited approvals are December 2024 and October 2029 respectively, giving landowners time to progress with selling, amalgamating or redeveloping the subject site prior to approvals lapsing.

CONSULTATION/ADVERTISING:

No further advertising is required unless major modifications are proposed.

LEGAL/POLICY:

The *Planning and Development Act 2005* and *Planning and Development (Local Planning Schemes) Regulations 2015* (the Regulations) provide the criteria for creating, amending, and reviewing Local Planning Policies. Development controls are contained within the City's Local Planning Scheme No. 2 and State Planning Policy No. 7.3 – Residential Design Codes of Western Australia.

RISK MANAGEMENT IMPLICATIONS

Low: It is low risk for Council to support the proposed Amendment to Local Planning Policy 7.5.2 – Signs and Advertising to deal with development relating to signs and advertising.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Thriving Places

We are recognised as a City that supports local and small business.

Sensitive Design

Our planning framework supports quality design, sustainable urban built form and is responsive to our community and local context.

Our built form character and heritage is protected and enhanced.

SUSTAINABILITY IMPLICATIONS:

This does not contribute to any environmental sustainability outcomes. This action/activity is environmentally neutral.

PUBLIC HEALTH IMPLICATIONS:

This is in keeping with the following priority health outcomes of the City's *Public Health Plan 2020-2025*: *Health Protection - Priority area 18. Alcohol and smoking*

Action 18.4 Advocate for reduced exposure to alcohol and tobacco advertising, marketing, promotion and sponsorship.

FINANCIAL/BUDGET IMPLICATIONS:

Nil.

PART 1 - PRELIMINARY

INTRODUCTION

Advertising signs are an important aspect of business identification. They help inform the community and promote goods and services. Well designed advertising signs can make a positive contribution to their setting. Equally, poorly designed, located or excessive advertising signs can detract from the visual appeal and safety of an area.

The City's *Strategic Community Plan 2018 - 2028* (SCP) sets out the strategic direction and priorities of the City of Vincent for the short to medium future. Key actions of the SCP include: encouraging business growth; improving design outcomes; responding to the local context and supporting local and small business.

The Signs and Advertising Policy seeks to ensure advertising signs throughout Vincent achieve the objectives of the SCP.

PURPOSE

The purpose of this policy is to provide clear direction on the design and application process for advertising signs within the City of Vincent.

OBJECTIVES

This policy seeks to ensure that advertising signs within the City:

- 1. Do not present a hazard or obstruction to pedestrians or motorists or the efficiency of a road or traffic control devices;
- 2. Are suitably designed and located to maintain and enhance the amenity of the surrounding locality;
- 3. Only relate to services and products available on the site on which the advertising sign is located;
- 4. Do not result in a proliferation of advertisement;
- 5. Do not detract from the heritage significance of a building or area;
- 6. Maintain active frontages and encourages pedestrian interaction;
- 7. Are incorporated and integrated with the buildings of other structures on the subject lot; and
- 8. Align with the City's Public Health Plan objective of advocating for reduced exposure to alcohol and tobacco advertising.

SCOPE

The provisions of this policy apply to advertising signs proposed within the City of Vincent, with the exception of:

- · Advertising signs that advertise a planning proposal for public comment;
- Advertising signs within public thoroughfares including directional street signs, on bus shelters or traffic and safety signs; and
- Election signs.

PART 2 - POLICY PROVISIONS

1. DEFINITIONS

1.1 GENERAL DEFINITIONS

Advertising sign or Sign means any word, letter, model, sign, placard, board, notice, device or

representation, whether illuminated or not, that is used wholly or partly for the purposes of advertising,

announcing or directing, and includes:

- a) any hoarding or similar structure used, or adapted for use, for the display of advertisements;
- b) any airborne device anchored to any land or building used for the display of advertising; and
- c) any vehicle or trailer or other similar object placed or located so as to serve the purpose of displaying advertising.

Heritage Place means a place listed on the City's Heritage List or State Register of Heritage Places or within a designated Heritage Area.

Signage Strategy means an approved signage and advertising plan to demonstrate the provision of a comprehensive and consistent strategy for signage applied across a given site.

Street frontage means a portion of any lot or building facing a public street or right of way.

Thoroughfare shall have the same meaning as 'Thoroughfare' in the Local Law relating to Local Government Property.

Unhealthy foods shall have the same meaning as 'discretionary foods' in the Australian Dietary Guidelines as outlined in the COAG Health Council's publication, National interim guide to reduce children's exposure to unhealthy food and drink promotion.

Verandah for the purpose of this Policy includes cantilever awnings, cantilever verandahs and balconies whether in, on or above a street, way, footpath, public place or private property.

1.2 SIGN SPECIFIC DEFINITIONS

Definitions of individual sign specific types are addressed in each relevant clause of this Policy.

2. EXEMPTION FROM DEVELOPMENT APPROVAL

The following signs are exempt from development approval unless otherwise specified as a prohibited sign type:

SIGN TYPE	REQUIREMENTS FOR EXEMPTION	
All signs with the exception of: a) free standing signs exceeding 2 metres in height to a maximum of 3 square metres; and b) above awning signs.	 a) If the sign is not located on the State Register of Heritage Places; and b) The sign fully complies with the General Standards of Clause 7 and Sign Specific Standards of Clauses 8, 9 and 10. 	е
Construction sign means an advertising sign that is erected at a building site for the duration of the construction or development period.	 a) Maintains 70 percent visual permeability to the site; and b) Only be in place for the duration of the construction works/ development period. 	
<i>Display home sign</i> means a sign advertising the display of a display home.	a) Only be in place for the duration of the display period.	
<i>Realestate sign</i> means sign advertising the sale or lease of the property.	a) Only be in place for the duration of the display or transaction period.	
<i>Eco sign</i> means a temporary sign that advertises a local community event within the City that is run or sponsored by the City of Vincent.	 a) Located on City owned land; and b) Does not include the promotion of smoking, alcohol or unhealthy food and drink. 	

Table 1. Exempt advertising signs

Exemptions are made pursuant to Clause 61(1)(h) of the *Planning and Development (Local Planning Schemes) Regulations 2015* (the Regulations).

Where a sign is exempt from the requirement for development approval under this Policy, a Building permit may still be required building permit may still be required in certain circumstances detailing the structural aspects of the sign. Please contact the City's Building Services team for advice regarding the need for a building permit prior to the installation of any new signage.

3. PROHIBITED ADVERTISING SIGNS

Third party advertising (previously known as billboards) means an advertisement on any building, sign or structure so as to be visible from a street, public place, public reserve or other land for the purpose of advertising products or services that are not being offered on a site on which the sign is erected.

Fly posting means advertising by means of posters placed on fences, walls, trees or other structure or objects.

Variable message sign means any portable advertising sign which can be programmed to display electronically generated messages.

Bill posting means the sticking of any bill or painting, stenciling or affixing any advertisement on any building, structure, fence, wall, hoarding, signpost, pole, blind or awning, so as to be visible to any person in a street, public place, public reserve or other land.

Above roof sign means an advertising sign which protrudes above the building line or forms part of a projection above the roof of a building.

- 3.1 New third party advertising, including time limited approvals, is prohibited in all zones.
- 3.2 Existing and previously approved third party advertising subject to a time limited approval-<u>beyond</u> the completion of the first review of the Local Planning Scheme No. 2 will not be granted a further <u>extension beyond the approval date lapsing</u>. Every effort should be made to cease use of the site for third party advertising and establish land uses in accordance with the vision set out for the site in the City of Vincent's Local Planning Strategy.
- 3.3 Fly posting is prohibited in all zones.
- 3.4 Variable message signs are prohibited in all zones with the exclusion of government agencies for the purpose of providing temporary community advice.

- 3.5 Bill posting is prohibited in all zones.
- 3.6 Above roof signs are prohibited in all zones.
- 3.7 Any premises where the primary purpose is the sale of tobacco or other smoking products shall be permitted no more than one sign, which shall be used for the purpose of identifying a registered business name, to a maximum of 2 square metres.

4. CALCULATING ADVERTISING SIGNS

- 4.1 To ensure consistency in determining the area of advertising signs, the sign area is to be calculated in accordance with the following:
 - a) If the background colour of the sign matches the colour of the wall on which it is located, the area of the sign shall be determined by measuring around the words of the sign;
 - b) If the background colour of the sign does not match the colour of the wall on which it is located, the area of the sign is to be measured around the borders of the entire sign.
- 4.2 In the case of a building with a corner truncation, the truncation is to be included in the primary street frontage calculation.
- 4.3 Where more than one sign definition is applicable, the provisions for all of the relevant sign types applies. For example an illuminated awning sign on a heritage place will be assessed against the standards for awning signs, illuminated signs and heritage places.

5. DEVELOPMENT APPROVAL REQUIREMENTS

- 5.1 In assessing applications for advertising signs the City will give due regard to all provisions of this policy.
- 5.2 A development application should include a Sign Strategy which incorporates the location, type, size and design of all existing and proposed advertising signs and elevation plans. Justification should be provided as to the need for the number and design of advertising signs proposed, having regard for the relevant policy provisions and objectives.

6. VARIATIONS

6.1 Where the General Standards and Sign Specific Standards are not met, the proposed signs will be assessed in accordance with the Objectives of the Policy.

7. GENERAL STANDARDS

The following General Standards apply to all advertising signs. Where the standards are not met, a development application is required.

- 7.1 Advertising signs only relate to services and products available on the site on which the advertising sign is located.
- 7.2 Advertising signs projecting from walls or under verandahs maintain a pedestrian clearance of 2.75 metres.

Acknowledging the local context produces a uniform and consistent series of advertising sign opportunities.

- 7.3 A maximum of four (4) different sign types in accordance with Clause 10 for sites in nonresidential zones, and a maximum as per Clause 9 for sites in the Residential zone.
- 7.4 Advertising signs do not extend outside the building envelope, obstruct major openings or project above the line of the parapet or building roof top.
- 7.5 Advertising signs do not protrude over Council property, including footpaths unless approval has been granted under the provisions of the *Local Government Property Local Law 2008*.

Consistency of signage location and scale provides continuity to the streetscape at pedestrian level.

Adhoc and inconsistent advertising sign additions contribute to sign proliferation and reduce visual amenity.

Advertising signs should maintain active frontages and visual surveillance into and out of the business.

8. ADVERTISING SIGNS ON HERITAGE PLACES

Where a sign is proposed on a heritage place, due regard is to be given to the Statement of Significance of the Place, the General Standards in Clause 7 and Sign Specific Standards in Clause 10. Where provisions are inconsistent with this clause, this clause prevails.

Deemed to comply:

Historic signs

Historic advertising signs contribute to the significance of a heritage place and should be retained and maintained.

New signs

Advertising signs on heritage places must:

- a) Not be located where they dominate, obscure or detract from any features which contributes to the significance of the heritage place;
- b) Not be located on any fabric that contributes to the heritage significance of the place as addressed in the statement of heritage significance;
- c) Be readily removable, having regard to the method of installation in order to ensure that the original material can be reinstated;
- Be of a scale that does not dominate, obstruct or detract from the heritage significance of a place; and
- e) Be of a color and style that is respectful to the heritage place, without the need to replicate historic advertising signs. Clearly distinguishable modern design that is respectful to the heritage place is preferred for new signs.

Signage does not detract from or obscure the significant elements of the heritage place.

9. ADVERTISING SIGNS IN THE RESIDENTIAL ZONE

The following provisions apply to advertising signs in Residential zones:

LAND USES	MAXIMUM NO. OF SIGNS	DEEMED TO COMPLY
Home Occupation	One per street frontage	 Maximum of 0.2 square metres in area; For the purpose of identifying the name of the dwelling or name/nature of the home occupation; Illuminated signs are not permitted.
Home Business	One per street frontage	 Maximum of 0.5 square metres in area; For the purpose of identifying the name/nature of the home business; Illuminated signs are not permitted.
Commercial	Two per tenancy	In accordance with the sign specific standards.

CITY OF VINCENT

LOCAL PLANNING POLICY : SIGNS AND ADVERTISING

10. SIGN SPECIFIC STANDARDS 10.1 AWNING AND VERANDAH SIGNS

Awning Fascia Sign means an advertising sign painted or attached to the fascia of an awning or verandah.

Deemed to comply:

- a) Maximum of one sign per 15 metres of street frontage containing a maximum of two elements such as a business name, logo or business slogan;
- b) If attached to an awning fascia, a maximum of 200 millimetres thick; and
- c) Be contained within the dimensions of the awning face.

Below Awning Sign means an advertising sign attached below an awning or verandah.

Deemed to comply:

- a) Maximum of one sign per 15 metres of street frontage;
- b) Maximum of 2.4 metres length and 500 millimetres height;
- c) Minimum clearance of 2.75 metres from the finished ground level to the lowest part of the sign; and
- d) Not project beyond the dimensions of the verandah.

Above awning sign means an advertising sign attached above or projecting from an awning or verandah.

Deemed to comply:

- a) Maximum of one sign per 15 metres of street frontage; and
- b) Maximum of 2 metres in length or 500 millimetres height.

waming agn

Below awning sign

10.2 PORTABLE SIGN

Portable sign means an advertising sign not permanently attached to the ground or to a structure, wall, fence or building.

Deemed to comply:

- a) Maximum of one sign per tenancy on a lot;
- b) Be located adjacent to the building to which the sign relates;
- c) Be displayed only during the normal business hours of the business to which the sign relates;
- d) Have no moving parts once the sign is in place;
- e) A maximum dimension of 1.2 square metres; and
- Portable signs located within thoroughfares shall meet the requirement of the City's Local Government Property Local Law.

Above awning sid

Portable sig

Awning fascia sign calculation

Sign 1	Sign 2
Sign 3	Sign 4

10.3 DIGITAL AND ILLUMINATED SIGNS

The following applies to all digital and illuminated signs in addition to the sign specific provisions below.

Deemed to comply:

- a) Not located within a Residential zone;
- b) Not cause a nuisance, by way of artificial light being emitted from the sign or light, or natural or artificial light being reflected from the sign or light; and
- c) Be certified by the installer to comply with all relevant provisions of ASNZS 4282:2019 Control of the obtrusive effects of outdoor lighting, prior to installation.

Digital sign means an advertising sign that incorporates images that may move or change, including fading in and out or scrolling, but does not include a variable message sign.

Deemed to comply:

- a) Not incorporate additional flashing or alternating lighting over and above the digital display;
- b) If located on a freestanding sign, have a maximum area of 2 square metres; and
- c) If located in a public facing window, be included in the calculation for window signs in Clause 7.2.12.

Illuminated sign means an advertising sign which is so arranged as to be capable of being lighted either from within or from without the sign by artificial light provided, or mainly provided for that purpose.

Deemed to comply:

- a) Not comprise flashing, intermittent or running lights that change more than once in any five minute period;
- b) Be turned off one hour after the close of business;
- c) Have a minimum clearance of 2.75 metres from finished ground level to the lowest part of the sign when under an awning; and
- d) Be maintained to operate as an illuminated sign.

10.4 FENCE SIGNS

Fence sign means an advertising sign which is attached to a fence.

No signage is permitted on fences, walls or other structures which do not form an integral part of the building. Signage may only be permitted on fences if:

- A tenancy is located on a district distributor; or
- A tenancy is located on a Heritage place and the installation of a sign on the building may result in physical damage to any significant fabric.

Deemed to comply:

- a) Maximum of one sign per tenancy, per street frontage of any one lot;
- b) Not exceed 20 percent in area of the portion of the fence on which it is located to a maximum of 5 square metres; and
- c) Maximum of 200 millimeters thick.

Illuminated below awning si

Illuminated awning fascia sign

Fence sign

10.5 FREE STANDING SIGNS

The following applies to the assessment of all freestanding signs in addition to the specific provisions for hoarding, pylon and monolith signs.

Deemed to comply:

Freestanding signs are to:

- a) Be no taller than 2 metres from finished ground level to the top of the sign; and
- b) Be the only freestanding sign permitted per lot frontage. Where more than one business tenancy exits within the lot, be designed to accommodation the advertising for all tenancies.

Hoarding sign means a freestanding sign which is affixed to one or more supports with its largest dimension being horizontal.

Deemed to comply:

a) Maximum area of 3 square metres.

Monolith sign means a freestanding vertical sign installed in a column or totem. The sign may consist of a number of modules and is generally uniform in shape from ground level to the top of the sign.

Deemed to comply:

- a) Maximum of 2 metres in width; and
- b) Maximum of 3 square metres.

Pylon sign means a freestanding sign which is affixed to supports with its largest dimension being vertical.

Deemed to comply:

- a) Minimum clearance of 2.75 metres from the finished ground level;
- b) Maximum 2.5 metres vertically or horizontally across the sign face:
- c) Maximum area of 4 square metres for a single tenancy, or 12 square metres for multiple tenancies; and
- Comprise a maximum of two supports with a total width not exceeding 3 metres.

Pylon sign

10.6 PROJECTING SIGNS

Projecting sign means a sign that extends out from the wall of the building that it is attached to, and includes a sign suspended (hanging) from a bracket attached to the wall.

Deemed to comply:

- a) Maximum of one sign per street frontage;
- b) Have a minimum clearance of 2.75 metres from the finished ground level to the lowest part of the sign;
- Not project more than 1 metre from the wall and not exceed 4 square metres in area; and
- d) Not project above the top of the wall to which it is attached.

10.7 ROOF SIGNS

Integrated roof sign means an advertising sign which is integrated into the roof or roof fascia of a building.

Deemed to comply:

- a) Maximum of one sign per street frontage;
- b) Be affixed parallel to the fascia or portion of the building to which it is attached;
- Not project more than 300 millimetres from the portion of the building to which it is attached; and c) d) Not be within 500 millimetres of either end of the fascia, roof or parapet of the building to which it is attached.

Roof signs are to comply with the following table:

Maximum height of roof	Maximum sign area
Less than 7.5m	3m ²
7.5 to 9m	5m ²
More than 9m	10m ²

Roof signs are affixed parallel to the fascia but do not project above the roof line.

Roof signs are incorporated into the roof design of the building on which they are attached.

10.8 TETHERED SIGNS

Tethered sign means an advertisement device which is suspended from or tethered to any structure (with or without supporting framework) and made of paper, plastic, fabric or similar materials. The term includes inflatables, bunting, banners, flags and kites.

Deemed to comply:

- a) Permitted to be displayed for a maximum aggregate of 30 days in any calender year;
- Have a maximum area of 2 square metres; b)
- c) A maximum of 6 metres from the finished ground level to the highest part of the sign; and
- d) Limited to a maximum of one sign per street frontage on any one lot.

Tethered sign

10.9 WALL SIGNS

Wall sign means a sign which is affixed or painted onto the external part of a building wall but does not project more than 300mm from the wall or above the lowest point of the eaves or ceiling of the building.

Deemed to comply:

- a) Maximum of one sign per 15 metres of street frontage, not exceeding 10 percent of the wall area to a maximum of 10 metres square; and
- b) For wall signs on Residential zoned land, not exceeding 1.2 square metres in area.

Additional information:

- The wall area includes the aggregate of walls on each street frontage (per 15 metres), including the
 portion of the wall from ground level to the top of the building wall, but does not include windows/
 openings or the roof area.
- In the case of a building with a corner truncation or multiple articulations, the total coverage of signage is to be calculated on the primary facade.

Wall signs can add visual interest when creatively designed or incorporated into the design of the building.

10.10 WINDOW SIGN

Window sign means a sign which is affixed to either the interior or exterior of a glazed area of a window or alternately suspended from the ceiling, or which is located in the interior of a glazed area of a window setback up to 0.4 metres behind a window, with the sole purpose of advertising onto the street.

Deemed to comply:

- a) Window signs do not exceed:
 - i) a maximum of 30% of the glazed area; or
 - ii) a maximum of 10 square metres:

of the aggregate of a tenancy's ground and first floor level windows which are visible from the street or a public area, whichever is the lesser.

Excessive window coverage that reduces active frontages will generally not be permitted.

10.11 COMMUNITY EVENT SIGNS

Community event sign means a temporary sign that advertises a local community event within the City such as a fete, hawkers market, festival or holiday program.

Deemed to comply:

- a) Maximum of one sign per frontage on a lot;
- Advertises a local community event with free admission and open to the general public or a free service that is located or accessible within the City;
- c) Does not exceed 1.5 metres in height and does not exceed an area of 3 square metres;
- d) Is not attached to a tree or any existing street furniture;
- e) Is not illuminated or made of reflective material;
- f) Relates only to the event or service, with the exception that a third party sponsoring the event may include a logo or similar acknowledgment on the sign, provided it does not occupy more than 20% of the sign's face area;
- g) Is not exhibited for more than a period of 30 days; and
- h) Is removed within 24 hours after the date of the event or, if advertising a service, immediately on the conclusion of the 30 day period.

10.12 SPONSORSHIP SIGNS

Sponsorship sign means an advertising sign which incorporates third party advertising for a financial or other benefit to a sporting or community club, but is not directly related to the functions or activities of the club.

Deemed to comply:

- a) Located on land reserved as Public Open Space or identified as sports space in the City's Public Open Space Strategy;
- b) For the purpose of identification and sponsorship associated with the local club;
- c) Sign content must face into the reserve or viewing areas, rather than out onto the street and other public spaces.;
- d) Not be illuminated or digital;
- e) Signage is removed at the conclusion of the sponsorship agreement; and
- f) Complies with the relevant provisions of the club's lease agreement with the City.

PART 1 - PRELIMINARY

INTRODUCTION

Advertising signs are an important aspect of business identification. They help inform the community and promote goods and services. Well designed advertising signs can make a positive contribution to their setting. Equally, poorly designed, located or excessive advertising signs can detract from the visual appeal and safety of an area.

The City's *Strategic Community Plan 2018 - 2028* (SCP) sets out the strategic direction and priorities of the City of Vincent for the short to medium future. Key actions of the SCP include: encouraging business growth; improving design outcomes; responding to the local context and supporting local and small business.

The Signs and Advertising Policy seeks to ensure advertising signs throughout Vincent achieve the objectives of the SCP.

PURPOSE

The purpose of this policy is to provide clear direction on the design and application process for advertising signs within the City of Vincent.

OBJECTIVES

This policy seeks to ensure that advertising signs within the City:

- 1. Do not present a hazard or obstruction to pedestrians or motorists or the efficiency of a road or traffic control devices;
- 2. Are suitably designed and located to maintain and enhance the amenity of the surrounding locality;
- 3. Only relate to services and products available on the site on which the advertising sign is located;
- 4. Do not result in a proliferation of advertisement;
- 5. Do not detract from the heritage significance of a building or area;
- 6. Maintain active frontages and encourages pedestrian interaction;
- 7. Are incorporated and integrated with the buildings of other structures on the subject lot; and
- 8. Align with the City's Public Health Plan objective of advocating for reduced exposure to alcohol and tobacco advertising.

SCOPE

The provisions of this policy apply to advertising signs proposed within the City of Vincent, with the exception of:

- · Advertising signs that advertise a planning proposal for public comment;
- Advertising signs within public thoroughfares including directional street signs, on bus shelters or traffic and safety signs; and
- Election signs.

LOCAL PLANNING POLICY : SIGNS AND ADVERTISING **PART 2 - POLICY PROVISIONS**

1. DEFINITIONS

1.1 GENERAL DEFINITIONS

Advertising sign or Sign means any word, letter, model, sign, placard, board, notice, device or

representation, whether illuminated or not, that is used wholly or partly for the purposes of advertising,

announcing or directing, and includes:

- a) any hoarding or similar structure used, or adapted for use, for the display of advertisements;
- b) any airborne device anchored to any land or building used for the display of advertising; and
- c) any vehicle or trailer or other similar object placed or located so as to serve the purpose of displaying advertising.

Heritage Place means a place listed on the City's Heritage List or State Register of Heritage Places or within a designated Heritage Area.

Signage Strategy means an approved signage and advertising plan to demonstrate the provision of a comprehensive and consistent strategy for signage applied across a given site.

Street frontage means a portion of any lot or building facing a public street or right of way.

Thoroughfare shall have the same meaning as 'Thoroughfare' in the Local Law relating to Local Government Property.

Unhealthy foods shall have the same meaning as 'discretionary foods' in the Australian Dietary Guidelines as outlined in the COAG Health Council's publication, National interim guide to reduce children's exposure to unhealthy food and drink promotion.

Verandah for the purpose of this Policy includes cantilever awnings, cantilever verandahs and balconies whether in, on or above a street, way, footpath, public place or private property.

1.2 SIGN SPECIFIC DEFINITIONS

Definitions of individual sign specific types are addressed in each relevant clause of this Policy.

2. EXEMPTION FROM DEVELOPMENT APPROVAL

The following signs are exempt from development approval unless otherwise specified as a prohibited sign type:

SIGN TYPE	R	EQUIREMENTS FOR EXEMPTION
All signs with the exception of: a) free standing signs exceeding 2 metres in height to a maximum of 3 square metres; and b) above awning signs.	a) b)	If the sign is not located on the State Register of Heritage Places; and The sign fully complies with the General Standards of Clause 7 and Sign Specific Standards of Clauses 8, 9 and 10.
Construction sign means an advertising sign that is erected at a building site for the duration of the construction or development period.	a) b)	Maintains 70 percent visual permeability to the site; and Only be in place for the duration of the construction works/ development period.
<i>Display home sign</i> means a sign advertising the display of a display home.	a)	Only be in place for the duration of the display period.
<i>Realestate sign</i> means sign advertising the sale or lease of the property.	a)	Only be in place for the duration of the display or transaction period.
<i>Eco sign</i> means a temporary sign that advertises a local community event within the City that is run or sponsored by the City of Vincent.	a) b)	Located on City owned land; and Does not include the promotion of smoking, alcohol or unhealthy food and drink.

Table 1. Exempt advertising signs

Example : Exemption from Development Approval

- The signs fully comply with the General Standards of Clause 7 and Sign Specific Standards of Clause 10; and
- 2. The signs are not located on a State Heritage place.

* a) Window signs are calculated as one (1) sign covering no more than 30% of the combined window area in accordance with Clause 10.10; and b) Awning fascia sign is calculated as one sign per street frontage in accordance with Clause 10.1.

Exemptions are made pursuant to Clause 61(1)(h) of the *Planning and Development (Local Planning Schemes) Regulations 2015* (the Regulations).

Where a sign is exempt from the requirement for development approval under this Policy, a Building permit may still be required building permit may still be required in certain circumstances detailing the structural aspects of the sign. Please contact the City's Building Services team for advice regarding the need for a building permit prior to the installation of any new signage.

3. PROHIBITED ADVERTISING SIGNS

Third party advertising (previously known as billboards) means an advertisement on any building, sign or structure so as to be visible from a street, public place, public reserve or other land for the purpose of advertising products or services that are not being offered on a site on which the sign is erected.

Fly posting means advertising by means of posters placed on fences, walls, trees or other structure or objects.

Variable message sign means any portable advertising sign which can be programmed to display electronically generated messages.

Bill posting means the sticking of any bill or painting, stenciling or affixing any advertisement on any building, structure, fence, wall, hoarding, signpost, pole, blind or awning, so as to be visible to any person in a street, public place, public reserve or other land.

Above roof sign means an advertising sign which protrudes above the building line or forms part of a projection above the roof of a building.

- 3.1 New third party advertising, including time limited approvals, is prohibited in all zones.
- 3.2 Existing and previously approved third party advertising subject to a time limited approval will not be granted a further extension beyond the approval date lapsing. Every effort should be made to cease use of the site for third party advertising and establish land uses in accordance with the vision set out for the site in the City of Vincent's Local Planning Strategy.
- 3.3 Fly posting is prohibited in all zones.
- 3.4 Variable message signs are prohibited in all zones with the exclusion of government agencies for the purpose of providing temporary community advice.

- 3.5 Bill posting is prohibited in all zones.
- 3.6 Above roof signs are prohibited in all zones.
- 3.7 Any premises where the primary purpose is the sale of tobacco or other smoking products shall be permitted no more than one sign, which shall be used for the purpose of identifying a registered business name, to a maximum of 2 square metres.

4. CALCULATING ADVERTISING SIGNS

- 4.1 To ensure consistency in determining the area of advertising signs, the sign area is to be calculated in accordance with the following:
 - a) If the background colour of the sign matches the colour of the wall on which it is located, the area of the sign shall be determined by measuring around the words of the sign; and
 - b) If the background colour of the sign does not match the colour of the wall on which it is located, the area of the sign is to be measured around the borders of the entire sign.
- 4.2 In the case of a building with a corner truncation, the truncation is to be included in the primary street frontage calculation.
- 4.3 Where more than one sign definition is applicable, the provisions for all of the relevant sign types applies. For example an illuminated awning sign on a heritage place will be assessed against the standards for awning signs, illuminated signs and heritage places.

5. DEVELOPMENT APPROVAL REQUIREMENTS

- 5.1 In assessing applications for advertising signs the City will give due regard to all provisions of this policy.
- 5.2 A development application should include a Sign Strategy which incorporates the location, type, size and design of all existing and proposed advertising signs and elevation plans. Justification should be provided as to the need for the number and design of advertising signs proposed, having regard for the relevant policy provisions and objectives.

6. VARIATIONS

6.1 Where the General Standards and Sign Specific Standards are not met, the proposed signs will be assessed in accordance with the Objectives of the Policy.

7. GENERAL STANDARDS

The following General Standards apply to all advertising signs. Where the standards are not met, a development application is required.

- 7.1 Advertising signs only relate to services and products available on the site on which the advertising sign is located.
- 7.2 Advertising signs projecting from walls or under verandahs maintain a pedestrian clearance of 2.75 metres.

Acknowledging the local context produces a uniform and consistent series of advertising sign opportunities.

- 7.3 A maximum of four (4) different sign types in accordance with Clause 10 for sites in nonresidential zones, and a maximum as per Clause 9 for sites in the Residential zone.
- 7.4 Advertising signs do not extend outside the building envelope, obstruct major openings or project above the line of the parapet or building roof top.
- 7.5 Advertising signs do not protrude over Council property, including footpaths unless approval has been granted under the provisions of the *Local Government Property Local Law 2008*.

Consistency of signage location and scale provides continuity to the streetscape at pedestrian level.

Adhoc and inconsistent advertising sign additions contribute to sign proliferation and reduce visual amenity.

Advertising signs should maintain active frontages and visual surveillance into and out of the business.

8. ADVERTISING SIGNS ON HERITAGE PLACES

Where a sign is proposed on a heritage place, due regard is to be given to the Statement of Significance of the Place, the General Standards in Clause 7 and Sign Specific Standards in Clause 10. Where provisions are inconsistent with this clause, this clause prevails.

Deemed to comply:

Historic signs

Historic advertising signs contribute to the significance of a heritage place and should be retained and maintained.

New signs

Advertising signs on heritage places must:

- a) Not be located where they dominate, obscure or detract from any features which contributes to the significance of the heritage place;
- b) Not be located on any fabric that contributes to the heritage significance of the place as addressed in the statement of heritage significance;
- c) Be readily removable, having regard to the method of installation in order to ensure that the original material can be reinstated;
- Be of a scale that does not dominate, obstruct or detract from the heritage significance of a place; and
- e) Be of a color and style that is respectful to the heritage place, without the need to replicate historic advertising signs. Clearly distinguishable modern design that is respectful to the heritage place is preferred for new signs.

Signage does not detract from or obscure the significant elements of the heritage place.

9. ADVERTISING SIGNS IN THE RESIDENTIAL ZONE

The following provisions apply to advertising signs in Residential zones:

LAND USES	MAXIMUM NO. OF SIGNS	DEEMED TO COMPLY
Home Occupation	One per street frontage	 Maximum of 0.2 square metres in area; For the purpose of identifying the name of the dwelling or name/nature of the home occupation; Illuminated signs are not permitted.
Home Business	One per street frontage	 Maximum of 0.5 square metres in area; For the purpose of identifying the name/nature of the home business; Illuminated signs are not permitted.
Commercial	Two per tenancy	In accordance with the sign specific standards.

10. SIGN SPECIFIC STANDARDS

10.1 AWNING AND VERANDAH SIGNS

Awning Fascia Sign means an advertising sign painted or attached to the fascia of an awning or verandah.

Deemed to comply:

- a) Maximum of one sign per 15 metres of street frontage containing a maximum of two elements such as a business name, logo or business slogan;
- b) If attached to an awning fascia, a maximum of 200 millimetres thick; and
- c) Be contained within the dimensions of the awning face.

Below Awning Sign means an advertising sign attached below an awning or verandah.

Deemed to comply:

- a) Maximum of one sign per 15 metres of street frontage;
- b) Maximum of 2.4 metres length and 500 millimetres height;
- c) Minimum clearance of 2.75 metres from the finished ground level to the lowest part of the sign; and
- d) Not project beyond the dimensions of the verandah.

Above awning sign means an advertising sign attached above or projecting from an awning or verandah.

Deemed to comply:

- Maximum of one sign per 15 metres of street frontage; and
- b) Maximum of 2 metres in length or 500 millimetres height.

Sign 2

Sign 4

Awning fascia sign calculation

Sign 1

Sign 3

10.2 PORTABLE SIGN

Portable sign means an advertising sign not permanently attached to the ground or to a structure, wall, fence or building.

Deemed to comply:

- a) Maximum of one sign per tenancy on a lot;
- b) Be located adjacent to the building to which the sign relates;
- c) Be displayed only during the normal business hours of the business to which the sign relates;
- d) Have no moving parts once the sign is in place;
- e) A maximum dimension of 1.2 square metres; and
- Portable signs located within thoroughfares shall meet the requirement of the City's Local Government Property Local Law.

10.3 DIGITAL AND ILLUMINATED SIGNS

The following applies to all digital and illuminated signs in addition to the sign specific provisions below.

Deemed to comply:

a) Not located within a Residential zone;

- b) Not cause a nuisance, by way of artificial light being emitted from the sign or light, or natural or artificial light being reflected from the sign or light; and
- c) Be certified by the installer to comply with all relevant provisions of ASNZS 4282:2019 Control of the obtrusive effects of outdoor lighting, prior to installation.

Digital sign means an advertising sign that incorporates images that may move or change, including fading in and out or scrolling, but does not include a variable message sign.

Deemed to comply:

- a) Not incorporate additional flashing or alternating lighting over and above the digital display;
- b) If located on a freestanding sign, have a maximum area of 2 square metres; and
- c) If located in a public facing window, be included in the calculation for window signs in Clause 7.2.12.

Illuminated sign means an advertising sign which is so arranged as to be capable of being lighted either from within or from without the sign by artificial light provided, or mainly provided for that purpose.

Deemed to comply:

- a) Not comprise flashing, intermittent or running lights that change more than once in any five minute period;
- b) Be turned off one hour after the close of business;
- c) Have a minimum clearance of 2.75 metres from finished ground level to the lowest part of the sign when under an awning; and
- d) Be maintained to operate as an illuminated sign.

10.4 FENCE SIGNS

Fence sign means an advertising sign which is attached to a fence.

No signage is permitted on fences, walls or other structures which do not form an integral part of the building. Signage may only be permitted on fences if:

- A tenancy is located on a district distributor; or
- A tenancy is located on a Heritage place and the installation of a sign on the building may result in physical damage to any significant fabric.

Deemed to comply:

- Maximum of one sign per tenancy, per street frontage of any one lot;
- b) Not exceed 20 percent in area of the portion of the fence on which it is located to a maximum of 5 square metres; and
- c) Maximum of 200 millimeters thick.

Illuminated below awning sigi

Fence sign

LOCAL PLANNING POLICY : SIGNS AND ADVERTISING

10.5 FREE STANDING SIGNS

The following applies to the assessment of all freestanding signs in addition to the specific provisions for hoarding, pylon and monolith signs.

Deemed to comply:

Freestanding signs are to:

- a) Be no taller than 2 metres from finished ground level to the top of the sign; and
- b) Be the only freestanding sign permitted per lot frontage. Where more than one business tenancy exits within the lot, be designed to accommodation the advertising for all tenancies.

Hoarding sign means a freestanding sign which is affixed to one or more supports with its largest dimension being horizontal.

Deemed to comply:

a) Maximum area of 3 square metres.

Monolith sign means a freestanding vertical sign installed in a column or totem. The sign may consist of a number of modules and is generally uniform in shape from ground level to the top of the sign.

Deemed to comply:

- a) Maximum of 2 metres in width; and
- b) Maximum of 3 square metres.

Pylon sign means a freestanding sign which is affixed to supports with its largest dimension being vertical.

Deemed to comply:

- a) Minimum clearance of 2.75 metres from the finished ground level;
- b) Maximum 2.5 metres vertically or horizontally across the sign face;
- c) Maximum area of 4 square metres for a single tenancy, or 12 square metres for multiple tenancies; and
- d) Comprise a maximum of two supports with a total width not exceeding 3 metres.

10.6 PROJECTING SIGNS

Projecting sign means a sign that extends out from the wall of the building that it is attached to, and includes a sign suspended (hanging) from a bracket attached to the wall.

Deemed to comply:

- a) Maximum of one sign per street frontage;
- b) Have a minimum clearance of 2.75 metres from the finished ground level to the lowest part of the sign;
- c) Not project more than 1 metre from the wall and not exceed 4 square metres in area; and
- d) Not project above the top of the wall to which it is attached.

Monolyth sign

Pylon sign

10.7 ROOF SIGNS

Integrated roof sign means an advertising sign which is integrated into the roof or roof fascia of a building.

Deemed to comply:

- a) Maximum of one sign per street frontage;
- b) Be affixed parallel to the fascia or portion of the building to which it is attached;
- c) Not project more than 300 millimetres from the portion of the building to which it is attached; and
- d) Not be within 500 millimetres of either end of the fascia, roof or parapet of the building to which it is attached.

Roof signs are to comply with the following table:

Maximum height of roof	Maximum sign area
Less than 7.5m	3 m ²
7.5 to 9m	5m ²
More than 9m	10m ²

Roof signs are incorporated into the roof design of the building on which they are attached.

not project above the roof line.

Tethered sign means an advertisement device which is suspended from or tethered to any structure (with or without supporting framework) and made of paper, plastic, fabric or similar materials. The term includes inflatables, bunting, banners, flags and kites.

Deemed to comply:

10.8 TETHERED SIGNS

- Permitted to be displayed for a maximum aggregate of 30 days in any calender year;
- b) Have a maximum area of 2 square metres;
- c) A maximum of 6 metres from the finished ground level to the highest part of the sign; and
- d) Limited to a maximum of one sign per street frontage on any one lot.

Tethered sign

10.9 WALL SIGNS

Wall sign means a sign which is affixed or painted onto the external part of a building wall but does not project more than 300mm from the wall or above the lowest point of the eaves or ceiling of the building.

Deemed to comply:

- a) Maximum of one sign per 15 metres of street frontage, not exceeding 10 percent of the wall area to a maximum of 10 metres square; and
- b) For wall signs on Residential zoned land, not exceeding 1.2 square metres in area.

Additional information:

- The wall area includes the aggregate of walls on each street frontage (per 15 metres), including the
 portion of the wall from ground level to the top of the building wall, but does not include windows/
 openings or the roof area.
- In the case of a building with a corner truncation or multiple articulations, the total coverage of signage is to be calculated on the primary facade.

Wall signs can add visual interest when creatively designed or incorporated into the design of the building.

10.10 WINDOW SIGN

Window sign means a sign which is affixed to either the interior or exterior of a glazed area of a window or alternately suspended from the ceiling, or which is located in the interior of a glazed area of a window setback up to 0.4 metres behind a window, with the sole purpose of advertising onto the street.

Deemed to comply:

- a) Window signs do not exceed:
 - i) a maximum of 30% of the glazed area; or
 - ii) a maximum of 10 square metres:
 - of the aggregate of a tenancy's ground and first floor level windows which are visible from the street or a public area, whichever is the lesser.

Windows free of excessive signage maintains active frontages and visual surveillance.

Excessive window coverage that reduces active frontages will generally not be permitted.

10.11 COMMUNITY EVENT SIGNS

Community event sign means a temporary sign that advertises a local community event within the City such as a fete, hawkers market, festival or holiday program.

Deemed to comply:

- a) Maximum of one sign per frontage on a lot;
- b) Advertises a local community event with free admission and open to the general public or a free service that is located or accessible within the City;
- c) Does not exceed 1.5 metres in height and does not exceed an area of 3 square metres;
- d) Is not attached to a tree or any existing street furniture;
- e) Is not illuminated or made of reflective material;
- Relates only to the event or service, with the exception that a third party sponsoring the event may include a logo or similar acknowledgment on the sign, provided it does not occupy more than 20% of the sign's face area;
- g) Is not exhibited for more than a period of 30 days; and
- h) Is removed within 24 hours after the date of the event or, if advertising a service, immediately on the conclusion of the 30 day period.

10.12 SPONSORSHIP SIGNS

Sponsorship sign means an advertising sign which incorporates third party advertising for a financial or other benefit to a sporting or community club, but is not directly related to the functions or activities of the club.

Deemed to comply:

- a) Located on land reserved as Public Open Space or identified as sports space in the City's Public Open Space Strategy;
- b) For the purpose of identification and sponsorship associated with the local club;
- c) Sign content must face into the reserve or viewing areas, rather than out onto the street and other public spaces.;
- d) Not be illuminated or digital;
- e) Signage is removed at the conclusion of the sponsorship agreement; and
- f) Complies with the relevant provisions of the club's lease agreement with the City.

5.5 OUTCOME OF ADVERTISING AND ADOPTION OF AMENDMENTS TO LOCAL PLANNING POLICY NO. 7.5.3 - EDUCATION AND CARE SERVICES

Attachments:

Local Planning Policy: Child Care and Family Day Care 🕹 🛣 Response to Submission 🖟 🖀

RECOMMENDATION:

That Council PROCEEDS with Amendment 2 to Local Planning Policy: Child Care and Family Day Care, pursuant to Clause 5 of Schedule 2 of the *Planning and Development (Local Planning Schemes) Regulations 2015* as at Attachment 1.

PURPOSE OF REPORT:

To consider the outcomes of community consultation on Amendment No. 2 to Local Planning Policy: Child Care and Family Day Care and to determine whether to proceed with the amended policy.

BACKGROUND:

At its <u>8 March 2022 Meeting</u>, Council approved conducting community consultation of its intention to amend the Education and Care Services Policy (Policy).

The advertised draft Policy included the following changes:

- 1. Retitled policy to Child Care and Family Day Care Policy.
- 2. Improved objectives.
- 3. Updated definitions to distinguish between 'Centre-Based Child Care Services' and 'Family Day Care Services'.
- 4. Deleted provisions relating to other legislation or those that are not planning considerations.
- 5. New provisions relating to:
 - Building design (Clause 1.1)
 - Suitable locations for Centre-Based Child Care Services (Clause 3.1 and 3.2)
 - Car parking and vehicle access (Clause 3.4)
- 6. Amended existing provisions relating to:
 - Fencing and security (Clause 1.2)
 - Hours of operation (Clause 1.5)
 - External playing space (Clause 3.3)
 - Submission requirements (Clause 4).

In accordance with the City's <u>Community and Stakeholder Engagement Policy</u>, community consultation was undertaken between 16 March and 9 May 2022, which is in excess of the 21 days required.

The draft Policy was advertised on the City of Vincent website, social media channels and through the following public notices:

- Perth Voice 26 March 2022; and
- notice exhibited at the City's Administration and Library and Local History Centre.

An email was sent to the group of stakeholders whose feedback was sought as part of the review process. These stakeholders included education and care service operators within the City of Vincent, applicants who had lodged a development application in 2020 and 2021, and a selection of community members who had provided a submission to the City in relation to a development application relating to an education or child care service.

DETAILS:

Administration received one submission during the community consultation period, included at **Attachment 2**. This submission related to a previous development where Main Roads WA did not allow access to be granted from Charles Street. The Policy position is that access should be split over multiple frontages if possible, noting that advice from Main Roads WA or the Department of Planning, Lands and Heritage may prevail, as it did in this case.

No substantive modifications to the advertised Policy are recommended. Clause 4e includes a minor modification to clarify that the noise impact assessment will be "as determined by the City". The final version of the Policy is included at **Attachment 1**.

CONSULTATION/ADVERTISING:

No further consultation is required.

LEGAL/POLICY:

The *Planning and Development Act 2005* and *Planning and Development (Local Planning Schemes) Regulations 2015* provide the criteria for creating, amending, and reviewing Local Planning Policies.

RISK MANAGEMENT IMPLICATIONS:

Low: Adopting the proposed policy is low risk.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's Strategic Community Plan 2018-2028:

Sensitive Design

Our planning framework supports quality design, sustainable urban built form and is responsive to our community and local context.

Innovative and Accountable

We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATIONS:

This does not contribute to any environmental sustainability outcomes. This action/activity is environmentally neutral.

PUBLIC HEALTH IMPLICATIONS:

This does not contribute to any public health outcomes in the City's Public Health Plan 2020-2025.

FINANCIAL/BUDGET IMPLICATIONS:

There are no financial implications of adopting this Policy.

LOCAL PLANNING POLICY: Child Care and Family Day Care

PRELIMINARY

INTRODUCTION

The National Quality Framework (NQF) regulates early learning and school age care in Australia and seeks to improve education and care across long day care, family day care, preschool/kindergarten, and outside school hours care services. The NQF is established through an applied laws system and consists of the *Education and Care Services National Law (WA) Act 2012* and the *Education and Care Services National Regulations 2012*.

The Education and Care Services National Law (WA) Act 2012 and Education and Care Services National Regulations 2012 identifies two types of childcare services. These are Family Day Care Services and Centre-Based Child Care Services.

PURPOSE

The purpose of this policy is to provide clear direction on the requirements for education and care services within the City of Vincent.

OBJECTIVE

This Policy seeks to ensure that:

- Centre-Based Child Care Services are adjacent to and complement other non-residential land uses, and are located so as to avoid non-residential development encroaching upon areas which are residential in nature and resulting in adverse impacts.
- Noise-generating activities such as outdoor play areas, vehicle access ways, car parking areas and any
 plant and equipment is located away from noise-sensitive land uses (such as residential dwellings).
- The privacy of adjoining properties and the child care premise is protected through sensitive design.
- Sites are designed to minimise the impact of traffic associated with Centre-Based Child Care premises on the function and safety of the local road network.
- Adequate parking supply is provided that is functional and protects the safety of drivers and pedestrians.
- Buildings are designed to achieve high quality design and respond to the surrounding context, while providing a safe environment that meets the needs of its users.
- Legibility, functionality, and wayfinding are considered in the overall design of the development.

Page | 1 of 6

LOCAL PLANNING POLICY: CHILD CARE AND FAMILY DAY CARE scope

The provisions of this policy apply to all education and care service premises within the City of Vincent. Where a development application does not satisfy the policy provisions, the proposal is to be assessed against the objectives of this Policy.

This Policy prevails over all other planning policies, excluding the City's Heritage Policies.

POLICY PROVISIONS

DEFINITIONS

Centre-Based Child Care Services means an '*Education and Care Service*' other than a Family Day Care Service.

Note: Child Care Premises, as defined within the City's Local Planning Scheme No. 2, has the same meaning as Centre-Based Child Care Services.

Education and Care Service means any service providing or intended to provide education and care on a regular basis to children under 13 years of age other than those services listed under Schedule – Education and Care Services National Law, Part 1, Section 5 (1) of the *Education and Care Services National Law* (WA) Act 2012.

Note 1: This term includes services such as centre-based child care and afterschool care.

Note 2: The exclusions include schools, kindergarten, personal arrangements, instructional activities (i.e., sport, dance, music, religion, etc), hospital / medical / therapeutical care services, child protection law, and disability services. Creches, which are primarily ad hoc or casual care are also excluded.

Family Day Care Service means an education and care service that —

(a) is delivered through the use of 2 or more educators to provide education and care to children; and(b) operates from 2 or more residences;

Note 1: A Family Day Care Service that is an approved Family Day Care Service may provide education and care to children from a family day care residence or an approved family day care venue.

Note 2: No more than 7 children can be educated and cared for as part of a Family Day Care Service at a family day care residence or an approved family day care venue at any one time.

In addition to referring to the relevant requirements of the *Education and Care Services National Law (WA) Act 2012* and *Education and Care Services National Regulations 2012* referred to above, applicants are encouraged to refer to the Australian Children's Education and Care Quality Authority (<u>www.acecqa.gov.au</u>) or contact the relevant State Government regulatory authority (Department of Communities, Education and Care Regulatory Unit) for further information and licensing requirements for the establishment and operation of education and care services.

Page | 2 of 6

LOCAL PLANNING POLICY: CHILD CARE AND FAMILY DAY CARE

1. General Requirements For Education And Care Services

1.1 Building design

- a) The orientation and design of buildings, windows and balconies minimises direct overlooking of habitable rooms and private outdoor living areas of neighbouring properties.
- b) Buildings are designed to interact with the street and public spaces while maintaining privacy for its users.
- c) The entrance to the building shall be visible from the street and provided with clear wayfinding from all adjacent car parking areas.
- 1.2 Fencing and security

Any outdoor space used by children are to be enclosed by a fence or barrier that is a minimum of 1.2 metres in height and designed so that children cannot go through, over or under it.

1.3 Swimming pools

Swimming pools or outdoor spas are not permitted.

1.4 Signage

All signage requirements are to be in accordance with the City's Local Planning Policy - Signs and Advertising.

1.5 Hours of operation

Unless otherwise approved by the local government, with due regard to impact on amenity of surrounding properties, the hours of operation are restricted to between 7.00am to 7.00pm on weekdays and 7.00am to 6.00pm on Saturdays. Premises are not permitted to be operational on Sundays.

2. Family Day Care Services

2.1 Suitable types of dwellings

Family Day Care Services may be considered from a single house or grouped dwelling. Multiple dwellings for the purpose of a Family Day Care Service is not permitted.

2.2 External playing space

Family Day Care Services are to have a minimum external 'playing space' of 40 square metres, with a minimum dimension of 6 metres.

Page | 3 of 6

LOCAL PLANNING POLICY: Child Care and Family Day Care

2.3 Car parking

Family Day Care Services are not required to provide any additional car parking bays, other than what is required under the Residential Design Codes.

3. Centre-Based Child Care Services

3.1 Suitable locations

- Centre-Based Child Care Services are to be located with a Mixed Use, Local Centre, District Centre, Regional Centre, Centre or Commercial zone as identified by the City's Local Planning Scheme.
- b) Centre-Based Child Care Services are not permitted on ground floors or at grade level within Regional Centres, District Centres and Local Centres under the City's Local Planning Scheme.

3.2 Suitable locations in Residential zones

Centre-Based Child Care Services will be considered within a Residential zone under the City Local Planning Scheme where it is adjacent to other non-residential land uses.

- 3.3 External playing space
 - a) Centre-Based Child Care Services are to have a minimum external playing space area in accordance with the *Education and Care Services National Regulations* (as amended).
 - b) At least 30 percentage of the external playing space is to be provided as canopy coverage.
 - c) Landscaping is encouraged over artificial materials and should be integrated into the overall design of the space.
 - External playing spaces shall be on a safe location of the site (e.g. away from a major road), and away from any adjoining noise-sensitive land uses (e.g. residential dwellings).

3.4 Car parking and vehicle access

- All car parking and vehicular access requirements is to be in accordance with the City's Local Planning Policy – Non-Residential Development Parking Requirements.
- b) A drop off/ pickup area is required in accordance with the City's Local Planning Policy -Parking and Access and shall:
 - have convenient access to the entrance of the building
 - be located away from any adjoining noise-sensitive land uses

Page | 4 of 6

LOCAL PLANNING POLICY: Child Care and Family Day Care

be time limited to encourage turnover of vehicles during peak periods

The management of the drop off/ pick up area shall be demonstrated within the parking management plan (see Clause 4 - Submission Requirements).

- c) Dedicated and clearly defined pedestrian paths shall be provided from the street and onsite parking areas to the entrance of the building.
- d) Where dual access to a site is available, ingress to the site and egress from the site shall be provided from different streets to distribute the traffic volume over multiple streets.

Where it can be demonstrated that the amount of traffic would not affect the amenity of surrounding properties, vehicle access shall be from the secondary street.

Note: Advice from the Department of Planning, Lands and Heritage or Main Roads WA may prevail.

4. Submission Requirements

In addition to submission of the development application form, fees, and mandatory information detailed on the application checklist, applications for a Family Day Care Service or Centre-Based Child Care Services must also be accompanied by:

- a management plan outlining the number of children proposed, age group breakdown, days and hours of operation, staff requirement, and explanation of why the use is appropriate for its location;
- a detailed site plan to a scale sufficient to identify clearly the boundaries and all proposed structures, external play areas; landscaping, refuse storage area, car parking, pedestrian and vehicle access ways, crossover(s) and kerb locations, verge width and associated road infrastructure (e.g. light poles, traffic islands) for the full road reserve width for all roads abutting the application site;
- c) a traffic impact statement is required for applications proposing 10 100 children, and traffic impact assessment is required for applications proposing more than 100 children, in accordance with the Western Australian Planning Commission's *Transport Impact Assessment Guidelines*;
- d) a parking management plan in accordance with the City's Local Planning Policy relating to Non-Residential Development Parking Requirements;
- e) a noise impact assessment in accordance with the City's Local Planning Policy relating to Sound Attenuation, demonstrating the internal and external play spaces, car parking and access ways would not cause an adverse impact on adjoining properties, nor be adversely affected by surrounding land uses, as determined by the City;
- f) a waste management plan in accordance with the City's Waste Guidelines for New Developments;

Page | 5 of 6

LOCAL PLANNING POLICY: Child Care and Family Day Care

- g) a detailed landscaping plan, including indicative design of external playing spaces;
- h) signage details or a signage strategy in accordance with the City's Local Planning Policy relating to Signs and Advertising; and
- i) any additional information or written justification relevant to the assessment of the application.

5. NATIONAL CARE SERVICES LAW AND REGULATIONS

In addition to the requirements listed in this policy, the applicant is to ensure that the proposed Education and Care Service premises are compliant with the *National Education and Care Services Regulations 2012*. These requirements will not form part of the City's assessment. For further information, please contact the Department of Communities, Education and Care Regulatory Unit.

1.	I have just been through the experience of a childcare centre being placed on the corner	The City investigated alternate access routes to and
	of Paddington and Charles Street North Perth. I'm a little amused by the way this child	from the site during the assessment process.
	Centre has been managed and approved.	However, the subject site abuts Charles Street which
		is proclaimed as a highway pursuant to Section 13 of
	I protested at the meeting in saying that the traffic in entry and exit to this centre would	the Main Roads Act 1930 and is under the care,
	be horrendous on our local street. I suggested an exit into Charles Street with a	control and management of MRWA.
	Paddington St entry which would create a better flow through. This was not allowed and	
	according to main roads department they will not allow such an exit to exist on a	Clause 3.4 d of the Policy requires dual vehicle access
	development in Charles Street.	where possible to distribute the traffic volume over
		multiple streets, noting advice from other governing
	This is absurd when all up and down Charles Street we have entries and exits into	bodies may prevail.
	apartments community centres etc and yet a childcare centre cannot have an exit into	
	Charles Street!	
	I was given the Angove Street example and said there were objections initially with that	
	child Centre. Yet the entry and exit is a flow through which is completely different to	
	what will be proposed and built in the Charles Paddington complex. In this instance	
	residents have not been considered when there should be a workable solution To the	
	traffic congestion that will emanate once the Child Centre is active. I am not against the	
	development other than hoping that common sense would prevail but in this instance	
	we are blocked with bureaucracy.	

5.6 **OUTCOMES OF ADVERTISING - VIBRANT PUBLIC SPACES POLICY**

Attachments:

- Vibrant Public Spaces Policy Summary of Submissions 🗓 🛣 1. 2.
 - Vibrant Public Spaces Policy (Amendments Highlighted) 🕹 🛣
 - Vibrant Public Spaces Policy (Final) U 3.

RECOMMENDATION:

That Council:

- 1. **RESCINDS Policy No. 2.2.13 – Parklets;**
- 2. ADOPTS the Vibrant Public Spaces Policy at Attachment 3; and
- 3. NOTES the proposed fees and charges to be included in the 2022/23 Fees and Charges.

PURPOSE OF REPORT:

For Council to consider rescinding Policy No. 2.2.13 - Parklets and adopting the Vibrant Public Spaces Policy.

BACKGROUND:

The City receives ongoing requests from private businesses, landowners, and community groups to install infrastructure in the public realm. With the exclusion of parklets and planter boxes, there is currently no clear guidance on how to deal with such requests. The requests include the installation of street furniture, alfresco structures and other structures on land that is owned or managed by the City, including freehold land, road reserves and Crown reserves. These requests are generally associated with an applicant wanting to turn an underutilised piece of land, such as a verge or road reserve, into a more vibrant space for the public to enjoy.

At its 22 September 2015 Ordinary Meeting (Item 9.2.9), Council adopted Policy No. 2.2.13 - Parklets to facilitate and guide the implementation of parklets in town centres and commercial areas.

At its 15 December 2020 Ordinary Meeting (Item 9.7), Council adopted amended Policy No. 2.2.13 -Parklets (Parklets Policy) to allow Administration discretion to support an application for a liquor licence to apply in a parklet.

At its 17 March 2020 Ordinary Meeting (Item 12.4), Council resolved to advertise the draft Development on City Owned and Managed Land Policy to provide guidance on managing requests to install other infrastructure including community signage, street furniture and alfresco shelters on City owned and managed land. Advertising commenced 28 April 2020 and concluded 29 May 2020.

At its 28 July 2020 Ordinary Meeting (Item 12.9), Council approved the readvertising of the amended draft Development on City Owned and Managed Land Policy including updates to streamline the approvals process and policy requirements. Advertising commenced 6 August 2020 and concluded 25 September 2020.

At the 9 September 2020 Rebound Roundtable, the amended draft Development on City Owned and Managed Land Policy was presented to obtain town team feedback. Feedback included the need to mitigate privatisation of the public realm through improved design requirements and assessment processes, and the need to provide clearer guidance regarding the spirit and intent of the policy.

In response to both advertising periods, key community and stakeholder feedback included:

- the need to place a stronger focus on the outcomes to be achieved; and
- the need to simplify the language and content around requirements.

The draft Development on City Owned and Managed Land Policy had not been presented to Council since the conclusion of readvertising. Requests to install infrastructure in the public realm continue to be received and are considered with regard to the relevant provisions referenced in the City's existing policies including:

- Minor Nature Development Policy;
- Parklets Policy; and
- Verge Treatments, Plantings and Beautification Policy.

The existing City policies do not provide sufficient detail and clarity regarding the permissibility and requirements associated with public and private investment in the public realm. This impacts the City's service delivery capability and customer experience when dealing with such requests.

The City of Vincent Strategic Community Plan 2018 - 2028 (SCP) sets the community vision, priorities and aspirations for the City and includes the Thriving Places priority: "Our vibrant places and spaces are integral to our identity, economy and appeal. We want to create, enhance and promote great places and spaces for everyone to enjoy".

The City does not have an overarching policy to provide guidance on the permissibility, requirements and management responsibilities for third party (applicant) proposals to deliver vibrant public spaces on City owned and managed land.

To achieve the Thriving Places priority and manage ongoing request, the City began the process of developing the draft Vibrant Public Spaces Policy and its Policy Guidelines (draft Vibrant Public Spaces Policy). The draft Vibrant Public Spaces Policy was informed by a series of investigations, inclusive of community and key stakeholder engagement, to identify what types of spaces the community would like to see facilitated within the public realm.

At its 8 March 2022 Ordinary Meeting (Item 9.9), Council resolved to approve an amended <u>draft Vibrant</u> <u>Public Spaces Policy</u> for the purpose of advertising.

DETAILS:

The draft Vibrant Public Spaces Policy was advertised from 18 March 2022 to 1 May 2022 via the following methods:

- notice published on the City's website;
- notice posted to the City's social media;
- notice published in a local newspaper;
- notice posted in the City's e-newsletter and business e-newsletters;
- Dedicated project page on Imagine Vincent, providing opportunity to comment generally or fill out a survey;
- notices at the City's Administration Centre and Library;
- two pop-up engagement sessions adjacent:
 - No. 130 Oxford Street, Leederville: 31 March 2022 4:00pm 7:00pm;
 - Nos. 35/602-610 Beaufort Street (Modus Coffee), Mount Lawley: 7 April 2022 7:30am 10:30am;
- distribution of flyers at City sponsored events; and
- presentation at the 27 April 2022 Rebound Roundtable.

The results of the public consultation period are as follows:

- Unique page views 108;
- Document downloads 15; and
- Survey participants 32.

Response via the survey was generally supportive of the intent of the draft Vibrant Public Spaces Policy, with many suggestions on elements that should be included or further enhanced to ensure the public benefit being provided by vibrant public spaces is sufficient.

A summary of submissions is included as **Attachment 1**. The report details the comments received in relation to policy objectives, design objectives, vibrant public space types, design requirements, location requirements, applicant responsibilities and fees and charges. The report also documents Administration's response to the submitter comments, and any recommended modifications to the draft Vibrant Public Spaces Policy in response to these comments. Key modifications to the draft Vibrant Public Spaces Policy include:

• Additional information and applicant responsibilities to clarify that vibrant public spaces are dog friendly and smoke free.

- The requirement for the provision of lighting in parklets and eatlets where a canopy is proposed.
- The prohibition of reserved signage.
- The inclusion of how the City would deal with non-compliance.
- Changes to the proposed fees and charges to incentivise parklets in preference of eatlets.

All recommended modifications, referenced in **Attachment 1**, have been included as highlighted amendments in the Vibrant Public Spaces Policy, included as **Attachment 2**.

The final version of the Vibrant Public Spaces Policy is included as Attachment 3.

Submissions detailed various opinions on the proposed fees and charges. The fees and charges below are proposed with consideration to the submissions received.

Vibrant Public Space Type	Application/ Design Fee	Approval Fee	Annual Renewal Fee
Street furniture	N/A	N/A	N/A
Affixed eating area furniture	N/A	\$250	N/A
Pop-up parklet	N/A	N/A	N/A
Pop-up eatlet	N/A	N/A	N/A
Parklet – built on existing ground surface or decked platform	N/A	\$1,000	N/A
Parklet – built on new paving	\$2,500	\$1,250	N/A
Eatlet – built on existing ground surface or decked platform	N/A	\$1,500	\$500
Eatlet – built on new paving	\$2,500	\$1,750	\$500
Other Proposal	\$500	To be determined as part o	f Council endorsed Licence.

The proposed fees were determined as a way of encouraging vibrant public space proposals. Based on these fees, the City would not return a monetary profit but would have received investment in the public realm at no cost to the City.

The \$250 affixed eating area furniture approval fee is based on the cost to remove affixed furniture. This is proposed to cover the cost should the City have to remove the furniture.

Where the applicant is proposing 'new paving' to pave a verge or extend the existing paving of a footpath as part of a parklet or eatlet proposal, it is proposed the City will consult with the applicant, design the paving enhancements, and the paving works would be undertaken by the applicant, at the applicants cost, and compliance checked by the City.

To cover the City's resourcing costs, a design fee of \$2,500 is proposed. To cover the cost to remove and dispose of a parklet or eatlet, a minimum approval fee of \$1,000 and \$1,500 are proposed for all parklet and eatlet types. To cover the cost of site supervision and compliance checks to install the new paving, an additional \$250 approval fee is proposed for parklets and eatlets built on new paving.

Submissions detailed a mixed response in relation to the fees. A high number of responses believed that there should be no fees as a way of supporting businesses. Other responses outlined a preference for eatlets to have a higher fee and be charged an annual fee due to the periods of exclusive use permitted.

Based on these comments and to incentivise parklets in preference of eatlets, reduced approval fees for parklets and the addition of an annual renewal fee for eatlets is proposed. The \$500 eatlet renewal fee directly correlates with the reduced parklet approval fees.

Fees and charges have not been waived as suggested. The fees do not return a monetary profit to the City, they have been created to cover the administrative costs associated with the assessment of vibrant public space proposals. As the fees and charges are reviewed annually, consideration would be given to the economic climate when determining the fees for vibrant public space types, and changes can be made accordingly.

CONSULTATION/ADVERTISING:

The draft Vibrant Public Spaces Policy was reviewed by the Department of Planning, Lands and Heritage (DPLH) Land Management and Policy teams who confirmed support for the policy, stating that the DPLH supports the development of vibrant, innovative spaces.

The City has notified all submitters of this item being presented to Council for approval. The City will further notify all submitters of the outcomes of the Ordinary Meeting of Council.

If adopted, further consultation would take place as outlined in Table 1 of the Policy for each vibrant public space type.

LEGAL/POLICY:

Section 2.7(2)(b) of the Local Government Act 1995 provides Council with the power to determine policies.

The City's <u>Policy Development and Review Policy</u> sets out the process for the development and review of the City's policy documents.

The Vibrant Public Spaces Policy has been developed in accordance with the City's Policy Development and Review Policy. It is intended to respond to the City's existing strategies and policies and aligns with the:

- Strategic Community Plan 2018-2028;
- Accessible City Strategy 2020-2030; and
- Public Health Plan 2020-2025.

The Vibrant Public Spaces Policy considers parklets and has been developed to incorporate updated parklet policy provisions. It is proposed that Policy No. 2.2.13 – Parklets be rescinded and that the Vibrant Public Spaces Policy provides guidelines for parklets moving forward.

RISK MANAGEMENT IMPLICATIONS

Low: It is low risk for Council to rescind and adopt a new policy.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's Strategic Community Plan 2018-2028:

Accessible City

Our pedestrian and cyclist networks are well designed, connected, accessible and encourage increased use. We have better integrated all modes of transport and increased services through the City.

Connected Community

We have enhanced opportunities for our community to build relationships and connections with each other and the City.

We are an inclusive, accessible and equitable City for all.

Thriving Places

We are recognised as a City that supports local and small business.

Our town centres and gathering spaces are safe, easy to use and attractive places where pedestrians have priority.

We encourage innovation in business, social enterprise and imaginative uses of space, both public and private.

Our physical assets are efficiently and effectively managed and maintained.

Sensitive Design

Our planning framework supports quality design, sustainable urban built form and is responsive to our community and local context.

SUSTAINABILITY IMPLICATIONS:

This is in keeping with the following key sustainability outcomes of the *City's Sustainable Environment Strategy* 2019-2024.

Sustainable Transport

PUBLIC HEALTH IMPLICATIONS:

This is in keeping with the following priority health outcomes of the City's Public Health Plan 2020-2025:

Increased physical activity

Increased mental health and wellbeing

FINANCIAL/BUDGET IMPLICATIONS:

The implementation of the policy is to be met through the City's operational budget utilising existing resources.

COMMENTS:

Facilitating vibrant public spaces is an opportunity for the City to be a leader in the enhancement of the public realm. COVID-19 has seen a shift in the way people perceive the public realm and how it functions, with a greater demand and emphasis on public spaces and outdoor dining as a way to connect, interact and thrive.

Vibrant public spaces have the potential to create an avenue for private investment in the public realm for public benefit. Vibrant public spaces are a creative solution for enhancing the streetscape and providing increased pedestrian amenity. Vibrant public spaces increase pedestrian amenity, support businesses, improve the public realm and provide space for community connection in a location otherwise underutilised.

Vibrant Public Spaces Policy - Summary of Submissions

Submitter Comment Verbatim	Administration Comment	Recommended Modification
QUESTION 1 : Do you have any thoughts or comments about	the draft Policy Objectives?	
Submitter 2.	Submitter support noted.	No modification required.
Looks good and makes sense.		
Submitter 4.	Submitter comment noted.	No modification required.
N/A – Though some objection is to be had to the sensitivity		
objective.		
Submitter 7.	Submitter support noted.	No modification required.
Very comprehensive and align with the SCP priorities,		
particularly thriving places and sensitive design. It is a much		
needed policy, and these policy objectives should facilitate		
the consistent assessment of these types of proposals to the		
benefit of the community.		
Submitter 8, 9, 10, 12, 14 and 19.	Submitter comment noted.	No modification required.

QUESTION 2: Do you have any thoughts or comments about t	QUESTION 2: Do you have any thoughts or comments about the draft Design Objectives?				
locations, clear connections and easily identifiable elements to help (people) find their way around. While walking is a great way of getting around the reality of public transport means that cars are a necessity for east to west journeys and return within Vincent to visit library, gym, Beatty Park and supermarket and speciality stores. Road design and traffic flow on roads and into and out of parking areas should also be a design objective.	and Location Requirements of the draft Vibrant Public Spaces Policy ensure that current road design and traffic flow is not impeded. Vibrant public spaces, such as parklets and eatlets, are only permitted when car parking demand in the precinct (400m walkable catchment area) does not exceed 85% occupancy, ensuring that adequate car parking supply is available. Design Objective 7. Legibility, relates to all lines of sight, including those from vehicles. Given the detailed Design and Location Requirements and Design Objectives, an additional objective relating to road design would be considered surplus to requirements.				
Submitter 32. Like the objectives particularly the Context and Character and Landscape objectives. It's always important to consider context to ensure new things enhance or at least respond to existing context/character/environment. Also very supportive of adding greenery throughout Vincent where possible.	Submitter support noted.	No modification required.			

VIBRANT PUBLIC SPACE TYPES – STREET FURNITURE				
	Submitter Comment Verbatim	Administration Comment	Recommended Modification	
QUESTION 3 : Do you support the City facilitating the installation of street furniture?	QUESTION 4: Do you have any	thoughts or comments about street furniture?		
Yes (100%)	Submitter 1. Make it match. Don't just add bits here and there. Do it properly or not at all.	Each vibrant public space type is required to meet a set of Design Objectives as well as the relevant Design and Location Requirements, and Applicant Responsibilities. The street furniture Design Objective O1.2.1 states: <i>Respond to and enhance the distinctive characteristics of a local area, contributing to a sense of place.</i> This design objective will ensure that consideration is given to the surrounds and existing street furniture and infrastructure so that there is a cohesive look to the area.	No modification required.	
(31 submitters responded, 1 submitter skipped question)	Submitter 2. Good but need to allow for traffic	There are a number of Location Requirements which must be considered when determining the location of proposed street furniture. These requirements take into consideration pedestrian, cyclist and vehicle traffic and ensure that a sufficient clearway and road carriageway offset distances are maintained at all times.	No modification required.	
	Submitter 3. Put thought into the direction	Safety is an important consideration and Design Objective 8 states that vibrant public spaces should: <i>Optimise safety and security, supporting</i>	Modify to include additional Design Objective under Stree

QUESTION 4: Do you have any thoughts or comments about stree	et furniture?	
Submitter 5. beautify the space add interest to the landscape feels welcoming	Both the Policy and Design Objectives require vibrant public space proposals to respond to their surrounds and be of a high quality. The Design and Location Requirements for each infrastructure type are a way of meeting these objectives. If a proposal is considered to be compliant with the relevant Design and Location Requirements, it's anticipated it would beautify the space, add interest to the streetscape,	No modification required.
Submitter 7. Must ensure that street furniture is well maintained, either by the city or adjacent business. Submitter 8. Needs to be well maintained otherwise it looks awful.	and ensure users feel welcomed. For each vibrant public space type there are specified Applicant Responsibilities which are reinforced in the vibrant public space agreement between the host and the City. Street furniture Applicant Responsibility A1.6.8 states: Furniture is maintained in a clean, tidy, good, inoffensive and aesthetically appealing condition at all times.	No modification required.
Submitter 9. They need some flowers and need to be well maintained. Submitter 10.	A1.6.9 states: Applicant must ensure any plants associated with the street furniture are maintained in a healthy, neat and tidy condition at all times.	
They need to be vibrant and well maintained <i>Submitter 13.</i> Plants need to be maintained.	As these responsibilities are included as part of the draft Vibrant Public Spaces Policy and agreement, the City is able to ensure these requirements are met through compliance.	

DUESTION 4: Do you have any thoughts or comments about street furniture? Submitter 4. As long as they are maintained e.g. Leederville planter boxes. Submitter 17. VIBRANT PUBLIC SPACE TYPE	S – PARKLET		
	Submitter Comment Verbatim	Administration Comment	Recommended Modification
QUESTION 11 : Do you support the City facilitating parklets?	QUESTION 12: Do you hav	re any thoughts or comments about parklets?	
	Submitter 1. Again, don't remove parking spaces.	Location Requirement L4.4.12 states: <i>Parklets and eatlets may be permitted in on-street, parallel, angled, diagonal, perpendicular and/or paid car parking bays where demand in the precinct (400m walkable catchment area) does not exceed 85% occupancy.</i> This occupancy limit ensures that an appropriate level of available parking is maintained.	No modification required.
	Submitter 5. Should be spaces for kids especially near train station.	The Design Objectives of each vibrant public space type are to be considered and met when proposing a vibrant public space. Parklet/Eatlet Design Objective O4.2.9 requires that applicants: <i>Respond to local community needs</i> <i>and the wider social context by delivering a mix of public spaces that support a</i> <i>diverse range of people and facilitate social interaction.</i> This Design Objective encourages applicants to consider who they are providing for and what is surrounding them. For a parklet to be successful, it would need to cater for the surrounding users.	No modification required.
Unsure	<i>Submitter 7.</i> Happy for parklets to be partially enclosed structures, subject to parklet not detracting from streetscape.	Parklet/eatlet Design Requirement D4.3.4 prescribes: Parklets and eatlets shall not adversely effect the visual permeability of the streetscape and must allow pedestrians on either side of the street to see the opposite side of the street. To maintain visual permeability, continuous opaque walls are not permitted to exceed 900mm in height from the footpath finished floor level. Parklet/eatlet Design Requirement D4.3.5 prescribes: Parklets and eatlets shall feel open and welcoming. To ensure parklets and eatlets do not have the visual or apparent effect of enclosing a public space: • walls are not permitted above 900mm in height from the footpath finished	No modification required.

VIBRANT PUBLIC SPACE TYPES – PARKLET			
Submitter Comment Verbatim	Administration Comment	Recommended Modification	
	 floor level, unless additional height is required due to the slope of the site and the proposal can be demonstrated to meet Design Objectives O4.2.1, O4.2.2, O4.2.7 and O4.2.8; alfresco blinds are not permitted; clear glazing is permitted to a maximum of 1200mm in height from the footpath finished floor level; and each side that does not directly abut the footpath is permitted to consist of a maximum of 25% visually permeable screening, for the sole purpose of supporting plant growth. These Design Requirements are based on the feedback received during initial community consultation and input from the Department Planning, Lands and Heritage. The provision of 25% enclosure is considered to be sufficient as it allows for plantings to establish and provides an element of weather protection if placed strategically.

QUESTION 12: Do you have any thoughts or comments about	parklets?	L
management as part of the scope.	between the applicant and the City. Parklet/eatlet Applicant Responsibility A4.6.11 states that an: <i>Applicant must ensure parklets and eatlets are</i> <i>maintained in a clean, tidy, good, inoffensive and aesthetically appealing</i> <i>condition at all times.</i> This is considered to be a sufficient control in the management of waste.	
Submitter 19. Only patrons of the business should be able to sit and use.	Parklets can be located on City owned and managed land with no lease or rental fee associated with the use of the space. Parklets are for anyone to use at all times and are not reserved for customers of particular businesses. Parklets repurposes part of the street into a public space for people through the provision of seating, shade and greenery. Business applicants have the opportunity to apply to host an eatlet should they want the space to only be used by their business patrons during business operating hours.	No modification required.
Submitter 26. With the climate we have why wouldn't you?	Submitter comment noted.	No modification required.
Submitter 27. Looks good.	Submitter support noted.	No modification required.
Submitter 29. 1. Who will fund the parklet infrastructure. 2. Who will pay for parking revenue forgone? 3. How is the loss of parking amenity measured?	Parklets are to be funded by the applicant. Key aspirations of the City's Strategic Community Plan (SCP) include: • We have enhanced opportunities for our community to build relationships and connections with each other and the City; • We are recognised as a City that supports local and small business; • Our town centres and gathering spaces are safe, easy to use and attractive places where pedestrians have priority; and • We encourage innovation in business, social enterprise and imaginative uses of space, both public and private. The implementation of the Policy is a way of achieving these key aspirations. The City's Accessible City Strategy (ACS) prioritised the use of active and sustainable transport modes, and people who are walking over people who are choosing to drive. As the ACS prioritises pedestrians over vehicles, the opportunity cost of the space in lieu of parking revenue is considered to be nil as this is not a preferred use. Parklet/eatlet Location Requirement L4.4.12 states: Parklets and eatlets may be permitted in on-street, parallel, angled, diagonal, perpendicular and/or paid car parking bays where demand in the precinct (400m walkable catchment area) does not exceed 85% occupancy. This occupancy limit ensures that an appropriate level of available parking is maintained.	No modification required.

Again, would much prefer there are places for people to sit	sustainable transport modes, and people who are walking over people who are	
than for one car to sit.	choosing to drive.	

	Submitter Comment Verbatim	Administration Comment	Recommended Modification
QUESTION 13 : Do you support the City facilitating eatlets?	QUESTION 14 : Do you have any thoughts or o	comments about eatlets? or the 20% cap?	
2 1 (6%) (3%)	Submitter 2. Keep clear pathway. Conflict between cars and these spaces have one of the other.	The 20% cap applies to the number of permitted eatlets as opposed to parklets. A car parking occupancy requirement has been included as part of the Location Requirements to ensure that there is sufficient parking available, and potential conflict is mitigated.	No modification required.
Yes No Unsure (91%)	Submitter 4. None, other than 20% being an oddly arbitrary figure. Submitter 7. Not sure why a cap is necessary. We should be supportive of repurposing car spaces for pedestrian friendly areas at all times. We should be encouraging people not to drive. Reducing car bays or removing roads will do this.	Due to eatlets being for customers of a particular businesses during business hours, an upper limit of 20 percent to the number of eatlets has been established as part of the Location Requirements in the Policy. At present the 400 metre catchment which surrounds Leederville Town Centre, measured from the intersection of Oxford Street and Newcastle Street, contains one parklet and six would be eatlets. The six eatlets currently occupy approximately 63m of the total 569m of eligible frontage. This equates to 11% of the public realm (of eligible areas) being occupied	No modification required.
Do you support the 20% cap to ensure there is a limit on the number of eatlets permitted in one area?	Submitter 9. The cap sounds unfair. The business who pays to install these spaces and maintain them should benefit first.	by eatlets (refer explanatory diagram below).	
4 (13%) 5 (16%) 5	Submitter 10. The cap does not seem fair to all businesses. The business should benefit from their investment. Their patrons should come first. Submitter 17. I would support an increase to the cap of up to 40% for the use of eatlets. Otherwise I am supportive of the measure. Submitter 28. Why should there be a 20% cap on eateries, is there a cap on parking spaces? Submitter 32.	48m 1000 1	
Yes 14 No (45%) Unsure Other	Submitter 32. The more spaces for people the better. A 20% cap isn't necessary. Keen to support businesses invest in seating, shade and greenery. I think these are the most important ingredients missing in our main streets. Incorporating lighting would also be good.	70m 36m 36m 36m 400m catchment area Eligible frontage	

Submitter Comment Verbatim	Administration Comment	Recommended Modification
	The cap is not associated with car parking capacity. However, permitting the use of only 20 percent of the public realm within this 400 metre catchment would allow for the introduction of a limited number of eatlets, which the City could then monitor and review through the 2026 policy review. The parklet/eatlet Design Requirements provide guidance on the incorporation of elements such as seating, shade and greenery into the design.	
Submitter 29. "It is proposed that within a 400 metre radius catchment, no more than 20% of the public realm (of eligible areas) may be occupied by eatlets." Given public realm is not defined it is not possible to make an informed assessment of this proposal. However the illustration is the best yet relating to the proposals put forward. A quiet street may be able to able to lose a parking bay or two provided the parking revenue lost is recouped by Eatlet fees charged by the City of Vincent.	The draft Vibrant Public Spaces Policy provides the following definition for public realm: <i>means all public spaces</i> <i>including thoroughfare or streets, public car parks,</i> <i>reserves/public open space, civic squares and other areas</i> <i>used by and accessible to the community.</i> 'Eligible areas' are defined by the Location Requirements set out in section 4.4 Location Requirements. Eligible areas in the public realm relating to eatlets, means any area where an eatlet is permitted to be located, in line with the 4.4 Location Requirements, within the public realm. An explanatory diagram and information to demonstrate how the 20 percent cap is calculated has been included above for reference.	No modification required.
Submitter 30. Again, DO NOT privatise public space. If you do, charge market rates. Do not allow alcohol licences. You bang on about public health yet accept more alcohol even though it is shown to be a major health issue. The 20% capo is surely to protect parking supply, not limit competition. <i>Submitter 31</i> I do NOT support privatising public land for free. I do not support Eatlets as some sort of Parklet equivalent. They are simply an expansion of a business and should be paying market rates for the privilege, plus they should compensate the community for lost revenue from parking. Parklets provide a community facility, Eatlets just expand the business. The argument that the facilities are available after business hours is rubbish - who would use them. The main purpose for Eatlets is to provide a mechanism for obtaining a liquor licence and I do not think we need to be able to drink everywhere. If the City wants to pursue this they should charge market rates and not the token amounts as recommended by the staff for 404-406 Oxford Street (Briefing 8 December 2020) of \$1,600 per annum, or the \$3,500 for 188m2 (i.e. \$30/m2/annum!) at 639 Beaufort Street (OMC 20 October 2020).	The cap is not associated with car parking capacity. Due to eatlets being for customers of a particular businesses during business hours, an upper limit of eatlets has been set to ensure there is capacity to accommodate parklets in the future. The City's Public Health Plan supports healthy behaviour and seeks to reduce risky behaviours such as <i>smoking, and</i> <i>consuming alcohol at harmful levels.</i> Moderated alcohol consumption in a social setting is not considered harmful alcohol use. Submitter comment noted. Refer fees and charges comments included below, in response to Question 48.	Refer recommended modifications included belo in response to Question 48.

VIBRANT PUBLIC SPACE TYPES – EATLET		
Submitter Comment Verbatim	Administration Comment	Recommended Modification
QUESTION 16: Do you have any thoughts or comments about		
Submitter 5. Limits flow of pedestrians should be limited to 20% wheel chair access always	Eatlets are proposed to be located in car bays as such not obstructing the flow of pedestrians and accessibility on pedestrian paths. Design Requirement D4.3.8 states: <i>Parklets and eatlets should be designed as an extension of the footpath and must be accessible from the adjoining footpath via an unobstructed flush or ramped section. Where the parklet or eatlet is located on a sloping site, a minimum 1500mm wide unobstructed flush section must be provided, ensures that the spaces are accessible to all.</i>	
	Pedestrian flow between the pedestrian path and the road is ensured by Location Requirement L4.4.6 <i>Parklets and eatlets shall be offset a minimum of</i> <i>750mm at each end to ensure a minimum 1500mm gap is provided to allow</i> <i>pedestrians to traverse the street.</i>	
Submitter 8. Love them, brings people to the area. Dogs need to be allowed	Submitter comment noted. Parklets/eatlets are dog friendly. Refer comments included above, in response to Question 6 – Submitter 2.	Refer recommended modifications included above, in response to Question 6 – Submitter 2.
Submitter 11. Take up footpath yes, Take up parking no. Would choose to visit a venue with an eatlet over one without.	Location Requirement L4.4.12 states: <i>Parklets and eatlets may be permitted in on-street, parallel, angled, diagonal, perpendicular and/or paid car parking bays where demand in the precinct (400m walkable catchment area) does not exceed 85% occupancy.</i> This occupancy limit ensures that an appropriate level of available parking is maintained.	No modification required.
Submitter 12. Lets use weather to our advantage.	Submitter comment noted.	No modification required.
Submitter 13. you want to be able to get a seat at the business you are visiting	Submitter comment noted.	No modification required.
Submitter 14. The eatlets are busy so also need indoor seating.	The indoor seating provision of businesses is at the discretion of the business owner, in accordance with relevant legislation, and is not considered as part of the Vibrant Public Spaces Policy.	No modification required.
<i>Submitter 16.</i> Unfair on small businesses	Submitter comment noted.	No modification required.
Submitter 19. No	Submitter comment noted.	No modification required.
Submitter 22. Good idea	Submitter support noted.	No modification required.

	ensure consideration is given to the surrounds and existing street furniture	
	and infrastructure so that there is a cohesive look to the streetscape.	

Submitter Comment Verbatim	Administration Comment	Recommended Modification
QUESTION 21: Do you have any thoughts or comments on the o	pportunity to incorporate new paving?	
QUESTION 21: Do you have any thoughts or comments on the of Submitter 7. Perhaps new paving can be with permeable pavers that allow infiltration of rainwater, so the runoff of water into the drainage system is reduced. Could also consider swales and other road designs that reduce runoff. Submitter 17. I would be supportive of public consultation and funding application/rounds for new paving submissions from applicants. I am also supportive of the City undertaking these works in order to ensure consistent application, however if the City undertakes the works then it also needs to commit to an achievable schedule and publicly report the completion time for projects. Submitter 29. 1.Use of the existing ground surface should be the first and preferred option.	A new parklet/eatlet with or without new paving is required to be advertised for a period of 21 days to owners and occupiers within a 100m radius of the space. The City is not proposing to provide funding assistance and instead provides in kind support to design and compliance check new paving. Design Requirement D4.3.3 is to be amended to clarify this. The City is not proposing to provide funding assistance and instead provides in kind support to design and compliance check new paving. Design Requirement D4.3.3 is to be amended to clarify this. The State Government currently provides Alfresco Rebate Grants which could be utilised to implement new paving. The use of the existing ground surface for parklets/eatlets (excluding pop-up) is not supported as this creates accessibility issues for users, with the level difference between pedestrian path and carriageway difficult to manoeuvre	Modify to reflect the process outlined in the 8 March 2022 Ordinary Council Meeting report. Recommended modification: D4.3.3 Where new paving is proposed, the City will consult with the applicant , and design the paving enhancements <u>and</u> -The paving works will then be undertaken <u>the paving works</u> by the applicant , at the applicant's cost and as prescribed in the City's
 Use of the existing ground surface should be the first and preferred option. A decked platform should be the second option as it allows for an easier removal. Constructing new paving over existing subject car bays does NOT create a wider path/area. The footpath remains the same width. While the City will consult on design etc with the applicant it will undertake the paving works at the applicants cost as prescribed in the City's annual fees and charges. This section is silent as to the what the City proposes to charge the applicant for parklets and eatlets by way of rent and the 	is not supported as this creates accessibility issues for users, with the level difference between pedestrian path and carriageway difficult to manoeuvre for wheelchairs, prams and the like. The construction of new paving is considered to improve the pedestrian amenity of the space and provide increased pedestrian area should the parklet/eatlet be removed in the future. This is an improvement that is being made to the road carriageway, funded through private investment. The fees and charges have not been included in the draft Policy as they are reviewed and updated on an annual basis. If approved, this information will be included on the City's website with the Vibrant Public Spaces Policy.	applicant's cost and as
periods for which the car bays will be leased wether on the existing ground surface, a decked and removeable platform or purpose paved area. <i>Submitter 32.</i> Any widening of the footpath is welcome. Extending the footpath will help to slow traffic. Parklets/eatlets on Bulwer Street would be great. Cars are always speeding along the street and it makes it hard for pedestrians to cross.	2022 Ordinary Council Meeting report. Refer fees and charges comments included below, in response to Question 48. Submitter support noted.	No modification required.

DESIGN REQUIREMENTS – VISUAL PERMEABILITY AND OPENNESS		
Submitter Comment Verbatim	Administration Comment	Recommended Modification

QUESTION 22: Do you have any thoughts or comments on visual permeability and openness? Do you think any additional requirements should be included?		
Submitter 17. Encouraging increased tree canopy should be included in the requirements so that trees can be encouraged over bushes/ shrubs/screens. Submitter 7. Don't necessarily agree. Depending on the location, alfresco	Whilst it is desirable to increase tree canopy, the temporary nature of the spaces means tree planting is not always suitable. Shade canopy is incentivised through a reduction in the required minimum percentage of living green planting, where trees or climbing plants are incorporated into the design to provide shade.Parklet/eatlet Design Requirement D4.3.4 prescribes: Parklets and eatlets shall not adversely effect the visual permeability of the streetscape and must	No modification required.
blinds or screening may be appropriate - ie if lots of noise or cars. But if we can reduce cars on roads than open structures would be great! Submitter 29. 1.Each side that does not directly abut the footpath may need to solid to prevent wind and weather blowing in on the occupants. Submitter 32. Agree that structures should not negatively impact visual permeability. Don't mind alfresco blinds if they're only used when raining but understand that's often not the case. The chicken shop up the road looks like an enclosed sauna when the blinds are down.	 shall not adversely effect the visual permeability of the streetscape and must allow pedestrians on either side of the street to see the opposite side of the street. To maintain visual permeability, continuous opaque walls are not permitted to exceed 900mm in height from the footpath finished floor level. D4.3.5 prescribes: Parklets and eatlets shall feel open and welcoming. To ensure parklets and eatlets do not have the visual or apparent effect of enclosing a public space: walls are not permitted above 900mm in height from the footpath finished floor level, unless additional height is required due to the slope of the site and the proposal can be demonstrated to meet Design Objectives O4.2.1, O4.2.2, O4.2.7 and O4.2.8; alfresco blinds are not permitted; clear glazing is permitted to a maximum of 1200mm in height from the footpath finished floor level; and each side that does not directly abut the footpath is permitted to consist of a maximum of 25% visually permeable screening, for the sole purpose of supporting plant growth. These Design Requirements are based on the feedback received during initial community consultation and input from the Department Planning, Lands and Heritage. The provision of 25% enclosure is considered to be sufficient

DESIGN REQUIREMENTS – REMOVAL			
Submitter Comment Verbatim	Administration Comment	Recommended Modification	
QUESTION 25: Do you have any thoughts or comments on the s	QUESTION 25: Do you have any thoughts or comments on the structures where required being modular and/or their removal?		
Submitter 7. Good idea, means we could have a decked structure in a park, which could be a good outcome for some parks	The advertised draft Vibrant Public Spaces Policy did not permit vibrant public space proposals to be located in the Reserve Built Form Area, as the City is not seeking to encourage private investment in reserves and public open spaces. Whilst not addressed in the Vibrant Public Spaces Policy, there are other avenues to consider similar forms of development, including through lease agreements or temporary permits.	No modification required.	

DESIGN REQUIREMENTS – REMOVAL		
Submitter Comment Verbatim	Administration Comment	Recommended Modification
QUESTION 25: Do you have any thoughts or comments on the s	structures where required being modular and/or their removal?	
Submitter 17. I am supportive of the use of modular platforms but not of the cost of permanent removal being at applicants expense. The City should help cover some or all of the removal cost if they have directed the permanent removal of the structure.	Modular platforms are proposed to reduce the costs associated with installation and removal. Applicants are required to enter into vibrant public space agreements prior to the installation of any platforms. This is to ensure the applicant is fully aware of the potential need to remove the platform for maintained or planned works. The City facilitates the implementation of vibrant public spaces through operational resources and budget. The City provides significant in kind support in this capacity and it would not be considered financially sustainable for the City to bear removal costs. Reduced approval fees for parklets and annual renewal fees for eatlets are proposed. The \$500 eatlet renewal fee directly correlates with the reduced parklet fee.	No modification required.
Submitter 29. How will the 24 hour removal clause be conveyed to applicants for parklets and eatlets?	The requirement for 24 hour removal has been explicitly outlined in each vibrant public space types specific Design Requirements. This will also be detailed in the vibrant public space agreement between the applicant and the City.	No modification required.
Submitter 32. Support being modular if that makes it easier for maintenance.	Noted. The modular design of the spaces means that they are able to be easily moved when maintenance or works to the carriageway are required.	No modification required.

DESIGN REQUIREMENTS – GREENERY

	provision is required from the onset of the parklet/eatlet establishment.	of the total parklet or eatlet	
		area must be living green	
		planting (greenery), such as	
		shrubs, succulents, climbing	
		plants or trees. The required	
		area may be reduced to 10%	
		where trees or climbing	
		plants are incorporated into	
		the design to <u>and</u> provide	
		shade canopy.	
Submitter 32.	Submitter support noted.	No modification required.	
Very supportive of 10-15% greenery and that it's required to be			
living. Think the percentage is about right to ensure there's			
greenery but also enough space for seating.			

DESIGN REQUIREMENTS – PERMANENT SEATING		
Submitter Comment Verbatim	Administration Comment	Recommended Modification
QUESTION 27: Do you have any thoughts or comments on perr	nanent seating?	
Submitter 7. Do not think this is essential, provided space is inviting and open at all times.	Whilst the City agrees that the space should always be inviting, the availability of permanent seating ensures additional pedestrian amenity is provided at all times.	No modification required.
Submitter 17. If permanent seating is to be provided, it needs to also include provisions for maintenance and surveillance to prevent antisocial behaviour.	For each infrastructure type there are specified Applicant Responsibilities which are reinforced in the vibrant public space agreement between the host and the City. The Applicant Responsibility states that an: <i>Applicant must</i> <i>ensure the space is maintained in a clean, tidy, good, inoffensive and</i> <i>aesthetically appealing condition at all times</i> . This will ensure the seating is well maintained. Design Objective 8 of the draft Policy states: <i>Optimise safety and security,</i> <i>supporting safe behaviour and use, by maximising opportunities for passive</i> <i>surveillance, integrating safety requirements, and following Crime Prevention</i> <i>through Environmental Design (CPTED) design principles.</i> It is considered that vibrant public spaces will encourage an increased level	No modification required.

DESIGN REQUIREMENTS – PERMANENT SEATING		
Submitter Comment Verbatim	Administration Comment	Recommended Modification
QUESTION 27: Do you have any thoughts or comments on per	nanent seating?	
	of pedestrian movement and as such an increased number of people on the streets providing an increased level of passive surveillance. It is at the discretion of the vibrant public space host to add additional surveillance measures. To date, the City has not received complaints relating to antisocial behaviour in parklets. Damage to parklets is primarily caused by vehicles.	
Submitter 29. Necessary if the furniture is and can be put away outside business hours.	Submitter support noted.	No modification required.
Submitter 32. Yes, this is necessary so that people have places to sit when the business is closed.	Submitter support noted.	No modification required.

Submitter Comment Verbatim	Administration Comment	Recommended Modification
QUESTION 28: Do you have any thoughts or comments on light	ing?	
Submitter 7. Good idea, as long as solar lights	The draft Vibrant Public Spaces Policy strongly encourages solar lighting to be used as a preference. There is the opportunity to investigate the use of an electrical connection to the building which may be required for heating elements or the like. This will require electrical certification and need to be assessed by the City to ensure that the connection is appropriate and required.	No modification required.
Submitter 17. I think that lighting provisions should be expended to be a mandatory requirement for all vibrant public spaces regardless of whether they are solar or electrical. Adequate lighting is important to making these spaces safe.	The provision of lighting is important, particularly where a canopy is incorporated into the design. The Design Requirements are to be modified to state that lighting will be required where a canopy is proposed.	Modify to require the provision of lighting in parklets and eatlets where a canopy is proposed.
Submitter 29. Lighting, whatever it's source, is need for safety. Electric lighting WILL be permitted subject to regulatory approval. The City should NOT view grid power as not being part of a VIBRANT city especially while it "fillies about" with underground power plans. Submitter 32.		Recommended modification: D4.3.18 Solar-powered lighting elements are strongly encouraged <u>on parklets and</u> <u>eatlets. Where the parklet or</u> <u>eatlet has a canopy, the</u> <u>provision of lighting is</u>
Support this although it would be good if solar lighting was required if there's a canopy. Electric lighting also good.		mandatory.

QUESTION 33. Do you have any thoughts or comments about the	ne structure location?	
		each end as specified by the City.
Submitter 32. A new cafe is going in at Stuart Street Reserve up the road and it would be great if the park/Reserve could be improved. We refer to this park as 'needle park' because of the antisocial behaviour and needles - even though there's a sharps disposal. If the new cafe wanted to invest in improvements to the park eg. benches and lighting etc. I'd welcome this. It would help deter the antisocial behaviour.	The advertised draft Vibrant Public Spaces Policy did not permit vibrant public space proposals to be located in the Reserve Built Form Area, as the City is not seeking to encourage private investment in reserves and public open spaces. Whilst not addressed in the draft Vibrant Public Spaces Policy, there are other avenues to consider similar forms of development, including through lease agreements. Where the potential café applicant sought to undertake such development, the draft Vibrant Public Spaces Policy, including the Other Proposal Design Objectives and Applicant Requirements, would not apply.	No modification required.

Submitter Comment Verbatim	Administration Comment	Recommended Modification
QUESTION 34. Do you have any thoughts or comments on the	clear pedestrian zone?	
Submitter 7.	Submitter support noted.	No modification required.
Good.		
Submitter 17.	Noted.	No modification required.
None.		
Submitter 29. The clear pedestrian zone should be moved to the frontage zone against the shop fronts to provide greater safety to pedestrians and the frontage zone moved to be included in the kerbside zone.	The relevant Location Requirement for each applicable vibrant public space type states: vibrant public spaces must be located to ensure the clear pedestrian zone aligns with the clear pedestrian zone in front of neighbouring properties to provide pedestrians with a clear and uninterrupted passage along any footpath. Whilst it would be the City's preference for the space to be located on the road edge this is not always possible due to path design and existing infrastructure. It is important that a consistent pedestrian path is always maintained.	No modification required.
Submitter 31. They should have primacy and should be clearly legible (i.e. in a straight line). Change the image (above) so that the dog is walking in front of the person, as a seeing eye dog, and you will appreciate how important it is to reduce hazzards.	For each relevant vibrant space a Location Requirement is included stating, The vibrant public space must be: <i>located to ensure the clear pedestrian</i> <i>zone aligns with the clear pedestrian zone in front of neighbouring properties</i> <i>to provide pedestrians with a clear and uninterrupted passage along any</i> <i>footpath.</i> The image included is an example of the space.	No modification required.
Submitter 32. Very important to maintain clear pedestrian areas, particularly for those with disabilities.	Noted. The Location Requirements for each vibrant public space type will ensure that this is provided.	No modification required.

LOCATION REQUIREMENTS – PEDESTRIAN GAP

	vehicle movement. The pedestrian gaps providing an exit and entry point for	
	pedestrians to move freely in the 40km/h or traffic calmed environments in	
	which parklets/eatlets are permitted.	
Submitter 32.	Submitter support noted.	No modification required.
Sounds good.		

LOCATION REQUIREMENTS – CAR PARKING OCCUPANCY			
Submitter Comment Verbatim	Administration Comment	Recommended Modification	
QUESTION 37. Do you have any thoughts or comments on car parking occupancy?			

LOCATION REQUIREMENTS – CAR PARKING OCCUPANCY				
Submitter Comment Verbatim	Administration Comment	Recommended Modification		
QUESTION 37. Do you have any thoughts or comments on car	QUESTION 37. Do you have any thoughts or comments on car parking occupancy?			
Submitter 7. Strongly disagree, we need to remove car bays so that people use alternative forms of transport, and we create more liveable, safe streets and town centres. This aligns with SCP priorities and declaration of climate emergency. Submitter 17. I would be supportive of reducing the occupancy limitation to 70% in order to further discourage car use and promote active transportation. Submitter 29. 1. Car parking occupancy as provided by the cities contractors are a farce. 2. 400m catchement too wide. 3. Average occupany figures distort ie early morning figures at 8am almost zero while 10am onwards 100% may result in a less than 85% figure 4. 85% is a figure that is far too high. 5.Occupancy should be moderated on the time period for parking ie 15min parking compared with 4hr parking. Submitter 32. Don't see the need for a parking occupancy cap. There's lots of parking available that's not directly on the main streets where parklets/eatlets are likely to be located. Supporting walkability over cars is my preference.	The draft Vibrant Public Spaces Policy requires car parking demand in the precinct (400m walkable catchment area) to not exceed 85% occupancy. This is to ensure that there is available parking for those who need it. The 85% occupancy limit proposed is a standard rate applied in measuring the capacity of car parking availability and ensures a level of turnover which allows people to come and go at ease. The City's Accessible City Strategy (ACS) prioritised the use of active and sustainable transport modes, and people who are walking over people who are choosing to drive. There may be opportunity to change the 85% occupancy rate provision in future reviews of the policy and as mode shift increases.	No modification required.		

LOCATION REQUIREMENTS – TWO CAN BAY MAXIMUM			
Submitter Comment Verbatim	Administration Comment	Recommended Modification	
QUESTION 38. Do you have any thoughts or comments on the t	wo car bay maximum?		
Submitter 7. Not sure why we need a maximum - vibrant public spaces instead of busy, unsafe loud carriage ways seems like a better idea.	Parklet/eatlet Location Requirement L4.4.15 states: The use of more than two bays may be considered where there is support from neighbouring businesses or tenants and a joint application is submitted by the businesses or tenants. This Location Requirement allows for the two car bay maximum to	No modification required.	
Submitter 17. I would be supportive of increasing this to three car bays. Submitter 32. Like that there's opportunity for more than two bays to be considered if supported by neighbouring businesses.	be exceeded where considered appropriate.		

LOCATION REQUIREMENTS – TWO CAN BAY MAXIMUM			
Submitter Comment Verbatim	Administration Comment	Recommended Modification	
QUESTION 38. Do you have any thoughts or comments on t	he two car bay maximum?		
Submitter 29.	Parklets/eatlets are required to be advertised to all owners/occupiers within a	No modification required.

	residents the opportunity to comment on new spaces.		

LOCATION REQUIREMENTS – CYCLE, PEDESTRIAN AND VEHICLE MOVEMENT		
Submitter Comment Verbatim	Administration Comment	Recommended Modification
QUESTION 39: Do you have any thoughts or comments on cycl	e, pedestrian and vehicular movement?	
Submitter 7.	Submitter comment noted.	
Agree, but should not use this as a reason to remove car bays and make our streets more pedestrian friendly.		
Submitter 17. I would be supportive of measures that restrict or impede vehicle movement and encourage pedestrian and cyclist movement.	The introduction of these spaces will add to pedestrian amenity and create rest spots and points of interest for active transport users. Parklets/eatlets occupy a portion of the carriage way, acting as passive traffic calming through the change they create to the streetscape.	No modification required.
Submitter 29. Oxford St vehicular movement has already been negatively impacted by pedestrians crossing at will with no regard for traffic movement or personal safety. Submitter 32.	The City's Accessible City Strategy (ACS) user hierarchy prioritised the use of active and sustainable transport modes, and people who are walking over people who are choosing to drive. As the ACS prioritises pedestrians over vehicles, free pedestrian movement is prioritised over vehicle movement.	No modification required.
Prioritise the pedestrian over the private vehicle.	In line with City's Strategic Community Plan and ACS user hierarchy, the draft Vibrant Public Spaces Policy prioritise pedestrians over private vehicles.	

LOCATION REQUIREMENTS – EXISTING GREENERY			
Submitter Comment Verbatim	Administration Comment	Recommended Modification

Parklets may be justifiable as fee free as there genuinely is a				
r antioto may be justifiable as the free as there genuinely is a				

APPLICABLE FEES		
Submitter Comment Verbatim	Administration Comment	Recommended Modification
QUESTION 48: Do you have any thoughts or comments on the f	ees or charges?	
possibility that the public can use them. Eatlets should be		
charged market rates, plus be made to compensate for a		
reduction of parking revenue. It will then be up to the business		
to decide if it makes business sense to do it. Why should my		
business, which cant establish an eatlet, subsidise my competitors who can?		
Submitter 31.		
Already stated. Eatlets should pay market rates on an annual		
basis. They are simply leasing land and should pay for it - they		
aren't doing the community a favour. Parklets yes, Eatlest no.		
Perhaps they should be called Drinklets.		
Submitter 32.		
Perhaps eatlets should have an annual fee because they're not		
always available to the public? or perhaps a sliding annual free		
scale could be determined based on the number of days or		
hours an eatlet is public eg. an eatlet operating from 1pm-		
10pm 4 or 5 days a week could have a cheaper annual fee		
than an eatlet operating 6am-3pm 7 days a week because the		
latter is less available for public use.

PART 1 - PRELIMINARY

INTRODUCTION

The City of Vincent Strategic Community Plan 2018 - 2028 (SCP) sets the community vision, priorities and aspirations for the City and includes the Thriving Places priority: "*Our vibrant places and spaces are integral to our identity, economy and appeal. We want to create, enhance and promote great places and spaces for everyone to enjoy*".

To achieve this priority, the Vibrant Public Spaces Policy (Policy) seeks to facilitate public and private investment in the public realm for the benefit of the community.

PURPOSE

The purpose of this Policy and its Vibrant Public Spaces Policy Guidelines (Guidelines) is to provide guidance on the permissibility, requirements and management responsibilities for third party (applicant) proposals to deliver vibrant public spaces on City owned and managed land.

POLICY OBJECTIVES

The objectives of this Policy and its Guidelines are to ensure vibrant public space proposals:

- 1. achieve the Vibrant Public Space Design Objectives (Design Objectives);
- 2. facilitate public and private investment in the public realm for the benefit of the community;
- 3. encourage pedestrian activity and social interaction;
- 4. enhance the public realm and sensitively respond to local character and context; and
- 5. achieve design outcomes that meet community expectations.

CM D22/97919

VIBRANT PUBLIC SPACES POLICY

CITY OF VINCENT

POLICY OPERATION

The Policy and its Guidelines are performance-based. The performance-based approach is applied through a set of Design Objectives to enable site-specific outcomes to be achieved. This reflects that every place and streetscape is different and allows design to be tailored to the local context and specific needs and characteristics of each place.

Vibrant public space proposals need to demonstrate that they achieve the Design Objectives relevant to each proposal type, as outlined in the Guidelines.

While addressing the applicable design requirements and location requirements, as outlined in the Guidelines, is likely to achieve the Design Objectives, they are not a deemed-to-comply pathway and the proposal will be assessed in the context of the entire design solution to ensure the Design Objectives are achieved. Proposals may also satisfy the Design Objectives via alternative means or solutions.

SCOPE

This Policy and its Guidelines apply to vibrant public space proposals on City owned and managed land including:

- **City freehold land**: land which the City owns and is listed as the registered proprietor on the Certificate of Title, such as a park or other public open space;
- Crown reserve: parks or public recreation areas reserved by the Minister for Lands for a purpose in the public interest and vested (pursuant to a Manager Order or other vesting document) in the City under section 46 of the Land Administration Act 1997; and
- **road reserve**: the verge, kerb, carriageway and footpath areas adjacent to road which the City has care, control and management of under section 55(2) of the Land Administration Act 1997.

This Policy does not apply to structures, developments or infrastructure proposed on City owned and managed land by a public authority. Such proposals are to be considered in accordance with the *Public Works Act 1902*, the *Main Roads Act 1930* or other enabling legislation.

PART 2 - POLICY PROVISIONS

DEFINITIONS

adjacent means that on which a vibrant public space proposal sits.

affixed eating area furniture means any affixed or significantly weighted bench, seat, table, planter box, umbrella, light or other item that may be reasonably characterised as eating area street furniture for the use, benefit and enjoyment of business patrons, during business operating hours, and the public, out of business operating hours.

base means that on which a vibrant public space proposal sits.

Page | 2 of 6

CM D22/97919

VIBRANT PUBLIC SPACES POLICY

carriageway means a portion of road that is designed or ordinarily used for vehicular traffic, and includes the shoulders, and areas, including embayments, at the side or centre of the carriageway, used for the stopping or parking of vehicles.

clear corner zone means the area as measured at a 45° angle from the building corner left clear of any structures for the free passage of the public within the footpath and the carriageway.

clear pedestrian zone means the area within the footpath section of the road reserve left clear and of any structures for pedestrian travel which must be maintained at all times for the free passage of the public.

decked platform means a horizontal surface or structure raised above or flush with the ground level of the surrounding area. A decked platform can form the base of a parklet, eatlet or other proposal.

eatlet means an outdoor eating area during business operating hours and small public park out of business operating hours. Eatlets are reserved for customers of particular businesses during business operating hours and are available for anyone to use out of business operating hours. An eatlet repurposes part of the street into a dual purpose outdoor eating area and small public park through the provision of seating, shade and greenery.

footpath means the part of the road reserve designated and built for the movement and rest of pedestrians.

frontage zone means the area immediately adjacent to the abutting property between the property boundary and the end of the clear pedestrian zone.

kerb buffer means the 600mm minimum space maintained clear at all times between the face of the kerb and the start of either the kerbside zone or the clear pedestrian zone.

kerbside zone means the area between the end of the kerb buffer and the clear pedestrian zone.

new paving means paving that was not previously there. New paving can form the base of a parklet, eatlet or other proposal.

outdoor eating area means an outdoor eating facility or establishment on any part of a public place in which furniture is provided for the purpose of the supply of food or drink to the public or the consumption of food or drink by the public, but does not include such a facility or establishment on private land.

outdoor eating area permit means a permit granted by the City to an approved food premises and/or licensed premises allowing the footpath to be used by for the service of food and drink and/or the placement of temporary furniture during business operating hours.

parklet means a small public park set into the existing streetscape. Parklets are for anyone to use at all times, and are not reserved for customers of particular businesses. Parklets repurposes part of the street into a public space for people through the provision of seating, shade and greenery.

pop-up eatlet means a pop-up outdoor eating area during business operating hours and small public park out of business operating hours. Pop-up eatlets are reserved for customers of particular businesses during business operating hours and are available for anyone to use out of business operating hours. A pop-up eatlet repurposes part of the street into a dual purpose outdoor eating area and small public park through the provision of seating, shade and greenery during a City approved or acknowledged event.

Page | 3 of 6

CM D22/97919

pop-up parklet means a small pop-up public park set into the existing streetscape. Pop-up parklets are for anyone to use at all times, and are not reserved for customers of particular businesses. Pop-up parklets repurposes part of the street into a small public park through the provision of seating, shade and greenery during a City approved or acknowledged event.

public authority means a Minister of the State; an agency, authority or instrumentality of the State; or a local government; or a body, whether corporate or unincorporate, that is established or continued for a public purpose under a written law.

public realm means all public spaces including thoroughfare or streets, public car parks, reserves/public open space, civic squares and other areas used by and accessible to the community.

street furniture means any affixed or weighted bench, seat, table, litter bin, planter box, light, umbrella, bicycle rack or other item that may be reasonably characterised as street furniture for the use, benefit and enjoyment of the public on City owned and managed land.

t-top bollard means any flexible bollard with reflective bands in order to increase visibility. These are considered to be a temporary safety measure, used to direct vehicle and pedestrian traffic.

verge means that part of a thoroughfare or street between the carriageway and the land which abuts the thoroughfare, but does not include a footpath.

vibrant public space means an area in the public realm that supports social interaction and community engagement, and provides pedestrian amenity for everyone to enjoy.

vibrant public space proposal means any third party proposal which seeks to enhance City owned and managed land for the benefit of the community.

POLICY

1. Permissibility and Assessment

The suitability of utilising public space to facilitate vibrant public space proposals is site specific and dependent on the individual streetscape and context relevant to each proposal.

- 1.1 Vibrant public space proposals are to achieve the applicable Design Objectives, address the applicable design and location requirements, and meet the approval requirements as prescribed in Table 1 and the Guidelines.
- 1.2 Vibrant public space proposal applicants are to meet the applicable applicant responsibilities as prescribed in the Guidelines.
- 1.3 Where a proposal type is not specified or the proposal does not meet the permissibility or requirements as prescribed in Table 1, the proposal may be considered under 'other proposal' type and assessed against the Design Objectives.
- 1.4 Proposals that do not meet the Design Objectives shall not be progressed through the approvals process and shall not be approved.

1 The listed vibrant public space types are not permitted in the Reserve Built Form Area. Where vibrant public space proposals are proposed in the Reserve Built Form Area, they shall not be progressed through the approvals process and shall not be approved.

2 The listed Built Form Area means the area identified by the same name in Local Planning Policy 7.1.1 - Built Form. The Built Form Area permissibility relates to City owned and managed land within and adjacent to the specified Built Form Area.

3 Where proposals meet the design and location requirements prescribed in the Guidelines, engagement will be undertaken to inform the community. Where proposals are classified as 'other proposal' or do not meet the design and location requirements, engagement will be undertaken to consult with the community.

2. Design Objectives

Achieving good vibrant public space design requires reconciling a range of different, often competing, objectives, which vary according to the scale, context and type of vibrant public space proposed. Good vibrant public space design requires application of design-thinking in the context of addressing local challenges as well as a performance-based approach to assessment.

In the context of State Planning Policy 7.0 *Design of the Built Environment* (WAPC, 2019)(SPP 7.0) and 7.2 *Precinct Design* (WAPC, 2021)(SPP 7.2), the Design Objectives listed below have been developed to specify the role of vibrant public space design in achieving the objectives of this Policy and addressing the principles and outcomes of SPP 7.0 and SPP 7.2.

2.1 Context and character

Respond to and enhance the distinctive characteristics of a local area, contributing to a sense of place.

- 2.2 Landscape quality
 - Integrate landscape design and contribute to community wellbeing through the protection and/or enhancement of the green network.

Page | 5 of 6

2.3 Built form and scale

Ensure that massing and height are appropriate and sympathetic to existing built form and the intended future character of the local area.

2.4 Functionality and build quality

Meet the needs and expectations of the community, balancing durability, maintenance and service access requirements with aesthetic quality.

2.5 Sustainability

Contribute positively to environmental, social and economic outcomes through passive environmental design, enhancement of the green network and promotion of active transport modes.

2.6 Amenity

Provide comfortable spaces for the community that encourage physical activity, enable a range of uses, and are accessible to all.

2.7 Legibility

Provide places that are legible, with good lines of sight to key locations, clear connections and easily identifiable elements to help people find their way around.

2.8 Safety

Optimise safety and security, supporting safe behaviour and use, by maximising opportunities for passive surveillance, integrating safety requirements, and following Crime Prevention through Environmental Design (CPTED) design principles.

2.9 Community

Respond to local community needs and the wider social context by delivering a mix of public spaces that support a diverse range of people and facilitate social interaction.

2.10 Aesthetics

Contribute to a unique place identity, high level of amenity, and result in attractive and inviting places through scale, arrangement, articulation and material quality.

INTRODUCTION

What are the Vibrant Public Space Policy Guidelines?

The Vibrant Public Spaces Policy Guidelines (Guidelines) provide supporting information to assist:

- the City to implement the Vibrant Public Spaces Policy (Policy); and
- local businesses, property owners and not-for-profit/ community groups to deliver vibrant public spaces on City owned and managed land.

What is a vibrant public space?

Vibrant public spaces are areas in the public realm that support social interaction and community engagement. They are spaces which provide pedestrian amenity and are for everyone to enjoy.

Vibrant public spaces are dog friendly, and smoke free at all times.

What is a vibrant public space proposal?

Vibrant public space proposals are third party proposals which seek to enhance City of Vincent (City) owned and managed land for the benefit of the community.

Why host a vibrant public space?

Vibrant public spaces add value to the surrounding area by repurposing City owned and managed land. They:

- enhance underutilised space, provide pedestrian amenity and present opportunities for community connection, greening and public art;
- encourage pedestrian movement and activity to activate the public realm;
- support businesses by fostering vibrancy and encouraging people to linger longer; and
- complement the character of the existing streetscape and local neighbourhood and provide opportunities for creative expression.

Who can apply to host a vibrant public space?

Any business, property owner or not-for-profit/community group (applicant) can apply to host a vibrant public space.

What are the Vibrant Public Space Design Objectives?

Every place and streetscape in the City is different and the following set of Design Objectives enable a performancebased approach to vibrant public space proposal assessment.

Vibrant public space proposals need to demonstrate that they achieve the Design Objectives relevant to each proposal type, as outlined in Sections 01-05.

Design Objectives:

- Context and character Respond to and enhance the distinctive characteristics of a local area, contributing to a sense of place.
- Landscape quality Integrate landscape design and contribute to community wellbeing through the protection and/or enhancement of the green network.
- 3. Built form and scale Ensure that massing and height are appropriate and sympathetic to existing built form and the intended future character of the local area.
- Functionality and build quality Meet the needs and expectations of the community, balancing durability, maintenance and service access requirements with aesthetic quality.
- Sustainability Contribute positively to environmental, social and economic outcomes through passive environmental design, enhancement of the green network and promotion of active transport modes.
- 6. Amenity Provide comfortable spaces for the community that encourage physical activity, enable a range of uses, and are accessible to all.
- 7. Legibility Provide places that are legible, with good lines of sight to key locations, clear connections and easily identifiable elements to help people find their way around.
- Safety Optimise safety and security, supporting safe behaviour and use, by maximising opportunities for passive surveillance, integrating safety requirements, and following Crime Prevention through Environmental Design (CPTED) design principles.
- **9. Community** Respond to local community needs and the wider social context by delivering a mix of public spaces that support a diverse range of people and facilitate social interaction.
- **10.** Aesthetics Contribute to a unique place identity, high level of amenity, and result in attractive and inviting places through scale, arrangement, articulation and material quality.

Which type of vibrant public space to host?

The City accepts applicant proposals for the following vibrant public space types for assessment:

STREET FURNITURE

Street furniture is:

 any affixed or significantly weighted bench, seat, table, litter bin, planter box, umbrella, light, bicycle rack or other item that may be reasonably characterised as street furniture

AFFIXED EATING AREA FURNITURE

Affixed eating area furniture is:

- any affixed or significantly weighted bench, seat, table, planter box, umbrella, light or other item that may be reasonably characterised as eating area furniture
- associated with an existing approved outdoor eating area for the use, benefit and enjoyment of business patrons, during business operating hours, and the public, out of business operating hours, on City owned and managed land

POP-UP PARKLET

A pop-up parklet is:

- a small pop-up public park set into the existing streetscape
- for anyone to use at all times, and are not reserved for customers of particular businesses
- the repurposing of part of the street into a small public park through the provision of seating, shade and greenery during a City approved or acknowledged event

POP-UP EATLET

A pop-up eatlet is:

- a pop-up outdoor eating area during business operating hours and small public park out of business operating hours.
- reserved for customers of particular businesses during business operating hours and are available for anyone to use out of business operating hours
- the repurposing of part of the street into a dual purpose outdoor eating area and small public park through the provision of seating, shade and greenery during a City approved or acknowledged event

To assist in determining which type to host, refer to the flowchart on page 6.

PARKLET

A parklet is:

- a small public park set into the existing streetscape
- for anyone to use at all times, and are not reserved for customers of particular businesses
- the repurposing of part of the street into a public space for people through the provision of seating, shade and greenery

EATLET

An eatlet is:

- an outdoor eating area during business operating hours and small public park out of business operating hours
- reserved for customers of particular businesses during business operating hours and are available for anyone to use out of business operating hours
- the repurposing of part of the street into a dual purpose outdoor eating area and small public park through the provision of seating, shade and greenery

OTHER PROPOSAL

An other proposal is:

 a vibrant public space proposal not specified in the Vibrant Public Spaces Policy which addresses the Policy Objectives and achieves the Vibrant Public Space Design Objectives

Which type of vibrant public space to host?

 permitted where located adjacent an existing approved business, excluding a home business

1.2 Design Objectives

DESIGN OBJECTIVES

O1.2.1 Respond to and enhance the distinctive characteristics of a local area, contributing to a sense of place.

O1.2.2 Integrate landscape design and contribute to community wellbeing through the protection and/or enhancement of the green network.

O1.2.3 Meet the needs and expectations of the community, balancing durability, maintenance and service access requirements with aesthetic quality.

O1.2.4 Provide comfortable spaces for the community that encourage physical activity, enable a range of uses, and are accessible to all.

O1.2.5 Provide places that are legible, with good lines of sight to key locations, clear connections and easily identifiable elements to help people find their way around.

O1.2.6 Optimise safety and security, supporting safe behaviour and use, by maximising opportunities for passive surveillance, integrating safety requirements, and following Crime Prevention through Environmental Design (CPTED) design principles.

1.3 Design Requirements

DESIGN REQUIREMENTS

D1.3.1 Street furniture design including materials, colour and finish shall be in keeping with the surrounding streetscape and streetscape palette.

D1.3.2 Street furniture must be of an appropriate scale in relation to other elements of the streetscape and not have the visual or apparent effect of enclosing a public space.

D1.3.3 Each bench, seat, table, planter box and bicycle rack, shall be no more than 900mm in height and 1500mm in length, unless additional height and length can be demonstrated to meet Design Objectives O1.2.1 and O1.2.5.

D1.3.4 Umbrellas shall have a minimum clearance of 2400mm from the finished ground level to the lowest part of the umbrella canopy.

D1.3.5 Street furniture must be made of durable materials and free of protrusions and sharp edges.

D1.3.6 Street furniture must be affixed or weighted to the satisfaction of the City and must be able to be removed within a 24 hour period without damage to the footpath, verge or any surrounding service pits. Part or all of the street furniture may need to be temporarily or permanently removed for street improvements, utility work, service access or emergencies.

D1.3.7 Business logos, advertising, other branding, and reserved signs are prohibited. A small unobtrusive plaque recognising proposal sponsors and material donors may be acceptable if in line with the Design Objectives.

1.4 Location Requirements

LOCATION REQUIREMENTS

L1.4.1 Street furniture must be located on an existing verge or footpath.

L1.4.2 Street furniture shall only be permitted in or adjacent the Town Centre Built Form Area, Activity Corridor Built Form Area, Mixed Use Built Form Area or in or adjacent the Transit Corridor Built Form Area and Residential Built Form Area where located adjacent to an existing business, owned or tenanted by the applicant, excluding a home business.

LOCATION REQUIREMENTS

L1.4.3 Where street furniture is proposed adjacent to a business or tenancy or encroaches in front of a business or tenancy, the location must be supported by the adjacent business or tenant.

L1.4.4 Street furniture must be located a minimum of 600mm from any service pit or pedestrian ramp.

L1.4.5 Street furniture shall be located to provide a minimum 2000mm width clear pedestrian zone, unless:

- · the width cannot be provided due to the design of the existing streetscape;
- no alternative location for street furniture exists in close proximity to the applicant's business or tenancy: and
- · a reduced width can be demonstrated to meet Design Objectives O1.2.4 and O1.2.5.

Where a reduced clear pedestrian zone is deemed appropriate, a minimum width of no less than 1500mm must be maintained at all times.

L1.4.6 Street furniture must be located to ensure the clear pedestrian zone aligns with the clear pedestrian zone in front of neighbouring properties to provide pedestrians with a clear and uninterrupted passage along any footpath.

L1.4.7 Street furniture must be located to provide a minimum 600mm kerb buffer between the face of the kerb and the start of the kerbside zone.

L1.4.8 Street furniture must not impede pedestrian, cyclist or vehicle access and sightlines.

L1.4.9 Street furniture shall be located outside of any clear corner zone as measured at a 45° angle from the corner of a corner lot building, unless the street furniture scale and location can be demonstrated to meet Design Objective 01.2.5.

L1.4.10 Existing street furniture shall not be removed or relocated to accommodate street furniture proposals, unless the proposal can demonstrate it meets the Design Objectives 01.2.1, 01.2.4, 01.2.5 and will contribute to achieving the Policy Objectives. Where the removal or relocation of existing street furniture is supported by the City, it will be at the expense of the applicant unless otherwise scheduled through the City's streetscape maintenance program.

1.5 Approval Requirements

Street furniture proposals must fulfill the approval requirements prescribed in the table below in order to obtain approval for installation.

required

1.6 Applicant Responsibilities

APPLICANT RESPONSIBILITIES

A1.6.1 Applicant must engage with adjacent businesses and tenants to inform them of the street furniture proposal and to obtain support for the proposal where required in relation to L1.4.3.

A1.6.2 Applicant must provide structural and/or product certification for the street furniture, as specified by the City, prior to approval.

A1.6.3 Applicant must notify the City 24 hours prior to the installation of any approved street furniture, to confirm the installation date and time, and within 24 hours of completing installation, to confirm installation is complete.

APPLICANT RESPONSIBILITIES

A1.6.4 Applicant must hold current a policy of insurance for Public Liability for an amount of not less than \$10,000,000.00 (ten million dollars). A copy of the current certificate is to be provided to the City.

A1.6.5 Where excavation is required, the applicant is responsible for lodging and completing a Dial Before You Dig enquiry prior to the commencement of excavation.

A1.6.6 Where excavation is required, the applicant is responsible for reinstatement to the satisfaction of the City, and the rectification of any damage to the City's infrastructure or any other service within the road reserve as a result of any works.

A1.6.7 Applicant must indemnify the City and its employees, agents or contractors, against all actions, suits, claims, damages, losses and expenses made against or incurred by the City arising from any activity, action or thing performed or erected or installed in accordance with the executed agreement.

A1.6.8 Applicant must ensure street furniture is maintained in a clean, tidy, good, inoffensive and aesthetically appealing condition at all times.

A1.6.9 Applicant must ensure any plants associated with the street furniture are maintained in a healthy, neat and tidy condition at all times.

A1.6.10 Applicant must remove the street furniture or replace any planting, at the applicant's expense, and make good to the satisfaction of the City at the request of the City, public utility provider or the Minister for Lands (if Crown land or Crown road reserve) within 14 days of receiving the request. Reasons for a request to remove street furniture may include but are not limited to streetscape maintenance, required service access and noncompliance with the executed agreement.

A1.6.11 In the case of planned maintenance, the applicant is responsible for the removal, storage and reinstallation of the street furniture.

A1.6.12 Applicant to renew vibrant public spaces agreement.

1.7 Approval Process and Compliance

Street furniture proposals which achieve the design objectives, and where the applicant agrees to fulfill the applicant responsibilities, shall be approved under delegation and an agreement prepared for execution prior to installation.

1	Read the Vibrant Public Spaces Policy and Guidelines
2	Plan your proposal What type of vibrant public space do you want?
3	Express your interest in developing a proposal via mail@vincent.wa.gov.au
4	Meet City representative on site Determine site suitability and discuss proposal ideas
5	Have a conversation with your neighbours Will they support the proposal?
6	Design your proposal in consultation with the City Refer design and location requirements
7	Submit proposal application and plans Include neighbour support and certification information
8	Proposal application assessment Meets requirements? no (return to 6) yes (progress)
9	City prepares proposal application assessment report Proposal recommended for approval or refusal
<u> </u>	City prepares 24 month vibrant public space agreement Only if proposal application approved
<u> </u>	Review and sign vibrant public space agreement
12	Vibrant public space agreement executed and issued Requires renewal by specified date
) 13	Notify City 24 hours prior to installing street furniture and within 24 hours of completing installation
<u> </u>	Enjoy and maintain the vibrant public space!
	Applicant responsibility

City of Vincent responsibility

Non-compliance with the executed vibrant public space agreement will result in:

- an onsite inspection to confirm any departures from the agreement;
- written notification to confirm the departures which require remediation; and
- removal of the street furniture, should the departures not be addressed within 21 days of the written notification being issued.

O2 AFFIXED EATING AREA FURNITURE

2.1 Design and Location Permissibility

Affixed eating area furniture proposals that meet the permissibility requirements prescribed in the table below shall be accepted for assessment:

✓ permitted

 permitted where located adjacent an existing approved business, excluding a home business

2.2 Design Objectives

DESIGN OBJECTIVES

O2.2.1 Respond to and enhance the distinctive characteristics of a local area, contributing to a sense of place.

O2.2.2 Integrate landscape design and contribute to community wellbeing through the protection and/or enhancement of the green network.

O2.2.3 Meet the needs and expectations of the community, balancing durability, maintenance and service access requirements with aesthetic quality.

O2.2.4 Provide comfortable spaces for the community that encourage physical activity, enable a range of uses, and are accessible to all.

O2.2.5 Provide places that are legible, with good lines of sight to key locations, clear connections and easily identifiable elements to help people find their way around.

DESIGN OBJECTIVES

O2.2.6 Optimise safety and security, supporting safe behaviour and use, by maximising opportunities for passive surveillance, integrating safety requirements, and following Crime Prevention through Environmental Design (CPTED) design principles.

O2.2.7 Contribute to a unique place identity, high level of amenity, and result in attractive and inviting places through scale, arrangement, articulation and material quality.

2.3 Design Requirements

DESIGN REQUIREMENTS

D2.3.1 Affixed eating area furniture design including materials, colour and finish shall have due regard for the surrounding streetscape and streetscape palette.

D2.3.2 Affixed eating area furniture must be of an appropriate scale in relation to other elements of the streetscape and not have the visual or apparent effect of enclosing a public space.

D2.3.3 Each bench, seat, table, planter box and the like shall be no more than 900mm in height and 1500mm in length, unless additional height and length can be demonstrated to meet Design Objectives O2.2.1 and O2.2.5.

D2.3.4 Umbrellas and the like shall have a minimum clearance of 2400mm from the finished ground level to the lowest part of the umbrella canopy.

D2.3.5 Affixed eating area furniture must be made of durable materials and free of protrusions and sharp edges.

D2.3.6 Affixed eating area furniture must be affixed or weighted to the satisfaction of the City and must be able to be removed within a 24 hour period without damage to the footpath, verge or any surrounding service pits. Part or all of the furniture may need to be temporarily or permanently removed for street improvements, utility work, service access or emergencies.

D2.3.7 Business logos, advertising, other branding, and reserved signs are prohibited. A small unobtrusive plaque recognising proposal sponsors and material donors may be acceptable if in line with the Design Objectives.

DESIGN REQUIREMENTS

D2.3.8 Affixed eating area furniture must incorporate Vibrant Public Space signage. The signage is to be supplied by the City and installed by the applicant. The scale of the affixed eating area furniture will determine the scale of signage required. The City shall specify the scale required prior to approval.

Vibrant Public Space Sign Example

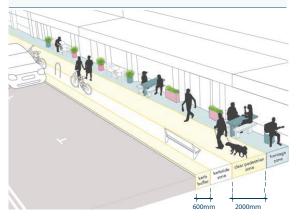

2.4 Location Requirements

LOCATION REQUIREMENTS

L2.4.1 Affixed eating area furniture must be located on an existing verge or footpath.

L2.4.2 Affixed eating area furniture shall only be permitted in or adjacent the Town Centre Built Form Area, Activity Corridor Built Form Area, Mixed Use Built Form Area or in or adjacent the Transit Corridor Built Form Area and Residential Built Form Area where located adjacent to an existing business, owned or tenanted by the applicant, excluding a home business.

L2.4.3 Affixed eating area furniture shall only be located in the frontage zone or kerbside zone within an existing approved Outdoor Eating Area in conjunction with an existing approved and current Outdoor Eating Area Permit.

LOCATION REQUIREMENTS

L2.4.4 Where the location of affixed eating area furniture encroaches in front of more than one business or tenancy, the location must be supported by the adjacent business or tenant, and tenancy owner.

L2.4.5 Affixed eating area furniture must be located a minimum of 600mm from any service pit and must be setback from existing street trees and planting, to ensure the health of the tree or planting.

L2.4.6 Affixed eating area furniture shall be located to provide a minimum 2000mm width clear pedestrian zone, unless:

- the width cannot be provided due to the design of the existing streetscape; and
- a reduced width can be demonstrated to meet Design Objectives 02.2.4 and 02.2.5.

Where a reduced clear pedestrian zone is deemed appropriate, a minimum clear pedestrian zone of no less than 1500mm must be maintained at all times.

L2.4.7 Affixed eating area furniture must be located to ensure the clear pedestrian zone aligns with the clear pedestrian zone in front of neighbouring properties to provide pedestrians with a clear and uninterrupted passage along any footpath.

L2.4.8 Affixed eating area furniture must be located to provide a minimum 600mm kerb buffer between the face of the kerb and the start of the kerbside zone.

L2.4.9 Affixed eating area furniture must not impede pedestrian, cyclist or vehicle access and sightlines.

L2.4.10 Affixed eating area furniture shall be located outside of any clear corner zone as measured at a 45° angle from the corner of a corner lot building, unless the street furniture scale and location can be demonstrated to meet Design Objective O2.2.5.

L2.4.11 Existing street furniture shall not be removed or relocated to accommodate new affixed eating area furniture proposals, unless the proposal can demonstrate it meets Design Objectives O2.2.1, O2.2.4, O2.2.5 and will contribute to achieving the Policy Objectives. Where the removal or relocation of existing street furniture is supported by the City, it will be at the expense of the applicant unless otherwise scheduled through the City's streetscape maintenance program.

2.5 Approval Requirements

Affixed eating area furniture proposals must fulfill the approval requirements prescribed in the table below in order to obtain approval for installation.

required

o required where located in the Transit Corridor Built Form Area or Residential Built Form Area

2.6 Applicant Responsibilities

APPLICANT RESPONSIBILITIES

A2.6.1 Applicant must engage with adjacent businesses and tenants to inform them of the affixed eating area furniture proposal and to obtain support for the proposal where required in relation to L2.4.4.

A2.6.2 Applicant must pay vibrant public space proposal approval fee, as prescribed in the City's annual fees.

A2.6.3 Applicant must provide structural and/or product certification for the affixed eating area furniture, as specified by the City, prior to approval.

A2.6.4 Applicant must notify the City 24 hours prior to the installation of any approved affixed eating area furniture, to confirm the installation date and time, and within 24 hours of completing installation, to confirm installation is complete.

A2.6.5 Applicant must hold current a policy of insurance for Public Liability for an amount of not less than \$10,000,000.00 (ten million dollars). A copy of the current certificate is to be provided to the City.

A2.6.6 Where excavation is required, the applicant is responsible for lodging and completing a Dial Before You Dig enquiry prior to the commencement of excavation.

APPLICANT RESPONSIBILITIES

A2.6.7 Where excavation is required the applicant is responsible for reinstatement to the satisfaction of the City, and the rectification of any damage to the City's infrastructure or any other service within the road reserve as a result of any works.

A2.6.8 Applicant must indemnify the City and its employees, agents or contractors, against all actions, suits, claims, damages, losses and expenses made against or incurred by the City arising from any activity, action or thing performed or erected or installed in accordance with the executed agreement.

A2.6.9 Applicant must permit dogs in the Outdoor Eating Area associated with the affixed eating area furniture.

A2.6.10 Applicant must not permit or encourage smoking in the Outdoor Eating Area associated with the affixed eating area furniture.

A2.6.11 Applicant must ensure affixed eating area furniture is maintained in a clean, tidy, good, inoffensive and aesthetically appealing condition at all times.

A2.6.12 Applicant must ensure any plants associated with the affixed eating area furniture are maintained in a healthy, neat and tidy condition at all times.

A2.6.13 Applicant must remove the affixed eating area furniture or replace any planting, at the applicant's expense, and make good to the satisfaction of the City at the request of the City, public utility provider or the Minister for Lands (if Crown land or Crown road reserve) within 14 days of receiving the request. Reasons for a request to remove affixed eating area furniture may include but are not limited to streetscape maintenance, required service access and non-compliance with the executed agreement.

A2.6.14 In the case of planned maintenance, the applicant is responsible for the removal, storage and reinstallation of the affixed eating area furniture.

A2.6.15 Applicant must report any changes to business or property ownership to the City and ensure that if a change in ownership occurs, the applicant will either remove the affixed eating area furniture or transfer the agreement to the new owner in consultation with the City.

A2.6.16 Applicant to renew vibrant public spaces agreement.

A2.5.17 Applicant must install City provided and prescribed Vibrant Public Space signs prior to installation completion.

2.7 Approval Process and Compliance

Affixed eating area furniture proposals which achieve the design objectives, and where the applicant agrees to fulfill the applicant responsibilities, shall be approved under delegation and an agreement prepared for execution prior to installation.

- removal of the affixed eating area furniture, should the departures not be addressed within 21 days of the written notification being issued.

03 POP-UP PARKLET/ POP-UP EATLET

3.1 Design and Location Permissibility

Pop-up parklet and pop-up eatlet proposals that meet the permissibility requirements prescribed in the table below shall be accepted for assessment:

permitted where located

permitted where located adjacent an existing approved business, excluding a home business

3.2 Design Objectives

DESIGN OBJECTIVES

O3.2.1 Respond to and enhance the distinctive characteristics of a local area, contributing to a sense of place.

O3.2.2 Integrate landscape design and contribute to community wellbeing through the protection and/or enhancement of the green network.

O3.2.3 Contribute positively to environmental, social and economic outcomes through passive environmental design, enhancement of the green network and promotion of active transport modes.

O3.2.4 Provide comfortable spaces for the community that encourage physical activity, enable a range of uses, and are accessible to all.

O3.2.5 Provide places that are legible, with good lines of sight to key locations, clear connections and easily identifiable elements to help people find their way around.

DESIGN OBJECTIVES

O3.2.6 Optimise safety and security, supporting safe behaviour and use, by maximising opportunities for passive surveillance, integrating safety requirements, and following Crime Prevention through Environmental Design (CPTED) design principles.

O3.2.7 Respond to local community needs and the wider social context by delivering a mix of public spaces that support a diverse range of people and facilitate social interaction.

O3.2.8 Contribute to a unique place identity, high level of amenity, and result in attractive and inviting places through scale, arrangement, articulation and material quality.

3.3 Design Requirements

DESIGN REQUIREMENTS

D3.3.1 Pop-up parklet and pop-up eatlet materials, colours and finishes shall complement and add interest to the surrounding streetscape and streetscape palette. Materials should be durable and non-reflective, and recycled or sourced locally where possible.

D3.3.2 Benches, seats, tables, planter boxes and the like shall be no more than 900mm in height and 1500mm in length, unless additional height and length can be demonstrated to meet Design Objectives O3.2.1 and O3.2.5.

D3.3.3 Umbrellas and the like shall have a minimum clearance of 2400mm from the finished ground level to the lowest part of the umbrella canopy.

D3.3.4 Pop-up parklets and pop-up eatlets must be free of protrusions and sharp edges.

D3.3.5 Pop-up parklets and pop-up eatlets must be able to be removed within a 24 hour period without damage to the footpath, verge or any surrounding service pits.

D3.3.6 Non-slip unfixed temporary surface materials, such as astroturf, may be applied to the existing ground surface to enhance a pop-up parklet or pop-up eatlet's aesthetic appeal.

D3.3.7 Pop-up parklet and pop-up eatlet furniture shall be freestanding and removed at the close of business each day and/or weighted to the satisfaction of the City.

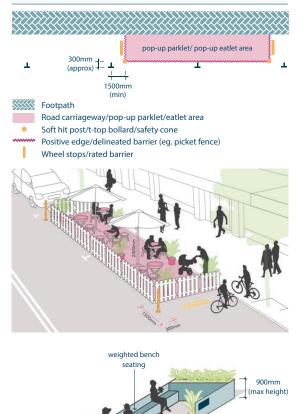

DESIGN REQUIREMENTS

D3.3.8 Pop-up parklets and pop-up eatlets shall be freestanding and not require anchoring into the City's road infrastructure. If a safety issue presents itself and anchoring is required, this will be assessed and may be approved by the City on a case by case basis.

D3.3.9 Pop-up parklets and pop-up eatlets located where a road closure is not in place must only be accessible from the adjoining footpath via an unobstructed section which must be at least 1500mm wide.

D3.3.10 Pop-up parklets and pop-up eatlets located where a road closure is not in place must include the following safety materials:

- soft hit posts, t-top bollards or 750mm road safety cones at each corner (roadside);
- wheel stops at each end unless the car bay is embayed or adjacent a tree well; and
- rated barriers at each end as specified by the City. These may not be required in all locations.

DESIGN REQUIREMENTS

D3.3.11 Pop-up parklets and pop-up eatlets must have a positive edge along the road and parking bay facing sides to offer adequate protection for users from moving vehicular traffic. The positive edge can take the form of planters, picket fencing, or some other appropriate barrier type to be agreed with the City. The height and scale of the buffer required will vary depending on the local context. For example, on some low-traffic streets, a continuous edge may not be required. The City will determine this on a case by case basis in collaboration with the applicant.

D3.3.12 Pop-up parklets and eatlets shall feel open and welcoming. To ensure po-up parklets and pop-up eatlets do not have the visual or apparent effect of enclosing a public space, positive edges are not permitted above 900mm in height from the footpath finished floor level, unless additional height is required due to the slope of the site and the proposal can be demonstrated to meet Design Objective O3.2.8.

D3.3.13 Pop-up parklets and pop-up eatlets must incorporate elements of furniture that are available for the community to use throughout the event to ensure there are places for people to sit at all times during the event.

D3.3.14 Business logos, advertising, other branding, and reserved signs are prohibited. A small unobtrusive plaque recognising proposal sponsors and material donors may be acceptable if in line with the Design Objectives.

D3.3.15 Pop-up parklets and pop-up eatlets must have a minimum of two Vibrant Public Space signs installed. These are to be supplied by the City and installed by the applicant prior to installation completion.

D3.3.16 Pop-up parklets and pop-up eatlets must incorporate elements of living green planting (greenery), such as shrubs, succulents or trees. A minimum of 5% of the pop-up area shall be greenery. Artificial man-made green elements are not considered living green planting and are not acceptable alternatives.

signage

3.4 Location Requirements

LOCATION REQUIREMENTS

L3.4.1 Pop-up parklets and pop-up eatlets must be located on the existing ground surface of a car bay within the road carriageway.

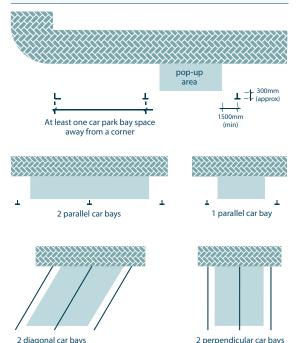

L3.4.2 Pop-up parklets and pop-up eatlets shall only be permitted on roads where the speed limit does not exceed 40km/h, or on roads where traffic calming is in place and the speed limit does not exceed 50km/h.

L3.4.3 Pop-up parklets and pop-up eatlets must not be located on roads classified as Primary Distributor or four lane District Distributor roads, including those with timed clearways in place.

L3.4.4 Pop-up parklets and pop-up eatlets shall generally be setback at least one car park space from a corner, unless a reduced setback can be demonstrated to meet Design Objectives O3.2.5.

L3.4.5 Pop-up parklets and pop-up eatlets may be permitted in on-street, parallel, angled, diagonal, perpendicular and/or paid car parking bays.

L3.4.6 Pop-up parklets and pop-up eatlets shall have a minimum buffer distance of 1500mm between the outer edge of adjacent parking spaces and the edge of the pop-up area.

LOCATION REQUIREMENTS

L3.4.7 Pop-up parklets and pop-up eatlets shall have a minimum buffer distance between the roadside outer edge of the parking space and the edge of the pop-up area (approximately 300mm). This buffer distance will be determined by the City on a case by case basis

L3.4.8 Pop-up parklets and pop-up eatlets shall not be permitted in embayed parking spaces which service public transport, on-demand transport, service vehicles or people with disabilities.

L3.4.9 Pop-up parklets and pop-up eatlets shall only be permitted in or adjacent the Town Centre Built Form Area, Activity Corridor Built Form Area, Mixed Use Built Form Area or in or adjacent the Transit Corridor Built Form Area and Residential Built Form Area where located adjacent to an existing business, owned or tenanted by the applicant, excluding a home business.

L3.4.10 Pop-up parklets and pop-up eatlets shall not impede or negatively impact upon pedestrian, cyclist or vehicular movement, sightlines at road junctions or vehicle access crossovers, or impede emergency vehicle movement.

L3.4.11 A maximum of two parking bays shall be used adjacent to the applicant's business or tenancy.

L3.4.12 The use of more than two bays may be considered where there is support from neighbouring businesses or tenants and a joint vibrant public space proposal application is submitted by the businesses or tenants.

L3.4.13 Weighted furniture must be located a minimum of 600mm from any service pit.

L3.4.14 Pop-up parklets and pop-up eatlets must consider any street trees and planting and maintain a minimum 500mm setback to ensure the health of the tree or planting.

L3.4.15 Existing street trees and planting shall not be removed or relocated to accommodate a pop-up parklet or pop-up eatlet proposal.

L3.4.16 Existing street furniture shall not be removed or relocated to accommodate a pop-up parklet or pop-up eatlet proposal, unless the proposal can demonstrate it meets the Design Objectives O3.2.1, O3.2.4, O3.2.5 and will contribute to achieving the objectives of this Policy. Where the removal or relocation of existing street furniture is supported by the City, it will be at the expense of the applicant unless otherwise scheduled through the City's streetscape maintenance program.

3.5 Approval Requirements

Pop-up parklet and pop-up eatlet proposals must fulfill the approval requirements prescribed in the table below in order to obtain approval for installation.

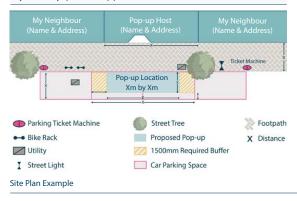

3.6 Applicant Responsibilities

APPLICANT RESPONSIBILITIES

A3.6.1 Applicant must engage with the event organiser and adjacent businesses and tenants to inform them of the popup parklet or pop-up eatlet proposal and to obtain support for the proposal where required in relation to L3.4.12.

A3.6.2 Applicant must submit complete vibrant public spaces application form inclusive of scaled site plan, proposal precedent imagery and demonstrated neighbour support.

A3.6.3 Applicant must provide structural and/or product certification for the affixed eating area furniture, as specified by the City, prior to approval.

APPLICANT RESPONSIBILITIES

A3.6.4 Applicant must hold current a policy of insurance for Public Liability for an amount of not less than \$10,000,000.00 (ten million dollars). A copy of the current certificate is to be provided to the City.

A3.6.5 Applicant must indemnify the City and its employees, agents or contractors, against all actions, suits, claims, damages, losses and expenses made against or incurred by the City arising from any activity, action or thing performed or erected or installed in accordance with the executed agreement.

A3.6.6 Applicant must notify the City 24 hours prior to the installation to confirm the installation date and time, and within 24 hours of completing installation, to confirm installation is complete.

A3.6.7 Installation should not take more than six hours and will require a Traffic Management Plan, at the applicant's expense, where the installation works cannot be undertaken from the footpath.

A3.6.8 Applicant must permit dogs in the pop-up parklet or pop-up eatlet.

A3.6.9 Applicant must not permit or encourage smoking in the pop-up parklet or pop-up eatlet.

A3.6.10 Applicant must ensure pop-up parklets and pop-up eatlets are maintained in a clean, tidy, good, inoffensive and aesthetically appealing condition at all times.

A3.6.11 Applicant must ensure any plants associated with the pop-up parklet or pop-up eatlet are maintained in a healthy, neat and tidy condition at all times.

A3.6.12 Applicant must remove the pop-up parklet or pop-up eatlet and replace any planting, at the applicant's expense, and make good to the satisfaction of the City at the request of the City or public utility provider within 14 days of receiving the request. Reasons for a request to remove a pop-up parklet or pop-up eatlet may include but are not limited to required service access and noncompliance with the executed agreement.

A3.6.13 In the case of planned maintenance, the applicant is responsible for the removal, storage and reinstallation of the pop-up parklet or pop-up eatlet.

A3.6.14 Applicant must report any changes to business or property ownership to the City and ensure that if a change in ownership occurs, the applicant will either remove the pop-up parklet or pop-up eatlet or transfer the agreement to the new owner in consultation with the City.

A3.6.15 Applicant must install a minimum of two City provided Vibrant Public Space signs prior to installation completion.

3.7 Approval Process and Compliance

Pop-up parklet and pop-up eatlet proposals which meet the design requirements, and where the applicant agrees to fulfill the applicant responsibilities, shall be approved under delegation and an agreement prepared for execution prior to installation.

1	Read the Vibrant Public Spaces Policy and Guidelines
2	Plan your proposal What type of vibrant public space do you want?
3	Express your interest in developing a proposal via mail@vincent.wa.gov.au
4	Meet City representative on site Determine site suitability and discuss proposal ideas
5	Have a conversation with the event organiser and your neighbours Will they support the proposal?
6	Design your proposal in consultation with the City Refer design and location requirements
7	Submit proposal application and plans Include neighbour support and certification information
8	Proposal application assessment Meets requirements? no (return to 6) yes (progress)
9	City prepares application assessment report Proposal recommended for approval or refusal
~ 10	City prepares vibrant public space agreement Only if application approved
~ 11	Review and sign vibrant public space agreement
12	Vibrant public space agreement executed and issued
13	Notify the City 24 hours prior to installation and within 24 hours of completing installation
 14	Enjoy and maintain the vibrant public space!
	A IN A HEAD

Applicant responsibility City of Vincent responsibility

Non-compliance with the executed vibrant public space agreement will result in:

- an onsite inspection to confirm any departures from the agreement;
- written notification to confirm the departures which require remediation; and
- removal of the pop-up parklet or pop-up eatlet, should the departures not be addressed within 21 days of the written notification being issued.

04 PARKLET/ EATLET

4.1 Design and Location Permissibility

Parklet and eatlet proposals that meet the permissibility requirements prescribed in the table below shall be accepted for assessment:

✓ permitted

 permitted where located adjacent an existing approved business, excluding a home business

LIQUOR LICENSING

Parklets are public at all times and are not able to be licensed for the consumption of alcohol.

Eatlets are not public at all times and are able to be licensed during business operating hours. Liquor licences are issued by the Department of Local Government, Sporting & Cultural Industries (DLGSC) Liquor Licensing Directorate and the City may support an applicant's application to license an eatlet subject to the following:

- the liquor licence is to be obtained by the applicant as the eatlet host;
- the liquor licence is to be in conjunction with an approved licensed premise such as an existing restaurant or small bar;
- liquor can only be served in the parklet during business operating hours; and
- the City reserves the right to restrict the hours when alcohol is permitted to be served in the eatlet.

4.2 Design Objectives

DESIGN OBJECTIVES

O4.2.1 Respond to and enhance the distinctive characteristics of a local area, contributing to a sense of place.

O4.2.2 Integrate landscape design and contribute to community wellbeing through the protection and/or enhancement of the green network.

O4.2.3 Ensure that massing and height are appropriate and sympathetic to existing built form and the intended future character of the local area.

O4.2.4 Meet the needs and expectations of the community, balancing durability, maintenance and service access requirements with aesthetic quality.

O4.2.5 Contribute positively to environmental, social and economic outcomes through passive environmental design, enhancement of the green network and promotion of active transport modes.

O4.2.6 Provide comfortable spaces for the community that encourage physical activity, enable a range of uses, and are accessible to all.

O4.2.7 Provide places that are legible, with good lines of sight to key locations, clear connections and easily identifiable elements to help people find their way around.

O4.2.8 Optimise safety and security, supporting safe behaviour and use, by maximising opportunities for passive surveillance, integrating safety requirements, and following Crime Prevention through Environmental Design (CPTED) design principles.

O4.2.9 Respond to local community needs and the wider social context by delivering a mix of public spaces that support a diverse range of people and facilitate social interaction.

O4.2.10 Contribute to a unique place identity, high level of amenity, and result in attractive and inviting places through scale, arrangement, articulation and material quality.

4.3 Design Requirements

DESIGN REQUIREMENTS

D4.3.1 Parklet and eatlet materials, colours and finishes shall complement and add interest to the surrounding streetscape and streetscape palette. Materials should be durable and non-reflective, and recycled or sourced locally where possible.

D4.3.2 Parklets and eatlets shall transform and enhance underutilised verge, footpath or road carriageway space. They shall be designed to suit individual site locations and shall incorporate the existing ground surface, a decked platform or new paving.

D4.3.3 Where new paving is proposed, the City will consult with the applicant and design the paving enhancements. The paving works will then be undertaken by the applicant, at the applicant's cost and as prescribed in the City's annual fees and charges, and compliance checked by the City.

D4.3.4 Parklets and eatlets shall not adversely effect the visual permeability of the streetscape and must allow pedestrians on either side of the street to see the opposite side of the street. To maintain visual permeability, continuous opaque walls are not permitted to exceed 900mm in height from the footpath finished floor level.

D4.3.5 Parklets and eatlets shall feel open and welcoming. To ensure parklets and eatlets do not have the visual or apparent effect of enclosing a public space:

- walls are not permitted above 900mm in height from the footpath finished floor level, unless additional height is required due to the slope of the site and the proposal can be demonstrated to meet Design Objectives O4.2.1, O4.2.2, O4.2.7 and O4.2.8;
- alfresco blinds are not permitted;
- clear glazing is permitted to a maximum of 1200mm in height from the footpath finished floor level; and
- each side that does not directly abut the footpath is permitted to consist of a maximum of 25% visually permeable screening, for the sole purpose of supporting plant growth.

D4.3.6 Parklets and eatlet overhead shelter structures, such as a canopy, umbrella, arbour or shade sail, shall have a minimum vertical clearance of 2400mm from the finished ground level to the lowest part of the shelter. Overhead shelter structures must not be attached to an awning or verandah. Where an overhead shelter structure is proposed to be solid, this is to be designed and constructed to ensure stormwater drains to the road carriageway and does not impact upon the pedestrian path.

20 | CITY OF VINCENT

DESIGN REQUIREMENTS

D4.3.7 Parklets and eatlets located in the carriageway must have a positive edge along the road and parking bay facing sides to offer adequate protection for users from moving vehicular traffic. The positive edge must be a minimum of 600mm.

D4.3.8 Parklets and eatlets should be designed as an extension of the footpath and must be open and accessible from the adjoining footpath via an unobstructed flush or ramped section. Where the parklet or eatlet is located on a sloping site, a minimum 1500mm wide unobstructed flush section must be provided.

D4.3.9 Decked parklets and eatlets shall have a maximum gap of 10mm between the deck and the footpath. In the case of a sloping site, the applicant must work with the City to address issues of access.

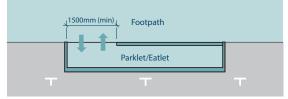

D4.3.10 Decked platforms located in the carriageway should be freestanding and not require anchoring into the City's road infrastructure. If a safety issue presents itself and anchoring is required, this will be assessed on a case by case basis and will be at the expense of the applicant and will require City approval.

Extend the footpath on a flat site

Extend the footpath on a sloping site

DESIGN REQUIREMENTS

D4.3.11 Parklets and eatlets shall not impede the flow of kerbside drainage. A 150mm x 150mm minimum clear gutter space must be provided along the entire length of the parklet or eatlet adjacent to the kerb. Openings at either end may be covered with screens to prevent debris buildup beneath in the gutter.

D4.3.12 Decked parklets and eatlets must be modular in design to allow access for maintenance (i.e. repairs, clearing debris and streetscape maintenance).

D4.3.13 Decked platforms and any affixed furniture to the existing ground surface or new paving must be able to be removed within a 24 hour period without damage to the footpath, verge or any surrounding service pits. Part or all of the platform or furniture may need to be temporarily or permanently removed for street improvements, utility work, service access or emergencies.

D4.3.14 A minimum of 15% of the total parklet or eatlet area must be living green planting (greenery), such as shrubs, succulents, climbing plants or trees. The required area may be reduced to 10% where trees or climbing plants are incorporated into the design and provide shade canopy. Artificial man-made green elements are not considered living green planting and are not acceptable alternatives.

D4.3.15 Parklets and eatlets located in the carriageway must include the following safety materials:

- soft hit posts (roadside);
- wheel stops affixed at each end unless the car bay is embayed or adjacent a tree well; and
- rated barriers at each end as specified by the City.

D4.3.16 Parklets and eatlets must be free of protrusions and sharp edges.

DESIGN REQUIREMENTS

D4.3.17 Parklets and eatlets must integrate permanent seating to ensure the space remains useable and welcoming after moveable furniture like tables and chairs are put away outside of business hours.

D4.3.18 Solar-powered lighting elements are strongly encouraged on parklets and eatlets. Where the parklet or eatlet has a canopy, the provision of lighting is mandatory. Electric lighting may be permitted but will require an electrical connection to a building and a separate electrical certification and approval.

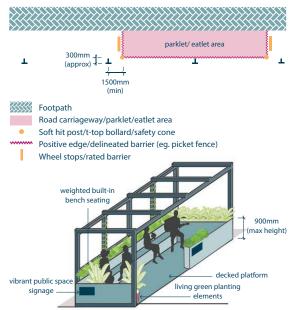

D4.3.19 Integrated bicycle parking is strongly encouraged.

D4.3.20 Business logos, advertising, other branding, and reserved signs are prohibited. A small unobtrusive plaque recognising proposal sponsors and material donors may be acceptable if in line with the Design Objectives.

D4.3.21 Parklets and eatlets must have a minimum of two Vibrant Public Space signs installed. These are to be supplied by the City and installed by the applicant prior to installation completion.

Vibrant Public Space Sign Example

4.4 Location Requirements

LOCATION REQUIREMENTS

L4.4.1 Parklets and eatlets shall only be permitted in or adjacent the Town Centre Built Form Area, Activity Corridor Built Form Area, Mixed Use Built Form Area or in or adjacent the Transit Corridor Built Form Area and Residential Built Form Area where located adjacent to an existing business, owned or tenanted by the applicant, excluding a home business.

L4.4.2 Within the prescribed Built Form Areas, parklets and eatlets shall be located in the:

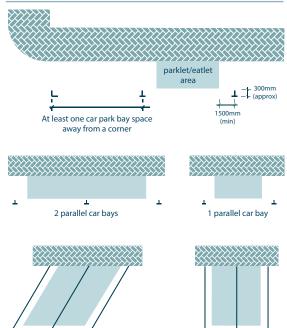

- verge;
- kerb buffer and/or kerbside zone of a footpath; or
- road carriageway.

L4.4.3 Parklets and eatlets shall not be located in the frontage zone.

L4.4.4 Parklets and eatlets shall be located to provide a minimum 2000mm width clear pedestrian zone, unless:

- the width cannot be provided due to the design of the existing streetscape; and
- a reduced width can be demonstrated to meet Design Objectives 04.2.6, 04.2.7 and 04.2.9.

Where a reduced clear pedestrian zone is deemed appropriate, a minimum clear pedestrian zone of no less than 1500mm must be maintained at all times.

2 perpendicular car bays

LOCATION REQUIREMENTS

L4.4.5 The parklet or eatlet must be located to ensure the clear pedestrian zone aligns with the clear pedestrian zone in front of neighbouring properties to provide pedestrians with a clear and uninterrupted passage along any footpath.

L4.4.6 Parklets and eatlets shall be offset a minimum of 750mm at each end to ensure a minimum 1500mm gap is provided to allow pedestrians to traverse the street.

L4.4.7 Where located in a carriageway, parklets and eatlets shall only be permitted on roads where the speed limit does not exceed 40km/h, or on roads where traffic calming is in place and the speed limit does not exceed 50km/h.

L4.4.8 Where located in a carriageway, parklets and eatlets must not be located on roads classified as Primary Distributor or four lane District Distributor roads, including those with timed clearways in place.

L4.4.9 Where located in a carriageway, parklets and eatlets shall generally be setback at least one car park space from a corner, unless a reduced setback can be demonstrated to meet Design Objectives O4.2.7.

L4.4.10 Where located in a carriageway, parklets and eatlets shall have a minimum buffer distance of 1500mm between the outer edge of adjacent parking spaces and the edge of the parklet/eatlet area.

L4.4.11 Where located in a carriageway, parklets and eatlets shall have a minimum buffer distance between the roadside outer edge of the parking space and the edge of the parklet/eatlet area (approximately 300mm). This distance will be determined by the City on a case by case basis.

L4.4.12 Parklets and eatlets may be permitted in on-street, parallel, angled, diagonal, perpendicular and/or paid car parking bays where demand in the precinct (400m walkable catchment area) does not exceed 85% occupancy.

22 | CITY OF VINCENT

2 diagonal car bays

LOCATION REQUIREMENTS

L4.4.13 Parklets and eatlets shall not be permitted in embayed parking spaces which service public transport, on-demand transport, service vehicles or people with disabilities.

L4.4.14 A maximum of two parking bays shall be used adjacent to the applicant's business or tenancy.

L4.4.15 The use of more than two bays may be considered where there is support from neighbouring businesses or tenants and a joint application is submitted by the businesses or tenants.

L4.4.16 Parklets and eatlets shall not impede or negatively impact upon pedestrian, cyclist or vehicular movement, sightlines at road junctions or vehicle access crossovers, or impede emergency vehicle movement.

L4.4.17 Affixed parklet and eatlet furniture must be located a minimum of 600mm from any service pit.

L4.4.18 Parklets and eatlets must consider any exiting street trees and planting and maintain a minimum 500mm setback to ensure the health of the tree or planting.

L4.4.19 Existing street trees shall not be removed or relocated to accommodate a parklet or eatlet proposal.

L4.4.20 Existing planting shall not be removed or relocated to accommodate a parklet or eatlet proposal, unless the proposal can demonstrate it meets the Design Objectives O4.2.1, O4.2.2, O4.2.5 and will provide additional planting and/or canopy cover.

L4.4.21 Existing street furniture shall not be removed or relocated to accommodate a parklet or eatlet proposal, unless the proposal can demonstrate it meets the Design Objectives O4.2.1, O4.2.5, O4.2.6 and will contribute to achieving the objectives of this Policy. Where the removal or relocation of existing street furniture is supported by the City, it will be at the expense of the applicant unless otherwise scheduled through the City's streetscape maintenance program.

L4.4.22 Within a 400 metre catchment, no more than 20% of the public realm (of eligible areas) may be occupied by eatlets.

4.5 Approval Requirements

Parklet and eatlet proposals must fulfill the approval requirements prescribed in the table below in order to obtain approval for installation.

			AP	PROV	AL RE	QUIR	EMEN	ITS					
Adjacent Businesses/Tenants	21 Days/ Owners/ Occupiers 100m Radius	Website/ Notice in Business Window	Sign on Site/ Local Newspaper	Structural/ Product Certification	Building Approval	Delegated Authority/ Agreement	Planning Approval	Council Decision/ Licence	Application/ Design	Approval	Annual Renewal

- exemptions do not apply under Building Regulations 2012, Sch 4, Clause 2
- ^ required where the base is new paving

4.6 Applicant Responsibilities

APPLICANT RESPONSIBILITIES

A4.6.1 Applicant must engage with adjacent businesses and tenants to inform them of the parklet eatlet proposal and to obtain support for the proposal where required in relation to L4.4.15.

A4.6.2 Applicant must submit complete vibrant public space proposal application form inclusive of scaled site plan, proposal precedent imagery and demonstrated neighbour support.

A4.6.3 Applicant must pay application/design and approval fees, as prescribed in the City's annual fees and charges.

A4.6.4 Applicant must provide parklet or eatlet structural certification.

APPLICANT RESPONSIBILITIES

A4.6.5 Applicant must hold current a policy of insurance for Public Liability for an amount of not less than \$20,000,000.00 (twenty million dollars). A copy of the current certificate is to be provided to the City.

A4.6.6 Applicant must indemnify the City and its employees, agents or contractors, against all actions, suits, claims, damages, losses and expenses made against or incurred by the City arising from any activity, action or thing performed or erected or installed in accordance with the executed agreement.

A4.6.7 Where excavation is required, the applicant is responsible for lodging and completing a Dial Before You Dig enquiry prior to the commencement of excavation.

A4.6.8 Where excavation is required the applicant is responsible for reinstatement to the satisfaction of the City, and the rectification of any damage to the City's infrastructure or any other service within the road reserve as a result of any works.

A4.6.9 Applicant must notify the City 24 hours prior to the installation to confirm the installation date and time, and within 24 hours of completing installation, to confirm installation is complete.

A4.6.10 The parklet or eatlet shall primarily be built off site. A Traffic Management Plan, prepared at the applicant's expense, shall be required where the installation works cannot be undertaken from the footpath.

A4.6.11 Applicant must permit dogs in the parklet or eatlet.

A4.6.12 Applicant must not permit or encourage smoking in the parklet or eatlet.

A4.6.1³ Applicant must ensure parklets and eatlets are maintained in a clean, tidy, good, inoffensive and aesthetically appealing condition at all times.

A4.6.14 Applicant must ensure any plants associated with the parklet or eatlet are maintained in a healthy, neat and tidy condition at all times.

A4.6.15 Applicant must remove any decked platform, affixed street furniture and replace any planting, at the applicant's expense, and make good to the satisfaction of the City at the request of the City or public utility provider within 14 days of receiving the request. Reasons for removal requests may include but are not limited to required service access and non-compliance with the executed agreement.

A4.6.16 In the case of planned maintenance, the applicant is responsible for the removal, storage and reinstallation of the parklet or eatlet.

APPLICANT RESPONSIBILITIES

A4.6.17 Applicant must report any changes to business or property ownership to the City and ensure that if a change in ownership occurs, the applicant will either remove any decked platform or affixed furniture or transfer the agreement to the new owner in consultation with the City.

A4.6.18 Applicant must install a minimum of two City provided Vibrant Public Space signs prior to installation completion.

A4.6.19 Applicant to renew vibrant public spaces agreement.

4.7 Approval Process and Compliance

Parklet and eatlet proposals which achieve the applicable the design requirements, and where the applicant agrees to fulfill the applicant responsibilities, shall be approved under delegation and an agreement prepared for execution prior to installation.

	What type of vibrant public space do you want?
	Express your interest in developing a proposal via mail@vincent.wa.gov.au
	Meet City representative on site Determine site suitability and discuss proposal ideas
	Have a conversation with your neighbours Will they support the proposal?
	Design your proposal in consultation with the City Pay design fee if applicable
	Submit proposal application, plans and pay applicable fee Include neighbour support and certification information
	Community engagement and advertising Refer engagement requirements
	Finalise proposal application Revise following community engagement as required
)	Submit complete proposal application Refer proposal application form and checklist
	Proposal application assessment Meets requirements? no (return to 6) yes (progress)
2	City prepares proposal application assessment report Proposal recommended for approval or refusal
3	City prepares vibrant public space agreement Only if proposal application approved
ļ	Review and sign vibrant public space agreement Pay approval fee
5	Vibrant public space agreement issued Requires renewal by specified date
5	City completes paving enhancement works For applicable proposal applications
	Applying for a liquor licence for your eatlet? Prepare and submit licence application to DLGSC
	Notify City 24 hours prior to installation and within 24 hours of completing installation

Applicant responsibility City of Vincent responsibility

Non-compliance with the executed vibrant public space agreement will result in:

- an onsite inspection to confirm any departures from the agreement;
- written notification to confirm the departures which require remediation; and
- removal of the parklet or eatlet, should the departures not be addressed within 21 days of the written notification being issued.

05 OTHER PROPOSAL

5.1 Design and Location Permissibility

Other proposals shall be accepted for assessment where a complete vibrant public spaces application form is submitted, inclusive of justification regarding how the proposal:

- is publicly accessible;
- provides public benefit;
- addresses Policy Objectives; and
- meets the Design Objectives O5.2.1 O5.2.10.

5.2 Design Objectives

DESIGN OBJECTIVES

O5.2.1 Respond to and enhance the distinctive characteristics of a local area, contributing to a sense of place.

O5.2.2 Integrate landscape design and contribute to community wellbeing through the protection and/or enhancement of the green network.

O5.2.3 Ensure that massing and height are appropriate and sympathetic to existing built form and the intended future character of the local area.

O5.2.4 Meet the needs and expectations of the community, balancing durability, maintenance and service access requirements with aesthetic quality.

O5.2.5 Contribute positively to environmental, social and economic outcomes through passive environmental design, enhancement of the green network and promotion of active transport modes.

O5.2.6 Provide comfortable spaces for the community that encourage physical activity, enable a range of uses, and are accessible to all.

O5.2.7 Provide places that are legible, with good lines of sight to key locations, clear connections and easily identifiable elements to help people find their way around.

O5.2.8 Optimise safety and security, supporting safe behaviour and use, by maximising opportunities for passive surveillance, integrating safety requirements, and following Crime Prevention through Environmental Design (CPTED) design principles.

26 | CITY OF VINCENT

DESIGN OBJECTIVES

O5.2.9 Respond to local community needs and the wider social context by delivering a mix of public spaces that support a diverse range of people and facilitate social interaction.

O5.2.10 Contribute to a unique place identity, high level of amenity, and result in attractive and inviting places through scale, arrangement, articulation and material quality.

5.3 Approval Requirements

Other proposals must fulfill the approval requirements prescribed in the table below in order to obtain approval.

	APPROVAL REQUIREMENTS

5.4 Applicant Responsibilities

APPLICANT RESPONSIBILITIES

A5.4.1 Applicant must engage with adjacent businesses and tenants to inform them of the proposal.

A5.4.2 Applicant must complete vibrant public space proposal application form inclusive of scaled site plan, proposal precedent imagery and demonstrated neighbour support.

A5.4.3 Applicant must pay application/design and approval fees, as prescribed in the City's annual fees and charges.

A5.4.4 Applicant must provide structural or product certification as determined by the City.

A5.4.5 Applicant must indemnify the City and its employees, agents or contractors, against all actions, suits, claims, damages, losses and expenses made against or incurred by the City arising from any activity, action or thing performed or erected or installed in accordance with the executed licence.

A5.4.6 Applicant must hold current a policy of insurance for Public Liability for an amount of not less than \$20,000,000.00 (twenty million dollars). A copy of the current certificate is to be provided to the City.

A5.4.7 Where excavation is required, the applicant is responsible for lodging and completing a Dial Before You Dig enquiry prior to the commencement of excavation.

A5.4.8 Where excavation is required the applicant is responsible for reinstatement to the satisfaction of the City, and the rectification of any damage to the City's infrastructure or any other service within the road reserve as a result of any works.

A5.4.9 Applicant must permit dogs in the vibrant public space.

A5.4.10 Applicant must not permit or encourage smoking in the vibrant public space.

A5.4.11 Applicant must ensure the vibrant public space is maintained in a clean, tidy, good, inoffensive and aesthetically appealing condition at all times.

A5.4.12 Applicant must ensure any plants associated with the vibrant public space are maintained in a healthy, neat and tidy condition at all times.

APPLICANT RESPONSIBILITIES

A5.4.13 Applicant must remove any affixed structures, at the applicant's expense, and make good to the satisfaction of the City at the request of the City or public utility provider within 14 days of receiving the request. Reasons for removal requests may include but are not limited to required service access and non-compliance with the executed licence.

A5.4.14 In the case of planned maintenance, the applicant is responsible for the removal, storage and reinstallation of the vibrant public space.

A5.4.15 Applicant must report any changes to business or property ownership to the City and ensure that if a change in ownership occurs, the applicant will either remove any affixed structures or transfer the licence to the new owner in consultation with the City.

A5.4.16 Applicant to renew vibrant public spaces agreement and pay renewal fee as prescribed in the City's annual fees and charges.

A5.4.17 Applicant must install City provided and prescribed Vibrant Public Space signs prior to installation completion.

5.5 Approval Process

Other proposals which demonstrate they are publicly accessible and address and achieve the Policy Objectives and Design Objectives O5.2.1 - O5.2.10 shall be progressed through the following approvals process.

Legislation / local law requirements	Building Act 2011 Building Regulations 2012 Local Government Act 1995 Local Government (Uniform Local Provisions) Regulations 1996 Land Administration Act 1997 Planning and Development Act 2005 Planning and Development (Local Planning Schemes) Regulations 2015 Local Government Property Local Law 2021
Relevant delegations	 2.2.10 Obstruction of footpaths and thoroughfares under the Local Government Act 1995 2.2.30 Delegation of execution of documents under the Local Government Act 1995
Related policies, procedures and supporting documentation	Local Planning Policy 7.1.1 – Built Form Local Planning Policy 7.5.1 – Minor Nature Development Policy 2.2.4 – Verge Treatments, Planting and Beautification

PART 1 - PRELIMINARY

INTRODUCTION

The City of Vincent Strategic Community Plan 2018 - 2028 (SCP) sets the community vision, priorities and aspirations for the City and includes the Thriving Places priority: "Our vibrant places and spaces are integral to our identity, economy and appeal. We want to create, enhance and promote great places and spaces for everyone to enjoy".

To achieve this priority, the Vibrant Public Spaces Policy (Policy) seeks to facilitate public and private investment in the public realm for the benefit of the community.

PURPOSE

The purpose of this Policy and its Vibrant Public Spaces Policy Guidelines (Guidelines) is to provide guidance on the permissibility, requirements and management responsibilities for third party (applicant) proposals to deliver vibrant public spaces on City owned and managed land.

POLICY OBJECTIVES

The objectives of this Policy and its Guidelines are to ensure vibrant public space proposals:

- 1. achieve the Vibrant Public Space Design Objectives (Design Objectives);
- 2. facilitate public and private investment in the public realm for the benefit of the community;
- 3. encourage pedestrian activity and social interaction;
- 4. enhance the public realm and sensitively respond to local character and context; and
- 5. achieve design outcomes that meet community expectations.

Page | 1 of 6

CITY OF VINCENT

POLICY OPERATION

The Policy and its Guidelines are performance-based. The performance-based approach is applied through a set of Design Objectives to enable site-specific outcomes to be achieved. This reflects that every place and streetscape is different and allows design to be tailored to the local context and specific needs and characteristics of each place.

Vibrant public space proposals need to demonstrate that they achieve the Design Objectives relevant to each proposal type, as outlined in the Guidelines.

While addressing the applicable design requirements and location requirements, as outlined in the Guidelines, is likely to achieve the Design Objectives, they are not a deemed-to-comply pathway and the proposal will be assessed in the context of the entire design solution to ensure the Design Objectives are achieved. Proposals may also satisfy the Design Objectives via alternative means or solutions.

SCOPE

This Policy and its Guidelines apply to vibrant public space proposals on City owned and managed land including:

- **City freehold land**: land which the City owns and is listed as the registered proprietor on the Certificate of Title, such as a park or other public open space;
- **Crown reserve**: parks or public recreation areas reserved by the Minister for Lands for a purpose in the public interest and vested (pursuant to a Manager Order or other vesting document) in the City under section 46 of the Land Administration Act 1997; and
- **road reserve**: the verge, kerb, carriageway and footpath areas adjacent to road which the City has care, control and management of under section 55(2) of the Land Administration Act 1997.

This Policy does not apply to structures, developments or infrastructure proposed on City owned and managed land by a public authority. Such proposals are to be considered in accordance with the *Public Works Act 1902*, the *Main Roads Act 1930* or other enabling legislation.

PART 2 - POLICY PROVISIONS

DEFINITIONS

adjacent means that on which a vibrant public space proposal sits.

affixed eating area furniture means any affixed or significantly weighted bench, seat, table, planter box, umbrella, light or other item that may be reasonably characterised as eating area street furniture for the use, benefit and enjoyment of business patrons, during business operating hours, and the public, out of business operating hours.

base means that on which a vibrant public space proposal sits.

Page | 2 of 6

carriageway means a portion of road that is designed or ordinarily used for vehicular traffic, and includes the shoulders, and areas, including embayments, at the side or centre of the carriageway, used for the stopping or parking of vehicles.

clear corner zone means the area as measured at a 45° angle from the building corner left clear of any structures for the free passage of the public within the footpath and the carriageway.

clear pedestrian zone means the area within the footpath section of the road reserve left clear and of any structures for pedestrian travel which must be maintained at all times for the free passage of the public.

decked platform means a horizontal surface or structure raised above or flush with the ground level of the surrounding area. A decked platform can form the base of a parklet, eatlet or other proposal.

eatlet means an outdoor eating area during business operating hours and small public park out of business operating hours. Eatlets are reserved for customers of particular businesses during business operating hours and are available for anyone to use out of business operating hours. An eatlet repurposes part of the street into a dual purpose outdoor eating area and small public park through the provision of seating, shade and greenery.

footpath means the part of the road reserve designated and built for the movement and rest of pedestrians.

frontage zone means the area immediately adjacent to the abutting property between the property boundary and the end of the clear pedestrian zone.

kerb buffer means the 600mm minimum space maintained clear at all times between the face of the kerb and the start of either the kerbside zone or the clear pedestrian zone.

kerbside zone means the area between the end of the kerb buffer and the clear pedestrian zone.

new paving means paving that was not previously there. New paving can form the base of a parklet, eatlet or other proposal.

outdoor eating area means an outdoor eating facility or establishment on any part of a public place in which furniture is provided for the purpose of the supply of food or drink to the public or the consumption of food or drink by the public, but does not include such a facility or establishment on private land.

outdoor eating area permit means a permit granted by the City to an approved food premises and/or licensed premises allowing the footpath to be used by for the service of food and drink and/or the placement of temporary furniture during business operating hours.

parklet means a small public park set into the existing streetscape. Parklets are for anyone to use at all times, and are not reserved for customers of particular businesses. Parklets repurposes part of the street into a public space for people through the provision of seating, shade and greenery.

pop-up eatlet means a pop-up outdoor eating area during business operating hours and small public park out of business operating hours. Pop-up eatlets are reserved for customers of particular businesses during business operating hours and are available for anyone to use out of business operating hours. A pop-up eatlet repurposes part of the street into a dual purpose outdoor eating area and small public park through the provision of seating, shade and greenery during a City approved or acknowledged event.

Page | 3 of 6

pop-up parklet means a small pop-up public park set into the existing streetscape. Pop-up parklets are for anyone to use at all times, and are not reserved for customers of particular businesses. Pop-up parklets repurposes part of the street into a small public park through the provision of seating, shade and greenery during a City approved or acknowledged event.

public authority means a Minister of the State; an agency, authority or instrumentality of the State; or a local government; or a body, whether corporate or unincorporate, that is established or continued for a public purpose under a written law.

public realm means all public spaces including thoroughfare or streets, public car parks, reserves/public open space, civic squares and other areas used by and accessible to the community.

street furniture means any affixed or weighted bench, seat, table, litter bin, planter box, light, umbrella, bicycle rack or other item that may be reasonably characterised as street furniture for the use, benefit and enjoyment of the public on City owned and managed land.

t-top bollard means any flexible bollard with reflective bands in order to increase visibility. These are considered to be a temporary safety measure, used to direct vehicle and pedestrian traffic.

verge means that part of a thoroughfare or street between the carriageway and the land which abuts the thoroughfare, but does not include a footpath.

vibrant public space means an area in the public realm that supports social interaction and community engagement, and provides pedestrian amenity for everyone to enjoy.

vibrant public space proposal means any third party proposal which seeks to enhance City owned and managed land for the benefit of the community.

POLICY

1. Permissibility and Assessment

The suitability of utilising public space to facilitate vibrant public space proposals is site specific and dependent on the individual streetscape and context relevant to each proposal.

- 1.1 Vibrant public space proposals are to achieve the applicable Design Objectives, address the applicable design and location requirements, and meet the approval requirements as prescribed in Table 1 and the Guidelines.
- 1.2 Vibrant public space proposal applicants are to meet the applicable applicant responsibilities as prescribed in the Guidelines.
- 1.3 Where a proposal type is not specified or the proposal does not meet the permissibility or requirements as prescribed in Table 1, the proposal may be considered under 'other proposal' type and assessed against the Design Objectives.
- 1.4 Proposals that do not meet the Design Objectives shall not be progressed through the approvals process and shall not be approved.

1 The listed vibrant public space types are not permitted in the Reserve Built Form Area. Where vibrant public space proposals are proposed in the Reserve Built Form Area, they shall not be progressed through the approvals process and shall not be approved.

2 The listed Built Form Area means the area identified by the same name in Local Planning Policy 7.1.1 - Built Form. The Built Form Area permissibility relates to City owned and managed land within and adjacent to the specified Built Form Area.

3 Where proposals meet the design and location requirements prescribed in the Guidelines, engagement will be undertaken to inform the community. Where proposals are classified as 'other proposal' or do not meet the design and location requirements, engagement will be undertaken to consult with the community.

2. Design Objectives

Achieving good vibrant public space design requires reconciling a range of different, often competing, objectives, which vary according to the scale, context and type of vibrant public space proposed. Good vibrant public space design requires application of design-thinking in the context of addressing local challenges as well as a performance-based approach to assessment.

In the context of State Planning Policy 7.0 *Design of the Built Environment* (WAPC, 2019)(SPP 7.0) and 7.2 *Precinct Design* (WAPC, 2021)(SPP 7.2), the Design Objectives listed below have been developed to specify the role of vibrant public space design in achieving the objectives of this Policy and addressing the principles and outcomes of SPP 7.0 and SPP 7.2.

2.1 Context and character

Respond to and enhance the distinctive characteristics of a local area, contributing to a sense of place.

- 2.2 Landscape quality
 - Integrate landscape design and contribute to community wellbeing through the protection and/or enhancement of the green network.

Page | 5 of 6

VIBRANT PUBLIC SPACES POLICY

2.3 Built form and scale

Ensure that massing and height are appropriate and sympathetic to existing built form and the intended future character of the local area.

2.4 Functionality and build quality

Meet the needs and expectations of the community, balancing durability, maintenance and service access requirements with aesthetic quality.

2.5 Sustainability

Contribute positively to environmental, social and economic outcomes through passive environmental design, enhancement of the green network and promotion of active transport modes.

2.6 Amenity

Provide comfortable spaces for the community that encourage physical activity, enable a range of uses, and are accessible to all.

2.7 Legibility

Provide places that are legible, with good lines of sight to key locations, clear connections and easily identifiable elements to help people find their way around.

2.8 Safety

Optimise safety and security, supporting safe behaviour and use, by maximising opportunities for passive surveillance, integrating safety requirements, and following Crime Prevention through Environmental Design (CPTED) design principles.

2.9 Community

Respond to local community needs and the wider social context by delivering a mix of public spaces that support a diverse range of people and facilitate social interaction.

2.10 Aesthetics

Contribute to a unique place identity, high level of amenity, and result in attractive and inviting places through scale, arrangement, articulation and material quality.

INTRODUCTION

What are the Vibrant Public Space Policy Guidelines?

The Vibrant Public Spaces Policy Guidelines (Guidelines) provide supporting information to assist:

- the City to implement the Vibrant Public Spaces Policy (Policy); and
- local businesses, property owners and not-for-profit/ community groups to deliver vibrant public spaces on City owned and managed land.

What is a vibrant public space?

Vibrant public spaces are areas in the public realm that support social interaction and community engagement. They are spaces which provide pedestrian amenity and are for everyone to enjoy.

Vibrant public spaces are dog friendly, and smoke free at all times.

What is a vibrant public space proposal?

Vibrant public space proposals are third party proposals which seek to enhance City of Vincent (City) owned and managed land for the benefit of the community.

Why host a vibrant public space?

Vibrant public spaces add value to the surrounding area by repurposing City owned and managed land. They:

- enhance underutilised space, provide pedestrian amenity and present opportunities for community connection, greening and public art;
- encourage pedestrian movement and activity to activate the public realm;
- support businesses by fostering vibrancy and encouraging people to linger longer; and
- complement the character of the existing streetscape and local neighbourhood and provide opportunities for creative expression.

Who can apply to host a vibrant public space?

Any business, property owner or not-for-profit/community group (applicant) can apply to host a vibrant public space.

What are the Vibrant Public Space Design Objectives?

Every place and streetscape in the City is different and the following set of Design Objectives enable a performancebased approach to vibrant public space proposal assessment.

Vibrant public space proposals need to demonstrate that they achieve the Design Objectives relevant to each proposal type, as outlined in Sections 01-05.

Design Objectives:

- Context and character Respond to and enhance the distinctive characteristics of a local area, contributing to a sense of place.
- Landscape quality Integrate landscape design and contribute to community wellbeing through the protection and/or enhancement of the green network.
- 3. Built form and scale Ensure that massing and height are appropriate and sympathetic to existing built form and the intended future character of the local area.
- Functionality and build quality Meet the needs and expectations of the community, balancing durability, maintenance and service access requirements with aesthetic quality.
- Sustainability Contribute positively to environmental, social and economic outcomes through passive environmental design, enhancement of the green network and promotion of active transport modes.
- 6. Amenity Provide comfortable spaces for the community that encourage physical activity, enable a range of uses, and are accessible to all.
- 7. Legibility Provide places that are legible, with good lines of sight to key locations, clear connections and easily identifiable elements to help people find their way around.
- Safety Optimise safety and security, supporting safe behaviour and use, by maximising opportunities for passive surveillance, integrating safety requirements, and following Crime Prevention through Environmental Design (CPTED) design principles.
- **9. Community** Respond to local community needs and the wider social context by delivering a mix of public spaces that support a diverse range of people and facilitate social interaction.
- **10.** Aesthetics Contribute to a unique place identity, high level of amenity, and result in attractive and inviting places through scale, arrangement, articulation and material quality.

Which type of vibrant public space to host?

The City accepts applicant proposals for the following vibrant public space types for assessment:

STREET FURNITURE

Street furniture is:

 any affixed or significantly weighted bench, seat, table, litter bin, planter box, umbrella, light, bicycle rack or other item that may be reasonably characterised as street furniture

AFFIXED EATING AREA FURNITURE

Affixed eating area furniture is:

- any affixed or significantly weighted bench, seat, table, planter box, umbrella, light or other item that may be reasonably characterised as eating area furniture
- associated with an existing approved outdoor eating area for the use, benefit and enjoyment of business patrons, during business operating hours, and the public, out of business operating hours, on City owned and managed land

POP-UP PARKLET

A pop-up parklet is:

- a small pop-up public park set into the existing streetscape
- for anyone to use at all times, and are not reserved for customers of particular businesses
- the repurposing of part of the street into a small public park through the provision of seating, shade and greenery during a City approved or acknowledged event

POP-UP EATLET

A pop-up eatlet is:

- a pop-up outdoor eating area during business operating hours and small public park out of business operating hours.
- reserved for customers of particular businesses during business operating hours and are available for anyone to use out of business operating hours
- the repurposing of part of the street into a dual purpose outdoor eating area and small public park through the provision of seating, shade and greenery during a City approved or acknowledged event

flowchart on page 6.

To assist in determining which type to host, refer to the

PARKLET

A parklet is:

- a small public park set into the existing streetscape
- for anyone to use at all times, and are not reserved for customers of particular businesses
- the repurposing of part of the street into a public space for people through the provision of seating, shade and greenery

EATLET

An eatlet is:

- an outdoor eating area during business operating hours and small public park out of business operating hours
- reserved for customers of particular businesses during business operating hours and are available for anyone to use out of business operating hours
- the repurposing of part of the street into a dual purpose outdoor eating area and small public park through the provision of seating, shade and greenery

OTHER PROPOSAL

An other proposal is:

 a vibrant public space proposal not specified in the Vibrant Public Spaces Policy which addresses the Policy Objectives and achieves the Vibrant Public Space Design Objectives

Which type of vibrant public space to host?

OI STREET FURNITURE

1.1 Design and Location Permissibility

Street furniture proposals that meet the permissibility requirements prescribed in the table below shall be accepted for assessment:

 permitted where located adjacent an existing approved business, excluding a home business

1.2 Design Objectives

DESIGN OBJECTIVES

O1.2.1 Respond to and enhance the distinctive characteristics of a local area, contributing to a sense of place.

O1.2.2 Integrate landscape design and contribute to community wellbeing through the protection and/or enhancement of the green network.

O1.2.3 Meet the needs and expectations of the community, balancing durability, maintenance and service access requirements with aesthetic quality.

O1.2.4 Provide comfortable spaces for the community that encourage physical activity, enable a range of uses, and are accessible to all.

O1.2.5 Provide places that are legible, with good lines of sight to key locations, clear connections and easily identifiable elements to help people find their way around.

O1.2.6 Optimise safety and security, supporting safe behaviour and use, by maximising opportunities for passive surveillance, integrating safety requirements, and following Crime Prevention through Environmental Design (CPTED) design principles.

1.3 Design Requirements

DESIGN REQUIREMENTS

D1.3.1 Street furniture design including materials, colour and finish shall be in keeping with the surrounding streetscape and streetscape palette.

D1.3.2 Street furniture must be of an appropriate scale in relation to other elements of the streetscape and not have the visual or apparent effect of enclosing a public space.

D1.3.3 Each bench, seat, table, planter box and bicycle rack, shall be no more than 900mm in height and 1500mm in length, unless additional height and length can be demonstrated to meet Design Objectives O1.2.1 and O1.2.5.

D1.3.4 Umbrellas shall have a minimum clearance of 2400mm from the finished ground level to the lowest part of the umbrella canopy.

D1.3.5 Street furniture must be made of durable materials and free of protrusions and sharp edges.

D1.3.6 Street furniture must be affixed or weighted to the satisfaction of the City and must be able to be removed within a 24 hour period without damage to the footpath, verge or any surrounding service pits. Part or all of the street furniture may need to be temporarily or permanently removed for street improvements, utility work, service access or emergencies.

D1.3.7 Business logos, advertising, other branding, and reserved signs are prohibited. A small unobtrusive plaque recognising proposal sponsors and material donors may be acceptable if in line with the Design Objectives.

1.4 Location Requirements

LOCATION REQUIREMENTS

L1.4.1 Street furniture must be located on an existing verge or footpath.

L1.4.2 Street furniture shall only be permitted in or adjacent the Town Centre Built Form Area, Activity Corridor Built Form Area, Mixed Use Built Form Area or in or adjacent the Transit Corridor Built Form Area and Residential Built Form Area where located adjacent to an existing business, owned or tenanted by the applicant, excluding a home business.

LOCATION REQUIREMENTS

L1.4.3 Where street furniture is proposed adjacent to a business or tenancy or encroaches in front of a business or tenancy, the location must be supported by the adjacent business or tenant.

L1.4.4 Street furniture must be located a minimum of 600mm from any service pit or pedestrian ramp.

L1.4.5 Street furniture shall be located to provide a minimum 2000mm width clear pedestrian zone, unless:

- · the width cannot be provided due to the design of the existing streetscape;
- no alternative location for street furniture exists in close proximity to the applicant's business or tenancy: and
- · a reduced width can be demonstrated to meet Design Objectives O1.2.4 and O1.2.5.

Where a reduced clear pedestrian zone is deemed appropriate, a minimum width of no less than 1500mm must be maintained at all times.

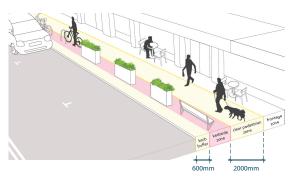

L1.4.6 Street furniture must be located to ensure the clear pedestrian zone aligns with the clear pedestrian zone in front of neighbouring properties to provide pedestrians with a clear and uninterrupted passage along any footpath.

L1.4.7 Street furniture must be located to provide a minimum 600mm kerb buffer between the face of the kerb and the start of the kerbside zone.

L1.4.8 Street furniture must not impede pedestrian, cyclist or vehicle access and sightlines.

L1.4.9 Street furniture shall be located outside of any clear corner zone as measured at a 45° angle from the corner of a corner lot building, unless the street furniture scale and location can be demonstrated to meet Design Objective 01.2.5.

L1.4.10 Existing street furniture shall not be removed or relocated to accommodate street furniture proposals, unless the proposal can demonstrate it meets the Design Objectives 01.2.1, 01.2.4, 01.2.5 and will contribute to achieving the Policy Objectives. Where the removal or relocation of existing street furniture is supported by the City, it will be at the expense of the applicant unless otherwise scheduled through the City's streetscape maintenance program.

1.5 Approval Requirements

Street furniture proposals must fulfill the approval requirements prescribed in the table below in order to obtain approval for installation.

required

1.6 Applicant Responsibilities

APPLICANT RESPONSIBILITIES

A1.6.1 Applicant must engage with adjacent businesses and tenants to inform them of the street furniture proposal and to obtain support for the proposal where required in relation to L1.4.3.

A1.6.2 Applicant must provide structural and/or product certification for the street furniture, as specified by the City, prior to approval.

A1.6.3 Applicant must notify the City 24 hours prior to the installation of any approved street furniture, to confirm the installation date and time, and within 24 hours of completing installation, to confirm installation is complete.

APPLICANT RESPONSIBILITIES

A1.6.4 Applicant must hold current a policy of insurance for Public Liability for an amount of not less than \$10,000,000.00 (ten million dollars). A copy of the current certificate is to be provided to the City.

A1.6.5 Where excavation is required, the applicant is responsible for lodging and completing a Dial Before You Dig enquiry prior to the commencement of excavation.

A1.6.6 Where excavation is required, the applicant is responsible for reinstatement to the satisfaction of the City, and the rectification of any damage to the City's infrastructure or any other service within the road reserve as a result of any works.

A1.6.7 Applicant must indemnify the City and its employees, agents or contractors, against all actions, suits, claims, damages, losses and expenses made against or incurred by the City arising from any activity, action or thing performed or erected or installed in accordance with the executed agreement.

A1.6.8 Applicant must ensure street furniture is maintained in a clean, tidy, good, inoffensive and aesthetically appealing condition at all times.

A1.6.9 Applicant must ensure any plants associated with the street furniture are maintained in a healthy, neat and tidy condition at all times.

A1.6.10 Applicant must remove the street furniture or replace any planting, at the applicant's expense, and make good to the satisfaction of the City at the request of the City, public utility provider or the Minister for Lands (if Crown land or Crown road reserve) within 14 days of receiving the request. Reasons for a request to remove street furniture may include but are not limited to streetscape maintenance, required service access and noncompliance with the executed agreement.

A1.6.11 In the case of planned maintenance, the applicant is responsible for the removal, storage and reinstallation of the street furniture.

A1.6.12 Applicant to renew vibrant public spaces agreement.

1.7 Approval Process and Compliance

Street furniture proposals which achieve the design objectives, and where the applicant agrees to fulfill the applicant responsibilities, shall be approved under delegation and an agreement prepared for execution prior to installation.

1	Read the Vibrant Public Spaces Policy and Guidelines
~2	Plan your proposal What type of vibrant public space do you want?
3	Express your interest in developing a proposal via mail@vincent.wa.gov.au
4	Meet City representative on site Determine site suitability and discuss proposal ideas
<u> </u>	Have a conversation with your neighbours Will they support the proposal?
6	Design your proposal in consultation with the City Refer design and location requirements
~ 7	Submit proposal application and plans Include neighbour support and certification information
8	Proposal application assessment Meets requirements? no (return to 6) yes (progress)
9	City prepares proposal application assessment report Proposal recommended for approval or refusal
<u> </u>	City prepares 24 month vibrant public space agreement Only if proposal application approved
<u> </u>	Review and sign vibrant public space agreement
12	Vibrant public space agreement executed and issued Requires renewal by specified date
 13	Notify City 24 hours prior to installing street furniture and within 24 hours of completing installation
10	
	Enjoy and maintain the vibrant public space!

City of Vincent responsibility

Non-compliance with the executed vibrant public space agreement will result in:

- an onsite inspection to confirm any departures from the agreement;
- written notification to confirm the departures which require remediation; and
- removal of the street furniture, should the departures not be addressed within 21 days of the written notification being issued.

O2 AFFIXED EATING AREA FURNITURE

2.1 Design and Location Permissibility

Affixed eating area furniture proposals that meet the permissibility requirements prescribed in the table below shall be accepted for assessment:

✓ permitted

 permitted where located adjacent an existing approved business, excluding a home business

2.2 Design Objectives

DESIGN OBJECTIVES

O2.2.1 Respond to and enhance the distinctive characteristics of a local area, contributing to a sense of place.

O2.2.2 Integrate landscape design and contribute to community wellbeing through the protection and/or enhancement of the green network.

O2.2.3 Meet the needs and expectations of the community, balancing durability, maintenance and service access requirements with aesthetic quality.

O2.2.4 Provide comfortable spaces for the community that encourage physical activity, enable a range of uses, and are accessible to all.

O2.2.5 Provide places that are legible, with good lines of sight to key locations, clear connections and easily identifiable elements to help people find their way around.

DESIGN OBJECTIVES

O2.2.6 Optimise safety and security, supporting safe behaviour and use, by maximising opportunities for passive surveillance, integrating safety requirements, and following Crime Prevention through Environmental Design (CPTED) design principles.

O2.2.7 Contribute to a unique place identity, high level of amenity, and result in attractive and inviting places through scale, arrangement, articulation and material quality.

2.3 Design Requirements

DESIGN REQUIREMENTS

D2.3.1 Affixed eating area furniture design including materials, colour and finish shall have due regard for the surrounding streetscape and streetscape palette.

D2.3.2 Affixed eating area furniture must be of an appropriate scale in relation to other elements of the streetscape and not have the visual or apparent effect of enclosing a public space.

D2.3.3 Each bench, seat, table, planter box and the like shall be no more than 900mm in height and 1500mm in length, unless additional height and length can be demonstrated to meet Design Objectives O2.2.1 and O2.2.5.

D2.3.4 Umbrellas and the like shall have a minimum clearance of 2400mm from the finished ground level to the lowest part of the umbrella canopy.

D2.3.5 Affixed eating area furniture must be made of durable materials and free of protrusions and sharp edges.

D2.3.6 Affixed eating area furniture must be affixed or weighted to the satisfaction of the City and must be able to be removed within a 24 hour period without damage to the footpath, verge or any surrounding service pits. Part or all of the furniture may need to be temporarily or permanently removed for street improvements, utility work, service access or emergencies.

D2.3.7 Business logos, advertising, other branding, and reserved signs are prohibited. A small unobtrusive plaque recognising proposal sponsors and material donors may be acceptable if in line with the Design Objectives.

DESIGN REQUIREMENTS

D2.3.8 Affixed eating area furniture must incorporate Vibrant Public Space signage. The signage is to be supplied by the City and installed by the applicant. The scale of the affixed eating area furniture will determine the scale of signage required. The City shall specify the scale required prior to approval.

Vibrant Public Space Sign Example

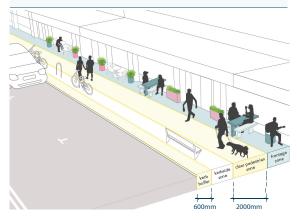

2.4 Location Requirements

LOCATION REQUIREMENTS

L2.4.1 Affixed eating area furniture must be located on an existing verge or footpath.

L2.4.2 Affixed eating area furniture shall only be permitted in or adjacent the Town Centre Built Form Area, Activity Corridor Built Form Area, Mixed Use Built Form Area or in or adjacent the Transit Corridor Built Form Area and Residential Built Form Area where located adjacent to an existing business, owned or tenanted by the applicant, excluding a home business.

L2.4.3 Affixed eating area furniture shall only be located in the frontage zone or kerbside zone within an existing approved Outdoor Eating Area in conjunction with an existing approved and current Outdoor Eating Area Permit.

LOCATION REQUIREMENTS

L2.4.4 Where the location of affixed eating area furniture encroaches in front of more than one business or tenancy, the location must be supported by the adjacent business or tenant, and tenancy owner.

L2.4.5 Affixed eating area furniture must be located a minimum of 600mm from any service pit and must be setback from existing street trees and planting, to ensure the health of the tree or planting.

L2.4.6 Affixed eating area furniture shall be located to provide a minimum 2000mm width clear pedestrian zone, unless:

- the width cannot be provided due to the design of the existing streetscape; and
- a reduced width can be demonstrated to meet Design Objectives 02.2.4 and 02.2.5.

Where a reduced clear pedestrian zone is deemed appropriate, a minimum clear pedestrian zone of no less than 1500mm must be maintained at all times.

L2.4.7 Affixed eating area furniture must be located to ensure the clear pedestrian zone aligns with the clear pedestrian zone in front of neighbouring properties to provide pedestrians with a clear and uninterrupted passage along any footpath.

L2.4.8 Affixed eating area furniture must be located to provide a minimum 600mm kerb buffer between the face of the kerb and the start of the kerbside zone.

L2.4.9 Affixed eating area furniture must not impede pedestrian, cyclist or vehicle access and sightlines.

L2.4.10 Affixed eating area furniture shall be located outside of any clear corner zone as measured at a 45° angle from the corner of a corner lot building, unless the street furniture scale and location can be demonstrated to meet Design Objective O2.2.5.

L2.4.11 Existing street furniture shall not be removed or relocated to accommodate new affixed eating area furniture proposals, unless the proposal can demonstrate it meets Design Objectives O2.2.1, O2.2.4, O2.2.5 and will contribute to achieving the Policy Objectives. Where the removal or relocation of existing street furniture is supported by the City, it will be at the expense of the applicant unless otherwise scheduled through the City's streetscape maintenance program.

2.5 Approval Requirements

Affixed eating area furniture proposals must fulfill the approval requirements prescribed in the table below in order to obtain approval for installation.

required

o required where located in the Transit Corridor Built Form Area or Residential Built Form Area

2.6 Applicant Responsibilities

APPLICANT RESPONSIBILITIES

A2.6.1 Applicant must engage with adjacent businesses and tenants to inform them of the affixed eating area furniture proposal and to obtain support for the proposal where required in relation to L2.4.4.

A2.6.2 Applicant must pay vibrant public space proposal approval fee, as prescribed in the City's annual fees.

A2.6.3 Applicant must provide structural and/or product certification for the affixed eating area furniture, as specified by the City, prior to approval.

A2.6.4 Applicant must notify the City 24 hours prior to the installation of any approved affixed eating area furniture, to confirm the installation date and time, and within 24 hours of completing installation, to confirm installation is complete.

A2.6.5 Applicant must hold current a policy of insurance for Public Liability for an amount of not less than \$10,000,000.00 (ten million dollars). A copy of the current certificate is to be provided to the City.

A2.6.6 Where excavation is required, the applicant is responsible for lodging and completing a Dial Before You Dig enquiry prior to the commencement of excavation.

APPLICANT RESPONSIBILITIES

A2.6.7 Where excavation is required the applicant is responsible for reinstatement to the satisfaction of the City, and the rectification of any damage to the City's infrastructure or any other service within the road reserve as a result of any works.

A2.6.8 Applicant must indemnify the City and its employees, agents or contractors, against all actions, suits, claims, damages, losses and expenses made against or incurred by the City arising from any activity, action or thing performed or erected or installed in accordance with the executed agreement.

A2.6.9 Applicant must permit dogs in the Outdoor Eating Area associated with the affixed eating area furniture.

A2.6.10 Applicant must not permit or encourage smoking in the Outdoor Eating Area associated with the affixed eating area furniture.

A2.6.11 Applicant must ensure affixed eating area furniture is maintained in a clean, tidy, good, inoffensive and aesthetically appealing condition at all times.

A2.6.12 Applicant must ensure any plants associated with the affixed eating area furniture are maintained in a healthy, neat and tidy condition at all times.

A2.6.13 Applicant must remove the affixed eating area furniture or replace any planting, at the applicant's expense, and make good to the satisfaction of the City at the request of the City, public utility provider or the Minister for Lands (if Crown land or Crown road reserve) within 14 days of receiving the request. Reasons for a request to remove affixed eating area furniture may include but are not limited to streetscape maintenance, required service access and non-compliance with the executed agreement.

A2.6.14 In the case of planned maintenance, the applicant is responsible for the removal, storage and reinstallation of the affixed eating area furniture.

A2.6.15 Applicant must report any changes to business or property ownership to the City and ensure that if a change in ownership occurs, the applicant will either remove the affixed eating area furniture or transfer the agreement to the new owner in consultation with the City.

A2.6.16 Applicant to renew vibrant public spaces agreement.

A2.5.17 Applicant must install City provided and prescribed Vibrant Public Space signs prior to installation completion.

2.7 Approval Process and Compliance

Affixed eating area furniture proposals which achieve the design objectives, and where the applicant agrees to fulfill the applicant responsibilities, shall be approved under delegation and an agreement prepared for execution prior to installation.

1	Read the Vibrant Public Spaces Policy and Guidelines
~ 2	Plan your proposal What type of vibrant public space do you want?
~ З	Express your interest in developing a proposal via mail@vincent.wa.gov.au
	Meet City representative on site Determine site suitability and discuss proposal ideas
~ 5	Have a conversation with your neighbours Will they support the proposal?
~ 6	Design your proposal in consultation with the City Refer design and location requirements
7	Community engagement and advertising If located in or adjacent the Transit Corridor or Residential Built Form Areas
8	Submit proposal application and plans Include neighbour support and certification information
9	Proposal application assessment Meets requirements? no (return to 6) yes (progress)
~ 10	City prepares proposal application assessment report Proposal recommended for approval or refusal
~ 11	City prepares 24 month vibrant public space agreement Only if proposal application approved
/ 12	Review and sign vibrant public space agreement pay approval fee
13	Vibrant public space agreement executed and issued Requires renewal by specified date
/ 14	Notify City 24 hours prior to installing affixed eating area furniture and within 24 hours of completing installation
~ 15	Enjoy and maintain the vibrant public space!
	Applicant responsibility City of Vincent responsibility

Non-compliance with the executed vibrant public space agreement will result in:

- an onsite inspection to confirm any departures from the agreement;
- written notification to confirm the departures which require remediation; and
- removal of the affixed eating area furniture, should the departures not be addressed within 21 days of the written notification being issued.

03 POP-UP PARKLET/ POP-UP EATLET

3.1 Design and Location Permissibility

Pop-up parklet and pop-up eatlet proposals that meet the permissibility requirements prescribed in the table below shall be accepted for assessment:

permitted where locate

permitted where located adjacent an existing approved business, excluding a home business

3.2 Design Objectives

DESIGN OBJECTIVES

O3.2.1 Respond to and enhance the distinctive characteristics of a local area, contributing to a sense of place.

O3.2.2 Integrate landscape design and contribute to community wellbeing through the protection and/or enhancement of the green network.

O3.2.3 Contribute positively to environmental, social and economic outcomes through passive environmental design, enhancement of the green network and promotion of active transport modes.

O3.2.4 Provide comfortable spaces for the community that encourage physical activity, enable a range of uses, and are accessible to all.

O3.2.5 Provide places that are legible, with good lines of sight to key locations, clear connections and easily identifiable elements to help people find their way around.

DESIGN OBJECTIVES

O3.2.6 Optimise safety and security, supporting safe behaviour and use, by maximising opportunities for passive surveillance, integrating safety requirements, and following Crime Prevention through Environmental Design (CPTED) design principles.

O3.2.7 Respond to local community needs and the wider social context by delivering a mix of public spaces that support a diverse range of people and facilitate social interaction.

O3.2.8 Contribute to a unique place identity, high level of amenity, and result in attractive and inviting places through scale, arrangement, articulation and material quality.

3.3 Design Requirements

DESIGN REQUIREMENTS

D3.3.1 Pop-up parklet and pop-up eatlet materials, colours and finishes shall complement and add interest to the surrounding streetscape and streetscape palette. Materials should be durable and non-reflective, and recycled or sourced locally where possible.

D3.3.2 Benches, seats, tables, planter boxes and the like shall be no more than 900mm in height and 1500mm in length, unless additional height and length can be demonstrated to meet Design Objectives O3.2.1 and O3.2.5.

D3.3.3 Umbrellas and the like shall have a minimum clearance of 2400mm from the finished ground level to the lowest part of the umbrella canopy.

D3.3.4 Pop-up parklets and pop-up eatlets must be free of protrusions and sharp edges.

D3.3.5 Pop-up parklets and pop-up eatlets must be able to be removed within a 24 hour period without damage to the footpath, verge or any surrounding service pits.

D3.3.6 Non-slip unfixed temporary surface materials, such as astroturf, may be applied to the existing ground surface to enhance a pop-up parklet or pop-up eatlet's aesthetic appeal.

D3.3.7 Pop-up parklet and pop-up eatlet furniture shall be freestanding and removed at the close of business each day and/or weighted to the satisfaction of the City.

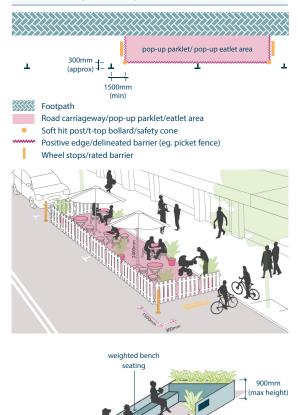

DESIGN REQUIREMENTS

D3.3.8 Pop-up parklets and pop-up eatlets shall be freestanding and not require anchoring into the City's road infrastructure. If a safety issue presents itself and anchoring is required, this will be assessed and may be approved by the City on a case by case basis.

D3.3.9 Pop-up parklets and pop-up eatlets located where a road closure is not in place must only be accessible from the adjoining footpath via an unobstructed section which must be at least 1500mm wide.

D3.3.10 Pop-up parklets and pop-up eatlets located where a road closure is not in place must include the following safety materials:

- soft hit posts, t-top bollards or 750mm road safety cones at each corner (roadside);
- wheel stops at each end unless the car bay is embayed or adjacent a tree well; and
- rated barriers at each end as specified by the City. These may not be required in all locations.

DESIGN REQUIREMENTS

D3.3.11 Pop-up parklets and pop-up eatlets must have a positive edge along the road and parking bay facing sides to offer adequate protection for users from moving vehicular traffic. The positive edge can take the form of planters, picket fencing, or some other appropriate barrier type to be agreed with the City. The height and scale of the buffer required will vary depending on the local context. For example, on some low-traffic streets, a continuous edge may not be required. The City will determine this on a case by case basis in collaboration with the applicant.

D3.3.12 Pop-up parklets and eatlets shall feel open and welcoming. To ensure po-up parklets and pop-up eatlets do not have the visual or apparent effect of enclosing a public space, positive edges are not permitted above 900mm in height from the footpath finished floor level, unless additional height is required due to the slope of the site and the proposal can be demonstrated to meet Design Objective O3.2.8.

D3.3.13 Pop-up parklets and pop-up eatlets must incorporate elements of furniture that are available for the community to use throughout the event to ensure there are places for people to sit at all times during the event.

D3.3.14 Business logos, advertising, other branding, and reserved signs are prohibited. A small unobtrusive plaque recognising proposal sponsors and material donors may be acceptable if in line with the Design Objectives.

D3.3.15 Pop-up parklets and pop-up eatlets must have a minimum of two Vibrant Public Space signs installed. These are to be supplied by the City and installed by the applicant prior to installation completion.

D3.3.16 Pop-up parklets and pop-up eatlets must incorporate elements of living green planting (greenery), such as shrubs, succulents or trees. A minimum of 5% of the pop-up area shall be greenery. Artificial man-made green elements are not considered living green planting and are not acceptable alternatives.

signage

3.4 Location Requirements

LOCATION REQUIREMENTS

L3.4.1 Pop-up parklets and pop-up eatlets must be located on the existing ground surface of a car bay within the road carriageway.

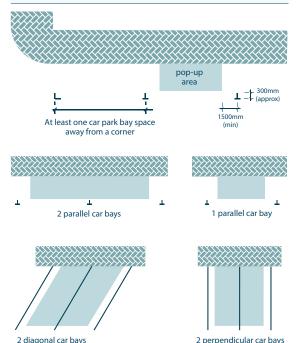

L3.4.2 Pop-up parklets and pop-up eatlets shall only be permitted on roads where the speed limit does not exceed 40km/h, or on roads where traffic calming is in place and the speed limit does not exceed 50km/h.

L3.4.3 Pop-up parklets and pop-up eatlets must not be located on roads classified as Primary Distributor or four lane District Distributor roads, including those with timed clearways in place.

L3.4.4 Pop-up parklets and pop-up eatlets shall generally be setback at least one car park space from a corner, unless a reduced setback can be demonstrated to meet Design Objectives O3.2.5.

L3.4.5 Pop-up parklets and pop-up eatlets may be permitted in on-street, parallel, angled, diagonal, perpendicular and/or paid car parking bays.

L3.4.6 Pop-up parklets and pop-up eatlets shall have a minimum buffer distance of 1500mm between the outer edge of adjacent parking spaces and the edge of the pop-up area.

LOCATION REQUIREMENTS

L3.4.7 Pop-up parklets and pop-up eatlets shall have a minimum buffer distance between the roadside outer edge of the parking space and the edge of the pop-up area (approximately 300mm). This buffer distance will be determined by the City on a case by case basis

L3.4.8 Pop-up parklets and pop-up eatlets shall not be permitted in embayed parking spaces which service public transport, on-demand transport, service vehicles or people with disabilities.

L3.4.9 Pop-up parklets and pop-up eatlets shall only be permitted in or adjacent the Town Centre Built Form Area, Activity Corridor Built Form Area, Mixed Use Built Form Area or in or adjacent the Transit Corridor Built Form Area and Residential Built Form Area where located adjacent to an existing business, owned or tenanted by the applicant, excluding a home business.

L3.4.10 Pop-up parklets and pop-up eatlets shall not impede or negatively impact upon pedestrian, cyclist or vehicular movement, sightlines at road junctions or vehicle access crossovers, or impede emergency vehicle movement.

L3.4.11 A maximum of two parking bays shall be used adjacent to the applicant's business or tenancy.

L3.4.12 The use of more than two bays may be considered where there is support from neighbouring businesses or tenants and a joint vibrant public space proposal application is submitted by the businesses or tenants.

L3.4.13 Weighted furniture must be located a minimum of 600mm from any service pit.

L3.4.14 Pop-up parklets and pop-up eatlets must consider any street trees and planting and maintain a minimum 500mm setback to ensure the health of the tree or planting.

L3.4.15 Existing street trees and planting shall not be removed or relocated to accommodate a pop-up parklet or pop-up eatlet proposal.

L3.4.16 Existing street furniture shall not be removed or relocated to accommodate a pop-up parklet or pop-up eatlet proposal, unless the proposal can demonstrate it meets the Design Objectives O3.2.1, O3.2.4, O3.2.5 and will contribute to achieving the objectives of this Policy. Where the removal or relocation of existing street furniture is supported by the City, it will be at the expense of the applicant unless otherwise scheduled through the City's streetscape maintenance program.

3.5 Approval Requirements

Pop-up parklet and pop-up eatlet proposals must fulfill the approval requirements prescribed in the table below in order to obtain approval for installation.

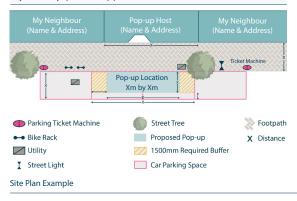

3.6 Applicant Responsibilities

APPLICANT RESPONSIBILITIES

A3.6.1 Applicant must engage with the event organiser and adjacent businesses and tenants to inform them of the popup parklet or pop-up eatlet proposal and to obtain support for the proposal where required in relation to L3.4.12.

A3.6.2 Applicant must submit complete vibrant public spaces application form inclusive of scaled site plan, proposal precedent imagery and demonstrated neighbour support.

A3.6.3 Applicant must provide structural and/or product certification for the affixed eating area furniture, as specified by the City, prior to approval.

APPLICANT RESPONSIBILITIES

A3.6.4 Applicant must hold current a policy of insurance for Public Liability for an amount of not less than \$10,000,000.00 (ten million dollars). A copy of the current certificate is to be provided to the City.

A3.6.5 Applicant must indemnify the City and its employees, agents or contractors, against all actions, suits, claims, damages, losses and expenses made against or incurred by the City arising from any activity, action or thing performed or erected or installed in accordance with the executed agreement.

A3.6.6 Applicant must notify the City 24 hours prior to the installation to confirm the installation date and time, and within 24 hours of completing installation, to confirm installation is complete.

A3.6.7 Installation should not take more than six hours and will require a Traffic Management Plan, at the applicant's expense, where the installation works cannot be undertaken from the footpath.

A3.6.8 Applicant must permit dogs in the pop-up parklet or pop-up eatlet.

A3.6.9 Applicant must not permit or encourage smoking in the pop-up parklet or pop-up eatlet.

A3.6.10 Applicant must ensure pop-up parklets and pop-up eatlets are maintained in a clean, tidy, good, inoffensive and aesthetically appealing condition at all times.

A3.6.11 Applicant must ensure any plants associated with the pop-up parklet or pop-up eatlet are maintained in a healthy, neat and tidy condition at all times.

A3.6.12 Applicant must remove the pop-up parklet or pop-up eatlet and replace any planting, at the applicant's expense, and make good to the satisfaction of the City at the request of the City or public utility provider within 14 days of receiving the request. Reasons for a request to remove a pop-up parklet or pop-up eatlet may include but are not limited to required service access and noncompliance with the executed agreement.

A3.6.13 In the case of planned maintenance, the applicant is responsible for the removal, storage and reinstallation of the pop-up parklet or pop-up eatlet.

A3.6.14 Applicant must report any changes to business or property ownership to the City and ensure that if a change in ownership occurs, the applicant will either remove the pop-up parklet or pop-up eatlet or transfer the agreement to the new owner in consultation with the City.

A3.6.15 Applicant must install a minimum of two City provided Vibrant Public Space signs prior to installation completion.

3.7 Approval Process and Compliance

Pop-up parklet and pop-up eatlet proposals which meet the design requirements, and where the applicant agrees to fulfill the applicant responsibilities, shall be approved under delegation and an agreement prepared for execution prior to installation.

1	Read the Vibrant Public Spaces Policy and Guidelines
2	Plan your proposal What type of vibrant public space do you want?
3	Express your interest in developing a proposal via mail@vincent.wa.gov.au
4	Meet City representative on site Determine site suitability and discuss proposal ideas
5	Have a conversation with the event organiser and your neighbours Will they support the proposal?
6	Design your proposal in consultation with the City Refer design and location requirements
7	Submit proposal application and plans Include neighbour support and certification information
8	Proposal application assessment Meets requirements? no (return to 6) yes (progress)
9	City prepares application assessment report Proposal recommended for approval or refusal
~ 10	City prepares vibrant public space agreement Only if application approved
<u> </u>	Review and sign vibrant public space agreement
12	Vibrant public space agreement executed and issued
13	Notify the City 24 hours prior to installation and within 24 hours of completing installation
 14	Enjoy and maintain the vibrant public space!

Applicant responsibility City of Vincent responsibility

Non-compliance with the executed vibrant public space agreement will result in:

- an onsite inspection to confirm any departures from the agreement;
- written notification to confirm the departures which • require remediation; and
- removal of the pop-up parklet or pop-up eatlet, • should the departures not be addressed within 21 days of the written notification being issued.

04 PARKLET/ EATLET

4.1 Design and Location Permissibility

Parklet and eatlet proposals that meet the permissibility requirements prescribed in the table below shall be accepted for assessment:

✓ permitted

 permitted where located adjacent an existing approved business, excluding a home business

LIQUOR LICENSING

Parklets are public at all times and are not able to be licensed for the consumption of alcohol.

Eatlets are not public at all times and are able to be licensed during business operating hours. Liquor licences are issued by the Department of Local Government, Sporting & Cultural Industries (DLGSC) Liquor Licensing Directorate and the City may support an applicant's application to license an eatlet subject to the following:

- the liquor licence is to be obtained by the applicant as the eatlet host;
- the liquor licence is to be in conjunction with an approved licensed premise such as an existing restaurant or small bar;
- liquor can only be served in the parklet during business operating hours; and
- the City reserves the right to restrict the hours when alcohol is permitted to be served in the eatlet.

4.2 Design Objectives

DESIGN OBJECTIVES

O4.2.1 Respond to and enhance the distinctive characteristics of a local area, contributing to a sense of place.

O4.2.2 Integrate landscape design and contribute to community wellbeing through the protection and/or enhancement of the green network.

O4.2.3 Ensure that massing and height are appropriate and sympathetic to existing built form and the intended future character of the local area.

O4.2.4 Meet the needs and expectations of the community, balancing durability, maintenance and service access requirements with aesthetic quality.

O4.2.5 Contribute positively to environmental, social and economic outcomes through passive environmental design, enhancement of the green network and promotion of active transport modes.

O4.2.6 Provide comfortable spaces for the community that encourage physical activity, enable a range of uses, and are accessible to all.

O4.2.7 Provide places that are legible, with good lines of sight to key locations, clear connections and easily identifiable elements to help people find their way around.

O4.2.8 Optimise safety and security, supporting safe behaviour and use, by maximising opportunities for passive surveillance, integrating safety requirements, and following Crime Prevention through Environmental Design (CPTED) design principles.

O4.2.9 Respond to local community needs and the wider social context by delivering a mix of public spaces that support a diverse range of people and facilitate social interaction.

O4.2.10 Contribute to a unique place identity, high level of amenity, and result in attractive and inviting places through scale, arrangement, articulation and material quality.

4.3 Design Requirements

DESIGN REQUIREMENTS

D4.3.1 Parklet and eatlet materials, colours and finishes shall complement and add interest to the surrounding streetscape and streetscape palette. Materials should be durable and non-reflective, and recycled or sourced locally where possible.

D4.3.2 Parklets and eatlets shall transform and enhance underutilised verge, footpath or road carriageway space. They shall be designed to suit individual site locations and shall incorporate the existing ground surface, a decked platform or new paving.

D4.3.3 Where new paving is proposed, the City will consult with the applicant and design the paving enhancements. The paving works will then be undertaken by the applicant, at the applicant's cost and as prescribed in the City's annual fees and charges, and compliance checked by the City.

D4.3.4 Parklets and eatlets shall not adversely effect the visual permeability of the streetscape and must allow pedestrians on either side of the street to see the opposite side of the street. To maintain visual permeability, continuous opaque walls are not permitted to exceed 900mm in height from the footpath finished floor level.

D4.3.5 Parklets and eatlets shall feel open and welcoming. To ensure parklets and eatlets do not have the visual or apparent effect of enclosing a public space:

- walls are not permitted above 900mm in height from the footpath finished floor level, unless additional height is required due to the slope of the site and the proposal can be demonstrated to meet Design Objectives 04.2.1, 04.2.2, 04.2.7 and 04.2.8;
- alfresco blinds are not permitted;
- clear glazing is permitted to a maximum of 1200mm
 in height from the footpath finished floor level; and
- each side that does not directly abut the footpath is permitted to consist of a maximum of 25% visually permeable screening, for the sole purpose of supporting plant growth.

D4.3.6 Parklets and eatlet overhead shelter structures, such as a canopy, umbrella, arbour or shade sail, shall have a minimum vertical clearance of 2400mm from the finished ground level to the lowest part of the shelter. Overhead shelter structures must not be attached to an awning or verandah. Where an overhead shelter structure is proposed to be solid, this is to be designed and constructed to ensure stormwater drains to the road carriageway and does not impact upon the pedestrian path.

20 | CITY OF VINCENT

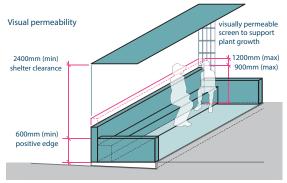

DESIGN REQUIREMENTS

D4.3.7 Parklets and eatlets located in the carriageway must have a positive edge along the road and parking bay facing sides to offer adequate protection for users from moving vehicular traffic. The positive edge must be a minimum of 600mm.

D4.3.8 Parklets and eatlets should be designed as an extension of the footpath and must be open and accessible from the adjoining footpath via an unobstructed flush or ramped section. Where the parklet or eatlet is located on a sloping site, a minimum 1500mm wide unobstructed flush section must be provided.

D4.3.9 Decked parklets and eatlets shall have a maximum gap of 10mm between the deck and the footpath. In the case of a sloping site, the applicant must work with the City to address issues of access.

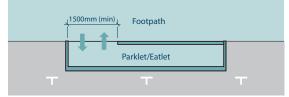

D4.3.10 Decked platforms located in the carriageway should be freestanding and not require anchoring into the City's road infrastructure. If a safety issue presents itself and anchoring is required, this will be assessed on a case by case basis and will be at the expense of the applicant and will require City approval.

Extend the footpath on a flat site

Extend the footpath on a sloping site

DESIGN REQUIREMENTS

D4.3.11 Parklets and eatlets shall not impede the flow of kerbside drainage. A 150mm x 150mm minimum clear gutter space must be provided along the entire length of the parklet or eatlet adjacent to the kerb. Openings at either end may be covered with screens to prevent debris buildup beneath in the gutter.

D4.3.12 Decked parklets and eatlets must be modular in design to allow access for maintenance (i.e. repairs, clearing debris and streetscape maintenance).

D4.3.13 Decked platforms and any affixed furniture to the existing ground surface or new paving must be able to be removed within a 24 hour period without damage to the footpath, verge or any surrounding service pits. Part or all of the platform or furniture may need to be temporarily or permanently removed for street improvements, utility work, service access or emergencies.

D4.3.14 A minimum of 15% of the total parklet or eatlet area must be living green planting (greenery), such as shrubs, succulents, climbing plants or trees. The required area may be reduced to 10% where trees or climbing plants are incorporated into the design and provide shade canopy. Artificial man-made green elements are not considered living green planting and are not acceptable alternatives.

D4.3.15 Parklets and eatlets located in the carriageway must include the following safety materials:

- soft hit posts (roadside);
- wheel stops affixed at each end unless the car bay is embayed or adjacent a tree well; and
- rated barriers at each end as specified by the City.

D4.3.16 Parklets and eatlets must be free of protrusions and sharp edges.

DESIGN REQUIREMENTS

D4.3.17 Parklets and eatlets must integrate permanent seating to ensure the space remains useable and welcoming after moveable furniture like tables and chairs are put away outside of business hours.

D4.3.18 Solar-powered lighting elements are strongly encouraged on parklets and eatlets. Where the parklet or eatlet has a canopy, the provision of lighting is mandatory. Electric lighting may be permitted but will require an electrical connection to a building and a separate electrical certification and approval.

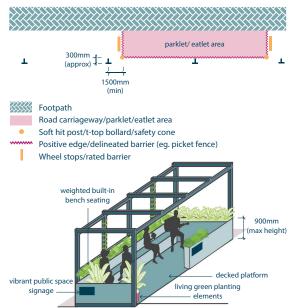

D4.3.19 Integrated bicycle parking is strongly encouraged.

D4.3.20 Business logos, advertising, other branding, and reserved signs are prohibited. A small unobtrusive plaque recognising proposal sponsors and material donors may be acceptable if in line with the Design Objectives.

D4.3.21 Parklets and eatlets must have a minimum of two Vibrant Public Space signs installed. These are to be supplied by the City and installed by the applicant prior to installation completion.

Vibrant Public Space Sign Example

4.4 Location Requirements

LOCATION REQUIREMENTS

L4.4.1 Parklets and eatlets shall only be permitted in or adjacent the Town Centre Built Form Area, Activity Corridor Built Form Area, Mixed Use Built Form Area or in or adjacent the Transit Corridor Built Form Area and Residential Built Form Area where located adjacent to an existing business, owned or tenanted by the applicant, excluding a home business.

L4.4.2 Within the prescribed Built Form Areas, parklets and eatlets shall be located in the:

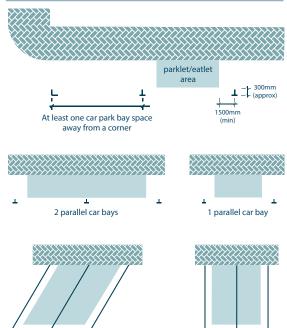

- verge;
- kerb buffer and/or kerbside zone of a footpath; or
- road carriageway.

L4.4.3 Parklets and eatlets shall not be located in the frontage zone.

L4.4.4 Parklets and eatlets shall be located to provide a minimum 2000mm width clear pedestrian zone, unless:

- the width cannot be provided due to the design of the existing streetscape; and
- a reduced width can be demonstrated to meet Design Objectives 04.2.6, 04.2.7 and 04.2.9.

Where a reduced clear pedestrian zone is deemed appropriate, a minimum clear pedestrian zone of no less than 1500mm must be maintained at all times.

2 perpendicular car bays

LOCATION REQUIREMENTS

L4.4.5 The parklet or eatlet must be located to ensure the clear pedestrian zone aligns with the clear pedestrian zone in front of neighbouring properties to provide pedestrians with a clear and uninterrupted passage along any footpath.

L4.4.6 Parklets and eatlets shall be offset a minimum of 750mm at each end to ensure a minimum 1500mm gap is provided to allow pedestrians to traverse the street.

L4.4.7 Where located in a carriageway, parklets and eatlets shall only be permitted on roads where the speed limit does not exceed 40km/h, or on roads where traffic calming is in place and the speed limit does not exceed 50km/h.

L4.4.8 Where located in a carriageway, parklets and eatlets must not be located on roads classified as Primary Distributor or four lane District Distributor roads, including those with timed clearways in place.

L4.4.9 Where located in a carriageway, parklets and eatlets shall generally be setback at least one car park space from a corner, unless a reduced setback can be demonstrated to meet Design Objectives O4.2.7.

L4.4.10 Where located in a carriageway, parklets and eatlets shall have a minimum buffer distance of 1500mm between the outer edge of adjacent parking spaces and the edge of the parklet/eatlet area.

L4.4.11 Where located in a carriageway, parklets and eatlets shall have a minimum buffer distance between the roadside outer edge of the parking space and the edge of the parklet/eatlet area (approximately 300mm). This distance will be determined by the City on a case by case basis.

L4.4.12 Parklets and eatlets may be permitted in on-street, parallel, angled, diagonal, perpendicular and/or paid car parking bays where demand in the precinct (400m walkable catchment area) does not exceed 85% occupancy.

22 | CITY OF VINCENT

2 diagonal car bays

LOCATION REQUIREMENTS

L4.4.13 Parklets and eatlets shall not be permitted in embayed parking spaces which service public transport, on-demand transport, service vehicles or people with disabilities.

L4.4.14 A maximum of two parking bays shall be used adjacent to the applicant's business or tenancy.

L4.4.15 The use of more than two bays may be considered where there is support from neighbouring businesses or tenants and a joint application is submitted by the businesses or tenants.

L4.4.16 Parklets and eatlets shall not impede or negatively impact upon pedestrian, cyclist or vehicular movement, sightlines at road junctions or vehicle access crossovers, or impede emergency vehicle movement.

L4.4.17 Affixed parklet and eatlet furniture must be located a minimum of 600mm from any service pit.

L4.4.18 Parklets and eatlets must consider any exiting street trees and planting and maintain a minimum 500mm setback to ensure the health of the tree or planting.

L4.4.19 Existing street trees shall not be removed or relocated to accommodate a parklet or eatlet proposal.

L4.4.20 Existing planting shall not be removed or relocated to accommodate a parklet or eatlet proposal, unless the proposal can demonstrate it meets the Design Objectives O4.2.1, O4.2.2, O4.2.5 and will provide additional planting and/or canopy cover.

L4.4.21 Existing street furniture shall not be removed or relocated to accommodate a parklet or eatlet proposal, unless the proposal can demonstrate it meets the Design Objectives O4.2.1, O4.2.5, O4.2.6 and will contribute to achieving the objectives of this Policy. Where the removal or relocation of existing street furniture is supported by the City, it will be at the expense of the applicant unless otherwise scheduled through the City's streetscape maintenance program.

L4.4.22 Within a 400 metre catchment, no more than 20% of the public realm (of eligible areas) may be occupied by eatlets.

4.5 Approval Requirements

Parklet and eatlet proposals must fulfill the approval requirements prescribed in the table below in order to obtain approval for installation.

			AP	PROV	AL RE	QUIR	EMEN	ITS

- ^ required where the base is new paving

4.6 Applicant Responsibilities

APPLICANT RESPONSIBILITIES

A4.6.1 Applicant must engage with adjacent businesses and tenants to inform them of the parklet eatlet proposal and to obtain support for the proposal where required in relation to L4.4.15.

A4.6.2 Applicant must submit complete vibrant public space proposal application form inclusive of scaled site plan, proposal precedent imagery and demonstrated neighbour support.

A4.6.3 Applicant must pay application/design and approval fees, as prescribed in the City's annual fees and charges.

A4.6.4 Applicant must provide parklet or eatlet structural certification.

APPLICANT RESPONSIBILITIES

A4.6.5 Applicant must hold current a policy of insurance for Public Liability for an amount of not less than \$20,000,000.00 (twenty million dollars). A copy of the current certificate is to be provided to the City.

A4.6.6 Applicant must indemnify the City and its employees, agents or contractors, against all actions, suits, claims, damages, losses and expenses made against or incurred by the City arising from any activity, action or thing performed or erected or installed in accordance with the executed agreement.

A4.6.7 Where excavation is required, the applicant is responsible for lodging and completing a Dial Before You Dig enquiry prior to the commencement of excavation.

A4.6.8 Where excavation is required the applicant is responsible for reinstatement to the satisfaction of the City, and the rectification of any damage to the City's infrastructure or any other service within the road reserve as a result of any works.

A4.6.9 Applicant must notify the City 24 hours prior to the installation to confirm the installation date and time, and within 24 hours of completing installation, to confirm installation is complete.

A4.6.10 The parklet or eatlet shall primarily be built off site. A Traffic Management Plan, prepared at the applicant's expense, shall be required where the installation works cannot be undertaken from the footpath.

A4.6.11 Applicant must permit dogs in the parklet or eatlet.

A4.6.12 Applicant must not permit or encourage smoking in the parklet or eatlet.

A4.6.13 Applicant must ensure parklets and eatlets are maintained in a clean, tidy, good, inoffensive and aesthetically appealing condition at all times.

A4.6.14 Applicant must ensure any plants associated with the parklet or eatlet are maintained in a healthy, neat and tidy condition at all times.

A4.6.15 Applicant must remove any decked platform, affixed street furniture and replace any planting, at the applicant's expense, and make good to the satisfaction of the City at the request of the City or public utility provider within 14 days of receiving the request. Reasons for removal requests may include but are not limited to required service access and non-compliance with the executed agreement.

A4.6.16 In the case of planned maintenance, the applicant is responsible for the removal, storage and reinstallation of the parklet or eatlet.

APPLICANT RESPONSIBILITIES

A4.6.17 Applicant must report any changes to business or property ownership to the City and ensure that if a change in ownership occurs, the applicant will either remove any decked platform or affixed furniture or transfer the agreement to the new owner in consultation with the City.

A4.6.18 Applicant must install a minimum of two City provided Vibrant Public Space signs prior to installation completion.

A4.6.19 Applicant to renew vibrant public spaces agreement.

4.7 Approval Process and Compliance

Parklet and eatlet proposals which achieve the applicable the design requirements, and where the applicant agrees to fulfill the applicant responsibilities, shall be approved under delegation and an agreement prepared for execution prior to installation.

	Plan your proposal What type of vibrant public space do you want?
/	Express your interest in developing a proposal via mail@vincent.wa.gov.au
	Meet City representative on site Determine site suitability and discuss proposal ideas
	Have a conversation with your neighbours Will they support the proposal?
	Design your proposal in consultation with the City Pay design fee if applicable
	Submit proposal application, plans and pay applicable fee Include neighbour support and certification information
	Community engagement and advertising Refer engagement requirements
	Finalise proposal application Revise following community engagement as required
)	Submit complete proposal application Refer proposal application form and checklist
/ 	Proposal application assessment Meets requirements? no (return to 6) yes (progress)
⁄ 2	City prepares proposal application assessment report Proposal recommended for approval or refusal
3	City prepares vibrant public space agreement Only if proposal application approved
1	Review and sign vibrant public space agreement Pay approval fee
5	Vibrant public space agreement issued Requires renewal by specified date
5	City completes paving enhancement works For applicable proposal applications
7	Applying for a liquor licence for your eatlet? Prepare and submit licence application to DLGSC
⁄ }	Notify City 24 hours prior to installation and within 24 hours of completing installation
>	Enjoy and maintain the vibrant public space!

City of Vincent responsibility

Non-compliance with the executed vibrant public space agreement will result in:

- an onsite inspection to confirm any departures from the agreement;
- written notification to confirm the departures which require remediation; and
- removal of the parklet or eatlet, should the departures not be addressed within 21 days of the written notification being issued.

05 OTHER PROPOSAL

5.1 Design and Location Permissibility

Other proposals shall be accepted for assessment where a complete vibrant public spaces application form is submitted, inclusive of justification regarding how the proposal:

- is publicly accessible;
- provides public benefit;
- addresses Policy Objectives; and
- meets the Design Objectives O5.2.1 O5.2.10.

5.2 Design Objectives

DESIGN OBJECTIVES

O5.2.1 Respond to and enhance the distinctive characteristics of a local area, contributing to a sense of place.

O5.2.2 Integrate landscape design and contribute to community wellbeing through the protection and/or enhancement of the green network.

O5.2.3 Ensure that massing and height are appropriate and sympathetic to existing built form and the intended future character of the local area.

O5.2.4 Meet the needs and expectations of the community, balancing durability, maintenance and service access requirements with aesthetic quality.

O5.2.5 Contribute positively to environmental, social and economic outcomes through passive environmental design, enhancement of the green network and promotion of active transport modes.

O5.2.6 Provide comfortable spaces for the community that encourage physical activity, enable a range of uses, and are accessible to all.

O5.2.7 Provide places that are legible, with good lines of sight to key locations, clear connections and easily identifiable elements to help people find their way around.

O5.2.8 Optimise safety and security, supporting safe behaviour and use, by maximising opportunities for passive surveillance, integrating safety requirements, and following Crime Prevention through Environmental Design (CPTED) design principles.

26 | CITY OF VINCENT

DESIGN OBJECTIVES

O5.2.9 Respond to local community needs and the wider social context by delivering a mix of public spaces that support a diverse range of people and facilitate social interaction.

O5.2.10 Contribute to a unique place identity, high level of amenity, and result in attractive and inviting places through scale, arrangement, articulation and material quality.

5.3 Approval Requirements

Other proposals must fulfill the approval requirements prescribed in the table below in order to obtain approval.

			AP	PROV	AL RE	QUIR	EMEN	ITS

exemptions do not apply under Building Regulations 2012, Sch 4, Clause 2

5.4 Applicant Responsibilities

APPLICANT RESPONSIBILITIES

A5.4.1 Applicant must engage with adjacent businesses and tenants to inform them of the proposal.

A5.4.2 Applicant must complete vibrant public space proposal application form inclusive of scaled site plan, proposal precedent imagery and demonstrated neighbour support.

A5.4.3 Applicant must pay application/design and approval fees, as prescribed in the City's annual fees and charges.

A5.4.4 Applicant must provide structural or product certification as determined by the City.

A5.4.5 Applicant must indemnify the City and its employees, agents or contractors, against all actions, suits, claims, damages, losses and expenses made against or incurred by the City arising from any activity, action or thing performed or erected or installed in accordance with the executed licence.

A5.4.6 Applicant must hold current a policy of insurance for Public Liability for an amount of not less than \$20,000,000.00 (twenty million dollars). A copy of the current certificate is to be provided to the City.

A5.4.7 Where excavation is required, the applicant is responsible for lodging and completing a Dial Before You Dig enquiry prior to the commencement of excavation.

A5.4.8 Where excavation is required the applicant is responsible for reinstatement to the satisfaction of the City, and the rectification of any damage to the City's infrastructure or any other service within the road reserve as a result of any works.

A5.4.9 Applicant must permit dogs in the vibrant public space.

A5.4.10 Applicant must not permit or encourage smoking in the vibrant public space.

A5.4.11 Applicant must ensure the vibrant public space is maintained in a clean, tidy, good, inoffensive and aesthetically appealing condition at all times.

A5.4.12 Applicant must ensure any plants associated with the vibrant public space are maintained in a healthy, neat and tidy condition at all times.

APPLICANT RESPONSIBILITIES

A5.4.13 Applicant must remove any affixed structures, at the applicant's expense, and make good to the satisfaction of the City at the request of the City or public utility provider within 14 days of receiving the request. Reasons for removal requests may include but are not limited to required service access and non-compliance with the executed licence.

A5.4.14 In the case of planned maintenance, the applicant is responsible for the removal, storage and reinstallation of the vibrant public space.

A5.4.15 Applicant must report any changes to business or property ownership to the City and ensure that if a change in ownership occurs, the applicant will either remove any affixed structures or transfer the licence to the new owner in consultation with the City.

A5.4.16 Applicant to renew vibrant public spaces agreement and pay renewal fee as prescribed in the City's annual fees and charges.

A5.4.17 Applicant must install City provided and prescribed Vibrant Public Space signs prior to installation completion.

5.5 Approval Process

Other proposals which demonstrate they are publicly accessible and address and achieve the Policy Objectives and Design Objectives O5.2.1 - O5.2.10 shall be progressed through the following approvals process.

5.7 SMALL BUSINESS FRIENDLY APPROVALS PROGRAM - FINAL REPORT

Attachments: 1. Small Business Friendly Approvals Program - Final Report 🗓 🖾

RECOMMENDATION:

That Council NOTES:

- 1. the Small Business Friendly Approvals Program City of Vincent Final Report at Attachment 1; and
- 2. Administration will be reporting progress of the 33 reforms of this report to the Small Business Development Corporation every six months, and a copy of these reports can be included in the Information Bulletin to Council.

PURPOSE OF REPORT:

For Council to note the final report for the City of Vincent Small Business Friendly Approvals Program (SBFA), produced by the Small Business Development Corporation (SBDC).

BACKGROUND:

The City of Vincent was selected to participate in the Small Business Friendly Approvals (SBFA) Program, being one of 20 successful local governments. The program is delivered by the Small Business Development Corporation (SBDC) who invest skills, knowledge, experience and budget to successful local governments.

The SBFA Program utilises Human Centred Design Thinking which involves participation from approvalsbased teams and communications-focused teams. This includes team members who specialise in Building, Compliance, Customer Service, Environmental Health, Information Technology, Marketing, Place, Rangers, Statutory Planning and Strategic Planning. The City collectively contributed the equivalent of six months work by having team members attend 12 workshops, with Ink Strategy as facilitators.

The workshop journey included the following steps:

- 1. Empathise understand user/customer needs.
- 2. Define What and why is it important?
- 3. Ideate How do we solve it/improve?
- 4. Prototype Bringing ideas to life.
- 5. Test Does it work?
- 6. Embed Embedding and supporting?

SBDC provided the City with small business statistics prior to commencement of the program. Of the City's 5,566 businesses, 5,416 (97%) are small businesses and 3,278 are sole traders. A small business employs 0-19 people. These businesses contribute to a gross regional product of \$4.1billion. This data reflects that small businesses are an essential part of the local economy, which is reflected in the Thriving Places priority of our Strategic Community Plan (SCP).

DETAILS:

The final report produced by SBDC can be viewed at **Attachment 1**. This report contains information on the six stages of the workshop journey, which resulted in 33 reforms. These reforms were refined from >300 ideas during the Ideation Phase and incorporated feedback from some local small businesses.

This feedback was obtained from Ink and formed part of the Empathise Phase. Four main themes emerged from this input, as detailed in the following table:

Theme	Selected Quote
Progressive outlook; constrained frameworks	Council presented as being very forward thinking, but the systems and processes don't back this up
A need to better understand small business pressures and need	I wanted to work collaboratively, but felt it was really difficult. I wanted to talk to someone but was always being told to 'put it in writing'
Limited ownership and consistency	The entire approvals process was not communicated up front
Help me to help myself	Expectations were difficult to understand and interpret

Two businesses provided advice on their experiences during the workshops which helped the SBFA team to consider ideas on how their experience could have been improved. These ideas were grouped into three reforms areas, being:

- 1. Better information to make it easier for small businesses to navigate and understand requirements of the application and approvals process when starting, pivoting or growing their business.
- 2. Business Support Service to support small business through a coordinated and collaborative five staged approach as they undertake their enquiry, pre-lodgement, lodgement, assessment/approval and operational journey.
- 3. Streamline processes to improve the customer experience to implement solutions that streamline and expedite processes linked to small business applications and strengthen the system and tools that support process improvement.

Delivery of the 33 reforms is supported by an operational Implementation Plan which contains tasks and defines success. The progress of these tasks is reported to SBDC every six months. Some of the reforms were progressed during the protype and testing phase of the workshops and it is expected implementation of these key tasks would be completed soon. These include:

- An overarching small business journey roadmap (part of Reform 1.5);
- Online approvals self-assessment questionnaire (Reform 1.14);
- Developing a workflow to embed a Business Support function (Reform 2.1);
- Initial review of forms (Reform 1.7);
- Drafting of an acoustic consultant's matrix to guide small businesses on when a report is required (Reform 1.6); and
- Steps to consolidate information on business enhancement opportunities through the website (Reform 1.13).

CONSULTATION/ADVERTISING:

Selected businesses participated in the 'Empathise' phase of the program.

LEGAL/POLICY:

All Acts, Regulations, Local Laws and Policies that relate to Small Business approvals.

RISK MANAGEMENT IMPLICATIONS

Low: It is low risk for Council to note this report.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's Strategic Community Plan 2018-2028:

Thriving Places

We are recognised as a City that supports local and small business. We encourage innovation in business, social enterprise and imaginative uses of space, both public and private.

Innovative and Accountable

Our community is satisfied with the service we provide.

SUSTAINABILITY IMPLICATIONS:

This is in keeping with the following key sustainability outcomes of the *City's Sustainable Environment Strategy* 2019-2024.

Waste Reduction

PUBLIC HEALTH IMPLICATIONS:

This is in keeping with the following priority health outcomes of the City's Public Health Plan 2020-2025:

Reduced exposure to environmental health risks

FINANCIAL/BUDGET IMPLICATIONS:

Thirty of the 33 reforms do not have a budget implication and these reforms can be delivered utilising existing budget. Three reforms may have a budget implication; however, these reforms require some further development to understand what the costs are and whether the costs can be incorporated into existing budget.

COMMENTS:

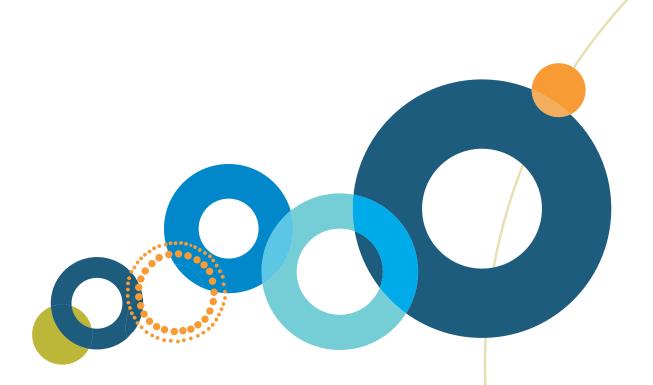

The SBFA reforms are to be delivered over a two-year period with Administration providing a performance report to SBDC every six months. Selected small businesses participated in the journey and were impressed with the progress the City made as part of this Program. The reforms of this program align strongly with the SCP and are being incorporated into corporate business planning.

Small Business Friendly Approvals Program

Rangers	Jean Lowther, Coordinator Ranger Services	Dean Lawrence, Senior Ranger
Small Business Development Corporation	Annette Brown, Senior Project and Engagement Officer	N/A

The Small Business Development Corporation would like to thank the local businesses who shared their own experiences to help identify improvements to the current approvals processes required to establish and grow a small business in the City of Vincent.

Welcome from the Small Business Commissioner

Over the past two years, governments and businesses have navigated the complexities of doing business in an unprecedented era. We developed a new set of learnings from living with, and managing, a global pandemic.

As I reflect on what we learnt during the COVID-19 pandemic, the stand out is how well small businesses adapted to disruption.

They recalibrated operations to respond to supply chain issues, financial uncertainty, shifts in consumer spending and engagement, and a heightened awareness of business vulnerability and risk.

We witnessed an outstanding commitment by small businesses to ensure the safety of their customers, staff, and the wider community, while continuing to provide the goods and services we all need. Many made significant sacrifices.

Never before has the sector been so agile, or played such a central role in helping our society adapt to the new way of living. The rapid response from small businesses to the challenges of the past year has allowed us to enjoy a stable and growing economy.

One outcome of this global crisis is the acknowledgement of the importance of small businesses. They continue to be a significant driver of our economy and a major source of jobs for Western Australians. With unpredictability expected for some time to come, governments at all levels have recognised the pressing need to engage with and support the business community as it continues to build long-term sustainability and resilience.

The Small Business Development Corporation (SBDC's) Small Business Friendly Approvals Program addresses some of this need. The City of Vincent is part of a select group of WA local governments chosen to participate in the intensive process to map, examine and improve the approval processes for local small businesses.

I would particularly like to thank the officers involved in the working group, who over a series of sessions reviewed current practices and developed strategies to deliver business transformation, enhance the customer experience and support business viability.

This report outlines the reforms they have identified to make a real difference for small businesses in the City of Vincent.

David Eaton Small Business Commissioner Chief Executive Officer Small Business Development Corporation

Project background

Depending on the location and business type, licences and permits may be required at the local, state and federal government level. This multi-layered compliance process can present a host of challenges: firstly in understanding the processes, followed by identifying which approvals are required, then providing the relevant information to enable an assessment and determination to be made.

Many small business operators face the challenge of starting their business while also working full-time – or worse, have left their job with the intention of starting a business – and have limited understanding of how long government approvals can take. These entrepreneurs are faced with having to understand lease agreements, obtain finance, establish a supply chain or employ workers, as well as apply for licences to trade.

More broadly, businesses are also faced with challenges including unpredictable customer spending, increased competition from on-demand services, e-commerce, globalisation, and the disruption caused by COVID-19.

There has never been a greater need or opportunity to support the establishment and growth of small business in Western Australia.

The Small Business Friendly Approvals Program (Approvals Program) is an SBDC initiative that aims to assist regulating authorities to reform their approvals regimes and foster a supportive business environment. The process includes identifying issues facing small businesses, designing reforms to achieve more streamlined approval processes and supporting government authorities to implement those reforms. A member of the SBDC's Small Business Friendly Local Governments initiative, the City of Vincent was selected through a competitive application process to be one of 20 Western Australian local governments to partner with the SBDC to develop a customised Approvals Program Implementation Plan. The reform initiatives presented in the plan are the result of a detailed examination of the approvals process for a range of small business applicants in the City of Vincent. It addresses local government touchpoints and interactions with small business, from business idea to operation.

Enacting the reform initiatives detailed in the implementation plan will:

- reduce approval timeframes, saving both the City and business applicants considerable time and money
- foster a 'can-do' business-friendly culture and deliver an improved experience for the City's small business customers
- ensure more efficient and effective use of City resources
- align with the WA Government's Streamline WA reform agenda

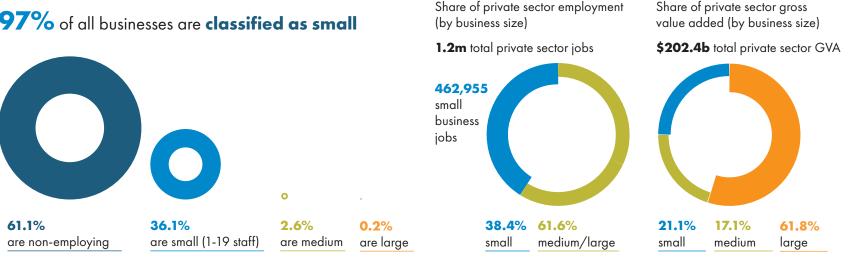

Small business statistics

Small business is big business in Western Australia, with 223,524 small businesses in the state

Ninety-seven per cent of all businesses are considered small (fewer than 20 employees).¹

97% of all businesses are classified as small

The small business sector contributes more than \$54 billion to WA's economy and employs almost forty per cent of the private sector workforce.^{2, 3}

1. Australian Bureau of Statistics (June 2021) 8165.0 Counts of Australian Businesses, including Entries and Exits, June 2017 to June 2021.

2. Value of small business to WA economy is an estimate using a revised SBDC model based on previous work undertaken by ACIL Allen using ABS data. All figures are nominal (ie. in 2019-20 dollars).

3. Share of private sector employment is an estimate by ACIL Allen using ABS data. The figure is at June 2020.

The City of Vincent's business landscape

Located three kilometres from Perth's central business district and covering a land area of just over 11 km², this compact inner city local government has a distinct sense of place across its six town centres.

With a population of over 37,000 in 2020^1 , Vincent is home to $5,562^2$ businesses that generate over 25,000local jobs, with over 10 per cent, or approximately 3,800 residents, employed within the City.

With its bustling array of specialty shops, cafes and service offerings, it may not be a surprise that 97 per cent of businesses in Vincent fall within the small business category.

Viewed as one of the most progressive and innovative boutique local governments in Western Australia, the City has successfully built on its inner city heritage and neighbourhood clusters to create a great sense of place, prosperity and wellbeing across its six town centres.

A holistic management approach has seen Leederville, Mount Lawley, Mount Hawthorn, North Perth, Northbridge and the Pickle District flourish through the City's ability to connect communities, nurture people and natural assets, retain its character and charm, and support a vibrant small business sector.

This balance of people, place and prosperity puts the City in a strong and responsive position when the world was plunged into a state of emergency in 2020 with the emergence of the pandemic. People grappled then rallied, businesses pivoted and the

¹ Australian Bureau of Statistic Estimated Resident Population (ERP) 2020.
 ² National Institute of Economic and Industry Research (NIER) 2021.

City responded swiftly as they led their community with an innovative COVID-19 Relief and Recovery Strategy. The Strategy guided the City's actions during COVID-19, enabling agile and responsive decision making that was based on a three phase approach: to respond and offer relief, adapt and evaluate, recover and rebound.

As part of its recovery and rebound phase, the City has partnered with the SBDC to strengthen and support its local economy. Recognising that this is not restricted to simply attracting new business opportunities, but to capture the entrepreneurial spirit that can emerge from unanticipated events like the pandemic, and to help their existing small businesses grow and thrive.

Whilst workshops were delivered during a period of instability and uncertainty as the State transitioned through different levels of health advice, the working group remained focussed. Their commitment and efforts have ensured that the results of this program will align with the Vincent Rebound Plan and support officers in streamlining processes and identifying ways to make it easier for small business to understand what regulatory approvals they will need to start, pivot or expand their operations in a world that adjusts to living with COVID-19.

The City of Vincent's business landscape

Of the **5,566** businesses in the City, **5,416** (97 per cent) are categorised as a small business, employing 0-19 people, with **3,278** of these identifying as sole traders.¹

Top four industries by number of small businesses

Professional, scientific and technical services

624 (no employees) 573 (0-19 employees) 22.1% of all small businesses

Rental, hiring and real estate services

738 (no employees) 120 (0-19 employees) 15.8% of all small businesses

Construction

438 (no employees) 180 (0-19 employees) 11.4% of all small businesses

Health and social assistance

273 (no employees)148 (0-19 employees)7.7% of all small businesses

This data demonstrates that although hospitality businesses are more visible on the main streets and centres, there is a thriving services sector located within the City.

The business application and approvals landscape for the City of Vincent

Data collection across local governments differs significantly and often aligns with statutory requirements, as opposed to capturing information to assist in enhancing the small business customer experience.

An example is reported approval turnaround times, which are based on the receipt of 'complete applications', rather than the initial application submission date, which may be extended due to requests for additional information and/or sign off by referral agencies and associated regulatory requirements.

The Approvals Program guides local governments to identify improvements in how they provide information, offer dedicated small business support and streamline internal processes. These changes aim to help small business customers submit complete and quality applications the first time, for efficient processing and reduced approval times across departments.

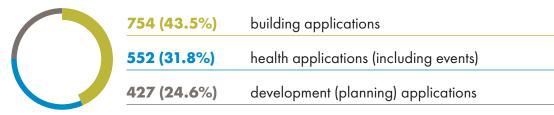

Each day a business opening is delayed due to an incomplete application, and consequent stalled assessment and processing, it is not only costing the business in relation to rent and operating expenses, but also postpones earnings and employment opportunities.

As indicated in the following data sets, assessment efficiencies can significantly reduce approval times. Being able to start operating as soon as possible generates income, creates jobs and establishes the small business as an active contributor to the community's social and economic landscape.

1. Australian Bureau of Statistics (June 2021) 8165.0 Counts of Australian Businesses, including Entries and Exits, June 2017 to June 2021.

The business application and approvals landscape for the City of Vincent

1,733 applications received across departments in 2020/21

2020/21 building applications

754 building applications received

710 building applications determined

- 15 days is the average time taken to determine uncertified applications
- 6-7 days is the average time taken to determine certified applications

130 (17.2%) of the building applications received related to commercial enterprises, including 23 occupancy permits and six demolition permits.

2020/21 health applications

552 health applications received

10 days is the average time taken to determine complete health applications

552 (100%) of health applications received related to commercial enterprises and comprised of the following:

174 (31.5%) market stall applications

158 (28.6%) food business (notification/ registration) applications

124 (22.5%) noise permits

41 (7.4%) liquor licensing section 39 applications

30 (5.4%) public building approval applications (events)

14 (2.5%) skin penetration premises

11 (2%) public building approval applications (permanent, 'bricks and mortar' premises)

2020/21 development (planning) applications

427 (planning) applications received

478 (planning) applications determined¹

76 days is the average time to determine incomplete applications (noting that 81% of applications submitted are incomplete)

71 days is the average time to determine complete applications

97 (20.3%) of determined development (planning) applications relating to commercial enterprises consisted of³:

47 (48.4%)	change of use applications
36 (37.1%)	proposed commercial developments or alterations and additions to commercial properties
13 (13.4%)	signage applications
1 (1%)	home occupation/home business application
	36 (37.1%) 13 (13.4%)

¹ Note; determined applications included applications carried over from the 2019/20 financial year.

² The City will only progress (or 'start the clock') applications that have all the required approvals information (e.g. missing information, plan revisions and external referrals to agencies for advice and comment). This is the time adjusted figure.

³ The number and % of applications has been determined using approval types typical to all business types i.e. small, medium and large.

Program approach

In an Approvals Program first, the cross-functional working group was plunged into a workshop scenario that collided with new COVID-19 health restrictions and subsequent work orders as Western Australia re-opened its borders and the State entered into a Safe Transition Plan.

At a time of heightened community anxiety and uncertainty, the program commenced and workshop delivery was realigned and poised for agility. This encompassed measures to support corporate directives, adhere to updated State health orders and ensure the workplace was as safe as possible for those participating. This included:

- Mandated mask wearing
- Compulsory check-ins at multiple workshop sites
- Designing and setting up workshop spaces with suitable social distancing whilst still enabling the team to work closely and collaboratively
- Individual food portions
- Ensuring high hygiene standards were maintained
- Working with a corporate work structure of split teams within departments
- Managing virtual workshop participation as required
- Virtual Council and staff presentations

As the State navigated living with COVID-19, the working group quickly adapted to the 'new normal' and fully engaged with the program, quickly pivoting when required and maintaining a sense of presence and motivation.

Professionally facilitated, the cross-departmental team was guided through the five steps of human centred design thinking.

The five steps of design thinking

Starting with the customer perspective – empathise

Human-centred design thinking is based on considering the customer perspective.

It is vitally important to hear a customer's experience first-hand in order to connect to the needs, desires and motivations of real people, and use this to inspire and spark fresh ideas.

The working group was provided with survey results, phone interview responses and direct feedback from two local small business owners operating in the City.

What was heard from the City's small business customers fell into four distinct themes:

Theme 1: Progressive outlook; constrained frameworks

Council presents as being very forward thinking, but the systems and processes don't back this up

Activation agenda is difficult to achieve/ be part of – i.e. activating public space around my business

My ability to innovate or be flexible and nimble was limited

My business fell through the gaps; I was told, "we have these rules – we don't have a rule that fits, so you have to abide by the rule that doesn't"

People were pleasant, but the framework didn't accommodate my business

Theme 2: A need to better understand small business pressures and needs

I wanted to work collaboratively, but felt it was really difficult. I wanted to talk to someone but was always being told to 'put it in writing'

If I had known everything upfront I might not have proceeded

I felt that the 'real world' lens was not applied; the focus didn't seem to be on the right issues

I don't understand why my business had to meet 'regulatory obligations' when other businesses seemingly don't

Staff were 'by the book' – I needed to elevate issues, where sometimes a different resolution was achieved Theme 3: Limited ownership and consistency

The entire approvals process was not communicated up front

I felt like I was being 'bounced around' and had to keep repeating myself

Different officers with different approaches and risk tolerance to the same issues – you were never sure what you were going to get -"it depended on who you spoke to"

The City has the regulations etc. but not the resources or people with knowledge to advise how to navigate those regulations

There is no consistent contact and high staff turnover is a challenge – "you think you are making headway, then they leave" (recurrent issue) Theme 4: Help me to help myself

Expectations were difficult to understand and interpret

It is hard to find information on the website

A 'pre-approval' phase to understand what I needed to do and when would have been invaluable

I could never get the full picture of what was required – "at the end of the tunnel, was another tunnel"

I wonder whether the place team could have helped?

Creating a better customer experience through human-centred design thinking – define, ideate and prototype

The Approvals Program highlighted the positive and successful Place Management approach to economic development by the City, which focuses on shopfront strips and public spaces within the six town centres.

However, what the Program has identified is the opportunity to broaden support and help all small businesses operating within Vincent start, grow and thrive. These include home based businesses and those located outside of the central hubs which are supported and serviced by dedicated Place Planners.

Following open and honest customer feedback, the group undertook to put themselves in the shoes of a small business owner. To fully understand and appreciate the challenges of turning a business dream into a reality, the process included creating small business customer personas and different business model scenarios.

Based on the City's current process mapping and drawing on the experiences of the small business owners that shared their own challenges in navigating the application and approvals process, the next step involved a rigorous journey mapping exercise.

Local government officers traditionally work in departmental 'silos' and only deal with the applications relating to specific subject matter and legislation. Looking through the lens of a small business operator who thinks they are just dealing with 'the Council' but is potentially dealing with multiple departments within the local government, in addition to external State and Federal agencies, provided a holistic view of the application and approvals journey.

Mapping the process in great detail assisted the cross-functional team to identify and define the challenges, come up with fresh ideas, prototype and test solutions. Over eleven workshop days, the group identified ways to:

- Improve internal and external customer information and communication;
- Engage small businesses early and guide them through the journey;
- Develop quality and consistent processes to simplify approvals;
- Make City policies and decision making 'fit for purpose' for small businesses and the community; and
- Use data to better service small business customers and drive continuous improvement.

Creating a better customer experience through human-centred design thinking – define, ideate and prototype

Over 300 individual ideas were clustered and refined into three clear areas of improvement:

Better information - to make it easier for small business to navigate and understand requirements of the application and approvals process when starting, pivoting or growing their business.

Business support service - to support small business through a coordinated and collaborative five staged approach as they undertake their enquiry, pre-lodgement, lodgement, assessment/approval and operational journey.

Streamline processes to improve the customer experience - to implement solutions that streamline and expedite processes linked to small business applications and strengthen the system and tools that support process improvement.

The workshop series allowed officers to develop and test their conceptual ideas with two local small business representatives, who had previously shared their experiences and challenges of starting a business in the City. Their overwhelming support of the work undertaken by the working group contributed to the next stage of refining the reform and implementation planning.

Based on the three specific reform pillars, a series of high-level actions aimed at improving the customer experience, reducing approval times and creating internal efficiencies were developed by the working group. This process included identifying:

- How the reform concept linked to community and corporate aspirations
- What would be needed to achieve these reforms
- Who would need to be involved to drive this process
- How long the reforms would take to implement
- A summary of the effort, benefit and cost involved.

The following pages summarise the overarching plan developed by the working group during the Approvals Program workshop series. This framework is supported by an internal and highly detailed implementation plan, a 'live' document that will guide the execution of specific individual tasks over the next 24 months, and feed into a reporting mechanism that will track task completion and achievements across the organisation.

Reform area 1: Better information

To make it easier for small business to navigate and understand requirements of the application and approvals process when starting, pivoting or growing their business.

5.8 EXPRESSION OF INTEREST FOR REDEVELOPMENT CONCEPTS - THE AVENUE CAR PARK AND FRAME COURT CAR PARK, LEEDERVILLE

Attachments:

- 1. Expression of Interest Process 🗓 🛣
- 2. Project Plan 🕹 🛣
- 3. Expression of Interest Material 🕹 🛣
- 4. Preliminary Business Case Confidential

RECOMMENDATION:

That Council:

- 1. APPROVES the Expression of Interest (EOI) material, at Attachment 3, for the purpose of advertising; noting that graphic design will be completed prior to distribution;
- 2. AUTHORISES the Chief Executive Officer to advertise the Expression of Interest material for a period of at least 42 days for the purpose of receiving redevelopment concepts for The Avenue Car Park and Frame Court Car Park, Leederville; and
- 3. NOTES the:
 - 3.1 Project Plan, at Attachment 2, including the final step following the advertising period where the shortlisted redevelopment concepts will be presented to Council; and
 - 3.2 Preliminary Business Case, at confidential Attachment 4.

PURPOSE OF REPORT:

To consider approving the Expression of Interest material for the purpose of advertising, to receive redevelopment concepts for The Avenue Car Park and Frame Court Car Park, Leederville.

BACKGROUND:

Leederville Masterplan

In 2012, the City adopted the Leederville Masterplan. The <u>Leederville Masterplan Built Form Guidelines</u> established redevelopment plans for the two City-owned at-grade car parks; The Avenue Car Park and Frame Court Car Park.

The Avenue Car Park site was planned to become the Oxford Markets Precinct with the vision to develop the car park into a supermarket, decked car park and mixed-use residential building. The Frame Court Car Park site was planned to become the Oxford Town Square with the vision to create a southern gateway to Oxford Street.

Leederville Precinct Structure Plan

Leederville is identified as being a Secondary Centre in accordance with the Western Australian Planning Commission's (WAPC) State Planning Policy 4.2 – Activity Centres for Perth and Peel (SPP 4.2). In accordance with SPP 4.2, the City has prepared the Leederville Precinct Structure Plan (LPSP) which will replace the current Leederville Masterplan and guide future development within the locality.

Prior to being drafted, the LPSP was subject to significant research and public consultation through the 'Design Leederville' community consultation campaign in late 2019.

At its meeting on 14 September 2021, Council recommended that that WAPC approve the LPSP subject to modifications. The LPSP is required to be approved by the WAPC before it becomes operational.

Under the LPSP The Avenue Car Park and Frame Court Car Park would be zoned Mixed Use R-AC0 and are earmarked as Key Development Sites. The LPSP provides further guidance for the two landholdings as follows:

The Avenue Car Park

The site is situated within the Cityscape precinct, which is described as:

- A place with mixed uses that complement each other.
- The location for long-term development outcomes.
- The place where landmark development shapes the Leederville skyline.
- Designed to encourage public transport usage.
- A showcase for sustainability and reuse.
- A higher density mixed-use and residential area.
- A key contributor to the success of the Village.

This identifies an acceptable height standard of 18 storeys, which could increase to a maximum height of 23 storeys subject to bonus criteria being met.

Frame Court Car Park

The site is situated within the Urban Frame Type A precinct, which is described as:

- A mixed use area.
- Carefully designed to avoid impacts on existing neighbours.
- An attractive and safe entry point to the core of Leederville for pedestrian, cyclists and vehicles.
- Well-landscaped with lots of shade, green spaces and places to relax.

This identifies an acceptable height standard of 10 storeys, which could increase to a maximum height of 14 storeys subject to bonus criteria being met.

The LPSP is required to be approved by the WAPC before it becomes operational.

Leederville Land EOI

At its meeting on 14 December 2021, Council approved the Chief Executive Officer to commence an expression of interest process for the redevelopment of the City's major landholdings in Leederville, being The Avenue Car Park and Frame Court Car Park. The objective is to ensure alignment with Council's strategic intention for both sites, outlined within the LPSP.

DETAILS:

The LPSP is intended to influence and guide decision making for new development in the precinct, with respect to activity, movement, urban form, and resource conservation. The LPSP sets out a vision for Leederville:

A thriving connected and sustainable local village that showcases and preserves its rich cultural and natural elements.

As a Secondary Centre, it is important that Leederville does not develop as a single-purpose centre, but instead continues to expand on its offering of a wide variety of land uses.

The City has engaged Cygnet West to provide commercial expertise throughout Stage 1 of the expression of interest process. This ensures accordance with the expression of interest process presented to Council (**Attachment 1**) and allows The Avenue Car Park and Frame Court Car Park to achieve the LPSP vision and contribute to Leederville's role as a Secondary Centre.

Cygnet West has produced a Project Plan (**Attachment 2**) that outlines the key tasks included within Stage 1 of the process. This included workshops with Administration, the City's Design Review Panel and Council to confirm the project objectives and refine the selection criteria.

The updated selection criteria has been included in the Expression of Interest material (**Attachment 3**). The Expression of Interest material provides a framework for the sites including an overview of the town centre, how this location connects with the wider area and the local community and housing demographics. It also provides the vision and objectives for Leederville as well as site specific considerations including land details, the evaluation process and terms and conditions. The Expression of Interest material will be used to provide the relevant information to receive redevelopment concepts for The Avenue Car Park and Frame Court Car Park.

The Preliminary Business Case (Attachment 4) has been developed at a high level and has contemplated possible commercial, economic and community outcomes for three scenarios:

- Retain car parking in its current form;
- Sell, lease or trade land and receive car parking capacity and revenue of 400 car parking bays; and
- Sell, lease or trade part of the land with the City delivering the provision of 400 car parking bays.

The City has engaged a probity advisor to review, advise on and document the expression of interest process and material. The probity advisor will provide independent advice to ensure the City complies with all legislative requirements and maintains a transparent expression of process.

CONSULTATION/ADVERTISING:

The Expression of Interest material will be distributed through the following channels in order to reach local and national audiences:

- notice published on the City and Cygnet West's website;
- notice posted to the City's social media;
- notice published in The West Australian newspaper;
- notice published in the Australian Financial Review newspaper;
- notice published in The Voice newspaper;
- notice posted to RealCommercial online;
- notice posted to Development Ready online; and
- notice exhibited on the notice board at the City's Administration and Library and Local History Centre.

Community consultation on the redevelopment concepts will occur if progressed to Stage 2 of the expression of interest process.

LEGAL/POLICY:

Administration will comply with the requirements of S3.59. S3.59(2) which states that 'a local government is to prepare a business plan' and invite and consider public submissions on that business plan before it enters into a major land transaction or enters into a land transaction that is preparatory to entry into a major land transaction.

The business plan can be prepared by the City's consultants on behalf of the City or by the City itself. During the advertisement of the business plan, submissions or entirely new proposals may be received.

The City has not commenced the process under S3.59.

RISK MANAGEMENT IMPLICATIONS

Low: It is low risk for Council to approve advertising the Expression of Interest material for the purpose of receiving redevelopment concepts for The Avenue Car Park and Frame Court Car Park. The City has complete control over whether to continue or cease this process at any point.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's Strategic Community Plan 2018-2028:

Thriving Places

We encourage innovation in business, social enterprise and imaginative uses of space, both public and private.

Our physical assets are efficiently and effectively managed and maintained. Our town centres and gathering spaces are safe, easy to use and attractive places where pedestrians have priority.

Sensitive Design

Our built form is attractive and diverse, in line with our growing and changing community. Our planning framework supports quality design, sustainable urban built form and is responsive to our community and local context.

Innovative and Accountable

Our resources and assets are planned and managed in an efficient and sustainable manner.

SUSTAINABILITY IMPLICATIONS:

This does not contribute to any specific sustainability outcomes of the *City's Sustainable Environment Strategy 2019-2024,* however the selection criteria within the Expression of Interest material includes the following:

- Removal of mature trees and planting within the site must be replaced with mature trees and planting within the development site; and
- Approach to sustainable development to outline key environmentally sustainable design initiatives that will be included. Achievement of minimum Green Building Council of Australia 5 Green Star certificate.

PUBLIC HEALTH IMPLICATIONS:

This does not contribute to any public health outcomes in the City's Public Health Plan 2020-2025.

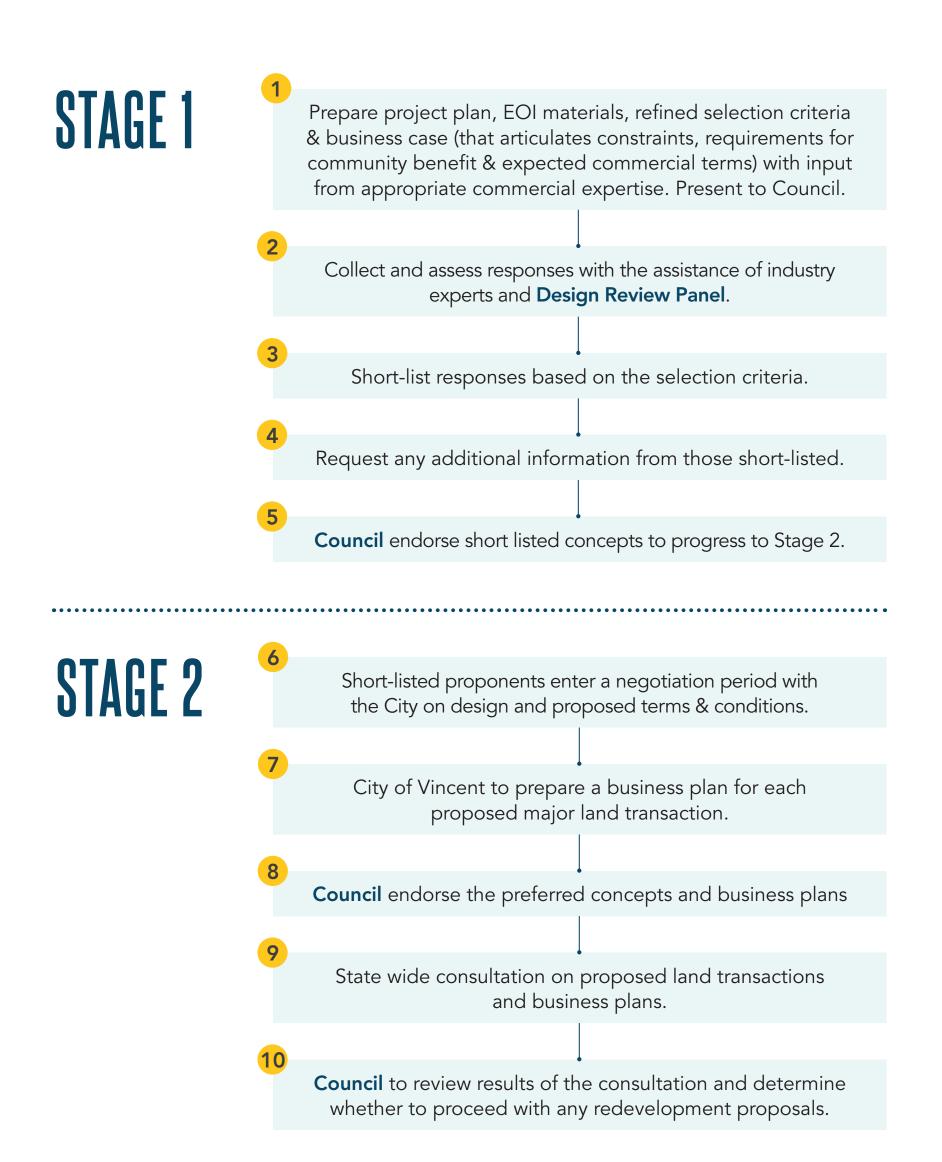

FINANCIAL/BUDGET IMPLICATIONS:

The cost of advertising the Expression of Interest material and assessing the redevelopment concepts received will be met through the City's existing operational budget.

COMMENTS:

Due to the progression of the LPSP and change in market conditions, developer interest in large parcels of land in Leederville is likely to increase.

The expression of interest process allows the City to assess redevelopment concepts based on the vision and objectives outlined in the LPSP, as reflected by the community through the Design Leederville community consultation process.

Project Plan Program

Week 1:	25 April – Workshop and consultants team meeting to confirm project plan, confirm community and financial objectives for the project.
Week 2:	2 May – Commence business case and refined selection criteria.
Week 5:	23 May – Complete business case and agree selection criteria (Council Workshop 24 May to present business case and selection criteria for feedback and confirmation).
Week 6:	30 May – Preparation of EOI materials, marketing materials, due diligence data.
Week 8:	13 June – Present to Council for sign off on project plan, business case and selection criteria and noting of EOI materials and marketing materials (14 June Council Briefing).
Week 9:	20 June - Present to Council for sign off on project plan, business case and selection criteria and noting of EOI materials and marketing materials (21 June Council Meeting).
Week 10:	27 June – Commence on market EOI campaign.
42 Days	Conduct EOI, consult with proponents, respond to RFI's.
September	Council Briefing and Meeting to endorse shortlisted concepts to progress to stage 2.

CITY OF VINCENT

EOI - REDEVELOPMENT CONCEPTS

THE AVENUE & FRAME COURT CARPARK

JUNE 2022

CONTENTS

INTRODUCTION	2
THE OPPORTUNITY	4
ABOUT LEEDERVILLE TOWN CENTRE	
SELECTION CRITERIA	
EVALUATION PROCESS	17
TERMS AND CONDITIONS	

1.0 - INTRODUCTION

1.1 PROCESS

The City of Vincent (CoV), through its agent Cygnet West, is pleased to invite offers from suitably qualified developers and operators ("Proponent") to submit expressions of interest (EOI) individually or collectively in Site 1 and Site 2 in the Leederville Town Centre (refer Attachment 1).

Preferred Proponent(s) will likely be shortlisted as a result of this EOI. CoV will then determine whether to proceed with negotiations and enter into the second stage, as outlined in Section 5.0 with the preferred Proponent(s). Based on this, the level of detail required at this stage is conceptual with further detail being requested if the EOI is progressed to stage two.

Proponents should aim to achieve the commercial expectations of CoV but also demonstrate the capacity to deliver built form outcomes that reflect the strategic importance of the sites within the Leederville Town Centre. Proposed design outcomes, land use, placemaking and amenity should be in line with the suite of planning instruments referenced in Section Attachment 4.

Participating Proponents will need to demonstrate how this will be achieved through their proposal. EOI responses are to be submitted to CoV no later than 2pm (AWST) 8 August 2022.

By submitting a proposal, Proponents agree to be bound by the Terms and Conditions in Section 6.0.

`ERVILLE | CITY OF VINCENT| 2

1.2 CONTACT INFORMATION

All communications and enquiries relating to this document and the opportunity should be directed solely to Cygnet West. Cygnet West will perform an initial review of any communication before distributing to CoV for the provision of a response within the agreed timelines. CoV will coordinate necessary input for the provision of a response including obtaining any necessary probity clearance before release.

Any enquiries should be directed to Cygnet West.

2.0 - THE OPPORTUNITY

2.1 LEEDERVILLE TOWN CENTRE OVERVIEW

The Leederville Town Centre has a unique mix of retail, civic uses, restaurants, bars, and residential dwellings which all function in a cohesive environment and flourish together as one mixed-use hub. It is bounded by the Mitchell Freeway and Loftus Street and extends north to Bourke Street.

As some suburbs in Perth's inner-city have gentrified over time, Leederville has retained a distinctive feel whilst developing a unique, vibrant, and youthful atmosphere. The Town Centre has great potential to accommodate higher density development and creating a high-quality public realm, whilst retaining the existing Town Centre character.

2.2 THE OPPORTUNITY - SITES 1 & 2

CoV is seeking EOI's regarding the land parcels individually or together outlined as Site 1 and Site 2. Preferred Proponents will be shortlisted based on specified weighted and non-weighted criteria addressed by Proponents, as outlined in Section 4.0.

This is a rare and exciting opportunity to deliver quality mixed-use outcomes at scale in one of the most popular town centres in Perth.

Draft Leederville Precinct Structure Plan

STRUCTURE PLAN & OTHER LOCAL PLANNING POLICIES

Draft Leederville Precinct Structure Plan

Leederville is identified as being a Secondary Centre in accordance with the Western Australian Planning Commission's (WAPC) State Planning Policy 4.2 – Activity Centres for Perth and Peel (SPP 4.2). In accordance with SPP 4.2, the City has prepared the draft Leederville Precinct Structure Plan (LPSP) which will replace the current Leederville Masterplan and guide future development within the locality.

At its meeting on 14 September 2021, Council recommended that that WAPC approve the draft LPSP subject to modifications. The draft LPSP is required to be approved by the WAPC before it becomes operational.

Both sites are identified as key development sites within the draft LPSP

Leederville Masterplan

The sites are also located within the Leederville Masterplan area.

Site 1 Vision: The catalyst for the Oxford Street Markets will be the development of the City of Vincent Avenue car park into a supermarket, decked car park and mixed-use residential building

Site 2 Vision: The vision for this precinct is to create a discernible southern gateway to Oxford Street.

The Leederville Masterplan was adopted in 2012 and currently guides development within the Leederville Town Centre.

3.0 - ABOUT LEEDERVILLE TOWN CENTRE

3.1 LOCATION AND CONTEXT

Located 2 kilometres from the Perth Central Business District, Leederville is recognised as a secondary activity centre in the Perth and Peel @ 3.5 million – Central Sub-regional Planning Framework.

Leederville is serviced by Leederville Train Station on the western edge of the area and is located approximately 15 minutes' walk from City West and West Leederville train stations. The area is also serviced well by bus networks, including frequent bus services along Loftus Street and Oxford Street. Additionally, Leederville is connected to a network of cycle and pedestrian paths and maintains strong vehicle connections via the Mitchell Freeway, arterials including Loftus Street and Vincent Street.

Due to its proximity to the CBD land uses extend across all market sectors from office, retail, and hospitality and residential, this makes the area a strong node of employment.

Leederville is identified as a Secondary Centre in State Planning Policy No. 4.2 - Activity Centres for Perth and Peel. As a Secondary Centre, it is important that Leederville does not develop as a single-purpose centre, but instead continues to expand on its offering of a wide variety of land uses.

The regional planning framework identifies Leederville as an important part of meeting the housing and employment demands of Perth's future population growth, with an expectation for future planning for Leederville to facilitate additional residential development and employment generating land uses.

Local strategic planning documents recognise the need for Leederville to support growth, with high density residential development being focused on proximity to train stations and along high frequency bus routes. Leederville is specifically identified for redevelopment as a Secondary Centre through a Precinct Structure Plan.

3.2 PROJECT VISION

The key vision for Leederville is:

A thriving connected and sustainable local village that showcases and preserves its rich cultural and natural elements Developers are expected to meet the aspirations of the project with innovative design responses of significant build quality.

The project will provide a diverse range of land uses that are consistent with the town centre's vision. The proposed land uses will complement the existing fabric of Leederville with residential, commercial, retail, entertainment, and community/civic uses to support the area.

3.3 GUIDING OBJECTIVES

The Leederville objectives can be summarised as follows:

- Retain and increase tree canopy.
 Include high quality landscaping in
- new developments.
- 3. Provide public open space to meet the future needs of the precinct.

THRIVING

PLACES

and offices.

Activate street-facing shop fronts

Provide a diverse range of land uses

and dwelling types to cater for all

Achieve a critical mass of residents,

retail and community offerings.

Improve the quality, safety and

comfort of the precinct.

visitors and workers to support new

members of the community.

16.

17.

18.

19.

4. Prioritise sustainable development outcomes.

- Prioritise universal access.
 Prioritise pedestrians; followed by cyclists; followed by public transport users; followed by people who choose to drive.
- Prioritise pedestrian, cycling and public transport uses' safety and efficiency.
- Provide a variety of land uses around public transport nodes.
- 9. Facilitate a mode shift away from private vehicles.
- Improve access into and around the precinct.
- 11. Improve public transport patronage.

- 20. Maintain daylight access to public and private open spaces.
- 21. Retain and enhance established character and heritage elements.
- 22. Scale and design buildings to respect and complement existing character.
- Facilitate height and density that is sensitive to human scale.
- 24. Achieve exemplary design outcomes.
- 25. Facilitate sustainable building and place design, construction and operation.

- 12. Provide spaces for events,
- festivals, markets and activities. 13. Build places to play, relax and be entertained.
- 14. Maintain and enhance community and education options.
- 15. Provide and plan for equitable and inviting community.

- 26. Conduct transparent and sincere assessment and engagement.
- 27. Respond to infrastructure and asset deficiencies.
- 28. Advocate for changes outside of the City's control.

4.0 - SELECTION CRITERIA

4.1 SELECTION CRITERIA

The criteria which CoV will use to assess Proponent's Submissions in response to this EOI campaign are detailed in this section. It is at the discretion of Council to accept the most commercial, the highest scored option or a combination of both.

Proponents are required to provide sufficient information against each of the requirements to demonstrate the ability to satisfy all the assessment criteria using the indicative page limits provided. Proponents should refer to Sections 4.2, 4.3, 4.4, 4.5 for further details.

All Submissions must be aligned with the following:

- A. The draft Leederville Precinct Structure Plan,
- B. The Leederville Masterplan,
- C. The Leederville Town Centre Place Plan, and
- D. The City of Vincent Strategic Community Plan

CoV's preference is to contract both lots to ensure the project vision is brought to life. Proponents should note the following:

- Proponents making a Submission for a single lot are required to confirm their proposed portion of the minimum public car parking requirement (on land area/bay basis) can be accommodated within their proposed scheme.
- Proponents making a Submission for both Lots under a single offer must identify within their commercial terms, the dollar value offered for each Lot as part of the overall commercial terms.

Non-Weighted Compliance Selection Criteria

The following non weighted criteria is essential for the full assessment of Proponents Submissions, a failure to address the key commercial terms would result in disqualification of the Proponents EOI.

4.2 NON-WEIGHTED COMPLIANCE CRITERIA - COMMERCIAL TERMS

CRITERIA - Commercial Terms	COMPLETED Y/N	Proponents to reference the criteria response location in their submission, i.e., pages or section numbers
 Provide a minimum of 400 public parking bays across one or both sites. 	Yes / No	
 Public car park design concept, proposed ownership and tenure structure, lease and or management agreement draft principles, operational management plan, and in the event of a lease or management agreement, a parking fee schedule and operating expenditure plan, and 10- year operational cashflow. 	Yes / No	
 Indicative commercial terms to outline the proposed transaction arrangement (e.g., buy, lease, trade or enter joint venture with CoV). 	Yes / No	

4.3 - PROJECT VISION & DESIGN PRINCIPLES	(50% WEIGHTING)

Page limit of 14 A4 pages for this section

CRITERIA	COMPLETED Y/N	Proponents to reference the criteria response location in their submission, i.e., pages or section numbers
1. Context and Character	Yes / No	
Developer understanding of the distinctive character of the Leederville precinct and how a new development would integrate, celebrate, and speak to the character of Leederville.		
Effective interface with adjacent heritage and character buildings including the YMCA HQ adjacent to the Frame Court site.		
2. Landscape Quality	Yes / No	
Removal of mature trees and planting within the site must be replaced with mature trees and planting within the development site.		
Consideration of Water Corporation drain on both sites as a key access route and potential walking trail. Achieved through built form design and delivery infrastructure considerations including maintenance access, and a celebration of the former seasonal freshwater stream.		
Active interface with the area zoned Public Open Space within the Leederville Precinct Structure Plan, adjacent to Site 2.		
3. Built Form & Scale	Yes / No	
Quality of the proposed ground floor interface and its contribution to the experience of the precinct. Includes streetscape and landscape design, cultural infrastructure, and the delivery of active public spaces, both linear (laneways) and open (plazas).		
Architectural aspirations, design approach and strategies to achieve design excellence (including design review by the City's panel).		
Conceptual designs illustrating the project and vision inclusive of plan views, sections, elevations, height, and massing in perspectives.		

CYGNETWEST.COM PAGE 12

4. Functionality and Build Quality	Yes / No
Commitment to innovation, which may include energy and water	
sourcing, built form and design, community, social and economic	
outcomes.	
5. Sustainability	Yes / No
Approach to sustainable development to outline key	
environmentally sustainable design initiatives that will be	
included. Achievement of minimum Green Building Council of	
Australia 5 Green Star Certificate.	
6. Amenity	Yes / No
Desian, accommodate and demonstrate economic activation	
towards the improvement of the daytime and evening economy of	
the precinct.	
Demonstrated diversity in product mix and pricing targeted to	
meet a wide variety of household demographics.	
7. Legibility	
	Yes / No
Provision of a pedestrian link along 1) the eastern side of the	
Leederville Parade site, to integrate with existing Oxford Street	
built form and 2) along the eastern side of the Frame Court site, to	
integrate with adjacent site.	
Prioritise access and connectivity to public transport (particularly	
Leederville train station) and active transport modes.	
Lectervine train station and delive transport modes.	
Understanding of existing and subsequent traffic issues; access	
and circulation, with a project design that delivers appropriate	
mitigation strategies.	

4.5 - FINANCIAL CAPACITY AND TRACK RECORD (20% WEIGHTING) Page limit of 6 A4 pages for this section				
CRITERIA	COMPLETED Y/N	Proponents to reference the criteria response location in their submission, i.e., pages or section numbers		
1. Proponent contact details – Table 1 provided below	Yes / No			
2. Proponent corporate structure	Yes / No			
3. Proponent business and company profile	Yes / No			
 4. Demonstrated: Financial capacity; Capability and experience in delivering similar scale projects; and Capacity to deliver the proposed development, including details of other projects, current and planned for year 2023 – 2025. 	Yes / No			

	4.4 - DEVELOPMENT PROPOSAL (30% WEIGHTING) Page limit of 8 A4 pages for this section			
CRITERI	ΙΑ	COMPLETED Y/N	Proponents to reference the criteria response location in their submission, i.e., pages or section numbers	
1.	Approach to land assembly to address amalgamation, subdivision, and issue of Title(s) for each site	Yes / No		
2.	Statutory planning and development programme, and if applicable staging concepts and programme, inclusive of a public car parking strategy ensuring reasonable public carparking is retained throughout the planning and development process.	Yes / No		
3.	Proposed development mix in schedule form for each site, setting out the various uses by product typology, floor areas and parking ratios.	Yes / No		
4.	Anticipated construction and operational employment generation.	Yes / No

5.0 - EVALUATION PROCESS

5.1 SUBMISSION OF OFFER

Proponents are to submit an EOI Submission which adheres to the criteria outlined in this document, in sections 4.2, 4.3, 4.4, 4.5.

Submissions must be submitted via the City's online public <u>tenders portal</u> no later than 2pm Western Standard Time (AWST) on 8 August 2022.

5.2 SUBMISSION CHECKLIST

- Response to Non-Weighted Commercial Terms Returnable Schedule 1.
- Response to Criteria 1: Project Vision and Design Principles (50%) Returnable Schedule 2.
- Response to Criteria 2: Development Proposal (30%) Returnable Schedule 3.
- Response to Criteria 3: Financial Capacity and Track Record (20%)- Returnable Schedule 4.

5.3 ASSESSMENT OF OFFERS AND SELECTION OF PREFERRED PROPONENT(S)

The following methodology will be used by CoV to assess the EOI Submissions and to select a Preferred Proponent:

- Submissions are checked for completeness and compliance. Submissions that do not contain all
 information requested may, at CoV's discretion, be excluded from consideration.
- Submissions are assessed against the Selection Criteria. Information that is not specific to the selection criteria will not be assessed by CoV and cannot be considered.
- The assessment panel for this EOI process will consist of suitably qualified and experienced representatives from CoV, its Design Review Panel and its consultants. It is anticipated that CoV will require up to 14 business days from the closing time for EOI to complete the assessment.

In determining the preferred Proponent, Proponents may be required to undertake a short presentation to provide members of the assessment panel or Executive of CoV with an overview of the project vision, objectives and response to the Selection Criteria.

CoV may in its absolute discretion accept or reject any Submission. Without limitation, CoV may do any of the following:

- Decide not to proceed at all;
- Negotiate as to the terms of a submission with one or more of the prospective Proponents to the
 exclusion of others and terminate those negotiations at any time; and
- Reject all Submissions received.

No legal or other obligations will arise between a prospective Proponent and CoV unless or until a Contract has been executed by CoV and a Proponent.

All prospective Proponents will be notified by CoV's agent, Cygnet West, of the outcome of the EOI.

6.0 - TERMS AND CONDITIONS

6.1 COMMERCIALITY AND GOVERNANCE

CoV aims to ensure the broad policy principles applied by the State Supply Commission policy suite are appropriately incorporated into this procurement processes and practices guidelines relate to;

- Value for money;
- Open and effective competition;
- Integrity, ethics and probity;
- Assuring quality;
- Complaints and communications; and
- Forward procurement reporting.

6.2 PROBITY

An Independent Probity Advisor has been appointed to oversee this EOI.

The Probity Advisor's role is to ensure:

- Information exchanged between CoV and Proponents is held in confidence;
- The agreed Submission and evaluation processes are followed at all times
- Fairness and impartiality are observed; and
- The selection criteria are considered in a consistent and uniform manner at all times.

Proponents may contact the Probity Advisor to discuss any probity matter on a confidential basis.

Probity Advisor

Stanton's International

T: +61 8 9481 3188

6.3 CONFIDENTIALITY

Confidential technical and financial detail received from Proponents will be treated in confidence.

Proponents should recognise information which one Proponent submitted in confidence, may also be submitted in confidence by other Proponents.

A Proponent should clearly indicate if any part of its Submission constitutes intellectual property or information which it claims is confidential.

Global claims of confidentiality over entire Submissions from Proponents will be disregarded.

Confidential information will be kept confidential, but CoV reserves the right to determine if a claim of confidentiality is justified. CoV will respect Proponent's intellectual property rights but CoV may require a Proponent to substantiate any claim of intellectual property.

6.4 RIGHT TO AMEND PROCESS OR DISCONTINUANCE

CoV reserves the right to amend or discontinue the process set out for the EOI by notice in writing to Proponents who have not withdrawn or who have not been excluded from the process.

6.5 ABSENCE OF OBLIGATIONS

No legal or other obligations will arise between a Proponent and CoV unless or until formal documentation has been signed. In this regard, CoV is not obliged to proceed with any EOI Submission. CoV may also elect not to proceed with the EOI process at any time.

6.6 NO EXPECTATION

Proponents should be aware that there should be no expectation that CoV will proceed towards a Contract and that there is no legally binding obligation for it to do so.

6.7 COSTS

All costs and expenses incurred by prospective Proponents in any way associated with the preparation or Submission of any offer will be at the sole cost of the prospective Proponent. CoV is not in any way responsible and liable for any such costs.

6.8 ACCEPTANCE OF EOI TERMS

By making a submission in accordance with this EOI, a Proponent agrees to the terms and conditions of this EOI.

6.9 PROPONENT MAY REQUEST CLARIFICATION OR ELABORATION

A Proponent may submit a question in writing via email about this EOI to the appointed agent Cygnet West. The question and response will be provided to all Proponents (without identifying the originating Proponent). The Proponent who submitted the question will be advised and given the opportunity to withdraw the question.

Enquiries and/or questions received within 2 business days before the closing date may or may not be answered at CoV's discretion

All EOI information that CoV provides, whether in the EOI documents or not, is provided in good faith to assist Proponents to put forward a Submission. CoV gives no warranty to the accuracy of the information. It is the Proponent's responsibility to interpret and assess the relevance of the information provided. CoV is not liable for any loss, damage or expense suffered by a Proponent as a result of any information provided.

6.10 PROPONENT MUST INFORM ITSELF

It is the Proponent's responsibility to make all necessary investigations for it to become thoroughly informed about the subject matter of the EOI, the project and the nature and location of the sites.

6.11 COV MAY VARY THE SCOPE OF THE EOI

The scope, or the conditions of the EOI, may be varied by giving written notice of the variation to all Proponents at any time before the closing date for Submission of the EOI.

6.12 GOVERING LAW

The EOI documents are governed by the law of Western Australia.

6.13 INTELLECTUAL PROPERTY

Copyright in all EOI documents (including, without limitation, this document and any other agreements to which CoV) is a party or prepared by or on behalf of CoV belongs to, and remains the property of, CoV. CoV expressly reserves the right to use such documents for other transactions to which CoV is a party.

6.14 NO CONTRACT

Submission of an EOI does not in any way create a contract nor does it create an obligation or expectation to enter into a contract on the part of CoV or a Proponent.

6.15 NO CHANGE OF OFFER AFTER SUBMISSION

A Proponent may not change its Submission after the closing date, unless CoV invites it in writing to do so.

6.16 NO RIGHT OF RECOURSE

A Proponent is not entitled, in any jurisdiction, to challenge any decision by CoV, including the following decisions to;

- Negotiate with one or more Proponents on the terms of its Submission or a preferred Proponent to the exclusion of others; and
- Terminate this EOI process at any time.

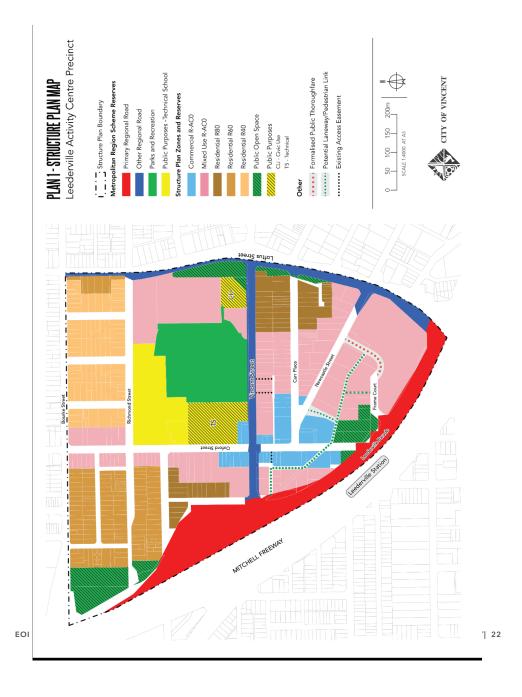

6.17 COV HAS ABSOLUTE DISCRETION

CoV has absolute discretion in relation to the evaluation of a Submission received and the selection of a preferred or successful Proponent, if any. After evaluation of all Submissions, CoV may (in its absolute discretion and before, during or after negotiation with one or more Proponents) decide not to appoint any preferred Proponent.

6 INFRASTRUCTURE & ENVIRONMENT

6.1 TENDER RECOMMENDATION FOR RFT IE146/2021 - PROVISION OF SMALL MAITENANCE SERVICES

Attachments: 1. Evaluation Worksheet - Confidential

RECOMMENDATION:

That Council:

- 1. NOTES the outcome of the evaluation process for Tender IE146/2021 Provision of Small Maintenance Services; and
- 2. ACCEPTS the tender submission of Devco Builders for Tender IE146/2021 Provision of Small Maintenance Services for a period of three (3) years with the option to extend for a further one (1) year.

PURPOSE OF REPORT:

For Council to accept the tender submission of Devco Holdings for Tender IE46/2021 Provision of Small Maintenance Services.

BACKGROUND:

The City has the responsibility to maintain public facilities and infrastructure, both vested and unvested, within its Local Government area in accordance with the Local Government Act 1995.

Examples of work include, but are not limited to: preventative and reactive maintenance, renewal, upgrade and new installations across the City's building and infrastructure assets of:

- a) Joinery and timber work including fit-out;
- b) Emergency make safe work, following on from vandalism or break-ins, such as hoarding broken windows;
- c) Plaster and Gyprock works;
- d) Concrete, cement, brick and paving works;
- e) Fencing and retaining wall works;
- f) Steel works including fixings and welding;
- g) Roof works including fabric, fixtures, pointing and flashing, gutter and downpipe cleaning;
- h) Painting;
- i) Graffiti removal;
- j) Pressure cleaning;
- k) Non fixed asset maintenance; and
- I) Any other minor maintenance work as directed by the City's Representative.

The current small maintenance contract expired on the 2nd October 2021 and the current contractor (Devco Builders) has been engaged on a month to month contract to continue to provide services on the same terms, conditions, prices and obligations until a new contract is awarded.

A request for tender was publicly advertised through Tenderlink on 2 February 2022 and closed on 24 February 2022.

Tender Submissions

Submissions were received from the following six (6) Respondents:

- Fremantle Civil Pty Ltd
- Budo Group Pty Ltd
- Hoskins Investments Pty Ltd ATF M R Hoskins Family Trust T/A AE Hoskins Building Services
- Construct360 Pty Ltd
- AWB Building Co.

- Devco Builders
- Geared Construction Pty Ltd
- GMS Contractors

Evaluation Panel

The Evaluation Panel comprised of four members, being:

- three with the appropriate operational expertise and involvement in supervising the contract; and
- one with tender preparation skills and probity advice provided by a Procurement and Contracts Officer

Compliance Assessment

All offers received were assessed as fully compliant and progressed to the qualitative assessment.

Evaluation Method and Weighting

The qualitative weighting method of tender evaluation was selected to evaluate the offers for this requirement.

The qualitative criteria and weighting used in evaluating the submissions received for both portions were as follows:

Qualitative Criteria		Weighting
1	Capacity, skills and resources	45%
2	Professional experience in similar projects	45%
	projects	
3	Environmental and Social	10%

Qualitative Assessment

The panel assessed the qualitative responses against each of the criteria. AE Hoskins Building Services was ranked first with a score of 75%, very closely followed by Devco Builders with a score of 74%. The submission were separated by 1 point in the Environmental and Social criteria.

Respondent	Weighted Percentage Score	Qualitative Ranking	Comment
Devco Holdings	74%	2	Response complies, is convincing and credible. Response demonstrates very good capability, capacity and experience relevant to, or understanding of, the requirements. Low risk.

Refer to **Confidential Attachment 1** for further detail.

Price Assessment

The panel carried out a comparison of the submitted pricing offered and made a value judgement as to the cost affordability, qualitative ranking and risk of each submission, in order to determine which Respondent presented the best value for money to the City.

Devco Builders provided the lowest rates out of all six (6) submissions:

Recommended Respondent	Cost	Price Ranking
Devco Builders	See attached	1

Refer to **Confidential Attachment 1** for further detail on the rates.

Evaluation Summary

The panel concluded that the tender from Devco Builders provides best value for money to the City and is therefore recommended for the provision of small maintenance services for the following reasons:

- Compliance with the submission requirements;
- Ranked second in the Qualitative Assessment;
- Provided the lowest rates; and
- References supported the Evaluation Panel's recommendation.

It is therefore recommended that Council ACCEPTS the tender submitted by Devco Builders for both provision of small maintenance services for a period of three (3) years.

CONSULTATION/ADVERTISING:

The Request for Tender IE146/2021 was advertised in the West Australian on 2 February 2022 and on both the City's website and Tenderlink portal between 2 February 2022 and 24 February 2022.

LEGAL/POLICY:

The Request for Tender was prepared and advertised in accordance with:

- Section 3.57 of the Local Government Act 1995;
- Part 4 of the Local Government (Functions and General) Regulations 1996; and
- City of Vincent Purchasing Policy

RISK MANAGEMENT IMPLICATIONS

Low: It is low risk for Council to accept the preferred Respondent.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Enhanced Environment

We have minimised our impact on the environment.

Connected Community

Our community facilities and spaces are well known and well used.

Thriving Places

Our physical assets are efficiently and effectively managed and maintained.

SUSTAINABILITY IMPLICATIONS:

This does not contribute to any specific sustainability outcomes of the City's Sustainable Environment Strategy 2019-2024, although the sustainability and environmental management practices of Respondents was a weighted qualitative criterion of this request, and the preferred Respondent provided convincing evidence of excellent sustainability practices.

PUBLIC HEALTH IMPLICATIONS:

This does not contribute to any public health outcomes in the City's Public Health Plan 2020-2025.

FINANCIAL/BUDGET IMPLICATIONS:

The anticipated contract expenditure is within the allocated annual budget. Further details on contract rates is provided in the **Confidential Attachment 1**.

The funds for this contract will be made available from the preventative and reactive maintenance, and capital budgets within the City of Vincent Infrastructure and Environment Directorate, being for buildings, parks and engineering, and Beatty Park Leisure Centre.

COMMENTS:

The tender submission from Devco complies with all the tender requirements. The submission was satisfactorily presented and included all relevant and specific information required and requested within the tender specification.

The Evaluation Panel deemed the response to be convincing and credible, demonstrating the capability, capacity and experience to all Evaluation Criteria. The tender submission received from Devco for the provision small maintenance services is considered the most advantageous and best value for money for the City of Vincent.

6.2 REVIEW OF COLVIN LANE SIGNAGE AND SPEED LIMIT

Attachments: Nil

RECOMMENDATION:

That Council;

- 1. RECEIVES the report containing additional information on Colvin Lane signage and speed limit as requested at the Ordinary Council Meeting of 5 April 2022, and
- 2. NOTES that Administration do not support further intervention in Colvin Lane.

PURPOSE OF REPORT:

To provide Council with further information as requested at the Ordinary Council Meeting of 5 April 2022.

BACKGROUND:

Council received a request at this year's AGM from a concerned resident in relation to perceived safety issues in relation to the speed of motorists who use Colvin Lane.

Administration was tasked with investigating further as Council resolved (in part):

REQUESTS that Administration undertake further investigation into additional signage, repainting of the carriageway and the addition of a safety mirror. To be reported to Council no later than June 2022: and

REQUESTS that Administration contact Main Roads regarding the suitability of a reduced enforceable limit in the laneway. To be reported to Council no later than June 2022.

DETAILS:

Enforceable Speed Limit

Administration has contacted Main Roads Western Australia (M.R.W.A) who have advised that the request to place signage on Laneways and create enforceable speed limits has been made from other Local Government Authorities with similar environments. Main Roads has provided the same response to these requests that they have in this instance to City of Vincent Administration, Main Roads does not support the implementation of regulatory signs for speed limits in lane ways.

To be considered by Main Roads to place posted speed limits so that it may be enforceable certain criteria is required to be met, the most crucial of them being that:

- it shall be a minimum of 5m of sealed carriageway, and
- it shall be a dedicated/gazetted road

Colvin Lane does not meet either of these criteria.

Main Roads indicated that as Colvin Lane falls within a 40km/h Area/Zone then the speed limit would be that of the area.

It is important to note that even when the above criteria are met, MRWA Policy is not to install regulatory signage on Laneways as their speed limit should be dictated by the standard residential speed limit or the area/zone speed limit, as well as naturally with the environment informing motorist's decisions on the travelling speed. Colvin Lane is narrow in width with speed humps already installed and vehicles are already travelling at a low velocity. Past investigations have shown that speed in Colvin Lane is low and is not considered to be an issue that requires further intervention to reduce speed.

Safety Mirror

A mirror could be installed to benefit the particular resident with a concern to assist that resident in exiting their garage that fronts onto the laneway.

The cost of initial installation for a safety mirror are as follows: Purchase Safety Mirror- \$700 Pole and footings to mount Safety Mirror- \$350 Total- \$1,050

There will be ongoing lifecycle costs as safety mirrors are easy targets for vandalism which reduces their effectiveness. Administration would allow \$3,200 for four mirror replacements a year at a cost of \$800 per replacement. If the pole was also damaged, then this cost would rise to \$1,050 per replacement (as per the initial installation cost).

Additional signage

The only signage that would be potentially enforceable in the laneway would be a 40kph sign and this option would not be allowed by Main Roads WA as previously discussed. There is some concern that additional signage would set a precedent and also add clutter and reducing the useable width for motorists. For example, the City of Vincent waste truck (small rear loader), that needs to use Colvin Lane as part of the pickup route.

Additional signage would cost the City \$125 per pole and sign install; this does not include the manufacturing cost of the sign as this is dependent on the specific nature of the sign itself.

Repainting of the carriageway

The cost of repainting the speed humps located within Colvin Lane is done so using the operational budget that already exists for line marking renewal within The City of Vincent. This is done as required.

Repainting the non-enforceable 8km/h speed limit at the entrance to Colvin Lane is approximately \$350 per application, inclusive of required traffic control. It would be expected to be repainted twice a year depending on wear and tear.

CONSULTATION/ADVERTISING:

No public consultation has been undertaken in relation to the information in this report

LEGAL/POLICY:

Nil

RISK MANAGEMENT IMPLICATIONS

Low: It is low risk for Council to receive the information in this report.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Thriving Places

Our physical assets are efficiently and effectively managed and maintained.

SUSTAINABILITY IMPLICATIONS:

This does not contribute to any environmental sustainability outcomes. This action/activity is environmentally neutral.

PUBLIC HEALTH IMPLICATIONS:

This does not contribute to any public health outcomes in the City's Public Health Plan 2020-2025.

FINANCIAL/BUDGET IMPLICATIONS:

The cost of each option is contained in the body of the report.

COMMENTS:

Administration has investigated the measures requested by Council and the information in relation to each option is contained in the report. Administration does not support further traffic management intervention in Colvin Lane for the following reasons:

- Speeds in this location are already considered low, safe and appropriate for the location
- Additional signage would be unenforceable and ineffective and if related to speed will not be approved by Main Roads WA
- Installation of additional measures may set a precedent and unrealistic expectations for other laneways
- Installation of a mirror will be ineffective and costly due to vandalism

7 COMMUNITY & BUSINESS SERVICES

7.1 FINANCIAL STATEMENTS AS AT 30 APRIL 2022

Attachments: 1. Financial Statements as at 30 April 2022 🗓 🛣

RECOMMENDATION:

That Council RECEIVES the Financial Statements for the month ended 30 April 2022 as shown in Attachment 1.

PURPOSE OF REPORT:

To present the statement of financial activity for the period ended 30 April 2022.

BACKGROUND:

Regulation 34 (1) of the *Local Government (Financial Management) Regulations 1996* requires a local government to prepare each month a statement of financial activity including the sources and applications of funds, as compared to the budget.

DETAILS:

The following documents, included as **Attachment 1**, comprise the statement of financial activity for the period ending **30 April 2022:**

Note	Description	Page
1.	Statement of Financial Activity by Program Report and Graph	1-4
2.	Statement of Comprehensive Income by Nature or Type Report	5
3.	Net Current Funding Position	6
4.	Summary of Income and Expenditure by Service Areas	7-13
5.	Capital Expenditure including Funding graph and Capital Works Schedule	14-19
6.	Cash Backed Reserves	20
7.	Rating Information and Graph	21-22
8.	Debtors Report	23
9.	Beatty Park Leisure Centre Financial Position	24-25

Explanation of Material Variances

The materiality thresholds used for reporting variances are 10% and \$20,000, respectively. This means that variances will be analysed and separately reported when they are more than 10% (+/-) of the year-to-date budget and where that variance exceeds \$20,000 (+/-). This threshold was adopted by Council as part of the budget adoption for 2021/2022 and is used in the preparation of the statements of financial activity when highlighting material variance in accordance with *Financial Management Regulation 34(1) (d*).

In accordance with the above, all material variances as of 30 April 2022 have been detailed in the variance comments report in **Attachment 1**.

Comments on the Statement of Financial Activity (as at Attachment 1)

Operating revenue is reported separately by '*Program*' and '*Nature or Type*' respectively. The significant difference between the two reports is that operating revenue by '*Program*' includes 'Profit on sale of assets and the report for '*Nature or Type*' includes 'Rates revenue'.

Revenue by Program (on page 1) is tracking higher than YTD budgeted revenue by \$1,602,742 (8.8%). The following items materially contributed to this position:

- A favourable variance of \$991,704 in General Purpose Funding mainly due to:
 - Payment in advance received from a \$675k Federal Grant and a \$334k Local Roads Grant received in April 2022 to help local governments to manage cumulative impacts of the floods and Covid-19 pandemic.

- A favourable variance of \$407,184 in **Recreation and Culture** activities due to:
 - \$447,600 favourable in fees and charges for Betty Park recreation admission and membership fees, partially offset by;
 - \$51,700 unfavourable for reimbursements from variable outgoings recoups.
- A favourable variance of \$146,875 in **Community Amenities** activities due to:
 - \$136,781 favourable fees, charges and contributions for Development and Design,
 - \$25,500 for public art contributions received,
 - \$23,986 favourable for Waste Services for revenue received from Micro Business Waste Recycling Services, partially offset by;
 - \$28,369 unfavourable compliance services fees and charges due to a credit note applied to reverse previous year infringements as per Perth Magistrate Court;
 - \$20,818 unfavourable from advertising fees income from bus shelter for Engineering Design Services.
- A favourable variance of \$140,583 in **Transport** activities due to:
 - \$337,135 favourable fees, charges from car park and kerbside parking revenue, partially offset by;
 - \$204,711 unfavourable fees and charges from Infringement fines and penalties.
- An unfavourable variance of \$90,715 in Law, Order and Public Safety mainly due to:
 - \$50,680 reduction of Work Zone License Permits, and;
 - \$41,670 of grant income due to timing variances.

Revenue by Nature or Type (on page 5) is tracking slightly higher than the YTD budgeted revenue by \$1,820,306 (3.3%). The following items materially contributed to this position:

- A favourable variance for Operating Grants, Subsidies and contribution by \$987,046 mostly due to a
 payment in advance received from a \$675k Federal Grant and a \$334k Local Roads Grant received in
 April 2022 to help local governments to manage the cumulative impacts of the floods and Covid-19
 pandemic.
- A favourable variance of \$662,611 for Fees and Charges mostly due to:
 - \$372,238 favourable Betty Park membership fees income and Recreation Centre hire income,
 - \$337,135 favourable Car Park and Kerbside Parking income,
 - \$140,575 favourable Development and Design application fees, partially offset by;
 - \$169,989 unfavourable due to lower Infringement fines and penalties.
- A favourable variance for Other Revenue by \$130,215 mostly due to:
 - \$75,918 favourable for reimbursements mostly contributed from insurance claim recoups,
 - \$54,297 favourable from Waste Services (\$37,080) for revenue received from Micro Business Waste Recycling Services and a refund received for overcharged bank merchant fees from Commonwealth Bank in Beatty Park (\$19,064).
- Unfavourable interest earnings of \$42,779 to budget mostly due to low interest rates.

Expenditure by Program (on page 1) is favourable, attributed by an under-spend of \$1,922,363 (3.2%) compared to the YTD budget. The following items materially contributed to this position:

- A favourable variance of \$1,319,646 for **Community Amenities** due to:
 - \$665,432 favourable due to a timing difference in Policy and Place Services operating initiatives, programmes and events below:

Table 1			
Programmes and Events & Operating Initiatives	\$ Variances

- \$404,723 favourable for Waste Services due to a timing variance in contractors for waste collection and Waste Recycling collection costs,
- \$100,656 favourable from Engineering Design Services mostly due to:
 - \$112,401 favourable utilities due to a timing difference in electricity costs,
 - \$73,466 favourable materials and contracts:
 - \$24,000 timing variance for street lighting maintenance.
 - \$17,000 timing variance for Travel Smart Programs.
 - \$15,000 timing variance for Building Condition Surveys.
 - \$10,000 timing variance for Traffic Surveys.
 - Partially offset by unfavourable agency labour hire costs \$87,790.
- A favourable variance of \$66,420 in Development and Design mostly due to a timing difference in legal and consultant fees.
- A favourable variance of \$210,641 for Law, Order and Public Safety mostly due to a timing variance for Rangers admin expenses and Noongar Outreach Service and Safer Vincent Initiatives.
- A favourable variance of \$182,599 for **Governance** due to:
 - \$63,235 budget phasing for consultants and internal audit fees,
 - \$45,305 favourable mainly due to timing variances for Civic Functions (\$36,000) and Town Centre Activation (\$19,000),
 - \$36,110 favourable for Members of Council on miscellaneous expenses due to timing variances.
 - \$36,095 favourable mainly due to timing variances for staff training costs, wellness, OH&S Initiatives and external recruitment.
- A favourable variance of \$157,393 for **Health** mostly due to:
 - \$58,595 favourable for Health Clinics general maintenance and budget phasing for North Perth Dental Clinic,
 - \$54,443 favourable for Health Admin and Food Control due to a timing variance on public health plan, health promotion programs and syringe disposal strategy expenditure.
- A favourable variance for **Recreation and Culture** of \$110,153 mostly due to:
 - \$197,289 favourable from Community Partnership mostly due to:
 - \$62,968 timing variances for donations and sponsorship,
 - \$60,009 salaries due to vacant positions that are in the process of being filled,

- \$30,000 timing variance on Every Club Grant Scheme operating initiative,
- \$29,074 timing variances of programs and events below:

Table 2

Pride WA: Events	-\$	15,000	Unfavourable

- \$152,234 favourable on Betty Park and Recreation Centre relating to various maintenance, cleaning and equipment costs.
- \$119,316 favourable timing variance on planned maintenance work for Litis soccer stadium and Leederville common area turf maintenance.
- \$50,720 favourable for Library Services due to a timing variance relating to Creative Communities COVID-19 Recovery Operating Initiatives.
- \$70,932 unfavourable for Parks and Environmental Services mostly due to higher labour costs.
- \$69,930 unfavourable for Public Halls mostly due to higher cleaning expenses due to increased hall usage.
- \$85,547 unfavourable for Parks Services Administration employee costs.
- A favourable variance of \$72,908 in **General Purpose Funding** due to:
 - \$50k timing variance on financial hardship waiver expenses,
 - \$12k timing variance of bank fees & charges, and;
 - \$10k timing variance of debt recovery costs.
- An unfavourable variance for **Transport** of \$203,417 mostly due to a timing variance in labour costs.

Expenditure by Nature or Type (on page 5) is favourable, attributed by an under-spend of \$2,028,741 (3.4%). The following items materially contributed to this position:

- There is an under-spend of \$2,116,856 mainly attributed to below (Materials and Contracts) for:
 - Policy and Places services favourable amount of \$686,465 due to underspend in Operating initiatives and programmes and events. Refer to Table 1 above.
 - Waste Services favourable amount of \$460,826 mainly due to underspend in contractors for waste collection \$381,011 and Waste Recycling collection cost \$267,025; partially offset by professional services paid for the Mindarie Regional Council governance and administration charge \$292,801 due to budget phasing.
 - Information Technology unfavourable due to timing variance in software license fees by \$157,419 due to prepayment of multi-year software licenses in the current year and contractors for Microsoft Teams calling implementation.

- Beatty Park and Rec Centre favourable amount of \$152,234 due to underspend in various maintenance, cleaning and equipment costs.
- Stadium and Ovals \$119,316 favourable timing variance on planned maintenance work for Litis soccer stadium and Leederville common area turf maintenance.
- There is an over-spend of \$290,436 of (**Employee costs**) mainly due to higher spend in Beatty Park labour due to additional fitness classes offset by higher revenue.
- There is an under-spend in \$139,296 of (Utility Charges) mainly due to timing variances in electricity invoices for Engineering Design Services.

Surplus Position – Year End 2021/22

The surplus position brought forward to 2021/22 is \$6,125,327 as per the City's 2020/21 audited financials. The April closing position is \$16,185,156 reflecting a favourable position of \$7,372,056 compared to the April budget amount of \$8,813,100.

Content of Statement of Financial Activity

An explanation of each report in the Statement of Financial Activity (**Attachment 1**), along with some commentary, is below:

1. Statement of Financial Activity by Program Report (Note 1 Page 1-4)

This statement of financial activity shows operating revenue and expenditure classified by Program

2. <u>Statement of Comprehensive Income by Nature or Type Report (Note 2 Page 5)</u>

This statement of Comprehensive Income shows operating revenue and expenditure classified by Nature or Type.

3. <u>Net Current Funding Position (Note 3 Page 6)</u>

'Net current assets' is the difference between the current assets and current liabilities, less committed assets and restricted assets.

4. <u>Summary of Income and Expenditure by Service Areas (Note 4 Page 7-11)</u>

This statement shows a summary of operating revenue and expenditure by service unit including variance commentary.

5. <u>Capital Expenditure and Funding Summary (Note 5 Page 12 - 19)</u>

Below is a summary of the year-to-date expenditure of each asset category and the funding source associated to the delivery of capital works.

CITY OF VINCENT

Financial Report for the month ended 30 April 2022

5. Capital Expenditure and Funding Summary

	Revised Budget	YTD Budget	Y TD Actual	Remaining Budget
	\$	\$	\$	%
Land and Buildings	4,766,563	3,675,226	1,957,824	58.9%
Infrastructure Assets	7,383,795	4,721,351	3,430,014	53.5%
Plant and Equipment	2,258,056	483,500	546,445	75.8%
Furniture and Equipment	2,085,825	644,942	346,446	83.4%
Total	16,494,239	9,525,019	6,280,729	61.9%

FUNDING	Revised Budget \$	YTD Budget \$	YTD Actual \$	Remaining Budget %
Own Source Funding - Municipal	9,142,833	8,023,405	3,899,984	57.3%
Cash Backed Reserves	2,985,748	815,934	818,241	72.6%
Capital Grant and Contribution	3,208,355	182,847	878,444	72.6%
Other (Disposals/Trade In)	1,157,303	502,833	684,060	40.9%
Total	16,494,239	9,525,019	6,280,729	61.9%

The full capital works program is listed in detail in Note 5 in Attachment 1.

6. Cash Backed Reserves (Note 6 Page 20)

The cash backed reserves schedule provides a detailed summary of the movements in the reserve portfolio, including transfers to and from the reserve. The provisional balance at 30 April 2022 is \$12,498,438.

7. Rating Information (Note 7 Page 21 - 32)

The notices for rates and charges levied for 2021/22 were issued on 22 July 2021. *The Local Government Act 1995* provides for ratepayers to pay rates by four instalments. The due dates for each instalment are:

	Due Date
First Instalment	27 August 2021
Second Instalment	29 October 2021
Third Instalment	7 January 2022
Fourth Instalment	11 March 2022

Rates for 2021/22 were raised on 7July 2021 after the adoption of the budget.

The outstanding rates debtors balance at 30 April 2022 was \$1,865,633, excluding deferred rates of \$104,040.

The outstanding rates percentage at 30 April 2022 was 4.53% compared to 5.34% for the similar period last year, noting rates in 2020/21 were raised in August 2020 as compared to July 2021 for the current financial year.

8. <u>Receivables (Note 8 Page 23)</u>

Total trade and other receivables at 30 April 2022 were \$2,581,655.

Below is a summary of the significant items with an outstanding balance over 90 days:

 \$998,128 relates to unpaid infringements (plus costs) over 90 days. Infringements that remain unpaid for more than two months are referred to the Fines Enforcement Registry (FER), which then collects the outstanding balance on behalf of the City for a fee. • \$218,261 relates to cash-in-lieu of car parking debtors. 3 out of 15 outstanding debtors are on a payment plan.

•

In accordance with the *City's Policy 7.7.1 Non-residential parking*, Administration has entered into special payment arrangements with long outstanding cash in lieu parking debtors to enable them to pay their debt over a fixed term of five years.

However, on 8 April 2020, the Minister of Planning WA issued a provision that exempts proponents from making cash in lieu related payments for existing or new non-residential development to the City. This exemption is effective up to the earlier date of either: -

- a) 90 days after the date upon which the State of Emergency Declaration ceases to have effect or is revoked: or
- b) Midnight, 1 May 2023.

Currently this makes up of 94% (\$204,398) of cash-in-lieu debtors.

- Health licenses debtors are being followed up with final reminders. Thereafter, the debts will be sent to the debt collectors for further follow up.
- 9. <u>Beatty Park Leisure Centre Financial Position report (Note 9 Page 24-25)</u>

As of 30 April 2022, the Centre's operating surplus position was \$679,904 (excluding depreciation) compared to the YTD budgeted deficit amount of \$83,076. Predominantly the surplus is contributed by Gymnasium, Health and Fitness memberships.

CONSULTATION/ADVERTISING:

Not applicable.

LEGAL/POLICY:

Section 6.4 of the Local Government Act 1995 requires a local government to prepare an annual financial report for the preceding year and other financial reports as prescribed.

Regulation 34 (1) of the Local Government (Financial Management) Regulations 1996 requires the local government to prepare a statement of financial activity each month, reporting on the source and application of funds as set out in the adopted annual budget.

A statement of financial activity and any accompanying documents are to be presented at an Ordinary Meeting of the Council within two months after the end of the month to which the statement relates. *Section 6.8 of the Local Government Act 1995* specifies that a local government is not to incur expenditure from its Municipal Fund for an additional purpose except where the expenditure is authorised in advance by an absolute majority decision of Council.

RISK MANAGEMENT IMPLICATIONS:

Low: Provision of monthly financial reports to Council fulfils relevant statutory requirements and is consistent with good financial governance.

STRATEGIC IMPLICATIONS:

Reporting on the City's financial position is aligned with the City's Strategic Community Plan 2018-2028:

Innovative and Accountable

Our resources and assets are planned and managed in an efficient and sustainable manner.

Our community is aware of what we are doing and how we are meeting our goals.

Our community is satisfied with the service we provide.

We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATIONS:

Expenditure within this report facilitates various projects, programs, services and initiatives that contribute to protecting/enhancing the City's built and natural environment and to improving resource efficiency.

PUBLIC HEALTH IMPLICATIONS:

Expenditure within this report facilitates various projects, programs and services that contribute to the priority health outcomes within the City's *Public Health Plan 2020-2025*.

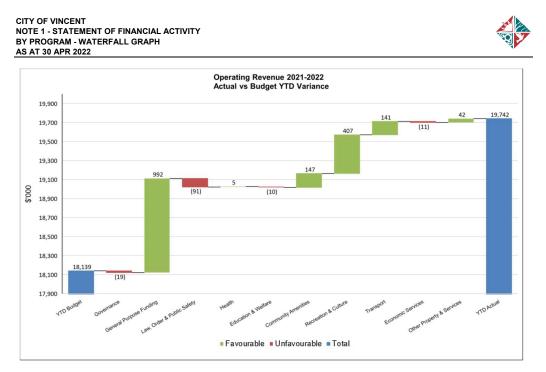

FINANCIAL/BUDGET IMPLICATIONS:

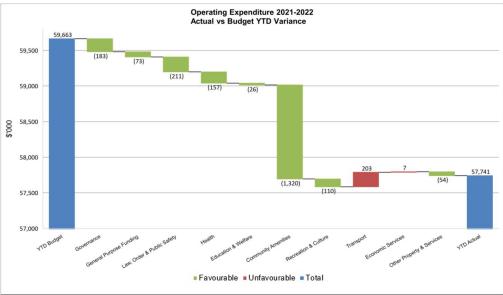

As contained in this report.

CITY OF VINCENT NOTE 9 - STATEMENT OF FINANCIAL ACTIVITY BY SERVICE - GRAPH AS AT 30 APR 2022

7.2 AUTHORISATION OF EXPENDITURE FOR THE PERIOD 1 APRIL 2022 TO 30 APRIL 2022

Attachments:

- 1. Payments by EFT and Payroll April 22 🗓 🔛
- 2. Payments by Cheque April 22 🕹 🔛
- 3. Payments by Direct Debit April 22 🗓 🔛

RECOMMENDATION:

That Council RECEIVES the list of accounts paid under delegated authority for the period 1 April 2022 to 30 April 2022 as detailed in Attachments 1, 2 and 3 as summarised below:

Total payments for April 2022	\$5,980,335.38
Direct debits, including credit cards	\$168,868.62
Cheques	\$302.60
EFT payments, including payroll	\$5,811,164.16

PURPOSE OF REPORT:

To present to Council the list of expenditure and accounts paid for the period 1 April 2022 to 30 April 2022.

BACKGROUND:

Council has delegated to the Chief Executive Officer (Delegation No. 2.2.18) the power to make payments from the City's Municipal and Trust funds.

In accordance with *Regulation 13(1)* of the *Local Government (Financial Management) Regulations 1996* a list of accounts paid by the Chief Executive Officer is to be provided to Council, where such delegation is made.

The list of accounts paid must be recorded in the minutes of the Council Meeting.

DETAILS:

The Schedule of Accounts paid for the period 1 April 2022 to 30 April 2022, covers the following:

FUND	CHEQUE NUMBERS/ BATCH NUMBER	AMOUNT
Municipal Account (Attachment 1, 2 and 3)	DATOMINUMBER	
EFT Payments	2803 - 2815	\$4,423,038.16
Payroll by Direct Credit	April 2022	\$1,388,126.00
Sub Total		\$5,811,164.16
Cheques		
Cheques	82704 - 82707	\$605.20
Cancelled cheques	82704 and 82705	-\$302.60
Sub Total		\$302.60
Direct Debits (including Credit Cards)		
Lease Fees		\$29,064.30
Loan Repayments		\$100,782.60

Bank Charges – CBA	\$25,612.49
Credit Cards	\$13,409.23
Sub Total	\$168,868.62

Total Payments

\$5,980,335.38

CONSULTATION/ADVERTISING:

Not applicable.

LEGAL/POLICY:

Regulation 12(1) and (2) of the Local Government (Financial Management) Regulations 1996:

- "12. Payments from municipal fund or trust fund, restrictions on making
- (1) A payment may only be made from the municipal fund or the trust fund
 - if the local government has delegated to the CEO the exercise of its power to make payments from those funds by the CEO; or
 - otherwise, if the payment is authorised in advance by a resolution of Council.
- (2) Council must not authorise a payment from those funds until a list prepared under regulation 13(2) containing details of the accounts to be paid has been presented to Council."

Regulation 13(1) and (3) of the Local Government (Financial Management) Regulations 1996:

- *"13. Lists of Accounts*
- (1) If the local government has delegated to the CEO the exercise of its power to make payments from the municipal fund or the trust fund, a list of accounts paid by the CEO is to be prepared each month showing for each account paid since the last such list was prepared
 - the payee's name;
 - the amount of the payment;
 - the date of the payment; and
 - sufficient information to identify the transaction.
- (2) A list prepared under sub regulation (1) is to be
 - presented to Council at the next ordinary meeting of Council after the list is prepared; and
 - recorded in the minutes of that meeting."

RISK MANAGEMENT IMPLICATIONS:

Low: Management systems are in place that establish satisfactory controls, supported by the internal and external audit functions. Financial reporting to Council increases transparency and accountability.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Innovative and Accountable

Our resources and assets are planned and managed in an efficient and sustainable manner.

Our community is aware of what we are doing and how we are meeting our goals.

Our community is satisfied with the service we provide.

We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATIONS:

Expenditure covered in this report includes various projects, programs, services and initiatives that contribute to protecting/enhancing the City's built and natural environment and to improving resource efficiency.

PUBLIC HEALTH IMPLICATIONS:

Expenditure covered in this report includes various projects, programs and services that contribute to the priority health outcomes within the City's *Public Health Plan 2020-2025*.

FINANCIAL/BUDGET IMPLICATIONS:

All municipal fund expenditure included in the list of payments is in accordance with Council's annual budget.

7.3 INVESTMENT REPORT AS AT 30 APRIL 2022

Attachments: 1. Investment Statistics as at 30 April 2022 🗓 🛣

RECOMMENDATION:

That Council NOTES the Investment Statistics for the month ended 30 April 2022 as detailed in Attachment 1.

PURPOSE OF REPORT:

To advise Council of the nature and value of the City's Investments as at 30 April 2022 and the interest amounts earned YTD.

BACKGROUND:

The City's surplus funds are invested in bank term deposits for various terms to facilitate maximum investment returns in accordance with the City's Investment Policy (No. 1.2.4).

Details of the investments are included in **Attachment 1** and outline the following information:

- Investment performance and policy compliance charts;
- Investment portfolio data;
- Investment interest earnings; and
- Current investment holdings.

DETAILS:

Summary of key investment decisions in this reporting period

• The City holds 11,000 equity shares in the North Perth Community Bank, purchased at \$1 per share on 23 November 2001. The City is currently awaiting the updated share transfer form to complete the divestment.

The City's non-fossil fuel exposure has been maintained at low levels for the past few months due to the following reasons:

- Record low interest rates offered by banks divested in fossil fuel activities; and
- Smaller divested banks have capped the number of term deposits they can undertake due to surplus cash
 positions primarily fuelled by low borrowing costs in the market. This is impacting the City's ability to
 provide investment preference to these organisations.

Investment Status

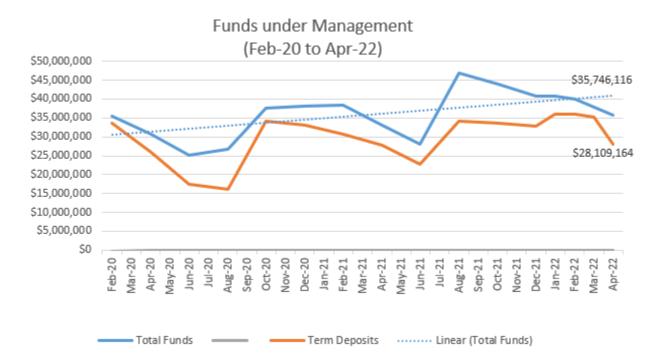

The City's investment portfolio is diversified across several accredited financial institutions.

As of 30 April 2022, the total funds held in the City's operating account (including on call) is \$35,746,115 compared to \$33,129,488 for the period ending 30 April 2021.

Interest bearing term deposits and the online saver represented \$28,912,084 while non-interest bearing amounts were \$6,834,032.

The total term deposit investments for the period ended 30 April 2022 were \$28,109,164 compared to \$27,858,186 for the period ended 30 April 2021.

The following chart shows funds under management from February 2020 to April 2022.

Interest Status

Total accrued interest earned on investments at 30 April 2022 is:

Total Accrued Interest Earned on Investment	Budget Adopted	Budget YTD	Actual YTD	% of FY Budget
Municipal	\$100,000	\$76,550	\$79,034	103.25%
Reserve	\$100,000	\$100,000	\$42,322	42.32%
Subtotal	\$200,000	\$176,550	\$121,357	64.74%
Leederville Gardens Inc Surplus Trust*	\$0	\$0	\$69,053	0.00%
Total	\$200,000	\$176,550	\$190,409	107.85%

*Interest estimates for Leederville Gardens Inc. Surplus Trust were not included in the 2022/22 Budget as actual interest earned is restricted.

The City has a weighted average interest rate of 0.64% for current investments whereas the Reserve Bank 90 days accepted bill rate for April 2022 is 0.41%. The online Saver interest rate has been maintained at 0.20% and is subject for review by CommBank in July 2022.

Sustainable Investments

The City's investment policy requires that in the first instance, the City considers rate of return of the fund. All things being equal, the City then prioritises funds with no current record of funding fossil fuels. The City can increase the number of non-fossil fuel lenders but will potentially result in a lower rate of return.

Administration utilises 'Market Forces' to ascertain the level of exposure banks have in fossil fuel activities and utilises a platform called 'Yield Hub' to determine daily interest rates published by banks.

The investment guidelines which is the supplementary document to the Council Investment Policy has been updated to increase the maximum exposure limits to divested institutions, this has now been increased to 90% as reflected in the below table. The majority of divested institutions lie within A-2 and A-1+ categories.

Short Term Rating (Standard & Poor's) or Equivalent	Direct Invest Maximum 9 one institut	with any	Maximum % of Total Portfolio		
	Guideline	Current position	Guideline	Current position	
A1+	30%	21.36%	90%	57.50%	
A-1	25%	0.0%	90%	0.0%	
A-2	20%	18.03%	90%	42.50%	

Administration will continuously explore options to ascertain if a balanced investment strategy can be developed where investments in divested banks can be increased with a minimal opportunity cost of loss in interest rate returns for instances when banks not divested in fossil fuel activities offer a higher rate of return.

RISK MANAGEMENT IMPLICATIONS

Low: Administration has developed effective controls to ensure funds are invested in accordance with the City's Investment Policy. This report enhances transparency and accountability for the City's investments.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's Strategic Community Plan 2018-2028:

Innovative and Accountable

Our resources and assets are planned and managed in an efficient and sustainable manner. Our community is aware of what we are doing and how we are meeting our goals. Our community is satisfied with the service we provide. We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATIONS:

This does not contribute to any specific sustainability outcomes of the *City's Sustainable Environment Strategy 2019-2024,* however focussing on non-fossil fuel investments contributes to a Sustainable Environment.

PUBLIC HEALTH IMPLICATIONS:

This does not contribute to any public health outcomes of the City's Public Health Plan 2020-2025.

FINANCIAL/BUDGET IMPLICATIONS:

The financial implications of this report are as noted in the details section of the report. Administration is satisfied that appropriate and responsible measures are in place to protect the City's financial assets.

St Patricks Day WA	\$20,000
St Patricks Day Festival	
Neighbourhood Events Co	\$4,500
Urban Wine Walk	
Subiaco Football Club	\$7,000
City of Vincent Match	
The Pickle District	\$30,000
Pickle Lit	
Event Allocation	\$50,000
Year-Round Applications	
TOTAL EVENT SPONSORSHIP	\$287,500

- 2. NOTES that the allocation of all 2022/2023 Festival and Events Sponsorships remains subject to the recipient signing a Sponsorship Agreement with the City of Vincent identifying all related expectations and obligations.
- 3. NOTES that the allocation of the \$50,000 year-round budget is for events that apply in the 2022/2023 financial year and meet the criteria in the Event and Festival Sponsorship Application. Subject to approval by Executive Director Community and Businesses Services.

PURPOSE OF REPORT:

To approve the proposed 2022/2023 Festivals and Events Sponsorship and associated operating budget allocations.

BACKGROUND:

The City of Vincent has adopted a contemporary, collaborative approach to place activation and vibrancy by collaborating with community, not-for-profit and other creative organisations to deliver a range of activities through annual festivals and events sponsorship. Applications for Event Sponsorship in 2021/2022 are outlined below.

Event	Amount Sponsored 2021/2022
Revelation Film Festival	\$20,000
Revelation Perth International Film Festival	
Open House	\$10,000
Open House Vincent	
Mt Hawthorn Hub	\$9,000
Little Day Out	
Pride WA	\$15,000
Pride Fairday	
Perth International Jazz Festival	\$15,000
Jazz Picnic In The Park	
Floreat Athena FC	\$10,000
New Year's Eve on The Pitch	
WA Italian Club	\$15,000
Festival Italia	
RTRFM	\$10,000
Neon Picnic	
Rotary Club of North Perth	\$15,000
Hyde Park Fair	

St Patricks Day WA Inc	\$20,000
St Patricks Day Festival	
Noongar Radio	\$15,000
First Nations Welcome All Nations	
Beaufort Street Network	\$15,000
Beaufort Street Festival Events	
Allocation to Town Teams	\$60,000
Town Centre Events	
Pickle District \$25,000	
Leederville Connect \$5,000	
TOTAL EVENT SPONSORSHIP	\$229,000

DETAILS:

Process for Seeking Applications

Applications for the 2022/23 Event and Festival Sponsorship opened on 31 January 2022 with a call-out for community festivals, events, activations, roving entertainment and concerts. The availability of sponsorship was promoted through the City's Facebook page, website, e-newsletter, monthly ad and direct correspondence to both previous and prospective event organisers.

Administration also attended the Town Team Roundtable meeting on 23 February 2022 to discuss community funding opportunities and promoted the Event and Festival Sponsorship for 2022/23.

Applications then closed on 14 March 2022.

Assessment Criteria

To ensure an equitable assessment process all applicants were required to respond to specific assessment criteria in order to demonstrate what value their festival/event adds to the Vincent community and how it aligns with the Strategic Community Plan.

Five (5) assessment criteria were included:

Enhanced Environment

• How will your event work to minimise the environmental impact and encourage an environmentally friendly event?

Accessible City

- How will your event encourage smart travel?
- How will you create an event that is accessible to all members of the community?
- Will your event enable access for persons with disability?

Connected Community

- Who is your target demographic and how will this event encourage their involvement and participation?
- How will the event have broad appeal and actively engage and connect the local and greater community?

Thriving Places

- How will the event increase economic benefit to the local businesses and encourage them to be involved?
- How will the event provide social benefit and cultural opportunities to the local and greater community?

Innovative and Accountable

• Provide evidence the event can be delivered

Application Outcomes

An Event and Festival Detailed Summary is at Attachment 1.

A total of 21 applications were received as shown in the following table, and the detail of the submissions is shown in **Confidential Attachments 2 – 22**.

The total amount requested was \$383,290 and the recommended sponsorship total is \$287,500.

Calendar and Location Summary

Event recommendations also consider whether the Event and Festival Sponsorship creates a range of events throughout the year, and at a range of locations. Intensity of event activity at popular locations, such as Hyde Park, are monitored.

Month	Event	Location
July – December	Mt Lawley Guided Walking Tours	Mt Lawley and Highgate
July – June	Open Streets Leederville	Electric Lane Leederville
July – June	Leederville Connect Events Calendar	Leederville Town Centre
July	Revelation Film Festival	Luna Cinema Leederville
July	City of Vincent Football Festival	Leederville Oval
October	Little People Festival	Hyde Park - request to move to
		town squares
October	Little Day Out	Braithwaite Park Mt Hawthorn
October	Dogtober	Barlee St Carpark, Mt Lawley
October	Vincent Wellbeing Festival	Braithwaite Park, Mt Hawthorn
November -	Mt Hawthorn Hawkers Market	Axford Park, Mt Hawthorn
March		
November	Jazz Picnic In The Park	Hyde Park
November	Pride Fairday	Hyde Park
December	Twilight Christmas Market	St Albans Church, Highgate
December	Party on The Pitch – New Year's Eve	Litis Stadium, Mt Hawthorn
March	Hyde Park Fair	Hyde Park
March	Neon Picnic	Hyde Park
March	St Patricks Day Festival	Leederville Town Centre and Oval
April	Urban Wine Walk	All Town Centres
April	City of Vincent Match	Leederville Oval
May	Pickle Lit	Pickle District, West Perth

CONSULTATION/ADVERTISING:

Consultation and advertising were not required.

LEGAL/POLICY:

- Policy No 3.8.3 Concerts and Events
- Policy Community Funding

RISK MANAGEMENT IMPLICATIONS

Medium: Events in WA have been impacted by COVID-19 restrictions and remain with the risk of last minute restriction changes.

The public nature of festivals and events attract risks including loss of reputation, financial, loss and damage to facilities and equipment. This is managed by a sponsorship agreement which requires applicants to supply the City with event plans, risk management plans and insurance details.

The City's Sponsorship Agreement also identities that the applicant (or their appointed management contractor) carry out the works at their own cost and risk and agrees not to make any claims against the City and that the City shall have no liability or responsibility whatsoever to the provider with respect to the project.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Enhanced Environment

Our parks and reserves are maintained, enhanced and well utilised.

Accessible City

Our pedestrian and cyclist networks are well designed, connected, accessible and encourage increased use.

Connected Community

An arts culture flourishes and is celebrated in the City of Vincent. We have enhanced opportunities for our community to build relationships and connections with each other and the City. Our many cultures are celebrated.

Our community facilities and spaces are well known and well used. We are an inclusive, accessible and equitable City for all.

Thriving Places

We are recognised as a City that supports local and small business. Our town centres and gathering spaces are safe, easy to use and attractive places where pedestrians have priority.

We encourage innovation in business, social enterprise and imaginative uses of space, both public and private.

Innovative and Accountable

We are open and accountable to an engaged community. Our community is aware of what we are doing and how we are meeting our goals.

SUSTAINABILITY IMPLICATIONS:

This does not contribute to any specific sustainability outcomes of the *City's Sustainable Environment Strategy 2019-2024.*

PUBLIC HEALTH IMPLICATIONS:

This is in keeping with the following priority health outcomes of the City's Public Health Plan 2020-2025:

Increased mental health and wellbeing

Increased physical activity

FINANCIAL/BUDGET IMPLICATIONS:

Event and Festival Sponsorship funding of \$287,500 approved by Council in the annual budget for 2022/23.

COMMENTS:

The support of a range of different festivals and events through Council's 2022/2023 sponsorship will continue the activation of our Town Centres and public open spaces, and engagement of our local community in Vincent life.

The delivery of these activations in collaboration with numerous Town Teams, Artists, community organisations, sporting clubs, local businesses, and not-for-profit organisations further emphasises the success of a partnership approach.

7.5 ADVERTISING OF AMENDED POLICY - RECOVERY OF DEBTS, RATES AND SERVICE CHARGES POLICY

Attachments: 1. Recovery of Debts, Rates and Service Charges Policy 🗓 🎇

RECOMMENDATION

That Council APPROVES the proposed amendments to the Recovery of Debts, Rates and Service Charges Policy, at Attachment 1, for the purpose of community consultation.

PURPOSE OF REPORT:

For Council to approve, for the purpose of community consultation, the proposed amendments to the Recovery of Debts, Rates and Service Charges Policy as detailed at **Attachment 1.**

BACKGROUND:

At its 8 June 2010 meeting, Council adopted its <u>Recovery of Debts, Rates and Service Charges Policy 1.2.13</u> (Policy).

The Policy was developed to provide guidelines for the process of debt collection of outstanding debts, recovery of rates and service charges and the charging of interest in relation to those debts.

The requirement of provisions outlined in clause 1.3 of the <u>Policy Development and Review Policy</u> were presented to Council Members though the monthly Policy Paper in May 2022. No feedback was received.

DETAILS:

Residents have a shared obligation to contribute equitably to the delivery of services. The proposed Policy outlines the process for an effective and efficient collection of outstanding rates and services charges. The City will apply fundamental guidelines in facilitating the appropriate management of its debt collection practices in accordance with relevant legislation and legal requirements.

The Policy guides the process required to meet legislative obligations governing debt recovery and the possession of land in order to recover rates and service charges.

The Policy aligns with Department of Local Government, Sport and Cultural Industries (DLGSC) <u>operational</u> <u>guideline</u> for the possession of land for recovery of rates and services charges, comparative industry standard and the Western Australian Local Government Associations (WALGA's) <u>guidance</u> for the implementation of the financial hardship provisions.

The outcome of Administration's review of the Recovery Debts, Rates and Service Charges Policy is as follows:

1. Introduction and purpose

The Policy has been updated to align with the City's approved policy template. It includes minor amendments to the layout to facilitate these changes.

A Policy Statement has been included to note that the City will take appropriate action to ensure the collection of rates and service charges, using the relevant legislative and legal processes, in accordance with the *Local Government Act 1995* and *Civil Judgements Enforcement Act 2004*. The City will consider all requests with making payments and have regard to individuals experiencing financial hardship.

2. Updated policy objective

Administration is proposing an updated objective to align with existing principles and regulatory requirements.

3. Financial hardship

In 2020/21 the City adopted Financial Hardship Guidelines. These guidelines outline the definition and process to assist rate payers experiencing financial hardship. Clause 7 has been added to guide ratepayers in such circumstance and to outline the support that the City will offer.

4. Guidelines and Procedures

The guidelines and procedures have been removed from the Policy and replaced as a summary of the legal processes at clause 1 & 2.

Final discretionary collection action, by way of email or phone call, has been added as clause 1 & 2 to present a final opportunity to clear the debt before proceeding with further legal action.

The legal processes have not changed but are added to the Policy for clarity and transparency.

5. <u>The Complaints process</u>

An additional policy provision at clause 8 has been added to direct ratepayers to the complaints process and procedure.

CONSULTATION/ADVERTISING:

In accordance with the City's <u>Community and Stakeholder Engagement Policy</u>, community consultation of all new and significantly amended policies must be provided for a period exceeding 21 days in the following ways:

- notice published on the City's website;
- notice posted to the City's social media;
- notice published in the local newspapers;
- notice exhibited on the notice board at the City's Administration and Library and Local History Centre; and

Public notice of this proposed new policy will be provided from early June 2022.

LEGAL/POLICY:

Section 2.7(2)(b) of the Local Government Act 1995 provides Council with the power to determine policies.

The City's <u>Policy Development and Review Policy</u> sets out the process for the development and review of the City's policy documents.

RISK MANAGEMENT IMPLICATIONS

Low: It is low risk for Council to undertake community consultation of the proposed amended Policy.

STRATEGIC IMPLICATIONS:

This does not contribute to the City's *Strategic Community Plan 2018-2028*.

SUSTAINABILITY IMPLICATIONS:

This does not contribute to any environmental sustainability outcomes.

PUBLIC HEALTH IMPLICATIONS:

This does not contribute to any public health outcomes in the City's Public Health Plan 2020-2025.

FINANCIAL/BUDGET IMPLICATIONS:

Debts are to be pursued within the relevant statutory limitation periods to maximise recoverability. Debt is monitored regularly, and necessary regular provisions made to recognise unrecoverable debt. Actions for writing off bad debts (other than rates and service charges) should only take place where all avenues for recovery have been exhausted or it becomes unviable to keep pursuing the debt.

COMMENTS:

The amended Policy will provide clarification on responsibilities within the organisation that will ensure that the policy is understood and adhered to.

The Policy will be supported by procedures to ensure compliance with legislative requirements.

Legislation / local law requirements	Local Government Act 1995, sections: 6.12, 6.45(3), 6.51(1), 6.56, 6.60 and 6.64. Local Government (Financial Management) Regulations 1996, sections: 70, 72, 73 and 74. Rates and Charges (Rebates and Deferments) Act 1992. Civil Judgements Enforcement Act 2004

Related policies, procedures and supporting documentation	Financial hardship guidelines	

PRELIMINARY

INTRODUCTION

Residents of the City of Vincent (City) have a shared obligation to contribute equitably to our community and to funding the delivery of services. The City will take all appropriate and reasonable action to recover outstanding rates, debts and service charges in accordance with relevant legislation and legal requirements.

The City also recognises that residents' financial circumstances may change from time to time and some may experience financial hardship, the City has Financial Hardship provisions in place to support residents during these times.

The City will ensure that its debt collection procedures for outstanding rates, debts and service charges are undertaken in a fair, equitable and consistent manner and have regard to individuals' circumstances.

PURPOSE

The purpose of this policy is to outline the City of Vincent's process for efficient and effective collection of outstanding rates and services charges.

Page | 1 of 6

To establish the governance principles and guidelines for the fair, timely and efficient collection of outstanding debts, recovery of rates, service charges and the charging of interest in relation to those debts, in accordance with the provisions of the Local Government Act 1995.

SCOPE

This Policy applies to all:

- Employees of the City and agents authorised to perform debt recovery services on behalf of the ٠ City;
- Ratepayers with overdue balances;
- Sundry debtors with overdue balances.

POLICY PROVISIONS

DEFINITIONS

Rates Debtors

A rates debt is secured through a charge against the land.

Sundry Debtors

A sundry debt is an unsecured debt for services provided by the City.

Negotiated Special Payment Arrangement (SPA)

A negotiated Special Payment Arrangement is a binding arrangement between the Debtor or Ratepayer and the City, whereby the debt is progressively paid in agreed instalments over a period of time, by amounts that are mutually agreed between the two parties. The City commits not to commence debt recovery when an SPA is in place and complied with.

POLICY

Rates Debtors. 1.

The following process is to be followed for the recovery of outstanding rates and service charges:

Final/Reminder Notice - issued to all ratepayers with an outstanding balance fourteen (14) days after the due date. Ratepayers will have fourteen (14) days in which to respond.

Page | 2 of 6

Notice of Intention to Summons - issued by the City's Debt Collection Agency to rate payers who will have fourteen (14) days to pay in full or alternatively enter into a special payment arrangement with the City.

Final discretionary collection action (call, sms or email campaign) - will be the final attempt to contact the ratepayer providing a final opportunity to clear the debt before proceeding with further legal action.

General Procedure Claim (GPC) – failure to make any payment or appropriate arrangement for payment will result in the processing of a GPC. This is a court document, served by a Bailiff to initiate legal action for the collection of the unpaid debt. This action will affect the ratepayers credit rating.

When a GPC is unable to be served, or the Bailiff cannot access the property, or the property is vacant, a "skip trace" will be completed to verify the residential address of the owner. If required, a Substituted Service Claim can be filed at court to have the General Procedure Claim issued via post to the verified residential address of the owner.

Enforcement - in accordance with the Civil Judgments Enforcements Act 2004, if the ratepayer fails to acknowledge the service of the Claim, the Debt Collection Agency may be requested to issue a:

- a. Means Enquiry Summons (MES) if the owner resides in the Metropolitan area. The defendant is summoned to appear at Court to be examined for their ability to pay.
- Property Seizure & Sale Order (PSSO) over Goods will allow the Bailiff to seize goods to b. the value of the debt. Goods must be of significant value, this is a "paper seizure".
- Property Seizure & Sale Order (PSSO) over Land will authorise the Bailiff to seize and c. sell interest in the debtor's land in order to pay the outstanding debt. The property can only sell where there is sufficient equity in the property.

Seizure of Rent (Section 6.60) - when a property is leased or rented a notice will be served on the lessee requiring the lessee to pay to the City of Vincent the rent due under the lease/tenancy agreement until the amount in arrears has been fully paid.

Sale of Land (Section 6.64) - where Rates and Service Charges are outstanding for a period of three (3) years or more, the City may:

- from time to time lease the land; a.
- sell the land; b.
- have the land transferred to the City of Vincent; c.
- have the land transferred to the Crown; or d

Page | 3 of 6

sell the land as per the Local Government Act 1995 - Section 6.64. e.

2 Sundry Debts (other than Rates and Service Charges)

This policy applies to all invoices raised in respect of non-rate and service charges debtors.

It is acknowledged that the terms of payment for each invoice may vary depending on the goods or service acquired. If the invoice is not paid by the due date, the following process will commence:

Final/Reminder Notice – to be issued to the debtor alerting them to their unpaid invoice. Payment is expected within fourteen (14) days of the issue date of this Reminder Notice.

Review debt - if invoice remains unpaid, a review of the circumstances will be discussed with the relevant department to ensure that the next actions are appropriate, giving due consideration to all issues which have led to the debt being overdue and unpaid.

Final discretionary collection action - a friendly reminder by way of a phone call or email will be the last effort requesting immediate payment before proceeding with further legal action. If invoice remains unpaid after last effort, the case is forwarded to the City's debt collection agency.

Notice of Intention to Summons - issued - a Demand Letter will be sent to the debtor advising that if payment is not made within fourteen (14) days of the date of the notice, then further action may be taken to recover the debt, which could involve legal action. The debtor will be advised that any additional fees incurred in recovering the debt will be passed on to the debtor.

Other action which may be taken

The following list of actions may also be initiated against defaulting sundry debtors, who do not respond to normal requests for payment:

- a. Commencement of Court proceedings to recover the outstanding monies;
- b. Rescinding any seasonal hall/reserve booking licence;
- Refusing further hire of facilities; C.
- Ь Request "up-front" bonds for future dealings with the City, which may be used to offset against the outstanding debt;
- Offset of any City contributions owing to the personal entity against, any outstanding debt; e.
- f. Report to the Council to consider cancellation of a Lease Agreement.

Page | 4 of 6

3. Debt - Fines, Prosecutions and Infringements

Should a debtor fail to pay within the initial 28 day period, the following debt collection process will commence.

Reminder Notice - the debtor's information is collected through the Department of Transport and a reminder notice is issued allowing a further 28 days to pay.

Demand letter - a final demand is issued along with an additional late fee. The City will allow a further 28 days to pay.

Other action which may be taken - failure to pay results in the infringement being forwarded to the Fines Enforcement Registry (FER) for collection along with an additional collection fee. There are serious consequences for not paying fines and infringements in WA, including driver's licence suspension, vehicle immobilisation, vehicle licence cancellation and seizure and sale of your property.

Application for Special Payment Arrangement 4.

Persons experiencing difficulties in paying their debts by the specified date, can apply to the City to enter into a Negotiated Special Payment Arrangement.

- Applicants are required to complete a Negotiated Special Payment Arrangement form and a. provide sufficient documentation regarding their financial position to support their application.
- Where a ratepayer defaults on their arrangement, legal action will commence to collect b. the outstanding debt.

5. **Rates or Services Charges Recoverable in Court**

If a rate or service charge remains unpaid after it becomes due and payable;

- the City may recover the outstanding debt, as well as the cost of proceedings, if any, for a. that recovery, in a court of competent jurisdiction.
- b. Rates or service charges due by the same person to the City may be included in one writ, summons, or other process.

6 Interest on overdue monies

Interest may be calculated on the total outstanding debt once it has exceeded the due date. The rate of interest imposed is that as determined by the Council as prescribed in the Annual Budget and in accordance with Section 6.13 of the Local Government Act 1995.

Page | 5 of 6

Financial Hardship Provisions 7.

The City provides guidance and support to ratepayers experiencing financial hardship. You will be considered to be in financial hardship if paying your rates and service charges will affect your ability to meet your basic living needs.

The City may:

- a. Identify ratepayers in financial hardship.
- Establish a payment plan if you need flexibility with paying your rates. b.
- Waive interest and additional charges. c.
- d. Suspend debt recovery while assessing your financial hardship application if you comply with the payment plan agreed with the City.
- e. Always maintain confidential communication.
- f. Assist you to connect with financial support services provided by Federal and State Government agencies.

The City's financial hardship guidelines are reviewed annually.

8. **Complaints Process**

In the event of an Applicant being dissatisfied with the City's decision, they may request a review by the Chief Executive Officer in accordance with the Council's Policy No. 4.1.3 Customer Service Complaints.

7.6 TERMS OF REFERENCE - RECONCILIATION ACTION PLAN WORKING GROUP

Attachments: 1. DRAFT Terms of Reference - Reconciliation Action Plan Working Group J.

RECOMMENDATION:

That Council ADOPTS the Terms of Reference of the City's Reconciliation Action Plan Working Group (RAPWG) (at Attachment 1).

PURPOSE OF REPORT:

For Council to adopt the Terms of Reference for the City's Reconciliation Action Plan Working Group (RAPWG).

BACKGROUND:

At the 9 February 2010 Council Meeting (Item 9.4.7), a policy to govern advisory groups was adopted (<u>Policy</u> <u>4.2.12 – Advisory Groups</u>). This Policy formalised the City's position in respect to the advisory groups.

The key provisions of the Policy are:

- advisory groups are to facilitate community input and involvement and provide advice and support on strategic, special interest and operational activities;
- advisory groups will act in an advisory capacity only and can only consider matters referred to it by the Council;
- the meetings will be conducted in an informal matter and will occur as required;
- the Council is to appoint a Chairperson for each advisory group, who will preside at the meetings;
- the minutes of the advisory groups' meetings are to be reported to Council, any recommendations should be consistent with the City's operational and strategic planning and within the City's staff resourcing;
- any items dealt with by the advisory group will not be implemented until Council has made a decision on the item;
- the City's Code of Conduct applies to all advisory group members;
- members need to be aware of financial, proximity and impartiality conflicts of interest and declare these and remove themselves from the discussion as appropriate;
- the term of membership is usually for two years, aligning with the local government ordinary election cycle;
- if a member of an advisory group fails to attend three consecutive meetings, without an approved leave of absence, their appointment is automatically terminated; and
- the operations of each advisory group are to be reviewed every two years, or sooner as required.

At the November 2021 Council meeting, Elected Members and community representatives were appointed to the RAPWG, and meetings commenced in January 2022.

DETAILS:

Reconciliation Action Plan Working Group

The RAPWG met and agreed on the group's draft Terms of Reference on 2 May 2022.

The changes in the Terms of Reference represent the RAPWG feedback in that Aboriginal people should have the opportunity to contribute to the leadership and management of the group. The changes will also improve alignment with the City's <u>Reconciliation Action Plan 2019-2021</u>.

The main changes were:

- that community members on the group are Aboriginal or Torres Strait Islander
- to allow up to two Chairs and to encourage community representatives to act as Chair

• to reflect the policy that members cannot miss more than three consecutive meetings.

CONSULTATION/ADVERTISING:

Nil.

LEGAL/POLICY:

The membership requirements for Advisory Groups are set out in clause 10 of the City's <u>Policy 4.2.12 –</u> <u>'Advisory Groups'</u>.

Policy 4.2.12 will be reviewed over the coming year, with the following issues considered:

- selection criteria and minimum requirements for community members;
- quantitative methodology for the evaluation and selection (weighted criteria); and
- membership numbers.

RISK MANAGEMENT IMPLICATIONS

Low: It is low risk for Council to adopt the Terms of Reference.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Connected Community

We have enhanced opportunities for our community to build relationships and connections with each other and the City.

Innovative and Accountable

We are open and accountable to an engaged community.

PUBLIC HEALTH IMPLICATIONS:

This does not contribute to any public health outcomes in the City's Public Health Plan 2020-2025.

SUSTAINABILITY IMPLICATIONS:

This does not contribute to any environmental sustainability outcomes. This action/activity is environmentally neutral.

TERMS OF REFERENCE

1. AIMS

The Working Group is intended to identify issues and topics of importance of surrounding the development and implementation of Reconciliation Action Plans as adopted by the City of Vincent.

2. OBJECTIVES

The objectives of the Working Group are to provide recommendations and agree on actions to be taken by the City relating to:

- **2.1** The establishment of collaborative/consultative processes to ensure our community and staff remain engaged and focused on the importance of reconciliation.
- **2.2** The implementation of specific actions and deliverables as identified within the City of Vincent Reconciliation Action Plan in accordance with agreed timelines.
- 2.3 The development of future Reconciliation Action Plans and associated strategic documents.

3. MEMBERSHIPS

The City of Vincent will seek a diverse range of community members to ensure a broad spectrum of ideas are considered.

The maximum number of members is 13

The membership of the Working Group shall comprise the following persons with only those persons appointed under clauses 3.1 and 3.2 being eligible to vote:

3.1 Up to Three (3) Council Members

3.2 Up to Seven (7) Aboriginal and Torres Strait Islander Community Representatives

Up to seven (7) Aboriginal and Torres Strait Islander Community Representatives from any one or more of the following categories as determined by Council:

- individuals who live within the City of Vincent;
- individuals who work within the City of Vincent;
- individuals who have connection to the City of Vincent.

3.3 Up to Three (3) City Officers

The appropriate Director and Manager as determined by the Chief Executive Officer.

Other individuals, groups and organisations may be invited to attend Working Group meetings for a specific purpose from time-to-time.

Page 1 of 2

3.4 Chairperson

There should be a Chairperson or Co-Chairpersons for the Working Group.

The Group can nominate up to two (2) Aboriginal or Torres Strait Islander individuals as Co-Chairs, one Aboriginal or Torres Strait Islander individual as Chairperson, or an Aboriginal or Torres Strait Islander individual and one Councillor as Co-Chairs. If no Aboriginal or Torres Strait Islander members nominate, then the Chair will be held by a Councillor.

The roles and responsibilities of the Chairperson and Co-Chairpersons are:

- review Minutes and Agenda before being circulated to the Group;
- open meetings;
- time management during meetings, including moving items to be actioned;
- attend relevant stakeholder meetings or meetings with Elders when appropriate.

4. MEETINGS

The Working Group shall meet as required. At the first meeting the Working Group shall determine a Schedule of Meetings dates for the remainder of the years (these dates are to be included in the City's calendar of events).

A minimum of six (6) members must be present to achieve a quorum for meetings.

Members must not be absent for more than three (3) consecutive meetings as outlined in the Advisory Groups Policy unless a leave of absence has been granted and approved by the Working Group.

5. ADVISORY GROUPS

This Working Group shall operate in accordance with the City's Advisory Groups Policy.

7.7 DRAFT INNOVATE RECONCILIATION ACTION PLAN

Attachments: 1. Draft Innovate Reconciliation Action Plan 2022-2024 🗓 🛣

RECOMMENDATION:

That Council:

- 1. AUTHORISES the Chief Executive Officer to advertise the draft Innovate Reconciliation Action Plan for public comment for a period of 21 days.
- 2. NOTES that the draft Innovate Reconciliation Action Plan is subject to endorsement by Reconciliation Australia.
- 3. NOTES that the draft Innovate Reconciliation Action Plan will be subject to further formatting and styling, as determined by the Chief Executive Officer, prior to publication.
- 4. NOTES that a further Report will be submitted to Council at the conclusion of the public comment period in regard to any written submission received.

PURPOSE OF REPORT:

To receive the draft Innovate Reconciliation Action Plan 2022-2024 **at Attachment 1** and authorises advertising for public comment, prior to Council's consideration and adoption.

BACKGROUND:

The draft Innovate Reconciliation Action Plan 2022-2024 is the third Reconciliation Action Plan (RAP) developed by the City of Vincent.

There are four types of RAP, determined by Reconciliation Australia, to reflect the stages of reconciliation progress, being Reflect, Innovate, Stretch and Elevate. The City of Vincent began its reconciliation journey in 2017 with a Reflect RAP and progressed to an Innovate RAP in 2019.

Through action plans focused on building relationships, respect and opportunities with Aboriginal and Torres Strait Islander peoples the City has successfully connected with Aboriginal people and businesses to incorporate Noongar culture and tradition into our workplace and communities.

Throughout our previous two RAPs, the City has strengthened its relationship with the local Noongar Elders, community and celebrated Noongar culture and tradition through numerous events, activities and workshops. Inwardly Administration has created a more empathetic and culturally sensitive workplace and has increased our procurement from Aboriginal businesses.

The development of this RAP has included consultation with Reconciliation Australia, and been designed in partnership with the RAP Working Group (RAPWG), internal staff, stakeholder groups and Aboriginal Elders.

DETAILS:

A RAP includes actions under three main themes – Relationships, Respect and Opportunities.

To ensure RAPs are consistent Australia wide, organisations are provided with a template and a selection of actions that match the stage of RAP they are on and encouraged to expand on these actions to reflect their local community.

There are 80 actions in the draft Innovate RAP.

There has been a lengthy consultation process for this draft RAP, primarily with the City's RAPWG, Internal RAP Working Group, Reconciliation Australia and an Elders Group called the Bridyas.

The City's current RAPWG includes Cr Loden, Cr Hallett and Cr Worner, four Aboriginal community representatives and officers from the Community & Business Services Directorate.

An Elders Group called the Bridyas (bosses) has been established to help guide the development of the draft RAP and to continue to provide high level guidance on matters concerning Aboriginal people, the group includes several Elders who also sit on the City of Perth Elders Group.

Reconciliation Australia is an independent not-for-profit organisation. They are the lead body on reconciliation in Australia and support hundreds of organisations to participate in the RAP program, and importantly, must formally review and endorse the RAP prior to implementation.

DISCUSSION POINTS:

Some key actions of the Draft RAP that expand on our previous two plans include:

- working in partnership with other organisations to address homelessness
- work collaboratively with neighbouring local governments, acknowledging our boundaries have little meaning to Aboriginal people
- provide opportunities for Elders and Aboriginal people to participate in truth telling about Aboriginal and Torres Strait Islander peoples experiences
- host regular events or workshops throughout the year or in line with the Noongar Six Seasons to promote cultural awareness
- change the names of the City of Vincent meeting rooms to align with Noongar language and incorporate Noongar artwork
- revive traditional names of parks and reserves
- explore Aboriginal names for unnamed places or laneways.
- develop a framework for a heritage trail of our significant sites
- commission a significant Noongar artwork in a prominent City location
- develop and implement an Aboriginal and Torres Strait Islander recruitment, retention and professional development strategy
- meet an employment target of 3% of staff who identify as Aboriginal or Torres Strait Islander
- develop and implement a strategy to achieve 3% procurement from Aboriginal and Torres Strait Islander owner businesses.

CONSULTATION/ADVERTISING:

There has been a collaborative approach to the design of the Draft RAP. The main contributors to this RAP have been firstly the City's RAPWG and then an Elders Group called the Bridyas.

Development of the second Innovate RAP commenced in March 2021 with a RAP Working Group Workshop facilitated by Kambarang Consulting. This enabled the Working Group to review reconciliation activities and outcomes through the last Innovate RAP, and identify what additional actions will ensure Noongar culture and tradition is further embedded within the Vincent community. The recommendations from the workshop were included in a draft RAP.

The RAPWG also advocated to ensure that Elders are voices are included and Elders have more involvement in our RAP than previously versions, as they are the appropriate people who can speak on behalf of the local Aboriginal community.

There were three meetings held with the Bridyas Elders group, facilitated by Kambarang Consulting between February - April 2022 to codesign the Draft RAP.

Reconciliation Australia have also provided advice and guidance in the creation of this RAP and will be sent this draft for conditional approval.

It is proposed that the draft Innovate RAP be released for public comment for a period of 21 days, including discussions with community members at our planned NAIDOC Week activities that will run in early July.

Comments on the draft RAP will be presented to Council when submitted for final endorsement and Administration will also seek final endorsement from the Bridyas Elders and Reconciliation Australia.

LEGAL/POLICY:

There is no legal requirement to have a Reconciliation Action Plan.

RISK MANAGEMENT IMPLICATIONS

Low: It is low risk for Council to establish a Reconciliation Action Plan.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Connected Community

We recognise, engage and partner with the Whadjuk Noongar people and culture.

SUSTAINABILITY IMPLICATIONS:

This is in keeping with the following key sustainability outcomes of the *City's Sustainable Environment Strategy* 2019-2024.

This does not contribute to any environmental sustainability outcomes. This action/activity is environmentally neutral.

PUBLIC HEALTH IMPLICATIONS:

This is in keeping with the following priority health outcomes of the City's Public Health Plan 2020-2025:

This does not contribute to any public health outcomes in the City's Public Health Plan 2020-2025.

FINANCIAL/BUDGET IMPLICATIONS:

The various actions and deliverables within the draft Innovate RAP have been included within the draft 2022/23 operating budget, and will also need to be considered within subsequent financial year budgets

COMMENTS:

The City of Vincent's second Innovate RAP continues our commitment to reconciliation, understanding and respect for Aboriginal and Torres Strait Islander peoples with a specific focus on building relationships with Noongar Elders, business and the local community as well as further commitment to Aboriginal procurement and employment.

The commitments within this RAP will allow the City to gain an even deeper understanding of our sphere of influence and achieve our unique vision for reconciliation. Successful implementation of the actions and deliverables within the Innovate RAP will directly inform future progression to a 'Stretch' RAP.

Acknowledgement Of Country

The City of Vincent acknowledges the Traditional Owners of the land, the Whadjuk people of the Noongar nation and pay our respects to Elders past and present.

We recognise the unique and incomparable contribution the Whadjuk people have made and continue to make to our culture and in our community. We will continue to seek the input of the Traditional Owners.

The land on which we live, meet and thrive as a community always was and always will be Noongar land.

Noongar people are the Traditional Owners of the South West of Western Australia. While Noongar is identified as a single language there are variations in both pronunciation and spelling – Noongar, Nyungar, Nyuongar, Nyuongah, Nyungah, Yungar and Noonga. The City of Vincent uses 'Noongar' which is reflected throughout this document except when specifically referring to an external organisation that utilises alternative spelling.

Warning: Aboriginal and Torres Strait Islander readers are advised that this document may contain references to, or images of, people who are now deceased.

Message from the City of Vincent Bridyas

Mayor's Message

Emma Cole Mayor CEO's MESSAGE

David MacLennan CEO

MESSAGE FROM RECONCILIATION AUSTRALIA CEO KAREN MUNDINE

Reconciliation Australia commends City of Vincent on the formal endorsement of its second Innovate Reconciliation Action Plan (RAP).

Since 2006, RAPs have provided a framework for organisations to leverage their structures and diverse spheres of influence to support the national reconciliation movement.

With over 2.3 million people now either working or studying in an organisation with a RAP, the program's potential for impact is greater than ever. City of Vincent continues to be part of a strong network of more than 1,100 corporate, government, and not-for-profit organisations that have taken goodwill and transformed it into action.

The four RAP types — Reflect, Innovate, Stretch and Elevate — allow RAP partners to continuously strengthen reconciliation commitments and constantly strive to apply learnings in new ways.

An Innovate RAP is a crucial and rewarding period in an organisation's reconciliation journey. It is a time to build the strong foundations and relationships that ensure sustainable, thoughtful, and impactful RAP outcomes into the future.

An integral part of building these foundations is reflecting on and cataloguing the successes and challenges of previous RAPs. Learnings gained through effort and innovation are invaluable resources that City of Vincent will continuously draw upon to create RAP commitments rooted in experience and maturity.

These learnings extend to City of Vincent using the lens of reconciliation to better understand its core business, sphere of influence, and diverse community of staff and stakeholders.

The RAP program's emphasis on *relationships, respect,* and *opportunities* gives organisations a framework from which to foster connections with Aboriginal and Torres Strait Islander peoples rooted in mutual collaboration and trust.

This Innovate RAP is an opportunity for City of Vincent to strengthen these relationships, gain crucial experience, and nurture connections that will become the lifeblood of its future RAP commitments. By enabling and empowering staff to contribute to this process, City of Vincent will ensure shared and cooperative success in the long-term.

Gaining experience and reflecting on pertinent learnings will ensure the sustainability of City of Vincent's future RAPs and reconciliation initiatives, providing meaningful impact toward Australia's reconciliation journey.

Congratulations City of Vincent on your second Innovate RAP and I look forward to following your ongoing reconciliation journey.

Karen Mundine Chief Executive Officer Reconciliation Australia

Innovate | City of Vincent Reconciliation Action Plan

Our vision for reconciliation

To stand side by side as one community.

Our Journey

The City of Vincent is located on the lands of the Whadjuk people of the Noongar nation, and many of the places and waterways in Vincent hold great significance to local Aboriginal people.

A community group called the Vincent Reconciliation Group formed in 2000, who advocated for reconciliation in the Vincent area.

The City of Vincent embarked on a journey of reconciliation formally in 2017 with the Reflect Reconciliation Action Plan, showing committed to taking part in organisational and community activities and initiatives to ensure greater reconciliation between Aboriginal and non-Aboriginal people.

We acknowledge the great contribution that Aboriginal and Torres Strait Islander peoples make to our history, culture and country, and we celebrate the strength and resilience within our local Aboriginal communities.

As an organisation, we are committed towards reaching greater reconciliation, building strong and meaningful relationships with the local Aboriginal community, attracting and retaining Aboriginal staff and supporting local Aboriginal businesses.

This RAP aims to continue to build on the meaningful relationships we have developed during the implementation of our Reflect RAP and our first Innovate RAP and continue to grow our community's awareness and appreciation of Aboriginal culture, as well as our sense of pride in our rich Noongar history and tradition.

Our business

The City of Vincent is an inner-city local government located on the land of the Whadjuk Noongar people, with access to the Derbal Yerrigan (Swan River) in East Perth. Covering over 11.3 square kilometres and encompassing North Perth, Leederville, Highgate, Mount Hawthorn and parts of East Perth, West Perth, Perth, Mount Lawley. The City has nine significant Noongar sites located within our local area, including:

- Weld Square
- Hyde Park
- East Perth Power Station
- The Derbal Yerrigan (Swan River) at Banks Reserve
- Stones Lake
- Robertson Park
- Carr Street
- Former Lake Monger Velodrome

Our City's population is made up of a diverse mix of cultures, nationalities, household and family structures, all of which contribute to our vibrant community. We aspire to celebrate as a community what makes us unique and connect with those around us to enhance our quality of life, which includes acknowledging Noongar culture and history in our events, activities, open spaces and in our day to day conversations and interactions.

The City has five different work locations and employs 435 staff, three of which identify as Aboriginal or Torres Strait Islander

Our Reconciliation Journey

Since the launch of the Reflect RAP in May 2017, the City has strengthened its relationship with the local Noongar Elders, community and celebrated Noongar culture and tradition through numerous events, activities and workshops.

We strive to create a more empathetic and culturally sensitive workplace with cultural awareness training for all staff, Acknowledgement of Country being included on all staff signatures, the Welcome to Country and Acknowledgement of Country Policy being revised and endorsed by Council, and numerous events and activities for staff to participate in cultural learning. Staff have participated in workshops that include Noongar language, Aboriginal procurement, Acknowledgement of Country and on country talks from Aboriginal representatives.

The City of Vincent's second 'Innovate' RAP continues our commitment to reconciliation, understanding and respect for Aboriginal and Torres Strait Islander peoples with a specific focus on building relationships with Noongar Elders, business and the local community.

Central to implementing our RAPs is the teaching and commitment from our RAP Working Group and recently with our Bridyas (bosses) to provide City staff with an understanding of 'doing it the right way'.

We have learnt the importance of building solid foundations for relationships, respect and opportunities and the need for ongoing engagement with Aboriginal communities. Staff and council members truly believe in our reconciliation vision and that we can achieve great things when we are walking and talking together.

Our Reconciliation Journey - Innovate RAP

July 2019 – June 2020

Makuru

(June – July)

- Kaya Wandjoo Festival at North Perth Town Hall, North Perth Lesser Hall and Multicultural Gardens during NAIDOC Week in partnership with Noongar Radio
- Rangers fleet adorned with Jade Dolman's artwork 'Boodjar Nakolak Yanginy'
- Purchase of ties and scarves with Jade Dolman's artwork 'Boodjar Nakolak Yanginy'
- The City flies Noongar Six Seasons street banners in Mount Hawthorn
- Noongar Storytime and face painting sessions with Karla Hart
- Voice, Treaty, Truth Workshop with Marissa Verma
- Involvement in the Koori Kids school competition initiative

Djilba

(August – September)

- Aboriginal Youth Tech Forum in partnership with the Noongar Chamber of Commerce with Karla Hart and Lucas Brinty. Strait Islander Children's Day with a display of Noongar Library books.
- Showcase in Pixels Competition featuring artwork created by Aranmore students and displayed at Yagan Square
- Djilba' Six Seasons workshop with Marissa Verma from Bindi Bindi Dreaming
- Purchase of artwork from Darryl Bellotti depicting Noongar Six Seasons
- Staff 'Djilba' Six Season workshop with Jason Barrow
- Sense of Place study completed by Len Collard

Kambarang

(October – November)

- Placement of nine (9) Aboriginal registered sites within the City onto intramaps
- Staff 'Kambarang' Noongar Six Season workshop with Jason Barrow
- Purchase of artwork from Maddison Alone for "Maali"
- Noongar Bush Medicine Workshop with Vivienne Hansen Boomerang throwing session at Leederville Oval with Jason Barrow
- Staff Cultural Awareness Training

Birak

(December – January)

- Kambarang Basketball Carnival at Loftus Recreation Centre
- Virtual Whadjuk workshop at Royal Park Hall

- Staff ' Birak' Six Season workshop with Jason Barrow
- Kambarang Football Carnival at Leederville Oval

- Noongar Art Workshop with Dale Tilbrook
- Reconciliation Week Street banner project
- Sponsored Noongar Radio Event at Hyde Park First Nations Welcome Many Nations

Linkages to the City of Vincent Corporate Business Plan and Strategic Community Plan

Our commitment to Reconciliation is aligned to both the City's Corporate Business Plan 2020/21 – 2023/24 and the Strategic Community Plan 2018 – 2028. These strategic documents will support the development of improved services and outcomes for our community.

Corporate Business Plan

Strategic Community Plan

The City has been guided by the Reconciliation Australia guidelines for developing a Reconciliation Action Plan. All strategies and actions within the plan have been formulated under each of the following directions from Reconciliation Australia:

1. **Relationships**; Respectful relationships between Aboriginal and Torres Strait Islander peoples and the City are the foundation of effective working relationships and leadership of reconciliation outcomes.

2. **Respect**; Promoting respect for Aboriginal culture and communities to increase the City of Vincent's capacity to embrace diversity and create stronger relationships.

3. **Opportunities**; Providing opportunities for Aboriginal people to actively participate in the social, economic and political activities within the City of Vincent.

Our Partnerships

Since the establishment of our first RAP in 2017 the City of Vincent has grown our partnerships with local Aboriginal businesses and organisations.

Evidence of these partnerships can be seen around the City with artwork by Jade Dolman displayed on our Ranger vehicles, public artworks such as the Moorditj Mural on Beaufort Street and uniforms for our customer service staff with artwork by Kevin Bynder.

The shirts worn by our customer service team can also be found on members of Noongar Radio, as our organisations share the same uniform design and proudly wear each other's logos. Noongar Radio is based in Vincent and we have been pleased to support them with festival funding to put on events that celebrate reconciliation in our community.

Our relationship with Nyoongar Outreach is a vital one that the City has invested in over many years to support Aboriginal and Torres Strait Islander peoples facing adversity, hardship and homelessness. City Rangers and Nyoongar Outreach staff have developed a close relationship over many years working together and working on that relationship has been a key aspect of every RAP the City has undertaken.

The City of Vincent has also established a partnership with Moorditj Footprints, a community led project to record the stories of people who lived in East Perth.

We are also strengthening our relationship with the Noongar Chamber of Commerce to increase our Aboriginal procurement, with a focus on supporting local businesses. Some businesses the City engages with includes a range of workshop presenters and artists, as well as consultants on Aboriginal heritage, cultural awareness and employment.

Innovate | City of Vincent Reconciliation Action Plan Attachment 1

Civic Protocols

The Aboriginal flag proudly flies outside the City of Vincent Administration Building and also at Axford Park in Mount Hawthorn.

In 2018 Council approved changes to the 2010 Policy related to Welcome to Country and Acknowledgment of Country. The Policy known as 'Recognition of Noongar Boodjar, Culture and History through Welcome to Country and Acknowledgement of Country' incorporates Noongar language, ensures that there is a Welcome to Country at major City events, including events where the City of Vincent has provided significant sponsorship or grant funding.

In meeting with the Bridya Elders our Mayor and CEO are present in meetings to reflect the respect we have towards Elders in our community.

Uluru Statement from the Heart

The City of Vincent wholeheartedly supports the Uluru Statement from the Heart adopted in 2017. This was officially endorsed by Council in 2020. We believe recognition of this statement is a national priority. The City has independently undertaken the following actions in support of this statement.

- 1. acknowledging Aboriginal and Torres Strait Islander Peoples as the Traditional Owners of this country and pay respect to their ongoing spiritual and cultural connections;
- 2. recognising the need for constitutional change that goes beyond the symbolic, and gives breath to the benefits that a treaty offers all Australians as we move towards a reconciled Australia;
- 3. endorsing the Mayor submitting a letter to the Prime Minister and key Federal Parliamentarians expressing Council's support for the Uluru Statement from the Heart; and
- 4. requesting that there is a focus on community engagement and awareness surrounding the Uluru Statement from the Heart as part of the annual NAIDOC and Reconcitation Week Events

7.8 ADVERTISING OF NEW POLICY - COMMUNICATIONS AND SOCIAL MEDIA POLICY

Attachments:

- 1. Attachment 1 Communications and Social Media Policy 🗓 📓
 - 2. Attachment 2 Social Media Protocol 4.1.20 🗓 🔛
 - 3. Attachment 3 Media Policy 4.1.25 🗓 🛣

RECOMMENDATION

That Council APPROVES the Communications and Social Media Policy, at Attachment 1, for the purpose of community consultation, which is proposed to replace the Social Media Protocol 4.1.20 at Attachment 2 and Media Policy 4.1.25 at Attachment 3.

PURPOSE OF REPORT:

For Council to approve, for the purpose of community consultation, the new Communications and Social Media Policy as detailed at **Attachment 1**.

BACKGROUND:

The requirement of provisions outlined in clause 1.3 of the <u>Policy Development and Review Policy</u> were presented to Council Members though the monthly Policy Paper in January 2022.

Feedback was received from Council Members at the 19 April Workshop and this feedback was incorporated into the draft proposed policy.

Administration proposes two existing policies; Social Media Protocol 4.1.20 at **Attachment 2** and Media Policy 4.1.25 at **Attachment 3**, be replaced one policy that has been drafted in line with a WALGA policy template for Communications and Social Media at **Attachment 1**.

DETAILS:

The proposed new policy has been drafted to closely follow the WALGA policy template. The WALGA template aligns the roles and responsibilities for the Mayor, Council Members and City employees for communications, media relations and social media to relevant legislation and regulations.

Only minor changes to the template have been made to:

- update language to suit our style guide,
- personalise the policy template to reflect City of Vincent communication channels and current practice, and
- to reiterate a desire to make our communications accessible and easy to understand.

The proposed new policy expands on the existing Social Media Protocol and Media Policy to better reflect contemporary practice for Local Government communications, media and social media while removing procedural information not suited to a documented policy position.

CONSULTATION/ADVERTISING:

In accordance with the City's <u>Community and Stakeholder Engagement Policy</u>, community consultation of all new and significantly amended policies must be provided for a period exceeding 21 days in the following ways:

- notice published on the City's website;
- notice posted to the City's social media;
- notice published in the local newspapers;
- notice exhibited on the notice board at the City's Administration and Library and Local History Centre.

Public notice of this proposed new policy will be provided from early June 2022.

LEGAL/POLICY:

Section 2.7(2)(b) of the Local Government Act 1995 provides Council with the power to determine policies.

The City's <u>Policy Development and Review Policy</u> sets out the process for the development and review of the City's policy documents.

RISK MANAGEMENT IMPLICATIONS

Low: It is low risk for Council to undertake community consultation of the proposed new policy.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's Strategic Community Plan 2018-2028:

Connected Community

We have enhanced opportunities for our community to build relationships and connections with each other and the City.

Innovative and Accountable

Our community is aware of what we are doing and how we are meeting our goals.

SUSTAINABILITY IMPLICATIONS:

This is in keeping with the following key sustainability outcomes of the *City's Sustainable Environment Strategy 2019-2024.*

This does not contribute to any environmental sustainability outcomes. This action/activity is environmentally neutral.

PUBLIC HEALTH IMPLICATIONS:

This is in keeping with the following priority health outcomes of the City's Public Health Plan 2020-2025:

This does not contribute to any public health outcomes in the City's Public Health Plan 2020-2025.

FINANCIAL/BUDGET IMPLICATIONS:

Nil

Legislation / local law requirements	Local Government Act 1995 State Records Act 2000 Local Government (Model Code of Conduct) Regulations 2021
Relevant delegations	
Related policies, procedures and supporting documentation	Code of Conduct for Council Members, Committee Members and Candidates. City of Vincent Code of Conduct: Employees.

PRELIMINARY

PURPOSE

The purpose of this policy is to outline the City of Vincent approach to official communications and social media.

OBJECTIVE

This policy details legislative obligations and establishes protocols for the City of Vincent's official communications with our community, to ensure the City is professionally and accurately represented.

SCOPE

This policy applies to:

- · communications initiated or responded to by the City of Vincent with our community; and
- Council Members when making comment in either their City of Vincent role or in a personal capacity about matters relevant to the City of Vincent.

Page | 1 of 7

CITY OF VINCENT

COMMUNICATIONS & SOCIAL MEDIA POLICY

POLICY PROVISIONS

DEFINITIONS

Act means the Local Government Act 1995.

Code of Conduct means the City of Vincent Code of Conduct: Employees and/or the Code of Conduct for Council Members, Committee Members and Candidates.

Council means the Council of the City of Vincent.

Council Member means a person who is currently serving a term of office as an elected member of the Council in accordance with the Act.

Employee means a person employed by the City of Vincent, including contractors engaged under a contract of service.

Media means a media or news organisation including print, broadcast or online.

Official communications mean communication that has been prepared to share information via broad communication channels which may include website, social media, newsletters, advertising or media release.

Social media means a social networking channel that enables users to create and share information.

Website means a website managed by the City including sites to promote a particular service or function such as community consultation, the Library and Local History Centre and Beatty Park Leisure Centre.

POLICY

1. Official Communications

The purposes of the City of Vincent's official communications include:

- Sharing information required by law to be publicly available.
- Sharing information that is of interest and benefit to the community.
- Promoting City events and services.
- Promoting Public Notices and community consultation / engagement opportunities.
- Answering questions and responding to requests for information relevant to the role of the City.
- Receiving and responding to community feedback, ideas, comments, compliments and complaints.

The City's official communications will be consistent with relevant legislation, policies, standards and the positions adopted by the Council. Our communications will always be simple to understand, respectful and professional.

Page | 2 of 7

The City will use a combination of different communication modes to suit the type of information to be communicated and the requirements of the community or specific audience, including:

- websites
- advertising and promotional materials
- media releases prepared for the Mayor, to promote specific City of Vincent positions
- social media
- community newsletters including email newsletters, and
- letter drops and other modes of communications undertaken by Administration at the discretion of the CEO.

2. Speaking on behalf of the City of Vincent

The Mayor is the official spokesperson for the City of Vincent, representing the Local Government in official communications, including; speeches, comment, print, electronic and social media.

Where the Mayor is unavailable, the Deputy Mayor may act as the spokesperson.

The CEO may speak on behalf of the City of Vincent, where authorised to do so by the Mayor.

The provisions of the *Local Government Act 1995* essentially direct that only the Mayor, or the CEO if authorised, may speak on behalf of the Local Government. It is respectful and courteous to the office of Mayor to refrain from commenting publicly, particularly on recent decisions or contemporary issues, until such time as the Mayor has had opportunity to speak on behalf of the City of Vincent.

Communications by Council Members and employees, whether undertaken in an authorised official capacity or as a personal communication, must not:

- bring the City of Vincent into disrepute,
- compromise the person's effectiveness in their role with the City,
- breach the City's Code of Conduct,
- imply the City's endorsement of personal views,
- imply the Council Member or employee is speaking on behalf of the City, unless authorised to do so, or
- disclose, without authorisation, confidential information.

Social media accounts or unsecured website forums must not be used to transact meetings which relate to the official business of the City of Vincent.

Page | 3 of 7

CITY OF VINCENT

Council member communications must comply with the Code of Conduct for Council Members, Committee Members and Candidates and the Local Government (Model Code of Conduct) Regulations 2021.

3. Responding to Media Enquiries

All enquiries from the media for an official City of Vincent comment, whether made to an individual Council Member or Employee, must be directed to the CEO or a person authorised by the CEO.

Information will be coordinated to support the Mayor or CEO (where authorised) to make an official response on behalf of the City of Vincent.

Council Members may make comments to the media in a personal capacity - refer to clause 7.1 below.

4. Website

The City of Vincent will maintain an official website, as our community's online resource to access to the City's official communications.

5. Social Media

The City of Vincent uses Social Media for information sharing and to provide responsive feedback to our community. Social Media will not however, be used by the City to communicate or respond to matters that are complex or relate to a person's or entity's private affairs.

The City of Vincent maintains the following Social Media accounts across its business which may include accounts for the City, Beatty Park and the Library and Local History Centre:

- Social networks, including Facebook and LinkedIn,
- Media sharing networks, including Instagram,
- YouTube and Podcasts,
- Apps (applications), including Snap Send Solve and Facebook Messenger.

The City of Vincent may also post and contribute to Social Media hosted by others, so as to ensure that the City's strategic objectives are appropriately represented and promoted.

The City actively seeks ideas, questions and feedback from our community however, we expect participants to behave in a respectful manner. The City of Vincent will moderate its Social Media accounts to address and where necessary delete content deemed to be:

- offensive, abusive, defamatory, objectionable, inaccurate, false or misleading,
- promotional, soliciting or commercial in nature,
- unlawful or incites others to break the law,
- · information which may compromise individual or community safety or security,

Page | 4 of 7

- repetitive material copied and pasted or duplicated,
- content that promotes or opposes any person campaigning for election to the Council, appointment to official office, or any ballot,
- content that violates intellectual property rights or the legal ownership of interests or another party, and
- any other inappropriate content or comments at the discretion of the City.

Where a third party contributor to a City of Vincent's social media account is identified as posting content which is deleted is accordance with the above, the City may at its complete discretion block that contributor for a specific period of time or permanently.

5.1 City Administered Social Media Accounts on behalf of Official Spokesperson

If requested in writing by the Mayor to the CEO, the City of Vincent will administer social media accounts to assist the Mayor in fulfilling their role under section 2.8 of the Local Government Act, to speak on behalf of the Local Government. The content of these accounts will be administered and moderated in accordance with this policy.

The Mayor may use personal social media accounts to fulfil their role under section 2.8 of the Local Government Act, to speak on behalf of the Local Government, in accordance with this policy and the Code of Conduct.

5.2 Use of Social Media in Emergency Management and Response

The City of Vincent will use the following channels to communicate and advise our community regarding Emergency Management:

- social media
- website
- advertising
- media releases or media statements
- community newsletters including email newsletters,
- SMS messaging, and
- letter drops and other modes of communications at the discretion of the CEO.

6. Record Keeping and Freedom of Information

Official communications undertaken on behalf of the City of Vincent, including on the City's Social Media accounts and third party social media accounts must be created and retained as local government records in accordance with the City's Record Keeping Plan and the *State Records Act 2000*. These records are also subject to the *Freedom of Information Act 1992*.

Page | 5 of 7

Council Member communications that relate to their role as a Council Member are subject to the requirements of the City's Record Keeping Plan and the *State Records Act 2000*. Council Members are responsible for transferring these records to administration. Council Member records are also subject to the *Freedom of Information Act 1992*.

7. Personal Communications

Personal communications and statements made privately; in conversation, written, recorded, emailed, texted or posted in personal social media, have the potential to be made public, whether intended or not.

7.1 Council Member Statements on City matters

A Council Member may choose to make a personal statement publicly on a matter related to the business of the City of Vincent.

Any public statement made by a Council Member, whether made in a personal capacity or in their Local Government representative capacity, must:

- clearly state that the comment or content is a personal view only, which does not necessarily represent the views of City of Vincent,
- be made with reasonable care and diligence,
- be lawful, including avoiding contravention of; copyright, defamation, discrimination or harassment laws,
- be factually correct, avoid damage to the reputation of the local government,
- not reflect adversely on a decision of the Council
- not reflect adversely on the character or actions of another Council Member or employee
- maintain a respectful and positive tone and not use offensive or objectionable expressions in reference to any Council Member, employee or community member.

A Council Member who is approached by the media for a personal statement may request the assistance of the CEO.

Comments which become public and which breach this policy, the Code of Conduct or the *Local Government (Model Code of Conduct) Regulations 2021*, may constitute a minor breach of the *Local Government Act 1995* and may be referred for investigation.

On the basis that personal or private communications may be shared or become public at some point in the future, Council Members should ensure that their personal or private communications do not breach the requirements of this policy, the Code of Conduct and the *Local Government (Model Code of Conduct) Regulations 2021.*

POLICY NO: 4.1.20

SOCIAL MEDIA

OBJECTIVE

The purpose of this Policy is to provide guidance for the City of Vincent to engage and manage social media (SM) in its communication activities with the community.

POLICY STATEMENT

1. SCOPE

- 1.1 This Policy is designed to provide a framework for the Council to use social media to facilitate collaboration and sharing between the City, Council Members, Employees, ratepayers and the community.
- 1.2 This Policy applies to all City Employees and Council Members.
- 1.3 The requirements of this Policy apply to all uses of social networking applications, which are applied to any City of Vincent related purpose and regardless of whether the applications are hosted corporately or not. They must also be considered where City representatives are contributing in an official capacity to social networking applications provided by external organisations.

2. BECOMING AN AUTHORISED CONTRIBUTOR

- 2.1 Before engaging in social media *as a representative of the City*, Employees must become authorised to comment.
- 2.2 To become authorised to comment in an official capacity, an Employee will need to gain approval from the Chief Executive Officer.
- 2.3 Once you have been authorised, you will be referred to as an 'Authorised Contributor' (see 'Definitions' below).

3. CEO, MAYOR AND COUNCILLORS COMMENTS

- 3.1 The CEO and Mayor are not required to obtain authorisation to contribute to the City's page though they must follow the City's Code of Conduct and Rules of Engagement below.
- 3.2 Councillors do not have to obtain authorisation to contribute to the City's page though contributions are not encouraged and they can only "comment", "like" or "share" existing content. Councillors cannot post any new content onto the City's page.
- 3.3 Councillors must also follow the City's Code of Conduct and Rules of Engagement below, except for 5.3 relating to employees.
- 3.4 Councillors will only be permitted to "comment", "like" or "share" providing they disclose that they are a Councillor, and the views expressed are their own.
- 3.5 Councillors shall not post any material on the Social Media Platform concerning a Council Decision unless;
 - 3.5.1 The City's Mayor has released the information on the Social Media Platform or to the Media and Public; or
 - 3.5.2 The Official Minutes have been made public.
- 3.6 The CEO, Mayor and Councillors will use their own personal profiles to contribute to the City's SM platforms.

G:CEO\CEOS Section\Executive Assistant\Policy Manual\Amendments - Drafts - New\Policies for review - OMC 6 November 2012\4 1 20 Social Media Policy and Gudelines.docx Page 1 of 10

4. CONTRIBUTING TO OUR PAGE BY STAFF

- 4.1 No staff member may post on the City's page from their own personal SM account, including comments/share/like/re-tweet (and so on), unless approved by the Chief Executive Officer.
- 4.2 However, as it is 100% innocuous, a staff member is welcome to 'like' the City of Vincent page and also 'like' any post that an Authorised Contributor adds to our page.

5. RULES OF ENGAGEMENT

- 5.1 Once authorised to comment as a City representative, all 'Authorised Contributors' must:
 - 5.1.1 Disclose they are an Employee of the City in all cases (this is a given if you are posting using the City's account).
 - 5.1.2 Disclose and comment only on information classified as public domain information.
 - 5.1.3 Post only factual information.
 - 5.1.4 Ensure that all content published is accurate and not misleading and complies with all relevant City of Vincent Policies, including the City's Media Policy and Code of Conduct.
 - 5.1.5 Ensure comments are respectful of the community in which you are interacting online.
 - 5.1.6 Adhere to the Terms of Use of the relevant social media platform/website, as well as copyright, privacy, defamation, contempt of court, discrimination, harassment and other applicable laws.
- 5.2 If a person is authorised to comment, they must not:
 - 5.2.1 Post/respond to material or allow material to stay 'live' on our page that you know or could reasonable be expected to know is:

٠

•

hateful;

racist:

sexist;

- offensive;
- obscene;
- defamatory;
- threatening;
- harassing;
- bullying;
 - unying,

discriminatory;

order; oris otherwise unlawful.

· constitutes a contempt of court;

breaches a Court suppression

• infringes copyright;

- 5.2.2 Use or disclose any confidential or secure information.
- 5.2.3 Make any comment or post any material that might otherwise cause damage to the City's reputation or bring it into disrepute.

G:\CEO\CEOs Section\Executive Assistant\Policy Manual\Amendments - Drafts - New\Policies for review - OMC 6 November 2012\4 1 20 Social Media
Policy and Gudelines.docx Page 2 of 10

public

- 5.3 Employees must ensure that the privacy and confidentiality of information acquired at work is protected at all times and treated in accordance with relevant laws and policies. The potential scope and ramifications of a breach of privacy or confidentiality when using social media are severe.
- 5.4 City of Vincent social networking content and comments containing any of the following forms of content shall not be allowed:
 - 5.4.1 Comments not topically related to the particular site or blog article being commented upon.
 - 5.4.2 Profane language or content.
 - 5.4.3 Content that promotes fosters or perpetuates discrimination on the basis of:
 - race creed;
 - colour;
- marital status;
 status with
- age;
- assistance;national origin;
- physical or mental disability; or

regard

to

- religion; gender;
- sexual orientation.

5.4.4 Sexual content or links to sexual content.

•

5.4.5 Solicitations of commerce.

5.4.6 Conduct or encouragement of illegal activity.

- 5.4.7 Information that may tend to compromise the safety or security of the public.
- 5.4.8 Content that violates a legal ownership interest of any other party.
- 5.5 The Australian Advertising Standards Bureau (ASB) has made a landmark ruling that Facebook is an *advertising* medium and as such therefore falls under the industry's self-regulatory code of ethics the Australian Association of National Advertiser's (AANA) Code of Ethics. Social media pages must comply with pertinent codes and laws, vetting all public posts to ensure they are (eg) not sexist, racist or factually inaccurate.

Companies can now be fined or publicly shamed for the comments that appear on their social media "brand" pages. The ASB ruled in general that Australia's advertising laws were applicable to everything on a brand's page — the Code applies to the content generated by the page creator as well as material or comments posted by users or friends.

<u>G:CEO\CEOs Section\Executive Assistant\Policy Manual\Amendments - Drafts - New\Policies for review - OMC 6 November 2012\4 1 20 Social Media Policy and Gudelines.docx</u> Page 3 of 10

6. COMPLIANCE

Depending on the circumstances, non-compliance with this Policy may constitute a breach of employment or contractual obligations, misconduct, sexual harassment, discrimination or some other contravention of the law.

Any employee who fails to comply with this Policy may face disciplinary action and, in serious cases, termination of their employment.

Council Members who fail to comply with this Policy will be removed from the Social Media Platform and may also face action under the City's Code of Conduct.

The CEO is delegated the authority to take appropriate action (including removing a person from the social media platform) if a breach occurs of the City's Social Media Policy and Guidelines.

7. DEFINITIONS

Any definitions listed below apply to this document only.

"Social Media" is content created by people using highly accessible and scalable publishing technologies. Social media is distinct from industrial media, such as newspapers, television and film. Social media comprises relatively inexpensive and accessible tools that enable anyone to publish or access information – industrial media generally requires significant resources to publish information. (Source: http://en.wikipedia.org/wiki/Social media).

Social media may include (although is not limited to):

- social networking sites (e.g. Facebook, Myspace, LinkedIn, Bebo, Yammer);
- video and photo sharing websites (e.g. Flickr, YouTube);
- blogs, including corporate blogs and personal blogs;
- blogs hosted by media outlets (e.g. 'comments' or 'your say' feature on perthnow.com.au);
- micro-blogging (e.g. Twitter);
- wikis and online collaborations (e.g. Wikipedia);
- forums, discussion boards and groups (e.g. Google groups, Whirlpool);
- vod and podcasting;
- online multiplayer gaming platforms (e.g. World of Warcraft, Second Life);
- instant messaging (including SMS); and
- geo-spatial tagging (Foursquare).

"Authorised Contributor" is a person who creates and is responsible for posted articles and information on social media sites on behalf of the City of Vincent.

"Chief Administrator" is the person responsible for the set-up, maintenance and management of all the City's SM pages and policies.

"Comment" is a response to an article or social media content.

G:CEO\CEOs Section\Executive Assistant\Policy Manual\Amendments - Drafts - New\Policies for review - OMC 6 November 2012\4 1 20 Social Media Policy and Gudelines.docx Page 4 of 10

"Blog" (an abridgment of the term web log) is a website with regular entries of commentary, descriptions of events or other material such as graphics or video.

"Public Domain" is clip art, images, text, programs etc. that is not copyrighted (i.e. a law that gives only one person the right to produce, sell or use something).

This Policy should be read in conjunction with the attached Policy Procedure and Guidelines and "Public Usage Guidelines".

POLICY PROCEDURES AND GUIDELINES FOR SOCIAL MEDIA (SM)

OBJECTIVE

The City will use the Policy and Guidelines to assist the Mayor, Councillors, Chief Executive Officer and employees in understanding the processes for the correct management of all forms of social media (SM) that are operated by the City.

The following procedures and protocols are to be followed:

The City's prime objective is to maintain positive and quality communications at all times.

Secondary objectives are:

- Reach a wide range and large number of residents and stakeholders
- Promote council offerings with a focus on positive, 'social' content including news, events, arts, festivals and initiatives that benefit the community
- Disseminate time-sensitive/emergency information
- Drive traffic to the council's website
- Correct misinformation

MANAGEMENT OF ADMINISTRATORS

- 1. Before engaging in SM as a representative of the City, Employees must become **authorised** to comment by the Chief Executive Officer you are then an 'Administrator'.
- 2. The City's Marketing and Communications Officer (MCO) is an Authorised Contributor and the Chief Administrator of all SM accounts.
- 3. MCO does not require authorisation to post, though will make all attempts to works under the guidance of the CEO and/or Mayor (where appropriate).
- 4. The City's Arts & Creativity Coordinator (ACC) is authorised by the CEO to post/respond to Community Development content only.
- All ACC posts must be authorised by Manager Community Development (MCD) before going 'live'. If MCD is unavailable, posts must be authorised by MCO who will decide if further approval is required.
- 6. If staff wish to post, content is to be emailed to MCO for uploading (or ACC for all Community Development content only).
 - The MCO, utilising media relations expertise, will ensure that:
 - a. Messages are sufficiently authorised and accurate
 - b. Responses are coordinated and posted in a timely manner
 - c. The City's voice is consistent and reflects our brand

7.

CONTRIBUTING TO OUR PAGE BY STAFF

- 1. At this stage, no staff member may post on the City's page from their own personal SM account, including comments/share/like/re-tweet (and so on).
- However, as it is 100% innocuous, a staff member is welcome to 'like' the City of Vincent page and also 'like' any post that an Authorised Contributor adds to our page.

CONTRIBUTING TO OUR PAGE BY CEO, MAYOR AND COUNCIL

- 1. All content published must be accurate and not misleading and complies with all relevant City of Vincent Policies, particularly the City's Code of Conduct and Media Policy.
- 2. The CEO, Mayor and Council Members are not required to obtain authorisation to make comments/share/like/re-tweet (and so on) on the City's page.
- The CEO may post or respond to a comment via the Chief Administrator (MCO) using an appropriate signoff.
- 4. If the Mayor and Council Members wish to participate, they will contribute using their personal profile/account.
- 5. The CEO is delegated the authority to take appropriate action (including removing a person from the Social Media Platform) if persistent breaches occur of the City's Social Media Policy and Guidelines.
- The CEO is delegated the authority to temporarily suspend a person from contributing to the SM platforms as deemed appropriate, eg: suspending Councillor's from contributing to our SM platforms once an election is called and during Council election periods.
- 7. The CEO is delegated the authority to suspend or shut any SM platform down.

MONITORING

- MCO and ACC will endeavour to check all platforms at least every 4 hours during business hours to ensure posts are moderated if necessary (removal of content that breaches our 'Public Usage Guidelines'(see below) or the AANA Code of Ethics.
- 2. All attempts should be made to address 'hot' comments (ie: pertinent or contentious questions or requests for information) within four (business) hours, or earlier if deemed necessary by CEO/MCO.
- 3. MCO and ACC will work together closely to monitor and moderate page content, informing each other of all illegal or inappropriate content.
- 4. All staff are welcome within the nominated hours to assist the MCO and ACC in monitoring the City's pages the more eyes the better.
- 5. MCO and ACC will attempt to monitor pages during evenings and weekends for breaches (even though it is understood that the City's administration does not normally operate after hours).
- 6. MCO and ACC will set up notification emails when someone has posted to our page, so they can check them after hours and respond -if necessary/crucial.

<u>G:CEO\CEOs Section\Executive Assistant\Policy Manual\Amendments - Drafts - New\Policies for review - OMC 6 November 2012\4 1 20 Social Media Policy and Gudelines.docx</u>
Page 7 of 10

RESPONDING TO POSTS

- 1. MCO will 'triage' the need to respond to posts the quality of posts will always be a trade-off between staff/information availability and (real) time.
- 2. Not all posts need to be answered though attempts should be made where possible to foster two-way communication and community engagement.
- 3. MCO is authorised to obtain information at an Officer level (just like a public enquiry) and post without approval to suit the 'real-time' aspect of SM.
- 4. All staff should be forthcoming with information and provide this to MCO in a timely, efficient manner for real-time responses.
- In keeping with the City's Media Policy, MCO will consult (where MCO deems necessary):- CEO – for administration and day-to-day matters - Mayor – for Council decisions/Council matters

DEALING WITH NEGATIVE POSTS BY USERS

- 1. Content must not be deleted simply because it is unfavourable The City must remain open and transparent.
- 2. All breaches of our 'Public Usage Guidelines' or the AANA Code of Ethics will be removed instantly, or as soon as possible.
- 3. The City's Public Usage Guidelines will be asserted and the user warned or blocked as deemed necessary by MCO.
- 4. If it is crucial that a response is required, especially for controversial or 'hot' topics, then the MCO will MCO will attempt to consult the CEO or Mayor but only if MCO deems necessary and as follows:
 - CEO for administration and day-to-day matters
 - Mayor for Council decisions/Council matters
- 5. If CEO/Mayor unavailable, queries will be referred to the most senior staff member available pertinent to the situation. (e.g. Director).
- 6. MCO will attempt to diffuse the issue by first acknowledging the comments and then responding with facts and information (versus emotion) at all times.
- 7. If the negative posts continue after a suitable response, MCO will attempt to take the conversation 'offline' by providing direct contact details (phone number, email address, etc) of the relevant person/department to speak to.
- 6. If negative posts continue to occur, MCO will not engage further but simply monitor the post for breaches.
- 7. MCO is authorised to warn the user and refer them to the 'Public Usage Guidelines' and also block the user permanently if breaches continue.
- 8. MCO will notify staff (including CEO and Mayor) if they are mentioned or directly addressed – though not all posts can be monitored/seen. If they are unavailable to respond in real-time, MCO will take the conversation offline by providing direct contact details. If the user breaches our Public Usage Guidelines/AANA Code at any time (abusive, defamatory, etc) the content will be removed immediately.
- If a crucial response is required, especially for controversial or 'hot' topics, then the MCO will refer to the above point but is authorised to respond as best they can.

G:CEO/CEOs Section/Executive Assistant/Policy Manual/Amendments - Drafts - New/Policies for review - OMC 6 November 2012/4 1 20 Social Media Policy and Gudelines.docx Page 8 of 10

MANDATORY ITEMS FOR ALL SM PLATFORMS

- 1. The City of Vincent logo.
- 2. All of the City's SM pages must clearly display the City's 'Public Usage Guidelines' (see below).
- 3. Offensive language controls and filters should be in place.
- 4. A 'disclaimer' to also be prominently displayed which states (adapted to suit SM platform):

"Welcome to Vincent's official News, Arts, Festivals and Events page! Please contact us by phone, email or post if you need a response, and ensure your posts follow our 'Public Usage Guidelines', thanks.

- 5. Appropriate 'About', 'Contact' and other details to suit the SM platform must be displayed before going live.
- 6. MCO's contact details to discuss the removal of a previous post, request a current post be removed or for any other matters related to our page or 'Public Usage Guidelines'.

RECORD KEEPING

- With regards to the Local Government record keeping and the <u>State Records</u> <u>Act 2000</u>, attempts must be made by MCO to keep records where practical of activity that has a liability element, is of public concern or has a contentious nature.
- 2. MCO will screen grab such activity and file (digitally) on the City's server. In this way, we do not have to rely on a third party (eg: facebook itself) provider (which are often overseas) to obtain records.
- 3. Not everything must be recorded as long as the City attempts to uphold the 'spirit' of the Act, then that will suffice.

City of Vincent's 'Public Usage Guidelines'

[This will be placed on all SM platforms to be clearly visible for the public and may be called something a little different to suit the platform. The below example is for facebook].

Welcome and thanks for visiting Vincent's space for inspired, cooperative and interesting community news, arts, festivals and events. We look forward to connecting with you – but we do have a few Guidelines to follow if you'd like to contribute to our facebook page.

We do encourage open discussion but facebook isn't a formal communication channel for the Council and we just can't respond to everything. So if you do need a response, then feel free to visit, call, write or email us.

When interacting with this page, we request that you:

- use the space to contribute positively
- contact us 'offline' for serious matters or for a response
- exercise common sense and courtesy
- do not post your personal contact details
- do not post advertising material or solicitations
- adhere to facebook's guidelines which can be found at: http://www.facebook.com/legal/terms

CITY OF VINCENT POLICY MANUAL CHIEF EXECUTIVE OFFICER POLICY NO: 4.1.20 SOCIAL MEDIA

All fan comments on this page are not representative of the opinions of the City of Vincent, nor do we make any warranty to their accuracy. We will make all attempts to immediately remove comments which contravene these Guidelines and the Australian Association of National Advertiser's (AANA) Code of Ethics.

Any posts or comments made on our page may be removed at any time without notice. We won't remove content simply because we don't like it – but we will act swiftly to protect the privacy and rights of any individual or group. Any comments which specifically identify or refer to individuals in a negative manner, including our employees, will be removed.

Posts may also be deleted - at our absolute discretion - if they contain:

- any discussion or promotion of behaviour that is unlawful
- inappropriate, violent, obscene, profane, hateful, derogatory, racist or sexist language, content or links
- threatening, harassing, bullying, discriminatory language, content or links
- content or links that infringe copyright
- comments that threaten or defame any person or organisation
- information that may compromise the public's safety or security
- solicitations, advertisements or endorsements; spam or nuisance posts
- discusses Local Government elections and/or candidates
- multiple successive off-topic posts by a single user or any repetitive posts
- any other inappropriate comments or content as determined by us

Please note that by 'liking' this page you acknowledge all of the above Guidelines and that you may be blocked from this page if we decide you're in breach.

To discuss the removal of a previous post, request a current post be removed or for any other matters related to these Guidelines please contact our Communications department on 08 9273 6011 or email <u>marketing@vincent.wa.gov.au</u>

Thanks for your interest, happy posting!

POLICY NO: 4.1.25

MEDIA

OBJECTIVES

To provide guidance to the Mayor, Councillors and the City's Administration for a consistent and co-ordinated approach relating to communication with the media with the objective of ensuring that the City's affairs and activities are promoted and are objectively and fully reported in the media.

POLICY STATEMENT

The media policy sets out clear, consistent protocols for all contact with news media which are to be followed by the Mayor, Councillors, Chief Executive Officer and employees of the City of Vincent and has been established to:

- Formalise the roles of the Mayor, Councillors, Chief Executive Officer and employees in communication with the media.
- Proactively represent the City in media communications.
- Ensure communication with media is consistent, in line with the City's strategic direction and aligned with the City's Communication Strategy.
- Maintain positive and quality communications with the media at all times.
- Ensure that media communication with the City is in accordance with relevant statutory provisions, City's Code of Conduct or this Policy.

The Council is committed to open and transparent procedures and to being fully accountable. It will provide the media with information about projects and initiatives, and to respond to media enquiries (where appropriate), in a timely manner.

The City aims to maximise its media exposure by:

- demonstrating that it is an open and accessible local government;
- providing accurate information (where appropriate) to the media in a timely manner; and
- building positive relationships with the media.

Page 1 of 5

Media Statements/Releases

The City's policy on the issue of media statements/releases is as follows:

- The Mayor (or in his/her absence the Deputy Mayor) and/or the Chief Executive Officer are the only persons authorised to speak on behalf of the Council/City to members of the media, unless prior approval has been granted to another person.
- All media statements/releases are to accurately reflect the Council's position and shall be in accordance with the Council's Code of Conduct – Section 8 – "Communication and Public Relations".
- Media releases are issued to appropriate media outlets to communicate the City's activities, actions, initiatives or decisions (determination of media outlets is at the discretion of the Mayor/Chief Executive Officer, in accordance with circumstance and the City's Communication Strategy).
- 4. A copy of the media statement/release is to be placed on the City's webpage as soon as is practicable after being issued. Council Members will be able to inspect and/or obtain a copy of any media statement after it has been released.
- 5. Media statements/releases must not include information considered to be electioneering or for personal promotional purposes.
- Any comments by the Mayor, Council Members or the Chief Executive Officer to the media shall be in accordance with the requirements of the City's Code of Conduct Section 8 – "Communication and Public Relations" and any legislative requirements which prevail at the time.

Guidelines and Policy Procedures

The attached Guidelines and Policy procedures are to be followed at all times.

Date Adopted:	23 January 2007
Date Amended:	May 2010
Date Reviewed:	1 February 2010, 25 May 2010
Date of Next Review:	May 2015

Page 2 of 5

GUIDELINES AND PROCEDURES FOR MEDIA POLICY NO. 4.1.25

The City will use the policy and guidelines to assist the Mayor, Councillors, Chief Executive Officer and employees in understanding the correct communication processes when handling media enquiries, identifying spokespersons for media interviews, preparing media releases and making comments/statements to the media.

The following procedures and protocols are to be followed:

- 1. Only persons authorised by the *Local Government Act* and the City's Media Policy are to provide comment to the media on behalf of the Council and/or Administration.
- Verbal and/or written media communications are to be made by the Mayor and/or Chief Executive Officer relating to Council decisions, initiatives, activities or issues.
- 3. Comments by Councillors to the media are only to be made on the basis that the media are informed by the Councillor that he/she is not speaking on behalf of the Council and the comment is qualified as being of a personal nature. Councillors are not to announce Council initiatives/decisions unless previously authorised by the Mayor.
- 4. Details of matters that occur as part of the decision-making process which are confidential are not to be disclosed.
- 5. Employees are not permitted to make any comment to the media about any Council/City matter unless prior approval has been granted by the Chief Executive Officer.
- 6. When applying these procedures and protocols, the Mayor, Councillors, Chief Executive Officer and employees are to have regard to ethical and professional behaviour and comply with the City of Vincent Code of Conduct 2010 (Section 8).

Dealing with a Media Enquiry

Enquiries are to be directed to the City's Public Relations Officer in the first instance. The Public Relations Officer will forward the enquiry to either the Mayor or Chief Executive Officer for appropriate action, who will deal with the matter as follows:

Mayor

Where appropriate, the Mayor is to respond to media enquiries related to Council decisions, initiatives or issues of a controversial nature.

Page 3 of 5

Chief Executive Officer

The Chief Executive Officer, or approved nominee, may respond to media enquiries that are administrative, operational or technical in nature, provide factual information or information on the public record.

Employees

Procedure

The following procedure is to be strictly followed by all employees in responding to media enquiries:

- 1. If approached by a media representative, an employee should direct the caller to the City's Public Relations Officer or, if unavailable, to the Chief Executive Officer. The employee should not continue the conversation further with the journalist/reporter.
- 2. However, if the enquiry is minor and/or regarding something that is a matter of public record, for example the date of the next Council Meeting, the enquiry can be answered immediately by an employee. It can also be helpful to refer some journalists/reporters to the City's website for information (*www.vincent.wa.gov.au*).
- If there is any doubt or the matter is more detailed/controversial, the employee should advise the journalist/reporter that the City's policy is for all media liaison to be directed to the City's Public Relations Officer and/or Chief Executive Officer, in the first instance.
- 4. The Chief Executive Officer will either:
 - (a) refer the matter to the Mayor;
 - (b) respond to the media enquiry; or
 - (c) nominate an appropriate spokesperson to deal with the enquiry.
 - Note: Employees specifically authorised to make comments to the media are to confine themselves to providing such information as is necessary to explain Council policy or to provide factual, explanatory or background material pertinent to the question. No personal opinion is to be expressed at any time. Requests for supporting materials, related information and drawings/photographs are to be referred to the Public Relations Officer/Chief Executive Officer and are on no account to be released without the prior approval of the Chief Executive Officer.

Page 4 of 5

Preparation and Distribution of Media Releases

- 1. Media releases are to be authorised and issued under the name of the Mayor for matters relating to Council decisions, initiatives or issues of a controversial nature.
- 2. The Chief Executive Officer, or approved nominee, may authorise media releases or provide information to the media that relates to the "day-to-day" administration or operation of the City's Administration.

The following procedure must be followed in the preparation of media releases:

- 1. The Mayor and/or the Chief Executive Officer will identify the requirement for the preparation of a media release for matters relating to Council decisions, initiatives or issues of a controversial nature.
- 2. Employees are encouraged to provide information to the Public Relations Officer relating to any event, project or activity which is newsworthy and has the potential to generate positive publicity for the City (employees should follow the internal procedure). If appropriate, a media release will be created and distributed.
- Matters relating to the Council decisions or of a controversial nature are to be drafted by the Chief Executive Officer via the Public Relations Officer and referred to the Mayor for approval, prior to being released.
- 4. If the media release is of an administrative or operational matter the Chief Executive Officer may authorise the release.
- 5. For matters related to mental health or suicide, staff to refer to the Mindframe National Media Initiative (http://www.mindframe-media.info/for-media) for more information. Staff to also refer journalists/reporters reporting on these issues to the website for more information.
- Authorised media releases will be distributed to targeted media outlets by the Public Relations Officer at an appropriate time (in accordance with circumstance and the City's Communications Strategy). Employees are not to forward copies of media releases to any party.
- 7 Copies of media releases are to be placed on the City's website at an appropriate time.

8 CHIEF EXECUTIVE OFFICER

8.1 APPOINTMENT OF THE WESTERN AUSTRALIAN LOCAL GOVERNMENT ASSOCIATION (WALGA) - CENTRAL METROPOLITAN ZONE - COUNCIL REPRESENTATIVES

Attachments: Nil

RECOMMENDATION:

That Council APPOINTS the following Elected Member to represent the City of Vincent on the Western Australian Local Government Association (WALGA) – Central Metropolitan Zone and as voting delegates/proxy delegates for WALGA Annual General Meetings for the term 22 June 2022 to the next ordinary local government election, being 21 October 2023:

Members/Voting Delegate:

1.; 1.

PURPOSE OF REPORT:

To appoint an alternative representative for the City on the Western Australian Local Government Association (WALGA) – Central Metropolitan Zone (Zone) and as voting delegate and proxy delegates for the WALGA Annual General Meetings, due to the resignation of one of the current representatives, Cr Ross loppolo.

BACKGROUND:

At the Special Council Meeting on 19 October 2021 Cr Ross loppolo and Cr Ashley Wallace were appointed as the City's representatives for the Zone. On 3 June 2022 Cr Ross loppolo tendered his resignation from this position, so an alternative representative is required.

Part of the Council's role is to represent the City on the Zone. The role of the City's delegates is to ensure the City's strategic position and policies are reflected at the Zone meetings, and report back to Council on decisions made by the Zone.

Zones have an integral role in shaping the political and strategic direction of WALGA. Not only are Zones responsible for bringing relevant local and regional issues to the State decision making table, they are a key player in developing policy and legislative initiatives for Local Government. WALGA's Constitution outlines that the functions of Zones are to:

- Elect one or more State Councillors;
- Consider the State Council agenda;
- Provide direction and feedback to their State Councillor; and
- Any other function deemed appropriate by the Zone.

Additional activities undertaken by Zones include:

- Developing and advocating on positions on regional issues affecting Local Government;
- Progressing regional Local Government initiatives;
- Identifying relevant issues for action by WALGA;
- Networking and information sharing; and
- Contributing to policy development through policy forums and other channels.

Zones provide input into the State Council's advocacy agenda by passing resolutions on items contained in the State Council agenda and by generating new agenda items for consideration by State Council.

To represent the City at WALGA's Annual General Meeting in August each year the City of Vincent is to nominate two voting delegates. It is recommended that the Zone delegates be appointed as the voting delegates accordingly.

DETAILS:

The Central Metropolitan WALGA Zone comprises Perth, Vincent, Subiaco, Nedlands, Cambridge, Claremont, Cottesloe, Peppermint Grove and Mosman Park.

Key details are listed below.

Location of Meetings:	Local Governments in the Central Metropolitan Zone on a rotation basis
Time of Meetings:	6:00pm
Meeting Occurrence:	Bi-monthly (or six weekly)
Day of Meetings:	Thursday
No. of Meetings still to be held in in 2022:	5 meetings
Responsible Liaison Officer:	Chief Executive Officer
Purpose of Appointment:	To represent the City on the Western Australian Local Government Association – Central Metropolitan Zone
Other Membership:	Representatives from Central Metropolitan Zone Councils
	Chief Executive Officer (non-voting)
Previous Council Members	Members: Cr loppolo and Cr Wallace
Member Sitting Fees:	Nil.

CONSULTATION/ADVERTISING:

Nil.

LEGAL/POLICY:

WALGA's constitution outlines the role of the Zones and state Council.

RISK MANAGEMENT IMPLICATIONS:

Low: Appointing delegates to the Zone allows the City of Vincent to participate in decision making at the regional and state level.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Innovative and Accountable

We are open and accountable to an engaged community.

SUSTAINABILITY IMPLICATIONS:

This does not contribute to any environmental sustainability outcomes. This action/activity is environmentally neutral.

PUBLIC HEALTH IMPLICATIONS:

This does not contribute to any public health outcomes in the City's Public Health Plan 2020-2025.

FINANCIAL/BUDGET IMPLICATIONS:

There are no budget implications for the City in respect to appointing members to the Zone.

8.2 PROPOSED LICENSING OF CAR BAYS FOR ELECTRIC VEHICLE CHARGING OPERATOR

Attachments: 1. Location of Proposed Site 🕁 🛣

RECOMMENDATION:

That Council

1. APPROVES a Licence to Fast Cities Australia Pty Ltd (trading as Evie Networks) for the use of the City's car parking bays at Chelmsford Road Car Park (2 Chelmsford Rd) in accordance with the following Key Terms:

1.1	Term:	5 year Initial Term, with a 5 year Further Term		
1.2	Licence area:	That part of the Land marked for 'Evie' at Chelmsford Road Car Park (2 Chelmsford Rd, Mount Lawley) – Attachment 1.		
1.3 Licence fee:		During the Initial Term (July 2022 to July 2027) a Licence Fee of \$1 per annum will be payable if demanded. For the Further Term (July 2027 to July 2032), the Licence Fee will be \$1,500 per annum (plus GST).		
1.4	Permitted use:	Constructing, maintaining and operating an electric vehicle parking and charging station.		

- 2. DELEGATES AUTHORITY to the Chief Executive Officer to consider submissions received under Section 3.58 (3) under the Local Government Act 1995 and dispose the land by way of licence.
- 3. AUTHORISES the Mayor and Chief Executive Officer to affix the common seal and execute the Licence, subject to final satisfactory negotiations being carried out by the Chief Executive Officer.

PURPOSE OF REPORT:

To consider granting a licence to Fast Cities Australia (trading as Evie Networks) for two car parking bays at Chelmsford Road Car Park (2 Chelmsford Rd, Mount Lawley), for the purpose of installing an electric vehicle charging station.

BACKGROUND:

The City's <u>Sustainable Environment Strategy 2019-2024</u> (SES) commits to facilitating investment in electric vehicle (EV) charging infrastructure, with the aim of supporting community uptake of zero emission vehicles.

The SES Implementation Plan includes actions to:

- Identify and engage with businesses seeking to invest in public electric vehicle charging infrastructure.
- Work with charge station providers to ensure any infrastructure they install is in appropriate locations.
- Identify and implement mechanisms to encourage developers to incorporate EV charging in new developments.

Over the past 12 months, the City has received multiple queries from residents and businesses regarding electric vehicle (EV) chargers. Some have requested the City considers installing public chargers at specific locations, or offered to host them. Others were individuals wanting to install private chargers on the verge next to their property. Unfortunately, Western Power regulations do not allow power from one property to service another (in this case, from private property to the verge, which is Crown land). This leaves residents without off-street parking, such as in heritage precincts and multi-unit developments, reliant on public stations to charge EVs.

Local governments own land that is ideal for the location of public EV charging stations, specifically car parks in busy town centres. The Shire of Esperance, for example, has just approved a peppercorn lease for two fast EV charging stations in the Esperance town centre.

In Vincent, the Beaufort Street Town Centre, being close to Beaufort Street, Walcott Street and late night supermarkets makes it an appealing EV charging location. Supporting the installation of the fast-charging EV station would deliver on Action 1.1 'Fast-charging electric vehicle station' of the <u>Beaufort Street Town Centre</u> <u>Place Plan</u>.

The City currently operates one public EV charging station – a 7 kilowatt charger at The Avenue Car Park, Leederville. Note that 7 kilowatt chargers (the most common type as they are affordable and easy to install) take up to 8 hours to charge from empty-to-full. Fast 50 kilowatt chargers, charge from empty-to-full in one hour. However, with the cost of purchasing and installing a fast charger being up to \$100,000, this was not considered feasible by Administration until now.

DETAILS:

The City has been offered an opportunity to join Evie Networks' project of installing a network of 158 fast EV charging stations around Australia – with 10 to be installed in Western Australia by August 2023. They have received a large grant from the Australian Renewable Energy Agency (ARENA) and have begun installing charging stations in the eastern states. If this licence is granted, the City of Vincent would be their first local government partner in Western Australia.

Evie Networks has proposed to install two fast 50 kilowatt chargers at no installation, purchase, maintenance or eventual removal cost to the City. (Estimated value over \$100,000.)

As a contribution to the project, the City would provide an initial peppercorn (and subsequent discounted) licence and the opportunity for Evie Networks to develop a market for a renewable and emerging technology.

After considering several City-owned car parks, Chelmsford Road Car Park was selected as the preferred location as it is in a town centre, easily and safely accessible to the public (24 hours a day), with amenities and businesses nearby. Market rental value of the car bays was assessed by McGees Property at \$3,600 ex GST per annum.

Administration has worked with Evie Networks for the last 12 months, reviewing the location and proposed Licence, and is supportive of the Licensee's request.

CONSULTATION/ADVERTISING:

The City would need to provide public notice of the proposed Licence. Public notice will be provided on the City's website, City noticeboards and in the newspaper, for a period of 14 days.

LEGAL/POLICY:

Section 3.58 (3a) of the *Local Government Act 1995 (WA)* (Act) provides that a local government must give local public notice:

(i) describing the property concerned; and

(ii) giving details of the proposed disposition; and

(iii) inviting submissions to be made to the local government before a date to be specified in the notice, being a date not less than 2 weeks after the notice is first given.

And (3b), consider any submissions made by the date specified in the notice.

RISK MANAGEMENT IMPLICATIONS

Low: It is low risk for Council to enter into a licence for part of the car park which addresses the risk to the City in respect to indemnity, liability, maintenance and removal.

STRATEGIC IMPLICATIONS:

This is in keeping with the City's *Strategic Community Plan 2018-2028*:

Enhanced Environment

We have improved resource efficiency and waste management.

Accessible City

We have embraced emerging transport technologies.

Innovative and Accountable

Our resources and assets are planned and managed in an efficient and sustainable manner.

SUSTAINABILITY IMPLICATIONS:

This is in keeping with the following key sustainability outcomes of the *City's Sustainable Environment Strategy 2019-2024.*

Sustainable Transport

PUBLIC HEALTH IMPLICATIONS:

This is in keeping with the following priority health outcomes of the City's Public Health Plan 2020-2025:

Reduced exposure to environmental health risks

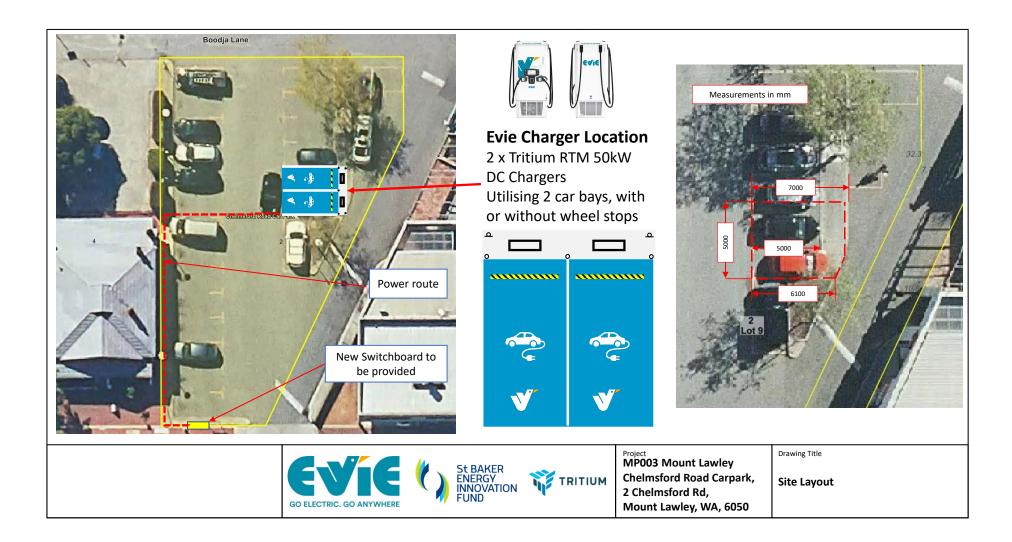

FINANCIAL/BUDGET IMPLICATIONS:

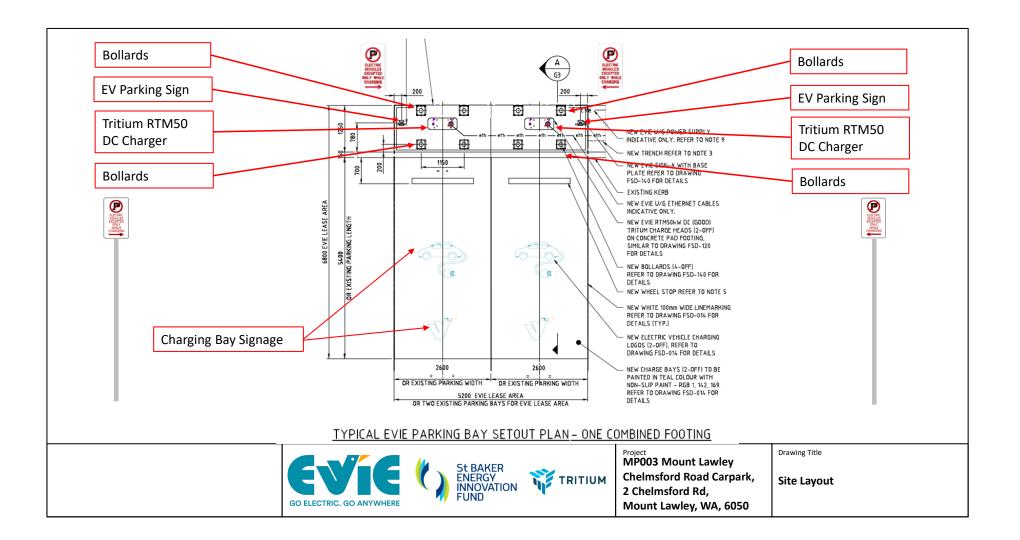

An annual licence fee of \$1 will be payable if demanded for the first term of the Licence, and \$1,500 plus GST for the Further Term.

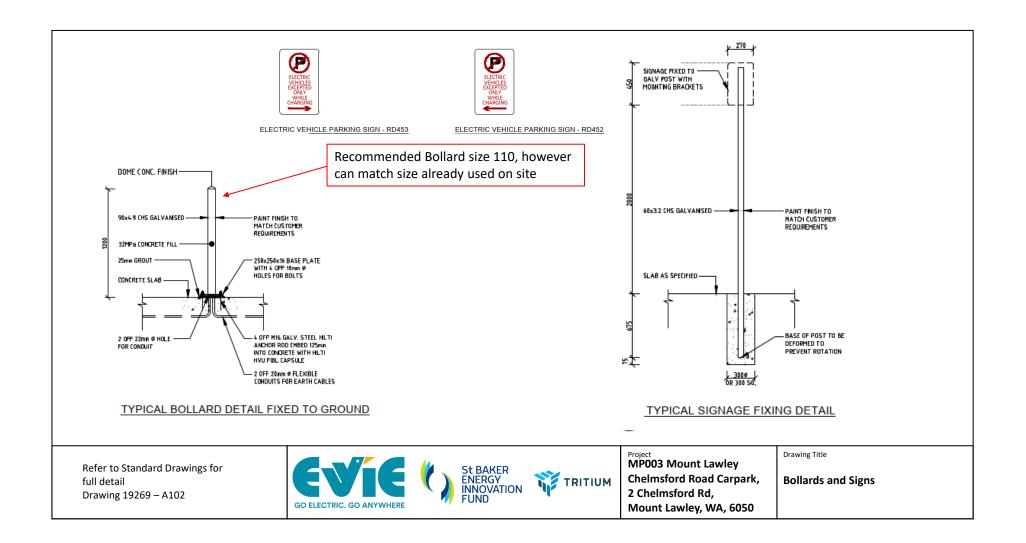

The cost of providing public notice of the proposed land disposal is included as an operational expense in the adopted annual budget.

The cost of seeking external legal advice to review the draft license agreement will be shared by Evie Networks (who are contributing \$1,500) and the City as part of the operating budget.

9.1 CHIEF EXECUTIVE OFFICER REPORTS

9.1	FINANCIAL STATEMENTS FOR THE MONTH ENDED 31 MARCH 2022 AND 30 APRIL 2022
Reference:	FIN/5-09
Appendix(s):	Appendix No. 1 Appendix No. 2 Appendix No. 3
Date:	15 MAY 2022
Responsible Officer:	DIRECTOR CORPORATE SERVICES

SUMMARY

The purpose of this report is to provide financial reporting in line with statutory requirements which provides useful information to stakeholders of the Council.

BACKGROUND

Reporting requirements are defined by Financial Management Regulations 34 of the Local Government (Financial Management) Regulations 1996.

The financial statements presented for each month consist of:

- Operating Statement by Nature Combined
- Operating Statement by Function
- Statement of Financial Activity
- Statement of Reserves
- Statement of Investing Activities
- Tonnage Report

DETAIL

The Financial Statements for the month ended 31 March 2022 and 30 April 2022 are attached at **Appendix No. 1 and 2** to this Item. The Tonnage Report for the 10 months to 30 April 2022 is attached at **Appendix No. 3**.

The complete suite of Financial Statements which includes the Operating Statements, Statement of Financial Position, Statement of Financial Activity and other related information are reported on a monthly basis.

The estimates for Provisions for Amortisation of Cell Development, Capping and Post Closure expenditure are based on the estimated rates per tonne calculated with reference to estimated excavation cost of various stages of the landfill and the life of the landfill. An adjustment is made (if necessary) at the end of the year based on actual tonnages on a survey carried out to assess the "air space" remaining and other relevant information.

Page 7

Summary of results for the year to date period ended 30 April 2022

	Actual	Budget	Variance
	t	t	t
Tonnes – Members	162,362	158,565	3,797
Tonnes – Others	27,792	26,346	1,446
TOTAL TONNES	190,154	184,911	5,243
	\$	\$	\$
Revenue – Members	27,402,577	26,380,294	1,022,283
Revenue – Other	9,270,998	8,071,031	1,199,967
TOTAL REVENUE	36,673,575	34,451,325	2,222,250
Expenses	36,479,034	35,635,040	(843,994)
Profit on sale of assets	9,846	12,308	(2,462)
Loss on sale of assets	15,879	-	(15,879)
Impairment of assets	-	-	-
NET SURPLUS/(DEFICIT)	188,509	(1,171,407)	1,359,916

Members

Members tonnages for the financial period ended 30 April 2022 were 3,797 tonnes in excess of budget.

<u>RRF</u>

The Resource Recovery Facility residue tonnes delivered 15,938 tonnes in total to Tamala Park year to date as they have now completed the empty, clean and make safe (ECMS) of the facility.

Trade & Casuals

The Casual and Trade tonnages are 1,446 tonnes higher than forecast for the financial year to date. 13,269 tonnes delivered through the discounted rate waste tender.

Overall tonnages for the financial period ended 30 April 2022 were 5,243 tonnes more than budgeted.

The net result variance against budget of \$1,359,916 is mainly attributable to increased tonnages above budgeted forecast.

Page 8

VOTING REQUIREMENT Simple Majority

RESPONSIBLE OFFICER RECOMMENDATION

That Council:

Receive the Financial Statements set out in Appendix No. 1 and 2 for the months ended 31 March 2022 and 30 April 2022.

Cr Miles connected to the meeting at 6.44 pm

Moved Cr Sargent, seconded Cr Re RESOLVED That the recommendation be adopted (CARRIED UNANIMOUSLY 11/0)

Page 9

9.2	LIST OF PAYMENTS MADE FOR THE MONTH ENDED 31 MARCH 2022 AND 30 APRIL 2022
File No:	FIN/5-09
Appendix(s):	Appendix No. 4 Appendix No. 5
Date:	15 May 2022
Responsible Officer:	Director Corporate Services

SUMMARY

The purpose of this report is to provide details of payments made during the periods identified. This is in line with the requirement under the delegated authority to the Chief Executive Officer (CEO), that a list of payments made from the Municipal Fund since the last Ordinary Council meeting be presented to Council.

COMMENT

The lists of payments for the months ended 31 March 2022 and 30 April 2022 are at **Appendix 4 and 5** to this Item and are presented to Council for noting. Payments have been made in accordance with the delegated authority to the CEO which allows payments to be made between meetings. At the Ordinary Council Meeting held on 16 September 2021, the Council delegated to the CEO the exercise of its power to make payments from the Municipal Fund. In order to satisfy the requirements of Clause 13(2) of the Local Government (Financial Management) Regulations, a list of payments made must be submitted to the next Council meeting following such payments.

It should be noted that generally all payments are GST inclusive and the Mindarie Regional Council is able to claim this tax as an input credit when GST remittances are made each month to the Australian Tax Office.

Months Ended	Account	Vouchers	Amount
		Cheques	\$3,329.31
31 March 2022	General	EFT	\$799.169.25

9.3 AUDIT COMMITTEE REVISED TERMS OF REFERENCE		
File No:	GF-22-0000070	
Appendix(s):	Appendix No. 6 Appendix No. 7	
Date:	13 MAY 2022	
Responsible Officer:	Chief Executive Officer	

SUMMARY

The purpose of this report is to review the Audit Committee Terms of Reference.

BACKGROUND

At an Ordinary Council Meeting held on 7 July 2005 the Audit Committee was established by Council under s7.1A of the Local Government Act 1995. On 27 October 2005 Council adopted the Terms of Reference for the operation of the Audit Committee. These terms of reference were subsequently revised by Council at an Ordinary Council Meeting held on 24 April 2014.

DETAIL

In line with Function 16 of the Local Government (Audit) Regulations 1996, the objective of the Audit and Risk committee is to:

- Support Council in fulfilling its governance and oversight responsibilities in relation to financial reporting, internal control structure, risk management and external audit functions and ethical accountability.
- Critically examine the annual external audit and liaise with the Office of the Auditor General (OAG) so that Council can be satisfied with the performance of the local government in managing its financial affairs.
- Receive and review reports prepared by the Chief Executive Officer in accordance with the Regulations, and present a report to Council on its findings and recommendations.

Reports from the Committee will assist Council in discharging its legislative responsibilities of controlling the Council's affairs, determining the Council's policies and overseeing the allocation of the Council's finances and resources. The Committee will ensure openness in the Council's financial reporting and will liaise with the Chief Executive Officer (CEO) to ensure the effective and efficient management of the Council's financial accounting systems and compliance with legislation.

The Committee is to facilitate:

- the enhancement of the credibility and objectivity of external financial reporting;
- · effective management of financial and other risks and the protection of Council assets;
- compliance with laws and regulations as well as use of best practice guidelines relative to audit, risk management, internal control and legislative compliance;
- the provision of an effective means of communication between the OAG, the CEO and the Council.

The main changes to the terms of reference which were proposed included;

Page 12

- Change in name from Audit Committee to Audit and Risk Committee
- Removing the duties and responsibilities of recommending and adopting an external auditor, due to the fact that MRC audits are now conducted by the Office of the Auditor General (OAG).
- The inclusion of performing an annual review of the risk management framework and full risk register

The marked up version of the Terms of Reference can be found at Appendix 6 to this agenda and the clean copy at Appendix 7

CONSULTATION

The revised Terms of Reference were discussed at an Audit Committee Workshop held on 12 May 2022.

FINANCIAL IMPLICATIONS

- 3. Note the Draft Risk Appetite Statement and Risk Management Plan.
- 4. Note the Audit Committee Recommendation to item 7.2 as detailed on page 8 of this report.

Moved Cr Vernon, seconded Cr Cvitan RESOLVED That the recommendation be adopted (CARRIED UNANIMOUSLY 11/0) MINDARIE REGIONAL COUNCIL ORDINARY COUNCIL MEETING MINUTES 26 MAY 2022

Page 21

Moved Cr Vernon, seconded Cr Re Procedural Motion That Council:

- 1. Reopens the meeting to members of the public at 7.59 pm.
- 2. Invites Member Council CEOs and Officers to reconnect to the meeting.

To re-open the meeting to the public (CARRIED UNANIMOUSLY 11/0)

Doors re-opened at 7.59 pm, the Chair declared the meeting re-opened.

There were no members of the public present, Member Council Officers reconnected to the meeting.

The Chair noted the resolutions passed behind closed doors.

15 NEXT MEETING

The next Ordinary Council meeting will be held on Thursday 07 July 2022 at the City of Stirling commencing at 6.30 pm.

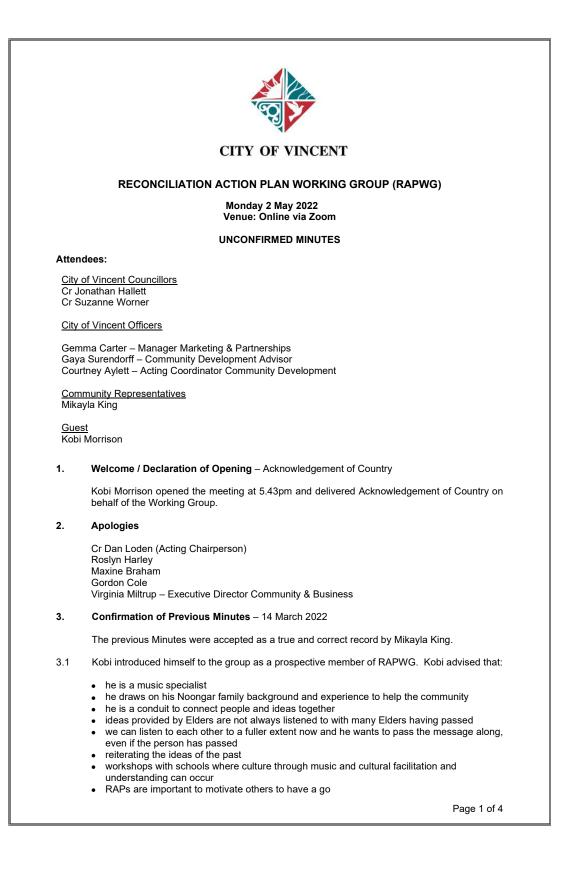

16 CLOSURE

The Chair closed the meeting at 8.00 pm and thanked Councillors for their participation.

These minutes were confirmed by the Council as a true and accurate record of the Ordinary Meeting of Council held on 26 May 2022.

ignedChair

Dated day of 2022

3.2 GS acknowledged Aunty Doolann is an Elder who recently passed, and we acknowledge their contribution. Aunty Doolann and Uncle Walter were a strong couple, and we have permission from the family to acknowledge her passing. CA said thank you for being a part of the group and advised that she was standing in as the 3.3 Coordinator for Community Development for 3 months. CA looks forward to learning more in this space over next few months. 4. Action items update 4.1 Review of Terms of Reference Roles and Responsibilities of the Chairperson have been updated in the Terms of Reference made available to RAPWG members. GS will check in with other group members for endorsement prior to sending report to Council. 42 Aranmore Traineeship Program Christine Coyne will check in on the two Aranmore Catholic College students as part of her Aboriginal Employment Consultant work. 4.3 **Bush Garden** GS advised that the bush garden had not proceeded as there was no budget in this financial year. MK questioned why there was no budget as she was under the impression that it had been set aside. GS advised that the bush garden had come in quite high and that other priorities such as the Employment Consultant had taken priority. 4.4 School Art project GS advised that there is no budget remaining for this project this financial year. Following NAIDOC Week in July, there may be an opportunity to do the project as a reflection. MK suggested Children's Day on 4 August 2022. 5. Items for Discussion 5.1 Strategic Community Plan The Officer cannot be here tonight so information will be emailed out to the group. 5.2 Bridyas group GS advised that the group has started working with Kambarang Consultancy and were provided with a second opportunity to comment on Draft RAP. The next meeting is on Wednesday 4 May where further discussions will be held with the Bridyas about doing a bus trip of significant sites in City including Banks, Hyde, Robertson Park, Smiths and Britannia Heritage Trail. MK asked if Community Representatives from the Reconciliation Action Plan Working Group could attend the upcoming bus tour and be introduced to Elders? MK feels that it would be good to put a face to the name and good for them to know the RAPWG. GS advised that the RAPWG were welcome to join for lunch and that confirmation will be sought from Jon from Kambarang Services and come back to the group and arrange. Action: GS to provide group with invites for Community Members Page 2 of 4

5.3	Christine Coyne – Aboriginal Employment Consultant
	The Employment Consultant, Christine Coyne is visiting the City tomorrow to check in on atmosphere of our areas. Christine will be working on an Aboriginal Employment and Retention Strategy.
	The new trainees Sienna and Bella have joined City and will be interviewed soon.
5.4	Moorditj Murals
	Recently Moorditj Murals was launched.
	KM enjoyed the event and Cousin Kendra aged 14 was chosen to take part. Whilst the minimum age requirement was 16, KM believed she would get a lot out of it. KM stated that a lot of his family were there, and it was wonderful to see more of this project happening.
	KM stated that there was some mild concern over some people not respecting the space - in terms of driving past but felt fine. COV should be proud, let do more of it. Mural or arts in general.
	GS stated that it was one of the most meaningful projects that provided opportunities for young people to be mentored by Jade. There was so much pride in them from their families and that it encouraged young artists to talk about their art and present in front of people.
	KM said it was great to have representation from multiple bodies and that the Collaboration with Propel Youth Arts was important factor.
6.	Upcoming Events
	Last week KM played music at Banks Reserve online.
	Reconciliation Week
	 27 May - Reconciliation Breakfast at Community Centre Staff event and special guests Streaming the Reconciliation virtual breakfast - Reconciliation WA 27 May - Aboriginal Spirituality Workshop with Marissa Verma online 29 May - Live music online with Kobi Morrison 30 May - Bush Tucker workshop with Dale Tilbrook 1 June – Aboriginal Cultural Awareness Training for community with Jon Ford 2 June - Noongar Language class with Sharon Gregory
	NAIDOC Week
	 5 July - Aboriginal Cultural Awareness Training for community with Jon Ford 6 July - Bush Tucker workshop with Dale Tilbrook 7 July- Ron Bradfield - Yarning session 8 July - Aboriginal Warriors and their History with Marissa Verma 9 July - Welcome to Country and Music by Gina Williams and Guy Ghouse, food, Charmaine Cole's artwork projection.
	Noongar Names for meeting rooms
	Sharon Gregory has provided the City with possible names for Community Centre. GS will send a short list around for comments.
	KM recommends Sharon G as an excellent source.
	Action : GS to send short list of Noongar names for Community Centre meeting rooms to RAPWG members
	Kevin Bynder shirts
	The Bridyas Group were given some of Kevin Bynders shirts. The shirts are no longer available as they have all gone so staff are in the process of placing another order.

General Business 7.

KM advised that Mondays are the hardest with choir.

JH thanked everyone for hard work.

G S way to move forward in genuine and respectful way. The next meeting will be on 13 June and members will be provided with a Reconciliation Week debrief.

Closed meeting at 6.28pm

Summary of Actions

Summary of Actions	Date	Status
Confirm with Jon from Kambarang Services RAPWG attendance at next Bridyas Group meeting.		
Send short list of Noongar names for Community Centre meeting rooms to RAPWG members		
Investigate expanding traineeship program for Aboriginal people.	June 2022	Commenced
Contact Transition Town Vincent regarding the establishment of a Noongar bush food garden.	2 May 2023	Commenced
Investigate opportunities to work with local primary schools on NAIDOC related projects.	2 May 2022	Commenced

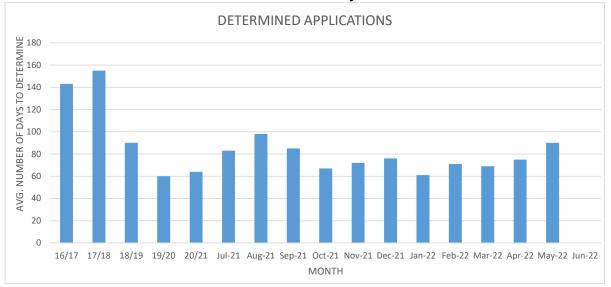

Close / Next Meeting 5.

The meeting closed at 6.28pm. Next meeting to be held on 13 June 2022

Signed ______ Councillor Dan Loden (Acting Chairperson)

Date this ______ day of ______ 2022

REGISTER OF STATE ADMINISTRATIVE TRIBUNAL (SAT) APPEALS
AS AT 2 JUNE 2022

NO.	ADDRESS & SAT REVIEW NO.	DATE RECEIVED	APPLICANT	REVIEW MATTER & COMMENTS
1.	Nos. 212-214 Lake Street, Perth (DR 223 of 2021)	19 October 2021	Hanoze Park Pty Ltd	Application for review of notice issued in accordance with the <i>Health (Miscellaneous Provisions) Act 1911</i> to address odour nuisance at 7 Grams Chicken Café. Hanoze Park Pty Ltd believes the notice to be invalid.
				SAT Directions Hearings were held on 5 and 11 November 2021, and a further directions hearing is scheduled for 23 December 2021. The 23 December 2021 SAT hearing was cancelled and new hearing scheduled for 1 March 2022 so submissions can be made on the validity of the Notice. SAT hearing held 1 March 2022. Presiding member heard submissions from the City and from the Business. On 20 April 2022, the Tribunal handed down decision, to agree with the City, that a Notice can be given under S.184 of the <i>Health (Miscellaneous Provisions) Act 1911</i> (for a nuisance not specifically mentioned in Section 182 of that Act). Matter listed for directions hearing on 6 May 2022. SAT Hearing held 27 May 2022. Applicant has requested to go to mediation. Mediation set for 5 July 2022. <i>Representation by: McLeods</i>
2.	Nos. 636-640 Newcastle Street, Leederville (DR 61 of 2022)	4 April 2022	Megara	Application for review of JDAP decision to refuse an application for Mixed Use Development (Amendment to Approved) on 17 March 2022. Directions Hearing listed for 29 April 2022 was vacated and the matter referred directly to Mediation scheduled for 26 May 2022. The mediation scheduled for 26 May 2022 was adjourned to 24 June 2022. The applicant is required to provide additional information to the Presiding Member of the Metro-Inner North Joint Development Assessment Panel on or before 10 June 2022.
3.	No. 392 Bulwer Street, Perth (DR 82 of 2022)	16 May 2022	Minh Khuu	Representation by: JDAP Application for review of determination of Building Approval Certificate (BAC) (Serial No. 6.2017.237.1) issued on 8 September 2017 for retaining walls and masonry fences. Applicant claiming review under Section 9.7(1)(a) – of Local Government Act 1995 – 'Review of a decision if an objection not lodged'. Seeking BAC to be set aside, retaining and masonry walls to be removed, alleged contaminated fill to be removed and fibro fence to be reinstated on cadastral boundary. Directions Hearing listed for 24 June 2022. Representation by: McLeods

INFORMATION BULLETIN

TITLE:	Register of Petitions – Progress Report – May 2022
DIRECTORATE:	Chief Executive Officer

DETAILS:

Petitions received by the City of Vincent are read out at the Council Meeting and are referred to the appropriate Director for investigation and report. This normally takes 6-8 weeks and the purpose of this report is to keep the Council informed on the progress of the petitions which have been reported to the Council.

A status report is submitted to Council as an Information Bulletin item on a monthly basis.

The following petitions still require action or are in the process of being actioned.

CEO: Chief Executive Officer	
EDCBS: Executive Director Community & Business Services	
EDIE: Executive Director Infrastructure & Environment	
EDSD: Executive Director Strategy & Development	

Date Rcd	Subject	Action Officer	Action Taken
30/3/2022	Petition with thirty six (36) signatures requesting that Council prohibit Western Diagnostic Pathology from operating a COVID testing drive through clinic at 391 Oxford Street, Mt Hawthorn.	EDIE	City of Vincent and Western Diagnostics are working collaboratively to relocate the COVID testing clinic to an alternate site within City of Vincent. Residents will be updated with information as it becomes available.
15/3/2022	Petition with four (4) signatures requesting residents only parking on Prospect Place, West Perth	EDIE	The Rangers have recently completed the necessary occupancy survey for this street, and are now in the process of going through all of the data to ascertain what the best outcome is. Once we have analysed the data, we can then make a decision whether it is viable or necessary to make this resident only parking.

	Rhys Taylor	Executive Manager Financial Services (electronically) (left at 7.33 after Item 7.4)
	Peter Varris	Executive Manager Corporate Strategy & Governance
	Wendy Barnard	Council Liaison Officer

 Public:
 Approximately three members of the public.

1 DECLARATION OF OPENING / ACKNOWLEDGEMENT OF COUNTRY

The Acting Presiding Member, Susan Gontaszewski, declared the meeting open at 6.00pm and read the following Acknowledgement of Country statement:

"The City of Vincent would like to acknowledge the Traditional Owners of the land, the Whadjuk people of the Noongar nation and pay our respects to Elders past, present and emerging."

2 APOLOGIES / MEMBERS ON APPROVED LEAVE OF ABSENCE

Mayor Emma Cole is an apology for this meeting.

3 PUBLIC QUESTION TIME AND RECEIVING OF PUBLIC STATEMENTS

The following is a summary of questions and submissions received and responses provided at the meeting. This is not a verbatim record of comments made at the meeting.

3.1 Suzanne Burke of North Perth – Item 7.5

Stated that there are only eight sporting fields in Vincent, and their sizes differ dramatically

Page 3

10 MAY 2022

COUNCIL BRIEFING NOTES

- Stated that the policy should not apply to all the fields in the same way, and would like conditions added to each field
- Beatty Park Reserve and Birdwood Square are being treated and used as sporting fields, despite not having facilities to support the teams as the facilities were demolished.
- Mentioned that the policy states these grounds are for training only, but queries the difference between sports and training, as both require changerooms and toilet facilities
- Suggested that both parks are rezoned Passive Recreation for Community Use.
- Mentioned the ongoing issues with public urination and public nudity which occurs due to lack of facilities
- Stated that the public health implications in the report paints a positive view of outcomes, but does not mention the ongoing anti-social behaviour the lack of facilities has created
- Stated that Section 4.4 of the policy refers to active sports grounds, asked how this would affect fields that are not active sports grounds, such as Beatty Park
- Suggested that player numbers should be limited on smaller fields, as when a large team turns up to play at Beatty Park Reserve there are issues around parking, noise and proximity to homes
- Mentioned that the wording in the policy around the breach of hire conditions is not strong enough and should include action statements, for example, the City will issue a caution instead of the City may issue a caution
- Stated that a more robust process around complaints and record keeping is required
- Stated that sports users verbally abuse them, at the park and on their pivate phones
- Mentioned that it can be dangerous, sometmes cricket balls land in their yard during practice
- Stated that she does not feel that the City supports them and asks why can this not be improved
- Requested that issues be recorded so that there is an ongoing record. Potentially a points system for offenders, on a severity scale, which results in a warning, then suspension
- Mentiioned that during peak usage times it is not possible to share the park, there is not enough space
- Requested more thought out and specific details in the policy

The Acting Presiding Member, Susan Gontaszewski, thanked Ms Burke for her comments.

3.2 Ray Stevenson of North Perth – Item 7.5

- Stated that since the pavilion was demolished four years ago there have been multiple issues
- Suggested a plan should have been in place for what should happen after the pavilion was demolished
- Stated that fields with facilities should be treated differently to those with no facilities
- Acknowledged thaat sporting clubs need a place to practice
- Stated that during peak times it is not possible to walk their dogs, as it is not safe
- Disputes the clause that parks without toilet facilities can have sport for 2 hours, requests the removal of this clause
- Mentioned that he feels this policy is not suitable

The Acting Presiding Member, Susan Gontaszewski, thanked Mr Stevenson for his comments.

There being no further speakers, Public Question Time closed at approximately 6.10pm.

4 DECLARATIONS OF INTEREST

4.1 Cr Jonathan Hallett declared a proximity interest in Item 8.8 Vincent Underground Power Project (VUPP). The extent of his interest is that his partner's property is within the Project Zone. This is an interest in common with a significant number of ratepayers covering an estimated 5,336 electricity service meters to properties in the City of Vincent. The report identifies that underground power may provide an estimated increase in property value of approximately \$12,000 per residential property. He is seeking approval to participate in debate and vote in the matter.

- **4.2** Cr Suzanne Worner declared a proximity interest in Item 8.8 Vincent Underground Power Project (VUPP). The extent of her interest is that her property is within the Project Zone. This is an interest in common with a significant number of ratepayers covering an estimated 5,336 electricity service meters to properties in the City of Vincent. The report identifies that underground power may provide an estimated increase in property value of approximately \$12,000 per residential property. She is seeking approval to participate in debate and vote in the matter.
- **4.3** Cr Ron Alexander declared a proximity interest in Item 8.8 Vincent Underground Power Project (VUPP). The extent of his interest is that his property is within the Project Zone. This is an interest in common with a significant number of ratepayers covering an estimated 5,336 electricity service meters to properties in the City of Vincent. The report identifies that underground power may provide an estimated increase in property value of approximately \$12,000 per residential property. He is seeking approval to participate in debate and vote in the matter.
- **4.4** Cr Ashley Wallace declared a proximity interest in Item 8.8 Vincent Underground Power Project (VUPP). The extent of his interest is that his property is within the Project Zone. This is an interest in common with a significant number of ratepayers covering an estimated 5,336 electricity service meters to properties in the City of Vincent. The report identifies that underground power may provide an estimated increase in property value of approximately \$12,000 per residential property. He is seeking approval to participate in debate and vote in the matter.
- **4.5** David MacLennan, CEO declared an impartiality interest in Item 11.1 Appointment of the Design Review Panel. The extent of his interest is that he knows one of the applicants through his involvement in AUDRC including through his position as AUDRC Chair. He was not involved in the assessment process for the DRP applicants.
- **4.6** Cr Susan Gontaszewski declared a proximity interest in Item 7.5 Advertising of new policy -Sportsground Allocation - Use and Hire Policy. The extent of her interest is a section of her property is directly opposite one of the parks mentioned in the policy. She is not seeking approval to participate in debate and vote in the matter.

10 MAY 2022

5 STRATEGY & DEVELOPMENT

1.

4.

5.1 NOS. 596-598 (LOT: 116; D/P: 2360) NEWCASTLE STREET, WEST PERTH - PROPOSED AMENDMENT TO PREVIOUS APPROVAL: BILLBOARD SIGNS (UNLISTED USE)

Ward: South

Attachments:

- Consultation and Location Map
- 2. Development Plans
- 3. Applicant Supporting Information
 - Road Safety Audit

RECOMMENDATION:

That Council, in accordance with the provisions of the City of Vincent Local Planning Scheme No. 2 and the Metropolitan Region Scheme, REFUSES the application for an Amendment to Approved Billboard Signs at Nos. 596-598 (Lot: 116; D/P: 2360) Newcastle Street, West Perth, in accordance with the plans shown in Attachment 2, for the following reasons:

- The proposed Unlisted Use (Billboard Signs) advertising third party content would be inconsistent with the objectives of the City's Policy No. 7.5.2 – Signs and Advertising, the objectives of the Commercial Zone under the City's Local Planning Scheme No. 2, and Clauses 67(2)(m) and (n) of the Deemed Provisions in Schedule 2 of the *Planning and Development (Local Planning Schemes) Regulations 2015.* The permanent approval of this signage would be incompatible with the desired future character of and adversely impact on the amenity of the locality; and
- 2. The proposed Unlisted Use (Billboard Signs) advertising third party content would be inconsistent with Clause 67(2)(b) of the Deemed Provisions in Schedule 2 of the *Planning and Development (Local Planning Schemes) Regulations 2015.* The permanent approval of this signage would be contrary to the purposes of orderly and proper planning, as:
 - The City is reviewing its planning framework in relation to third party advertising. The permanent approval would have the potential to prejudice this outcome; and
 - The planning framework as it relates to the site has not substantially changed since the previous time limit was approved and would result in inconsistent decision-making.

CR ALEXANDER:

The owner has advised that there is only one buyer for the land, who is next door, and this wouldn't provide the owner with an appropriate financial return. Realistically what are the options for the site given the commercial viability of this situation?

MANAGER DEVELOPMENT & DESIGN

As outlined in Administration's report, options for the subject site include:

- For the site to be amalgamated with adjoining properties and provide for a coordinated development;
- For the site to be redeveloped on its own and consistent with the vision for a mixed use or commercial development as outlined in the City's planning framework; or
- For the site to be sold and redevelopment opportunities explored by the new owner.

Although it is a factor for the owner, the commercial viability of these options is not a valid planning consideration and it is not a matter contained in the planning framework.

Administration is not able to advise what is 'realistic' from a commercial viability perspective.

Rather, Council is required to consider the acceptability in the permanent approval of billboards on the site having due regard to the current planning framework and the appropriateness of the planning outcome.

In relation to this planning outcome, it was not intended for the existing billboard signs to be permanently approved on this site. This is reflected in Council's most recent 2018 approval which supported a 10 year

Page 6

extension for the signs in lieu of the applicant's proposed permanent approval. There are challenges in developing the site, and the approval for the billboard signs on a time-limited basis was to provide the opportunity to explore and progress redevelopment options.

The following information relates to Council's policy position on billboard signs and recent Council decisions on billboards to assist with informing Council's planning consideration of this application.

Council Policy Position on Billboards

Council has established a clear and consistent position in relation to the acceptability of billboard signage throughout the City. The following is relevant to this:

- The City's Policy No. 7.5.2 Signs and Advertising (Signs Policy) was approved by Council in 2001. Since its approval the Signs Policy has maintained a provision which outlines that billboard signage is not permitted within the City;
- At its meeting on 20 October 2020 Council requested Administration to investigate the suitability of billboards through community consultation, and to undertake a review of the Signs Policy by December 2021;
- Administration undertook community consultation regarding the suitability of billboards from 12 May 2021 to 7 June 2021. 34 submissions were received during this period, of which 74 percent (25 respondents) opposed third party billboard signage;
- At its meeting on 14 December 2021, Council resolved to request Administration to amend LPS2 to prohibit billboard signage throughout the City. Administration is currently undertaking a review of LPS2 which is scheduled be completed in 2024; and
- Also at this meeting Council resolved to undertake consultation on a review of the Signs Policy. This
 review retains the existing provision which does not permit billboard signage. An additional provision is
 proposed for any existing billboard signs which have a time limit to not be extended beyond 2024. The
 draft Signs Policy will be presented to council mid-2022 for final approval.

While it is acknowledged that the retention of the existing billboards in perpetuity may be more commercially viable for the landowner than any of the alternative options, this is not a valid planning consideration.

There are a number of vacant sites along transport corridors which are awaiting redevelopment. While billboard signs may provide greater commercial returns to landowners, permitting these sites to erect billboards would result in a proliferation of third party advertising throughout the City. This would be contrary to outcomes of community consultation and the established position of Council.

Recent Council Decisions on Billboard Proposals

This established position of Council has been reflected in recent decisions related to billboard signage, including:

- No. 12 Newcastle Street, Perth The applicant proposed the permanent approval of a billboard sign located on the roof of the existing building. Council refused this application on 17 March 2020. The applicant subsequently sought a review of this decision through the State Administrative Tribunal (SAT). SAT invited Council to reconsider its decision, and Council refused the application again at its meeting on 15 September 2020. The applicant ultimately withdrew the SAT review; and
- No. 374 Newcastle Street, West Perth The applicant proposed a five year extension to the existing approved time limit for billboard signs on site, to pursue redevelopment options. At its meeting on 14 September 2021, Council approved the application for a one year period. The applicant subsequently sought a review of this decision through SAT. SAT invited Council to reconsider its decision, and Council approved the application for a three year period to coincide with the completion of the LPS2 review. The applicant ultimately withdrew the SAT review.

CR HALLET:

Is there anything that the City can do to assist with encouraging discussions with adjoining landowners regarding amalgamation?

MANAGER DEVELOPMENT & DESIGN:

Administration has contacted the applicant to understand the potential for the subject site to be amalgamated with surrounding properties. The applicant has advised that the landowner of the subject site has discussed

Page 7

10 MAY 2022

the potential for amalgamation with adjoining properties.

From these discussions it is understood that the owner of the adjoining property to the east at No. 590 Newcastle Street has no immediate plans to redevelop.

The owner of the adjoining property to the north at No. 65 Kingston Avenue is considering development opportunities, but this would not include amalgamation with the subject site.

CR WALLACE:

Why can access not be achieved from Newcastle Street? The access for No. 590 Newcastle Street next door is hard up against the western boundary of the site. Given access to the subject site would result in this being approximately 3 metres closer to the intersection, is there a specific requirement which prohibits this, or is it considered on a case-by-case basis?

MANAGER DEVELOPMENT & DESIGN:

While Main Roads WA (MRWA) is not responsible for managing either Newcastle Street or Loftus Street, it is responsible for managing signalised intersections.

MRWA Guide to Driveways requires new crossovers to be located 50 metres from signalised intersections. This 50 metre distance is referred to as the acceleration lane. The purpose of this separation distance is to avoid potential conflicts between vehicles accelerating out of the intersection and vehicles that would be entering or exiting the subject site.

The subject site has a frontage of 11 metres to Newcastle Street. This would mean that a new crossover would be located at its furthest approximately 8 metres from the signalised intersection of Newcastle and Loftus Streets and would be within the acceleration lane.

MRWA is capable of considering access within the acceleration lane, and this would be on a case-by-case basis where no alternative access is possible. In this instance, the Department of Planning, Lands and Heritage has indicated that alternative access could be contemplated from Loftus Street, subject to modifications being undertaken. It is unlikely that access from Newcastle Street would be supported as a result.

Administration's report has been updated to reflect this.

The adjoining site at No. 590 Newcastle Street has an existing crossover from Newcastle Street which falls within the acceleration lane. This site was developed prior to the MRWA requirements. It is also noted that this site does not have any alternative access available

CR IOPPOLO:

The Signs Policy provides for a definition which states that if there is a product that is offered for sale on site, then the sign would not be considered a billboard. There is currently a Connoisseur ice cream ad on the site. Is there the potential that if this ice cream were to be offered for sale on a temporary and unattended basis form the subject site that the billboard would not be considered a billboard under the Signs Policy?

MANAGER DEVELOPMENT & DESIGN:

It is possible but not realistic to establish a business for the duration of an advertisement on site so that they relate to one another.

The current Signs Policy defines billboard as 'means a sign erected for the purpose of advertising products or services which are not being offered on a site on which the sign is erected.'

In such a scenario, approvals would first be required to be obtained from the City to establish the business from the site and then any construction works undertaken.

It would also mean that when the advertising sign changes (ice cream in this example), the products or services displayed on the new sign would no longer be offered on site. This would be problematic for a genuine ice cream business that would be seeking advertising signs to promote its ice cream products that it is offering for sale from the site.

10 MAY 2022

QUESTIONS RECEIVED IN WRITING PRIOR TO COUNCIL BRIEFING

CR IOPPOLO:

Acknowledging that this is a revenue generating activity for the ratepayer without a building on the property, is the subject site with billboards erected (whether temporary or permanently) considered commercial or commercial vacant for rate setting?

MANAGER DEVELOPMENT & DESIGN:

The use of the property for rating purposes is commercial. This is due to the billboards erected, building permits issued and applicable owner insurances.

Rates revenue generated by the development is not a valid planning consideration.

CR IOPPOLO:

What is the approximate rate applicable to the subject site payable in in the 2021/22 financial year if it was considered commercial or commercial vacant?

MANAGER DEVELOPMENT & DESIGN:

The commercial rates charge for the 2021/22 financial year was \$2066.93.

Rates revenue is not a valid planning consideration.

CR WORNER:

What charges are paid by the applicant for leasing of the space?

MANAGER DEVELOPMENT & DESIGN:

The subject site is privately owned and is not owned by the City. It is unknown as to how much the landowner charges for the advertising of the billboards.

Leasing cost is not a valid planning consideration.

CR WORNER:

What are the plans for this space post 2029? Are we hoping that redevelopment issues may have been resolved by then?

MANAGER DEVELOPMENT & DESIGN:

The applicant's intention for the subject site is for the permanent approval of the billboard signs. This is reflected by the current development application which Council is considering.

The City's vision for the subject site is for a high quality mixed use or commercial development which is compatible with the character of the locality. This vision is outlined within the objectives of the Commercial zone of the City's LPS2.

As outlined above and in Administration's report, options for the subject site include:

- For the site to be amalgamated with adjoining properties and provide for a coordinated development;
- For the site to be redeveloped on its own and consistent with the vision outlined above; or
- For the site to be sold and redevelopment opportunities explored by the new owner.

The time-limited approval was intended to provide the owner with the opportunity to pursue and progress these redevelopment options. While access to the site is constrained, there are opportunities for this to be resolved. This is reflected in the advice received from the Department of Planning, Lands and Heritage which indicated that access from Loftus Street may be possible.

It is not known what the applicant's intention for the site would be following the expiration of the current planning approval on 21 October 2029.

As outlined in Administration's report, vehicle access is a constraint to redeveloping the site. The current approval period for the signs is considered to be adequate for the applicant to explore redevelopment opportunities for the site.

Page 9

10 MAY 2022

CR WORNER:

The City recently adopted a new policy prohibiting third party advertising. Is this publicly available?

MANAGER DEVELOPMENT & DESIGN:

Council considered amendments to the current Signs Policy at its Ordinary Meeting on 14 December 2021, where it resolved to undertake consultation on the proposed changes.

Consultation on the draft Signs Policy has concluded and it is intended to be presented to Council mid-2022 for approval. The advertised Policy can be found at: <u>https://imagine.vincent.wa.gov.au/signs-and-advertising-policy-review</u>

The Signs Policy currently outlines that billboard signage is not permitted within the City. The draft Signs Policy does not change this position.

ADDITIONAL INFORMATION

Inclusion of reference to Clause 67(2)(w) of the Deemed Provisions in Schedule 2 of the Planning Regulations in the second reason for refusal in the officer report recommendation, as well as including reference to this clause in the Comments section of the report. This Clause 67(2)(w) relates to having due regard to the history of the site.

10 MAY 2022

COUNCIL BRIEFING NOTES

5.2 LOCAL PLANNING STRATEGY AND SCHEME REPORT OF REVIEW AND AMENDMENT NO. 10 TO THE LOCAL PLANNING SCHEME

Attachments:

1. City of Vincent Local Planning Strategy and Local Planning Scheme No. 2 Draft Report of Review

- 2. Amendment No. 10 to Local Planning Scheme No. 2 Summary of changes
- 3. Amendment No. 10 to Local Planning Scheme No. 2 Form 2A

RECOMMENDATION:

That Council:

- 1. ENDORSES the City of Vincent Local Planning Strategy and Local Planning Scheme No. 2 Draft Report of Review contained in Attachment 1;
- 2. RECOMMENDS that the Western Australian Planning Commission agrees to the recommendation in the City of Vincent Local Planning Strategy and Local Planning Scheme No. 2 Draft Report of Review contained in Attachment 1;
- 3. PREPARES Amendment No. 10 to Local Planning Scheme No. 2 as at Attachment 3, pursuant to Section 75 of the *Planning and Development Act 2005* for the purpose of public advertising, subject to approval of the Environmental Protection Authority; and
- 4. CONSIDERS Amendment No. 10 to Local Planning Scheme No. 2 as a standard amendment under Regulation 35 (2) of the *Planning and Development (Local Planning Schemes) Regulations 2015* as the amendment;
 - 4.1 Has minimal impact on land in the scheme area that is not the subject of the amendment, due to the predominately minor text changes proposed;
 - 4.2 The amendment does not result in any significant environmental, social, economic or governance impacts on land in the scheme area; and
 - 4.3 The amendment is not a complex or basic amendment.

CR GONTASZEWSKI:

The column 2 tree details - should this be 'or' instead of 'and'?

MANAGER POLICY & PLACE:

The 'and' is necessary so that the removal of a tree is only exempt if it complies with both of the conditions, *i.e.* not being on the inventory **and** not being shown on a landscaping plan.

By changing the 'and' to an 'or' the provision would be read as meaning a person can remove a tree provided it is does not meet both requirements, i.e. a tree that was on the significant tree inventory could be removed without approval provided it was not also shown on a landscape plan and vice versa.

10 MAY 2022

5.3 ACCESSIBLE CITY STRATEGY - IMPLEMENTATION UPDATE

Attachments: 1. Accessible City Strategy - Implementation Framework

RECOMMENDATION:

That Council NOTES the Accessible City Strategy implementation update as at Attachment 1.

CR HALLETT:

Review of bike network plan – has there been consideration to e-rideables and overlapping infrastructure requirements?

EXECUTIVE DIRECTOR INFRASTRUCTURE AND ENVIRONMENT:

I can confirm the review of the bike network plan will consider e-rideables.

Administration acknowledges that riders of devices such as e-scooters will use the same infrastructure as people riding bicycles and that the e-rideable sector of transport is growing. The research for the new plan will have the aim of providing a safe mobility network for people of all ages and abilities. It will include a wide range of devices such as bicycles, tricycles, hand-cycles and e-rideables.

CR HALLETT:

Advocacy through the mid-tier transport consortium. Have the state and federal government been receptive and if not, what do they see as the barriers other than funding?

MANAGER POLICY & PLACE:

The consortium of 15 Local Governments within Perth's inner and middle municipalities have come together to form a voice in support of a Mid-Tier Transit Strategy to be developed by State Government. The purpose of this project is to seek the support of State Government for the following:

- Preparation of a holistic Mid-Tier Transit Strategy for Perth.
- Funding for the plan over the 2023/24 and 2024/25 budget cycles.
- Provide certainty for LGAs to accommodate for State urban infill targets.

The process has involved two interactive stakeholder workshops involving the Consortium in collaboration with the State Transport Agencies to identify the corridors to short-list and to agree on the assessment of the corridors.

State Government support has not yet been gained and is the next step in the project. We are currently at step six of the timeline below:

CR HALLETT:

Draft warrant system for assessing traffic concerns. We have not implemented. What is the anticipated meeting date for presentation to the STAG?

EXECUTIVE DIRECTOR INFRASTRUCTURE AND ENVIRONMENT:

A 'draft' warrant system has previously been developed to assess both qualitative and quantitative data as a basis for impartially assessing resident's requests for traffic calming. The system has in the past been discussed by the (then) Urban Mobility Advisory Group (UMAG) and it is recommended it be referred to the Sustainability & Transport Advisory Group (STAG) for further consideration.

10 MAY 2022

CR LODEN:

How many of the items are in the Long Term Financial Plan?

MANAGER POLICY & PLACE:

Each year of the life of the ACS has been allocated \$300,000 in the LTFP, as this is the estimated cost of implementing all the items in the plan. This is revised each year through the budgeting process when more accurate costs are determined for the actions proposed to be delivered. This includes determining if the actions can be funded through the cash-in-lieu reserve.

The implementation table has been updated to include estimated budget information.

5.4 SALE OF NO. 25 (LOT 93) SYDNEY STREET, NORTH PERTH

Attachments: 1. Valuation Report - 25 (Lot 93) Sydney Street, North Perth - 16.04.21 -Confidential

RECOMMENDATION:

That Council:

- 1. APPROVES the disposition of No 25 (Lot 93) Sydney Street, North Perth (Land) in accordance with the *Local Government Act 1995*
- 2. DELEGATES BY ABSOLUTE MAJORITY to the Chief Executive Officer the authority to:
 - 2.1 determine the best method of sale i.e. public auction, public tender or private treaty;
 - 2.2 appoint a licensed real estate agent to advertise the sale of the Land;
 - 2.3 accept offers;
 - 2.4 in respect of:
 - 2.4.1 Public auction:
 - (a) determine the reserve price; and
 - (b) accept the highest bidder;
 - 2.4.2 Public Tender:
 - (a) accept the tender in accordance with the City's Purchasing Policy; or
 - 2.4.3 Private treaty:
 - (a) set the date for sale of the Land;
 - (b) provide local public notice;
 - (c) consider submissions;
 - (d) enter into private treaty negotiations; and
 - (e) conclude contract of sale with private treaty entity, and in this respect, determine and vary the settlement date and/or date of satisfaction of any conditions pursuant to the Contract of Sale between the City of Vincent and the prospective buyer; and
- 3. AUTHORISES the Mayor and Chief Executive Officer to affix the common seal and execute the Transfer of Land document.

CR GONTASZEWSKI:

Why has Administration not requested sale after licences for of parking? Approval should be after licences are cancelled.

CR IOPPOLO:

Why has Administration not requested approval for disposition of the land after the termination of the car park licences as it would affect the market value of the proceeds? Approval should be after the licences are cancelled and be include in recommendation.

10 MAY 2022

EXECUTIVE MANAGER CORPORATE STRATEGY & GOVERNANCE:

The Recommendation has been updated to clarify that the sale process is subject to the termination or expiry of the car park licences:

"APPROVES the sale process relating to the disposition of Land to commence after the expiry or termination of the car park licences granted on the Land;"

CR GONTASZEWSKI:

Proposed rezoning – If land should be rezoned to maximise returns to the City, that should be a separate amendment – what would the timelines be and risk assessment on property values?

EXECUTIVE DIRECTOR STRATEGY AND DEVELOPMENT:

The subject property is currently zoned Residential R20, which is consistent with the properties immediately adjoining and opposite. The intent of this zoning in the Local Planning Scheme was to maintain a predominately low density appearance to protect the character of residential areas while focussing density on major activity corridors and in town centres.

When considering a proposal to recode, it is not sufficient planning justification that the subject property could see an increase in land value. In this specific example, Administration considers that the R20 code is appropriate for this site, given its surrounding low-scale residential context. Additionally, the Department of Planning, Lands and Heritage have previously advised that re-codings of individual sites are generally not supported, especially where the basis for such a recoding is based on increasing land value.

CR CASTLE:

With regards to the POS reserve allocation, was this contemplated as part of the transition plan when Council made the arrangements for Sydney/Haynes precinct?

CR LODEN:

Report states that funds from the sale of the land is to be allocated into POS strategy but not in the resolution and if not, can an amendment be prepared?

EXECUTIVE DIRECTOR STRATEGY AND DEVELOPMENT:

Administration previously informed Council that the proceeds from the sale of the land would be used to develop the park at Haynes Reserve:

Special Council Meeting on 28 January 2020	No. 25 (Lot 93) Sydney Street is proposed to be converted to Residential following the conversion of the park. It is recommended that this property be developed to a vacant residential standard and <u>sold to</u> <u>offset the cost to develop</u> <u>the park</u> . This disposal would be subject to a separate Council decision and the requirements of the Local Government Act 1995.
Ordinary Council Meeting on 20 October 2020	The potential sale of No. 25 (Lot 93) Sydney Street, <u>could fund</u> <u>the construction of the park</u> . The 561 square metres property was given a market value by Landgate of \$785,000 on 9 April 2019. The sale would be subject to a future Council decision and would need to be sold in compliance with section 3.58 of the Local Government Act 1995.

Consistent with Administration's advice above, the Recommendation has been modified to clarify that the proceeds of sale be applied towards the development of the park on the Haynes Street Reserve and any remainder would be held in the POS Reserve for the creation of upgrade of other POS in the City of Vincent

CR LODEN:

Valuation. Is it up to Administration to decide what the minimum acceptable value would be? What is a minimum acceptable value that the CEO is prepared to accept.

EXECUTIVE MANAGER CORPORATE STRATEGY & GOVERNANCE:

Based on the updated market valuation, Administration proposes that the CEO be delegated the authority to accept offers which are equal to or higher than the market value. The recommendation has been modified to reflect this.

10 MAY 2022

CR ALEXANDER:

Why does the proceeds from the sale of the land only go towards the POS and not debt reduction, further discussion on POS and how that is paid for. Admin consider what recommendation should say – prepare amendment

EXECUTIVE MANAGER CORPORATE STRATEGY & GOVERNANCE:

Please refer to the response above with respect to Cr Castle and Cr Loden's query which addresses the allocation of the sale proceeds.

CR IOPPOLO:

Requests and updated market valuation – 3 scenarios: (i) with as with current car parking licences, (ii) without car parking licences, and (iii) market value if land rezoned under the relevant code?

EXECUTIVE MANAGER CORPORATE STRATEGY & GOVERNANCE:

A market valuation based on vacant land for R20 and vacant land for R30/R40 has been requested from a valuer.

10 MAY 2022

6 INFRASTRUCTURE & ENVIRONMENT

6.1 WASTE STRATEGY 8 - COMMERCIAL WASTE COLLECTIONS (UPDATE)

Attachments: 1. Survey Results

2.

Commercial Survey - Verbatim

RECOMMENDATION:

That Council NOTES the results of the survey carried out in relation to the discontinuation of commercial waste collection.

CR HALLETT:

We have identified the challenge of internal data accuracy of current contacts for businesses within Vincent – have we had any improvement in this area? Do we know how many businesses are signed up to our e-news as a proportion of commercial waste ratepayers, given that that's suggested to be a key vehicle for Waste Education?

MANAGER MARKETING & PARTNERSHIPS:

Administration aims to make the signup process for the City's enewsletters simple, no demographic data exists to identify business owners within the general enews distribution list.

The business enews is a communication tool tailored for businesses within the City. There are currently 1012 businesses subscribed to that enewsletter list.

There are reform projects being run as an outcome of the Small Business Friendly Approvals (SBFA) Program the City recently participated in to improve recording keeping and maintaining small business records:

- Reform 1.11 Expand access and reach of business e-news to keep small business updated on the City's
 programs and initiatives
- Reform 3.5 Centralise and actively maintain small business customer records to improve quality and consistency of communication

The City has 1012 businesses subscribed to E-News (this removes the staff subscriptions, the people who have since unsubscribed and the email addresses that no longer exist).

That's an increase from the 930 subscribed in February 2022 and the 974 subscribed in April 2022.

6.2 TENDER IE164/2021 MENZIES PARK PAVILION AND ABLUTIONS REFURBISHMENT

Attachments: 1. Tender Evaluation Summary - Confidential

RECOMMENDATION:

That Council

- 1. NOTES the outcome of the evaluation process for Tender IE164/2021 Menzies Park Pavilion and Ablutions Refurbishment; and
- 2. ACCEPTS the tender submission of Devco Holdings for Tender IE164/2021 Menzies Park Pavilion and Ablutions Refurbishment.

CR WALLACE:

Could you provide the spec provided to tenderers?

EXECUTIVE DIRECTOR INFRASTRUCTURE AND ENVIRONMENT:

Will be emailed to Council Members separately.

CR IOPPOLO:

Are the tenderers required to provide an ASIC search? If not, can it be provided?

PROCUREMENT & CONTRACTS OFFICER:

The City assesses the financial risk associated to a requirement during the procurement planning stage. The financial risk related to this project was considered low, as such the City requested details of company ownership structure and confirmation by a Certified Practicing Accountant of the financial capacity of the organisation to carry out works for this project. Additionally, the City checks that status of the organisation on the ASIC website and https://abr.business.gov.au but does not pay for ASIC extracts or illion reports unless there is a financial risk identified in the planning or evaluation stage.

CR HALLETT:

Given the extent we use Devco has there been any discussion on how they might improve their environmental performance?

PROCUREMENT & CONTRACTS OFFICER:

As part of the transparent, compliant and competitive procurement process, due diligence on the capability and capacity of the preferred Respondent to deliver the tendered project is carried out, and this is factored into the value for money assessment. There is no limit on how much work can be awarded to one contractor.

Feedback is offered to Respondents that are unsuccessful for a request, and advice is given on where there may be room for improvement with their response. For the successful Respondent, there is scope in the Contract Management phase relating to a particular project to discuss the performance (environmental or other) of the Contractor and advise areas for improvement. The City would have to be careful to not coach a Respondent, so this feedback would not be appropriate unless it is related to a contract on foot.

It should also be noted that in part, Devco's score was impacted by not elaborating on some aspects as much as LKS did, hence the score difference.

CR HALLETT:

 Is there capacity to require specific standards or thresholds as minimum requirements under this criterion rather than just a scoring that where all score poorly one is still recommended?

PROCUREMENT & CONTRACTS OFFICER:

As part of the transparent, compliant and competitive procurement process, due diligence on the capability and capacity of the preferred Respondent to deliver the tendered project is carried out, and this is factored into the value for money assessment. There is no limit on how much work can be awarded to one contractor.

There is capacity to have minimum standards for any procurement qualitative criteria, but careful consideration from an anti-competitive position in local government has to be made to ensure it is appropriate to the scope of works and pool of potential suppliers for those works. For example, if ISO certification were a minimum standard for the environmental criterion, many operators that service LG's would not be able to meet this criterion, and would likely be ruled out and this could be seen as anti-competitive. For large private sector organisations dealing with other large organisations, this may be entirely appropriate and still result in many potential Respondents. Having said that, there are other minimum

10 MAY 2022

requirements that can be considered and the City does consider the information and evidence required for each requirement during the planning stage, and adjust the criteria where required.

If the risks were low for the criteria relating to environmental practices (no hazardous chemicals etc) and all Respondents scored poorly, a consideration would then be made if it were in the City's best interest and low risk to recommend proceeding with the requirement, and clearly justify the reasons why.

CR CASTLE:

Award a high proportion to one operator, is there an issue with that?

PROCUREMENT & CONTRACTS OFFICER:

As part of the transparent, compliant and competitive procurement process, due diligence on the capability and capacity of the preferred Respondent to deliver the tendered project is carried out, and this is factored into the value for money assessment. There is no limit on how much work can be awarded to one contractor.

10 MAY 2022

7 COMMUNITY & BUSINESS SERVICES

7.1 INVESTMENT REPORT AS AT 31 MARCH 2022

Attachments: 1. Investment Statistics as at 31 March 2022

RECOMMENDATION:

That Council NOTES the Investment Statistics for the month ended 31 March 2022 as detailed in Attachment 1.

NO QUESTIONS

10 MAY 2022

7.2 FINANCIAL STATEMENTS AS AT 31 MARCH 2022

Attachments: 1. Financial Statements as at 31 March 2022

RECOMMENDATION:

That Council RECEIVES the Financial Statements for the month ended 31 March 2022 as shown in Attachment 1.

CR HALLETT:

There was an unfavourable variance in relation to the road reserve labour costs, just wondering if I can get a short explanation in the briefing notes.

EXECUTIVE MANAGER FINANCIAL SERVICES:

The Roads reserve labour costs variance of \$28,400 was a timing difference in March 2022. The majority of these costs have been reallocated in April to various parks and reserve maintenance programs.

AUTHORISATION OF EXPENDITURE FOR THE PERIOD 1 MARCH 2022 TO 31 MARCH 2022 7.3

Payments by EFT and Payroll March 22 1.

- 2.
- Payments by Cheque March 22 Payments by Direct Debit March 22 3.

RECOMMENDATION:

Attachments:

That Council RECEIVES the list of accounts paid under delegated authority for the period 1 March 2022 to 31 March 2022 as detailed in Attachments 1, 2 and 3 as summarised below:

EFT payments, including payroll	\$7,254,959.65
Cheques	\$884.01
Direct debits, including credit cards	\$138,624.37
Total payments for March 2022	\$7,394,468.03

NO QUESTIONS

10 MAY 2022

7.4 TERMS OF REFERENCE - CHILDREN AND YOUNG PEOPLE ADVISORY GROUP

Attachments: 1. Proposed Terms of Reference - Children and Young People Advisory Group

RECOMMENDATION:

That Council ADOPTS the Terms of Reference of the City's Children and Young People Advisory Group (CYPAG) (at Attachment 1).

NO QUESTIONS

10 MAY 2022

At 6:13 pm, Cr Susan Gontaszewski left the meeting. With agreement of Council, Cr Hallett assumed the Chair.

7.5 ADVERTISING OF NEW POLICY - SPORTSGROUND ALLOCATION - USE AND HIRE POLICY

Attachments: 1. Proposed Sportsground Allocation - Use and Hire Policy

RECOMMENDATION

That Council APPROVES the Sportsground Allocation - Use and Hire Policy, at Attachment 1, for the purpose of community consultation.

CR LODEN:

I may have missed it in my review but can you give us an example of a case of where say BP Reserve vs Charles Veryard, where there would be a distinction between how those two spaces were treated.

EXECUTIVE DIRECTOR COMMUNITY AND BUSINESS SERVICES:

Beatty Park is booked with a preference for junior training (lower intensity) and has strict set up conditions (East/West – avoiding set up near Farr Ave and the playground). Information regarding toilet use is provided to users, and casual hire of the Reserve is limited.

During winter 2022 Beatty Park has two nights booked in by a Junior Soccer Club; Wednesday and Friday No training goes after 8:00pm. (Noting that further bookings may occur from time to time)

In comparison Charles Veryard Reserve is hired every day of the week during winter. Hockey and AFL coexist during winter; and this includes training and match playing for both juniors and adults.

CR LODEN:

The other one was just around breaches for people using those spaces and it does talk to that but it is a bit high level, I assume there is subsidiary information either in other policies or administrative documents? is it possible to share some of that information I guess just to map out what those steps are and the process, how many strikes do you have to have or whatever the case may be, just to give us a bit more confidence in how that breach process is utilised

EXECUTIVE DIRECTOR COMMUNITY AND BUSINESS SERVICES:

The City receives complaints from both the community about the behaviour of club members, and also receives complaints from club members about the behaviour of community members. These issues are frequently occurring, vary in severity, and are managed by Administration on a day-to-day basis without incident.

The breach of hiring conditions is initially dealt with as a breach of terms of use, and the City will advise the club that a complaint has been made and work with them to resolve the matter.

The current feedback refers to a more timely resolution of serious complaints that have not been immediately resolved to the satisfaction of the complainant. In other words, where the complaint shifts from the club to the resident's:

"dissatisfaction about the ... action or inaction by the City of Vincent or its Employees or its Elected Members" (Source: Customer Service Complaints Management Procedures)

The City can improve how the resident complaint is managed, escalating it through the existing Customer Service Complaints Procedure. This process is documented in Policy 4.1.3.

The City has also improved how complaints relating to clubs are documented, and will review them during the seasonal allocation process, which will improve the management of issues that repeat from season to season.

CR LODEN:

If Council were to form a view that we need to strengthen our provisions in the policy, particularly around the antisocial behaviour side of things rather than us trying to wordsmith it on the night, would administration be able to propose some options or some words that might be helpful or how that could be achieved as part of the Briefing Notes and that might not be in the Policy it might be in some subsidiary guidelines. That might be useful information for Cr Members.

10 MAY 2022

EXECUTIVE DIRECTOR COMMUNITY AND BUSINESS SERVICES:

Antisocial behaviour is mentioned in the existing policy and hire conditions. The issue has been resident dissatisfaction with the City's speed in resolving these issues in a timely matter, which can be addressed by more quickly activating the customer complaint process documented in Policy 4.1.3.

CR IOPPOLO:

Under Policy 4.1.3, Customer Complaints Management and Procedures, is there a required time for Administration to get back to the complainant about the investigations that are occurring

EXECUTIVE DIRECTOR COMMUNITY AND BUSINESS SERVICES:

In accordance with the City's Customer Service Charter -

- We will acknowledge emails within two working days and, any written request within five working days of receipt.
- Whenever possible, we will provide a completion date when requests require in-depth research which will take longer than 10 working days.

The formal Customer Complaint process in Policy 4.1.3 also sets time frames for each step of the complaints process.

CR IOPPOLO:

Could we be advised of how many complaints under that Policy have been made in relation to the Beatty Park Reserve specifically over the last 2 years and importantly how many people, i.e. 10 complaints from 2 people or is it 10 complaints from 10 people

EXECUTIVE DIRECTOR COMMUNITY AND BUSINESS SERVICES:

A list of complaints from the past 2 years is summarised below. [SC] refers to one club who were cancelled in March 2022.

- In this period there were 17 complaints, and 9 referenced club [SC]. 12 complaints were from 2 residents.
- In March 2021 club [SC] were provided with a warning for public urination. On the next occasion, March 2022 their booking was cancelled.
- Two complaints related to groups who used the reserve without a booking.
- Three complaints were of a general nature and referred to issues from previous seasons.
- Three complaints related to individuals changing into or out of sports gear, and one was a swimmer at BPLC.

Date	Issue	Complainant (R =Resident)
March 2022	Urination by senior soccer player under tree (Club bookings cancelled) [SC]	Cr Worner
March 2022	Swearing [SC]	R1
March 2022	AFL players on ground (unbooked)	R1
March 2022	Player getting changed, no nudity [SC]	R1
March 2022	Swearing. Referred to complaints from other residents.[SC]	R5
January 2022	Early morning training group (unbooked)	R1
January 2022	Perth Junior Soccer kids too close to Northern edge of reserve (club sent email reminder and BPLC Manager attended oval for next few weeks to assist with correct setup)	R1
Dec 2021	Perth Junior Soccer Club too close to playground (Coach asked to move over)	R2
Sept 2021	Player getting changed in carpark (was a BPLC Swimmer)	R3
Sept 2021	List of issues provided for season review (setup, hours of use, toilets availability, noise) [SC]	R3
June 2021	Club late to finish by 8 minutes. And noisy (BPLC Supervisor attended and Club were finished) [SC]	R3

10 MAY 2022

April 2021	List of issues that may arise during soccer season and asking how they may be dealt with [SC]	R3
April 2021	Public getting changed (no nudity)	R2
April 2021	Goals setup incorrectly – balls kicked into yard and against fence (Club contacted and this was addressed) [SC]	R3

September 2020	Afl 9's noise	R1

CR ALEXANDER:

There is a dearth of sporting ovals in Vincent as we know and I am supportive of this being a sporting oval but there are a number of things that concern me. Are we just going to maintain. I don't see anything in these new regulations that are going to solve the problem that we have had there in the past. So given that there has been all the trouble because there is no changerooms, what is going to be different this time, because it just went on and on and on, where the sporting people did the wrong thing and were never held to account. It was just an open wound. What in the new regulations are going to be different this time. Do you believe the only way to achieve this that if there are changerooms there then it's a sporting field, if changerooms are not there then you don't have a sporting field.

EXECUTIVE DIRECTOR COMMUNITY AND BUSINESS SERVICES:

Complaints at Beatty Park related to one local club and that club has now been prohibited from using the reserve. As mention earlier, the resident frustration built up for several years and it is reasonable that the process is reviewed and improved to deal with the situation in a more timely manner. The City has already made changes to ensure more timely resolution of complaints. This has included:

- (a) Creating the role of Coordinator Sport and Recreation who liaises with clubs to ensure they are meeting the required standards and addresses issues that arise.
- (b) Moving the Sport and Recreation portfolio, and the booking of halls and reserves, to the team at Beatty Park Leisure Centre who are experts in dealing with sports clubs, sport facilities and customer management.
- (c) Improving the timely management of complaints through this team
- (d) Ensuring seasonal ground allocations consider resident and community feedback from one season to the next.
- (e) Customising the terms of use for specific clubs based on feedback from the previous season.

A dedicated complaints process was created for the residents at Beatty Park Reserve to enable them to have their complaints managed in real time by having a duty manager from Beatty Park to attend, however they later provided feedback that they felt the process was inadequate and did not meet their needs.

As mentioned above, the complaint process for residents can also be improved for complaints that are of a more serious or prolonged nature.

It should be noted that Beatty Park Reserve is also used regularly by 40 families and children for junior sports training without attracting similar complaints from residents.

As to the question about changerooms. Birdwood and Beatty Park are both designated as sports grounds in the Public Open Space Strategy and are being used in that manner.

All hirers are made aware that toilets are available at Beatty Park Leisure Centre via a fixed sign at the reserve (as requested by residents) and as part of the email confirmation. The distance from Beatty Park Reserve to the toilets at Beatty Park Leisure Centre is similar to the larger grounds ie Britannia. Hirers using Birdwood are aware there are no bathrooms available. Schools using Birdwood for carnivals will use portaloo's organised/paid for by the school.

The City is currently working on a more strategic Sport and Facilities Plan that will evaluate the minimum requirements and needs for each ground and will consider the issue of facilities. This plan will also call for public comments.

10 MAY 2022

CR ALEXANDER:

What is going to be different to what has happened in the past? What in these regulations is going to be different because the sporting people who have used it generally have been getting changed there and urinating there so what in these regulations is now going to be different?

EXECUTIVE DIRECTOR COMMUNITY AND BUSINESS SERVICES:

Refer response above.

CR CASTLE:

Last dot point in that clause refers to hours of use, I am just wondering if that is intended to cover the total hours of use in a week for example, rather than just in a particular session? Would that be considered as part of that degree or that assessment of intensity? If you are looking across bookings for a number of clubs on the 1 reserve, are you keeping track of how many hours it is being used and sort of accumulative intensity I suppose for over a course of a week?

EXECUTIVE DIRECTOR COMMUNITY AND BUSINESS SERVICES:

When taking applications for seasonal hire the City looks at the whole week before approving allocations and the accumulative intensity is considered. The parks team are also involved in reviewing the plan to ensure the ground can accommodate the level of intensity. Yes, the team is keeping track of this.

CR CASTLE:

Was there any consideration given to aligning the definitions of the sportsgrounds with the Public Open Space Strategy, so that there was a connection between how we have classified those reserves in that strategy, with how we might define them in this particular one because we have obviously had a discussion about changerooms and toilet facilities and where they fit in the Public Open Space Strategy and whether they are then considered active sportsgrounds so I am just wondering if there should be some sort of link between that Strategy that sits above this Policy and how they interact

EXECUTIVE DIRECTOR COMMUNITY AND BUSINESS SERVICES:

The ground is being used in a manner consistent to its designation in the Public Open Space Strategy. As a "reserve" it has a primary purpose of:

- Passive Recreation
- Passive Activities
- Dog Exercise Area
- Playground
- Access Way
- Town Centre
- Active Recreation
- Sport Stadium
- Sports Ground
- Tennis Club
- Lawn Bowls Club

Beatty Park Reserve has the designation of sports ground, and its manner of use is consistent with this.

MANAGER POLICY AND PLACE:

Administration completed a public open space amenity gap review in 2020/21. This identified gaps in amenity to provide the minimum standard of provision across the City's public open spaces. Beatty Park Reserve did not identify any gaps to achieve the minimum standard, therefore other amenities across the City are of a higher priority. The City is currently completing the Sport and Recreation Plan which will assess the provision further and will result in a program of works and upgrades that align with the findings, the City's Long Term Financial Plan and the City's Asset Management Sustainability Strategy. This may result in either public toilets, a sporting pavilion or no further amenities required.

CR WALLACE:

Intensity of use, section in policy does a really good job of generally describing the principles through which we decide if the intensity of use was appropriate or not, if any consideration was given to proposing a cap on the amount of hours that certain fields could be used for? We have the maximum hours of operation, if some of these fields were to be used for the entire length of those maximum hours of operation, I think most people would be of the view that that's too intense. Have we considered putting a limit on the number of hours?

10 MAY 2022

EXECUTIVE DIRECTOR COMMUNITY AND BUSINESS SERVICES:

Refer to the response to Cr Castle above.

The accumulative intensity is considered by the allocation team and that, in turn, considers a range of interdependent variables.

While the policy sets the range of hours the grounds are available, the sports grounds cannot physically tolerate bookings for the full duration.

It should also be noted that even when the ground is booked, it is rare that the whole reserve is used. When Beatty Park Reserve is in use for Junior Soccer there is ¼ of the available space on the reserve for the public to use. So the intensity is not only about bookings, but the amount of space used, type of use etc. Dog walkers and passive users can also use the outskirts of the Beatty Park reserve and can also head north to Smith's Lake Reserve and through to Charles Veryard Reserve.

CR WORNER:

Community consultation – we need to be asking these questions. I feel like if we are just on the Socials, the newspapers, the noticeboard and the website, we might actually be missing a lot of people and this is a great opportunity to be out there talking to people. I know that puts pressure on resources and staffing and I apologise for that, but this is the perfect thing to go out to different organisations, different sporting grounds, to actually get that feedback. Is that a possibility?

EXECUTIVE DIRECTOR COMMUNITY AND BUSINESS SERVICES:

Administration will consider how to create opportunity for community and sports ground user input. One consideration is that the City is also consulting with the same groups for the Sport and Recreation Plan over the coming 12 months, so consideration will be given how best to coordinate those processes.

At 6:38 pm, Cr Susan Gontaszewski returned to the meeting.

10 MAY 2022

DRAFT ACCESS AND INCLUSION PLAN 2022-2027 - APPROVAL FOR PUBLIC V7.6 CONSULTATION

Attachments: 1. Draft City of Vincent Access and Inclusion Plan 2022-2027 **RECOMMENDATION:**

That Council:

- RECEIVES the Draft Access and Inclusion Plan 2022-2027, at Attachment 1 1.
- 2. AUTHORISES the Chief Executive Officer to provide local public notice of the Draft Access and Inclusion Plan 2022-2027 for public comment for a period of 21 days, inviting written submissions in accordance with the City's Community and Stakeholder Engagement Policy

CR GONTASZEWSKI:

Would it be possible in the Briefing Notes to get a breakdown of costs and if they are amounts that are proposed to be drawn from generic buckets, as to where they would fit

EXECUTIVE DIRECTOR COMMUNITY & BUSINESS SERVICES:

The draft DAIP includes a mix of:

- actions that have no financial costs but are process and planning changes
- actions which will have a specific budget allocation •
- actions which can be covered under existing budgets •

Request for specific budget for 2022/23:

Access and Inclusion - \$20,000 has been requested for events, partner projects, increased promotion, marketing, trialling augmented communication boards, Auslan interpreters and some training initiatives. ACROD Parking Improvement Program is under the Car Parking Renewal Program - requested \$30,000 for survey and mapping of public ACROD parking bays and \$30,000 each year after (4 years) for implementation.

City Buildings and Asset Management - \$50,000 additional requested each year for five years for DAIP initiatives (building audits, upgrades and additions).

Actions covered under existing projects and budgets include:

Website accessibility - existing website improvement budget

IT improvements – existing ICT budget All staff training – existing training budget

Footpaths maintenance - increase has been requested to footpath maintenance budget (not specific to DAIP) but would ensure that DAIP priorities are addressed when undertaking footpath renewal and maintenance.

CR LODEN:

Did we engage with the education support centre in Mt Hawthorn?

EXECUTIVE DIRECTOR COMMUNITY & BUSINESS SERVICES:

Yes. The Education Support Centre was contacted and sent the draft plan for feedback. They indicated they were supportive of the plan and no amendments were requested.

10 MAY 2022

8 CHIEF EXECUTIVE OFFICER

8.1 ANNUAL REVIEW OF COUNCIL DELEGATIONS

Attachments: 1. Register of Council Delegations - Marked up for 2022 Review RECOMMENDATION:

That Council:

- 1. NOTES the annual review of its delegations in accordance with Section 5.46(2) of the *Local Government Act 1995*, as outlined in this report; and
- 2. DELEGATES BY ABSOLUTE MAJORITY the local government functions listed in the City's Council Delegated Authority Register included as Attachment 1.

CR IOPPOLO (PROVIDED IN WRITING PRIOR TO THE BRIEFING):

In relation to 2.2.28 Power to invest and manage investments, please clarify if the amendment is seeking to increase the CEO's power to invest and manage investments from 1 to 3 years or is it the review and reporting requirements only?

EXECUTIVE MANAGER CORPORATE STRATEGY & GOVERNANCE:

The delegation condition is changed to require that the internal control procedures in respect to investment activity are presented to the Audit Committee every three years for confirmation as 'fit for purpose' rather than every year. This aligns with the requirements of regulation 17 of the Local Government (Audit) Regulations 1996. Council's Investment Policy <u>https://www.vincent.wa.gov.au/documents/642/investment-policy</u> provides the parameters for the CEO's approach to investment.

CR IOPPOLO (PROVIDED IN WRITING PRIOR TO THE BRIEFING):

Reference is provided twice on page 2 in relation to 2.2.32? Please confirm this is a typographical error in one of those references as one relates to a deleted delegation and the other a new of delegation? **EXECUTIVE MANAGER CORPORATE STRATEGY & GOVERNANCE:**

The current 2.2.32 Appointment of Authorised Persons is proposed to be deleted. A replacement (new) delegation for Appointment of Community Directors – Leederville Gardens, will take up the delegation 'number'.

CR IOPPOLO (PROVIDED IN WRITING PRIOR TO THE BRIEFING):

Why hasn't 2.1.1 Delegation on page 14 related to COVID-19 Relief and Recovery Committee been struck out as per intent in the briefing?

EXECUTIVE MANAGER CORPORATE STRATEGY & GOVERNANCE:

Delegation 2.1.1 should be struck out in the attachment. It is recommended for deletion. The attachment has been updated for the Council Agenda and the renumbering of Delegation 2.1.2 (Behaviour Complaints Committee) to 2.1.1 has been noted in the report.

CR IOPPOLO (PROVIDED IN WRITING PRIOR TO THE BRIEFING):

Regarding delegations that relate to demolition of any structures/building on a heritage place, please confirm the inclusion of the words, <u>"unless the structure/building does not contribute to the heritage significance of the heritage place</u>" means that for example, the Smith Street Highgate Place of Worship application from the 8 March 2022 Council Meeting would not come for Council consideration because the works related to the Hall could be deemed by Administration to not be as culturally significant as the Church, even though the entire site is Heritage Listed?

MANAGER DEVELOPMENT AND DESIGN:

Yes. The intent of this addition to the delegation is that modification to those structures that are not part of the 'statement of significance' adopted by Council for that heritage place can be determined under delegated authority.

10 MAY 2022

	ment application at No. 31 Smith Street, Highgate was for modifications to a part of a heritage as not part of its 'statement of significance' adopted by Council and so would not have gone to
	letermination if this change was in place.
	O (PROVIDED IN WRITING PRIOR TO THE BRIEFING):
	he request that the CEO have the authority to select appointments of Community Directors to the Gardens Board of Management, please confirm:
	Whether these are paid appointments
b. \	Whether these are external appointments or from Councillors and
c. \	Whether the City is in any way responsible for the conduct of such appointments
EXECUTIVE	MANAGER CORPORATE STRATEGY & GOVERNANCE:
	f Association for Leederville Gardens Inc provides –
14. Selection	criteria
(1) The Boa City.	ard will review the selection criteria every year and send any revisions to the
	e City has agreed to the revised selection criteria they will remain in place until or new selection criteria are developed by the Board and approved by the
City.	or new selection chiena are developed by the board and approved by the
18. Appo	intment of community Directors by the City
	e Secretary will give the City at least 90 days' notice of the expiry of the term of ce of each community Director appointed by the City.
	e City will run a search and selection process for each community Director to be pointed by the City, before that position becomes vacant, as follows:
	(a) The City will use the selection criteria in its search and selection process.
	(b) The City will provide a shortlist of potential appointees to the Board.
	(c) The Board will interview the potential appointees and recommend to the City its preferred candidate for appointment to the Board.
	(d) The City will appoint one (or more) of the potential appointees to the Board after taking into consideration the Board's recommendation and the selection criteria.
(3) Wh	ere a community Director is eligible for reappointment and confirms their
willi	ingness to be reappointed, and the Board recommends that they be reappointed, City may reappoint them without undertaking a search and selection process.
27. Payment	ts to Directors and subcommittee members
	tor or a member of any subcommittee is entitled to be paid out of the funds of sociation only if:
(a)	the payment is for any out-of-pocket expenses for travel and accommodation in connection with the performance of the Director's functions; or
(b)	the payment is authorised by resolution at a general meeting on the basis that the payment is:
	 reimbursement for an expense not referred to in rule 27(1)(a), that has been properly incurred in connection with the Association's business; or
	 a fee or allowance for the Director or subcommittee member's work not exceeding reasonable market rates for that work.
	the Leederville Gardens Inc Board recommends to the City the appointment of a Board Director rtlist provided by the City.
The role is in	n essence a 'voluntary' one and external to Council Members.
	O (PROVIDED IN WRITING PRIOR TO THE BRIEFING):
	e authority sort includes extending the CEO's ability to appoint Authorised Persons with
delegation po	owers and that:
	Authorised Persons may not necessarily be employees of the City and
	the Local Government Act s5.71 only requires that employees are required to disclose conflicts and
0	

f. a delegate must otherwise ensure that there is no actual or perceived conflict

where is the protection and accountability where the CEO delegates to a delegate where there indeed exists a conflict?

EXECUTIVE MANAGER CORPORATE STRATEGY & GOVERNANCE:

There is a legislative requirement that the Employee Code of Conduct extends to those engaged by the City of Vincent under a contract for service. The Code addresses (as legislatively required) the management of conflict of interest of those subject to the Code in their decision-making role.

The management of conflicts of interest is addressed in letters of appointment, induction training and organisational procedures.

CR IOPPOLO (PROVIDED IN WRITING PRIOR TO THE BRIEFING):

Regarding delegations under 16.1.1 relating to taverns accommodating less than 120 patrons, in assessing why this maybe appropriate, what proportion of such applications are likely to relate to less than 120 patrons and therefore not required to come to Council for consideration?

MANAGER DEVELOPMENT AND DESIGN:

The delegation is proposed so that 'Small Bars' that are looking to sell packaged liquor (i.e. also acting as a 'Liquor Store') are also able to be determined under delegated authority.

A 'Small Bar' is defined as a licensed premises with a capacity of less than 120 people.

Under State Government planning exemptions and subject to conditions, there are exemptions from the need to obtain planning approval for a Small Bar and Liquor Store- Small.

The CEO currently has delegation to determine applications for Small Bars and Liquor Stores on their own if there are not more than 5 objections.

The change proposes to allow the CEO to determine proposals that combine these two uses (i.e. a Tavern that accommodates less than 120 patrons).

Three development applications proposing Taverns have been submitted to the City over the last year. All three of these propose less than 120 patrons and under the proposed delegation all of these would be determined under delegated authority provided there was not more than 5 objections.

10 MAY 2022

COUNCIL BRIEFING NOTES

8.2 APPROVAL TO ADVERTISE DRAFT LOCAL GOVERNMENT PROPERTY AMENDMENT LOCAL LAW 2022

Attachments:

- 1. Local Government Property Amendment Local Law 2022
- 2. Local Government Property Local Law 2021 Tracked Changes
- 3. Table of Amendments
- 4. Final Memorandum of Legal Advice Confidential

RECOMMENDATION:

That Council:

- 1. AUTHORISES the Chief Executive Officer to provide local public notice in accordance with section 3.12(3) of the *Local Government Act 1995*, for a period of at least 6 weeks, that:
 - 1.1 it is proposed to make the City of Vincent Local Government Property Amendment Local Law 2022 at Attachment 1;
 - 1.2 The purpose of the City of Vincent Local Government Property Amendment Local Law 2022 is to:
 - 1.2.1 amend clause 1.6 by inserting additional definitions for 'election day', 'election period', and 'election sign';
 - 1.2.2 amend clause 5.3(I) to delete the restriction on mobile phone use in a change room at a community facility, and to insert the restriction on any person taking images or recording of another person without their prior consent in a change room at a community facility;
 - 1.2.3 amend clause 5.14 to specify the responsibility of property owners to maintain awnings, balconies, and verandahs applies to those which are erected over a thoroughfare;
 - 1.2.4 amend clause 5.16(c) and (d) to specify that smoke free areas do not include vehicles within thoroughfares;
 - 1.2.5 amend clause 6.1(e) to change term from a 'minor nature development' to a 'minor sign' and provide further clarity to the definition;
 - 1.2.6 amend clause 6.8 to align with the City's Election Signs Policy provisions for erection of signs on local government property without requiring a permit and to specify conditions for the City in determining an application for a permit for an election sign;
 - 1.2.7 delete clause 13.2(f) to remove the provision for an approved manager to refuse entry, suspend admission, or direct a person to leave a local government facility due to a person being deemed undesirable by reason of their past conduct; and
 - 1.2.8 amend typographical errors in and further clarify clauses 1.6, 4.4(2), 5.13, 6.2(2)(a), 6.3(1), 6.3(2)(a), 9.3(2), 9.7(1)(f), and 9.11(1);
 - 1.3 The effect of the City of Vincent Local Government Property Amendment Local Law 2022 is to:
 - 1.3.1 note and clarify new definitions used throughout additions to clause 6.8 regarding election signs;
 - 1.3.2 clarify that no images or recording shall be taken of another person in a change room at a community facility without their prior consent;
 - 1.3.3 clarify that owners with properties which have awnings, balconies, and verandahs

over thoroughfares have a public safety duty to maintain them;

- 1.3.4 clarify that persons smoking within their own private property (being a vehicle) situated on a thoroughfare in a smoke free area is not prohibited by the local law;
- 1.3.5 remove any confusion due to terminology used for signs in local planning policies and the City of Vincent's Local Planning Scheme No. 2;
- 1.3.6 clarify the conditions under which erection of an election sign on local government property does not require a permit and to provide guidance for the City in determining an application for a permit for an election sign;
- 1.3.7 remove grounds for discrimination in this manner against any person on local government property or in a community facility by an authorised person or approved manager; and
- 1.3.8 provide clarity in clauses 1.6, 4.4(2), 5.13, 6.2(2)(a), 6.3(1), 6.3(2)(a), 9.3(2), 9.7(1)(f), and 9.11(1);
- 1.4 Copies of the proposed amendment local law are available for inspection at the City's office, Library and Local History Centre and on its website;
- 2. NOTES that in accordance with Section 3.12(3)(b) of the *Local Government Act 1995* a copy of the proposed amendment local law and public notice will be provided to the Minister for Local Government;
- 3. NOTES that any submissions received as a result of the public notice provided as set out in recommendation 1. above will be presented to Council for consideration; and
- 4. RESPONDS to the Joint Standing Committee on Delegated Legislation indicating its intention to amend clause 5.3(I), as reflected in Attachment 1.

NO QUESTIONS

10 MAY 2022

8.3 OUTCOME OF ADVERTISING NEW TEMPORARY EMPLOYMENT OR APPOINTMENT OF CEO POLICY

Attachments:

- 1. Temporary Employment or Appointment of CEO Policy
- 2. WALGA Template Policy Temporary Employment or Appointment of CEO

RECOMMENDATION:

That Council ADOPTS BY ABSOLUTE MAJORITY the new Temporary Employment or Appointment of CEO Policy at Attachment 1.

CR IOPPOLO:

Queried whether the policy would allow the renumeration of acting appointments to exceed the substantive CEO reward package.

EXECUTIVE MANAGER CORPORATE STRATEGY & GOVERNANCE:

Minor amendments to clause 4.1 and 4.2 have been added to provide clarification of the City's existing practice that the determined renumeration and benefits for acting appointments must not exceed the substantive CEO's total reward package.

10 MAY 2022

8.4 OUTCOME OF ADVERTISING AMENDED COUNCIL MEMBERS – ALLOWANCES, FEES AND REIMBURSEMENT OF EXPENSES POLICY AND PROPOSED REPEAL OF CIVIC FUNCTIONS POLICY

Attachments:

- 1. Council Members Allowances, Fees and Reimbursement of Expenses Policy (clean copy)
 - 2. Council Members Allowances, Fees and Reimbursement of Expenses Policy (marked up)
 - 3. Civic Functions, Ceremonies, Receptions and Provision of Hospitality Policy and the use of Council Chamber, Function Room and Committee Room Policy (4.1.29)

RECOMMENDATION:

That the Council:

- 1. ADOPTS the Council Members Allowances, Fees and Reimbursement of Expenses Policy at Attachment 1; and
- 2. REPEALS Policy No. 4.1.29 Civic Functions, Ceremonies, Receptions and Provision of Hospitality Policy and the use of Council Chamber, Function Room and Committee Room at Attachment 3.

NO QUESTIONS:

10 MAY 2022

8.5 PROPOSED REPEAL OF LOCAL GOVERNMENT ELECTIONS POLICY
Attachments: 1. Policy No. 4.2.14 - Local Government Elections
RECOMMENDATION:

That Council REPEAL Policy No. 4.2.14 – Local Government Elections Policy at Attachment 1.

NO QUESTIONS

8.6 OUTCOME OF ADVERTISING AMENDED COUNCIL MEMBERS CONTINUING PROFESSIONAL DEVELOPMENT POLICY

Attachments:

- 1. Council Member Continuing Professional Development Policy (clean copy)
- 2. Council Member Continuing Professional Development Policy (marked
- up)
- 3. WALGA Template Policy Council Members Continuing Professional Development

RECOMMENDATION:

That Council ADOPTS BY ABSOLUTE MAJORITY the Council Member Continuing Professional Development Policy at Attachment 1.

NO QUESTIONS

10 MAY 2022

8.7 ADVERTISING OF AMENDED POLICY - COUNCIL MEMBER CONTACT WITH DEVELOPERS

Attachments: 1. Council Member Contact with Developers Policy (Marked Up)

RECOMMENDATION:

That Council APPROVES the proposed amendments to the Council Member Contact with Developers Policy, at Attachment 1, for the purpose of community consultation.

CR GONTASZEWSKI:

Clarity in relation to how Admin segregates decision making from person who signs off on the application. How does the City ensure that the staff member who is a decision maker - how do they manage the contact with developer. Is there any restriction in relation to decision makers contact with developer – or documentation on when an officer contacts developer.

EXECUTIVE MANAGER CORPORATE STRATEGY & GOVERNANCE:

The City's Code of Conduct for Employees, supplemented by induction and training, underpins Administration's approach to delegated decision-making. City officer contact with members of the public, including those seeking advice on and subsequent approval of development is a routine and regular part of officer duties. It would be impracticable to separately record these types of contact, however local government record keeping requirements prevail and contact is capture through this mechanism.

Administration separates the development assessment process and the development approval process, with appropriate oversight in place.

CR CASTLE:

Different types of contact and how will they be dealt with?

EXECUTIVE MANAGER CORPORATE STRATEGY & GOVERNANCE:

The Policy provides the definition of 'Contact' and 'Exempt Contact'. An 'Exempt Contact' "does not involve the Council member engaging in any discussion or communication with the developer on the planning or development proposal."

The introduction of the Policy identifies that contact with developers "can sometimes lead to allegations or perceptions of bias, influence or even corruption being made towards Council Members" and that stakeholders "must have trust in Council members' ability to make decisions free of influence or the perception of influence".

A contact should be recorded where the substance of that contact could give rise to a possible allegation of bias or influence. It would be up to the Council Member to determine whether a contact is an 'Exempt Contact'. It will depend on the nature and detail of the contact initiated by the developer, and the nature and detail of any response.

A simple contact from a developer to which the Council Member responds by directing the developer to the Administration, pragmatically could be seen as an 'Exempt Contact'. Any response where the Council Member seeks further information or engages in the nature of the development would likely not be seen as 'Exempt'.

CR IOPPOLO:

Requested clarification in relation to recording contact with developers prior to the lodgement of a development application.

EXECUTIVE MANAGER CORPORATE STRATEGY & GOVERNANCE:

Administration has considered the practicalities of the City maintaining a register for Council Members to record contact with developers prior to the lodgement of a Development Application (DA). It is recommended that the City provides Council Members with a log to record any contact with developers that occurs prior to a DA submission. These logs can be kept in accordance with the record keeping requirements for Council Members.

This will underpin the Council Member's responsibilities to record and then declare any contact when a Development Application becomes 'live'.

10 MAY 2022

8.8 VINCENT UNDERGROUND POWER PROJECT (VUPP)

1. Invitation to participate - Tranche 2 - NRUPP

- 2. NRUPPT2 Presentation
- 3. Memorandum of Understanding
- 4. Project Summary

RECOMMENDATION:

That Council:

Attachments:

- 1. NOTES the invitation from Western Power for the City of Vincent to participate in Tranche 2 of the Network Renewal Underground Pilot Program (NRUPP) at Attachment 1.
- 2. NOTES the proposed project areas would underground power at 5,336 electricity service meters in 1) North Perth/Mount Lawley, 2) North Perth/Mount Hawthorn and 3) Perth/Highgate as per the boundaries identified in the maps contained in Attachment 2.
- 3. NOTES Western Power advice that the overhead network assets in these areas are coming to the end of their service life for replacement and renewal. The poles and wires would be replaced like for like with an expected serviceable life of 40-50 years in the event the City does not co-partner in an underground power project.
- 4. AUTHORISES the CEO to sign the Memorandum of Understanding at Attachment 3 to enable Western Power to commence detailed design of the project.
- 5. NOTES the project summary at Attachment 4 will be included as a new Strategic Project in the Corporate Business Plan 2023/24-2027/28.
- 6. REQUESTS Administration to prepare a preliminary business case on participation in NRUPP Tranche 2 as part of the prepartion of the Annual Budget and update to the Corporate Business Plan (noting that the final business case would be finalised following 12 months of detailed design by Western Power which will confirm estimated costs for the project).
- 7. APPROVE utilisation of \$222,000 in the Underground Power Reserve to provide for two FTE over 12 months for project management and community engagement work to undertake this significant project.

ROSS IOPPOLO:

1. Regarding the recommendation 7 that Council approve use of \$222k in the City's Underground Reserve to manage the project, what is the total amount in that reserve and what proportion of all annual rates is typically collected from ratepayers in Vincent from the 3 designated project areas?

CHIEF EXECUTIVE OFFICER:

\$216,000 is the total amount in the reserve. The 3 project areas include properties which account for 26% of total rate revenue.

2. If the % requested above is not proportional to what has been collected from these 3 project areas, would administration agree it is equitable that only the proportion of the reserve be spent that relates to these areas benefiting?

CHIEF EXECUTIVE OFFICER:

Administration is recommending the City utilises the entire \$216,000 currently in the reserve to project manage the Vincent Underground Power Program. The City would be aiming for this to become a rolling program to provide underground power through out the City of Vincent following completion of the first three project areas. The program is commencing in those areas identified by Western Power as meeting the criteria for underground power under NRUPP due to the age and condition of the infrastructure. The City collects rates, some of which is held in reserve, to fund the full range of City projects, programs and

services. Many new projects have a very specific locational benefit (eg. an upgrade to a park or building).

Very few programs provide such a transformational impact across the City in terms of increasing public amenity, streetscape appearance and increased urban tree canopy as undergrounding power.

Council decides the amount allocated to the City's reserves during the adoption of the Annual Budget.

Council sets the budget each year in alignment with the Corporate Business Plan and Four Year Capital Works Program to ensure the City is meeting its obligations and priorities across the entire City.

The equity of the City's expenditure on individual projects, programs and services must be considered across the entire suite of the Corporate Business Plan and Four Year Capital Works Program taking into account priority and need.

Administration considers underground power a very high priority and community consultation being undertaken for the review of the Strategic Community Plan is showing strong support for the amenity benefits and improvement to tree canopy that results from undergrounding overhead distribution power lines.

Underground power delivers lower operating and maintenance costs, improved network reliability and security, better public safety, an improved street appearance, opportunities for increased and more sustainable tree canopy and enhanced opportunities for emerging technologies.

Administration has no concerns about recommending expenditure to appropriately project manage the VUPP in an identical manner for the City's other major projects and programs.

The total project cost is estimated to be \$48.9 million. The City of Vincent portion of this would be around \$17-18 million.

It would be a high risk to the success of the program if the City did not ensure appropriate resourcing for project management and community engagement on this transformational project.

3. Has Administration sought to amend the MOU such that the definition of Project and Project Area is limited to the relevant meters falling within the City of Vincent because the relevant Project Areas go beyond the City's boundaries in certain areas? Specifically, Annexure 2 – Project Area North Perth/Mt Hawthorn extends north of Green St.

CHIEF EXECUTIVE OFFICER:

The project area does incorporate properties within the City of Stirling.

Western Power will liaise with the City of Stirling on that section of the project and it will liaise with the City of Vincent on properties within our local government boundary.

The City of Stirling would be responsible for engaging with affected properties within its local government boundary.

For clarity, the City has updated the MOU to confirm it is only responsible for those meters which fall within the City's local government boundary as follows:

1d:

Western Power and the LGA wish to jointly investigate replacing these overhead distribution assets with underground assets <u>"contained in the Project Area which are within the City of Vincent local government boundary"</u>, as this is expected to be mutually beneficial and result in an efficient solution for Western Power and the LGA.

4. Does the Project on a Page on page 33 require amendment to note that expenditure type is both OPEX and CAPEX and update for Project Manager Craig Wilson who has retired?

DAN LODEN:

My additional questions are also on the \$222,000. My understanding is that this is the amount in the reserve, however it is likely that the cost to fulfill our obligations under this MoU is different, weather higher or lower. Does administration have a view on what the cost of supporting the MoU from now through to the end of the

10 MAY 2022

end of the MoU obligations?

If the amount is larger then should the resolution request additional funds as well?

If the amount is less then why not adjust the amount released from reserve to this amount?

CHIEF EXECUTIVE OFFICER:

Administration estimates that the now Reserve balance of \$216,000 would be sufficient to provide project management and community engagement resourcing for the first 12 months of the duration of the program.

This would cover the detailed design and community engagement stages of the project.

Administration will provide further advice about resourcing the subsequent stages of the program when Council considers the Co-Funding Agreement in 2023.

RECOMMENDATION:

That Council RECEIVES the Information Bulletin dated May 2022.

CR LODEN:

Could we please have some more information on how development application timeframes are calculated? Is there a way to tell how long it is taking to process development applications?

MANAGER DEVELOPMENT AND DESIGN:

The City's statutory timeframes for processing of development applications are:

- 60 days to determine applications where no community consultation is required;
- 90 days if community consultation is required; or
- Another timeframe agreed by the applicant.

As per the Planning Regulations, where the City requests amended plans and/or additional information they are also requested to agree that the 60 or 90 day timeframe be extended by the time it takes for them to provide this information.

This means that the 60/90 day timeframe is effectively extended by the amount of days that the applicant needs to amend their plans or to provide additional information.

The City and the applicant generally do not have a final agreed timeframe for an application until the time of determination. This is because the agreed timeframes change throughout the assessment period.

In terms of reporting timeframes of development applications to Council, the City's internal reporting system is structured in a way where the timeframes are 'paused' when the City is awaiting amended plans and/or additional information to be submitted by the applicant or when the application crosses over a holiday period. The reporting therefore removes the additional period of time that the applicant has agreed to from the 60 or 90 days, as per provisions within the Planning Regulations.

The City's internal reporting system presents some constraints to how information is reported on but the way the data is presented can be changed. Administration will continue to review how data is presented in the Information Bulletin to improve clarity around agreed timeframes.
